I speak as in the Lower and District and I know that it was a way of life for people who depended to go out on the morning to catch the fish for dinner, who cannot take this away from them, Sir. If a method of getting this animal of food is by the use of spear guns I feel, Mr. President, that a proper way and reasonable way should be to impose whatever restrictions are necessary. Personally, we should not impose a total ban in the use of spear guns. It is our view, Mr. President, that they can use these to fish, but those of us who have had any amount of experience at fishing will know that we will go out there and therefore what amount of fish we were going to catch in a day. The speak gun is perhaps a bit more sophisticated and this is perhaps the reason why it is used.

Mr. President, some time ago I was invited to sit in a Committee formed to establish the marine parks system. I found it very easy to accept the invitation because of my feelings towards the protection of wild life. Mr. President, while I am speaking on this subject I think that in future this Honourable Assembly should consider enacting proper legislation to protect our bird life, because I too have seen an indiscriminate waste of

MR. EDWARD A. FERNOS (COMMENTATOR): this type of wild life. I have seen people go out and shoot for the sake of shooting and not even try to find the birds after they have shot them. This is also true, Mr. President, of the marine life.

A few days back I was on our waterfront near Fisherman with whom I came out. It was upsetting, Mr. President, to see the waste of the little "giggle eyes" on the beach. Some of them were drifting on the beach and nobody even bothered to pick them up because they were so small.

I have heard also, Mr. President, the indiscriminate use of seines where breakfish which are a sports fish and cannot be eaten have been caught and just left to die. I cannot support this type of behaviour Mr. President.

Section 25 of the Law, Mr. President, secures certain Regulations and it is noted that it is the intention to re-letter certain paragraphs of this section to take into account:-

> "(i)prescribing minimum sizes below which marine creatures may not be taken;
>
> (ii)prescribing closed seasons within which marine creatures may not be taken;
>
> (iii)prescribing areas within which marine creatures may not be taken;"

and also:-

> (o)prescribing areas within which fishing by certain methods only be permissible;"

The question, Mr. President, of marine parks also arises. This concept of life is not unique to the Cayman Islands. In many other tourist destinations it has been seen necessary to establish such parks. In the Caribbean region there are parks in the Bahamas, Barbados, Jamaica, Netherlands Antilles, Trinidad and Tobago, the United States Virgin Islands, Southern Florida and the Florida Keys. Mr. President, the reason why these parks were established was to protect marine life.

The plan creates, Mr. President, four types of zone which occur only 37 per cent of our shelf area around Grand Cayman. This amounts to only 29 square miles. That means that 63 per cent of the waters around this Island can still be used without the similar restrictions contained in the four zones.

The zones are non-fishing zone, line fishing zone, replenishment zone and environmental zone. I will not go into the details of these zones, Mr. President, as I covered these quite comprehensively in my budget debate. However, I feel, Mr. President, that it is fair to the people of the Cayman Islands, I also feel, Mr. President, that it should be accepted as a matter which has been given acceptable thought. The Honourable Third Elected Member of Executive Council mentioned some of the notable individuals who were involved in the study. It was done on a very serious and scientific basis, Mr. President. These zones were carefully selected by some of the leaders in our country. Contrary to what the Honourable First Elected Member of Executive Council mentioned I do not agree, Mr. President, that it is the fault of the line operators. This is not my understanding. From what I understand the line operators are very much interested in protecting our marine life. As a matter of fact they have had us in this

Mr. LORENZO A. TYERMAN (CONTINUING): Mr. Speaker, I can understand this, Mr. President, as they have a very strong vested interest in the preservation of our marine life. I also do not believe, Mr. President, that any of the official dive operators would deliberately destroy fish pots. I believe that if this is being done it is perhaps being done by divers, but not necessarily divers under the control of official dive operators.

I had to smile, Mr. President, when the honourable Third Elected Member of Executive Council said it was alarming to hear the honourable Acting Minister for this House today, when in fact the only other speaker was the honourable First Elected Member for Executive Council. However, I am sure he meant since the recent election.

Mr. President, the other area of this Bill which I would like to comment on is section 5 which seeks to repeal and replace section 25 of the principal Law. Section 25 of the principal Law stated:-

> 'Whoever contravenes any provision of this Law or any regulations is liable on summary conviction to a fine not exceeding $500 or imprisonment for a term not exceeding six months or both.'

Mr. President, it does seem rather unreasonable that this amount has been increased to $5,000 even though I agree that in order for us to get the people of this country and visitors here learning our laws with respect and paying attention, we have to ensure that the penalties are severe enough.

One saving feature of this Offence and Penalties clause is that it does say 'not exceeding $5,000'. The honourable First Elected Member of Executive Council made this point very clearly. It can be up to that amount, but not exceeding it, which means it can be much less. I like it, Mr. President, that this would depend on the magnitude of the offence which our Judiciary would see it fit to have to use the maximum penalty.

Mr. President, the Second Elected Member for West Bay stated that we must allow our fishermen to continue in their traditional form of fishing. Sir, I could not agree more. However, my question is, Sir, how will they be able to continue in their traditional form of fishing if the marine life is left to be destroyed? There will be no fish for them to catch.

Mr. President, it is in the interests of the people of the Cayman Islands and of the Cayman Islands as a whole. I believe, Sir, as I said in my debate on the Throne Speech that any Law or the Government must do things which can enable the people to live with them and do well. If we make the penalties under this Bill too harsh on our people we will be finding them to have to break the Law. I believe that any form of legislation must be in the interests of the people and the country. If we find that any section of our legislation is proving harsh, then it is our duty to make sure that we correct it.

I believe, Sir, as I said earlier that the amendment to this amendment which would seek to put a complete prohibition on the use of spear guns and or operate other methods of catching fish or marine life may be totally harsh and, Sir, I will have much more to say on this in Committee Stage.

Mr. President, I wish to make it clear that I support in full for a Law to amend the Marine Conservation Law, 1978 but I do not necessarily give my blessing to the amendment to this amendment Bill which could seek to prohibit the use of certain methods of catching fish or marine life.

Thank you, Mr. President.

MR. PRESIDENT: Does any other Honourable Member wish to speak? Then the Mover of the motion may wish to exercise his right of reply. The Honourable Fourth Elected Member of Executive Council.

HON. Miss G. JOHNSON: Mr. President, first I should like to commend the staff of this Honourable House that they apply to the Honourable Third Official Member for more money to replace these chairs. I would suggest that they re-stock durable chairs which can withstand weights of over 200 pounds. For when we sit in them we know not where we will fall at the present time. There are many collapsing from day to day.

Mr. President, I would like to thank all those Members who made contributions to the debate on this very important Bill which is before us, a Bill for a Law to amend the Marine Conservation Law, 1970. I am sure that there is not the need for me to comment very much on the substance of the Law and the proposed amendment to it in Committee Stage, for there have been many strong expressions of marine conservation who have given their blessing to the proposals here except for a few areas which I will comment on.

Mr. President, it seems that certain fractions of the opposition speak from an ill wind of life and pay little attention to the need for certain over-exploited marine life round these Little Islands. All the rhetoric which came from those speakers in the opposition gave no support, Mr. President, to the proposals put forward in this Bill. They were just finding fault with everything everywhere, and paid no heed to what is in the best interests of the people of these Islands. There was one Member, Mr. President, who said that he had nothing to do with this Bill, probably like what he said about the question of that sheep ling which he had nothing to do with after the collection came from the Lands and Survey. Mr. President, if I as the Member responsible for Lands and for the question of land, I must accept that responsibility until the deal is concluded. He should not abandon his responsibility half way through the game.

Mr. President, we were hammered on the head with this Bill by the Second Elected Member for South Town. He declared that it is the worst Bill which has come before this House. Of course political platforms could say more than that if it was possible because anything could please the Member more than to accuse the public with anything which we introduce in this House. As I understand it, Mr. President, they are drinking alcohol hour and insulting the public against all the measures which we are discussing in this House. They sit on the platform. They walk on the streets and they mislead the public.

Mr. President, let me say this. The measures which we are bringing to this House are measures which are strongly supported by the public. The opposition still think the proposal to prohibit spear guns, sarkos and nets are not serious. Mr. President, these proposals are emanating out of the proposed marine park system, and I wondered whether they would like to accept responsibility for the introduction of marine parks around the waters of these Islands. This is a matter which was put forward by the United Town Government as the Honourable Third Elected Member of Executive Council has just mentioned.

Mr. President, in talking around the proposal for the establishment of marine parks we commenced the various discussions on all aspects of control within these park areas, Mr. President. I have on record here the first meeting in East and

MOV. MIKEL O. GUNDERSON (CONTINUED): on the 21st February this year one of the petitioners here requested that Government look seriously into placing a ban on machine coal drill mats. This is coming from the district of Sept Ems. I'm assume they might not use space guns up there that much as they did not mention space guns here. . .

Mr. President, we came next to Mont Joly on the 25th February, and we have on record that the people requested that Government look into the possibility of preventing space gun firing. If this could not be done in such a manner a special license for special individuals in special areas be investigated only. They also at that same meeting, Mr. President, requested that Government look very seriously actions into precluding or prohibiting drill mats and scrims, and if that could not be done that somebody be put on the use of this type of apparatus.

Mr. President, we move to North Side on the 3rd February. There was a strong plea for nuclear only, a ban on space guns and two, a ban on machine coal drill mats.

Mr. Speaker, on Dublin Road on the 25th February, there was a strong plea there for the Government to take early action to preclude, most certainly but preclude space guns, drill mats and scrims. I wonder sometimes, Mr. President, who the Elected Member for Dublin Road represents in this House, whether it is the people of Dublin Road or the people of Pressure Zone.

Some morning since George Town on the 25th February, at the meeting here, Mr. President, there was also a strong plea for the banning of the use of space guns. So, Mr. President, although we have dealing with serious points in these serious meetings, you can see where the minds of the people are when we talked about aspect of nuclear life here. But there is the public, Mr. President, there is a strong decline in any control placed on this. People have spoken, Mr. President, that the growth of the population and the growth of the need to feed these people are becoming greater each day. People must feed first. However, Mr. President, if they are allowed to go into the oceans and scrape the bottom; take all the young cuttles they can find, take all the small baby lobsters they can find; take all the young conchs they can find, and go on the land and scrape out of the holes all the little crabs they can find, even those which are protected, and one imagine in a very short time from now what will be the position when one looks into the waters around these Islands. It is bad enough now.

In my opening address on this Bill I mentioned some of the conditions now existing in certain areas on the periphery of the use of these Islands. We need not come here and become compliments just for the sake of politics. We have a responsibility to the public and to the people of these Islands. When we go on the platforms outside this House we are acting on our political pledge whatever we say. However, when we come here, Mr. President, we have a responsibility to ourselves, to the public, to the country and we should not sit here and fiddle our time away just for political reasons. We must give our best to the country. That is the reason why we are selected by the people to represent them here, not to make here and spend the whole session trying to promote our political image as projected at the end of the Session when our performances are finally judged by the public.

Mr. President, I am sure that there is no need to pretend that there is not a cause to completely ban space guns, machine coal drill mats, because apart from what you have

HON. HARRY R. ANDERSON (CONTINUED): heard in this Committee. Now you need to only walk up the streets out there and pose the question, and you will hear a lot there. However, Mr. President, we do not want to take dramatic action if it is not going to please the Honorable Members here. In that case I will be quite prepared to recommend at Committee Stage that we look at the proposal to ban power guns, rather and pull nets. At least where power guns and nets are concerned we should place a restriction whereby only those people who can obtain a license which must be provided by Regulations under the Law would be permitted to use those instruments for fishing purposes. I would hope, Mr. President, that if that is agreed and instead of prohibiting the use of those instruments that the licenses be given to only responsible people so that we do not have little boys running all over the place with spear guns and destroying the bit of marine life which is left around the waters.

The restriction should also be for recreation users, in other words people should not be permitted to jump into George Town Harbour and start using spear guns or take their catches out there and operate the scene which we heard about, but that they go outside the populated area and use those things.

I know, Mr. President, that a strong plea was made for the four operators because without the use of the spear gun to catch a lobster or fish, then the boat would serve little purpose to their customers, and so it might affect the livelihood of those boat operators. It is for this reason that we would try to retain the prohibition on trolley spear guns and salmon and pull nets.

Mr. President, a lot has already been said about these proposals and I am hopeful that the Honourable Members will appreciate the need to introduce these measures, and that they will be given their grateful consideration.

Mr. President, I recommend the amendment to the Marine Conservation Law, 1978.

HON. MACGILLIVRAY: The question before the House is that a Bill for a Law to amend the Marine Conservation Law, 1978 be read a Second time.

QUESTION PUT: AYES AND NOES

HON. CAPT. CHARLES S. MACGILLIVRAY: May we have a division, Mr. President.

MR. PRESIDENT: I will ask the Clerk to carry on.

MR. PRESIDENT: I declare the motion agreed.

BILL GIVEN A SECOND READING AND PASSED BY MAJORITY

MR. SPEAKER: I think perhaps rather than start on other Bills at this stage, it may be a convenient moment to take our customary morning break. I will therefore suspend proceedings for approximately fifteen minutes until 11.30 a.m.

At 11.17 a.m. the House adjourned.

House resumed at 11.30 a.m.

MR. PRESIDENT: Please be seated.
Item 3(a)(2) the Interpretation (Amendment) Bill, 1986.

FIRST READING

THE INTERPRETATION (AMENDMENT) BILL, 1986

CLERK: THE INTERPRETATION (AMENDMENT) BILL, 1986.

MR. PRESIDENT: A Bill for a Law to amend the Interpretation Law be deemed to have been read a first time and be set down for Second Reading.

SECOND READING

CLERK: THE INTERPRETATION (AMENDMENT) BILL, 1986.

HON. MICHAEL J. DUDLEY: Mr. President, I beg to move the Second Reading of a Bill shortly entitled the Interpretation (Amendment) Bill, 1986.

Mr. President, the system of Law which we operate in these Islands is governed by regards general principles by our Interpretation Law. One of these general principles in the Interpretation Law acknowledges the power to create offences and penalties under other legislation in respect of regulations. That is to say, Mr. President, that when in any other Law there is a power given to make regulations, that Law itself may spell out in detail the full maximum punishment which may be imposed by regulations made under it for breach of those regulations.

If this is not done, then what there is simply a provision giving a power to make regulations, then to determine under those regulations what can be imposed as a penalty, one has to turn to our Interpretation Law.

The particular provision of the Interpretation Law is section 27 of the Interpretation Law, Chapter 70, and that reads in relation to this proposed amendment:-

DR. MICHAEL J. BRADLEY (CONTINUED):

"Where a law confers power on any authority to make or issue regulations, the following provisions shall, unless the contrary intention appears, have effect with reference to the making, issue and operation of such regulations -"

"(b) the regulations may provide in respect of a breach of any of the provisions thereof that the offender shall, unless the law otherwise provides, be liable to such fine not exceeding twenty-five pounds, or to such term of imprisonment with hard labour not exceeding three months, or to both such fine and imprisonment, as may be therein prescribed;"

So the Legislature when enacting any law, and they have passed many laws in the past, use to it to state specifically spell out the penalties under regulations. If there are not spelt out, we always have to look at this section of the Interpretation Law. In our Laws, in many instances the penalties are not spelt out for breach of regulations. So that in many instances, and the last one which came to my attention was in respect of the Airport Regulations Law concerning which my colleague will also be moving the Second Reading of an amending Bill at this Session, there was no provision for breach of regulations in the Law itself. So we had to turn to this.

This at the moment provides a penalty of twenty-five pounds which by the International population when our dollar system was brought in is $50. So it provides for a fine not exceeding $50 or three months.

This Bill before the Honourable House proposes to increase these in relation to the fine very substantially from $50 to $1,000, and in relation to the imprisonment from three months to twelve months. Last Monday giving effect to notice which I made in honour and say that this is a terrible inference; it is a terrible thing we are doing to give such powers, but no just say that we are not doing so nowadays when one considers the increase in the cost of living and inflation, with any degree of security. I have done a little research, Mr. President, and the present provision of $50 and three months' imprisonment is contained in our Interpretation Law. That Interpretation Law in respect of this section has not been amended since the revised edition of the Laws of the Cayman Islands was published in 1963, which means that as at the 12th December, 1962, some twenty-one years ago the provision then was twenty-five pounds or $50 or three months' imprisonment or both.

I thought should I look a little bit further back and I did. As we all know, Mr. President, the Laws which existed to us during the time that we were associated with Jamaica were the Laws of Jamaica in that regard. I went back to the 1953 revised edition of the Laws of Jamaica. I went to Chapter 191 which is the Interpretation Law, and that Interpretation Law which was enacted in June 1953 revised edition enshrined, provided that there should be in this section twenty-five pounds or three months' imprisonment or both. However, it was not 1953 when these figures were put in. The figures went back to the 10th June, 1933 when the Interpretation Law of Jamaica, which applied to us was made.

I am sorry, Mr. President. I was out of time. I should not research any further back without perhaps going to Jamaica.

SEN. MITCHELL J. DOWDLE (CONTINUING): However, it is interesting to note that on page 2 of the Cayman Islands somebody did research here and the origin note relates back to Law XVII of 1966. If I had researched back to there, Mr. President, I think it is at least possible that I would have found in that statute of 150 years ago that the committee considered that would have been twenty-five pounds or three months' imprisonment. So if any Member after me gets up and says this is a horrifying statement, just let them think what twenty-five pounds would have bought forty-two years ago, and what twenty-five pounds would have bought 150 years ago, and one shudder that would have bought much more than $2,000 in this day and age.

Mr. President, in all the legislation which I am involved with in this House I try to maintain a consistency and a relationship between the fine imposable and the imprisonment imposable. The calculation which I have in previous legislation found which I have attempted to put in such my monetary penalties were brought up to what there should be a correlation between $2,000 and twelve months' imprisonment. You remember, Mr. President, that there is an attempt to bring a large number of our laws which do not give specific powers or specific penalties by regulations because they were drafted many years ago and were drafted in a particular style at that time when the tendency was to look at the general power in the Interpretation Law into line. The intention of this Bill is in relation to such laws to provide that regulations do make these laws; and are penalty fines up to but not exceeding $2,000 or imprisonment up to but not exceeding twelve months' imprisonment or both fine and imprisonment. It does not mean that when we make regulations under such Law that we will automatically put those in for the maximum or the imprisonment. By consultation we will have a sense of proportion and a sense of justice and the regulations for these offences will be made maximum of some smaller amounts.

In relation to serious offences against regulations they could be then increased up to the maximum. My Honourable colleague when he is introducing the Airports Regulations (Amendment) Bill, 1982 will no doubt, and I am not trying to anticipate his speech, point out to this Honourable House that in the case of that particular Bill it was thought that even the modest figures which I am proposing are more inadequate and insufficient, and after careful consideration the Government in the case of breaches of these regulations under that Law thought that it should be beyond this modest increase and should be $5,000. Because again as he will no doubt point out, we can have regulations the breach of which can cause horrific consequences. We need sometimes which are requisite such major substantive legislation to deal with the dangers and the evils which may occur. Under the Airports Regulation Law if there was an offence against regulations at the moment which caused the death of two or three passengers and crew of one plane, all that could be imposed as a fine would be twenty-five pounds or $50.

That is a startling example, and a graphic example. I will not bore the House by saying what other ones we could elucidate. I am saying that what we are trying to do by this Penal Amending Bill is to establish the principle that the Government of this country when it is making regulations under laws which have that specific penalty for regulations in those laws, ask in its judgement and its discretion make the offence be of such a nature that a fine of up to but not exceeding $1,000 or imprisonment up to but not exceeding twelve months or both such fine and imprisonment be imposed.

Mr. President, I commend this Bill to the Honourable Members.

MR. SPEAKER: The question before the House is that a Bill entitled a Bill for a Law to amend the Interpretation Law be given a Second Reading. The motion is open for debate. The Second Elected Member for Dodick Town.

SECOND OR SUBSEQUENT READING

MR. G. WILT DODICK: Mr. Speaker, my objection to this Bill has been partly urged for me because the Ultimate Clause by the Honourable Official Member already point out that there is a strong reason why the fine put in case of imprisonment have not been changed for 120 years under this Law.

In 1826 in 1826 the fine was twenty-five pounds and when the Legislature enacted the Law in 1845, or when there was a change, the fines still remained at twenty-five pounds and the imprisonments at three months.

Even when the Law was last enacted sometime twenty years later in 1865 the fine remained the same although the value of money had changed and twenty-five pounds in 1826 would not buy what twenty-five pounds bought in 1865. It is my belief that the reason why there was no Ordinance was simply because the Interpretation Law as the Member correctly pointed out would be used to provide the punishment where no specific punishment is in the Law. So when a Legislation was made which did not have a specific fine, or a Law was made in which there was no offence for which there was not a specific fine, we would then go to the Interpretation Law. This would not be changed however if it were changed to an astronomical figure we would undermine the whole principles of our Law. Because the Law and the Legislature therefore the offences should be made by the Legislative Assembly. In regulations we have the same thing. The original Law would provide the specific penalties for the regulations and this Law would only be used in those rare cases where there are not a specific provision in the Law.

What really happens in a regulation made by Executive Council is the absence of a specific penalty is that the Executive Council in making the regulation really takes on the powers of the Legislative Assembly in that they create offences by the regulations. They impose fines and they sometimes people to imprisonment if a person is convicted of the offence. So I believe the reason why these penalties have been kept so low for the last 120 years is because we do not want to put into the situation where the Executive Council would really be the body enacting people to prison and putting on heavy fines without the sanction of the Legislative Assembly.

I do not think we should interfere with this principle, particularly at a time when we have seen the Legislative Assembly giving to the Executive Council some powers they never had. We have an illustration of that in the Bill which we just debated where under the Statute Conversation Law the Government just put forward an amendment which if passed will give to the Executive Council the power to make more regulations than they could have made before. Since the Government is grasping the opportunity to make as many regulations as they can get away with without the Assembly therefore having a chance to say that the figures are too high or low, it is wrong. However, I will agree, Sir, that perhaps there is time to increase the penalties under the Interpretation Law. Although of the 120 years it has remained at twenty-five pounds I would think that we should move cautiously.

MR. S. KILFOYLE (CONTINUED): Sankaty on increase from 500 to 1,000 would be sufficient because we do not want to put, and the Legislature Assembly would not put into the hands of the Executive Council the authority to impose such fines. However, I am more concerned about the imprisonment side of it because under the existing law the Executive without the authority of the Legislative Assembly, or without a specific provision in the law, could send a person to prison for three months. If we change this to a year we will make that the Executive Council can send a person to prison for a year for a very minor offence. Or at least they can make the recommendation which the court could accept a recommended person to prison for a year.

We could have a very odd situation. It could be putting in more people designated for somebody else, or some very trivial matter and the Executive Council, because they find there there is an appropriate provision in a particular Act might create an offence of a very minor nature. The end result would be that a convicted person could go to prison for up to one year. So it is very dangerous for the Legislative Assembly today to increase what has not increased to by the amounts in the amending Bill. For example the fine would go up twenty times. It would go up by 2,000 per cent and the imprisonment would go from three months to twelve months.

I believe that the Executive Council should put in their regulations the penalties and not in specific Acts, and in the odd cases where there is no specific penalty they should use the Interpretation Act. However, because the Interpretation Act can be so widely used they should not be given the authority to make regulations for matters which are not specifically specified by the Act under which the penalties could be so issued.

The new Executive Council has given us by its amendments which they have brought and by its actions which they have carried out, that if we put this Legislative power into their hands they will use it. All their actions have shown that they will use whatever authority is given to them under the Act and regulations. Removal of administration of the Legislative Assembly allows this important matter to be shifted from the hands of the Assembly into the hands of Executive Council.

So I disagree with the increases proposed in this Bill but would be willing to support an increase of 100 per cent on the fine, leaving the three months' imprisonment term as it is. If there is a matter which the Legislative Assembly feel should carry a penalty of more than three months' imprisonment, but the Legislative Assembly make a specific case, put that put a specific provision in the Act whether it be the Interpretation Act or the Marine Conservation Act, but they should not leave it in the hands of Executive Council, because we should be passing the buck to them for doing the things which I think the Legislative Assembly should retain whatever power it may have.

So do not make a Government by regulation, we make a Government by Legislation. I cannot support the increases proposed, particularly that which would result in imprisonment of twelve months for a very minor offence under a regulation.

MR. SPEAKER: If no other Member wishes to speak I would like to recognize the right of reply of the sponsor.

HON. DOUGLAS A. GRUCHY: Mr. Speaker, it has been a short debate on this short Bill. I have listened as I always do with great attention to the speeches made by the Honourable Second Elected Member for Labrador.

MOR. RICHARD A. ROLLINS (CONTINUED): Speak. I may inadvertently, Mr. Speakerpro Tempore, have done him an injustice in a debate on a previous topic, the Reserve Conservation Tax, when I inferred that he was anti-conservationist. I think now he is demonstrating that he is a conservationist and that he likes to preserve the 190 years old writings of our legislation, riddled though they may be with the death-watch beetle and woodworm, as definitely likes to preserve them. Or perhaps, Mr. Speakerpro Tempore, he is more a geologist than a conservationist because he likes to see those wonderful fossils embedded in our legislation.

However, be that as it may, Sir, I think that since he has indicated that he would be prepared to see some changes in the Bill by virtue of this section of the Interpretation Act, I take it and am confident that since that is his attitude he will vote for the second reading of this Bill. Having then voted for the Second Reading of this Bill, he may attempt to persuade the Honourable Members of this House in Committee Stage as he is entitled, possibly to file and prepare for him as he does, to reduce the figure $2,000 to the figure $100 and reduce the figure of twelve months back to the figure of three months.

However, Mr. President, there is another matter which bothered me as I spoke, a matter which I cannot allow to go unanswered. That is when we do agree that this Assembly is doing it properly Executive Council has the power to impose fines and the power to send people to prison. Mr. President, as will know that this Legislature passed back in the Government passed Legislation through some time as Government-in-Council, but that there is no power inherent in this House or in the Government or Executive Council to impose fines or to send people to prison. That is a function of the judiciary of these Islands, a function which reposes in the hands of these Islands.

This Legislative Assembly can pass laws imposing maximum fines and maximum imprisonments. Executive Council through Governor-in-Council can make subsidiary legislation which provides that the maximum penalty is no more than one half the maximum penalty is no more months' imprisonment. However, Sir, unless there are restrictions such as the provision in the Misuse of Drugs Law where the Legislature has thought fit expressly to create subsidiary legislation upon terms of imprisonment, then the courts of this land, whether they be the Magistrate's Court or the Grand Court can look at a Law and see what the penalty fine is there, can see what the maximum imprisonment is there, and can impose a fine or imprisonment of any amount or terms up to there. There is such power under the Evolution of Offenders Legislation that they can without imposing a fine, or without sending them to prison, place a person on probation.

So let me make it clear to everybody in these Islands that the effect of this is not to give Executive Council power or ability to send anyone to prison or to fine anyone. It is merely giving the Executive Council power to prescribe in a way which is appropriate the regulation making power of offences, so that when those offences are committed the judiciary in the Islands having considered the matter knows what fine or what imprisonments up to the limit is appropriate for the circumstances of that event.

Mr. President, Sir, I commend this Bill to the favourable views. If there is a division, Mr. President, I will ask for one.

MR. PRESIDENT: The question before the House is that a Bill for a Law to amend the Interpretation Law be given a Second Reading.

QUESTION PUT: AYES AND NOES.

MR. MICHAEL J. BRADLEY: May I have the division please?

DIVISION

MR. PRESIDENT: I declare the motion carried.

RESOLVED BY MAJORITY: BILL GIVEN A SECOND READING.

MR. PRESIDENT: (Amendment) Bill, 1995. Item 2(a)(i) The Airports Regulation

FIRST READING:

THE AIRPORTS REGULATION (AMENDMENT) BILL, 1995

CLERK: THE AIRPORTS REGULATION (AMENDMENT) BILL, 1995.

MR. PRESIDENT: The Bill entitled a Bill for a Law to amend the Airports Regulation Law (Revised) be deemed to have been read a First time and be set down for Second Reading.

SECOND READING:

CLERK: THE AIRPORTS REGULATION (AMENDMENT) BILL, 1995.

HON. M. NORMAN HADDISH: Mr. President, I beg to move the Second Reading of a Bill entitled a Bill for a Law to amend the Airports Regulation Law (Revised).

Mr. President, the object of this Bill is to amend the principal law so as to provide that regulations made under the Law can provide maximum penalties of two years' imprisonment and $5,000 fine for breach of such regulations.

This Bill, Mr. President, is not being put forward as a revenue earning measure, but laws and regulations must be seen to provide a definite deterrent to would be offenders.

MAJ. C. RAIG BOOTH (CONSTITUENCY): The present Airport Regulation Law made such a long list of acts which are prohibited, and many of these can be quite serious as will be seen.

In section 7, for example, there is the obstructing or interfering with the proper use of the airport. There is the boarding or attempting to board any aircraft without the authority of the person in charge of it. There is tampering or interfering with any aircraft or anything used in connection with an aircraft which could involve the tampering of an aircraft or the stealing of an aircraft from any of our airports. There is also any act causing or tending to cause an outbreak of fire, which could be arson for example. I think there are many serious acts which can be considered as offences.

For any of these the present fine on conviction is a maximum of $50 or three months' imprisonment as has been said previously, and this is considered totally inadequate. These amounts, as was said previously, coincide with the Interpretation Law. Additionally, even the proposed amendment to the Interpretation Law which has been put forward and very ably explained by the Honourable Second Official Member, is considered inadequate for some of these acts which could be considered as serious offences.

Mr. President, we are presently operating a recently completed new airport terminal. We are handling an ever increasing amount of passenger traffic. Material movements and public activity in and around our airports is also on the increase. All of this naturally presents a growing need and demand to exercise stronger controls for the protection of property, safety of the general public and the orderly and unhampered use of our airport facilities.

We must have laws with adequate penalties for violations so that proper respect is encouraged and maintained, otherwise these will be ignored or taken lightly by the general public. Instead of law and order we could then have a chaotic situation developing which we do not want and cannot afford.

This amendment, Mr. President, sets a maximum which enables the court to use its discretion based on the gravity or seriousness of the offence committed. I am of the opinion that this must rest with the courts to see that justice is carried out.

Mr. President, I believe that this amendment is timely. I believe it is necessary and reasonable, and I ask all Members to give it their support. Because respect for authority at our airports, the main gateways to our country, must be preserved and maintained.

I thank you.

MR. PRESIDENT: The question is that a Bill entitled a Bill for a Law to amend the Airports Regulation Law (Revised) be given a Second Reading. The motion is open for debate. The Second Elected Member for Bodden Town.

DEBATE ON SECOND READING

MR. C. RAIG BOOTH: Mr. President, again I must object to this, another plea from the Executive Council to increase the penalties under regulations which they may make. I would like to say that I will understand the necessity that the Executive Council does not send people to jail. What I said in my debate on the other

MR. G. ALLEN BOWDEN (CONTINUED): Sir, I was simply that if we allowed that they would then have the power to make a regulation, the end result which would be that if a person were convicted he merely, they could be sent to jail for up to one year.

Here they are even talking for more because they are seeking to send people to jail for two years, and seeking to impose fines of $5,000.

I agree with the Member who moved a bill that there are some inadequacies covered by section 2 of the old Law which are serious offences, and perhaps should have more severe penalties than was sought. For example, he mentioned anything to do with the hijacking of a plane. In the Law there at the moment for regulating aircraft, motor vehicles, the submersion of persons and of animals, and among animals within the area of the current which could be a serious matter. However, there are also in this section some very simple offences which I would not like to see a person pay a $5,000 fine for or go to prison for two years for.

For example the section 2 of the original Law there is provision for appointing and regulating the use of parking places for motor vehicles. It would mean that if a private person went up to the airport and parked in a taxi rank, that person could go to prison for two years. This has to be changed. It has to be rectified. We never know what else they may put into regulations because they have about that they have the ability to bring some strange matters into being. So, while I would agree that there could be an increase in maximum fines for offences under the regulations made under sub-section 1 of the revised Law, I would not agree that we should give them the authority to make a regulation whereby they can send somebody to prison, or the subsequent conviction in the right would result in two years imprisonment, and where a fine of $5,000 could be imposed as a result of the regulation which they make.

Section 3(1) says they have the power to make regulations:-

> "for any matter appearing to the Governor in Council necessary or expedient for the purpose of giving due effect to the provisions of this Law."

It means that they could make any new regulations under the original Law. It could be very simple to return, and yet the community still would give them the scope to put in the regulations these heavy fines and heavy terms of imprisonment.

Under section 3 of the original Law they can even extend the powers to deal with motor vehicles using the public roads, and they are responsible:-

> "(f) for prescribing and regulating the payment and collection of fees for or in relation to services rendered or facilities provided at an airport;"

So if a lady went to there and had forgotten her purse, and was unable to pay the fifty cents parking fee, she could be put in jail for two years. This has to be rectified. This is not the type of penalty which should be imposed for that type of offence. However, I do agree that there are some offences which are very serious offences, and the penalties could be increased, but we would be failing in our responsibility to the public if we allowed this to happen, that a person who fails to pay the fifty cents parking fee at the airport would go to jail for two years and be fined $5,000.

MR. D. BASIC REGGOW (CONTINUING): I wonder how many years we have gone back beyond 1987 before this Bill. Perhaps the most amendment which will come will be to keep somebody for not paying the parking fee.

So the conclusion sought under this amendment are two matters and what should be done, in my opinion, is that we should take section 3 of the Airports Regulation Act (Revised) and spell out in each specific case the penalty which should be attached to each offence under each section. However, the Government is not saying to do that. They have done nothing as to amend it so that:-

> "Any regulations made under subsection (1) hereof may provide for contraventions thereof punishable on conviction by a fine of $5,000 or imprisonment for two years, or both such fine and imprisonment."

I understand that the court would have the authority to fine the person less than $5,000. The court could fine the person $1, or not impose the fine at all. The court could send the person to prison for one day, or maybe not even send him at all. However, it still carries that there is a possibility that for any offence under this Bill that the person could be asked to pay a fine of $5,000 or asked to serve a term of imprisonment of two years, or even both of them.

I think we are going too far. I know the Executive Council, particularly the Elected Members believe that. They are capable of doing all things, and perhaps they are right. However, as there is responsibility to the electorate of this country, not to delegate unreasonable sentence, sentence which should be by legislation. I think it is wrong to amend this Bill and pass it, and we put in there words which can be used on which could even be abused, because once we pass this Law Parliament has no control over the actions of Executive Council. There is no parliamentary control at all. The regulations could be passed without our knowledge and we have no way of having any control over the contents.

We have on our books the Traffic Law which recognizes that there are many categories of offences such as careless driving, reckless driving, speeding, and the Traffic Law sets out specific penalties for each offence or each category of offences. I think this should be done here in the Bill which we are discussing, the Airports Regulation (Amendment) Bill, 1988 because of the many varied offences which could be committed. We should strive to make it impossible to prescribe penalties suitable for each category of offence, and to regulate the conduct of people.

This can have an extremely wide range of behaviour. It might be somebody just leaving his tarpon and shooting some employee who probably needed to be removed, or the conduct of the person might be that of a person who is trying to stop the Airport, which would be altogether different. Even under this Bill we can send both people to prison for two years, and we can fine the person. When I say so, I mean when he reaches the court just the same I have an erudite lawyer who tells him,

So, we should be losing of our sight here today and give this theoretically dangerous high level of power into the hands of the present Executive Council, or any other Executive Council which may follow them.

The Member referred upon the fact that this Bill is not a revenue raising Bill, but from the higher limits of the fine I would say this Bill would will be a tremendous source of revenue. Because not only is a person committed

MR. G. RITZ POOLE (CONTINUING): to pay the $1 assembly tax at the airports, but I believe that if he failed to pay the registrations would not? Why should he have to pay $1, why if he failed to pay the $1. That is how misdemeanor this Bill is. I would hope that since this has been such a long Monday that the Executive Council Member responsible for this Bill will withdraw this registration Bill from the House, and go home and come back with an amendment which will provide for penalties which are suitable for the offenses. If there are one or two offenses which are of a petty nature that warrant the imposition of such a petty fine, perhaps I may support it. However, looking at it now, it smells trouble to me.

MR. SPEAKER: Does any other Member wish to speak? Does the mover wish to exercise his right of reply?

HON. W. MCKEVA POOLE: Mr. President, I heard the Honourable Third Elected Member of Executive Council say this morning that if the Holy Book, the Bible were brought to this House by this Government, the Opposition would try to prove it wrong. I wondered why he said that but now I am convinced that he was right.

Mr. President, this Bill clearly sets out that it is a maximum penalty of two years' imprisonment and a fine of $1,000 which we are seeking. The power and authority of Executive Council has been enhanced as into which Member for Bodden Town and a Member of Executive Council. It has not changed, how are we to possibly be simply subjective with the more severe and authority than he had when he was there. He mentioned about bringing forward eventually something to do with Hansard. I believe that we are answerable our Constituents Government, and we certainly have demonstrated to the public of these Islands that we are against hanging. In fact, the erection of the gallows at North-Sound prison has been removed. So I really think it is stretching the imagination to try to put an answer to the public as any Government which would go to extremes.

We have set out the maximum there and I believe in the application of powers. I know that the Member has pointed out that in section 3 there are many simple offences and this is quite true. However, I trust the court to use their discretion as such. I think this has been done in the past, and we are confident to accept the courts to carry out justice in this country. There has been no reason for us to doubt this.

Therefore, Mr. President, I still feel this Bill before the House reasonable and I would expect that it would be fully supported.

Thank you.

MR. SPEAKER: The question is that a Bill entitled a Bill for a Law to amend the Airports Registration Law (Revised) be given a Second Reading.

QUESTION PUT: CLERK AND MACE

SIR. ALTHAM J. BRADLEY; HON. W. MCKEVA POOLE: (SIMULTANEOUSLY) May I have a division please, Sir?

MR. SPEAKER: I will ask the Clerk to call a division.

MR. SPEAKER:

I declare the motion carried.

BILL GIVEN A SECOND READING.

I think now we have reached a convenient time to take the lunchtime break and I will, on resumption, suspend proceedings until approximately 5.15 p.m.

AT 28.40 P.M. THE HOUSE SUSPENDED

HOUSE RESUMED AT 5.15 P.M.

MR. PRESIDENT:

Please be seated.
Proceedings are resumed.
Item 2(a)(6). The Liquor Licensing

Bill, 1985.

FIRST READING

THE LIQUOR LICENSING BILL, 1985

CLERK: THE LIQUOR LICENSING BILL, 1985.

MR. PRESIDENT:

The Bill entitled a Bill for a Law to repeal and replace the Liquor Licensing Law (Revised) to amend it, have been read a first time, and is set down for second Reading.

SECOND READING

CLERK: THE LIQUOR LICENSING BILL, 1975

MR. DESMOND R. FOSTER: Mr. President, I move the Second Reading of a Bill for a Law to amend and replace the Liquor Licensing Law, 1974.

Mr. President, when I took over the chairmanship of the Liquor Licensing Board I was never so confused in all my life. In addition to the work for those were at least eight amendments. I immediately found it very difficult to administer the Law. As a matter of fact, Mr. President, there was a Committee of this House set up last year to look into Liquor Licensing Law with a view to bringing to the House a suitable Law whether by the one I am bringing today.

However, Mr. President, the Committee had as many as six Committee meetings to arrive that all that got done was an amendment to this Bill which was brought last year. This only made it worse because it was one more amendment to add to the list.

So, Mr. President, having been urged by the Board as well as other people, we decided to wholesale revise the 1974 Law, and in addition we made two major changes. These two changes were for the consideration and issuance of the Liquor Licensing Board, and abolished the absolute prohibition on the granting of licenses in respect of premises situated within a distance of a mile of any church, school or clinic rights.

Apart from these two changes, Mr. President, the Law is almost identical to what it was before. Of course it embodies the amendments.

Mr. President, we have had plenty of representation from the local people with their properties in George Town within a quarter of a mile of a church. They argued, Mr. President, that because the area in Seven Mile Beach was urbanized and they were residential, they were not given a fair opportunity to make a living. They also argued that there were existing places closer than a quarter of a mile to a church and there were no complaints whatsoever. I sympathize with them, Mr. President, because property in Seven Mile Beach is not cheap as it is a tourist area. They were also operating restaurants so that a tourist and if they could not even serve alcohol a lot to them.

We also had strong representations, Mr. President, from the people of the area about the same restriction of a quarter of a mile from a church, school or clinic centre. Because, Mr. President, I thought the area people would have been more than I would not have could then not, and a strong precaution for all of them, Mr. President, is in section 7(1) and (2). This says:-

"7.(1) A Board shall not grant a license unless satisfied that the premises in respect of which the application is made -

(a) have been plainly marked and lighted;

(b) have an adequate fire extinguishing system;

(c) comply with the town and regulations affecting buildings, town planning and public health;

HON. DENZIL D. FOSTER (CONTINUING):

"(d) are situated at a location where they will be of service to the public; and

(e) will not cause inconvenience to the occupiers of neighbouring property.

(2) In considering the suitability of premises for service to the public, Boards shall have regard to any representations made by or on behalf of the Commissioner, the Chief Medical Officer, the Chief Fire Officer and the Executive Secretary of the Central Planning Authority...", and this is the crux of it now, Mr. President, "...as well as members of the public who may be directly affected by the grant of a licence."

Cayman Brac and Little Cayman have their own Board and Grand Cayman has its own Board. So, Mr. President, if for instance there was an application for a licence to be granted to anybody with premises within a quarter of a mile of the church, or neighbours of any sort, or members of the public who might be directly affected could make representations to the Board. In short, the sole discretion is placed in the Board here. So as far as the Brac is concerned, Mr. President, or even Grand Cayman, they might for them to private hair not been taken away.

I feel sure, Mr. President, that if an applicant applied for a licence and anybody, or neighbours of the neighbouring property were going to be inconvenienced, the Board would not grant such a licence. Mr. President, I trust, Sir, that the people who made representation from Cayman Brac will understand this position very clearly. The safeguard has been left there for the full discussion of the Board."

Mr. President, the other major change was in the composition of the Board. We had thought to make the Chairman be a magistrate or a justice of the peace, and to have a Deputy Chairman and three other members, all of whom should be appointed by the Governor-in-Council at his discretion, for such period not exceeding five years. That is the Board for Grand Cayman, Sir. The Board for Cayman Brac and Little Cayman will consist of a Chairman who will be the magistrate or justice of the peace. The Executive Commissioner will be Deputy Chairman, and there will be three other members all of whom will be appointed by the Governor-in-Council.

Mr. President, this change is very desirable, Sir. Firstly, it will avoid our having to resubmit to come to the Legislative Assembly every year for the appointment of members of the Board. Secondly, it will put the chairmanship in the hands of a more judicial person instead of it being a Member of Executive Council.

Mr. President, I think that this is a sensible change. I think we have sufficient justices of the peace. However, if it is found, Mr. President, that there are not sufficient justices here in Cayman Brac and Little Cayman he will certainly appoint one.

Mr. President, I sincerely hope that I could have the support of this House on this Bill because it will give us a piece of legislation which is workable and fair to all. There are plenty of safeguards in the Bill for inspections by the Medical Department, Police Department, Fire Department and Planning

HON. DARRYL B. FOSTER (CONTINUING): Departments. With all these qualifications, Mr. President, I am sure that the Legislature would have to be found suitable after they were completed satisfactorily.

Apart from those two changes, Mr. President, the Bill is virtually the same as when enacted before. I would like to emphasize that the people of Cayman Brac and Little Cayman, and those concerned here have the need to worry, because section 5(1) and (4) does provide for the issuing of a licence at the discretion of the Board, and gives members of the public and adjoining neighbours ample leeway to complain or to make representations.

Mr. President, apart from that, Sir, I feel it is a good Bill and very necessary at this time, and I commend it to Members.

MR. SPEAKER: The question is that a Bill entitled a Bill for a Law to repeal and replace the Liquor Licensing Law [Revised] be read a second time.

The motion is open for debate. The Honourable Third Elected Member of Executive Council.

DEBATE ON SECOND READING

HON. CAPT. CHARLES L. KIRKCONNELL: Mr. President, I rise to support a Bill for a Law to repeal and replace the Liquor Licensing Law [Revised].

Mr. President, a Bill for a Law to repeal and replace the Liquor Licensing Law [Revised] is an effort by Government to provide a new Law which will incorporate all the amendments made to the Liquor Licensing Law, 1972. Over a period of ten years from 1972 to 1982 there have been eight amendments which have made the old Law difficult and confusing to administer.

The new proposed Bill, when passed into Law will remedy these problems. There have been a few changes made which will increase on the old Law and will ensure that justice is meted out to one and all in an equitable manner.

The composition of the Boards has been altered and we will now have a representative or a director of the posse as their Chairman, instead of a Member of Executive Council. In the case of Cayman Brac and Little Cayman, the District Commissioner will not be the Chairman but will be the Deputy Chairman. We will also have a representative or a director of the respective Sea Chairman.

These members will no longer be nominated by the Legislative Assembly every year. They will be appointed by the Governor-in-Council to hold office or his pleasure for such periods not exceeding five years as he may determine.

The other changes in this Bill is to abolish the prohibition on the granting of licences in respect of premises situated within a quarter of a mile of any church, school or white centre. The Bill seeks to give the necessary authority to the Liquor Licensing Board to control where premises selling alcohol may be situated. It will also give the public the right to object and prevent any such premises from being established near a church, school or white centre.

Section 5 on the Bill reads as follows:-

HON. CAPT. CHARLES L. KIRKCONNELL (CONTINUED):

"8. (1) A Board shall not grant a license unless satisfied that the premises in respect of which the application is made -

(a) have exits plainly marked and lighted;

(b) have an adequate fire extinguishing system;

(c) comply with the laws and regulations affecting buildings, town planning and public health;

(d) are situated at a location where they will be of service to the public; and

(e) will not cause inconvenience to the occupiers of neighbouring property."

Further, Mr. President:-

"The Board shall have regard to any representations made by or on behalf of the Commissioner, the Chief Medical Officer, the Chief Fire Officer and the Executive Secretary of the Central Planning Authority as well as members of the public who may be directly affected by the grant of a license."

The Board as stated earlier will have the authority to determine where premises selling alcohol may be situated. It will regulate the hours when any intoxicating liquor is permitted to be sold and to whom they are allowed to sell.

The issuance of premises selling intoxicating liquor have to conform to the law and while in the new regulations, or laws there likewise.

I would like to state that I have received strong representations from the people of my constituency and I share their concern for the future of our Islands and people. Having said that, Mr. President, I will do my utmost to see that the members of the Legislative Assembly understand that the control and decisions are in their hands. The Board of Cayman Brac and Little Cayman cannot have to follow what the Board of Grand Cayman may or may not do. There are problems in Grand Cayman which do not exist in Cayman Brac or Little Cayman, and if the Board for Cayman Brac and Little Cayman is vigilant and careful, and administrates the law properly, we will avoid the pitfalls and difficulties which exist here in Grand Cayman.

Mr. President, I would like to assure the people of Cayman Brac and Little Cayman that this Bill when it becomes law will not allow persons selling intoxicating liquor to do as they wish. Here control and discipline will be able to be exercised over those persons permitted to sell alcoholic beverages than was allowed under the old law.

The Legislative Assembly Board of Cayman Brac and Little Cayman will be made up of people from these two Islands just as it is at present. The Board will also have absolute control over the number of outlets and where they are allowed to be situated.

Mr. President, I feel that our people will appreciate what has been done and that when this Bill passes into law we will have a stronger and better law for our Islands.

Mr. President, I support the Bill.

MR. PRESIDENT: The Elected Member for South Side.

MR. D. FARIS WILSON: Mr. President, I think to offer my support to a Bill for a Law to repeal and replace the Liquor Licensing Law (Revised).

I believe, Sir, that this Bill is long overdue. I have heard many complaints about the inefficiencies of administering the old Law and the accusation which it contained. The most glaring anomaly in the old Law was the quarter mile restriction. Some people felt that because no new licenses could be granted under that restriction they were being unfairly treated when premises which had been previously licensed were re-licensed, because I do not think the old Law provided a grandfather clause for a renewal of a license.

Some months, Sir, I would like to congratulate and compliment the new Government for their courage in bringing this Bill forward at this time. They are taking a lot of blame in this Meeting, but they appear to be sticking to their guns.

I believe that the old Law created a lot of hardship in ancillary areas. I have heard of instances where people were paying up to $100,000 and, Sir, there is a false economic exist, and an unnecessary brake for any Corporation in assembly up a new business, whether it was a restaurant, hotel or bar.

I think it is a pity that the former Chairman who had presided for the past eight years, has not been here when necessary, because I am sure he could give us much insight into the problems which he found in trying to administer the old Law in its complex form.

Further, Sir, I hope that when the Honourable Third Elected Member of Executive Council brings the comprehensive Traffic Law the House which is allowed under that Law will be such that it will carry the corporate picture and their birth date, and it will be in the form of a permit type so it can stand the whole test which the Liquor Board requires of. Because I think if the license is going to be given the responsibility of not selling liquor to eighteen year olds I think it would be a good thing if the Chairman could carry the person's birth date and their picture. Then it would provide a form of identification which could be used to prove that that individual was in fact eighteen years old or older.

Mr. President, I would like now Board structure. I am glad to see the Board being removed from the political arena and somewhat so to speak. I think it also enhances the performance of the Board by removing the quasi-problems of the Chairman to those of a magistrate or a Justice of the peace. I believe, Sir, that this is desirable to dealing with an complex a Bill. However, Mr. President, I cannot fully agree with the tenure of office of the Board members. While I realize that a tenure of five years would in practice remove the Board Members from political interference even further, however no Executive Council would re-appoint a new Board if they are appointed for five years since the life of an Executive Council is only four years. However, I believe, Sir, that with a five year tenure and the option to be eligible for re-appointment, we could have some problems in that people who serve that long on Boards might tend to develop a kind of king-of-the-hill mentality, or a bolder than thou attitude as we have had in some of the Boards over the past years with members having long tenures as Chairmen and members of the Boards.

MR. S. EDWARD NEVILLE (CONSTITUENCY): I am also glad to see, Sir, that section 6 thereof states that:-

"6(1) A Board shall hear and deal with all applications and matters relating thereto and may grant, renew, vary or revoke any licences.

(2) In hearing an application a Board shall -

(a) sit in a place open to the public;

(b) hear on oath any person who desires to be heard in any matter relevant to an application; and

(c) record a summary of the evidence given before it."

I think it is very important that the Board is going to be meeting in a place open to the public because public hearings will not only be done, but it will appear to be done. In saying that, Sir, I am not implicating in any way that decisions taken by the Board before in closed meetings were not justified. I just think that if a person is in a quasi-situation open to the public, he feels better and feels that he is being given a fairer chance. I also think that this will give those people who may object to someone getting a licence a better opportunity to have themselves heard and to cite their grievances before the Board.

Sir, I am also happy with section 6(5) in that:-

"(5) A Board's decision shall be determined by vote."

Section 7, Sir, deals with the nature of the licence and I support these subsections:-

"7(1) A licence is a permit to an individual person or to two individual persons jointly, who may or may not be the employee or representative of another named person, to participate with this Act, by virtue of -

(a) such interlocking licences;

(b) to such quantities;

(c) to such persons;

(d) at such times;

(e) at such premises; and

(f) subject to such general conditions,

as may be specified therein, and shall be in the form prescribed by the Schedule."

I think this Bill gives a long way, Sir, in making clear what the nature of licences is; what the qualifications of licences are; what the requirements for licensed premises are. It will therefore give applicants a clear perspective of what they are required to do, and they will know what criteria they have to meet.

MR. S. PEARCE MINIER (COUNTRY): I agree with section 8(1) and (2) as clarified by the Member piloting the Bill, the Honourable Senior Official Member. I think it is very important that section 9 lays down those requirements for licensed premises. I have been in a number of licensed premises which do not presently adhere to all of these requirements and:-

"9. (1) A Board shall not grant a licence unless satisfied that the premises in respect of which the application is made -

(a) have been properly zoned and lighted;

(b) have an adequate fire extinguishing system;

(c) comply with the Local Government regulations affecting buildings, town planning and public health;

(d) are situated in a location where they will be of service to the public; and

(e) will not cause disturbance to the amenities of neighbouring property."

It has also, Sir, already identified the categories of licences, and I am also happy to know that the hotel licence has been reintroduced. Section 10(1) says:-

"10. (1) There shall be seven categories of licences, that is to say:-

(a) distribution;

(b) package;

(c) multi;

(d) hotel;

(e) temporary;

(f) restaurant; and

(g) wine and beer."

Now, Mr. Speaker, section 11 deals with the hours for sale of alcoholic liquor. Here again, Sir, I would like to see the hours a little more liberal. I see no reason why we cannot have the hours of opening to the discretion of the Licensee. To me, Sir, it is not really consistent to say that a licensee has to close at 18.00 on Saturday night because it is Sunday morning, and yet he is allowed to open at 10.00 on Monday morning. Sir, if we are arguing on the one hand that the licensee has to close because it is a Sunday and we have certain inherent restraint for a Sunday, then I do not see why he is allowed to open at 10:00 a.m. the next day, when most churches are just beginning to conduct services. So, Sir, I would like to see the hours left to the discretion of the licensee. If that is not possible, I think that maybe the Board in its wisdom the hours could at the very least extend them from Monday to Friday to 2.00 a.m. and on Saturday night to 3.00 a.m.

MR. D. SHAW MUTCH (CONTINUING): I say this, Mr. President, for several reasons. I am a keen cricketer, Sir, so I have no desire to encourage the hours proposed. Because, if I go back my wife to a game or a night-club on a Saturday night, we do not usually get there until 9.00 p.m. to 10.30 p.m., and that does not give us much time to enjoy ourselves. Besides that, Sir, at 12.00 a.m. or at 11.60 p.m. no more alcoholic beverages are served. The night-club is closed at 12.00 a.m. and I am put on the street with the person who is intoxicated or drunk. Now, Sir, I believe that if the places are left open until 4.00 or 5.00 on the morning that person who came there to drink would stay there until 4.00 or 5.00 on the morning and drink, and I would leave at 12.00 or 12.30 a.m. with my wife and have a little night cap on the way home, because I know that the drunks have been trying to get their last call. So I would like to see, Sir, the hours of opening left by the Commission.

The applications and what is required for an applicant to apply to be granted a license is clearly defined under this new Bill, Sir. The steps to be taken to qualify for the granting of a license are clearly laid out in section 12. Section 12.(1) says-

> "12.-(1) Every person desiring to obtain a new license other than a temporary license or to vary an existing license shall, at least twenty-one days before a licensing session to which he is to make application for the form provided in the Schedule to the Ordinance of the appropriate Board provided -
>
> (a) the category of license desired;
>
> (b) full details of the premises in respect of which the application is made including a plan;
>
> (c) the name and age of the applicant;
>
> (d) the proposed specified hours; and
>
> (e) such other relevant information as the applicant desires to submit to the Board."

It goes on in subsection (2), Sir, to say-

> "(2) Every applicant shall, twenty-one days before making an application, supply a copy of the proposed application to some convenient place upon the premises named therein and send copies thereof to: -
>
> (a) the Chief Medical Officer;
>
> (b) the Commissioner;
>
> (c) the Chief Fire Officer; and
>
> (d) the Executive Secretary of the Central Planning Authority."

It goes on to lay out other requirements which the licensee needs to do to get started a license. I think these kinds of detailed requirements give the licensee a better opportunity to obtain a license and provide some of the discretion as when and whether the granting of licenses by any board.

Mr. E. Wilson Miller (Leeward): I am also happy, Sir, to see that educational or temperance licences have been provided. It is true to say, Sir, that the market only to raise money or a function in Cayman is to sell liquor. Second to that is food. The Lioness clubs in this country are providing a very worthwhile service, and it is very important that they are allowed to have these occasional licences to raise funds to be put back into the community into social services, elsewhere.

The Bill goes on, Mr. President, to provide for the control of minors and disorderly persons. This may still please much responsibility on the licensee, and the onus for the respectful and lawful operation of the premises. It clearly defines the rights of the licensee although it increases his responsibility and, Sir, the Bill even provides for people through the country who may have been convicted of offences involving drunkenness. It says in section 37(1), Sir:-

> "37(1) Where a person is convicted by any court of an offence involving drunkenness or in which, in the opinion of the court, the drunkenness of such person has been a contributory factor and such person has within the previous three years been convicted of not less than two other such offences, the court may, in lieu of or in addition to any other punishment imposed, declare such person to be a prohibited person for the purposes of this Law and place such person under restriction for a period not exceeding one year."

Mr. President, I support this section of the Bill and the onus it places on the licensee to assist in restricting this person from consuming alcohol. Drunkenness, Mr. President, is a social disease. It is a sickness which needs to be treated. I would like to see enforced somewhere, Sir, in having that person a prohibited person, that that person be encouraged or maybe even made to under the Law to undergo some rehabilitative treatment, whether that means joining Alcoholics Anonymous which might be of some help to him or some other treatment. However, drunkenness is a very serious disease and I think it has to be treated as such. I believe that naming such a person as a prohibited person for the purposes of this Law may in fact help in treating that person for his disease.

Mr. President, the abolition of alcoholic prohibition within the quarter of a mile of a church has my full support. I do not believe that as at legislators our legislate morals, Sir, and I feel that if somebody wants a drink, it really does not matter whether the bar or restaurant is located within the quarter of a mile of a church, or whether it is fifteen miles away. If he wants that drink he is going to get it. I believe, Sir, that those people who consume alcohol should have equal rights under our Constitution to those people who do not and who go to church. I have never supported the absolute prohibition in granting licences to worthwhile establishments within the quarter mile limit, because if we are going to have that prohibition in the Law it is going to be enforced and not be the laughing stock it was under the old Law in that it applied only to those people seeking a new licence. Then, Sir, we might have to restrict the building of churches because some of the Christian fanatics could actually close down all of the alcohol dispensing facilities in the Islands by building churches within a quarter of a mile of each establishment. I think if we are going to prohibit one side we should have to prohibit the other, so I do not think any prohibition is necessary at all, Sir.

MR. D. EDWARD HEFNER (NORTHERN): I have no fear of supporting this section of the Bill, Sir, because I think it is the people in my district at a public meeting. I explained what the Law was going to do, and I made it quite clear that we were going to lift the prohibition on a quarter mile zone. I knew that it is a vote, Sir, amongst the people because I had one person in the crowd who objected. The vote was 42 for lifting the prohibition and one person against it. Most of those who abstained, Sir, made it a point to approach me after the meeting and tell me that they were in favour of removing it. But because of their positions in the church bodies in the district they could not publicly identify with the removal. So I have no worries about supporting this, or most of my colleagues.

I am glad, Sir, that the new Government has had the guts on the Honourable Third Elected Member of Executive Council said this morning, to put it into the Bill. Sir, it has my full support, and if other Members find it possible to support my idea of liberalizing the House and letting them be at the discretion of the Members, or at the very least ameliorating [illegible] staying open until 2.00 a.m. on Saturday and I o'clock on Sunday morning I would be very grateful, Sir.

So with those few remarks, Sir, I support the Bill. Thank you.

MR. SPEAKER: Does any other Member wish to speak? Does the Member wish to continue....? Ah, the Second Elected Member for George Town.

MR. LESLIE A. TIBBETTS: Mr. President, as the Deputy Chairman of the Higher Licensing Board for Grand Cayman I feel that I would be remiss in my duty this afternoon if I allowed the opportunity to pass without debating this Bill before us.

Mr. Speaker, with the exception of the two principal alterations in this Bill, the balance of the Bill is merely a consolidation of a number of amendments made over the past nine years. So I do not see the necessity to have to go back all the details of this Bill as we have been working with it in one way or the other over a number of years.

The two principal variations are the consolidation and removal of office, and the abolishment of the quarter mile restriction. As understand by the Honourable First Official Member of Executive Council, the mover of this Bill, I too am aware of the many representations made by certain individuals from Cayman Brac and perhaps locally. However, I believe, Sir, that our duty in this House must supersede the personal feelings of a minority. Our duty is to endeavour to legislate laws which will be in the best interests of the majority of the people in the Cayman Islands.

I am very pleased, Mr. President, with section 3(d) and (e) of the Bill which states that the Chairman of the Boards shall be nominations or members of the House. Mr. President, in Grand Cayman at present we have no problem with this because our present Chairman is a member of the House and also the Deputy Chairman. I am sure, Mr. President, that the same could be true always for Cayman Islands. While I agree with the Honourable Third Elected Member of Executive Council that perhaps the people in Cayman Brac and Little Cayman could be left to do as they please, I believe that the Law should apply to all alike. I believe, Sir, that when we put the Chairmanship of the Higher Licensing Board

MR. EDMOND A. EFFENDY (CONTINUING): whether it be an Orual Cyprus or Cyprus Rhodesian or Little Cyprus into the hands of a Muslim of the Press or a magistrate that we are talking about here honourable men. We are not talking about men who have no interest in this country and I believe that the objectors to the Bill should bear this in mind.

Mr. President, the Member for North Side raised a very important point in that he stated that under section 5(2) of the Bill the hearing of an application of the Board will be heard in a public place. The Board, Mr. President, is not attempting to hide anything from the public. Any member of the public may, with the permission of the Chairman, come in and listen to the proceedings provided as I said he gave his permission. Section 6(3)(b) states that every person who desires to be heard in any matter relevant to an application shall be heard on oath. Mr. President, I do not think that it is asking very much for our people when we have so much doubt in their ability to do what is in the best interests of this country. The only part of this Bill, Mr. President, which I feel perhaps could raise some amount of fear is the section to do with the abolishing of the absolute prohibition on the granting of licences within the quarter mile limit of a church.

Here again, Mr. President, I see no reason why there should be any anxiety on the part of the churches in this respect, because our Boards are comprised of honourable people; intelligent, reasonable and knowledgable, Mr. President, religious individuals. So they have an interest also, Mr. President, that nothing is done to harm the people of this country. It also states, Mr. President, in section 6(1) of the Bill that:-

"6. (1) A Board shall not grant a licence to any person unless it is satisfied that such person is -

(a) of good character, and entitled to the Board a certificate signed by the Commissioner showing his record of criminal convictions (if any) over the preceding fifteen years;

(b) over the age of twenty-one years;"

So we are not dealing with people who are not mature, Mr. President. We dealing with mature, intelligent individuals.

Also under section 8(3) it states that objections will be given very serious consideration. Section 8(3)(a) states that:-

"A Board shall not grant a licence unless satisfied that the premises in respect of which the application is made -

(a) will not cause inconvenience to the occupiers of neighbouring property."

I think it is important, Mr. President, for the public to understand that the Board will not just sit there and grant licences right and left, but that it will take account of any objections made by members of the public and the immediate vicinity of the church. However, I think, Mr. President, that it is unnecessarily for members of the church to sit back on a matter like this and let the other businessmen in this country applied because they have no confidence in members whom we have appointed to run these Boards.

MR. LAWRENCE A. PETERSON (CONTINUED): The Elected Member for North Side raised a very important point. The Government is going to be giving some consideration to the location of these Liquor establishments and other Liquor establishments should be located. However, should anybody suggest to them whether they are permitted to put their church next door to a Liquor establishment. There seems to be some amount of inconsistency in this, Mr. President.

I realize, Mr. President, that this is a political hot potato and this is why up to this point in time nobody has had the guts; our Legislatures have not had the guts to bring this forward because they are afraid that they will lose votes on the election. However, win or lose votes I am going to support this amendment because whatever I do in this House I feel it to be done in the best interests of the majority of the people of this country. We cannot allow political considerations to cloud our judgement and I believe that may likewise have been made to Members of the House that if they support this, then they will not get the support of the churches. I believe that this is wrong and I want to compliment the Government generally in power for having the guts to put this forward; in particular I compliment the Honourable First Official Member. He does not have any votes to give, but at least he is subjected to the same criticisms from members of the public, and the prohibition members of the Republic".

Mr. President, I support this Bill wholeheartedly. Again I would like to congratulate the Member for bringing this forward.

Thank you, Mr. President.

MR. PRESIDENT: Does any other Member wish to speak? The First Elected Member for the Lesser Islands.

CAPT. KENNY S. RISPROHAM: Mr. President, the Bill now before this Honourable House, a Bill for a Law to repeal and replace the Liquor Licensing Law (Revised) is a very necessary Bill and I support it.

I have seen the need in the Honourable mover of the Bill also from a RCIT which we should all understand. With the eight or more amendments it was difficult if one was not a lawyer to really understand it properly. This section in one sitting now will certainly make it easier to understand for all the people.

I support the composition of the Boards as listed in this and I should like to say to the Honourable former Elected Member for George Town that in Cayman Brac for many, many years we have had a Justice of the Peace on the Chairman of our Liquor Licensing Board. It has been properly administered.

We, are the existing minimum in Cayman Brac and are very grateful to the Honourable mover who has gone to great lengths to explain the provisions of section 8. I share the concern of my people, as voiced here by the Honourable Third Elected Member of Executive Council, my colleague from Cayman Brac. We are concerned that our society improves and does not deteriorate in the social structure. However, I am encouraged, and I shall attempt to convince my people, that this gives us the necessary initiative. I am a member of the Liquor Licensing Board for Cayman Brac and Little Cayman will certainly do all that I can to see that this can be administered fairly to all.

I would like to call the Members' attention to a provision which I think is most important in this Bill, which is section 7, sub-section (2):-

SUBJ: MOVED S. KIRKCONNELL (CONTINUED):

" (6) A fence may be erected or removed without consent of any permittee designating the whole or any part of the licensed premises as a bar but no fence shall be so erected designated as a bar unless it is capable of being locked off from the rest of the premises in such a way as to deny access thereto to persons other than licensees."

Mr. President, this is a provision which like all of the bill which needs serious amendment must be rejected. In many premises one does not know when one is in the bar or restaurant area, or when one is in the lounge, and it must be made this section can be looked off.

Other provisions in this bill as carried over from the previous law, are very necessary for the proper, orderly operation of a liquor licensed premises selling intoxicating beverages. I feel the provisions in this are adequate and I look forward as a member of the Board, as I would, to administering it to the best of my ability.

With these few words, Mr. President, I support the bill.

MR. PRESIDENT: Does any other member wish to speak? Does the mover wish to exercise his right of reply?

MR. W. MERRILL HUGH: Mr. President, I had.....

MR. PRESIDENT: Oh, I am so sorry. Well, I think perhaps it may be convenient to take our afternoon break.

MR. W. MERRILL HUGH: Then I have not risen, Sir.

MR. PRESIDENT: I will give the Member his opportunity to speak once we are suitably refreshed. I will suspend proceedings for about fifteen minutes.

AT 2.58 P.M. THE HOUSE SUSPENDED

ROUSE RESUMED AT 3.30 P.M.

MR. PRESIDENT: Please be seated.
Proceedings are resumed.
The Second Elected Member for West Bay.

MR. W. MERRILL HUGH: Mr. President, I suppose the title of I read the comprehensive Liquor Licensing Law, not because I am in favour extensive of the sale of alcohol, but because whether I like it or not people who want to are going to use alcohol. As responsible legislators it is our duty to regulate the sale and distribution of alcohol in our society.

I am not foolish enough, Sir, to believe that this Bill, needed though it is, will cure the ills of alcohol use and alcohol abuse in our midst. Many people, including influential people in my constituency and from elsewhere in the

MR. W. HENRY [NAME OF RECENTLY] Patients have made representation to me the Little Bell. I have informed to them repeatedly and in many of the cases I share their concern. However, Sir, as I will also as a legislator it is my duty to do here what I believe to be in the best interests of the country. It is my firm belief that while this honourable House can and should set a moral example for the country, we cannot and I am sure should not seek to lay to not ourselves up as moral judges of the country.

Mr. President, I am all glad about this I would love to see everyone in church on Sundays, not because I am any strong conservative Christian, neither, Sir, am I to be taken as a fanatic Christian, not by any means. I like to believe that I am more a moderate. Regardless I have been all this House and before, have called me a hypocrite and they will surely all always please hypocrites. However, that is why for those who truth. I am no hypocrite, Sir. I go to church because I am not afraid to see myself as I am, and I am satisfied that I am in church of which I really am. When I am in church, I see real truths. I see genuine honesty. I see real love on a scale. So these people who might call church goers hypocrites and for this reason stay away from the church does are afraid to come in because they are afraid to see themselves as they are. They prefer to have a few drinks on Saturday and be free to worry anymore until Monday in the afternoon and say what a "good boy am I". You, Sir, they live in the world of make believe, the world of sham.

Having said that, I do not believe, Mr. President, that this country would tolerate it if we came here and tried to pass a law prohibiting the sale of alcohol within the country. Further, Sir, it is my belief that if we did pass such legislation it would be ignored by the populace just as it was ignored when an attempt was made years ago to enforce such a law in the United States. I am sure, Mr. President, that the older heads all remember those episodes. Many of them worked in the Cayman Islands which formed the illegal liquor runs into the United States' coastal ports. What type of legislation, Sir, would the smugglers and prohibition out of whatever good and lawful minions.

Some people have asked me, Mr. President, how am I to be so strongly opposed to young men and women while consuming the use of alcohol. I believe, Sir, it is fair for me to say that in the same meaning of the word I consider neither alcohol nor was guns or the use of drugs such as ganja as addictive. However, Sir, I and the rest of this House were elected to guide the country and to pass legislation here to afford that guidance.

I was born into a world using and abusing alcohol. As far I have read of the presence of the world since the time of Noah's flood. I feel that it was here even before that time. If no one then today has succeeded in abolishing the use of alcohol in all this time, it is unlikely that I or this honourable House will be able to do so. However, we can and will, Sir, with this Bill if it is passed, try our far as is possible to regulate the use in our society..

Mr. President, I am very well aware of the results of alcohol abuse. I see it around me every day and everywhere I look. Maybe I am a victim of the abuse of alcohol. The abuse of alcohol often results in social problems which we must also deal with. That, Sir, is my reason for supporting most of the provisions in the Licensing Laws we have just dealt in the Budget Address. I say that, Sir, because the increased fees for package licenses, in my opinion, are ridiculous. I do not know whether this is the place to say it, however, although I am not discussing the

MR. W. HOLMES BROWN (CONTINUING): from what they should be compensated, the fee on my opinion is uncertainly ridiculous. I have also had many representations from people in my district. However, knowing the Government I understand that it was a mistake and that it will soon be changed and the fees will be at a different structure. So I hope the Opposition will take note.

So as one, Sir, contrary to what some people may think there are packages stores which are not owned by the two monopolistic Wholesalers and these independent package stores have made difficulties competing with the Wholesalers. In some instances the Wholesalers have a package outlet in their stores. We have small package stores in the islands which are not in the commercial and tourist related areas and there is one package store in Hope Bay and two in Bodden Town. Those stores, Sir....

MR. SPEAKER: I think the Member is tending to talk irrelevantly about people of fees which really do not arise directly out of this Bill. They are a separate issue which has been debated separately. Unless the Member can very soon explain in what way he relates the points he is making to the Bill which is now under consideration I shall have to bring him back to the Bill itself or stop him.

MR. W. HOLMES BROWN: Thank you very much, Sir. I was just coming to a close on what I was saying. All I want to do is make the point, Sir, that the fees which have proposed are very dramatic, and in my opinion unrealistic. I maintain....

MR. SPEAKER: It is not part of this Bill.

MR. W. HOLMES BROWN: Yes, Sir. I am attempting that I did want to get the point across. I believe I have made my point. Thank you very much, Sir. I abide by your ruling.

Mr. Speaker, the amount of the quantum which prohibits the granting of a license within the quarter mile radius of a church, school or state institution into the 2nd and I believe I am right in saying this, after licenses had already been granted in some places within that quarter mile radius. So Sir, whatever could be done seeking to prohibit has already been done.

I wish to say, Sir, that I will agree with this motion only because under law the Board will have to meet in the public, have representation from individuals or groups which would include churches and other civic organizations. It would be impossible, in my opinion, under the provisions of the law for one man-person where local intolerance might and violence could disturb church services. I could never agree with that and I hope that the people in Bodden Town will take that into consideration. I do not have any objection against granting a license to an enclosed business where people can sit down decently and have a decent meal, and if they want to have a glass of wine I am agree with that, Sir. Our Caymanian people have suffered. I myself have been a victim of this and I know what they are going through so I can support the idea as I said, hopes that the Board will take this matter into consideration.

Mr. President, it was just years before, in 1967 when we had more restrictive legislation brought to this House concerning liquor licenses. I would trust that under this Bill we would never have to face this sort of situation.

MR. W. MARSHALL BASS (CONTINUING): As the poem reads I believe who said, "A good law is one which holds whether you recognize it or not, a bad law is one that cannot,however much you croak it. All too often the old law fails to hold".

Mr.President, the watchword of this Government is responsibility and accountability. The Higher Education boards created by this Bill will consist of reasonable and responsible persons, people who will examine every application on its merits. Mr. President, we have heard much talk about the appointment of Boards since this new Government has been elected. I signify nonetheless a new item my nomination....

MR. PRESIDENT: I hope we are going to keep to the present title.

MR. W. MARSHALL BASS: Yes, Sir, but does the Bill not talk about Boards?

MR. PRESIDENT: Yes, but that does not give the Member licence to talk about the possible appointments to other Boards on various occasions.

MR. W. MARSHALL BASS: I am only talking about the Higher Education Boards. Mr. Mitchell being, Sir, is a member of the Higher Education Board for Naval Dayton. With respect I am dealing with that, Sir.

MR. PRESIDENT: Well, you satisfy me but really what you should be addressing to the question of whether in principle the kind of provision in relation to the appointment and composition of a Board for which the present Bill provides, is in your view right or wrong. This is not the place to advance arguments or speak on question on members or particular appointments.

MR. W. MARSHALL BASS: Thank you, Sir. You may be right. Anyway, Sir, I just want to say that this man is an honest man and I believe that he knows what he is doing, and I have confidence in him to do right by this country. What is why I said that the watchwords of the Government are responsibility and accountability. That was the point I was trying to make. Anyway I still abide by your ruling.

MR. PRESIDENT: Having made your point, I guide accordingly.

MR. W. MARSHALL BASS: However, Sir, even before the application is considered by the Board the Planning Department must approve the site, and the Health Department and the Fire Department must also give their approval. It does not seem to me to be a one step procedure, Mr. President, and I do not require to find the responsible people on our Planning Board or the Fire Side and Health Departments giving any such approvals where it is not merited.

Perhaps, Mr. President, once this Bill is passed the Government can of Government, I believe, will have a clear and unmistakable piece of legislation, legislation, Sir, which they can-and I hope,they will enforce.

Mr. President, there are more sink-aways or unlicensed alcohol outlets in this country than there are licensed outlets. In some cases they are almost on the doorsteps of the churches, schools and other centres. Many of them, Sir, are situated under a two

MR. M. MORGAN ROSS (CONSERVATIVE): In the back yard somewhere, and all too often the axe is found down once hand in hand with the illegal sale of alcohol. Those are the planes, Sir, which in my opinion nonetheless have so many social problems in that they have absolutely nothing to gripe at any time irrespective of who, as long as they have the money to pay.

Mr. Speaker, I do not care to say too much on this Bill but I cannot help but believe that the initiative must lie square of these planes. Just how often I would ask, do we see anyone brought before the courts. If there's a problem on the old Lot I hope they will have note taxi and understand that new and workable legislation is being passed by this House and the Members of this Government, and the people of this country expect them to enforce it.

Mr. Speaker, I propose that it be my duty as a legislator to do here what I believe to be the best interests of our country.

With these few words, Mr. Speaker, I support the Bill and suggest that we now go right into Committee since the explanation has gone. (Inaudible).

MR. SPEAKER: Order, Order.

Does any other Member wish to speak? Does the Leader wish to exercise his right of reply?

HON. PETER F. POCKEY: Yes, Sir, very briefly. I wanted just like to refer to the points made by the Elected Member for North Side, and to say to him that because the Government has the power of opening at the most unusual occasion, we will bear in mind the remarks which he has made on that.

Apart from that, Sir, I would just like to thank the Members very much for supporting the Bill.

MR. SPEAKER: The question before the House is that a Bill entitled a Bill for a Law to amend and replace the Liquor Licensing Law (Revised) be given a Second Reading.

QUESTION PUT: AGREED. BILL GIVEN A SECOND READING.

MR. SPEAKER: The House will now go into Committee to study a Bill entitled a Bill for a Law to amend the Defamation Law (Revised) and other Bills.

THE DEFAMATION (AMENDMENT) BILL, 1985

COMMITTEE STAGE

MR. CHAIRMAN: Please be seated.

The House is now in Committee. The Defamation (Amendment) Bill, 1985.

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1 PASSED.

CLERK: CLAUSE 2. AMENDMENT OF SECTION 2 OF LAW 29 OF 1968.

MR. SPEAKER: Before I put the question on Clause 8, perhaps it may be convenient at this stage just to ask whether the House will agree that in connection with the procedure we have been adopting recently, the Honourable Second Official Member should be empowered to approve any parking, appropriation or similar excess which may have occurred since the printed version of the Bill. That saves the Committee from the task of having to identify each one and to approve the commencement. Perhaps I can just ask those who agree with that procedure sometimes, to say aye.

MEMBERS: Aye.

MR. SPEAKER: As no one dissents, for this Bill and for other Bills which we are considering today in Committee, the Honourable Second Official Member is so empowered.

The question now is that Clause 8 stand part of the Bill. If no Member wishes to speak I will put that question.

QUESTION PUT: AGREED. CLAUSE 8 AGREED.

CLERK: Clause 9. AMENDMENT OF SECTION 22 OF THE PRINCIPAL ACT.

MR. SPEAKER: The question is that Clause 9 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 9 AGREED.

CLERK: A BILL FOR AN ACT TO AMEND THE INTERPRETATION (AMENDMENT) ACT, 1982.

MR. SPEAKER: The question is that the Title stand part of the Bill.

QUESTION PUT: AGREED. THE TITLE WAS AGREED.

MR. CHAIRMAN: What instructions is this? For a Law to amend the Interpretation Law (Revised).

No Standing Order of the Legislative Assembly, (Immunities Powers and Privileges) (Amendment) Bill, 1982.

THE LEGISLATIVE ASSEMBLY (IMMUNITIES POWERS AND PRIVILEGES) (AMENDMENT) BILL, 1982

COMMITTEE STAGE

CLERK: Clause 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1, stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1. AGREED.

CLERK: Clause 2. AMENDMENT OF SECTION 3 OF LAW 22 OF 1966.

MR. CHAIRMAN: The question is that Clause 2 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 AGREED.

CLERK: A BILL FOR A LAW TO AMEND THE LEGISLATIVE ASSEMBLY (EMERGENCY POWERS AND PRIVILEGES) LAW (REVISED).

MR. CHAIRMAN: The question is that the title stand part of the Bill.

QUESTION PUT: AGREED. THE TITLE WAS CLAUSED.

MR. CHAIRMAN: That concludes a Bill for a Law to amend the Legislative Assembly (Emergency Powers and Privileges) Law (Revised).

We have next to the Marine Conservation (Amendment) Bill, 1982. Before I invite the Clerk to start on that perhaps it may be convenient to deal with the objection of Members to Standing Order 58(6), the effect of which is essentially that if a new clause is proposed to a Bill, then discussion of that new clause and the proposal that the clause be added to the Bill after all the clauses in the Bill have been considered. I am bound to confess that I had hitherto overlooked that provision, and I suspect that in the past the practice has crept in of taking a new clause in the place in the Bill in which according to its number it ought to come instead of first discussing all the clauses in the Bill and then at the end discussing the new clauses. However, since paragraph (6) of Standing Order 58 has come to my notice, and since it is mandatory rather than permissive, I think we should observe it. Therefore all the amendments of which I have been given notice, I think relate to new clauses.

Anyway, we will go through the clauses in the present Bill in order and then come to any new ones.

THE MARINE CONSERVATION (AMENDMENT) BILL, 1982

COMMITTEE STAGE

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1 AGREED.

CLERK: CLAUSE 2. AMENDMENT OF SECTION 34 OF LAW 12 OF 1978.

HON. ROBERT G. DONOVAN: Mr. Chairman, that Clause 2 be deleted in the amendments proposed are accepted as Clause 4. So there are two clauses to go between Clause 1 and this one.

MR. CHAIRMAN: Am I right that the position is that Clause 2 stands part of

MR. CHAIRMAN: ... knowledge of the note which I have got....

MRS. MARGOT G. JOHNSON: Yes, Sir, there are some pitfalls inherent in it. You are quite right.

HON. MICHAEL J. SHARLEY: This does possibly go with what I have been hearing a Backbencher say to Standing Orders, because the difficulty as I see it is we have to wonder the Standing Orders to which you referred, Sir, only amount to this, that things are done on the smallest possible quorum that we will do just enough and put up the new notices on the Bill. Whereas if I am....

MR. CHAIRMAN: That would not be necessary if we did not put on the new clauses.

HON. MICHAEL J. SHARLEY: That would not be necessary if we did not put on the new clauses. This is the point that I think, having gone back, perhaps on behalf of the Government here now, to take just one, that we will have to reconsider this one to receive the things which have been in between.

MR. CHAIRMAN: I am sorry. I did not realize that, well, maybe when we have a Committee on Standing Orders it will have to look at Standing Order 58(6) and alter it.

Put as for the remaining the two amendments which have been proposed on the assumption that we keep all the clauses later. If we don't we do not add the clauses, then we will have to come back to Clause 2. Would the Honourable Minister Member of Executive Council care to confirm that he wishes to make the two amendments to the existing Clause 2 which were circulated in his name?

HON. MINISTER OF FINANCE: Yes, Sir, if that is the procedure I agree with it.

MR. CHAIRMAN: I think according to the present Standing Orders it is.... So the two proposals are that the full stop should be substituted for the words "on 31st 1975" in the marginal note, and "period not" should be substituted for "March Consolidation Law, 1978" in the first two lines.

I will put the question first that Clause 2 by amended as proposed.

QUESTION PUT AGREED. AMENDMENT AGREED.

MR. CHAIRMAN: I will now put the question that Clause 2 as amended stand part of the Bill.

QUESTION PUT, AGREED. CLAUSE 2 AS AMENDED AGREED.

HON. MICHAEL J. SHARLEY: Perhaps the Clerk could note that there are three small typographical errors in that clause and I will undertake with her and tell her what they are.

CLERK: CLAUSE 3. REPEAL AND REPLACEMENT OF SECTION 25 OF THE PENSIONS LAW.

MR. CHAIRMAN: . . Perhaps just to explain to Members so there is no misunderstanding, Clause 2 will also automatically be renumbered if we call the new clauses. However, for the moment we take it as Clause 2.

If no Member wishes to speak on it, I have....

MR. D. BRIAN MILLER: Mr. Chairman, excuse me, Sir, but from my own clarity I believe I circulated an amendment to Clause 2 of the proposed amendment which is now replacing Clause 2. So maybe I should....

MR. CHAIRMAN: No, we come to that. After we have done those three there will be a proposal for a new clause. That is what then shall be debated your amendment to that new clause will come in.

MR. D. BRIAN MILLER: Alright, Sir.

MR. CHAIRMAN: You are not entering your memos.

MR. D. BRIAN MILLER: Alright, Sir.

MR. CHAIRMAN: I was saying I have not had any proposed amendment other than the amendments relating to Clause 2. So unless any Member wishes to speak I will put the question that Clause 2 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 AGREED.

DR. MICHAEL J. BRADLEY: Now, I think, Sir, we come back to....

MR. CHAIRMAN: To the new Clauses before us....

DR. MICHAEL J. BRADLEY: Yes, Sir.

MR. CHAIRMAN: Now, I have a proposed Committee Stage Amendment I was given notice of by the Honourable Fourth Elected Member of Executive Council, It was a proposal to insert a new Clause 2. Perhaps it will be helpful if I just read it so that Members can certain what we are talking about. It has a marginal note, "Amendment of section 12 of Law 12 of 1978", and then the new Clause 2:-

> "Section 12 of the Marine Conservation Law, 1978, in this Law referred to as the principal Law, is amended -
>
> (a) by deleting everything between the word "offence" in the second line and the full stop; and
>
> (b) by substituting "prohibited" for "restricted" in the marginal note.".

I have also had and I must say this quite right, notice from the Elected Member for North Side and the Honourable Second Official Member that the amendment which I have just read out be itself amended by adding a new subparagraph which would read:-

> (c) by the addition, immediately following the word "whatever" in line one thereof, of the following words - "save & except in his possession in the Cayman Islands or".

MR. CHAIRMAN (CONTINUED): I have also been given notice of another amendment by the Elected Member for North Side. That amendment is to substitute for sub-paragraph (a) of the proposed new clause:-

> "unless licensed by the Board who may for good reason licence such contravention as to possession and use as he may think fit";

MR. D. BRIAN MILLER: Mr. President, I think if we allow the word "prohibited" in the marginal note we cannot then say that the exemptions can be licensed. Should not the word "unauthorized" remain as a marginal note?

HON. VALDIS O. MCWATCH: Mr. Chairman, I believe (b) in number 2 of the proposed amendments could very well fall away if we accept the recommendations of the Elected Member for North Side, because in fact exemptions would not then be prohibited but would be restricted as they are in the law at the present time.

HON. MICHAEL J. BRADLEY: Perhaps, Mr. Chairman, Sir, if we were the right of the mover of the original amendment and of the Elected Member for North Side and of the Members of the Bench, if I could try to take the opportunity after you have formally put the amendment to the House to clear what the position of the Law would need with of both the Honourable Fourth Elected Member of Executive Council's amendment and the Elected Member for North Side's amendment so the amendments were all joined. I think the procedure as it has to be under Standing Orders, Mr. Chairman, and if you put the question I would then attempt to deal in as it would be if something was joined.

MR. CHAIRMAN: I think it would be easily possible under Standing Orders if it is necessary for me to put the three questions separately. However, I do think it would be helpful if Members still knew what the effect would be if their wished were both to the original new clause and to the two amendments to it. I am hoping that we can complete the business fairly soon and I am neglecting the fact that it is just after 6.30 p.m.

MR. D. BRIAN MILLER: Can we adjourn and complete the business right down the list to the Liquor Licensing Law, Sir? Could we suspend Standing Orders?

HON. VALDIS O. MCWATCH: Mr. Chairman, perhaps I could read to you what the amended section of the Bill, that is section 14 would read?

MR. Chairman: That would be very helpful I think.

HON. ROBERT J. VIBERT: The marginal note would remain the same, "Use of apparatus restricted". The section would read:-

> "Whereas has a apparatus or taken any narcotic life with the aid of a apparatus in Cayman Waters unless licensed by the Board who may in generally such licence make such restrictions as to possession and use as he may think fit";

Something is missing there.

HON. CHARLES T. KENNEDY: Mr. Chairman, I would like to bring your attention to Standing Order 10(1). If we wish to continue we should put a motion....

HON. WILLIAM G. JOHNSON: I hope I'll get a few words out there, Sir, it reads:-

> "Whenever has a specimen or takes any marine life which the old of a specimen in Canada Waters in policy of an offence unless licensed by the Board who may in granting such license make such conditions as to possession and use as he may think fit";

HON. MICHAEL J. BRADLEY: Mr. Chairman, let us reconcile things. Why I formally move the suspension of Standing Orders in order to have the Committee Stage of the Bill presently before the House disposed of. That will get it that far.

HON. CHAIRMAN: I think it is perhaps as well to do that. I had been hoping that we would only take three or four minutes beyond the moment of interruption and the Standing Order 10(1) does allow us that amount of license. Possibly, it may be that we are going to take another five or ten minutes. Perhaps therefore we should put formally a motion that Standing Orders be suspended. Can that be done in Committee or do we have to resume the House? I think possibly it has to be the House which suspends Standing Orders. I do not think a Committee can do it.

So I think I will resume the Chair.

House resumed

HON. CHAIRMAN: Please be seated.

I wonder whether the Honourable Senator Most Official Member, whichever you like would like....

SUSPENSION OF STANDING ORDER 10(1)

HON. MICHAEL J. BRADLEY: Mr. President, Sir, I should like to propose the suspension of Standing Orders to enable the Committee Stage of the Bill shortly entitled the Marine Conservation (Amendment) Bill, 1980 to be disposed of. I would say, Sir, in addition that having disposed of that, it may be possible that some other Senator may wish to move a further suspension of Standing Orders for a limited purpose also. However, I think if we go that far we will see how long it takes.

HON. H. MACKENZIE GUAY: I would suggest that we try to finish what we have here in Committee now.

HON. CHAIRMAN: So you mean the Committee Stage of all the Bills?

HON. H. MACKENZIE GUAY: Yes. I think we should try to do that, Sir.

HON. DENNIS G. STEVENS: I agree with that, Sir.

HON. MICHAEL J. BRADLEY: I accept the amendment.

MR. SPEAKER: The motion before the House that the Standing Orders be suspended so as to enable the Committee Stages of all the Bills to be completed this evening.

HON. MICHAEL J. DRAPEAU: Of all the Bills on Today's Order Paper.

MR. SPEAKER: Sorry. I meant on Today's Order Paper.

QUESTION PUT: AGREED. STANDING ORDER 19(2) SUSPENDED TO ENABLE COMMITTEE STAGE OF ALL BILLS ON THE ORDER PAPER TO BE CONSIDERED.

MR. SPEAKER: The Committee will resume.

COMMITTEE RESUMED

MR. CHAIRMAN: Please be seated.

HON. JAMES P. JOHNSON: Mr. Chairman, I would like to propose that the Honourable Second Official Member decide with those amendments because they are somewhat complicated.

MR. CHAIRMAN: I'm not sure. Have all Members understood? Because I think the Honourable Fourth Elected Member of Executive Committee did read out how the.....? No?

HON. MICHAEL J. DRAPEAU: Not correctly, Sir.

MR. CHAIRMAN: Very well. Would it be the wish of the Committee that I should invite the Honourable Second Official Member to read out how the section of the Law will read if the Committee approves the new clause proposed by the Honourable Fourth Elected Member of Executive Council, the amendment to it proposed by the Elected Member for North Side, and the amendment to it which he himself proposed? Then the Committee will understand what the position is going to look like if we agree to everything which has been proposed.

HON. S. BERARD MILLER: Yes, Sir.

HON. MICHAEL J. DRAPEAU: Mr. Chairman, if all these amendments and amendments to amendments were passed the section would read, and I will go slowly:-

> "Whoever has a weapon in his possession in the Yukon Territory or takes any member of the public the case of a weapon in respect to which the said of a weapon in respect to which he does not possess a valid Firearms Licence issued by the Board who may be lawfully such Licence make such conditions as to possession and use as it may think fit;"

MR. CHAIRMAN: Does all Members of the Committee understand that?

HON. JAMES P. JOHNSON: Yes, Sir. What is the amendment.

MR. CHAIRMAN: I am sure that is the effect of the new clause and the amendments. Now, as I mentioned before, for technical reasons to comply with Standing Orders, I have to put the questions one at a time.

MR. CHAIRMAN (CONTINUING): Firstly I will put the question that the new clause be added to the form proposed by the Honourable Fourth Elected Member of Executive Council, secondly that that new clause be amended in the manner proposed by the Elected Member for North Side, and thirdly that the amended clause be further amended in the manner proposed by the Honourable Second Official Member. Then I would have to put the clause as amended. If the vote is "aye" for all those things the effect will be what has just been read out. Since therefore....

MR. K. MORESBY SIDE: May we speak on it, Sir?

MR. CHAIRMAN: Yes, you may speak. You may speak to each of the parts, on the clause, on the amendment, and on the second amendment. So the first question is that a new clause 5 as proposed by the Honourable Fourth Elected Member of Executive Council should be added. Does any Member wish to speak on that?

MR. K. MORESBY SIDE: Just a question, Sir. Fees are talked about here. Will the Law say what sort of fee will be charged?

MR. CHAIRMAN: I do not think we have talked about fees quite seriously.

HON. MISS M. MORESBY: Mr. Chairman, there is nothing there about a fee, unless my eyes are bad.

MR. K. MORESBY SIDE: No, I am sorry. They are not talking about fees, but they are talking about a license. I guess to get a license everybody is going to have to pay.

HON. MISS M. MORESBY: Perhaps I could remind the Member with the permission of the Honourable Fourth Elected Member of Executive Council. Under the law as it stands at the moment the regulations making powers contained in section 84, subsection (h) says:-

"The Governor may make regulations -

(h) fees to be charged by the Board for receiving applications and granting licenses under this Law;"

So there is a power at present contained in the Law to charge fees for granting licenses, and I think the proper course would be for the Second Elected Member for West Bay to make representation as to the amount charged for those licenses to the appropriate Committee.

MR. K. MORESBY SIDE: My understanding of the Regulations is that in the Regulations a fee will be....

MR. CHAIRMAN: Well, the Law gives power for a fee to be prescribed for a license by regulation. That is the way it would be done and the Honourable Second Official Member was suggesting that you should make representations to the Committee about what the going rate would be a reasonable fee to charge for a license of the kind which we are now contemplating.

MR. FLOOD O. DARROW: Mr. Chairman, it is very likely that a fee will be charged for the license because we license to make sure without a fee. However, I am sure that the Secretary's Council will have enough to deal with on the question of the fee.

MR. CHAIRMAN: I would think that perhaps this is really not a revenue measure and the fee would be used to cover the administrative costs of issuing the license.

MR. W. MORGAN SHUSTER: Yes, with that in reply to my comment, just knowing that they are not just following I am hoping that they are not going to charge too much. (LAUGHTER).

MR. EDWARD A. FITZROY: Mr. Chairman, will sections 16(c)(1) and 16(c) remain in the text? It is right that the amendments deal with up to "three fish". This is one part of the Electoral Reform for South Africa motion. The rest of that paragraph says:-

"Save that the use of a speargun -

(a) (i) by any one person to take for human consumption only not more than one fish;"

MR. CHAIRMAN: That will remain.

MR. EDWARD A. FITZROY: It will come under the honourable Fourth Elected Member of Executive Council's proposed amendment.

MR. EDWARD A. FITZROY: This section of the Law will be deleted?

MR. D. CRAIG MILLER: Just section 16(1) and (b).

MR. CHAIRMAN: I shall try to explain matters but let me try again. If the Committee votes in favour of the two clauses, the Elected Member for South Africa's amendment to 16, and the Honourable Second Official Member's amendment to 16, those two technical effect will be a new section 16, the wording of which will be as read out by the Honourable Second Official Member earlier.

MR. EDWARD A. FITZROY: I understand that, Sir, but that would be first change the whole wording of section 16, because as I understand it the two amendments would read:-

"Whosoever have a speargun in his possession in the Cayman Islands or takes any marine life with the aid of a speargun in Cayman Waters is guilty of an offence unless licensed by the Board who may in granting such licence make such restrictions as to possession and use as he may think fit;"

This really does not provide for any number of fishes which may be taken by any one person in one day.

MR. CHAIRMAN: It leaves it to the Board.

MR. EDWARD A. FITZROY: It leaves it freely will open.

MR. CHAIRMAN: It leaves it to the Board.

MR. LEONARD A. STEPHEN: Alright.

MR. CHAIRMAN: The Board would have right to do that, and we would be breaching the Board to put a reasonable limit on....

MR. LEONARD A. STEPHEN: Alright, Sir.

MR. CHAIRMAN: ....and only so because those people who reasonably needed to have exemptions at all.

MR. LEONARD A. STEPHEN: This is the question, Sir, which I was just a little afraid of, that it should be properly controlled.

MR. CHAIRMAN: Well, now what I put the question then that the new clause stand part of the Bill, that the new clause be agreed.

QUESTION PUT: AGREED. CLAUSE GIVEN A SECOND READING.

MR. CHAIRMAN: Secondly, I will put the question that the clause be amended in the manner proposed by the Elected Member for North Side. Unless any Member wishes to discuss that I will put that question.

AMENDMENT I - That the Clause be amended by the deletion of the semicolon at the end of subparagraph (a) thereof, and the substitution therefor of the following -

"and substituting therefor "unless licensed by the Board who may in granting such licence make such conditions as to possession and use as it may think fit".".

QUESTION PUT: AGREED. AMENDMENT PASSED.

MR. CHAIRMAN: Now I will put the question that the clause be amended as circulated in the Bill proposed by the Honourable Second Official Member.

MR. CHAIRMAN: Now I will put the question that the clause as before amended be added to the Bill. It will now be as read out by the Honourable Second Official Member.

AMENDMENT II - That the Clause be amended by the deletion of ",", immediately at the end thereof and the substitution therefor of the following -

"; and

(c) by the addition immediately following the word "weapon" in line one thereof, of the following words "that a person has in his possession in the Cayman Islands or".".

QUESTION PUT: AGREED. AMENDMENT PASSED.

MR. CHAIRMAN: Now I will put the question that the clause as before amended be added to the Bill. It will now be as read out by the Honourable Second Official Member.

QUESTION PUT: AGREED. NEW CLAUSE 2 AS THUS AMENDED AGREED TO BE PART OF THE BILL AND CLAUSE 2 AS AMENDED AND PASSED, RENUMBERED AS CLAUSE 3.

MR. LLOYD A. FISCHER: Mr. Chairman, I would just a bit more slowly on one point here because I want to be able to explain this bill to my people. Am I to understand, Sir, that may then a certificate or application is granted, that that will create automatically how many fish or bushels a person may take, because it would seem as though the Board would already be there, and you use to have to write in on each occasion for each person asking for an application would seem pretty onerous.

MR. MICHAEL J. BRADLEY: I think the Board might establish a general principle of what they would contemplate, and have a consistent policy that each license when granted would give a standard consideration for a reasonable number. That would be my hope and expectation, Mr. Chairman.

MR. CRAIGMILE: I do not think the Board would expect each fisherman to simply every day before he went out and caught a fish for dinner or how many fish he could catch that. I think they would say that for instance we would restrict up in the Tuktoyaktuk or Aklavik fish or whatever might be the case. So the Member says I hope they would be consistent in what they would grant to different people.

MR. MICHAEL J. BRADLEY: Mr. Chairman, the Board will establish a policy which they will run on a yearly. It is very likely that that policy will be examined quite carefully before it is put into effect.

MR. MICHAEL J. BRADLEY: Mrs Clerk ??

MR. CHAIRMAN: I am most grateful to the Committee for their help in getting me through that.

We now come to a second proposed new clause. This second proposed new clause was contained in the Committee Clerk amendment put forward by the Honourable Fourth Elected Member of Executive Council, and it was a proposal which sought to insert a new Clause 3 amending section 25 of the principal Law. It has not been....

MR. PETER J. PUNCHESS: Mr. Chairman, it was just an amendment to Clause 24. It is not a new Clause 25. It is just an amendment.

MR. CHAIRMAN: No, it is a new Clause 3 amending section 25 of the principal Law.

MR. PETER J. PUNCHESS: You are right, Sir.

MR. CHAIRMAN: If I did not say that I would help myself, so But that is what it is. I made not even any proposals to insert it, therefore....

HON. MUSSER E. GORDON: Well, we have all commented on the passages, Sir, but nobody made any specific recommendations.

MR. CHAIRMAN: I am not too sure from the....

HON. PETER J. PUNCHESS: Nobody made any specific recommendations. I know that it was mentioned thereby the Police.

MR. CHAIRMAN: I understand that....

HON. MICHAEL J. BRADLEY: There have been discussions and I do not think there was any criticism to formally move an amendment to the amendment.

MR. J. KEITH MILLER: No, Sir, as long as it is clear that parks and golf links do not include a skating rink for example, then I have no problems with the amendment as proposed.

HON. MICHAEL J. BRADLEY: The Member has been reassured?

MR. J. KEITH MILLER: Yes.

MR. Chairman: In that case the question is that a new Clause 6 amending section 16 of the principal Act be inserted. Perhaps for the record I might be read out what that new Clause 6 will read. It will have a marginal note:-

"Amendment of S.16 of the principal Act."

The Clause itself reads:-

"6. Section 16 of the principal Act is amended by deleting "dollar for dollar for human consumption or fish basis" in the second and third lines."

Does any Member wish to speak on the proposed addition of this clause?

MR. LEONARD A. FISHOOK: Mr. Chairman, it is just why I should think this morning the elected Member for Hall Bay who is not here now did express concern for the welfare of the people in that part of this area a complete prohibition of the use of seines in this district. A lot of people depend on seines for a living for domestic and commercial needs. I am not trying to speak on the basis of that but the fact that I am here the situation which exists in that district. I wonder if we could not make a similar amendment for the use of seines. I am not too familiar what gill nets but we could have an amendment for the use of seines as we did with crossbows. That could also be controlled in a similar manner.

MR. W. ROBERTS EVANS: I would agree with that, Sir. I have had some people say the same thing to me and I am concerned, not that I believe there are dozens of people in my constituency using seines. However, the seine is used and I believe it does provide a livelihood for some people. Since we say that one can license a crossbow I feel that maybe the same provision should be made for the seine. I have never seen gill nets so I do not know what they would look like. I understand they are not a good thing so I have no qualms about that. However, the banning of the seine in my constituency would cause some hardship and I feel that we can make some provision for it.

MR. CHAIRMAN: If the Member has to move an amendment, we have to give leave to do so as legal advice to be sought to make an amendment to the proposed new clause in view of addition to the amendment moved by the Elected Member for South Side in respect of crossbows, would the Honourable Fourth Elected Member of Executive Council whose clause it is be prepared to accept it?

SEN. WALTER G. HARRISON: Yes, Mr. Chairman, I will accept it.

MR. D. LEWIS MILLER: Mr. Chairman, I think that the difference here, Sir, is in the potential damage which can be done to marine life. A specimen, once when it is released can only take one fish at a time. I have spearfished marine and I believe one of those who has caught fish in salmon. I do not think it is a matter of easy to say widely used in the Islands today. If we allow the netting net to continue to be used I think that an amendment of this is because salmon might be fair distance from what we are trying to achieve, because of the potential damage which a purse net can do in that it is going to take everything which swims in the water, whereas a specimen will only take one fish. That is my only reservation about licensing a marine net. We cannot have the same protection for the use of a marine net as we have for a specimen because it is going to be very difficult for somebody servicing a school of fish to only take one or eight fish. The way the nature that operates is that it is pulled under the school of fish after surrounding them, and they are lifted out of the water or if it's a harvest. It is going to be very difficult to restrict the quantity. What is going to happen is that whoever is receiving the fish is forced almost to take the whole catch. I have seen people say at times, for instance in a school of pelican fishes because of the nature surrounded, to release the school so they could light it out of the harvest. Once there is one species, Sir, it seems that the fishes fall the water and one does never get it back on the ground it like to keep fish or else. So one wishes takes all or takes none.

That is my concern and I think it is going to be difficult for the Board to put a restriction on it even at the species where it can only already can only take ten fish or five lobster. To try and work that kind of a thing there a fish net and a seine net is going to be very difficult for the Board to establish and control.

MR. P. MORGAN ADAM: I think, Mr. Chairman....

DR. ROBERT G. DARROW: Mr. Chairman....

MR. CHAIRMAN: One at a time. It was the first the Second Elected Member for West Bay who first caught my eye.

MR. M. McNEIL ADAM: Mr. Chairman, I do not think I am the Second Elected Member for George Town now asking that a seine net be licensed to take a few fish. I would be stupid to believe that, Sir. I have seen the seine nets in action. What I am saying is that I feel that we can license the amount of fish - I am sorry seines. I am getting mixed up with fish - as we are doing with the shrimpers. The purpose of licensing the shrimpers is so that the authorities have some control on the amount of shrimps. I do not think it is the amount of fish, it is the amount of shrimps we are talking about. I am saying that there are people who have to use the seine net for a livelihood. There may not be dozens as I said before but there are people, and I feel that we have to take those people into consideration.

Now, I think I stand as on the Bill but I feel that I should have my say here on it.

MR. CHAIRMAN: The Honourable Fourth Elected Member of Executive Council.

SEN. WILLIAM S. JORDAN: Mr. Chairman, I wanted to say that I should make my position clear. I said I would agree with the amendments provided the majority of the members agreed with Mr. Anderson, and my remarks that I spoke were strongly against the conversion of water rights and the administration of boat laws on the Yellowstone Lake to salmon fish. If it is so that the Committee recommends a similar amendment to that now with the Legislature, it is very likely that the conservation committee is going to place a little more restriction on water so that we have they will not be able to operate in places like George Lake Reservoir.

REP. MICHAEL S. KADAS: Would I, Mr. Chairman, through you ask my fisherman colleague exactly where native trout are mostly used. The point is that there is a chance here which says that they might not be used in Quake Lake and Cabin Creek and Hebgen and they think our fishery besides of 300 miles. They are in fact under the Interpretation Clause only the semi-tropical waters. So it is only a three mile limit which we are dealing with from the shore. There is no restriction whatsoever placed in this Bill on the use of any type of bait under our fishery Division. I do think that the use of native trout is a valuable method of culturing fish, and if we are attempting to conserve our inland waters, the inland waters could be conserved by a law only within the three miles. There is still the ability for fishermen to use their nets outside the three mile limit.

MR. LAWSON A. BIGGER: Mr. Chairman, I believe of the Members present here I have as much experience as the other men in the use of seines, because I grew up on an area which used seines exclusively for a living. While I agree, and as I said this morning I believe in conservation and in a conservationist, I think we have to be practical with any legislation which we attempt to pass here. The legislation should not only be something which we feel is going to accomplish a conservation objective. It should be good for the people and I believe that it would be enjoying water knowing if we prohibited the use of seines in the eastern waters of the Yellowstone. The people there not only rely on the waters for recreation but for their living, but the reason why they use the nets is so that they can get sufficient fish to sell and make a living.

So, while I feel that the seine nets should be closely scrutinized, I believe that to prohibit the use of seine nets would be a big mistake. I will have to the making of the majority of the Members that I would like to point out that we should be very careful not to be too hasty hereon and investigate on this.

MR. W. MURRAY SIGH: Mr. Chairman.....

REP. CRIPPEN: No, you are going to have to wait for me to quit you because I know about three people who want to speak with the time. The Most Blessed Member for the Forest Reserve has not had a go yet.

REP. ROBERT E. KIMMONSBACH: Mr. Chairman, I rise into the Senate Proposed Section for George Lake. I feel that if we Minutes it is not enough of and they will only Minutes people when they feel with them in a proper manner. When it will be easy to prosecute those who are taking it illegally. If we can give the person who used a Spearfish a Minutes, I feel the Warden will be inclined give one to the entire operation.

MR. P. KENNEDY RICE: Mr. Chairman, the swings which are being used in my constituency are the most dangerous. That is the only place although I guess they are used in South Ireland too. However, where I see them being used most is in the most dangerous. I think that we must take these people into consideration. We cannot just legislate just because we can legislate....

MR. CHALONER: Despite Mr. Kennedy it has a long time and have not actually got the final amendment about the matter yet. I think it would be not unreasonable both on the right track we had better stick on amendment....

MR. J. EDGAR WILLIS: If I could just answer this....

MR. CHAIRMAN: ....and come back when the time comes....

MR. J. EDGAR WILLIS: Could I just answer the honourable General Officer's question which he asked about swings. Sir? I think most swings have to be used in such a way which the seats and they have to be between pleasure like four feet. Most swings are only three to three and a half feet deep as they go from the supports to the bottom. So they have to be used within the seat and the depth is usually about three or four feet of water. That is why they are so dangerous.

COL. MICHAEL J. BRADLEY: Mr. Chairman, if the proposed new Clause 7 is before us, would it be in order for me to move under Standing Order 27 and read with Standing Order 52(2) an amendment to that proposed new Clause which would be in failure -

> "That paragraph 2 of the notice of amendment be amended by the addition immediately before the full stop thereof of the words -
>
> 'and by the addition at the end thereof of the following -
>
> Unless the appropriate authority licensed by the Board who may be granting such licence make such conditions as he may think fit',".

What then would be the amendment, Sir, would be that the section in the Act of the new Clause were passed, and my proposed amendment were passed, would then read -

> "Whether such or attempts to use any swing or gift ride for the purpose of taking monies left in Dublin Airport be guilty of an offence in accordance with licence by the Board who may be granting such licence make such conditions as he may think fit."

I think this would meet the point that people may have accumulated circumstances in a certain area which would grant themselves of accurate circumstances, the property of the Board in obtaining a licence. However, the Board would still be able to make conditions as to the use.

I have mentioned that, and I apologise to him for not consulting him, with the consent of the amendment, the honourable Fianna Fáil Elected Member of Executive Council, and I intend subject to his views on it.

MR. CRAIGHILL: Could I just make one comment. As I understand it there was no Member who spoke in favour of the provisions of the bill now.

HON. ROBERT G. BOURGOIN: Yes, Sir, I was just going to move that we debate "Bill 102" then do.

MR. CHILDERS: I think that's only going to be the exception. I don't see how to restrict Bill 102 in the Committee so that the contents of the Bill prohibits casino and bill 102. However, if there were to make an exception granting in the case of licensed casino nets only I think that is what Members were arguing for.

HON. MICHAEL F. HOLLETT: Then perhaps it would be better, Sir....

HON. GEORGE D. HICKMAN: Mr. Chairman, I wonder if maybe the Honourable Second Official Member could include in that amendment something to the effect that, "But the provisions of Bill 102 prohibition does not extend to casino nets and roulette...". What I am looking for is a word that means bay nets.

MR. W. MORGAN: BLACK: That is normally known as a blackjack.

MR. D. DONALD MACKAY: I think so long as they are not mentioned in the Bill they cannot be contradicted. However, I agree with the Member, and I make the amendment.

HON. GEORGE D. HICKMAN: When exercise me, Sir, is that the Attorney-General made reference to the taking of fish nets. I would have thought that this section referring to the small-mesh nets that we are now referring to. If we have that assurance that the interpretation will not apply to whom I am happy.

HON. ROBERT G. BOURGOIN: We are only placing restrictions on casino and bill nets, nothing else.

HON. MICHAEL F. HOLLETT: Perhaps to meet the point which the Honourable Member has raised in relation to bill nets, instead of the words which I read, "unless an exemption otherwise licensed by the Board", if those could be deleted from my original proposal and instead "as a juvenile" put in. This would then read:

> "PROVIDED that the Board may in exceptional circumstances grant licences for the use of casino nets and in granting such licences may make such conditions as to possession and use as it may think fit.",

This would make it quite clear by using a procedure that it would be only casino nets which the Board could in exceptional circumstances license, but they could not do it to bill nets.

MR. CHILDERS: Do you have the wording of that which you can subsequently give to the Clerk so that....

HON. MICHAEL F. HOLLETT: I think the Deputy Clerk being a learned gentleman could take it.

MR. CRAIGHILL: What I will do....

HON. NICOLAS J. BRADLEY: Perhaps she could move it out in full afterwards.

MR. CHAIRMAN: What I will do if I may is to follow the procedure which we followed in respect of the last Clause I which has already been added. First I will deal with the addition of Clause 3 as proposed by the Honourable Fourth Elected Member. Then, secondly, I will deal with the amendment to that clause proposed by the Honourable Second Official Member. As it will be in two stages and Members may speak on either, although in fact we have done most of the speaking before I.... So, first then the question is that a new Clause 3 be added as proposed by the Honourable Fourth Elected Member of Executive Council. Unless any Member wishes to speak I will put that question.

QUESTION PUT: AGREED. CLAUSE THREE A DULY MADE.

MR. CHAIRMAN: Secondly, I will put the question that that new Clause be amended as the same proposed by the Honourable Second Official Member. Unless any Member wishes to speak I will put that question

"That the Clause be amended by the addition, immediately before the end thereof, of the words -

"and by the addition at the end thereof of the following proviso -

PROVIDED that the Board may in exceptional circumstances grant licences for the use of motor cars to persons who in the opinion of the Licensing Board Members may make such concessions as to necessity as they think fit."

QUESTION PUT: AGREED. UNANIMOUSLY PASSED.

MR. CHAIRMAN: I will now put the question that the Clause as amended be added to the Bill.

QUESTION PUT: AGREED. NEW CLAUSE 3 AS AMENDED ADDED TO THE BILL AND CLAUSE 3 AS PROPOSED RENUMBERED CLAUSE 4.

HON. MISS G. JOHNSON: I wonder if I could have the words of that amendment?

MR. CHAIRMAN: We will ask the Deputy Clerk to let you have them after the Meeting if we may.

HON. MISS G. JOHNSON: That is fine, Sir.

MR. D. RONALD MILLER: Mr. Chairman, could....

MR. CHAIRMAN: Now, my understanding of the wording of Standing Order 51(5) is that having added these new Clauses, which will automatically be taken to renumber the Clauses which we discussed earlier. We do not have to recommit that or agree to carry the numbers on anything else. The process is taken care of for us.

MR. MICHAEL J. MURPHY: My apologies. I thought you were doing Clauses 6 to 10. I am sorry. I was attempting them.

MR. CHAIRMAN: I am afraid that we have done Clause 5 so unless you want to go through with the rigmarole of reconsidering it....

HON. SENATOR O. ROBERTS: We both missed our chance.

MR. RICHARD J. BRADLEY: It may be a typographical error (inaudible).

MR. CHAIRMAN: The question is Clause 6 to 15 stand part of the Bill?

QUESTION PUT: AGREED. CLAUSES 6 TO 15 AGREED.

CLAUSE: CLAUSE 1. POWER FOR SALE OF ACCOMPLICE LIQUOR.
CLAUSE 10. APPLICATIONS FOR LICENCES.
CLAUSE 11. VARIATION OF LICENCES.
CLAUSE 14. QUARTERLY SITTINGS OF THE BOARDS.
CLAUSE 15. TEMPORARY LICENCES.

MR. CHAIRMAN: The question is that Clauses 11 to 15 stand part of the Bill.

MR. D. EDWARD WILLIS: Mr. Chairman, I would like to move an amendment to section 11(3). It says:-

"A board may grant time to time, by notice published in two consecutive, broadly equal issues,"

I would like to speak to there that the issue in left to the discretion of the licensee. (LAUGHTER AND SOUNDS OF DISSENT).

I withdraw that amendment, Mr. Chairman. I see I am not going to get any support.

MR. CHAIRMAN: I do not think you are going to get a lot of support.

MR. D. EDWARD WILLIS: (LAUGHTER). No, Sir. I withdraw the amendment.

MR. CHAIRMAN: Moreover, normally if Members want to move amendments to Bills, two days notice should be given. It is really much more convenient for the House if that can be arranged. We cannot discuss I know, and I....

MR. F. MORTON SHAW: Two days?

MR. CHAIRMAN: I have to be flexible.

MR. F. MORTON SHAW: Two days?

MR. CHAIRMAN: I think it is two days for amendments.

HON. MICHAEL J. MURPHY: Standing Order 63(3).

MR. D. EDWARD WILLIS: It is alright, Sir. I withdraw the amendment.

MR. SPEAKER: We have now got Clauses 11 to 15.

QUESTION PUT: AGREED, CLAUSES 11 TO 15 PASSED.

CLERK: CLAUSE 16. COURT MAY MAKE RECOMMENDATIONS REGARDING LICENCES.
CLAUSE 17. OBJECTIONS BY THE PUBLIC.
CLAUSE 18. GRANT OF A LICENCE.
CLAUSE 19. OCCASIONAL AUTHORIZATIONS.
CLAUSE 20. CONDITIONS OF HOTEL LICENCE.
CLAUSE 21. CONSOLIDATION ETC., OF LICENCES BY MAGISTRATES COURT THE CASE OF 12.

MR. CHAIRMAN: The question is that Clauses 16 to 21 stand part of the Bill. If no Member wishes to speak I will put this question.

QUESTION PUT: AGREED. CLAUSES 16 TO 21 ORDERED.

CLERK: CLAUSE 22. DISPOSAL OF INTOXICATING LIQUOR TO DRUNKEN OR DISORDERLY PERSONS IS FORBIDDEN.
CLAUSE 23. SUPPLY OF DRUNKEN AND DISORDERLY PERSONS.
CLAUSE 24. RIGHTS OF LODGERS.
CLAUSE 25. PROHIBITION RESPONSIBILITY OF LICENSEES.
CLAUSE 26. PENALTY ON ANNOYANCE ON LICENSEES.

MR. CHAIRMAN: The question is that Clauses 22 to 26 stand part of the Bill. Unless any Member wishes to speak I will put that question.

QUESTION PUT: AGREED. CLAUSES 22 TO 26 AGREED.

CLERK: CLAUSE 27. STANDARD.
CLAUSE 28. CLOSURE OF PUBLIC PREMISES IN CASE OF RIOT OR APPREHENDED DISTURBANCE.
CLAUSE 29. ADMINISTRATION OF UNCLAIMED GOODS.
CLAUSE 30. POWER TO SEARCH PREMISES.
CLAUSE 31. PENALTY ON INTOXICATING LIQUOR TO BOARDS SCHOOL.

MR. CHAIRMAN: The question is that Clauses 27 to 31 stand part of the Bill. If no Member wishes to speak I will put the question.

QUESTION PUT: AGREED. CLAUSES 27 TO 31 AGREED.

CLERK: CLAUSE 32. PENALTY ON UNLESS STATED = SALE OF INTOXICATING LIQUOR.
CLAUSE 33. RELEASE OF PRISONS ON SETTING OF BOND.
CLAUSE 34. NOTICE OF CLAIM TO COMPENSATION.
CLAUSES 35. CONSOLIDATION AND SUPERSEDING.
CLAUSES 36. REPEAL OF ACTS, ETC., AND APPLICATION OF PROVISIONS.

MR. CHAIRMAN: The question is that Clauses 32 to 36 stand part of the Bill. If no Member wishes to speak I will put that question.

QUESTION PUT: AGREED. CLAUSES 32 TO 36 AGREED.

CLERK: CLAUSE 37. PROHIBITION OF CERTAIN OFFICERS FROM CONSUMING INTOXICATING LIQUOR.
CLAUSE 38. OFFENCES BY LICENSEES.
CLAUSE 39. LIQUOR NOT TO BE CONSUMED IN PREMISES IN CERTAIN CASES.
CLAUSE 40. : GENERAL PENALTY.
CLAUSE 41. INSTITUTION OF PROCEEDINGS.

MR. CHAIRMAN: The question is that Clauses 37 to 41 stand part of the Bill. If no Member wishes to speak I will put that question.

QUESTION PUT: AGREED, CLAUSES 37 TO 41 TO STAND.

CLERK: CLAUSE 42. APPROPRIATION OF PENALTIES ETC.
CLAUSE 43. PUBLIC REGISTRATION OF INTOXICATING LIQUOR NOT NECESSARY IN EVIDENCE.
CLAUSE 44. PROOF OF LICENCES NOT NECESSARY.
CLAUSE 45. PROTECTION OF OFFICIALS.
CLAUSE 46. POWER TO MAKE REGULATIONS.
CLAUSE 47. REPEAL AND SAVING.

MR. CHAIRMAN: The question is that Clauses 42 to 47 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSES 42 TO 47 TO STAND.

CLERK: SCHEDULE.

MR. CHAIRMAN: The question is that the Schedule stand part of the Bill.

QUESTION PUT: AGREED. THE SCHEDULE WAS AGREED.

CLERK: A BILL FOR A LAW TO AMEND AND REPEAL THE LIQUOR LICENSING LAW (AMENDED).

MAJ. MICHAEL J. BRADLEY: That should read "LAW" instead of "Licensing". It is my fault, Sir, but I think that it is a typographical error and that attention should be drawn to it.

MR. CHAIRMAN: The question is that the Title and Amendment Clause stand part of the Bill.

QUESTION PUT: AGREED. THE TITLE WAS AGREED.

MR. SPEAKER: That concludes proceedings in Committee on a Bill entitled a Bill for a Law to amend the Defamation Law (Amended) and other Bills. The House will resume.

HOUSE RESUMED

MR. SPEAKER: Please be seated. Since we have suspended Standing Orders to complete the Committee Stages of various Bills which have now been completed, I think the adjournment should follow automatically.

ADJOURNMENT

HON. DENNIS H. TYNDALL: Mr. President, I move the adjournment of this House until 10.00 a.m., Monday, 25th March, 1985, pur.

MR. PRESIDENT: The question is that this House do now adjourn until 10.00 a.m. on Monday.

QUESTION PUT: AGREED. AT 6.28 P.M. THE HOUSE ADJOURNED UNTIL 10.00 A.M., MONDAY, 25TH MARCH, 1985.

STATE BUDGET & BUDGET REPORTING BY THE (1995) SESSION OF THE LEGISLATIVE ASSEMBLY

MR. PRESIDENT: Items to be adopted.
Proceedings are resumed.
Questions. The Second Financial Member for Golden Bay.

QUESTIONS

THE SECOND FINANCIAL MEMBER FOR GOLDEN BAY: TO ASK THE HONOURABLE SENIOR OFFICIAL MEMBER REPRESENTING THE TREASURY AND ENERGY, CERTAIN:

MR. 44: Will the honourable Senior Official Member advise whether any electronic value-added gaming devices have been placed on telephones in the Cayman Islands with Government approval?

ANSWER: No.

MR. SPEAKER: Unless there is any supplementary I will ask the Second Financial Member for Golden Bay to ask the next question.

THE SECOND FINANCIAL MEMBER FOR GOLDEN BAY: TO ASK THE HONOURABLE SENIOR OFFICIAL MEMBER RESPONSIBLE FOR TREASURY AND ENERGY AFFAIRS:

NO. 45: Will the Honourable Member state what legal requirements must be met by any law enforcement agencies in the Cayman Islands before they may utilize electronic eavesdropping devices on telephones in the Cayman Islands?

ANSWER: The legal position is complex and not altogether clear. The probability is that authority would not present be required from Court could be given by the Governor under section 3(2)(b)(ii)(cc) of the Confidential Relationships (Preservation) Law. But in fact the matter is beyond doubt it may be desirable to impose specific legal requirements in the Telephones Law, and consideration will be given to amending it for that purpose.

MR. SPEAKER: If there is no supplementary we can move to Item 5 on the Order Paper, the Firearms (Amendment) Bill, 1994, consideration of Second Reading resumed. When we broke last Wednesday this Bill the Honourable Third Official Member was about to, or had just begun to reply. I invite him to continue.

BILLS

SECOND READING: FIREARMS (AMENDMENT) BILL, 1994

CONSIDERATION OF SECOND READING RESUMED

HON. JAMES M. KENNEDY: Thank you, Mr. President. The Honourable Members are aware, perhaps are not currently aware to anyone other than Honourable Colonial Members and the Governor point of view being brought to this issue.

HON. JEROME C. JEYARSON (CONTINUING): As a result of proceeding the Stamp Duty (Amendment) Bill, 1980 to this House we have received many representations from many different sources. Mr. Speaker, this Stamp Duty Law is a very technical one, and in order to look at the number of points made during the representations it is our view, Mr. President, that under Standing Order 58 I should move to make a motion to withdraw the Bill from the House at this time. In order to fully properly the points put forward by the people who have made representations, we need adequate time to do so.

Mr. President, it is my view that this matter be studied adequately and that an amending Bill be brought to the House in the May sessions.

Thank you, Mr. President.

DR. LEWIS DE SOUZA: Mr. President, I second the motion, Sir.

MR. PRESIDENT: I am not sure whether the Member duly formally actually made a motion. He communicated his intention to do so.

The provisions of Standing Order 58 for the information of the House are that the Member in charge of a Bill may make a motion for its withdrawal, either before the commencement of Government business, or when any stage of the Bill is reached in the order of business. It is therefore perfectly permissible for the Member to make this announcement a motion and I will request his answer as moving one.

The question before the House therefore now is that a Bill for a Law to amend the Stamp Duty Law, 1972, should be withdrawn. Does any Member wish to speak to that?

HON. C. WILLIAMSON: Mr. President, I would only like to say that my heart has been filled with joy to see this Bill withdrawn, because as I mentioned in my debate which was lengthy, and I will not go back into that, this amendment proposed here would drastically push back the development of our economy. I am glad to see that the Government including the Elected Members of Executive Council have seen the light. I fully support the withdrawal of the Bill.

MR. PRESIDENT: I should not wish the Honourable Member to be unfair. He may have been absent. I noticed he was out of the House for a moment at the time when the Honourable Third Official Member spoke. The Bill is being withdrawn for review to be further studied and reconsidered again. Now, the Member does know. Very well. Unless any other Member wishes to speak I will put the question.

QUESTION PUT: AGREED. IN ACCORDANCE WITH STANDING ORDER 58 THE BILL WAS WITHDRAWN

MR. PRESIDENT: Item 8(b), motions. Government Motion No. 5/81. The Honourable Fourth Elected Member of Executive Council.

MOTIONS

GOVERNMENT MOTION NO. 5/81

DEVELOPMENT AND PLANNING (AMENDMENT) REGULATIONS, 1981

HON. MISSES C. JEYARSON: Mr. Speaker, I beg to formally move Government Motion No. 5/81, Development and Planning (Amendment) Regulations, 1981:-

MRS. VESTA G. ROGERS (CONTINUING):

"BE IT RESOLVED that, a draft of the Development and Planning (Amendment) Regulations, 1970, having been laid before it, this House does this day approve the same.".

SIR, SPEAKER: Does the Honourable Fourth Elected Member of Executive Council wish to explain? I think it would be convenient if he would do so at this stage.

SEN. DAVID O. JOHNSON: Mr. President, attached to the motion is a draft of the amendment to the regulations of the Development and Planning Regulations.

The purpose of the motion seeks to the Legislative Assembly is that regulations under the Law cannot be made by Executive Council until they have been put to the Legislative Assembly for consideration. So the proposed amendment to the regulations as now presented by this motion was the authority of the Legislative Assembly will be sought for the recommendations that I proposed here.

Mr. President, I am sure that the question will be asked why are we moving this motion. We are moving no amount of $, Sir, but before I explain the reason I would like to say that I am sure that the Government will be quite glad to lobby [illegible] for specific interest groups. To that, Mr. President, I would reply that that is quite correct. We do have investment groups for whom we now provide [illegible] of subsidiary legislation. First on the list, Mr. President, is the Hyatt Regency. They are building a hotel in Grand Cayman which will be known as Hyatt Regency Hotel, and of course the owners are the Britannia Hotel Cayman. However, it also interested is that we have other large International companies. One one in particular which I would like to mention is Commonwealth International Limited of the United Kingdom. Commonwealth International Limited, Mr. President, is owned by Trafalgar House of the United Kingdom as well which is a very large operation in the United Kingdom. Trafalgar House of the United Kingdom, Mr. President, is a publicly company with annual turnover of the order of one thousand, one hundred million pounds per year. Mr. President, their subsidiary Commonwealth International Limited operating here has a turnover of approximately one hundred and twenty million pounds per annum. These are very big operations, and they will have a minority interest in the Hyatt Britannia Hotel. Also, Mr. President, they are going to do the complete refurbishing of the Hyatt Britannia Hotel.

The financing for that particular project is in the order of $25 to $30 million. Also, Mr. President, Trafalgar House of the United Kingdom is the owner of about 15 Cunard International hotels around the world. They are the owners of the Cunard Line with vessels like the Q.E.II, Queen Mariner and other large passenger liners. They are in shipbuilding. They do construction, civil engineering, steel engineering and petro-chemicals. So they are very large, Mr. President, and they have the capacity to inject quite a lot into the economy of these islands. They are the first investment group in this particular interpretation, because, Mr. President, in the dealings of the Hyatt Britannia Hotel they have got certain pressures put to us which were requested by the Hyatt Regency. When they do a first class hotel anywhere it must be up to their standard.

Unfortunately, the education tax of the complex are to be less cost the law will only provide a minimum of 20 year. Mr. President, this motion seeks to remove the restriction and place it in other terms. However, before I leave that particular subject I should say that the owner of the Hyatt Britannia Hotel will

HON. PAUL J. JOHNSON (Continued): not be the only one which will exceed the 55 foot limit under the planning regulations. We have a building, Mr. President, just behind the Legislative Assembly building which Government now owns and which is known as the Knox Building, which exceeds 55 feet in height. There are the radio station aerials also exceeding 55 feet. There are many other structures, masts and other forms of buildings which also exceed the 55 foot limitation. So this amendment to the regulations will not only cover the Royal Fortescue Hotel development, but will cover a lot of things so that they will not breach the planning regulations.

Mr. President, another special interest group, of course in the Islands, are those who we have heard so much about in this House during this session. We mentioned, Mr. President, that there is unemployment in the Islands at the present time. In fact we have seen this from a period way back into last year. The extension of this powerhouse project will give quite a lot of employment to these Islands, these people.

The project is to start on the 1st May if planning permission is granted, and the plan is that it will be completed for opening in December next year. Whether this will be possible or not, Mr. President, that is the present programme or plan of the developers. So, during this period there will be a lot of people employed there. I am sure that it will attract the unemployed from the two smaller Islands and all the qualifications in this Island, that is those who are not employed at the present time.

Mr. President, there is no doubt that this is a very attractive development for these Islands. I dare say that if the past Government had been able to attract a first class hotel like this to the Islands a while ago, perhaps it would not have denied the honour of building this group.

I am sure that a number of this membership will make quite a contribution to the economy of these Islands, and will make quite a contribution to the coffers of Government generally. So, Mr. President, I will commend this motion to this honourable House. It seeks to amend Regulation 2(1) and it is for the purpose mentioned in (a) to make the necessary provisions which I have just mentioned.

The brief amendment is attached and I am sure that all Members have read it and understood what it intends to provide. So, Mr. President, I will commend this motion to this Honourable House.

HON. PRESIDENT: The motion before the House, Government Motion No.9/84 is:-

"BE IT RESOLVED that, a draft of the Development and Planning (Amendment)(Regulations, 1984, having been laid before it, this House does hereby approve the same.".

The motion is open for debate. Does any Member wish to speak? In that case I will put the question.

QUESTION PUT: AGREED. GOVERNMENT MOTION NO. 9/84 PASSED.

HON. PRESIDENT: There is on today's Order Paper as a personal explanation, but until the arrangements I propose to defer that until slightly later in today's proceedings. So I will take next from a Government Business, Bills, Reports.

[illegible]

THE [illegible] (AMENDMENT) BILL, 1996

[illegible]

HON. [illegible] P. [illegible]: Mr. Speaker, Sir, I beg to report that a Bill for a Law to amend the [illegible] Law (Revised) was considered by a Committee of the whole House and passed without amendment.

MR. SPEAKER: The Bill is accordingly set down for Third Reading.

THE LEGISLATIVE ASSEMBLY (PARLIAMENTARY PRIVILEGES AND [illegible]) (AMENDMENT) BILL, 1996

[illegible]

HON. [illegible] P. [illegible]: Mr. Speaker, I beg to report that a Bill for a Law to amend the Legislative Assembly (Parliamentary Powers and Privileges) Law (Revised), was considered by a Committee of the whole House and passed without amendment.

MR. SPEAKER: The Bill is accordingly set down for Third Reading. The Honourable Fourth Elected Member of Executive Council, he need I think.

THE MARINE CONSERVATION (AMENDMENT) BILL, 1996

[illegible]

HON. [illegible] M. [illegible]: Mr. Speaker, there have been quite a number of amendments to this Bill, The Marine Conservation (Amendment) Bill, 1996. I thought I would have received the amendment from the Legislative Assembly earlier so that I could have it in my possession. However, Mr. Speaker, there were certain amendments to the Bill.

Two sections were moved to the principle Bill. The second section was corrected. The new Clause 3 which was the amendment to section 11 of the main Law read, Mr. Speaker:-

> "Whenever [illegible] in his possession in the Cayman Islands or takes any marine life with the aid of a speargun in Cayman Waters the Police Officer [illegible] by the word [illegible] may in granting such license make such conditions as to possession and use as it may think fit;"

MR. SPEAKER: If I may interrupt the Member for a second. I think that what he has read out is the section of the principal Law as the Bill appears once the amendment has been made. He has not actually read the clause of the Bill which was passed. I do not think it matters but I think that is it.

HON. [illegible] C. [illegible]: Yes, Mr. Speaker, the original clause of the Bill is [illegible]...

MR. SPEAKER: What I am saying is that the new Clause 3 of the Bill as proposed in Committee I think would start, "Section 11 of the Marine Conservation Law, 1978 (in this Law referred to as the principal Law, is amended -", is I have right?

REV. [illegible] R. [illegible]. ...ree, Sir. There is another amendment as well, Mr. President, an amendment to section 15 which now becomes a new Clause 2 of the Bill. What is as I said, Mr. President, amending section 15 of the Bill by deleting from the original section 15 the words "other than for human consumption or fish bait is guilty of an offence", and replacing those words with..."Mr. President, I am sorry about this, Sir, but I cannot follow what is here. (LAUGHTER)

REV. MICHAEL J. [illegible]: Mr. President, I do not know whether it is the usual procedure on this stage, but in consideration of other [illegible] I have before me words "As Committee Stage was passed with numerous amendments" have suffered. I think....

MR. PRESIDENT: I thought that was our intention too nonetheless. I do not think that it is the invariable practice to read out the full text of every proposal. I think it would suffice if the Member were to report that the Committee had examined the Bill and passed it with amendments, the effect of which are to introduce a new Clause 2 which amended section 14 of the principal Law, and a new Clause 3 which amended section 15 of the principal Law, and had recommended the other clauses accordingly. If the Members are content to proceed on this basis, I think that could be taken as sufficient.

REV. FRANCIS X. [illegible]: Yes, Mr. President. The Bill was amended. Clause 2 of the Bill as it stands is the original [illegible]...Mr. President, I am not too clear of the wording of the various amendments. It is the intention of the Legislative Assembly which have not been circulated, but which will be, there are certain amendments which took place in the Bill, Mr. President. Clause 2 and Clause 3 mentioned in the Bill with certain other amendments. There have been other sections inserted which deals with the amendments to exercise is not mention in of the same. Section 14 was recently, Mr. President, to place certain restrictions on the use of the spearguns as a technical matter. That is the substance of the amendment. In addition to [illegible] amendment was made. In this regard a form was placed on file note and the notice was also mentioned except for a licence which would be granted by the Board.

Those additions to the Bill, Mr. President, were accepted by a Committee of the whole House.

MR. PRESIDENT: The Bill is accordingly set down for Third Reading.

THE INTERPRETATION (AMENDMENT) BILL, 1985.

Second Reading

REV. MICHAEL J. [illegible]: Mr. President, Sir, I beg to report that a Bill hereby entitled the Interpretation (Amendment) Bill, 1985 was considered by a Committee of the whole House and passed without amendment.

MR. PRESIDENT: The Bill is accordingly set down for Third Reading.

THE AIRPORTS AUTHORITY (AMENDMENT) BILL, 1995

FIRST READING

HON. M. KUMARA PONNAN: Mr. President, I beg to inform that a Bill entitled to Bill for a Law to amend the Airports Authority Law (Revised) was considered by a Committee of the whole House and passed without amendment.

MR. SPEAKER: The Bill is accordingly read down for Third Reading. The Honourable Minister Ministry Matter.

THE LAKSHAPANA (AMENDMENT) BILL, 1995

SECOND READING

HON. GAMINI P. WIJESEKARA: Mr. President, I beg to propose that a Bill for a Law to repeal and replace the Lakshapana Law, 1979 (Revised) was considered by a Committee of the whole House and passed without amendment.

MR. SPEAKER: The Bill is accordingly read down for Third Reading. Third Reading. The Defamation (Amendment) Bill, 1995.

THE DEFAMATION (AMENDMENT) BILL, 1995

THIRD READING

CLERK: The Defamation (Amendment) Bill, 1995.

HON. DENNIS H. FOSTER: Mr. President, I move that a Bill for a Law to amend the Defamation Law (Revised) be given a Third Reading and passed.

MR. SPEAKER: The question is that a Bill for a Law to amend the Defamation Law (Revised) be given a Third Reading and passed.

QUESTION PUT: AGREED. BILL GIVEN A THIRD READING AND PASSED.

THE LEGISLATIVE ASSEMBLY (PRIVILEGES POWERS AND IMMUNITIES) (AMENDMENT) BILL, 1995

THIRD READING

HON. DENNIS H. FOSTER: Mr. President....

MR. PRESIDENT: I think that the Clerk should read the Bills first. I think that is the normal procedure is it not? No?

HON. DENNIS FOSTER: No, Sir, that is finished now.

MR. PRESIDENT: Accordingly to my notes the Clerk reads the Bills first and then the mover of the Bill moves the Third Reading. I think that is the normal procedure. Perhaps the Clerk or the Honourable Second Official Member can guide me.

HON. DENNIS H. FOSTER: I think that I am wrong.

MR. PRESIDENT: I think so. I think the Clerk should read the Bills first.

CLERK: The Legislative Assembly (Remuneration Powers and Privileges (Amendment) Bill, 1995.

HON. DENNIS M. PUSTEY: Mr. President, I beg to move that a Bill for a Law to amend the Legislative Assembly (Remuneration Powers and Privileges) Law (Revised) be given a Third Reading and passed.

MR. SPEAKER: The question is that a Bill entitled a Bill for a Law to amend the Legislative Assembly (Remuneration Powers and Privileges) Law (Revised) be given a Third Reading and passed.

QUESTION PUT: AGREED. BILL GIVES A THIRD READING AND PASSED.

THE MARINE CONSERVATION (AMENDMENT) BILL, 1995

THIRD READING

CLERK: The Marine Conservation (Amendment) Bill, 1995.

HON. PAGENT C. MORROW: Mr. Speaker, I beg to move, Sir, that a Bill entitled the Marine Conservation (Amendment) Law, 1995 be given a Third Reading and passed.

MR. SPEAKER: The question is that a Bill entitled a Bill for a Law to amend the Marine Conservation Law, 1995 be given a Third Reading and passed.

QUESTION PUT: AGREED. BILL GIVES A THIRD READING AND PASSED.

THE INTERPRETATION (AMENDMENT) BILL, 1995

THIRD READING

CLERK: The Interpretation (Amendment) Bill, 1995.

HON. MICHAEL J. BRADLEY: Mr. President, I beg to move that a Bill for a Law to amend the Interpretation Law (Chapter 70) be given a Third Reading and passed.

MR. SPEAKER: The question is that a Bill for a Law to amend the Interpretation Law (Chapter 70) be given a Third Reading and passed.

QUESTION PUT: AYES AND NOES

HON. G. HAIG BODDEN: Mr. President, I would like a division on that Bill.

MR. SPEAKER: Would the Clerk please carry on.

DIVISION
No. 32

AYES:	NOES:
Hon. Dennis W. Foster	Hon. G. Wing Dodson
Hon. Michael J. Keating	
Hon. Thomas O. Jefferson	
Hon. Benson D. Brooks	
Hon. H. Norman Dodson	
Hon. Capt. Charles L. Kirkpatrick	
Hon. Vassar G. Johnson	
Mr. Richard M. Pierson	
Capt. Moby B. Kirkpatrick	
Mr. John D. Nelson	
10	1

MR. PRESIDENT: I declare the motion carried.

ACCEPTED BY MAJORITY: SENATE AGREES & SENATE SECURITY AND PASSED.

THE AIRPORTS REGULATION AMENDMENT BILL, 1995

THIRD READING

TITLE: The Airports Regulation (Amendment) Bill, 1995

HON. K. MORGAN KOCEM- Mr. President, I move that a Bill entitled a Bill for a Law to amend the Airports Regulation Act (Revised) be given a Third Reading and passed.

MR. PRESIDENT: The question is that a Bill entitled a BILL for a Law to amend the Airports Regulation Act (Revised) be given a third Reading and passed.

QUESTION PUT: AGREED. BILL GIVEN A THIRD READING AND PASSED.

THE LIQUOR LICENSING ACT, 1965

THIRD READING

TITLE: The Liquor Licensing Bill, 1965.

HON. DENNIS W. FOSTER: Mr. President, I beg to move, Sir, that a Bill for a Law to repeal and replace the Liquor Licensing Law, 1974 be given a Third Reading and passed.

MR. PRESIDENT: The question is that a Bill entitled a BILL for a Law to repeal and replace the Liquor Licensing Law (Revised) be given a Third Reading and passed.

QUESTION PUT: AGREED. BILL GIVEN A THIRD READING AND PASSED.

MR. PRESIDENT: Item #(b), Motion, Government Motion No. 1 of 1996.

HOUSE

GOVERNMENT MOTION NO. 1/26 - APPOINTMENT (CONTINUED)

HON. MAJOR G. JOHNSON: Mr. Speaker, I beg to move Government Motion No. 1/26, Appointments Committee. Mr. Speaker, it is a requirement under section 7 of the Words Act, 1974, for the Legislative Assembly to appoint two members to the Management Committee. This takes place every four years. The appointments should have been made in December on the first sitting of the Legislative Assembly, but this was overlooked. This motion is now seeking to make those appointments. The motion reads:-

"BE IT RESOLVED that this Honourable House do nominate two persons to be members of the Management Committee under subsection (2) of section 7 of the Words Act, 1974 (Act 10 of 1974), to hold office for four years from the date of their appointment."

MR. SPEAKER: Before I invite Members to speak if they wish to do so, it may be helpful if I could just ask the mover to clarify one point about which I am uncertain, and Members may please be enlightened. What is the two persons mentioned here in the Members of the House of Assembly, or is it open to the House to nominate anyone?

HON. MAJOR G. JOHNSON: Mr. Speaker, it has been usual in the past to appoint two Members of the Legislative Assembly to the Committee. I think the last appointment was in fact unanimous. I would put forward the names before the nomination is put to the whole House.

MR. SPEAKER: However, as I might be misunderstanding that although that has been the practice it is not a statutory requirement that the nominees be Members of the House. It is a practice but not a requirement?

HON. MAJOR G. JOHNSON: That is correct, Sir.

MR. SPEAKER: The question before the House is that Government Motion No. 1/26 be passed. As the Member has just read it out I will not read it again. Does any Member wish to speak? In that case I will put the question.

QUESTION PUT: AGREED, GOVERNMENT MOTION NO. 1/26 PASSED.

HON. MAJOR G. JOHNSON: If the....

MR. SPEAKER: Can the Member guide me about procedure. Do we now need nominations?

HON. MAJOR G. JOHNSON: Yes, Sir.

MR. SPEAKER: Has the Member anyone to nominate?

NOMINATIONS TO ASSEMBLY COMMITTEE

HON. MAJOR G. JOHNSON: Yes, Sir, I will nominate the Second Elected Member for West Bay and the Elected Member for North Side.

MR. SPEAKER: So you happen to have with those Members so prepared to accept nominations? I see the Second Elected Member for West Bay is aware and he can speak for himself.

MR. B. HOUSTON BYNOE: Mr. President, I accept the nomination.

MR. PRESIDENT: And the Elected Member for North Side?

MR. HAZEL G. JOHNSON: Yes, Sir.

MR. PRESIDENT: Are there any other nominations? If there is no other nomination, the Nominations are now closed. Perhaps I should formally put the question that the Second Elected Member for West Bay and the Elected Member for North Side should be nominated members of the Assessment Committee under section 7, subsection (1) of the Rents Law, 1975.

QUESTION PUT: AGREED, THAT THE SECOND ELECTED MEMBER FOR WEST BAY AND THE ELECTED MEMBER FOR NORTH SIDE, BE NOMINATED TO THE ASSESSMENT COMMITTEE UNDER SECTION 7(1) OF THE RENTS LAW, 1975.

MR. PRESIDENT: The two Members are accordingly so appointed.

Government Motion No. 3/85, The Honourable Third Official Member,

GOVERNMENT MOTION NO. 3/85 - LOANS (CARIBBEAN DEVELOPMENT BANK) LAW, 1977 (LAW 17 OF 1977)

MR. THOMAS C. JEFFERSON: Mr. President, I beg to move Government Motion No. 3/85 entitled Loans (Caribbean Development Bank) Law, 1977, (Law 17 of 1977) and in moving, Mr. President:-

"BE IT RESOLVED by the Legislative Assembly of the Cayman Islands, pursuant to subsection (1) of Section 8 of the Loans (Caribbean Development Bank) Law, 1977, that the Assembly consents to the borrowing by the Governor in Council from the Caribbean Development Bank of the sum of seven million United States Dollars, on such terms and subject to such conditions as have been agreed between the Governor in Council and the Caribbean Development Bank for the purpose of a sanitary drainage system to serve the Shoal Bay South area of Grand Cayman."

The first works of this project, Mr. President, is the construction of a sewerage collection network of approximately 4.7 miles of sewers, a sewerage pumping main of approximately 3.0 miles long, a main pump station to supply a portion of the treated effluent to a nearby golf course, three manual and electric chambers to house the pumping and effluent pumping plant, and a sewerage treatment plant with a capacity of 450,000 gallons per day.

The type of sewerage treatment plant, Mr. President, is under consideration. The Water Authority and the Caribbean Development Bank both agreed that this is the best and cheapest, as the system offers further extensions since it is modular in operation and construction. It therefore goes hand in hand with the project facility because of environmental and maintenance problems.

The project's estimated total cost is US$10.5 million, or a Cayman Islands Dollar equivalent of $8.7 million. The project will be managed and executed by the Water Authority.

MR. JAMES C. SUTHERLAND (CONTINUING): Government has agreed to contribute C.I.$2.8 million, which would represent roughly 28 per cent of the project's cost. As mentioned by the motion, Mr. President, Caribbean Development Bank has agreed to lend on concessionary terms approximately U.S.$7 million. This total of U.S.$7 million in funded within the bank by two sources. U.S.$5.3 million is being given from their ordinary capital resources, and U.S.$1.7 million from their special fund resources.

Some of the terms and conditions are: that repayment will be over fifteen years with three years moratorium, and the interest charged is a combination of soft and hard rates, 4 per cent and 10 per cent. Also, Mr. President, I mentioned the fact that the Government, on the whole authority, has specifically earmarked a provision for management fees. Unfortunately we will recall that in the process of dealing with the budget in the Joint Finance Committee meetings, the point that was approved which will form part of this project management team.

The main justification for the project, Mr. President, is the elimination and prevention of a sanitary and environmental hazard along Seven Mile Beach. It is an area which is well known to us as it is our tourist development area, an area which is undoubtedly important to the future development of this Island's economy.

Mr. President, a second beneficiary programme that has been carried out by the Water Authority will be the proposal that on discharging treatments of effluent pollution is taking place along Seven Mile Beach. The other is also affected at times by other problems associated with the malfunctioning of a treatment plant which is inefficient or perhaps the wrong capacity.

Mr. President, I ask Honourable Members' support of my motion.

MR. SPEAKER: The motion before the Honourable Gentleman is Motion No. 3/95 dealing with loans from Caribbean Development Bank under the Loans (Caribbean Development Bank) Law, 1977 (Law 17 of 1977).

Do the Member have already read out the terms of the motion I shall not read them again. Does any Member wish to speak? In that case I will put the question.

QUESTION PUT: AGREED. QUESTION AGREED TO. 3/95 PASSED.

MR. PRESIDENT: I think that this may be a convenient moment to take our customary morning break, so I will suspend proceedings for approximately fifteen minutes.

AT 11.15 A.M. THE HOUSE SUSPENDED

HOUSE RESUMED AT 11.40 A.M.

MR. SPEAKER: Please be seated.
Proceedings are resumed.
Motions. Government Motion No. 4/98.

GOVERNMENT MOTION NO. 4/98

APPOINTMENT OF STANDING SELECT COMMITTEE

DR. DENNIS A. HUSBAND: Mr. President, I beg to move Government Motion No. 4/98 standing in my name, Mr. President:

"WHEREAS the Legislative Assembly's Standing Orders, which presently regulate the procedure of said Assembly relating to Bills Assembly Bills, were made in 1978 and have not been amended since; and

WHEREAS it is considered appropriate that there should be established a Standing Select Committee to reconsider the present standing orders and to recommend to this Honourable House, having regard to current circumstances and all proposals for amending standing orders that have been made by honourable Members, what amendments thereto are necessary or desirable;

BE IT THEREFORE RESOLVED, in accordance with Standing Order 76, that there be established a Standing Select Committee entitled the Committee on Standing Orders which Standing Select Committee shall consist of the Hon'ble Speaker and shall continue as a Committee of this honourable House until the Legislative Assembly is next dissolved in accordance with Section 47(1) of the Constitution of the Cayman Islands, and that the said Standing Select Committee have function to take generally to reconsider and propose to standing orders and amendments particularly to consider the proposals contained in Standing Orders Bills, Bills, Bills,

MR. SPEAKER (CONTINUING): What I think ought, in my present view to be now explained by Members because we have now by accepting Amendment Motion No. 8/86 provided for the establishment of a specific Committee, a Standing Select Committee to deal with Standing Orders. I think that the matters which formed the subject both of Private Member's Motion No. 1/85 and Private Member's Motion No. 6/85 should both be referred to this Standing Committee which we have just appointed. So perhaps part of the decision task will be to examine those specific matters.

ALLOCATION OF CHAIRMAN TO STANDING ORDER COMMITTEE

MR. SPEAKER: It falls to me, I think, to accommodate with Standing Order 82(3) to nominate a Chairman of the Standing Committee on Standing Orders, and I shall nominate the Honourable Nurse Official Member in the Chairman of that Committee.

QUORUM
STANDING SELECT COMMITTEE

MR. SPEAKER: I have an idea that I may often get a quorum bell. Maybe the Honourable Second Official Member may inform me whether I cannot do anything in Standing Orders which prevents me to do so. If I am wrong will I please either give-notice to Parliament, perhaps such as Committees themselves normally their own quorums, I would be grateful to be corrected. I am not sure. I do seek to remember achieving a quorum.

MRS. MICHAEL J. QUIGLEY: I think, Mr. President, that for a Committee of the whole House, whether a Select Committee or otherwise, I think again to the normal number for a quorum.

MR. SPEAKER: Going to the quorum for meetings of the House. I think that seems would be a reasonable quorum for a Committee of the whole House such as this Standing Select Committee is to be. Unless any Member has any objections I will advise that seven should be the quorum for that Committee.

PRIVATE MEMBER'S MOTION NO. 6/85
LABOUR LEGISLATION
DISCONTINUANCE OF CHAIRMAN AND QUORUM

MR. SPEAKER: There is one other matter which I should I forgot to deal with at the appropriate time. Private Member's Motion No. 6/85 which was passed some time ago dealt with the appointment of a Committee of the whole House to study and make recommendations with regard to labour legislation. I did not at the time at which that motion was passed make a nomination under Standing Order 82(3) of a Chairman, because I think I simply forgot so to do. I now intend to nominate the Honourable Second Official Member, having discussed the matter both him and with the Honourable Second Elected Member of Executive Council. I think that is right.

I suppose that the quorum in that case since it has to be a Committee of the whole House is the same.

As far as I can discover there no rules there are not any other Committees in respect of which I should be nominating a Chairman or setting other matters.

ADJOURNMENT

MR. SPEAKER: I take it that the agreement which the House entered, the Second Elected Member for Eastern Area, I was half-serving until slightly later in the order Paper the personal explanation which appeared at Item 2 on it. I was indebted to make his explanation.

MR. S. RAY DOLDGE: Mr. Speaker, this statement is made under Standing Order 21. On the 22nd March a Member of this House made a statement which seemed to imply that the speech which I had made in the Legislative Assembly may have been responsible for causing the Bank to be put on the report by the Australian press that the United States of America. The true position is that the Bank was imposed by the United States of America in 1978 the entire complexion changed; the status of the Bank from a threatened to an endangered species. Thank is not generally allowed if an answer is given ..... announced. The first was published in June, 1971, as Sessional Publication 22E3971, while 20th, 1974, Cabinet a total ban on commercial trade in any species and also included a Mauritanian enterprise.

The speech referred to on Wednesday, 22nd March, 1965 had been made on 5th September, 1973, two months after the registration of the Bank, and could not possibly have caused Legislative action taken a couple of months earlier.

MR. SPEAKER: The terms of Standing Order 21 are such as to preclude debate on personal explanations of this kind made. However, the Second Elected Member for West Bay did rise to question the explanation of course what was said on Friday, and I agreed that if he wished he could make plain one point as to whether he had intended to imply that the Second Elected Member for Eastern Area misquoted.

MR. T. RUSSELL COLE: Thank you, Mr. President.

Mr. President, I will just read from a transcript of my speech made in the House on that day, and the part which I will read says:-

> "The Member knows interrupting but, Mr. President, he has to take the blame for a lot of the trouble we are in today with Cayman Banks being because one of his statements here calling the newspapers "newspaper", Mr. Speaker, I do not think helped us in 1970."

Mr. President, that is what I said. I did not say the Member was responsible for the ban, but in my humble opinion I still think he caused a lot of problems for us. That is my opinion. Thank you very much, Sir.

MR. SPEAKER: Order, order.

Any questions relative to the Order Paper. I will invite the Honourable Third Official Member to move the adjournment.

ADJOURNMENT

MR. BENJ. H. POWERY: Mr. Speaker, I move the adjournment of this House until Tuesday, 31st May, 1975.

MR. SPEAKER: The question is that this House do adjourn until Tuesday, 31st May, 1975. I believe that the Honourable Third Official Member wishes to speak.

MAY. SHIRLEY C. JEFFERSON: May, Mr. President, having been in this House for the past 17 working days of this month I just thought, Mr. President, to offer our gratitude to the Clerk and her staff for the manner in which they have helped us with the proceedings. I am sure, Mr. President, that they have worked on many evenings and perhaps even weekends to make sure that the minutes were prepared and that the Order of the Day is as it was to be.

Mr. President, they have processed some of the most distinguished guests which we have had here, and my grateful thanks are due to the Clerk who has expeditiously gone to the depths of the law chains which broke up under my weight.

MR. PRESIDENT: I am sure that we would all wish to thank the Clerk for taking proper action to have the Government Store williness. (LAUGHTER).

Does any other Member wish to speak? If not I will put the question.

QUESTION PUT: AGREED. AT 11.10 THE HOUSE ADJOURNED UNTIL 10.00 A.M., TUESDAY, 21ST MAY, 1984.

SECOND MEETING OF THE 19TH SESSION
OF THE LEGISLATIVE ASSEMBLY

TUESDAY
3RD MAY, 1983.

PRESENT WERE:

MR. SPEAKER: The Assembly be in Session.
I invite the Honourable Edgar Ospaton to say prayers.

REV. CANON COOPER: Let us pray.
Almighty God, from whom all wisdom and power are derived: We beseech Thee so to direct and prosper the deliberations of the Legislative Assembly now assembled, that all things may be ordered upon the best and surest foundations for the glory of Thy Name and for the safety, honour and welfare of the people of these Islands.
Bless our Sovereign Lady Queen Elizabeth, the Queen Mother, Philip Duke of Edinburgh, Charles Prince of Wales, these Princes of Wales and all the Royal Family. Give grace to all who exercise authority in our Commonwealth that peace and righteousness, truth and justice, religion and piety may be established among us. Especially we pray for the Government of our Islands, the Members of the Executive Council and Members of the Legislative Assembly that they may be enabled faithfully to perform the responsible duties of their high offices.
All this we ask for Thy great Name's sake. Amen. The Lord's Prayer.
Our Father, which art in Heaven, Hallowed be Thy Name, Thy Kingdom come, Thy will be done in earth as it is in Heaven. Give us this day our daily bread; And forgive us our trespasses, as we forgive them that trespass against us; And lead us not into temptation; But deliver us from evil: For Thine is the Kingdom, the power and the glory, for ever and ever. Amen.

MR. SPEAKER: Please be seated.
The first item of business on today's Order Paper is the presentation of Reports and Papers. The Finance Committee Report.

PRESENTATION OF REPORTS

FINANCE COMMITTEE

HON. THOMAS C. JEFFERSON: Mr. President, I beg to lay on the table of this Honourable House the Finance Committee Report for the 2nd May, 1985.

MR. SPEAKER: So ordered.

HON. THOMAS C. JEFFERSON: Mr. Speaker, the Meeting on the 2nd May, 1985 approved the following supplementary appropriations:

1. HEAD 5 LEGISLATIVE ASSEMBLY
SUB-HEAD 05-028 - PLANNING.....$7985,000

To provide for the recruitment and gratuity of the Cayman Islands Law.

HON. THOMAS C. PEARSON (CONTINUING):

3. HEAD 7 - PUBLIC DEPARTMENT.....CI$100,907

Provided for the establishment of six Medical Officer Departments.

5. HEAD 10 - FINANCE AND DEVELOPMENT
SUB-HEAD 07-013 - FOOD CONTROL.....CI$ 98,850

These funds are to assist the cost of public relations that Government officers contact services in the United States by Grey and Company Public Communications International, Inc.

4. HEAD 10 - FINANCE & DEVELOPMENT
SUB-HEAD 07-019 - CAYMAN TURTLE FARM (1983) LTD.....CI$199,000

To meet the financial requirements of the Cayman Turtle Farm through May, 1986.

Again on the Motion, Mr. President.

6. HEAD 10 - FINANCE & DEVELOPMENT
SUB-HEAD 07-020 - CONTRIBUTION TO
TECHNICAL COOPERATION AND AGRI STUDY.....CI$ 6,378

Provided to assist the Cayman Islands Agricultural Association for the employment of one Agricultural Consultant.

The total supplementary expenditure appears, Mr. President to CI$3,134,189.

Additionally, Mr. President, Financial Secretary advised that the sum of CI$137,000, initially granted to the Housing Development Corporation to assist 'mini-v.' applicants, be utilized as equity participation in the Company rather than the loan as previously granted.

For the Plant Replacement Programme it was agreed that a loan agreement between the Minor Government Fund and the Cayman Islands Government be formulated in the following terms as the principal sum of CI$2,000,000:-

- a 2-year moratorium effective 1st January, 1985
- 10 equal annual repayments
- interest rate of 6 per cent

Thank you, Mr. President.

MR. PRESIDENT: In accordance with the provisions of Standing Order 67, paragraph (4), the House is pleased to have approved the above motion.

Hansard (ibid). The Royal Cayman Islands Police Annual Report, 1984.

ROYAL CAYMAN ISLANDS POLICE - ANNUAL REPORT 1984

HON. BENJAMIN A. COLLIER: Mr. President, I beg to lay on the table of this Honourable House the Royal Cayman Islands Police Annual Report, 1984 which has been circulated. Sir.

MR. PRESIDENT: So ordered.

Item 3. Questions. The Second Elected Member for Bodden Town.

THE SECOND ELECTED MEMBER FOR BOROUGH TOWN TO ASK THE HONOURABLE SECOND OFFICIAL MEMBER OR SUBSTANTIVE HOLDER

MR. ASK: Would the Member kindly tell the present policy for the admission of non-Caymanian stonemason-at-law and what maximum number will be approved in 1966?

ANSWER: The policy of the Cayman Islands Government in relation to the admission of non-Caymanian stonemason-at-law is as follows. Non-Caymanian stonemason-at-law will be admitted as previously in the Cayman Islands in such times, in such numbers and for such periods as will best ensure a balance between the need adequately to service and develop the local aspects of our offshore financial and other commercial enterprises and the need to protect the present and future interests, not only of Caymanians at present qualified as attorneys, but also those other Caymanians who are presently studying either at the Cayman Islands Law School or abroad for qualifications entitling them to practise here.

The Government of the Cayman Islands has not set any arbitrary maximum number upon the admission of non-Caymanians. All applications will be considered according to the above.

SUPPLEMENTARY:

HON. J. A. MAC DONALD: Mr. President, I would like to ask one supplementary. As the answer does not specifically mention criminal matters, would the Member say if consideration will be given by the policy to provide for criminal lawyers and for lawyers who practised in the courts, as many times it is difficult to find such a lawyer.

HON. MICHAEL J. EBANKS: Mr. President, the question as answered by me and the answer as given by me related to those non-Caymanian stonemason-at-law who engaged in the practice of attorneyship on a residence basis there. There is a provision, Mr. President, whereby instead of a general admission to practise law here there is a special admission given. This special admission does not require the approval under the Legal Practitioners Law of the Government-in-Council in respect of a non-Caymanian. It is the applicable rule to be admitted for a particular case or for a particular specific limited purpose which is stated in the application. Such application for admission under a special arrangement are made to the Chief Justice, who is satisfied that the person has the necessary and appropriate qualifications and admissions are made accordingly.

It is not the intention of this Government to seek arbitrarily to limit the right of an accused person to have the lawyer of his own choice.

MR. SPEAKER: If there is no further supplementary I will invite the Second Elected Member for Bodden Town to ask the next question.

THE SENIOR MINISTER MAKES NO SPECIFIC REPLY TO ANY THE MEMBERS WHO SPOKE IN THE DEBATE AT EXECUTIVE COUNCIL.

MR. EZ: Would the Member advise whether the Government has yet formulated a private-sector economic policy to encourage investments in Belize currently, and, if so, when this will be introduced?

ANSWER: The general economic policy of the Belize Industrial Development Incentives Act, encouraging investment generally in export industries, and, therefore, also, inter alia, employment creating activities, is contained in the five-year economic development plan, which is published from time to time as Government's Policy Paper No. 4 passed in the March 1985 Meeting of this Honourable House.

SUPPLEMENTARIES:

MR. EDWARD A. LINDO: Mr. President, a supplementary. Would the Minister state if any plans or policies other than those which have been in existence for many, many years have been formulated recently to stimulate the economy, and why has this Government not yet come out with a policy statement?

MR. MICHAEL C. ESPERANCE: Mr. President, the question which I heard the Minister of Finance say earlier this year indicated to me the intent to have an investment plan. If the Member has a different interpretation of it he would clearly his point.

MR. LEONARD A. FINNEGAN: Mr. President, I do not think that it is necessary. I am talking about a short term plan, by definition of a short term plan, that is not a five year plan. I am looking about a short term situation which could be remedied either a period of say a year or a time. I am asking whether any economic plan or policy has been formulated for the next twelve months, not for five years, because in this day and age, it is unthinkable for us to foresee for five years?

MR. THOMAS C. ESPERANCE: Mr. President, the Leader of the Opposition knows very well. We do not think it necessary to have a short term plan for twelve-month duration, five years at a time.

MR. G. PETE COLLINS: Mr. President, can I ask the Member, with reference to his statement that the investment policy remains in effect, is it correct to say that the new Government has adopted the policies of the last two administrations still remain to encourage investment?

MR. EDWARD C. ESPERANCE: Mr. President, I think that at least the Member of Government from the Stann Creek area has been stated me saying that this administration still insist on the investment policies that, or achievements.

MR. G. LEO PECH: Mr. President, can I also ask if it is correct that the new Government still not intend to put forward a short term plan, and is anticipating what they found on the assistance?

MR. ESPERANCE: I think really it effect that has been announced because the Member has explained that to regards to a short term plan and has said that the budget is the annual plan.

MR. LEONARD L. FERGUSON: Mr. President, with regard to the answer given by the Member regarding the definition of a short term economic plan, I am afraid that I cannot associate myself with that definition because the budget is not an economic plan. It is a statement of receipts and expenditure for a particular period.

MR. SPEAKER: The Member must ask a question. If there is a question arising, as long as it comes quickly I will allow it.

MR. LINFORD A. FERGUSON: I just wanted to clarify the misinformation, Sir.

MR. SPEAKER: I do not think that there has been a supplementary question asked on that because it was really a statement by the Member. I thought it was going to be turned into a question so I allowed him to proceed for a while.

If there is no further supplementary I will invite the second Elected Member for George Town to ask the next question standing in his name.

THE SECOND ELECTED MEMBER FOR GEORGE TOWN TO ASK THE HONOURABLE MEMBER OFFICIALLY RESPONSIBLE FOR EXECUTIVE COUNCIL

NO. 98: Would the Member state whether any decision has been reached on the Esterley Sports and Civic Centre, giving the estimated cost of this development and the value placed on estimated labour costs?

ANSWER: The Esterley Sports and Civic Centre comprises a bowling centre, civic centre, athletic facilities and a small hotel. The estimated cost is US$6.4 million.

An 8% hotel facility under the Hotel Aids Law (Law 2 of 1976) for a reduction in the customs import duty on all imported materials and equipment and the athletic facilities and civic centre could be an enhancement of youth facilities, Government granted an import duty reduction to 7.5 per cent on all imported materials for the project.

An estimated cost of labour to construct the project is at hand, but the total estimated construction cost including expatriates is US$6.2 million. A rule of thumb is that the labour portion is approximately one half of the project construction cost.

SUPPLEMENTARIES:

MR. LINFORD A. FERGUSON: A supplementary, Mr. President. Could the Member state whether the 7.5 per cent on imported labour would be in excess of the amount of labour costs?

HON. THOMAS C. JEFFERSON: Mr. President, I am not sure that I can accurately answer that question, but I would assume that if the labour cost is approximately US$3.1 million that the reduction in customs import duty would not reach that figure.

MR. LINFORD A. PIERSON: Mr. Speaker, maybe I can just clarify why I am asking that, to help him answer me a little better. If the import duty of 7.5 per cent on the materials imported is less than the wages of labour, perhaps we are being penny wise and pound foolish by not having allowed the project to go through with an exemption of the 7.5 per cent. This is the reason why I was asking this question. Perhaps he could answer me now?

MR. PRESIDENT: I am not quite sure what you are asking him to answer.

MR. LINFORD A. PIERSON: I was trying to speak to the Honourable Minister, Sir.

MR. PRESIDENT: Still, he has already answered to the effect that the 7.5 per cent is so low it can be judged very much less than the labour costs. I think that you were explaining why you had asked him this question. I am not sure whether you were asking him a supplementary question.

MR. LINFORD A. PIERSON: The point is, Sir, from my understanding...

MR. PRESIDENT: I have given a statement about your ... the matter, but what is your question?

MR. LINFORD A. PIERSON: I think that the purpose of asking questions in the House, if I may make a statement, is so that the questions can receive proper answers. Unless I can clarify the questions which I am asking, it is impossible for the Member to answer. I am not just asking a question for the sake of asking it. I want a proper answer. What I am asking about the 7.5 per cent import duty is the answer which I want to find out is whether the 7.5 per cent which would have accrued to Government as revenue would have been in excess of the amount of labour which the project would have provided this country?

MR. PRESIDENT: That has been answered, has it not?

MR. LINFORD A. PIERSON: Mr. President, may I further my explanation. Sir, even the answer received here it says that no estimated cost of labour to implement the project is at hand, therefore the answer that the Member was given is just a rule of thumb as he says. However, the rule of thumb is that the labour content is approximately 50 per cent of the project construction costs. The project construction cost is estimated at US$8.4 million so...

MR. PRESIDENT: No, US$8.2 million.

MR. LINFORD A. PIERSON: ...US$8.2 million, so I take it then that 7.5 per cent import duties would have been US$0.7 million or more.

MR. PRESIDENT: No, I do not think so at all. The estimated labour content in this estimate would be US$2.1 million.

MR. LINFORD A. PIERSON: Right, and the question which I am asking is whether the 7.5 per cent which would have accrued to Government in revenue is in excess of the US$0.7 million?

MR. FISHBOURNE: Well, I am sure that now have been said. It was not and I do not see how it could possibly be.

MR. LINFORD A. FIELDING: Mr. President, I wonder if it would be possible for you to allow the Member to answer, Sir?

HON. THOMAS C. JACKSON: I thought I had answered it, Mr. President. If we go by the rule of thumb it is basically divided the construction cost of $8.2 million in half, half for the materials and equipment and half for the labour content. Now if we take 7.5 per cent of $4.1 million it is not going to equal $3.1 million.

MR. LINFORD A. FIELDING: Mr. President, I do not want to prolong this. There is a journey for asking this question and I will have to explain that I got the answer I am seeking, otherwise I will deny it. However, it is for the public as well as for myself. We are not talking of 7.5 per cent of $3.1 million. I understand this Member knows that. It is 7.5 per cent of the total materials involved, whatever value be thereon to place on that. The $3.1 million as he had said is the 50 per cent of the construction costs, which approximates the labour cost by rule of thumb.

Mr. President, he does not have to because that last 7.5 per cent of $4.2 million is certainly not $3.1 million.

HON. THOMAS C. JACKSON: Mr. President, the total construction cost of the project is $8.2 million. If we use the rule of thumb which says that 50 per cent of that value be the labour content, it means that the other 50 per cent, the $3.2 million must be the cost of construction and equipment. So if we are going to take 7.5 per cent of anything we have to take it of the $8.2 million, not $3.5 million, because we do not subject duty on labour content, Mr. President.

MR. LINFORD A. FIELDING: A supplementary, Mr. President. Am I to understand, Mr. President, that there was a definite discrepancy in the amount of duty which would have been collected at 7.5 per cent as compared with the amount of labour which would have been provided in the estimate by the Works?

MR. PRESIDENT: I really think that that has been answered already several times.

If there is no further supplementary I will invite the second Elected Member for George Town to ask his next question.

THE SECOND ELECTED MEMBER FOR GEORGE TOWN TO ASK THE HONOURABLE CHIEF OFFICIAL MEMBER OR EXECUTIVE COUNCIL

NO. 98: In light of the provisions of the new Citizenship Provision Law, 1984, (Year 23 of 1984), would the Member state if the foreign spouse of Caymanian women will be given equal rights with the foreign spouse of Caymanian men, and, if not, why not?

ANSWER: Under section 18(5) a spouse of either sex is treated equally.

<u>ADMINISTRATOR:</u>

<u>MR. EDWARD A. GARMATZ:</u> Supplementary, Mr. President. Would the Member state Government's policy regarding the issuing of self employed permits to the foreign citizens of Communist areas?

<u>HON. DENNIS M. ROSSER:</u> Mr. President, that is a matter for the Canadian Immigration Board, Sir.

<u>MR. G. MALC ROGERS:</u> Mr. President, may I ask since the law is that all foreign spouses of Canadian people are treated equally, how it is that a Canadian woman married to a foreign man finds it difficult for her husband to get a license to drive a taxi, and is told by the Protection Board that she will have to fire a company and employ him herself, and if this doesn't seem to be against immigrants?

<u>HON. DENNIS M. ROSSER:</u> Mr. President, perhaps the foreign male spouse has not complied with the section as yet. Once he has complied with it I see no reason why he cannot apply for status of he is an eligible person. There particular questions which are in the regulations are unconnected. There is no doubt. However, perhaps he has not fulfilled the requirements of this section as yet.

<u>MR. LINCOLN M. ALEXANDER:</u> Mr. President, Section 15(5) of the Canadian Bill of Rights deals with status, the acquisition of Canadian status by grant. My question, Sir, is dealing with self employment not with status?

<u>MR. SPEAKER:</u> I think that your supplementary question was the same. Your supplementary dealt with self employment. I think that it is perfectly true to say that your original question dealt with rights, and if the answer was restricted to the granting of status then you are perfectly entitled to ask whether it either proposes the treatment be equal.

<u>MR. LINCOLN M. ALEXANDER:</u> I am sorry that that is the impression which was gained from my question, Sir. It is intended to deal specifically with work permits, or gainful occupation licences. In the supplementary it was dealing with the self employed persons of foreign spouses of Canadian women....

<u>MR. SPEAKER:</u> Well, if you read the....

<u>MR. LINCOLN M. ALEXANDER:</u> May I ask the Minister if there is a policy which has been set that the Canadian Immigration Board deals with this? So should know if there is a policy to this effect.

<u>HON. DENNIS M. ROSSER:</u> Mr. President, the Immigration Appeal Board, which was established by the Canadian Immigration Board which was established I cannot recall right now which section it is, or if there is a section which deals with that particular matter. However, I am pretty sure that there is something in those directives which have been published that importance is given to spouses. However, I think the Member knows that Mike has always been a help to the citizens with their problems, and it has got to the stage so everybody knows where the good business is being controlled by Immigration, that is why, I am sure, either many applicants from the Local Immigration Board offices, that the board probably took many more of those self employed licences which the Board elected Member for Dundas has referred to.

MR. LINFORD A. KINSEY: Mr. President, would the Member state whether any priority in consideration will be given to work permit applications from foreign spouses of Caymanian women in the light of section 10(6) of the Caymanian Protection Law?

HON. DENNIS E. FOSTER: Mr. President, all I can say on that is that the Protection Board since it came into being this year has worked quite rapidly and they process their applications as fast as possible. They do not have long delays. I really do not interfere with the Board. We put them there to do a job and as far as I am concerned, Sir, they are doing a pretty good job.

MR. O. BASIL BODDEN: Mr. President, may I ask the Member if he will give the House his assurance that he will look into what the Board is doing? Because in the case which I mentioned, if the person had followed the advice given the person would have committed a criminal act. The person was ordered and given six days for a Trade and Business Licence, and told that if she took that out and paid the $50 she could have her husband to operate a taxi for her. This is not so. She would be guilty of having him without a work permit and he would be guilty of working without a work permit. So there is something wrong in asking if the Member will give the House the assurance that he will find out what is happening in the case of discrimination against the spouses of Caymanian women.

HON. DENNIS E. FOSTER: Mr. President, the Member knows exactly what is wrong, for, because I just told him. The best assistance at the airport was getting to a stage where it was being controlled by Jamaican people. This is a move the Protection Board obviously had to make to get some proper organization up there. If the person complies with the provisions in section 10, the straightforward thing to do is to obtain status and then he is free to do as he likes.

MR. D. HENDERSON SCOTT: A further supplementary, Mr. President. The Member spoke about taxis and I just want to let him know that it is not only taxis which are involved here. There are a lot of other people involved in other businesses.

MR. SPEAKER: The Member must not make statements. He must ask questions.

MR. LINFORD A. KIRKCONNELL: Mr. President, a supplementary. If the Caymanian Protection Board is a Government Board I would like to ask the Member whether it is fair to assume that the questions asked here should be answered in the Legislative Assembly?

HON. DENNIS E. FOSTER: Would you repeat the question?

MR. LINFORD A. KIRKCONNELL: The Caymanian Protection Board is a Government Board. Is it fair to assume that questions asked here regarding the Caymanian Protection Board should be given an answer in the Legislative Assembly?

HON. DENNIS E. FOSTER: Mr. President, this is what I have done. I have given the answer.

MR. LINFORD A. KIRKCONNELL: With respect, Mr. President, I have been told that the policies and the policies of the Caymanian Protection Board and Government rule the Board.

HON. DENNIS M. SPENCE: Mr. President, let me see if I can explain, Sir. There are a Cooperative Protection Law, Regulations and Procedures all published. It is my recollection. I do not recall what to do, Sir. Neither does Executive Counsel. If Executive Counsel has another directive to make they will make it and publish it. I do not go sure there is every meeting in the last day of the meetings. I do not interfere with them. However, Sir, the policy is, and every Member knows this, that we must try to provide for our Cooperative Plans. If there is an excess of funds the employee they must give the Cooperative preference. This is what the Members want. I am sure that is the objective of the Board.

MR. LEMUEL M. TIMSON: Mr. President, my question was not dealing specifically with funds. My question was a general question. I wanted to know whether or not the Cooperative Protection Law which gives priority to the records of Cooperatives, whether the foreign nationals of Cooperatives would be given priority consideration. This was my question, and also whether there are objections to this effect. The matter is "open" or "closed" to foreign nationals?

MR. CHAIRMAN: With respect your question originally is about discrimination on grounds of sex. That is my understanding of it anyway. If the foreign spouses of Cooperatives would be given equal rights with the foreign nationals of Cooperatives, also. So it is a question not about terms or other such restrictive clause of employment, or about some qualifications under the law. It is whether these rights are given equally, and about protection considerations. It is not large about discriminations on grounds of sex. I will specifically refer the Honorable Board Member to answer whether it be the case that there is no longer any discrimination on grounds of sex, because I think that all has been removed so far but maybe other terms or to do with the like. Specific employments, to do with terms or to do with the like.

MR. LEMUEL M. TIMSON: Mr. President, may I?

MR. CHAIRMAN: Well, the Honorable Member may.

HON. DENNIS M. SPENCE: No, Sir, there is no discrimination, no discrimination whatsoever.

MR. LEMUEL M. TIMSON: Mr. President, one supplementary question. I am dealing with the supplementary for that which has to do with priority consideration being given to foreign born Cooperative women. I am dealing therein right of priority 12(5) of the Cooperative Protection Law which gives priority consideration to those employable for the grant of status, whether the same consideration will be given with regard to employment locally, because I am aware that there are a number of foreign spouses, namely: wives, who cannot get a job in this country, even when it self employment permit.

MR. SECRETARY: I think that if you want to put what you may better put down a specific question about it because it is developing quite a long way from the exact rights question which is what you put down.

HON. DENNIS E. FOSTER: Mr. President, I will answer it, sir. If there are jobs available they are going naturally way to give Caymanians priority. If there are more jobs available then the foreign spouses will get them. Everybody in this country has been screaming for the last six months since things have blown up a little bit about the unemployed Caymanians. We must look after them first.

MR. RICHARD A. PINEDA: Mr. President, I will conclude this supplementary. I appreciate what the Member has said. I am not talking about the foreign spouses of Caymanian women as opposed to Caymanians. I am speaking about foreigners and whether foreign spouses of Caymanian women would be given priority over other foreigners coming to the country? This is all my question was all about, not as opposed Caymanians.

HON. DENNIS E. FOSTER: Yes, Sir, I agree. I think how it would work is the Caymanians first, the foreign spouses and then the others who come on their own.

MR. PRESIDENT: We have had your two answer you wanted now at three?

If there be no further supplementary on item 4. Government business. Motions. Government Motion No. 8/95.

GOVERNMENT BUSINESS

MOTIONS

GOVERNMENT MOTION NO. 8/95

CAYMAN AIRWAYS LIMITED - BANK GUARANTEE

HON. W. MCKEVAN BODDEN: Mr. President, I beg to move Government Motion No. 8/95 which reads as follows:-

> "BE IT RESOLVED that this House does this day approve the provision of a guarantee by Government to the Royal Bank of Canada, Grand Cayman, in respect of the amounts which that Bank of Cayman Airways Limited; up to a maximum of two million Cayman Islands dollars."

MR. PRESIDENT: The motion before the House, Government Motion No. 8/95 is:-

> "BE IT RESOLVED that this House does this day approve the provision of a guarantee by Government to the Royal Bank of Canada, Grand Cayman, in respect of the account which that Bank of Cayman Airways Limited, up to a maximum of two million Cayman Islands dollars."

The Honourable Second Elected Member of Executive Council.

MR. W. MCKEVAN BODDEN: Mr. President, the financial problems of our national airline is well known to all Members of this Honourable House. It has been dealt with many times in the past, most recent on the occasion which were tabled at the Meetings in March I am sure that the financial difficulties of Cayman Airways Limited are no cause to anyone.

MR. [illegible] (continued): Nevertheless, in this particular case, I have to explain what prompted this notice. Cayman Airways had been using its aircraft facility at the Royal Bank of Canada which was guaranteed by a letter of Comfort from Executive Council to the tune of $1,500,000. However, this amount was many times exhausted due to the need for additional working capital. Since August, 1984 the overdraft actually increased to $1,811 million which amount has been fully utilized ever since that time.

At that time a written assurance was given to the Royal Bank of Canada by the former Honourable Member of Executive Council responsible for Tourism and Trade and the then Chairman of Cayman Airways, which stated that of the overdraft facility of $1.5 million was not reduced to the former level of $500,000 by 31st December, 1984 then a Government Guarantee would be provided in early 1985 to support the aircraft facility which was made available to the airline.

The Royal Bank of Canada has advised this morning and has served notice that it requires at this time a formal Guarantee from Government to continue to make the aircraft facility available to Cayman Airways. Based on Cayman Airways' weekly cash flow report this overdraft of $1.5 million at the Royal Bank of Canada is absolutely necessary in order to operate. The company is meeting its debt obligations.

Additionally, the Board of Directors of Cayman Airways have recommended that the airport be increased by $500,000 which would be used mainly as a reserve equipment and large recuperative debt facility at short notice. This sum cannot unfortunately be used until the specific authorization of the House of Cayman Islands. It is intended to use this as a provision in the event of any unforeseen debts arising.

In the past six months efforts have been made to improve the financial position of the airline and while some degree of progress has been made, the fact remains, Mr. President, that Cayman Airways still is and it will continue for a very heavily dependent on this direct and continued financial assistance from the Cole Government the Government of the Cayman Islands.

Mr. President, this motion is some extent indicates the responsibility of our Government and Cayman Airways. I feel it can recommended made by a Member of the next Executive Council which of necessity should be honoured. I recommend this motion and would ask other Members in their wisdom to do likewise by giving this motion their full support.

Thank you, Mr. President.

MR. SPEAKER: The motion is now open for debate. Does any Member wish to speak? The Honourable Second Elected Member of Executive Council.

DEBATE ON GOVERNMENT MOTION NO. 9/85

MR. KENNY G. ROWLAND: Mr. Speaker, I rise to support this motion for the Honourable House to guarantee a Guarantee to that Cayman Airways can operate on overdraft at the Bank to a limit as stated in the motion, a maximum of $2 million.

Mr. Speaker, I think that I would be safe in saying that Cayman Airways has become from a few years ago something near to a multi-million pound sick of Government.

HON. EDGAR D. JOHNSON (CONTINUED): Cayman Airways had become established since 1977 when it was set up by the then Government to operate the existing internal airline of the Government. Mr. Speaker, the Government considers to that though that because of the size of the Cayman Islands, the size of the population and size of the travelling public, and with many obstacles such as the possibility of airline operations, it was not necessary for any more airlines like Cayman Airways operating as an independent entity should exist. Before that, Mr. President, it was linked to equity and operations with another airline which was in fact bankrupt. However, other Members thought differently. In consultation to those Islands we like to be big and this costs money. So Cayman Airways was taken off as a side to be operated more as independent entity owned solely by the Government of the Cayman Islands.

There were many criticisms at that time, Mr. President, that the airline would have to be heavily subsidised by this Government if it were to make a success of its operations. Although the public use declined from time to time as the true financial status of the airline, and the public was led with the belief that the airline would be a viable operation economically; the Government would not have to put money into the airline; everything would be fine; the airline would in time pay big dividends to the Government. It was under these misrepresentations, Mr. President, that the airline continued growing at the detriment of Government's finances and Government's finances.

I am sure, Mr. Speaker, that after that decision was made by the Government, that all Caymanians and this Honourable House stood by those decisions and hoped for the best as far as the airline operation was concerned. We acquiesced to, Mr. President, because a national airline is a very prestigious thing within a country, especially a country so small as ours. I am sure that in other country one does look to into this venture. However, we did not we are still making quite a lot of mistakes into producing results and first class personnel for the country. However, Mr. President, an airline operation is always a little different from other things. We have employees flying in the sky increasing pay-in over one point to another. These aircraft have to be kept up to proper standards in maintenance and services, and it the operation becomes very expensive. If the revenue likely cannot meet the overhead costs then of course somebody must pay the bill. In this case it is the Government.

Mr. President, it was no surprise to me when I entered Government to examine Cayman Airways accounts almost immediately, and to find that the airline was in what I term a very serious financial position. I am sure that many persons in these Islands understand that too. However, there are many other on the Opposition's side who believe that we took over a gold mine, Mr. President, I must reiterate again that in November when the Government we found that the airline was running at that time a back deficit of $7? million. In other words the airline equity had wiped into a deficit of some $6 million. Now in this world the wisest commercial operating use a formula as the yet to many others.

Needless that, Mr. President, even if the equity had been used to finance the other part of the operation it would not be so bad, but we found that there were debts owing by the airline, some of which very confidents. The first check that we made disclosed that these debts amounted to around $8 million, but later on we found other things that after we went people in there to re-check those amounts, because it that was nobody knows what the position was.

MR. KISSEL of SOUTH DAKOTA: I understand that they had never traveled with a budget. They scarcely know between one million dollars and another what the position was; that is to say on a current basis. So when we ask people to come to look at it they come out with a further disheartening figure of $7 million debit.

Also, Mr. President, when we went into Government we found that the aerodrome was sparsely [illegible] which existed during the course of 1939, and it went on. The Government [illegible] the service a whole new slew [illegible] of this as I need not go over that part of it. However, that bank overdraft amounted [illegible] to get in there we found that it was a case of $2 million.

Well, Mr. President, you are [illegible] million of deficit. You can add $7 million to [illegible] debts outstanding, and now you add over $2 million to overdraft, and that will give you the total adverse position of this airline at that particular date. Mr. President, at the present time the loan [illegible] except for losses over the months since last year. The debts [illegible], that is the working debts of $7 million have reduced slightly because we got a little money from Government in December to take care of some of the early moneys once which would have applied the million had they not been used at that time. From the airline [illegible] to have instituted, as the Postmaster there has been a slight improvement in the financial position of the Company where it can pay a bit of the debt. However, the bank overdraft, Mr. President, has not improved very much because we think for 1939 it will be $7,951 million.

Mr. President, in asking Honourable Members to support this motion before we do so Englishmen must understand and appreciate the fact that Cayman Airways is 100 per cent owned by this Government. We must understand also that the obligations of Cayman Airways are the liabilities of this Government and the people of these Islands.

Mr. President, another thing which I want to make quite clear here is that this adverse and serious financial situation in Cayman Airways was not a creation of this present Company [illegible]. I am sure that it is the desire of all those in this Chamber and the people of the Cayman Islands that Cayman Airways continues flying. As I said before it is a very precarious undertaking to begin in any country and we must do our very best to keep it going. However, Mr. President, I must tell you that we do have a ray of hopefulness either than the serious financial position of the airline. We have reason to think who seem to give [illegible] thought to the airline's financial position and in all I would say that Cayman Airways position is not [illegible] the serious financial position.

What will happen in future as the airline will depend on the discussions of this Honourable House, either we will find the money to meet some of the capital needs of the airline, because we are going into the service normal which unfortunately this one has to take for first operation. We have made arrangements, architects, pilots [illegible] I am sure are hoping that the situation at the end of the season will [illegible] so Honourable as in other years. However, as must keep that in mind, Mr. President, we must realize that that is an obligation which we must keep only keep in mind from time to time and we will be appearing in this Honourable House at regular [illegible] and when there are urgent matters to bring to your attention.

I would ask Members to support this motion. The airline must maintain operating this circuit which has developed itself in a position to [illegible] more money to assist this undertaking. That is the only way out there now, Mr. President.

SIR. KASEM S. KHAIRAT (Counsellor): I therefore leave the matter in Members to give it their due consideration, as I believe it needs to be given.

I support the motion, Mr. President.

MR. PRESIDENT: I think that this may be a convenient moment to take our customary morning break. I will therefore suspend proceedings for approximately fifteen minutes.

At 11.15 A.M. the House suspended

HOUSE RESUMED AT 11.40 A.M.

MR. PRESIDENT: Please be seated.
Does any other Member wish to speak, if not I will put the question. The Second Elected Member for George Town.

MR. BENJAMIN A. PITCHER: Mr. President, Government Motion No. 4/85 seeks to restore the pensionable age of this honourable House for a Commissioner up to a maximum of fifty retirement for Cayman Airways. I feel, Sir, that I would be remiss in my duties today if I did not take the opportunity to speak on this very important motion especially, Sir, after the remarks which were recently made by the honourable Fourth Elected Member of Executive Council, which if I may paraphrase appeared to me to be an obituary on Cayman Airways.

It appears, Sir, that this important Department of Government is already dead. This is the reason, Mr. President, why I felt constrained to ask the questions I did today. It was mainly because of the economic situation which prevails in this country and I believe, Sir, that the honourable Second Elected Member for Executive Council spoke straight into the point which I was trying to make, which I found myself unfortunate to do. So that as it may, Sir, I think it is unfortunate for the Cayman Islands today that the economic situation of this country has never been as it is today, Sir.

This nice opinion particularly to Cayman Airways. It was therefore surprising to me that a bill was brought here which had the net effect of reducing the viability of the airline. This bill, Sir, increased from 55 per cent to 100 per cent the liability on the pensions. As a result the airline has suffered, and suffered badly. In discussion with many of our hotel operators and tour representatives, and our economic operators they have complained bitterly of the increase in cost in bringing people to this Islands on Cayman Airways. One would have thought that with the economic situation as we are in today that every effort would be made to make this airline as profitable as possible. I would like also thought, Mr. President, that it would have been a request from the Government before a motion of this nature was brought to this House.

MR. ETHELBERT A. EDMONDS (OCEAN-HILLSBORO): As I understand it, the purpose of this report was to give us an idea of the present situation, financial and otherwise, of the airline and then what we can expect for the future. From the glowing reports made by the Chairman of Cayman Airways I am wondering why this matter is being brought to the House.

When I recall, Sir, one of the major issues discussed in the recent campaign was that Government or any group forming the Government would find ways and means of putting the airlines out of the area it was in. The share, that estimate about something of an accumulated deficit of $12 million. We have heard that on top of this there were twenty debts on the amount of approximately $7 million, not to speak of the overdrafts at the bank.

My question, Mr. President, is what specifically is Government doing to better this situation. I am personally tired of hearing complaints about what the old Government did. I am not interested in what the old Government did. That is history. We know what the old Government did. What the people of this country want to hear is what we are planning to do for this country and for the airlines.

We also have about the kinks which were made with Miami airlines in the past. We are speaking in 1985, not the 1970 or 1980 or years past. Our major concern today is what will happen to this country from here on for the next four years, and the next four years not as us. This is why, Sir, it seems so ridiculous to me when I hear people advocating a five year development plan for this country. We can hardly see beyond six months. What are we talking about? I want to hear where we are going over the next year or so. How long will it take us to formulate a five year development plan? Why has this Government not already come forward with a policy statement as that includes one more of the policies of this new Government? This is what we want to hear, Mr. President.

I see we are coming here every session asking for supplementary appropriation on the guarantees for this or that with respect to Cayman Airways. The question, Mr. President, of my other fears regarding our economic development and where we are going to support the economic base of this country, is that things are so bad today. There are many, many people out of work and Cayman Airways is perhaps one of the biggest employers. Even though we are operating at a loss, if we cease to operate Cayman Airways tomorrow we would have many, many other people out of work in this country. Cayman Airways is a very expensive as a Government department.

And so concerned with the specifically reasons of Cayman Airways, are we not in a position to help the people of this country? If the better is the case, Mr. President, then we must assume the responsibility of having to subsidize the airline.

The last speaker said, Mr. President, that the Opposition because they are believes that Government took over a gold nugget. Mr. President, I believe that I am in capable of reading a balance sheet and financial statement as any Member in this House, so I would not have considered myself with the feeling that we were taking over a gold nugget if I am indeed referred to as the Opposition. I have not.

Mr. President, whether we want to accept it or not Cayman Airways is the pawn that owned by this Government. We have to take the responsibility. We cannot shirk our responsibilities. We cannot abrogate our responsibilities. We cannot pass them on to other people. This Government owes each person individually myself and our duty is to see that things are made better. It is going to take time and I know that the people out there do not expect to see miracles overnight...

MR. LINCOLN A. FERGUSON (CONTINUING): However, we cannot sit like the ostrich, keep our heads in the sand and continue to blame history.

Mr. President, if we in the Legislature Assembly are to be expected to scrutinize supervising Cayman Airways or any other non-profitable organization in this country, or department in the Government, I feel that it is only fair that we should be given all the facts. We should be made ready to the reasons which are made by the agencies such as Customs and others, so that we can see what is happening; so that we can determine from ourselves whether we can support these type of decisions. There are many knowledgeable people in the Legislative Assembly other than those who form the Executive Council and I feel, Sir, that it is unfair for us to be asked to support things like this without giving us the type of information which the Executive Council has on Cayman Airways.

I have no choice, Mr. President, but to support this motion. I could say that I am not supporting it but then it would not give the Government time to look the problems around as we hope to see. So I will support this motion but with reservations, Mr. President, with reservations that the subsidies on the present scheme will never be profitable. It is often said that we have taken away the most profitable operations of the airline which was the cargo operation. What were we thinking about when we decided to commence the cost of bringing cargo in the land this country? Again I say, Mr. President, that our priorities are way out of line in my opinion. The people who suffer from these cuts are the real consumers, not the supermarkets, Mr. President, because all they will do is pass them on to the consumer. As a result they have decided not to ship by Cayman Airways any longer and they are using the shipping lines.

I see sometime,Mr.President, to make it unbearable for the airline to make a profit we will have no choice but to shortly shut the airline down. We have also told, Mr. President, that the million was allocated from time to time and told that Cayman Airways would be a viable, feasible entity. Perhaps that was said, Mr. President, but I would again state that it is not in any way subscribe to that view, neither do I associate myself with any of those workings and failures either of past or present Governments. I deal with the facts and the fact. Before we broke to that estimate time, 1984 Cayman Airways had a $17 million deficit with $7-million in grants alone, and the equity of the airline was totally wrecked. This is what I want to see us as a Government achieve, and desist from giving back doors connections of past Governments. That is helping nobody. We are dealing with today. We are dealing with 650 people out of work.

Mr. President, while I can understand the scheme, certain financial problems of Cayman Airways may not have been known through the present Government's existence, I am also appreciative of the fact that it is our duty to try and make this better.

Mr. President, in closing I wish to state that I more than many can fully appreciate the dilemma that the airline has been through. I am also aware of the situation which existed when the book, a book of budgetary provisions of the Honourable Fourth Elected Member of Executive Council mentioned. However, I envisage the long term: the airline having a more profitable venture. I do not think it will be totally unprofitable, not under the current route structure and with the present equipment which we have. However, I think that it would be made more profitable. I also believe, Sir, that we must examine very closely the situation of Cayman Airways, in exchange whether better with the present monopoly which we see today we could be in a lot of trouble with the airline.

MR. LEROY A. PETERSON (CONTINUING): Mr. President, as I said, somewhat hesitantly and with reservations I support the $2 million added to today's bill in this motion.

Thank you, Mr. President.

MR. PRESIDENT: The Third Clerk may read the next item.

MRS. CATHERINE D. GORRY: Thank you, Mr. President. I rise to support the motion, Sir, which has been brought to us for the transfer of $2 million overdraft with the Royal Bank of Canada. Although we have not been able to anticipate our requirements any past Government I think perhaps, Mr. President, that it is only fair that we keep before the minds of the public that this accumulated debt which we are faced to meet is of our own making. I do not wish to see this prolonged and tiresome debate continued but I think now and again we might like to jog the memories and minds of our Caymanian people in that regard.

I feel, Sir, that the present Government is doing the utmost to see the country make a sound economic footing for the future. I am not sure that we will ever see it become a profitable venture but I would hope to see it at least become a business which can be run at least on the break even point.

I support the motion, Sir, only with those few reservations in mind that if on the next finance, any additional loans or a reduction of two, if it is found that the airline is continuously not making any progress or is not profitable and having able to be run on its own rather than Government continually putting in more to cover it and in kept in the red, then I think perhaps we might be wise in trying to invest Cayman Airways completely and bring that money for a much better purpose. It would seem to me that these millions of dollars can be used and can pay a lot of salaries for a lot of people in other areas of Government. It would seem to me that one should finance or encourage a diversification of Government income or another.

I also must say that I was disappointed to learn that there has been a shortage in the amount of cargo which has been flown over by Cayman Airways because of the increase which has just been enacted here. I feel that the Attorney General have no problems at all about getting sufficient cargo to bring over, and it would seem to me that the only disincentive to our people having to pay a lot more for what we consume here is for the businessmen who have used Cayman Airways to use the airfreight lines to get a better deal. However, this in turn takes away from Cayman Airways and this is the last thing which we need to see happen here. It needs all the help it can get.

I know might not there is not much one can do except support this, and I think I will support the motion for some time yet. However, I would suggest that if anyone has a business which has proved not to be profitable, and it does from time to time, profitable it is commonly to be quite a weight around one's necks here, I think we might do look at it and although it is not of our making, and although this present Government cannot be blamed for it then why should not something which we find ourselves in to be a burden and we sometimes it a great loss.

You have to do one thing for one to run a noble house, but if one finds out that the insurance and the upkeep on it is too expensive one might as well invest in a Rolls-Royce. If one finds out that the Rolls-Royce is not what one needs then one should [illegible] Leave the Rolls Royce part somebody else and let them like over all the upkeep of it.

MRS. DOROTHY E. CRESSY (GOOSEBERRY): I feel that Guyana ought to proud to be. We might be small from Grenada. It is my understanding that we have to see that people are employed. That is common knowledge. I feel that it is about time we realized that we cannot be the number of people who are working with Guyana Airways be employment. It was same like perhaps we are keeping hundreds out of employment because of what we mean it contribute to the airways.

Sir, I would like to suggest that [illegible] I mentioned that hopefully the present Government and the Board of Directors of Guyana Airways are looking at this very carefully, and will perhaps not wait for four years before they decide whether or not we get rid of it and try something else, in order to avoid the Government from making so considerably low in their handling of it.

I would like to congratulate the Chairman and the Board of Directors of Guyana Airways. I feel they are really attempting a lot of time and effort in trying to make this thing come satisfactorily. However, on the other hand it seems as if as of now things are still not going too well.

Mr. President, I would like to support the motion that I give it my wholehearted support at this time bearing in mind what I have just said.

Thank you.

MR. PRESIDENT: Does any other Member wish to speak? Does the mover wish to exercise his right of reply? The Senior Elected Member for West Bay.

MR. K. KOUSOUL HUSEN: Mr. President, I am sorry that I must oppose this Government Motion No. 8/75. I have my reasons for opposing it. Before November last year I spoke out many times about the case with which the former Government came into this Assembly, came and brought large sums of money in, the airline's coffers such which Members of the House had no control, and about which we are hardly get information. I was elected to this House to help remedy the use of public funds under the present relationship between this Government and Guyana Airways, after said to be a financial liability company. I am unable to support my motion.

I have heard a lot about the people about the value of Guyana Airways and I appreciate this, the contribution to our development and our economy. However, Sir, there has to be a limit to the amount which we can afford to pump into this thing as said Government pleases. It is said, Mr. President, that a rose by any other name is still a rose. Let us not make any mistake about it, whether it be called a guarantee, a loan or a gift it is the taxpayers' money which is being spent by people who have not elected to spend this money anyhow.

I believe that most of us have expected that Guyana Airways will always be a losing proposition here. Sir, before this Member makes another plunge for money to have to ask us some figures as to what the exact is involved or be.

The last pump, Mr. President, has already been spent to keep Guyana Airways flying. This motion is for Government to guarantee another 2½ million or double that since breakdowns of the planes are there pumping people into and eventually running on that grounds principle. Mr. President, when we could perhaps appropriate some funds with a few last resort emergencies, emergencies which we have been unable to provide because of this thing which are not national goods.

HON. M. MARSH DYE (CONTINUING): My national pride extends very far, Sir. My national pride is to see our people better housed and better trained, and until I see some progress in these areas I cannot in good conscience approve anything for Cayman Airways from the Public Treasury.

I mention, Sir, that this $2 million is not directly from the Public Treasury and that it is only a guarantee but as I state, Sir, so far every single guarantee given by the previous Government had to be made good from the Treasury of this country. I say no, Mr. President, Government should guarantee $2 million at this time for the Housing Corporation. I believe so that these people who are unable to appreciate the lending institutions in this country will be able to get a better house to live in, will be able now that the rents is coming to sleep in a roof which has not been ours.

Mr. President, what a burden for national consequence on our national people. I realize that the Government, that the present Honourable Member responsible, that the present Ministers are doing and have done good work since they have been elected. When we took office there was no budget for a thing, for this $22 million of debt. There was no budget, Mr. President, yet they are screaming now telling us that they are the best managers. Not they had no budget for a national airlines with $22 million of debt. The airlines needed to have some dimensions. We needed to know what was happening in the airlines. The present Government have done a study, a study which I hope to see. I would like to see the report, Sir. I know that the experts down in the Bahamas people will not be satisfied like the report which we had here in 1982 which Government spent a lot of money on. This Honourable House is elected to find out if we as Members on this side must be kept up to date with what is going on here otherwise, Sir, I will second home and always say no.

I find it hard, Sir, not to look back at the past. As far as I am concerned, Sir, we learn by our mistakes. Everything has a past, everything has a present and everything has a future. The position of Cayman's national airline today is a direct result of the past. And this we not say do not look back at the past? We have to look back at the past Mr. President, the Cayman people forget and elect those people who make such good managers that they did not have a budget for $22 million debt for the Caymanian people.

Mr. President, I do not intend to say any more on this motion but I am saying that I cannot support it.

Thank you.

MR. SPEAKER: The First Elected Member for the Sister Islands.

HON. MARY S. MCTAGGART: Mr. President, I rise to support this motion. I have listened carefully to the debate here today and I would like to remind Honourable Members that the Cayman Islands do not rest on the shoulders of the Island of Grand Cayman, but they include the two smaller Islands which depend entirely on our communications by our national airline Cayman Airways.

It is convenient for us to get to hospital and other needs. I fully realize the financial responsibility we have placed upon this Government and will continue to place, but I feel that we must also look at the benefits which the Cayman Islands have derived from our national airline and certainly will continue to do so in the future.

HON. HENRY S. KIRKCONNELL (CONTINUING): We are in an area where just simply to maintain our present position, only if we can keep it in the hands of foreign citizens completely I think that the future of our tourist industry will be in jeopardy.

Therefore, Mr. President, I congratulate the Honourable Member responsible, and the Chairman and Members for the efforts which they are making to help Cayman Airways to be more profitable. I feel that it is understood that every Caymanian and everyone who says that they love the Cayman Islands should patronize Cayman Airways to their fullest extent, for it is only by patronizing Cayman that we will help to alleviate the deficit which it is incurring each day.

With those words, Mr. President, I support the motion.

MR. SPEAKER: The Second Elected Member for Bodden Town.

MR. G. HAIG BODDEN: Mr. Speaker, the airline is about ready to celebrate its 10th birthday and since that first year, we either maintain an efficient and reliable air service to the Cayman Islands or we have the heads of the clock brought back to the days when we had an air service. All people of my vintage will remember those days when there was no air service; when we depended on a motor boat or a sailing boat to connect us to the outside world. We can boast that we had no airline, but we also did not have a lot of other things. We had no paved roads. We had no electricity. We had no telephones. We had no microwave links. We had no direct radio. We had no weight restrictions. We had nothing.

I recollect from the beginning that the airline is the most important organization in the Islands economy. There are many things the Government could do without money but we must have money for essential purposes, for the hospital, for the police and I could go on and on. These departments could Government money to run, and the airlines is not unlike them. I believe that we are in the position we are in today, the position of being the best country in the Caribbean and the best country in the world that I know of, simply because we have the guts to know that communication is the key to success in an island economy. Air service, telephone, telex, radio communication and good services are the ingredients upon which Islands will prosper or will fail.

I recall in 1972 when we had a conference here, one Member from the British Virgin Islands said that Caymanians should be proud of their air service. He said that, "We in the Virgin Islands are feeling ourselves. We believe we have an air service. Our Government owns a part of LIAT, but LIAT does not give us the service which Cayman Airways gives Cayman. When it suits them they comply. They do not always. Our principle cannot depend and our businessmen cannot depend on this type of service".

The reason why the Cayman Islands were into the airline business was because as I said my many years ago, several decades ago at first, this Government has told that British Airways would no longer service the Cayman Islands. The Government of that day did what was right. They founded an airline which still exists, although it has undergone many changes.

I would not like the people who have listened to this debate to get away with the idea that having an overnight is something new from Cayman Airways, something which recently became necessary. I remember in 1972 the airline was having problems. It got into an such bad condition that Assembly took refuge to give a $50,000 overdraft to them, although Cayman Airways had an account which was bearing over fifty thousand dollars a month through Barclays Bank.

(2.) B. THE AVIATION CONTRIBUTION: The Government had to have the assistance from Airways International so as to enable them to get the aircraft/which Pilgrim at that time was the majority of $600,000 and has since increased to $800,000, and the action today will jeopardize:

As to look back on the people who run the airline a year ago or two years ago and to say that they are responsible is wrong. It is not supported by the facts. The true picture of Cayman Airways is that shareholders will not have been increased since many years and are not the doing of a single year.

I wonder when the people will ever be told about the responsibility of Cayman Airways and the circumstances which forced the Government to put 100 per cent of Cayman Airways. The truth is that the Bermuda II Agreement which was entered into by this Government with the United States and other connected countries has a clause in it which says that any British overseas territory from the Cayman Islands or from any Caribbean territory into the United States must be majority owned and effectively controlled by the nationals of the country or by the British Government. It could not continue today the relationship with LACSA and fly the Miami route or the Honduras route. So whether we like it or not there is no choice. This Government or Cayman Airways having been put that airline. If it was owned by LACSA or any other foreign carrier we would not have the right under the Bermuda II Agreement to enter the United States.

It is true that in 1977 there were rumours of the airline becoming a profitable venture, although at that time it was not. Then again the whole world knows what happened. When the Arab world held the Cayman Islands, the United States and all the rest of the oil consuming people to ransom for the oil which they were using. The fare of all airlines including Cayman Airways became the fare of leading airways, because the market of oil had risen many times and there was no way that any airways using Arab fuel could ever make money again. I believe that this was the most serious problem which Cayman Airways. It was a problem felt by all the other airlines and the biggest item of expenditure of the airlines became the fuel bill. The airline has not yet recovered and probably never will.

The Member for West Bay said that this new Government has not done very much to increase the profitability of the airline, and I agree with him. I thought the Bill introduced and passed in this House in March of this year, which increased the duty payable on air freight. I thought another Bill we were bound to have passed through the morning, in order to assist the airline. However, I did not mention at the time but might I now say that about seven weeks in some thought this country. We had hurricane in the meantime. We have people demonstrating on the streets. They are no longer happy to be taken by the promises the Government has elected enough to place the cost of living going up by 10% or 15 percent. I wonder when they are going to learn the facts and the good advantage to having that Bill taken as this we can assist in as that the airline was attempting to provide a portion of the air freight which is so vital for the very existence of the airline.

I could mention other areas in which the new Government has taken hundreds to put the airline into bankruptcy. Let me just touch on the question through Cayman Brac. We have lovely runway on the Cayman Brac but we had been told from the start the old DC-3. With the introduction of the jet service we need more money, but the new Government came along and doubled their salaries by increasing the flights so that the flight there had to cause might in Cayman Brac in the absence of the airline. I wonder when they are going to answer that.

Mr. S. Gold Bond (CONTINUED): One Member referred to the coal mines, the strikes which had been over. And I think that there is reason to like that. Because when the new Government took over, the mines had some pressing problems. However, they were able to solve them by coming to the Finance Committee and getting the Finance Committee to agree to vote $5.6 million out of the measures which the old Government had left behind. In November this year when they must come there will not be any Estimates at the rate they are going through them, because they come in March this year and ask another $5.6 million to balance Government's 1976 budget. If we are going to spend $5 million every two months, $30 million isn't bothering me either, however. So there is need for the mines to be open now, because the day of reckoning is coming. Quebec through its Hydro is suffering because the Government will not nationalize the economy. The Government is building up resentments. The Government is doing everything to increase taxes and take money out of circulation, and so decrease the economy. This is the problem we are suffering from.

Some Members seem to feel that if we shut down the mines the Government would have money for necessary social programmes. I think that they're being very short sighted. We are not prospering in spite of the mines, we are prospering because of the mines. The day that we do not have a realistic mentality we will have no banking business, and we will have no resources. These people want to travel and they want to travel fully. They want to travel when they choose to travel. They do not want to travel if some other mines have been working here once a week. So our economy has been concentrated by the activities. We import about $20m the mines and pay the money to pay other people salaries, because without the mines there would be no money. I have said this many times and my feelings on it are just as strong as they were back in 1972, and in 1973 for that matter and in 1980 when I had my whole political life on the table in an effort to nationalize the mines and to stop the madness which had started in this country to shut it down, the problems, the threats in the press and the demonstrations. There did that, the Government of the day was strong enough to say that they would keep the mines, because I believe that people who would shut down the mines would destroy our economy if they could do it. This is what they will do if we let them do it.

So the mines must be open, but the Government has problems because the question of $11 million lost by the previous administration has dwindled to about $7 million overnight by my reckoning. The shareholders have swallowed the surpluses and so there will not be the problem for Dennis Stevens to fall back on whether the Government does more in the next six months than it has done in the past six months.

The mines came to the present viability because of the backing of the Government, the backing of a Government which had cash. I mentioned when we were elected in 1977 that the mines would not even get a $50,000 guarantee. So back in the Telegram would lead money to buy the first SDC 1-11 and that changed dramatically. By the time we were purchasing the 737s Swan in the Islands were showing where the Government is not in on the business. This is why a Government which had been transformed from bankruptcy to prosperity had brought about. It brought about a change in the Government attitude of the bankers so that Royal Bank of Canada was ready to lend the money to buy the SDC 1-11, and this Government was able later on when we had enough surpluses to take the risk from the surpluses and pay off the bank for the SDC 1-11. However, I am afraid that the present Government is failing far behind in that every action taken since November has been to depress the economy.

MR. G. HEATH BROWN (CONTINUED): ... only Cyprus revenue but other revenues, some of them not Government owned, will be feeling the wind of the economic recession which the Government has put on which there can be room for it, and the revenue will suffer somewhat next year because there will not be any Government to modify the plans we there had been under the eight years from 1970 to 1984. So there is need to study the Budget hypothetically, because they are more problems which can only be cured by some schemes or the Budgets would start to bring, and modify it only the means.

So the solution has problems but there is no way out of the dilemma in which the present Government finds itself, but to come here and seek the approval of this Government to increase the standards at the back so that the airline can continue to operate.

The Member said many guarantees made by the previous Government had to be made good, or something like that. What a credit to the Government of every guarantee made would be made good. However, I do not think that the statement is correct because as my knowledge there are many guarantees made by the Government which have not yet been made good. We guaranteed a loan for Cyprus Airways and we have not made it good. We guaranteed all of the payments on the loans for the 737s and it is my understanding that the airline itself has met a few of them, although the Government may have put up some cash for some of them. I could go on to other guarantees and loans which the Government made, I think that this is what a Government is for. I think that we promised a flight for Cyprus Rose. I know that we have that on the table but this is what a Government is for. What I am mentioned about is a Government which is not going to be able to find the cash when there is a call for cash.

I support this motion, Mr. President, and I trust that the few remarks which I have made will have an effect on the Government and will at least get them to sit down and think about where this country is headed, and to tell us how they are going to have the cash in November like prior that they found there in November, 1984.

MR. SPEAKER: Does any other Member wish to speak? Does the Member wish to exercise his right of reply? Do you wish to speak? Well in that case shortly we shall not get the debate on the motion finished before lunch. I think perhaps it might be convenient if we suspended proceedings for lunch now and we again at 2.30 p.m.

At 12.30 p.m. the House suspended

EC785 Document AT 3.20 1.M.

MR. PRESIDENT: Please be seated.
Proceedings are resumed.
The Honourable First Elected Member of Executive Council.

HON. GEORGE O. SOARES: Mr. President, in the beginning I had no intention of speaking on this motion, because as the mover said it is to be a great saving for Government on obligations which had been placed on Government some time ago by the previous Constitution of the country, in that it provided a million dollars had been bought on a letter of Comfort with an undertaking that if the amount of the overdraft ever rose above that a guarantee would be given to cover the approval by the 31st December, 1984. The bank is now asking for the appropriate cost of Government's responsibility to be removed so here is an opportunity to give the guarantee.

However, referring to the debate as it went on I thought that I would make a few comments. For example, Mr. President, it was said that the majority of Cayman Airways being owned in the present fashion, or in the present state, that is 100 per cent ownership by Government. The Bermuda II Agreement, Mr. President, is not something new out there in left field. If we remember, I happen to have kept a copy of the Bermuda II Agreement. I have a fair memory for remembering what I have read, and there was no obligation on the part of this country to have 100 per cent shares of Cayman Airways in order to retain the rights to fly into the United States. In the Bermuda II Agreement Cayman Airways was designated the Bermuda carrier between the Cayman Islands and the United States as it was presently constituted, that is 50 per cent owned by the Government and 50 per cent by Eagle. The one requirement of that Agreement was that that position, that is the 50/50 per cent ownership did not overlap the lifetime of that Agreement.

So when the Member says that it is time that the people be told the truth about the Bermuda II Agreement, that is the truth. Those are the facts. The Member might have been led to believe otherwise but I happen to have studied myself on the opportunity to read the Bermuda II Agreement. Naturally there is always the admonition in the Bermuda II Agreement for improvements to the ownership by the Government concerned or by nationals of the Government concerned, but the one provision was that the location did not deteriorate. It is to my understanding that after the Bermuda II Agreement, as was before, there were negotiations with Eagle, which was prepared to produce even further the ownership in Cayman Airways and still continue to provide the airport for the airline.

Whatever might be said about Cayman Airways, Mr. President, I do not believe that is one of the most which has been the problem until the airline. It is the cost of financing the airport which became or continued owner-ship, or whatever by Cayman Airways owned by the Government. Why the airline did not continue operation prior to 1979 when it was reorganized was because they loaned the airport and did not own it. Therefore they did not have that extra debt servicing burden,

HON. EDMUND G. BROWN (CONTINUING): I am not saying, Mr. President, that the arrangements with LAWCO were the perfect arrangements, but certainly financially as far as the ability to borrow money is concerned it is quite obvious from the situation which we have today where the airline has accumulated, as we have heard, something like $32 to $33 million worth of debts.

Mr. President, we also heard that the present Government was doing nothing to encourage development and use west of it. We had made no policy statements. Well, Mr. President, in my opinion the Cayman Islands are on the threshold of a very substantial increase in economic activity, by that very mechanism of getting rid of the Government. Most people of any Government are required to make statements as to what the Government possibly or the people exercising the Government back accountability in their own right. However, this Government came in with accountability with Members possessing responsibility in their own right, and when we leave office at the end of 1984 we will go out with accountability. We do not have to make any statements about us are now going to change the Constitution to get internally self-government or independence and the rest of it. I think our position is well known on that. As for development, Mr. President, development has not just slowed down since the 18th November, 1984. Anybody who knows this economy will tell you that long before that the economy was on a decline. In fact when we were debating the budget it was proved that Government had failed to make the estimates of revenue by some three and a half million dollars, which was proof positive of a decline in the economy.

When we may be in that there will be an increase, and within a few months this should be evident even to the most prejudiced people. We have not deliberately done anything to slow the economy, nor will we do it, but we will seek development consistent with the ability of the country to absorb it. We do not seek development which is illusory.

It was said that the present Government has used more than $2 million of reserves from the previous Government. Mr. President, this is not so. It is true that Government went to Finance Committee and asked for something like $2.2 million to pay the debts of Cayman Airways which were pressing at that time. It borrowed approximately $1.2 million but to my knowledge only some $800,000 was spent from that figure. The other $1.4 million which would not used in the interpretation of the estimates to balance the budget for that year is certainly up until this time only a bookkeeping figure. No money has actually been transferred out of the treasury nor used to the best of my knowledge in the payment of any bills. So that $2.2 million remains there and will be used if there is not an increase of revenue over anticipations to compensate that $1.4 million hopefully to be spent. It is my belief that by the 31st December we will have received sufficient revenue from Government activity to not have to touch any reserves which the previous Government might or might not have had.

One mention, Mr. President, only that the airlines was a necessity because prior to having the airline we did not have any electricity; we did not have any telephones; we did not have any air-conditioning; we did not have any running water, or the rest of it. The thing about that is, Mr. President, that to the best of my knowledge those amenities all came before 1977 when the airline was incorporated in the present form.

MR. EDWARD O. EDWARDS (CONTINUING): So what I am saying is that while it is good and possibly desirable to have an airplane, the way we first got to where we owned and operated seven such. Because and I make no apologies for that, Mr. President, whatever little title we may claim to a limit to which this country can spend on a national defense. The other factor which I think that we should bear in mind is that the bigger our responsibilities, the less discretionary we should become in our own activities. In other words when we had a few responsibilities to the country we can do what we should be able to finance out of normal operations and profits, but the more interests that we have coming to the islands, the more attractive the responsible business to an individual citizen to have on the scene either by himself or in conjunction with the Government or with the national airline.

So, Mr. President, it does not follow that the country has to always keep that kind of a two-to national airline from us to exercise a certain discrimination.

The other point to what concerned first I would like to make is by describing the greatest single growth increase in tourism in this country took place, I believe it was in 1972. Certainly it was before 1977 that there was an increase of some 40 per cent by air. That was not with the airlines in the present form.

It was said, Mr. President, that in 1977 Cayman Airways could not become $10,000. I do not believe that was the problem of the airline just yet. I believe that again data back to was unreasonable when we have discussion in Cayman, that seems it has to be said it will have to be said.

Mr. President, I was just speaking and mentioned the figure which I quoted as having been used to pay Cayman Airways debts from the $6.5 million bought. I quoted a figure of roughly $600,000. I have been told by the Honourable Third Official Member that it has been $800,000 more that in January $800,000 more spent, making a total of $1.4 million altogether spent to pay Cayman Airways debts. That is the point of light how been drawn out of the Honourable.

Having said that, Mr. President, I would go on and say that this Government is confident that development is on the offing. It is going to be encouraging improvements to the country and when the funds flow in to the airport, this Government intends to see that those funds are used in the best advantage for all the people in these Islands.

The motion before us as I said is simply, Mr. President, is one which as I see it we have to consider. It is a commitment which was given previously, namely that it is being considered by a further new which the Caymanians have asked for in case of emergency. With the sense while I have been making out of the remarks I believe that that is a wise decision and I should commend to support this motion, and give the assurance that it is to my belief that the Honourable Member, the Chairman and the Right of Opposition will not spend this money until they are satisfied that it is right and economical that they do so.

Thank you, Sir.

HE. CHAIRMAN: Unless any other Member wishes to speak I will now put the matter to the vote to ascertain how it may be?

HON. D. MILTON ROGERS: Yes, Sir, I would not like to miss this opportunity. Mr. President, this is my fifth year of being a Member of this Honourable House and there is no doubt that if we were to select a politician people we can select everything to do with Cayman Airways.

MR. P. RAMAN TODOUR (Guyana): I can assure you that it is indeed to make a lively debate. In me it has never failed in the past. I doubt that it will fail in the future and from me it is an encouragement because it is a timely confirmation of the importance to this country. It can truly be said that, no Guyana Minister has ever made a speech that I can assume you or anyone else that since Government took the initiative over in December, 1976, it has certainly promoted many local airline experts. Everyone has their knowledge of the story and the truth. I believe that I have as much knowledge as the next man in dealing with the subject.

I never thought that this simple straightforward and clear motion, more or less formalizing what the previous administration had done, would have been taken so far. However, if we must deal in the past we must all remember that it has rightly been said that those who forget mistakes of the past have to repeat them.

There has been much a ado that occurred in the speakers before me that I feel that without belaboring this topic it is only right that I should comment on a few remarks. In corroborating Cayman Airways and the position it has worked out today it is true to say that the time was just approximately when it was becoming necessary and more desirable to own and operate our own airline. This is my opinion, Sir. We had many Guyanese who took in the wider context of the scene. They had gone to the United States and they had been trained as pilots, and they were looking for jobs. However, what was used as an excuse in 1977 should not simply; that is regarding the recommendations of the Civil Aeronautics Board of the United States. They said specifically in 1977 that comfortable, safe and effective airlines should be operated over Cayman Airways as any other British country wishing to operate to and from the United States. However, I can assure you that my colleagues was not. The Civil Aeronautics Board did not say what it considered a substantial amount; nor would the Civil Aeronautics Board have formed Government into taking out a responsibility by without more careful examination.

So, Mr. Speaker, there was no real reason why the airline had to be taken over in the circumstances in which it was in December, 1976. Nobody can refute this. I respectfully submit, had it been assessed not by the Government of that day in 1977 would have revealed then what they have learned now. We have gained of experience which could not be taken over in the circumstances and equipment today. It was then that it might remain the same today.

It was mentioned earlier and like to point, if someone takes the time to check the Hansards of this House, that the public was told in 1977 when a similar motion for privatization was being put through that Cayman Airways would make a contribution to the Treasury of this country rather than to take any money out of it.

It was also said then that in 1977 Barbados Bank refused to make a loan of $20,000 to the airline. It is my recollection, Sir, that this refusal was made to the Government of the day, not to Cayman Airways as a company.

When making comparisons of which Governments did what, and in studying the history of Cayman Airways, it ought to be borne in mind that Government's investment in Cayman Airways in August, 1969 when this country was formed was only $20,000.

MR. K. MUNGA BOSEN (ACCRINGTON): It is true that through the good Government we put in increase the budgets as and when necessary. It must also be remembered that the airlines under the Kenya Airways and up to December 30th, 1977, amounted a subsidy to Government of £22,000 in 1976. This was a requirement of the Airlines which were taken from retained earnings of £143,331. Without speaking irresponsibly I think this Government has a long to go before it will require any form of financial being borrowed under the present arrangements. Mainly now where that,

We are ready to talk to the Government of Cayman Airways. Anybody who tries to point out the importance to me is only promoting to the contrary. I represent which Cayman Airways and I have always maintained the importance to this country. The final decision was mentioned this morning. This is a very Government link to always maintain and I was amazed when the First Elected Member for Cayman Brac said that he wanted to mention this House that the Cayman Islands do not own Cayman Is Cayman Airways is important to maintain this link with our Sister Islands. It is also important for the development of tourism. This is common knowledge, and it is also important for jobs for Caymanians.

We are ready to talk to the Government of Cayman about the serious financial situation in which this country has been placed. When I talked the accounts up to June, 1978 to this Honourable House in March this year I took this again decided to explain the situation which the accounts revealed, and I was very serious about the serious financial situation in which our national airline was finds itself.

A point was raised regarding the Auditor's report. I was also in undertaking to this House, Sir, that the Auditor report will be tabled in this Honourable House, and before the Long.

There was also a point on the passages to Cayman on any flights which took place in March this year. An assessment was made and it was by approximately that general cargo rates brought in by sea in the world approximate very little smaller, that they were practically the same. The Member said that cargo is the most profitable operation for the airlines. I would like to differ, Sir. Cargo is important to the airlines. Any means of persons originated by air will be important. However, it should be clearly pointed that there cargo is not the most profitable operation for Cayman Airways.

Therefore, I do not believe that the attempt by the Opposition to pin the Australia-based on Cayman Airways is a bill which was passed in March of this year will produce well with the general public, at least those who will read and think about it.

The question was also asked about what documents do exist. The final thing which we have also in regard to Cayman Airways is a short working discussion on the contract on economic grounds either from individuals. We have also received more high salaries non-Caymanians who were not making any contribution to the airlines. We have re-examined contracts to Cayman Brac, and although I do not have figures to back this up it is a fact that the losses encountered on the Cayman Brac to Miami services which were there up until April this year were much heavier than losses since we have re-scheduled. The new schedule to Cayman Brac combines the international and local services all on the same flights and this is found to give the island a better service, and is also bound to make this operation more economic.

MR. H. KOLYN (CONTINUED): We have also reduced spending accounts and expenses for other groups. Although my commitment I am telling the Honourable Minister that when the accounts for June, 1985 are presented this year, we can expect an improved picture.

It is true that we have acknowledged and re-emphasized the importance of Cayman Airways but nevertheless, Sir, the fact remains that Government must at some time and place answer the question can they actually afford a national airline, if so, it must be accepted that the airline must be subsidized. Once this amount has been arrived at a decision must be taken as to how long this subsidy can be maintained.

I can assure this House that no information is withheld from Members. The accounts for June, 1984 as I said before were tabled in March; and the accounts for June, 1985 will most likely be tabled at the Meeting of this House in November. By this I do not mean to imply.

One Member spoke about the Housing Corporation. I would like to point out to him that the Housing Corporation also enjoys the benefits of Government assistance in the form of guarantees. So I hope that when it comes to subsidy he will change his mind.

There have been many beautiful remarks about the Residents of this country and much debate has arisen about them. However, Mr. President, it is a matter of fact that had the debts of Cayman Airways been paid up there would be no problem to know whose responsibility it is looked at. I am not an accountant nor an expert in finance, but I can add two and two to get ninety nine or the closest one.

Mr. President, the overdraft facility of $3 million with the Royal Bank of Canada is still needed. It is needed to avoid embarrassment. It is needed to preserve the reputation of the airline in dealing with the travelling partners. It is this of a commitment which must be honoured for the sake of the airline. I know that there has been talk about the closing down of the airline. I do not know whenever that thought. It is true that what was guaranteed was the discontinued manner in which it was taken over without a proper feasibility study, and the serious financial consequences which followed for this country. That I cannot talk about, but nobody else disputed the fact that it was good to have our own national flag carrier. I hope that I will not live to see the day when our airline has to be closed down. However, meanwhile nobody said that I also realize that funds must be found.

Again it was asked what were we doing with the airline. Sir, if the previous Government has been struggling with this airline since 1st December, 1977 and extensive financial relations are found by us when we took office in November last year, how can it be expected that the new Government produce a miracle here overnight in six months. It is the this is most unreasonable. Talking about taxing one's head like an animal, that is one of a classic example.

Mr. President, I would like to thank Members who supported this motion unanimously, and those who supported it unconditionally. I again commend it to the House and would ask all Members to support it when it comes to voting.

Thank you, Sir.

MR. SPEAKER: The motion before the House, Government Motion No. 6/86 reads:-

"BE IT RESOLVED that this House does this day approve the presentation of a guarantee by Government to the Royal Bank of Canada, Grand Cayman, in respect of the covenant with that Bank of Cayman Airways Limited, up to a maximum of two million Cayman Islands dollars."

QUESTION PUT: AYES AND NO

MR. W. MCKEEVA BUSH: May I have a division, Sir.

MR. PRESIDENT: Very well.

DIVISION NO.12

MR. PRESIDENT: I declare the motion carried.

GOVERNMENT MOTION NO.6/86 PASSED BY MAJORITY

MR. SPEAKER: The next item on today's Order Paper is Item 4(b), Government Motion No. 7/86. The Honourable Chief Minister.

GOVERNMENT MOTION NO. 7/86

AMENDMENT TO ELECTIONS LAW

HON. DENNIS M. FOSTER: Mr. Speaker, I would like to move Government Motion No. 7/86 standing in my name which reads as follows:-

"WHEREAS His Excellency the Governor, by proclamation dated 21st January, 1986, dissolved all Members of the Legislative Assembly and the Supervisor of Elections to make comments or recommendations in light of the 1984 General Elections for amendments to the Elections Law;

AND WHEREAS a number of Members, including the Supervisor of Elections, have made in their comments and recommendations;

HON. DENNIS FOSTER (CONTINUING):

BE IT RESOLVED that this Honorable House appoint a Select Committee of the Whole House to study these recommendations with a view to preparing an enabling Bill."

MR. PRESIDENT: The motion before the House is Government Motion No. 7/86, the text of which has just been read. Does the Honourable Prime Official Member wish to speak to it?

HON. DENNIS A. FOSTER: Mr. President, there is not much more I can add to the motion, Sir. It is what Members indicated that they wanted during the last Meeting on the Meeting before, I am not sure which. This will give us a good opportunity while it is fresh in our minds to go through the Electorate Law and recommend amendments. We can get it done and passed before the next elections.

It will also give Members an opportunity who have not made any recommendations to do so at the Committee Stage. Hopefully, Sir, we will get an Electorate Law which everybody will be pleased with.

I recommend the motion to everybody, Sir.

MR. PRESIDENT: The motion is now open for debate. Does any Member wish to speak? If not then I will put the question that Government Motion No. 7/86 be approved.

DIVISION PUT: AGREED.

HON. D. BRIAN MILLER: May I have a Division, Sir?

MR. PRESIDENT: Yes, if you really want one but I will ask the Clerk to...

MR. PRESIDENT: I declare the motion carried.

GOVERNMENT MOTION NO. 7/86 PASSED.

MR. SPEAKER: In accordance with the provisions of Standing Order 89(3) I shall nominate the Honourable Second Official Member to be Chairman of the Select Committee. For the information of any Honourable Member not at this time Members of the House, the Honourable Second Official Member charged the Select Committee which was responsible for clarifying the present Situation(Sp). I think it will probably be helpful. Is that not right?

HON. MICHAEL J. BRADLEY: I was just thinking, Mr. Speaker, that if the members of the previously planned Select Committee by the result in another Select Committee, it might be helpful for another Member to chair this one.

MR. SPEAKER: Oh, I think the Standing Law on the whole seemed very well indeed. There are, nevertheless, inevitably a few minor changes required. I am not sure. Maybe the Honourable Second Official Member can guide me. I think that I normally do try to have a chairman. I am not sure what it is in Standing Orders which gives me the right to do so. However, perhaps I can take it that it is a long-standing practice.

HON. MICHAEL J. BRADLEY: The precedent has existed, Mr. Speaker, in the past Sessions now having it done, the notion arising if the Select Committee deliberating itself. However, in each case it has been given.

MR. SPEAKER: Well, in that case I think I will leave the Select Committee to determine it itself. So I will simply nominate the Honourable Second Official Member to be Chairman of the Select Committee in accordance with the provisions of Standing Order 89(3). However, we will leave the Committee to determine its own chairman.

We move on to the Order Paper at Page 7(vii), Bills First and Second Readings.

BILLS

THE HEALTH PROFESSIONS (AMENDMENT) BILL, 1995

FIRST READING

CLERK: THE HEALTH PROFESSIONS (AMENDMENT) BILL, 1995.

MR. SPEAKER: A Bill entitled The Health Professions (Amendment) Bill, 1995 is deemed to have been read a First time and to set down for Second Reading.

SECOND READING

CLERK: THE HEALTH PROFESSIONS (AMENDMENT) BILL, 1995.

HON. HENRY O. BROWN: Mr. Speaker, I beg to move the Second Reading of a Bill for a Law to amend the Health Professions Law, 1974 (Law 79 of 1974).

The Memorandum of Objects and Reasons, Mr. Speaker, is that the Bill seeks to confer on the Health Professions Board the power of providing advice on conduct or ethics for members of the health profession.

HON. GERRY O. ESSENE (CONTINUING): Mr. President, section 9 of the Health Professions Act, 1974 presently makes provisions for the Health Professions Board to be responsible for the professional disciplinary of health practitioners registered to practice in the Islands. However, presently there is no guidance or action board is to what are the expected standards of conduct or ethics of members of the health profession. This has been seen as a gap in the legislation for some time, and this short amending Bill seeks to remedy this deficiency by conferring on the Board authority to provide in such a manner as it thinks fit, rules for enforcement of the health profession in standards of conduct or ethics expected of them.

It is my understanding, Mr. President, that this Bill has the full support of the medical and dental associations of the Islands. In fact, work has already been started on a code which will undoubtedly be adopted once this legislation is in place.

I therefore beg Members' support for this short Bill.

MR. SPEAKER: The question is that a Bill entitled a Bill for a Law to amend the Health Practitioners Law be given a First Reading. The motion is open for debate. The Elected Member for North Side.

DEBATE ON FIRST READING

HON. D. IZZARD HILLIS: Mr. President, I wish to support a Bill for a Law to amend the Health Practitioners Law, but I would like to make it clear that since I am one of the professionals who might be disciplined under this Law I will abstain from voting on it for the vote.

However, I do believe, Sir, that it will improve and enhance the quality of care available in the Islands. I think it will be good for the medical practitioners to adopt a code of ethics and codes of conduct. I think that it could help in preventing malpractice and other such things in the medical profession. However, I believe, Sir, that the amendments should be further strengthened and that the Board should not just be allowed to give advice. I think that if they are going to adopt a code of ethics, it should be quite for members which can be used for disciplinary action. Unless the Regulations provide that this code of ethics, whether it be the United States code, the British code or the Canadian code if and when it is adopted, if broken will engender an offence, then like amendments be useless. If will like Hansard can say, Sir, is to advise members that they have to abide by a certain code of advice or code of conduct, I do not see where it will really help in improving the quality of care.

I think that it should be part of the licensing procedure that when one applies from Cayman as a health professional, one agrees to adopt these rules of discipline, or code of ethics as it may be. It should not just be that the Board only has the power to give advice.

So with these few words, Sir, I support the amendment. However, as I said I will abstain from voting, Sir.

Thank you.

MR. SPEAKER: Does any other Member wish to speak? Does the mover wish to exercise his right of reply?

MR. LEWIS A. DAVIS: Yes, Mr. President, I would like to thank the Senator who spoke and all those others who supported it by their voluntary.

In respect to the point raised by the Majority Member from North Side, it was my first reaction when reading the bill to agree with him. However, as I read a little further I realized that section 8 places the Board responsible for disciplining professionally the registered practitioners. Section 10 sets out in detail the procedure of disciplinary proceedings and on reading I found that this is the way that the disciplinary procedure would be most appropriate. So, I am satisfied that this is a good beginning and a great step forward where we are at the moment. The deficiency at the moment seems to be that there is nothing to say to the practitioner what he expects of him in his profession in the Cayman Islands. We are blessed in that we can draw from the experience of many other countries and embody them, as a code of ethics and conduct for the Cayman Islands.

So I believe that it is a great step forward, and again I thank Members for their support.

MR. PRESIDENT: The question is that a Bill entitled a Bill for a Law to amend the Health Practitioners Law be given a Second Reading.

SECRETARY: AYES AND NOES.

MR. D. EVANS MYLES: May I have a division please?

MR. PRESIDENT: Will the Clerk please....

DIVISION NO. 11

AYES	NOES	ABSTENTIONS
Hon. Dennis M. Foster		Mr. S. Haig Bodden
Hon. Michael J. Gompertz		Mr. D. Evans Myles
Hon. Benson O. Ebanks		
Mrs. M. Norma Bodden		
Hon. Capt. Charles L. Kirkconnell		
Hon. Vincent G. Johnson		
Mr. W. McKeeva Bush		
Mrs. Zephna D. Conolly		
Mr. Rolford A. Pierson		
Hon. Aubrey G. Kirkconnell		
Mr. John D. McLean		
11	0	2

CLERK: Twelve ayes, no noes and two abstentions.

MR. PRESIDENT: Could you read those numbers again?

CLERK: Twelve ayes, no noes and two abstentions.

MR. SPEAKER: I do not think that that can be right because there were two Members not present and not noticed. I think it ought to adjourn again and the proceedings and so much of I have omitted correctly. I do not think that the Honourable Third Official Member was present, and certainly the First Elected Member for Nairobi West was not present.

CLERK: You are correct, Sir. The Honourable Third Official Member was not present. Yes, Sir.

MR. SPEAKER: I think that it is better again and the adjournment as I ordered it. In any event, however, the motion is carried.

BILL GIVEN A SECOND READING

MR. SPEAKER: I think that it might be convenient if we took our normal adjournment break. So I will suspend proceedings for approximately fifteen minutes.

AT 3.17 P.M. THE HOUSE ADJOURNED

SITTING RESUMED AT 3.42 P.M.

MR. SPEAKER: Please be seated.
Bills. Item 7(1)(b).

THE MAINTENANCE (AMENDMENT) BILL, 1986

FIRST READING

CLERK: THE MAINTENANCE (AMENDMENT) BILL, 1986.

MR. SPEAKER: The Bill entitled a Bill for a Law to amend the Maintenance Law (Revised) is deemed to have been read a First time and is set down for Second Reading.

SECOND READING

CLERK: THE MAINTENANCE (AMENDMENT) BILL, 1986.

HON. ARTHUR O. ANYANG: Mr. President, I beg to move the Second Reading of a Bill entitled a Bill for a Law to amend the Maintenance Law (Revised). The Memorandum of Objects and Reasons, Mr. President, Sir that this Bill seeks to increase the amount which may be ordered to be paid under section 5 of the Maintenance Law (Revised).

Under the provisions of the Maintenance Law (Revised) as Members are aware, this is an all-embracing Law and there is an obligation for children to be maintained, and children to maintain other persons such as parents and grandparents in certain circumstances.

MR. BESSE D. SIMMONS (CONTINUING): There is also provision made for the Secretary, for persons entitled to receive such reimbursement payments to speed up enforcement of these payments through the courts. At the moment the maximum payment capable of being ordered through the courts is set at $50 per week. For some time this has been considered inadequate both by the courts and the Institute and welfare departments, especially in the light of today's cost of living. So the purpose of this clause including Bill, Mr. President, is to give to the courts power after investigating the needs of the individuals involved when the reimbursement order has been or is about to be made, to increase such payments up to a maximum of $60 per week in respect of each person who may be entitled to maintenance benefits under the order.

I would like to stress, Mr. President, that this is a maximum. It is not a compulsory maximum, and the order might only be made after careful enquiry is made into a person's ability to pay.

With those remarks, Mr. President, I commend this short amendment to the responsible consideration of Members. I would only add that the Bill be considered a reasonable régime by those responsible for administering this type of aid or payment, or whatever one wishes to call it. This correction is adequate and supports the régime of Bill.

I thank you.

MR. PEPPITONE: The question is that a Bill entitled a Bill for a Law to amend the Maintenance Law (Revised) be given a Second Reading. The motion is duly open for debate. The Third Elected Member for West Bay.

DEBATE ON SECOND READING

MRS. GEORGIA I. QUESTEL: Thank you, Mr. President. I rise in support of this Bill, Sir. In fact I stand here to represent those unfortunate women of this country who have been saddled with the responsibility of maintaining children when the fathers, many of them are unknown they have, to be honest, lewd or otherwise, and forget that they were an integral part in those children being born to this world. I feel, Sir, that this increase in the amount of money being sought here, as was outlined by the Honourable Elected Member of Education Council, might be a difficult sum for some men to raise if they had one, three or maybe four children, especially if they had children living in a home with them and then they had to be responsible for maintaining children outside the home. However, the Member has explained that the courts would look more into each person's ability to pay the maintenance thereto. So perhaps those might be some who might not be able to pay the $60. They might not be able to pay that amount of money that they received in wages or salaries during the month. However, in today's society it is a well known fact that both husband and wife work and if that child is in school from eight o'clock or 8:30 or 8:45 I do not know until

Mrs. Joanne T. Dusty (continuing): Mr. President, in today's society we must recognize that a woman can only do so much and no more. She has the care of the child at home. She has to watch over it. She has-to-use single tax welfare rather than financial needs, and I feel that it is only fair that the cost of this counting should be shared responsibilities and that this will be given a fair evaluating by those who are writing to this honorable house, realizing that there are many children and others today who are suffering because the mothers cannot because everything. In many circumstances, unfortunately, they are women who are not capable of giving and are making a big mistake. In fact more of them are leaving their small children that it is almost impossible for them to leave the home.

May since the Standing Fills on Social Services and Social Services Responsible that has a burden to help some of children while we have seen more and more there working their salary inadequate or unfair. Children are suffering. Mothers are suffering and government has to shoulder some responsibility which it should not have.

With these few remarks, Sir, I wish to say that I wholly support this Bill and I hope that the other Members of the House will give it an likewise.

Thank you.

MR. SPEAKER: Does any other Member wish to speak? Does the Honourable Member for Ste. Rose have right of reply? The Honourable Member for Ste. Rose.

MR. M. HARAPIAK (Ste. Rose): Mr. Speaker, I am more than happy to see Government taking this amendment and I quite it my support. In the Student Addresses and Throne Speech debate I had this to say which the Bill before us, and I quote:-

> "Another cause of disappointment to me is the Medicare. Less for this ministry. I would like to see this fiscal approved and attempt-showed to bring it more the line with the present day cost of living."

Sir, the amendment before us does do just that. It will increase the amount from a measly $80 per week to $90 per week. All of us in this country understand the high cost of living. If I have learned, every one of us is a family man. We have also mind to be as good by each. Mr. President, what an disgrace. Yesterday we say these poor people, who little more than there are. We know do not what the first thing about budgeting must be finished the giving rough.

What would $80 a week do for a child? This is long overdue, Sir, and will go a long way in helping those families whose fathers leave them without providing for them, leaving them in the money of the world and in the hands of the already overloaded Social Services Department in this province.

Many times, Mr. President, that not even bother to pay in for the $80. It is a sad criticism but, nevertheless, they did not pay. I have heard many of them say, "I cannot go through the hassle of the courts to get a measly $80". This amendment, I believe, will make them more happy. It is a substantial increase but it is the well needed one as I pay you to do. It will not only help those who have children but it will help the economy. I believe and I hope that I am not wrong here, of those people who are not receiving anything from husbands or who have left them unnecessarily.

MR. K. MAXTON DOUGH (CONTINUING): I remember well a case we had some time ago where I think her husband gave her kind of maintenance. She was there, Mr. President, telling the judge that her husband only gave her $50 a week or $55 a week if I can remember correctly. The judge told her that she had been living beyond her means and that the Court has no choice only really to give her $60 a week. The poor woman, Mr. President, had a problem with keeping up and the judge who did not seem to be hearing what she was saying. She replied, "Sir, but I am also working in this house".

Mr. President, that is the kind of chauvinism which exists. Where she was working hard to assist her maintenance. In case only getting her $55 a week. Under the Law he should really only have been giving her $50 a week but she also cooking in a hurry he owned. However, this is the case of our poor people when they go to court without any kind of representation. Maybe that is another area where we need to look strongly at.

Sometime, not to continue the debate on this Bill I give it my support. I do not believe it should where exactly it is not now. But for a second point I may that my Honourable have to March along reinforced the unacceptable kindness of the Government towards this section, but I am happy that the Honourable Former Electoral Member of Lacoustic Council has come for to bring the Bill and he knows that he has my support.

I thank you, Sir.

MR. SPEAKER: Unless any other Member wishes to speak I will ask the mover of the motion whether he wishes to exercise his right of reply.

HON. PRINCE D. FIDDES: Mr. President, only to thank Members who supported the Bill we I hope that Bill, both in speaking and by their silence. I hereby thank personally each that the Bill be put to the vote.

MR. SPEAKER: Be then move the question before the House is that a Bill entitled a Bill for a Law to amend the Maintenance Law (Revised) be given a Second Reading.

QUESTION PUT: AGREED. BILL GIVEN A SECOND READING.

MR. SPEAKER: Item 2(d)(v).

THE SUMMARY JURISDICTION (AMENDMENT) BILL, 1995

FIRST READING

CLERK: THE SUMMARY JURISDICTION (AMENDMENT) BILL, 1995.

MR. SPEAKER: A Bill entitled a Bill for a Law to amend the Summary Jurisdiction Law, 1973 be deemed to have been read a first time and be set down for Second Reading.

SECOND READING

CLERK: THE SUMMARY JURISDICTION (AMENDMENT) BILL, 1995

HON. MICHAEL J. HARRIGAN: Mr. President, I beg to move the Second Reading of a Bill shortly entitled the Summary Jurisdiction (Amendment) Bill, 1995. As Members will have seen from the copies of legislation which is to be laid to date at this meeting of the Legislative Assembly

MOV. MICHAEL J. MINOGUE (Newtownards): I rise about half of the clauses currently before the House, and the next Bill which is to be dealt to give a Second Reading to today or early tomorrow, contains similar provisions which seek to provide for the duties of persons appointed as Court Marshals within this Law and under the Crown Court Rules.

It is the intention, Mr. President, in due course to propose a similar short amendment to the Courts Act to provide similar powers and duties of marshals in respect of that Law.

Mr. President, at the present time there are a number of duties to be carried out by officers which are presently carried out by officers of the Royal County Police Force. As a result of a reorganisation of the police force and of the duties of police officers, it was decided to a matter of policy that instead of there being police officers in attendance, that there should be an exercise of the powers which are contained in section 19, subsection (2) of the Summary Jurisdiction Law, and similar provisions in the other Laws, empowering Court Marshals to carry out those duties which the police officers formerly had in the courts when the courts were sitting.

The necessity for this short amendment to the Summary Jurisdiction Bill and for the amendments which will be also necessary to be brought before this House to the Crown Court and the Court of Appeal Laws, is that whereas by virtue of these officers whose constables have got certain other powers, whether the provisions and the amendment which this Bill seeks to make, the constables appointed as marshals of the court would not have those powers. It is in order to facilitate the retirement of police officers or other duties and to substitute, parallel with similar powers, that this and the other provisions in the other two Bills which will come shortly are necessary.

As Members can see, it seeks to add a new subsection to the Summary Jurisdiction Law to provide that a person shall hereafter appointed as a marshal, in addition to the powers and duties conferred on him by the courts, be under the Summary Court Rules specifically have the power to administer oaths to witnesses on all matters before the court or in connection with any proceedings pending before the court, and either the jurisdiction of the court out the order or discretion of the court, the power to maintain order in whatever manner to take any person into custody and detain such person until the rising of the court. Whereas persons appointed as marshals shall have all the powers and immunities of justices appointed under that subsection which gives the court the power to appoint justices.

MR. PRESIDENT, this, I think, is a proper step to enhance the duties of the duties where they are confined so that they can be given duties of other people. I think, Mr. President, that no Member here will have any quarrel with this or the similar provisions. It enables the police to do their other duties. It gives the persons appointed as marshals in the court the same powers as the policemen have before, and I commend the Bill to the Members of this House. It has not with the approval of the Judiciary.

Thank you, Mr. President.

MR. SPEAKER: The question is that a Bill entitled a Bill for a Law to amend the Summary Jurisdiction Law, 1975 be given a Second Reading. The motion is open for debate. The Hon. Elected Member for West Isle.

DEBATE ON SECOND READING

MR. W. MACKENZIE BOWELL: Mr. President, this Bill before me I believe is asking for the unanimous, as I understand it, of the House for the second reading. If I am wrong I will give way to the Honourable Second Official Member and he can explain it to me. I find it hard to support this Bill. I realize that we are a dependent country. We have about 100 police I believe but I cannot understand it, Mr. President, why all of those years the police have been carrying out those duties with no extra cost to Government, no additional expenditure, yet all this will be necessary, more money to come asking for in November. I cannot support this, Mr. President.

The police as I said have been doing this all these years, and if we had a reorganization then I believe that they could find time to do that. New management on the police force must manage it.

Mr. President, if there was something to be explained here some of the people we have there now, then I will more readily approve this Bill. I will remember last year being present a Justice, a Stipendiary Justice by the Bailiff of the court. I do not know where he got it, but you can believe that he was on Government time. This was during the campaign, Mr. President.

I cannot support it. So I said it will be calling for more money and more unnecessary. I say no.

MR. SECRETARY: Does any other Member wish to speak? Does the mover wish to exercise his right of reply?

HIS HONOUR THE PRESIDENT: Mr. President, I think the best answer for the ordinary contribution to the Second Reading debate on this Bill. I was asked to answer one specific question and that was whether this Bill merely be enacting appointments to the Civil Service. The answer, Sir, is that this Bill would not be making appointments but seeks to give powers to persons appointed for a reasonable term. The first and the particular burden this complaint is that instead of those having to be on shore at present, trained and qualified members of the police force who might be better and more suitably employed in other occupations doing the duties for which they are trained, these persons would be employed in the Courts by civilians on the same manner as civilians are employed in other jurisdictions. Thus it would be possible for law and order, procedure and decorum to be kept in the courts of this country by civil servants, leaving the police force free to do their other duties outside.

I would think, Mr. President, that instead of there being grave inconvenience to Civil Service personnel as has been alleged, that we would reap much of judicious appointments and of the system of employment of persons in so far as it might be properly used, that there will be a saving to and benefit to the Government of this country. The persons appointed as magistrates would be appointed, if they were to be appointed on judicial appointments, or if they were not that other persons could be brought in and employed as magistrate in the Civil Service in a part time capacity, for the hours of the day that the Courts are in session.

I consider, Mr. President, that this is not a retrogressive step, but a step forward leaving the police fully free to perform the duties for which they are primarily intended. Thank you.

MR. PRESIDENT: The question is on the motion to [illegible] this for a bill to amend the Summary Jurisdiction Law be given a Second Reading.

QUESTION PUT: AYES AND NOES:

MR. K. McKENZIE SMITH: May I have a division please, Sir.

MR. PRESIDENT: Will the Clerk please call a division.

BILL, STATE / SECOND READING.

Item #(iii)(d).

THE GRAND COURT (AMENDMENT) BILL, 1995

FIRST READING

CLERK: THE GRAND COURT(AMENDMENT) BILL, 1995.

MR. PRESIDENT: The Bill entitled a Bill for a Law to amend the Grand Court Law be placed on the Order Paper and be set down for Second Reading.

SECOND READING

CLERK: THE GRAND COURT(AMENDMENT) BILL, 1995.

HON. MICHAEL J. ECKERT: Mr. President, I beg to move the Second Reading of a Bill shortly entitled The Grand Court (Amendment) Bill, 1995.

Mr. President, this is a Bill which is another short motion having cut the jurisdictional limits in C.I. The first substantive clause is one which has already been debated in the Second Reading of the Summary Jurisdiction (Amendment) Bill, 1995, and that is a provision to provide under the Grand Court Law in

HON. MICHAEL J. HARRIOTT (Gibraltar): Mr. Speaker of matters and hearings of the Grand Court, the Bill has proceeded as far as it already received a Second Reading hearing in respect of the Rules (Amendment) Bill, 1968, in respect of the Summary Jurisdiction (Appeal) Bill, 1968, in respect of the Summary Jurisdiction (Appeal) Bill, 1968, in respect of the Summary Jurisdiction (Appeal

HON. MICHAEL J. MASTRIANI (CONSTITUENCY): Mr. President, Sir, when going the sections which are the subject-matter of this amending Bill have been brought to this House with the approval and the support of the Members, not only of the Leading Side of the Legal profession, I recommend this Bill to the favourable Members.

MR. PRESIDENT: The question to that a Bill entitled a Bill for a Law to amend the Penal Code Law be given a Second Reading. The motion is open for debate.

DEBATE ON SECOND READING

HON. C. RATU BOSEN: Mr. President, I am generally in support of the Bill, with the exception of section 21 which deals with the appointment of the members of the Fijian Committee. I find fault with section 21(1)(a). I agree with the Chief Justice today, the Chairman and the Attorney-General having a member only "who persons who are entitled to practice as legal practitioners before the Court, who shall be appointed by the Chief Justice". Anyway, I do not like further consideration with the Queen Islands Law Society", because we have in the Cairns Islands, I understand, some lawyers who are not members of the Law Society but who, nevertheless, would be worthwhile people to sit on this Committee. If the appointment is made by the Chief Justice only after consultation with the Law Society we might find that some of the outside who do not a member of the Law Society would probably rather be recommended for consideration on the Committee.

I would like to see the last two lines of subsection (a) deleted from the Bill so that the appointment would be of two persons who are entitled to practise before the Court, appointed by the Chief Justice. I submit, however, support the appointment being made after consultation with the Law Society.

MR. PRESIDENT: Does any other Member wish to speak? The Elected Member for North Side.

MR. S. SAKIASI MITIME: Mr. President, I would like to support the Bill for a Law to amend the Penal Code Law. I hope, Sir, that these rules will override the procedure and performance of the courts. I hope that it will help the the process of justice because I get a lot of complaints about how long it takes to get cases through the courts. I believe that justice delayed could well be justice denied.

I support most of the Bill, Sir, except that in section 21(a) I would like to see added after the words "approved by the Governor the Council", the words "and published". I think that it is only fair to let the lawyers know what the rules are before they go into court.

I support the Bill, Sir.

MR. PRESIDENT: Does any other Member wish to speak? Does the mover wish to exercise his right of reply?

HON. MICHAEL J. MASTRIANI: I thank my learned, Sir; I should like to thank the two Honourable Members who contributed to the Second Reading debate on this Bill.

In relation to the first Member who spoke, may I merely say that the amendment contained in the Bill is expected to overcome the mechanics of the present position which is contained in section 21(2) of the

HON. NICHOLAS J. BRADLEY (CONTINUED): present law which was the Grand Court Law (Law 8 of 1975). The law provided as this Bill does that the two legal practitioners shall be appointed by the Chief Justice after consultation with the Cayman Islands Law Society.

May I make two points in relation to this. First of all the persons who are entitled to practice shall be appointed by the Chief Justice. They need not be members of the Cayman Islands Law Society to be eligible for appointment. Secondly, the Chief Justice is obliged to consult with the Cayman Islands Law Society but the process of consultation does not necessarily mean coming upon the advice of the Law Society. In fact, Mr. President, the membership of the Rules Committee at present consists of the two persons ex officio, the Honourable Chief Justice and the Attorney-General, and Mr. John Stafford who is not a member of the Cayman Islands Law Society, and Mr. Frank Sutton who is. I feel that the powers of appointment have been examined fully in the past. I feel that it is useful for consultation with the only organised body of attorneys which there is in these Islands, and I am personally of the opinion that the phrase "after consultation" should remain in the Bill.

With regard to the suggestion made by the learned speaker on the right I have certainly no objection, subject to the wishes of my colleagues in this side of the House, to accepting a Committee Stage amendment to the effect that Rules of Court shall not have effect until published in the Gazette.

With those short remarks, Mr. President, I commend this Bill to Members of the House.

HON. PRESIDING: The question is that a Bill entitled a Bill for a Law to amend the Grand Court Law be given a Second Reading.

QUESTION PUT: AGREED. BILL GIVEN A SECOND READING.

HON. PRESIDING: I do not think that it is unreasonable considering on another Bill here. Perhaps the Honourable First Official Member may like to move the adjournment.

ADJOURNMENT

HON. DENNIS E. FOSTER: Mr. President, I move the adjournment of this House until 10.30 a.m. tomorrow.

HON. PRESIDING: The question is that this House do now adjourn until 10.30 a.m. tomorrow. Unless any Member wishes to speak I will put the question.

QUESTION PUT: AGREED. AT 6.30 P.M. THIS HOUSE ADJOURNED UNTIL 10.30 A.M., WEDNESDAY, 28TH MAY, 1986.

SECOND MEETING OF ONE HUNDRED SECOND
OF THE LEGISLATIVE ASSEMBLY

WEDNESDAY
22ND MAY, 1991

PRETORIA

23RD MAY, 1956

10.00 A.M.

MR. PRESIDENT: Please be seated.
Proceedings are resumed.

QUESTIONS BY HON. MEMBERS

MR. PRESIDENT: Before calling upon the Second Elected Member for George Town to ask the final question I should like to inform Members of the House on case any of them may not have already heard it, that the First Elected Member for Bolton Town was taken seriously ill yesterday; that he collapsed in Miami, Arizona and is, I think, still in Intensive Care in a hospital in Miami, although his condition is quite satisfactory.

I am sure that all Members of this House would wish that our colleague may have a rapid and complete recovery to be conveyed to him and to members of his family. I assume that that is the wish of the House and I will ask that arrangements be made for a suitable message to be sent.

QUESTION: The Second Elected Member for George Town.

QUESTION

HON. GEORGE TOWN SECOND ELECTED MEMBER: Will the Member state what efforts are being made by Government to provide employment for the growing number of unemployed?

ANSWER: Recent statistics from the Labour Office reveal that there is a decreasing number of unemployed. However, it is naturally Government's policy to offer every possible encouragement in order to encourage and attract development of new light industries and to expand existing ones.

The Department of Trade and Industry has taken measures to ensure that local businessmen make every effort to recruit locally before considering new applications for work permits.

Efforts are continuing to attract light industries.

SUPPLEMENTARY:

HON. LEONARD A. PHILLIPS: A supplementary, Mr. President. Would the Member state what efforts have been made recently to attract light industries, and what are the types of industries?

HON. E. ARMAS SCOTT: We have a committee, Mr. President, which is considering ways and means of attracting light industries such as pharmaceuticals and others by encouraging or taking certain advantages in regard to taxes, which will encourage outside industries to come here and our present light industries have as I have mentioned, oil pharmaceuticals and others which are non-polluting.

MR. ROBERT A. STRONG: A further supplementary, Mr. President. Could the Member state the number of individuals unemployed from the latest statistics available, whether that was at the 30th April or thereabouts?

MR. PRESIDENT: I really think that if the Member wanted detailed information of that kind it should be sought in a substantive question. However, if the Member can answer I will allow him to do so.

HON. R. KOSHY GEORGE: Yes, Sir, I anticipated that there would be some supplementaries of this nature and I am able to answer this. I think that the Member is referring to my question of the answer which deals with, "the Labour Office record that there is a considerable number of unemployed". He did a labour survey on February of this year. At that time based on the number of unemployed persons who registered, the number was 176. The unemployed commanding to the Labour Office on 30th April was 114, and I am told that 70 per cent of these 114 persons are in the manufacturing field and I recognise most of these might be absorbed in the new projects of the new Steel which are been started.

MR. C. JOSEPH GEORGE: Mr. President, the Member mentioned that advertisements have been put in several publications. I would ask if the Member will tell us what publications have been used?

HON. R. KOSHY GEORGE: Sir, President, I did not say that advertisements had been made in several publications. I specifically said a newspaper which was commanding circulation in the Trichur district.

MR. C. KOC JOSEPH: In that case, Mr. President, can I ask what publications will the committee advertise in?

HON. R. KOSHY GEORGE: These publications have not been published to the committee as yet. There are one or two individuals who will be making recommendations as and when needed.

MR. PRESIDENT: As I think that there is no further supplementary I will invite the General Electric Member from Kerala Hour to ask the next question.

THE SECOND SUPPLY MEMBER FOR GENERAL WORK IN THE ABSENCE FIRST SUPPLY MEMBER OF EXECUTIVE COUNCIL

*70. (a): Would the Member state whether the reported escape of certain inmates in the Mavelikara Prison have been ascertained fully and whether the proper precautions have been made to prevent other prisoners from escaping like this?

ANSWER: There has been only one such case. At the present time there is no available cage for keeping, but the problem is satisfactorily solved. The technical department has advised that there should be no need of any other permanent contractor to fix up here.

SUPPLEMENTARY:

MR. C. ACHU JOSEPH: Mr. President, can I ask if this officer's power to employ technical facilities with other prisoners?

HON. DEWAN R. RAGHAVAN: The answer is no, Mr. President.

MR. PRESIDENT: As I think that there is no further supplementary, question No. 58.

THE CHAIR RECOGNIZES MARQUIS FOR QUESTION NO. 58 FOR THE PARLIAMENTARY SECRETARY TO THE MINISTER OF EXECUTIVE COUNCIL.

NO. 58: Would the Minister state whether any consideration has been given to the advantages of adopting Daylight-Saving time and whether he can expect this to be introduced?

ANSWER: Considerations are given to adopting daylight-saving time in the late 70's and at that time it was considered that there were no overriding advantages to be gained by the introduction, but the position will be kept under review.

SUPPLEMENTARIES:

MR. LEONARD M. FIRESTONE: Supplementary, Mr. President. Would the Member state whether any study or survey has been carried out which was carried out in the 70's, to determine the reaction of the private sector to the introduction of daylight-saving time?

HON. DENNIS A. FOURIS: No, Mr. President, I do not think the matter has been gone up since being asked, Sir.

MR. LEONARD M. FIRESTONE: Mr. President, a supplementary. In view of the answer given to the primary question that the position will be kept under review, would the Member advise when we can expect to get a report and I mean recent review of this question?

HON. DENNIS A. FOURIS: Mr. President, what I hope to do is I think daylight-saving time in the States starts sometime in April and ends some time in October of I am not mistaken, Sir, so I would want first prior to that date we are sure in the midst of it now, get that information perhaps to give something in the newspaper where we can get a feed back. After that the Government can make a decision.

MR. C. RAFE FOSTER: Mr. President, can I ask the Member if he will make the survey as soon as possible whether that leaving it to April? The reason for that is that if we leave it until April it will be necessary to adjust all the airline schedules and get them printed. So could he do the survey as soon as possible?

HON. DENNIS A. FOURIS: Yes, Mr. President, I will.

MR. PRESIDENT: Unless there is any further supplementary we can move on to question No. 59. The Second Elected Member for West Bay.

THE SECOND ELECTED MEMBER FOR WEST BAY TO ASK THE HONOURABLE SENIOR OFFICIAL MEMBER OF EXECUTIVE COUNCIL

NO. 59: Would the Member state whether there is any outstanding debt owed to the Customs Department from the period 1st November to 31st December, 1964, and 1st January to 30th April, 1965, and, if the answer is in the affirmative, would the Member state the amounts due for those periods?

SPEAKER: The procedure for the collection of import duty is as follows:

(1) Duty is paid when goods are cleared.

(2) In the case of large weekly importers, a deposit is placed with the Government equal to the duty on goods imported.

This latter procedure allows importers and other large importers to clear their goods speedily, reconciling later with the documentation as formally given the goods and pay the duty.

SUPPLEMENTARIES:

MR. W. MASIPINA NIUE: A supplementary, Mr. President. Would the Minister say what sort of time limits he gives to those people to that they can pay?

HON. ISAIAH S. LEOPONG: Mr. President, he seems to already have the money. It is just a matter of the large importers informing the documentation to return to the Customs Department and those that deposit against the duty payable.

MR. U. MOKOVA SUES: Mr. President, I do not know if I am hearing right but I still do not think that my question has been answered. The question says what analysis does the Government have. All I have been told with respect, Sir, is the procedure. My question is what is the amount? There should be a supplementary. Are there any other people besides the large importers? I think unfortunately were mentioned.

HON. THOMAS S. SAEMANE: To the best of my understanding, Mr. President, there is nothing else.

MR. MICHAEL A. SISIOKO: Supplementary, Mr. President. I wonder if the Minister could specifically state the amount which was outstanding. My understanding of it may have this clarification, Mr. President, is that if the money is in dispute it do not actually form part of Government's revenue until it is paid into Government's revenue. It is just held in deposit. Could the Minister state specifically the amount outstanding at the period stated in the question?

HON. THOMAS S. SAEMANE: Mr. President, it is difficult under the procedure to say at any particular time what amount is outstanding within a month, or within a period of three or four months. The procedure is such that Government is always in the favourable position because it has a deposit equal to the duty which is later cleared by documentation.

MR. U. MOKOVA SUES: Supplementary, Mr. President. I wonder whether the Honourable Member would give me an undertaking that he would at least supply me with information as to the amount which is due as of this period, in other words right now the 22nd May?

HON. THOMAS S. SAEMANE: I can easily give that undertaking, Mr. President.

MR. PRESIDENT: The Chair recognizes the Senator from Minot.

SEN. D. ROBERT KELLER: Would the Member state whether the amount in dispute is the actual duty or some sum over the actual duty?

SEN. THOMAS C. DOSPOROUS: It is the majority of these, Mr. President if I am not a half-dozen the duty payable.

SEN. D. ROBERT KELLER: Mr. President, a further supplementary. Can the Member say how many ship consignments are back on warehouse?

SEN. THOMAS C. DOSPOROUS: Mr. President, I cannot think I have them in the warehouse.

MR. D. ROBERT KELLER: A supplementary, Mr. President. Did the Member state that there was actually no duty outstanding at the time?

SEN. THOMAS C. DOSPOROUS: Mr. President, given the procedure it is quite clear that it is difficult to say that there is no duty now, because even the duty which is claimed, as we are hearing both these things they are subject to rebates. If a rebate is made and the importer pays $100 rather than $150, there is $50 due.

SEN. LINFORD A. PETERSON: Mr. President, is the Member stating specifically that he does not have objection or his views to any duty which is owing?

SEN. THOMAS C. DOSPOROUS: No, Mr. President, that is not what I am saying. Under the procedure it is difficult to ascertain whether a few days now provide all the details. That is all that I am saying.

SEN. D. ROBERT KELLER: With respect, Mr. President, this question has been in quite a few days now, and if the Member is suffering, in the question, some lack, I think, on this, as the Senate has given an undertaking that he would supply the bill; on receipt of verbiage I am satisfied, Sir.

SEN. THOMAS C. DOSPOROUS: Mr. President, with due respect I was not referring to the Second Senator Minot for three day. Actually what I am referring to is that the amount of time given to the Department to look into details on an annual fourth period.

MR. PRESIDENT: Question No. 64.

THE SECOND SENATOR MINOT HAS NOT GONE TO ASK THE HONOURABLE MINISTER RESPONSIBLE FOR EXECUTIVE COUNCIL REQUIREMENTS FOR DEVELOPMENT AND INTERNAL ASSOCIATES.

QUESTION: Would the Member state what the position is with respect to the Cayman Turtle Farm now that the Government of Jamaica has withdrawn?

ANSWER: Honourable Minister responsible for Finance of the Cayman Turtle Farm Ltd. (CTFL) at its meeting in September of last year, explained the farm's marketing problems. Consequently, which subject to the approval of the Legislative Assembly, were to keep the operation going and promise to abandon possible at that it may prove an economic venture in the near future.

Areas of Department mentioned were:

(i) Tourist attraction. Over 50,000 visitors go to the Zoo yearly and this or present provided the main source of income. However, considering this number is only of surprising income. The Board will consider a number of areas which can provide additional attractions.

(ii) Provide more meat for the local market. Which Lusaka being a Copperbelt people find and a meat with the lower cholesterol, mineral should increase significantly if the products be available.

(iii) Produce a second generation breed. This is possible in the near future and such a development would legally provide CZSZ modern countries, including the United States of America, to help the ban against the Zoo's product.

The Zoo can rightly be considered as in of national importance and therefore the reason to not only keep the Zoo alive but promote the operations largely for the benefit of the country.

SUPPLEMENTARIES:

MR. CLIFFORD A. PINFOLD: A supplementary, Mr. President, I wonder if the Member could tell us some whether there is any intention to invite a report on the outcome of the CZSZ conservation in Livingstone?

MR. PAUL G. SOMMERS: Mr. President, the report was tabled with the Secretive Council on the same day I returned to office. It is entirely up to Secretive Council if they would like to table that report here.

MR. CLIFFORD A. PINFOLD: Mr. President, with respect, Sir, as a matter of requirement as the Chitly Zoo should not this honourable House be privy to this reports?

HON. PAUL G. SOMMERS: Mr. President, following the tabling of this report in Secretive Council press release were made alerting the public of those interest who were very interested on the matters and they figure of the Zoo of the question. However, as I said before I have no prerogative over the discretion of Secretive Council, now it is entirely up to Council if they would to table the report here.

MR. CLIFFORD A. PINFOLD: Mr. President, if it was by right, Question that I would have thought that what a Member as Represent as the Chitly Zoo that the Members of this legislative Assembly should have as much right to view that report as Members of Secretive Council, there indeed it is time the status of zoo to make up the legislative Assembly.

MR. SPEAKER: The Member must ask a question, not make a statement. I do not think that was a supplementary. I think it was a statement, it could have been termed that a supplementary quite easily.

MR. EDWARD A. DILLON: Mr. President, my apologies on that. Would the Member give me the understanding that the report will be distributed to this Legislative Assembly at the next sitting of the House?

MR. ERNEST C. MANNING: Mr. President, I will submit the request to the Executive Council, Sir.

MR. E. GRAND MILLER: A supplementary, Mr. President. Would the Member state what effort he made to solicit support among other members before the conference?

HON. ALEX H. HARRIS: Mr. President, when the new Government took office in November we reviewed many other submissions looking for necessary action, the Pointe Pleasant case being one of those. At that time we went ahead to appoint legal representation and this was followed by a programme of the Dupont Colonies to assist the appeal through lobbying of some of the Ottawa members and the committee of the two Houses. We received very good support from three quarters who were of some concern to us; sometimes you might not have been getting their support to the extent you would. So we were fairly sure that we had gained some support from those sections. This was followed, Mr. President, by a very strong programme in Edmonton. We had a very strong Ukrainian team which we joined there, and this team along with our legal representatives formed a working body. We worked night and day because we determined at that time that the cause was going to be a very difficult one to undertake and therefore earned the confidence.

Mr. President, we also went as far as to arrange a social gathering of the delegates. We had around 100 delegates in that period. They came all very friendly to us, also the Edmonton delegate, and we thought again that we had gained confidence from that particular activity. I can assure the Member here, Mr. President, that no stones were left unturned in getting Premier Ross and Mr. Hepburn -- those who were strongly opposing our point -- that the Crown Pointe case had not all the evidence laid down by Ottawa for a resettling proposal.

MR. G. RAY SPEECH: Mr. President, as the proceedings of Ottawa are usually open to the press and the proceedings are usually published afterwards, can I ask the Member why the Executive Council has withheld this report so secretly?

HON. ALEX H. HARRIS: Mr. President, as far as I am aware the minutes and proceedings of Ottawa are available only many months after the meeting.

MR. G. RAY SPEECH: Mr. President, can I ask the Member if the press was represented at the conference?

HON. ALEX H. HARRIS: Yes, Mr. President, there were many members of different agencies and newspapers at the meeting. The Edmonton newspaper covered articles about the Dupont point on this.

MR. STEPHEN A. STEFFE: Supplementary, Mr. President. In view of the Member's apparent reluctance to make a report to the Legislative Assembly on the outcome of the Edmonton Ottawa meeting, I wonder if the total body of this Legislative Assembly will be future be canvassed to approve supplementary expenditures on this Pointe Pleasant

HON. MAGGIE G. JOHNSON: Mr. Speaker, as for the case of Cayman Airways Ltd. surely this property of the Cayman Islands Government. When proposals are put forward later for financial assistance the Members of this Legislative Assembly will have to consider these proposals responsibly. It is not an private body which we are dealing with. It is an undertaking of the Government and people of these Islands.

MR. RICHARD A. PEARSON: Mr. Speaker, this is precisely why I am asking for a report to this House, because it is owned by Government.

MR. SPEAKER: The Member must ask a question.

MR. GILFORD A. PEARSON: My question is coming, Mr. Speaker. In view of the answer which the Member has given, how can we reasonably be asked to approve supplementary expenditure on the Sunset Fund if we cannot be given a report of a meeting which the Member attended in Argentina which dealt primarily with the customs for the Turtle Farm.

HON. MAGGIE G. JOHNSON: Mr. Speaker, in his first place the report which I referred to a while ago was my own personal views of the outcome of CITES, together with our participation at that meeting. The formal report of CITES is a document which is issued by the Convention itself. If my report, on what I have presented to Executive Council is required to be laid on the table of this Honourable House then I have no objection to do it. Mr. Speaker, because what I have said to Executive Council can be said to this Honourable House and to the entire population of these Islands.

MR. GILFORD A. PEARSON: Mr. Speaker, could the Member state whether the personal report differs substantially from the actual proceedings of the CITES meetings; the reports be made to Executive Council will form an integral part of the whole report which he will produce?

HON. MAGGIE G. JOHNSON: Mr. Speaker, as I am duty on the table of this Honourable House the report which I have made privately and whenever the formal reports be received from CITES I can also lay that on the table. If that is the wish of Members I do so with the permission of Executive Council.

MR. GILFORD A. PEARSON: Mr. Speaker, a supplementary. As the leader of the delegation which went to Argentina, is it fair for us here in the House to assume that he would have brought back an official report of the happenings of the CITES conventions?

HON. MAGGIE G. JOHNSON: Mr. Speaker, it is a matter of what we are referring to as a formal report. I said that I have submitted my own personal report as leader of the delegation, and that the formal report ultimately to the proceedings before CITES will be presented by CITES and reviewed at some time in the future. If that is required to be laid before the House that can also be done.

MR. SPEAKER: I think that we had probably better move on to the next question, otherwise we will remain to complete the questions. The second Starred Number for this Day, Question No. 22.

AN RECORD SHOULD MEMBER FOR HOLY WAY TO ASK THE HONOURABLE LEADER OF EXECUTIVE COUNCIL RESPONSIBLE FOR TOURISM ATLANTIC ...SO TRADE.

MR. SS: Would the member state whether the Secretariat and Research report was accepted by Government?

(NONE): As far as I can ascertain this report was never formally accepted by Government since it was presented in 1981.

QUESTIONS:

MR. D. RICHARD MILLER: A supplementary, Mr. Speaker. Could the Member state if the consultants were paid the full contingent price for the report?

HON. M. DONALD DOYLE: Mr. Speaker,...

MR. SPEAKER: I think that there is another question over there. I am certainly aware that there is a rule against anticipation. The question is not clear for today but the Second Elected Member for West Bay has submitted a question about the cost of the report.

MR. D. RICHARD MILLER: I was not aware of the question.

MR. SPEAKER: The Second Elected Member for West Bay? I am not sure whether you are trying to catch me out or not.

MR. M. MCKEEVA BUSH: Yes, Mr. Speaker, I believe that I have a supplementary but I am trying to check back on the Business Paper I have. A supplementary, Mr. Speaker. Would the Member state whether Members of this House will be able to see a copy of this report?

HON. M. DONALD DOYLE: Mr. Speaker, I believe that this is similar to a question which has also been put on by the Member.

MR. SPEAKER: I was trying to find my copy of... Oh, I have not had this yet. For as much supplementary question there. Would the Member state when the Secretariat and Research report will be made public? I think that what you were just saying is correct and we would be really anticipating what you have yet done for answers anyway.

MR. M. MCKEEVA BUSH: Mr. Speaker, he could answer it now, that would save us some time next time.

MR. SPEAKER: No, I think that as you have just a question just there, and I am sure that there is a misapprehension which I have not looked to yet, to find how well would the question be asked. It is on Business Paper No. 2 I see, though I do not think that I have had a copy of Business Paper No. 2. The Business Paper No. 2 been circulated to Members yet?

HON. DENNIS A. FOSTER: Mr. Speaker, I believe so. Yes. It was circulated yesterday afternoon.

MR. SPEAKER: Well, I was disinclined against that, because I have not had it. Each Member has Business Paper No. 2? Yes. Alright, I will consult the Clerk later. Have not had the time

MR. DANIEL P. MOYNIHAN: My apologies if your hour has been kept short. Then we will get how one might speak.

MR. SPEAKER: I have carefully been at that I do not seem to have one. So, is there any further supplementary? Yes, the Elected Member for North Side.

MR. D. EARLE ANDERSON: Could the Member state how it is possible for Government not to accept a report which it has commissioned to receive at a price?

MR. M. MICHAEL MANLEY: Mr. Speaker, I am not too sure I can reply to that as it is possible for the report not to be accepted. What I envisage if a report being accepted by Government is if Government considers a report to be unsatisfactory. I imagine that there is a formal presentation to Government and Government at that stage decides whether they will accept the report, not unreasonably because they will implement all of the proposals. However, it is my understanding that the way in which this particular report was being presented to Government being part of Economic Council which is the official side placed up to the Meeting. Consequently the report then was placed on the Secretariat of Economic Affairs and Trade.

MR. W. MORRISON BUSH: A supplementary, Mr. Government...

MR. SPEAKER: Sorry? I do not think I heard you right. Elected...

MR. W. MORRISON BUSH: Supplementary, Mr. President. So the Government do have the report. Am I to understand that they do have a copy of the report.

MR. M. MICHAEL MANLEY: Yes, Mr. President, they have personal copies.

MR. W. MORRISON BUSH: At least, Mr. President, I was not personally to give us a report.

MR. SPEAKER: Gentleman! I think perhaps we had better move on to the next question. The Elected Member for East End.

THE HONOURABLE MEMBER FOR EAST END AND THE PARLIAMENTARY SECRETARY MINISTRY OF AGRICULTURE, FISHERIES AND CO-OPERATIVES AND RURAL DEVELOPMENT

QUESTION 55: Will the Member state why the decision was taken to discontinue delivery of animal feed from the Department of Agriculture to farmers throughout the Island?

ANSWER: No decision was taken to discontinue the delivery of feed to farmers throughout the Island. This practice was done on a voluntary basis and need in the past and is still being continued, but not with the regularity as before.

The reason being that the Department has been unable due to the severe drought which we have been experiencing over the past several months also from the Department's inability to keep their vehicles under normal conditions.

The warehouse was being kept unstaffed for extended periods when staff were also making deliveries. This inconvenienced farmers who had to make unnecessary visits to the department before obtaining supplies. Warehouse staff were told not to make any commitments to deliver feed during this busy period, just to encourage farmers to collect their purchases. This was to ensure that the warehouse remained open to immediate customers.

QUESTIONS:

MR. JOHN B. KELLY: Mr. President, it is not a supplementary but I hope that you would permit me to say that although I am pleased to hear from the Minister that this has not been discontinued, this merely was not what was said to me when I called at the Department. No apologies were given for that. However, I am happy to know that this service will be continued.

MR. LINCOLN A. PINCOCK: Mr. Speaker, just a supplementary for clarity, Sir. The answer stated that this practice was done on a matter of courtesy and need. Would the Member state whether it was done on a matter of courtesy or on a matter of need? You cannot have both.

MR. WILLIAM G. DOMINEY: Mr. Speaker, this is one time that both applied, courtesy and need because of the long drought which significant farmers over the past period of time only one cent or so. We did not have sufficient staff or warehouse accommodation to support large quantities of feed or to provide the warehousing assistance to many people on the warehouse while delivery was made. There are only two staff there as far as I understand. So, we had to do both on a matter of courtesy to buy up children some feed, and at the same time loose the staff in the warehouse to attend to those other farmers who were coming there to pick up their feed.

MR. JOHN B. KELLY: Mr. President. I wonder if the Member could say when this practice was first started? Was it since the drought this year or when?

MR. HAROLD G. DOMINEY: Exactly what practice, Mr. President? I am not too sure.

MR. JOHN B. KELLY: The Member's answer, Sir, stated, "this practice was done on a matter of courtesy". I am talking about the practice of delivering feed to the farmers.

HON. HAROLD G. DOMINEY: Mr. President, as far as I am aware this practice was in force before my time as the Member for the Bonavista.

MR. G. MIKE ADAMS: Mr. President, yesterday in the Member was questioned during the routine drought. Can I ask the Member why the deliveries were not increased rather than curtailed, since we would be the logical thing to do in a drought.

HON. HAROLD G. DOMINEY: Mr. President, if the department had staff at the department then deliveries could not have been curtailed. I explained that before.

MR. D. EDWARD HILLS: A supplementary, Mr. President. Could the Member state whether this question of following food is static? Is it new?

SEN. EARL S. JOHNSON: Mr. President, that is correct. It is a new service offered by the Department.

MR. RAYMOND A. SPEARS: Mr. President, a supplementary. Would the Member kindly explain briefly if she weighed on the balance if she decided to advertise the delivery of cooked food to persons through out the Island, or whether if she decided that to encourage the aged, would have Social Security?

SEN. EARL S. JOHNSON: Mr. President, I think that Government has given consideration to provide the food and sell it to persons at a nominal price. The delivery of the food actually whether persons is for us I have when we went to buy sandwiches from the airline we go there and buy it. So, perhaps one also suggested to go to the Agricultural Department and pick up their food. We did it as a matter of courtesy in some cases, Mr. President, where it was difficult for some persons to come and get the food.

MR. JOHN A. MALLERY: Mr. President, I wonder if the Member would say whether he is aware that this is one of the things which was done some time ago to encourage farming in these Islands?

SEN. EARL S. JOHNSON: Mr. President, anything which we do in the Agricultural Department is a matter to encourage farming in the Islands. The Government spends quite a lot of money in the Department to provide various facilities and supplies namely to necessary agriculture in the Islands.

MR. LAWSON A. PAIVINE: Mr. President, the Member stated that it was the practice as a matter of courtesy. However, from the answer he has just given it would appear as though it was a policy of Government. Would the Member state whether this was in fact a policy of Government, or just a courtesy of the Department or the Secretary?

SEN. EARL S. JOHNSON: Mr. President, let me say this, Sir, I have conferred with my policy in the Agricultural Department in the same manner that I have been there. Whatever the question is asked, that is what I stand there.

MR. SPEAKER: I think that we had better move on to the next question. The Elected Member for East Sepik.

QUESTION NUMBER 208: ASST SEC TO ASK THE PROVINCIAL AFFAIRS OFFICER, HEADQUARTERS OF EXECUTIVE COUNCIL INSPECTORATE FOR COMMENTATORS NAMES AND STATIONS ARE STATIONED

NO. 57: Would the Member state what steps have been taken as a result of the recent meeting held which the staff of Public Works Department, and himself, concerning working hours and the Association out to Wapoa, and have they been informed thereof?

ANSWER: There were no steps taken to reduce the working hours, as it is being proposed, from 44 to 40 hours per week at the Public Works Department. Therefore, there was not an weekly wages of the employees and it was not necessary to inform the Minister.

SUPPLEMENTARY:

MR. JOHN B. McCLELLAN: Mr. President, as a result of the recent events, would the Senator say whether he feels that it would be better to enlighten the staff of what he have just put forward to us, other than this hanging over their heads?

SUPERINTENDENT OF PUBLIC BUILDINGS: Mr. President, the Chief Engineer of Public Works has the duty of employing the staff, that there is a change. There has been no change and I am not involved on the day to day operation of Public Works Department.

MR. JOHN B. McCLELLAN: Mr. President, I appreciate what the Senator has said, but as he is aware this matter did go a little further than the day to day operation of the Director of Public Works Department. So as to put in his opinion better for me to move this amendment now and for all matter there to have to hanging in the air.

SUPERINTENDENT OF PUBLIC BUILDINGS: Mr. President, I think what the Member is saying to enhance is that plans have to be made for when the funds supposed have been exhausted. In reply to his question I will answer that, Sir, because we are making plans now to submit a supplementary request for funds to carry us from the 1st September. The funds which we have left to implement the Public Works Development are now working on a supplementary request for funds which I will have to submit to the Honourable Financial Secretary, and he in turn will have to submit to the Finance Committee for their approval.

MR. JOHN B. McCLELLAN: Very well, Mr. President, I am very glad to hear this. I hope that this is going to work out as there hanging about, and I hope that a result of this answer today that the Member will undertake to direct the Director to get on to the staff.

MR. PRESIDENT: Order, order. The Member must not make statements. I thought that he was going to ask a supplementary but I was caught out. He may possibly have the time to ask his last question; but if you ask question No. 58 quickly we might get ... his answer. Sir.

THE ELECTRIC POWER FOR EACH END OF NEW TOWN DEVELOPMENT SCHEME OF ELECTRIC POWER

58. Q.S: Would the Honourable Member state the amount of revenue collected from 1st January, 1965, to 31st March, 2005, giving comparable figures for the same period for 2004?

ANSWER: The total revenue collected from 1st January to 31st March, 1965, was $78,956,400 compared to $78,237,787 for the same period in 1964.

SUPPLEMENTARY:

MR. C. MATS SMITH: Mr. President, may I ask how the surplus revenue at the end of this period, 1965 compares with 1964?

MR. PRESIDENT: We are after 11.30 a.m. actually, but I will allow this one supplementary to be answered if the Member has the information.

MR. THOMAS S. KLEPPE: Mr. President, simple science is a very relevant subject sometimes, Sir, and I am not in a position right now to answer that question.

MR. PRESIDENT: I do not think that it was really a supplementary, and it is after 12 o'clock.

Item 2 on today's Order Paper is Government Business, Bills, Committee Stage. The House will now go into Committee to study the Health Protection (Amendment) Bill, 1974, and other Bills.

GOVERNMENT BUSINESS

BILLS

THE HEALTH PROTECTION (AMENDMENT) BILL, 1974

COMMITTEE STAGE

MR. CHAIRMAN: The House is now in Committee. I shall now call a Hon to second the Health Protection Bill, 1974.

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 do stand part of the Bill.

QUESTION PUT: AGREED, CLAUSE 1 PASSED.

CLERK: CLAUSE 2. AMENDMENT OF SECTION 2 OF LAW 18 OF 1972.

MR. CHAIRMAN: Before proceeding further perhaps I should say what I should have said to the beginning that subject to the views of the Committee, I wonder whether we might agree to the procedure which we normally adopt with Bills. That is that if there are clearly technical or similar errors, rather than call attention to them and have the Committee agree to correct them, we shall impower the Parliamentary Counsel Officials Member to make whatever corrections may be necessary when the Bill is printed as a Law. The only amendments which will be put to the Committee will be amendments of substance or significance. Is that agreeable to the Committee?

HON. DENNIS N. KNOWLES: Yes, Sir.

MR. CHAIRMAN: So, let us proceed on that basis then. I think that is the practice which we normally adopt, but I like to have the Committee's endorsement for it on each page. I assume that is agreed....

HON. WARREN C. JOHNSON: We cannot hear....

HON. DEPUTY CHAIRMAN & ATTORNEY-GENERAL: We cannot hear, Mr. Chairman.

MR. CHAIRMAN: I am so sorry... Can you hear now.

HON. WARREN C. JOHNSON: Yes.

MR. CHAIRMAN: I was saying that I would assume that this procedure which we normally adopt will apply throughout the Committee Stages of the Bills which we will be considering today. So it is the procedure that the Honourable Nominated Members are entrenched by the Committee to make any necessary corrections when there have been printing errors or anything else of the kind.

The question now is that Clause 2 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 PASSED.

CLERK: A BILL FOR A LAW TO AMEND THE MEDICAL PRACTITIONERS LAW, 1973, (LAW 10 OF 1973).

MR. CHAIRMAN: The question is that the Title and Enacting Clause stand part of the Bill.

QUESTION PUT: AGREED. THE BILL WAS PASSED.

MR. CHAIRMAN: A Bill for a Law to amend the Medical Practitioners Law (Revised).

THE MAINTENANCE (AMENDMENT) BILL, 1996

COMMITTEE STAGE

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1 PASSED

CLERK: CLAUSE 2. AMENDMENT OF SECTION 4.

MR. CHAIRMAN: The question is that Clause 2 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 AGREED.

CLERK: A BILL FOR A LAW TO AMEND THE MAINTENANCE LAW (REVISED).

MR. CHAIRMAN: The question is that the Title and Enacting Clause do stand part of the Bill.

QUESTION PUT: AGREED. THE TITLE WAS PASSED.

MR. CHAIRMAN: A Bill for a Law to amend the Summary Jurisdiction Law. (Law 10 of 1975).

THE SUMMARY JURISDICTION (AMENDMENT) BILL, 1996

COMMITTEE STAGE

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1 PASSED BY MAJORITY.

TOPIC: CLAUSE 8. AMENDMENT OF SECTION 10.

MR. CHAIRMAN: The question is that Clause 8 do stand part of the Bill.

QUESTION PUT: AYES AND NOES

MR. DE VALERA RISE. Can we have that division, Sir?

DIVISION NO. 58

AYES	NOES
Sen. Dennis E. Eagleton	Mr. D. McKeown Cash
Sen. Michael F. Gravel	
Sen. Thomas C. Hefflefinger	
Mrs. Rogers C. Clarke	
Mrs. K. Maureen Tydings	
Sen. Capt. Charles S. Richenmell	
Sen. Vernon G. Johnson	
Sen. Stephen E. Young	
Mr. Richard A. Thomson	
Prof. Mabry B. Mathewmell	
Mr. C. Percy Ledden	
Mr. G. Gaylord Nelson	
Mr. John B. Williams	

13 — 2

MR. CHAIRMAN: I declare that the Committee has passed that Clause 8 shall stand part of the Bill.

CLAUSE 9 PASSED BY MAJORITY.

CLERK: A BILL FOR A LAW TO AMEND THE ATOMIC CONTAMINATION LAW. (WAR TO BE TAXED).

MR. CHAIRMAN: The question is that the Title and Enacting Clause do stand part of the Bill.

QUESTION PUT: AGREED. THE TITLE WAS PASSED.

MR. CHAIRMAN: A Bill for a Law to amend the Atomic Court Law.

THE ATOMIC CONTAMINATION (AMENDMENT) BILL, 1965

COMMITTEE STAGE

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 do stand part of the Bill.

QUESTION PUT: ... AGREED. CLAUSE 1 PASSED.

CHAIR: CLAUSE 2. AMENDMENT OF SECTION 9.

HON. MICHAEL J. BRADLEY: Perhaps the Clerk might note that I am bringing the Ombudsman's salary back to the statutory.

MR. CHAIRMAN: One....

HON. MICHAEL J. BRADLEY: One superintendent annum.

MR. CHAIRMAN: The question is that Clause 2 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 AGREED.

CLERK: CLAUSE 3. SUBSTITUTION OF SECTION 9.

MR. CHAIRMAN: The question is that Clause 3 do stand part of the Bill.

HON. E. GRAND MILLER: Mr. Chairman, if I could just speak to the Chair in part on amendment to section 3, subsection (4) to add "and published" after the "Lieutenant in Council".

MR. CHAIRMAN: Oh, yes. The amendment that I think Stanley the Senior Executive Assistant did you note? I believe, am I right there the Honourable Second Official Member said that he was to introduce to that? Or have I not pronounced correctly?

HON. MICHAEL J. BRADLEY: That is correct Mr. Chairman. I see no objection to it and it is in reasonably non-controversial I have no hesitation in endeavouring to assist the Members. In that regard, Mr. Chairman, is what is presently in a Committee Stage amendment that is really intended? Because if the notice is an addition to subsection (4) it provides that the only notice which is effective until published in the Gazette now notice which presently under paragraph (a) page of the Ordinance. I think that is why he has intention to provide that no notice should have effect until approved by the Governor in Council.

MR. E. GRAND MILLER: Yes, Sir, no notice should have effect. That is what I mean.

MR. CHAIRMAN: No notice should have effect until they have been published.

MR. E. GRAND MILLER: Until they have been approved by Governor in Council and published.

MR. CHAIRMAN: Am I right that as the clause is it presently worded the only notice which would go to the Governor in Council would be the notice proceeding that?

HON. E. GRAND MILLER: We have no such information (?) then, Sir, and say that the notice do not become effective until....

MR. CHAIRMAN: I had not understood. My understanding yesterday was that you wanted notice to be published, not that you wanted also notice to go to the Governor in Council.

SEN. S. FRANK MORRIS: No, Sir, I was merely interested that all the rules of the Court are published so that people will have the information as to what the rules are.

SEN. CRAIGMILE: Yes, that is what I had thought. You are not seeking to ask that all opinion in addition to Executive Council, simply that they should be published before they take effect. I am not sure that we can do it in the way that you suggest. I think that it would have to be a new subsection, maybe (e) or (f).

SEN. MICHAEL J. MCGRATH: A new subsection, yes

SEN. DENNIS E. FOSTER: In addition, Mr. Chairman, I do not see the sense of just publishing the fees of the Court. They might just as well publish the fees and the cost of the legal proceedings as well. That is more important.

MR. CHAIRMAN: I think that the intention is that all the rules should be published, which is reasonable.

SEN. MICHAEL J. MCGRATH: Perhaps it might meet the intention of the gentleman if the amendment if enacted that the proposed new section be amended by the addition immediately following subsection (d) thereof of the following new subsection:

> "(d) Rules of Court made under this section shall not come into effect until they have been published in the Gazette."

Would that meet the approval of the Honourable Members?

SEN. DENNIS E. FOSTER: Yes, Sir.

MR. CHAIRMAN: Where would that come?

SEN. MICHAEL J. MCGRATH: Subsection (f).

SEN. MICHAEL J. MCGRATH: That would have the effect, Mr. Chairman, that no rules of Court shall have effect until published in the Gazette which I think is what the Honourable Member wishes.

SEN. G. EDWIN MILLER: Yes, that is what I am seeking, Sir.

MR. CHAIRMAN: Could the Honourable Second Member for Western Division read that once more?

SEN. MICHAEL J. MCGRATH: If I can remember it:

> "(f) No Rules of Court made under this section shall come into force until they have been published in the Gazette."

MR. CHAIRMAN: So the question now before the Committee is that Clause 3 of the Bill be amended by adding to the proposed section 31 of the Bill a subsection (f) which:

> "(f) No Rules of Court made under this section shall come into force until they have been published in the Gazette."

MR. SULLIVAN (CONTINUED): I will put the question that the motion be amended as proposed.

QUESTION PUT: AGREED. AMENDMENT AGREED.

MR. MILLIGAN: I should perhaps formally second that the amendment to the motion, and to be moved without the normal notice thereof.

MR. MICHAEL J. MURPHY: I would like the Member of this House to second something that is my understanding that this amendment was moved by the Ex-Armed Members for North Slue and not by me.

MR. J. KEITH MILLER: Does he already have me, Sir.

MR. SPEAKER: Yes, I think that you just now could have moved it. I think that is quite right. Since then the Elected Member for North Side sought and was granted permission that not withstanding the provisions of Standing Order 24(2) an amendment be moved without the usual notice having been given, and that it was the Elected Member for North Side who then moved the amendment which has now been seconded.

I will now put the question that Clause 2 be amended as part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 AS AMENDED AGREED.

CLERK: A BILL FOR A LAW TO AMEND THE CANADA COURTS LAW. (CLAUSE 2 AS AMENDED)

MR. MICHAEL J. MURPHY: I move the Motion which accepts have the motion the amendment please be amended?

MR. SPEAKER: That is what I just did. The question now before the Committee is that the Bill as amended Clause as part of the Bill.

QUESTION PUT: AGREED. BILL STOOD AS AMENDED.

MR. SPEAKER: That concludes consideration by Committee of Bills entitled the Marine Insurance (Amendment) Act, 1985 and other Bills. The House will recess.

RECESS TAKEN

MR. SPEAKER: Please be seated. I think that before we continue with Bills on the Order it may be convenient if we now take our customary evening break. So I will suspend proceedings for approximately fifteen minutes.

AT 11:31 A.M. THE HOUSE RECESSED

HOUSE RESUMED AT 10.10 P.M.

MR. PRESIDENT: Please be seated.

Item 2(1), Records of the Committee Stage of Bills. The Honourable First Elected Member of Legislative Council.

THE PRIVY COUNCIL (LIMITATION) BILL, 1965

FIRST READING

HON. DENSON D. DEANES: Mr. President, I have to report that I duly received a Bill for a Law to amend the Privy Council Act, 1962 was considered by a Committee of the whole House and passed without amendment.

MR. PRESIDENT: The Bill is accordingly set down for First Reading.

The Privy Council (Limitation) Bill, 1965.

THE MAINTENANCE (AMENDMENT) BILL, 1965

FIRST READING

HON. DENSON D. DEANES: Mr. President, I have to report that I duly received a Bill for a Law to amend the Maintenance Law (Revised) was considered by a Committee of the whole House and passed without amendment.

MR. PRESIDENT: The Bill is accordingly set down for First Reading.

The Summary Jurisdiction (Amendment) Bill, 1965.

THE SUMMARY JURISDICTION (AMENDMENT) BILL, 1965

FIRST READING

HON. MICHAEL J. BRADLEY: Mr. President, I have to report that I duly received the Summary Jurisdiction (Amendment) Bill, 1965 was considered by a Committee of the whole House and passed without amendment.

MR. PRESIDENT: The Bill is accordingly set down for First Reading.

The Grand Court (Amendment) Bill, 1965.

THE GRAND COURT (AMENDMENT) BILL, 1965

SECOND READING

HON. MICHAEL J. BRADLEY: Mr. President, I beg to report that a Bill shortly entitled the Grand Court (Amendment) Bill, 1965 was considered by a Committee of the whole House and passed with one amendment, namely the insertion on Page 2 in that part of it which deals with the newly to be inserted section, section 21, of a new subsection which reads:

> "(2) No rules of Court made under this section shall come into force until they have been published in the Gazette."

MR. PRESIDENT: The bill is necessarily laid over for third reading.

Item 5(d)(1). Third Readings. The Clerk will state, Does the Clerk call the Bills?

THE SCHOOLS DESEGREGATION AMENDMENT ACT, 1994

THIRD READING

CLERK: The Schools Desegregation Amendment Act, 1994.

SEN. DENNIS D. DENNIS: Mr. President, I beg to move that a bill entitled a bill for an Act to amend the Schools Desegregation Act, 1974 be given a Third Reading and passed.

MR. PRESIDENT: The question is, Does the House to read a Bill for an Act to amend the Schools Desegregation Act, 1974 be given a Third Reading and passed.

DIVISION DEMANDED: AYES AND NOES

MR. S. SPEAKER ASSISTANT: May I have a division, Sir?

BILL STOOD A THIRD READING AND PASSED.

THE GRAND COURT (AMENDMENT) BILL, 1966

SECOND READING

CLERK: The Grand Court (Amendment) Bill, 1966.

HON. MICHAEL J. GRADDY: Mr. President, I beg to move that a Bill already entitled The Grand Court (Amendment) Bill, 1966 be given a Third Reading and passed.

MR. PRESIDENT: The question before the House is that a Bill for a law to amend the Grand Court Law be given a Third Reading and passed.

QUESTION PUT: AGREED. BILL GIVEN A THIRD READING AND PASSED.

MR. PRESIDENT: Item 7(a) on today's Order Paper, the Final and Second Reading of further Bills.

THE COURTS OF SMALL CLAIMS AND DISTRICT COURTS (AMENDMENT) BILL, 1966

FIRST READING

CLERK: THE CLERK OF THE COURTS AND DEPUTY CLERK OF THE COURTS (AMENDMENT) BILL, 1966.

MR. PRESIDENT: The Bill entitled a Bill for a Law to regulate the powers of the Clerk of the Court and the Deputy Clerk of the Courts be deemed to have been read a First time and to be set down for Second Reading.

SECOND READING

CLERK: THE CLERK OF THE COURTS AND DEPUTY CLERK OF THE COURTS (AMENDMENT) BILL, 1966.

HON. MICHAEL J. GRADDY: Mr. President, I beg to move the Second Reading of a Bill already entitled the Clerk of the Court and Deputy Clerk of the Court (Amendment) Bill, 1966.

As Members of this House will be aware the amount of work and the complexity of work which comes in the course of the Stephen Islands has increased very substantially in recent years. It was not many years ago that it was necessary for there to be only one Judicial officer in these Islands. Then the Grand Court was established and now Grand Court Judge, the Chief Justice was appointed, and there are magistrates also.

With the increase among of the Cayman Islands and with the increase in appellate litigation, the volume of civil and commercial work has increased greatly, and a large amount of that work is in the Lower Courts. As the work has been increasing amount of work handled on the Magistrate's Court so that quite frequently the necessary progress of the work there both civil and criminal, is held back the substantive magistrate and the acting magistrate working at the same time in different courts. The increased complexity and volume of this work has resulted, as in many other areas, in increased amounts of documentation which sometimes have been of very little significance only by the Judge or the magistrate.

MR. MICHAEL J. DUGGER (CONTINUED): The Administration should not feel forced this House to believe the Judges and the Magistrates of the Superior Courts do either lack, or personally harbor an attitude of disrespect, in many cases routine documents which emanate from their offices.

Clause 2, and I will read it, Mr. Speaker, says that:

"2. Any acknowledgment or other document, subpoena, summons or other form of process of any court established by any law or subsidiary legislation and required to be signed by a Judge of the Grand Court or a magistrate may be signed by the Clerk of the Court or the Deputy Clerk of the Court, and a signature shall for all purposes be as valid as if personally made by such Judge or magistrate."

The intent of this is, Mr. Speaker, that the large volume of routine work in signing documents shall under the discretion of the Judge or magistrate as the case may be, be signed by the Clerk or Deputy Clerk of the appropriately legally appointed to be able to assume properly the documentation which requires to be signed. It will free up the services of the Hon. Administrative Clerks of that Court Will take a load burden of administrative work actually from the Hon. Judges of the Grand Court.

The second provision in this Amendment - to authorise the work of the Courts here, and the normal administrative duties to take all processes:

"3. Notwithstanding the provisions of this or any other law or any subsidiary legislation made thereunder, the Deputy Clerk of the Court shall for all purposes have, exercise and duties conferred upon the Clerk of the Court by any Law, and any such assistance as for all purposes be valid as if authorised by the Clerk of the Court."

Again, not only to spread the burden of work quickly among the Administrative officers of the Court there is another function for that, and that is that since there is only one person in the jurisdiction as Clerk of the Court who is presently the substantive Clerk of the Court he cannot be in two places at the same time in order to give persons the documents to be signed, the necessity to seek some to appoint the Deputy to act. There are cases where persons responsible in relation to the Clerk of the Court are necessary to be executed at very short notice.

One example which Members may feel, because it is a sweeping notice like the Cayman Islands is the matter of arrest, which is a function which must be carried out in very short notice. The third clause of this Bill which is the subject substantive one which I have been referring to would give the Deputy Clerk powers of the Clerk to carry out such functions.

Mr. Speaker, the intention of this Bill is to regularise and execute not only the workings of the courts here, but the process of justice in these Islands. It has been entrusted by the Judiciary. It has met with the approval of Government, and I commend it to Honourable Members of this House.

MR. SPEAKER: The question before the House is that a Bill entitled a Bill for a Law to increase the salaries of the Clerk of the Court and the Deputy Clerk of the Court be given a Second Reading.

The motion is not open for debate. If no Member wishes to speak I will put the question.

QUESTION PUT: AGREED. BILL GIVEN A SECOND READING.

MR. SPEAKER: Item 3(a)(iii).

THE CURRENCY (AMENDMENT) BILL, 1985

FIRST READING

CLERK: The Currency (Amendment) Bill, 1985.

MR. SPEAKER: The Bill entitled a Bill for a Law to amend the Currency Law (Revised) be read a First time and do set down for Second Reading.

SECOND READING

CLERK: The Currency (Amendment) Bill, 1985.

HON. THOMAS C. SPOTTSWOOD: Mr. Speaker, I move the Second Reading of a Bill entitled a Bill for a Law to amend the Currency Law (Revised).

Mr. Speaker, this is a very small amendment but quite important. Section 12 of the Currency Law deals with the restriction of notes, and under section 13 of the Currency Law which was repealed, it dealt with the restriction of coins. This small amendment, Mr. Speaker, brings into section 12 the restriction of coins and notes.

I think that should basically all that I have to say on this item, Mr. President.

MR. SPEAKER: The question before the House is that a Bill for a Law to amend the Currency Law (Revised) be given a Second Reading. The motion is open for debate. The Elected Member for North Side.

QUESTION PUT:

MR. D. EDWARD MILLER: Mr. Speaker, I support the motion but I would just like to have the Member identify that the Government is not going to include the ornamental coinage or coins for jewellery, etcetera.

MR. SPEAKER: If no other Member wishes to speak I will ask the mover of the motion whether he wishes to exercise his right of reply?

HON. THOMAS C. SPOTTSWOOD: Only to state, Mr. Speaker, and thank honourable Members for their support, whether currently or by their silence, and to assure the Elected Member for North Side that with the Department of Cayman Islands Currency going into operation as the law now the traditional ones.

MR. SPEAKER: The motion is that a Bill entitled a Bill for a Law to amend the Currency Law (Revised) be given a Second Reading.

QUESTION PUT: AYES, NONE; A SECOND DIVISION.

BY PRESIDENT: Does anyone object?

THE COMPANIES (AMENDMENT) BILL, 1985

FIRST READING

CLERK: THE COMPANIES (AMENDMENT) BILL, 1985.

MR. SPEAKER: The Bill entitled a Bill for a Law to amend the Companies Law be allowed to have had a First time and be set down for Second Reading.

SECOND READING

CLERK: THE COMPANIES (AMENDMENT) BILL, 1985.

MR. JEFFREY C. ECKERTSEN: Mr. Speaker, I move the Second Reading of a Bill entitled a Bill for a Law to amend the Companies Law (Chapter 22).

This amendment to the Law is being put forward in connection with another Bill which is coming forward, the Exploratory Bond (Amendment) Bill, 1985. In the past the Registrar of Lands has taken advice from the Legal Department that a company could not own land. That decision, Mr. President, was primarily set aside by the present Chief Justice and the attempt here, Mr. President, is to ensure that an alien company receiving any foreign company not registered in the Cayman Islands should not own land. If we have a foreign company, Mr. President, which is registered in the Cayman Islands, then this amendment does not apply to that company. It is only a foreign company such as U.S.X. wishing to purchase land in the Cayman Islands when it is not registered here which will not be allowed to do so under the name U.S.X.

Of course, Mr. President, they could set up an ordinary, non-exempt company and own that land. The reason for this, Mr. President, is that if we allow the alien company to own land or to hold land, there would be no possible way that the Registrar of Lands could police or monitor the effect for stamp duty. In other words, a company such as U.S.X. or any other foreign company registered in any part of the world whether it be the United States, Canada or the Caribbean, if it is not maintained in the Cayman Islands, then we have very little jurisdiction over it. It could change its shareholders every day, and the net effect to them to stamp duty would be unbelievable. This is the reason for this amendment, Mr. President. However, if the foreign company registered in the Cayman Islands then this amendment does not apply and it can hold land.

MR. SPEAKER: The question is that a Bill entitled a Bill for a Law to amend the Companies Law (Revision) Bill be given a Second Reading.

The motion is open for debate. The Second Elected Member for George Town.

DEBATE ON SECOND READING

MR. C. RAJU JOSHUA: Mr. President, Sir, I will before the Senate states in the Memorandum that it is complementary to the Cayman Legal Practitioners Bill, 1983. This Bill is follow on the Order Paper. From what I heard in the introduction of the Bill I cannot see why we can not dealing with the principle. Like first I would rather be debating the Cayman Land Amendment Bill, 1986 before the Bill which is here, as that Bill has some very important provisions which I think that we should deal with before attempting to pass a complementary Bill. In order to ensure why is present there Bills and perhaps bringing up clearly the controversy which we are beginning to touch.

I understand the remarks of the Member who introduced the Bill but I cannot agree with the contents. I can see no reason why a foreign attorney-at-law practicing here should not own land because if the foreign country bought the land it should not sell the land; it could not transfer the title without going through the land office here. It is here that almost Nations in the company would change but the only reason I think was why we must have this absolute control is that in the future we plan to see land, then if we are going to encourage land that we must have absolute control. This is the great fear which exists in the Legislature currently today, and this may be also this page of the Budget Mins, the fact that we can partially prohibition on the ownership of land by foreign investment could there may why investment which this country needs. I cannot understand what has happened to the Government. I cannot understand what the present Government which has been elected to preserve the economy and to do today with privatization is doing and why they have not been able to make one forward step. Many steps have been introduced for an investment or for the giving modification to the investor, every step they have made has been opposed again them. This investment to the Company law to a dangerous amendment and only on Pandit would they have a provision like Clause 2 of this Bill.

However, I am being very kind because I am asking my anger for the Bill which is to come, because that is the main Bill.

In Clause 2 it reads:

> "that if a foreign company ceases to carry on or have a place of business in the Islands or otherwise ceases to be a foreign company or fails to comply with any of the provisions of this part, any lands held by, vested in or belonging to it shall thereupon and without notice pass in the Financial Secretary for the benefit of the Islands."

This is complicated without notice, I cannot understand it. If the certificate without notice was come having the post manner to give them ninety days notice. We are wanting a democratic president to the parliament for to the left. Those Bill come on the Registered Land Amendment Bill, 1986.

MR. SPEAKER: Does any other Member wish to speak?

HON. GLEN CHARLES LEACHCOCK: Thank you, Mr. Speaker, I rise, Sir, in support of Bill for a Law to amend the Companies Law (Chapter 22). I have no intention, Sir, of speaking to debate this Bill but I think that a few things which have been said need some correction.

MR. CAPT. CHARLES L. [illegible]: I do not see this bill, Sir, as dividing any people, or the first step towards [illegible] I have read [illegible] Commission, what we're going to run this country with, if we allow foreign corporations to operate here, could run just as those foreign countries, should they? I'm sure that's the Government has [illegible] necessary to stop, and I would have thought that this Nation could have been this up a night of getting more money for the Canal Zone and the people, rather than to blame it and say that we are hooked for a hand out that we are providing ourselves, by denying many foreign ships from our country. I can assure the Member, Sir, that his remark about [illegible] being a retrogressive step in the development of the Panama Canal is wrong and, I hope, Sir, that in the not too distant future we will have had to [illegible] those words many, many times.

Mr. President, with those few remarks I support the bill.

MR. SPEAKER: Does the gentleman yield?

MR. CHARLES L. [illegible]: Thank you, Mr. Speaker. I wish to thank Members once again for their support of the bill. In reply to the Second Distinct Member for Dundee Town, particularly on his point of complexities without notice which he stated in the way that we did our own [illegible] days notice, Mr. President, the Chief Architect that this Bill does not come into effect until the 30th September. If my memory can right I would have expected that to be around 1st July. In addition the fact that this bill has been spoken about on Radio Cyprus and in the press, I would have thought that particularly adequate notice had been given.

One other point, Mr. President, the Member said that he was no reason for the ships not to hold land. I am also aware that he is particularly the fact that if do this can [illegible] ships would not be [illegible]. In my view, Mr. President, any [illegible] we make on our books should be [illegible] to pay [illegible] duty, when other Companies have to pay.

Thank you, Mr. President.

MR. SPEAKER: The question before the House is that [illegible] a Bill for a Law to amend the Shipowners Tax be given a Second Reading.

DEPUTATION SUIT: AYES AND NOES

MR. CHARLES L. [illegible]: May I have a Division, Mr. Speaker?

MR. SPEAKER: I think that it will probably be convenient if we now suspend proceedings for lunch until approximately 2.15 p.m.

AT 12.50 P.M. THE HOUSE ADJOURNED

HOUSE RESUMED AT 2.17 P.M.

MR SPEAKER: Please be seated, Item 8(a)(i).

THE REGISTERED LAND (AMENDMENT) BILL, 1985

FIRST READING

CLERK: THE REGISTERED LAND (AMENDMENT) BILL, 1985.

MR. SPEAKER: A Bill entitled a Bill for a Law to amend the Registered Land Law (Revised) be deemed to have been read a first time and to be set down for Second Reading.

SECOND READING

CLERK: THE REGISTERED LAND (AMENDMENT) BILL, 1985.

THE MINISTER OF FINANCE: Mr. Speaker, on behalf of my colleague the Honourable Member who I understand was down to move this Bill, may I be allowed to move the Second Reading of a Bill shortly entitled the Registered Land (Amendment) Bill, 1985.

Mr. Speaker, as the Honourable Minister said when he presented the last Bill, the Second Reading of which took place yesterday morning, namely the Companies (Amendment) Bill, 1985, the only effect of this Bill which seeks to incorporate into the Registered Land Law a new section 169A stems out of a recent judgement in the Grand Court.

HON. ROBERT A. BELAIR (COMMISSIONER): Mr. Speaker, on the judgment of the Privy Council which was given by the Chief Justice on the month of February this year, the Honourable Chief Justice there was an appeal made by a foreign incorporated company against a decision of the Legislature of Canada, under the Companies Act, the mere fact of having land could not carry with it the duties of carrying on business in the Province of Canada. Therefore, even a company had power, even though not registered as a foreign company under the Companies Act, to hold such land.

Mr. Speaker, the historical background in this case, I think is necessary to be set out in order that it can be clearly understood by Members of this House and by the general public that there is no basis or justification at all for what has been carried out heretofore by reason of this Bill. What happened in this case, Mr. Speaker, was that a Panamanian registered company which did not have a place of business here and had not commenced to carry on business here, and which had no connection with Crown Lands except that it intended to be registered as a corporation of a parcel of land, sought to register that parcel.

It had been the policy of the Registrar of Lands not to register such instruments from such companies, and in doing so the Registrar was following policies which had been established by the Legal Department as long ago as 1952. It had been a consistent policy in accordance with that section of the Land Registry Act to refuse to register land transfers in the name of alien companies unless such companies were registered as a foreign company under section 198 of the Companies Law.

In his judgment the Honourable Chief Justice said and I quote:

> "The position therefore is that at common law an alien company was not registered or registerable as a foreign company under Part I of the Companies Law has power to hold land in these Islands but it has capacity to do so under the law of the country in which it was incorporated, unless by the provisions

I continue quoting from the judgment of the Chief Justice:

> "There can be no doubt that the previous view has been that such a company could not hold land here. That is evident from a memorandum of objects and reasons to the Bill for the Land Holding Companies Expiry Dissolution Act, 1967 and the practice which grew up in the Department of the Registrar of Lands."

I continue quoting from the judgment, Sir.

> ...which purports to be alien corporation which is not a foreign company as defined there would appear to be no restriction presently in force against land in these Islands. The capacity of an alien corporation which is not a foreign company as defined,"

I should like to quote only briefly from a final paragraph of that judgment:

MR. MICHAEL J. MURPHY (CONTINUING):

"If it be decided to proclaim an older corporation which is not a foreign company from among Lesotho a whole amendment of the Companies Act would obviate this."

It was, Mr. President, merely to bring the Law into line with what had been envisaged to be the legal position and the accepted administrative practice that the Companies Act and this present Bill is dealing brought. There is no intention whatsoever to enact that the power of any foreign company either to form a subsidiary here and register the subsidiary here to hold land here or otherwise deal here, or to convert a foreign company from registering as a foreign company under the provisions of our Companies Law and again quickly formulate.

What we have sought to do by these two Bills, Mr. President, was to maintain the danger which could arise and I think would arise by reason of the fact that if the Law were not changed unscrupulous foreign companies seeking to business here; having no connection here; having no place for service of documents here could purchase land and by a whole transfer from one foreigner to another of the shares of these companies, avoid the stamp duty which any other transaction effectively transferring land should attract under our Law.

It is for this reason, Mr. President, that this Bill is brought before us. When this very Bill is moved the Registered Land Law seeks to do, and I read, Sir, s.

"164. (1) Notwithstanding that it may be impossible to do so under the Law of any other jurisdiction or by the memorandum of association or whatsoever name so called) a body corporate (by whatsoever name so called) which is not -

(a) an existing company as defined in subsection (1) of section 2 of the Companies Law;

(b) formed and registered under the Companies Law; or

(c) registered as a foreign company under part VIII of the Companies Law,

has no power to be registered or a corporation or in any other manner to hold land in the Kingdom."

A natural question arose as to why until after the 30th September if such companies have failed to register as a foreign company here, or failed to transfer the land to a local company or to some foreign company registered here, or failed in fact to take any steps whatsoever to bring themselves into compliance with this Law, that they the property which they have chosen not to comply with the Law should vest in the Honourable Financial Secretary for the benefit of the Kingdom.

Now I, Mr. President, make no apology whatsoever that it is not the intention in any way to penalise the ability of foreign companies to acquire land here; to own land here; to transfer land here. It merely seeks to make it quite sure that we have who these companies are; that they are registered here; that they have a place of business here, and that they are amenable to the Courts duly constituted for which Courts the Attorney

HON. MICHAEL J. FRASER (NORTHUMBERLAND): I might say that while as the legislation will now, is merely seeking to bring into law the administrative procedure which has heretofore existed.

Mr. Speaker, sir, I commend this bill to the House.

MR. SPEAKER: The question is since a Bill entitled a Bill for a Law to amend the Registered Land Act is placed on a second reading. The motion is open for debate.

SPEAKS ON SECOND READING

MR. C. NAT PERRY: Mr. President, when the Bill which we really seek before this Parish Council I am still not convinced that the foreign participation contemplated in this Bill was in the best interests of this country. I am totally against the removal by which the Executive Council have handled this whole matter.

This is an important Bill and to come to us, when we the whips only came on the job May which is sufficient time for Members to peruse the Bill and study it. However, the press copy or the Parcelled copy which is the publication to the public came out on the 3rd May which was a Friday of last week. Saturday, Sunday and Monday is a holiday so the public had no opportunity at all to study this Bill.

The Members on the business panel had no opportunity to study it and to acquaint their people during hours to know exactly what this Bill means, and I would like to know why there is this undue haste. Every other Bill which Government is putting up, whether it be increasing of pensions or the building of schools are to be placed on Open like and the public can and does receive many benefactions from the newspapers and the radio just to acquaint the unfamiliar which they are shifting from the interests of the public.

However, here is an important matter like this to be held back until the last minute, because every single somebody knows that the Meeting for the 21st May was fixed a long time ago by you, Sir. It was the duty of the Government to give the public time to study such an important Bill. It says on the Parcel copy of the Bill that it was received on 1961 May and everybody knows that if this has to be distributed by mail there may be some people to whom this has been mailed who may not yet have received it. So it has been very unfair to us so that the public could understand it.

The Bill seeks amongst other things to exempt land owned by an alien company or a foreign country which is not mentioned here. It seems to discriminate the land. It seeks to confiscate it. It seems to take for our own use and ownership without any notice at all to the landowner. Now I know that the Bill will not come into effect until the 21st day of September, 1961 just the same as the Corporation Bill would not come into effect until 31st December, 1961. However, this is not binding to the Government. They might take to only the day which the law comes into operation. The owner of the land in Australia or New Zealand or the United Kingdom may still not know that our Government has passed such a law, because he will never read in your newspapers or anywhere. I think that there is an obligation on this Government to send a notice in writing to the owner of any parcels of land which may be involved and subject to acquisition on the 20th day of September, 1961.

MR. G. WILL ROWLEY (CONTINUED): This is the point which I wanted to make to the Corporation Tax Amendment Bill debate, although my debate was brief, but I have spoken who are not resident in the Falklands may not know and would nevertheless appreciate, or would never even dream that the Government would pass such a law.

This Bill is a good Bill. But, why? I know that it will, also will prevent foreign companies from coming into Falklands to invest their money, or register as a Falkland company here, or purchase shelf companies as a Falkland company here, or purchase shelf companies as a Falkland company here, or purchase shelf some other valuable asset of being here. We do not want this at this time. This country is now suffering from lack of investor confidence and the Government must take actions which will restore their confidence, and not take actions which will further the investor away.

This will have a psychological effect of thinking why should we invest. When looking at this of a company, are the Ocean Sole Servicing Company invited to do business here they may find they cannot purchase land, and otherwise cannot be established a Falkland. Under this new Law they would not be able to purchase the land unless they had registered the company here or set up a subsidiary company. So investor-confidence will begin to go. Businesses like it does as no good.

I mentioned the other year during one of my speeches on the Corporation Tax Bill, 1985 and that was that the notice given to be unnecessary unless this notice is a practice by the Administration of the Islands, because to what knowledge we would need absolute control. I understand what has been said about making sure that Government officials are given duty. Everyone knows that Government will discuss the stamp duty because of the price of the land to be transferred, this duty can only be charged on the Stamp Duty Office of the Land Registry. It is true that shareholders of the company could change but the rights would remain with the company and could only be changed at the office in Stanley Town. So if the Attorney-General should then withdraw the new Alien duty.

Talking about land already owned by foreign people, because I believe that Falklands would be sought by the Chile as well, whether any action is taking to the remark cannot help us. We know that this has been one of the great people have lost their investments in Cuba. People have lost their investments in many other communist countries who will take it in communist Cyprus when this Bill goes into effect. They will lose it without notice and they will just go home one day and learn his name reading "Sequestrated by the Government of the Cyprus Islands - Expropriated here, sorry". Can this be the image of this country any good? I am asking that the Elected Members of Executive Council to withdraw this Bill and as mentioned the good name which has been built up of these Islands being an investment promotion area, by - just two decades.

I have noted in my notes that the ... contributions in the Development Plan, 1985 regarding land was not being implemented but by and by the way Government over these Islands. Under this plan land would be acquired for certain purposes. There would be white areas; there would be green areas; there would be land which could not be developed, which basically means that the people would lose their ownership. Here we have an instance where people who own land will then the ownership as the land is just the same. It does not matter whether they live in under the 1985 Development Plan or whether they are going to live in under the 1985 plan, in the opinion of it which are greatly losing rights, assets and ownership.

MRS. M. KATE ROBERTS (continued): This is a bad Bill but I will close by repeating the statement that the worst part of it is the complication already existing. The fact that the provisions of the Act coming into effect in January next December does not give comfort to a Londoner who lives abroad. These people who have gone from and who have already made their arrangements to vote for the Lord Mayor of George Town, and then should by these proposals they might have to come out

MR. LAMBERT: (Northern Marianas): Another point, Mr. President, to that with matters of importance such as we have before us, perhaps more time should be given to Members to study these bills. I move sir, that under the Standing Orders seven days be required. However, perhaps now that we have a Select Committee on Standing Orders we should consider fourteen days or more, because many of these matters should be taken to the public. We are dealing with a number of issues on this floor which should be brought to the members of the public, and we find ourselves in the disadvantageous position of having to legislate then after the fact. We go to our people and we tell them what we have done, whether they like it or not, forgetting that we are not their masters. We are their servants.

Mr. President, if 'APC' knows or understood in these islands with 100 whereas does the exercise of 10 per cent of that economy affect adversely the sub-strata of that economy? The definition of a foreign body corporate is really lacking in this bill. The Memorandum of Objects and Reasons gives no definition of what is meant by a foreign body corporate.

Section 1241, (3) on prohibition on certain banking corporate holding land states:

> "Notwithstanding that it may be expressed to do so under the law of any other jurisdiction or by the memorandum of association by whatsoever name or initial a body corporate by whatsoever name or initial which is not -"

and it makes the various types of companies. In this way a foreign company registered under the laws of the Cayman Islands is prevented from owning land till of the Territorial Sea.

However, no explanation is given to that. I have heard other than either company. Are will the Japanese the person who is not legally trained? The person who is not a Government servant and one who is not privy to our discussion here, having no this bill know what we are talking about? For the information of many of my hons, non civil servants making up this country are legally trained people but they are nonetheless the people who bring funds to this country.

Mr. President, I will not prolong my remarks on this bill. I repeat this bill as I said earlier is lacking in many respects. I feel that the whole idea is sustained by the necessity of this bill is a good one. My objection is to the contents of the bill. I feel that any Memoranda of Objects and Reasons given to a bill should be sufficiently clear as that there is no doubt remaining in the minds of people reading a bill such as this. In the present form, Mr. President, respectfully I am unable to support this bill. The reason for this, on the my notes, conflict with regard to the Corporate Tax (Amendment) Bill, 1976 was the same which I elucidated. It was because both of these are complementary and I felt that one hinged on the other. However, of the two bills this is the more complex.

I should here, Sir, that the Members on the Government bench should get to grips the Memorandum of Objects and Reasons somewhat clearer so that these reading bill know exactly the intention of the Government in putting this Bill forward.

Thank you, Mr. President.

MR. MASGUTANI: The Third Elected Member for West Sepik

MRS. LORRAINE L. PRICE: Thank you, Mr. President. I do not think too much in any regard this bill has to support the bill. I think that the answer has adequately considered it and I think that it should be noted that this bill is not one which affects Cayman-ese nationals such as ours, for instance, the Turtle Conservation Bill or the upcoming Tattoo Regulation. This is something else which directly affects Caymanians and it is hoped put to remind to the public for so many months so anxious that they can make their contributions, or whatever, that I can see the point in having this published just in advance. However, this particular bill will be before the House today affects foreign companies. It is already contained here. Any maybe there might need to be some further explanation of it. However, I am not sure that it is necessary.

So the bill before us as I see it is not one which really requires a lot of input from the public as such. Currently any foreign company not registered here, theoretically if one have had an agreement which was essentially not for the good of this country and we need to manually make a determination as there is not regular basis - who knows how many times that could have been brought from one company to another because of differences changing and then we'd have to - then I feel that it is time that we have it rectified.

However, seeing they've have urged the 30th September at which time this bill will be into effect, then it would seem to me that any foreign company would have had ample time and is not registered here should have at least in front responsibilities, be it a form of business or otherwise. These people would certainly have known that this bill is going to be in effect at that time. I would think that they would get in touch with whatever foreign company owns the land, and they would certainly be aware of it by the 30th September. I cannot see that they would not have sufficient time to comply the stipulation and to comply with the law.

I cannot see why there is any reason why I would disagree with this if it is clearly explained, as I said I am aware of those foreign companies who are here. Now we are not talking about foreign companies with employment in the Cayman Islands. So those are companies which we would have absolutely no control over what so ever as to be not dive in for our Executive Authority Rules. So I suppose that if there is a loophole here we need to try to rectify, Mr. President, and as I would like to support this bill.

MR. SPEAKER: The Honourable Second Elected Member of Executive Council.

HON. PAPPA T. RANKIN: Mr. President, I rise to support this Bill, the amendment to the registered land Law. We have heard a lot of explanation over the Opposition. One said that this was confiscation without notice, a monopoly etc. Mr. President, this bill seems to be an easy way for the opposition; as he came to explain he really framed the negative side of the Bill.

MAY, Right O. MANUEL (Independent): Mr. President, it was also quite clear that the public knew what the person was going Cabinet with Members of Executive Council for not properly advising the Bill before it was presented here.

If my memory serves me well, I read about these Bills in the press first last week and I also heard it on the radio. Furthermore, Mr. President, the people who are most interested in these Bills, members of the public and the Unions have contacted Members on this Government Bench to query why such a piece of legislation which could embarrass us [illegible] public should introduce such amendments. I dare say that we like the only opportunity of hearing first and speaking on these Bills. [illegible] rather we see the amendment to the Constitution which is completely [illegible] to this one.

Mr. President, while previous Governments sought [illegible] to get these matters to the public because we do not feel that it is right to put forward any measure [illegible] public input. I do not believe that we have an excuse for amendments. I am satisfied that the Bill was published and that there was sufficient time for these matters to be dealt with by the public.

Mr. President, before the people voting was made that a foreign corporation would not [illegible] owned by a foreign corporation could be prohibited, the Registrar of Land had passed to register [illegible] as companies. People understood the position. There was a test case in court and the court ruled that under the present laws of the country, a foreign corporation could not [illegible] here.

The reason why the Bill already mentioned and which the honourable Third Official Member [illegible] why these amendments were brought here. It is feared that if [illegible] the banks of foreign corporations they will be encouraged not to [illegible] other and the story. Only aspect of it that must mark the Treasury of these Islands.

Mr. President, the Bill is not referring to [illegible]. It is not dealing with foreign persons, it is dealing with the foreign corporation. The interpretation of a foreign corporation is contained in the Companies Law and I do not think that it was necessary to spell it out in this Bill again.

Mr. President, it was said that if this Bill happens [illegible] investment confidence would be lost in the Cayman Islands. I do not accept that, Mr. President. One thing I am happy to [illegible] the 15th November, last investment [illegible] are strengthened in this country, and I have not heard anything to the contrary until now. In fact a lot of [illegible] coming in to the Islands and we have seen a large first class hotel [illegible] construction. Mr. President, that is encouraging confidence. So I think that we must ensure that this Government [illegible] measures which would change that particular aspect of the economy.

It was said by, Mr. President, that this might be the beginning of a system to [illegible] land taxes. Well, of course the Government can say anything since they do not have all that expertise in the wings of the Government Bench. Perhaps that is the same suggestion as was made not us long ago in these Chambers that the proposed [illegible] of many years ago, when mentioned to the people they would have [illegible] financial stability. It is quite a joke that the one who was talking about this once had the responsibility to build the financial [illegible] in Turkey here.

HON. TASKER G. EDWARDS (NORTHERN): Anyway, the speaker on the last occasion knew the what was best for these Islands.

Mr. President, the Bill clearly states that if a further nomination does not fix the salary that they will be given a reconsideration period to the 30th September, 1968, to declare their interest. I do not think that the Government could have been blamed in these considerations. Mr. President, it also says that no alien is made, that at the end of that period the property will vest in the Financial Secretary, and be subject to disposition by the Executive Council, having until for such people with the assent of defence authorities which were also vested in the Financial Secretary and subject to disposition by the Legislature Assembly, and later by the Executive Council, many of those assets included lands.

The Government, Mr. President, was in existence and had no desire to take the land or assets of these companies. The Government would always say, "pay up all the outstanding fees which you owe and we will return the assets to you". Some of those assets consisted of large amounts of money and land, as I said. So the Government hardly had an intention of confiscating anything from anybody. The same attitude, Mr. President, I am sure, will be maintained as far as these Bills are concerned.

We have the Government duty to perform in this country and that is to ensure that the attitude of the Government and the responsibility of the Cayman Islands as a financial centre remain and strengthen. So it behoves this Government to do everything in its power to create investors' confidence and acceptance here. I myself see me doing something to change our own position.

So I am not condemning the Opposition for putting forward their case. Naturally I should like in my presentation to put forward the positive side of what we try to do in this Government.

Mr. President, if this Bill goes through I will be writing to the Registrar of Trade to request if from that he sends notification to any foreign company trading here in the Cayman Islands of the possibility of them with as that they will have sufficient time to make proper arrangements for winding down operations, if there are any owned by foreign corporations at this time.

Mr. President, we must also be looking at the position of foreign ownership of land in these Islands and the measure taken to going forward to consider one of these. Mr. President, when foreign companies own land here they go off and you never hear anything from them again. The property is sold up and as I said yesterday you never hear nor see from them. This is something which we should guard against. There is no objection to foreign companies owning land, this is foreign companies registered in the Cayman Islands or foreign nationals. This Bill is seeking only to deal with what is determined under the Ordinance now as a foreign corporation.

Mr. President, I support this Bill and I have no fear of it damaging the Cayman Islands' image in any way. The Bill is quite normal and I support it.

HON. HENRY C. ADAMS: Mr. President, I have no hesitation in supporting this Bill, Sir. Over the years I have learned to appreciate the intrepac of the Legislature of some people's minds. However, I must say that in today's climate they have been compressed by artificial dimensions of their ability to read things into a Bill which are not there.

HON. DENNIS D. KWANG (CONTINUED): This is my view, Mr. President, in a very simple way. I thought that the record had made it clear why the BIA has disapproved. There is nothing nonconsistent about this action. It might be that it is so simple that it is going over the heads of some people who are looking for much more sophisticated reasons behind the bill. It looks to me to see how anyone could read into this bill any attempt to deprive the Government to impose a land tax, when in fact what the bill is seeking to do is to discourage the ownership of land by a particular type of company. It should be made very clear here, Mr. President, that this refers to corporations or companies, not to individuals. If a foreign national wants to own land in the Cayman Islands there is no restriction on that being done. They simply register the land the same as any Caymanian would do.

However, having said that, even if there was provision in our laws for foreign nationals not to be easily registered as owners of lands in this country it would not be any moral protection. What I am really saying is that we are one of the few countries where privately nationals can purchase land unrestricted and without permission. Maybe that is something that people with good imaginations would like to think about the effects of it, to occur to some. I am not particularly one myself but I am merely saying that other countries might feel it necessary to introduce such legislation. This certainly was the intent of this bill. As explained, this bill only affects one type of company. That is a company registered as International Business Company in the Cayman Islands and then not registered to do business in the Cayman Islands under the provisions of Law Part VIII of the Companies Law.

The Member said that he would like to see difference the census changed but, Mr. President, that is the whole reason why, more years ago after the Legislature had two some idea effect and the Companies Law was in being, and much activity was taking place in real estate, the Land Holding Companies Equity Always Transfer Tax was introduced. This was to prevent people from including land in the name of a company, transferring the shares in the company thereby transferring the land and circumventing the figures of the stamp duty.

So, if someone is suspected that value has to be placed to incorporate a company in Canada and that company is allowed to own land in the Cayman Islands, and then that person can transfer the shares in that company to Joe Jones thereby transferring the ownership of the land without paying the stamp duty, then he is going for problems, and he is asking Government to deprive itself of revenue and to make himself out of one and stone out of another. It is very clear how that this bill is seeking to do and it should be made very clear that they have not really given to foreign companies the right to business in Cayman. To the best of my knowledge the case cited in the media of the bill was the one solitary case where a foreign company did not register in the Cayman Islands and might be cut land in the Cayman Islands. In fact, they had obviously paid the money, bought the land and it was found that on the eight interpretation of our law the company could not own the land. This legislation is seeking to plug that loophole.

One Member said that there was no definition of a foreign company. Mr. President, section 163 of the Companies Law makes it very clear what a foreign company is, and there is no similarity between a local company and a foreign company with the others.

MR. JOSEPH C. SCHULZ (COMMISSIONER): A foreign company is merely required to register if it wishes to exercise the privileges of the Companies Law, a company who is incorporated elsewhere which registers the Memorandum and Articles of Association have only the intention of doing business. We have many of them across the place. All of the major banks would be registered as foreign companies since they are incorporated elsewhere. To find us see that little notice on the door, I believe, "Registered in the United Kingdom" or "Canada" as the case may be. It is an all black letter with the print of it. It is required under the Act.

This Bill is making it, as I said, impossible for other companies or the ordinary Cayman registered company to claim that exemption because it is a sales tactic now used by our Caymanian Insurance Agents and the only definition I suppose which could have been used - which in this sense means that it has not represented here. It has no legal right in the country as I would say that under the present circumstances. It should be made clear, Mr. Speaker, that this does not prohibit as I see it a foreign company from carrying land in the Cayman Islands. It is not complicating the land of any foreign company registered in the Cayman Islands.

What it says is that any foreign company which ceases to be registered in the Cayman Islands and the rest of it, will forfeit the land to the Treasury. This is no different to a company having struck off the Register or having dissolved. So there is nothing sinister or unusual about this, Mr. Speaker. It is not seeking to take any land which I would suppose is known to be registered in this country. This is why if previous companies might have got through and registered a piece of land, I would imagine this is why the notice is being given. However, the actual provision I would also say that really no notice would be given, because to my knowledge it has been the custom of the Registrar of Lands not to register as the proprietor of any piece of land any company which is not incorporate or registered in the Cayman Islands. It just is his refusal to so register the land on which the instrument was given. This now seeks to regularise the position which has been practised all along.

So, Mr. Speaker, I think should not be alarmed or become disquieted by believing that all of a sudden Government is out on a land grabbing spree and is going to confiscate all of the land owned by foreign companies or foreign individuals in the country. I am amazed to hear the Member question the difference between this type of company and any other company and wonder what happens to land owned by those other companies. If it is in a land holding company in name only of the shares are transferred. There is an obligation on every company to make a return once they fall inside the description of a land holding company. So there is no doubt in my mind, Mr. Speaker, that there is a world of difference between ordinary companies and the company, the ambit which is the subject of this Bill.

Section 2 of this Bill makes it very clear what is being talked about. If I may be permitted to read the whole thing, Mr. Speaker, maybe it will answer many things:

> "land" includes messuages but it may be enlarged or restrained by the interpretation of enactments by which any company or association may be entitled to a body corporate by whatsoever name so called or not - "

It is significant that the Bill contains here "enlargement of construction by whatsoever name so called" and "body corporate by whatsoever name so called" because it indicates that there are bodies corporate which

SEN. BARROW (D. Cobb) (CONTINUED): So the explanation I've received is that we have different terminology for the registration of corporations and the body corporate. However, to put it at its most basic there are two sections which are note:

> "(a) an ordinary company, as defined in subsection (1) of section 3 of the Companies Law;"

briefly that means that if the company that offers its first foreign company did not register for corporations and associations with the Local Registrar it would not be considered ordinary company, or if I'm not note:

> (b) formed and registered under the Companies Law; or
>
> (c) registered as a foreign company under part VIII of the Companies Law,"

To whom:

> "has or ceases to be registered as a corporation or in any other manner to hold land in the Islands."

So once the foreign company complies with the existing Companies Law and registers locally, then we have no problem. It's one item. It is only in the case of a company incorporated somewhere in Timbuktu which elects that it's now not time to half of the Cayman Islands without being registered here, and keep transferring the shares of the company without paying any stamp duty. That company has to worry about this bill.

I say that we would not be doing our jobs if we did not pass the legislation which is before us, which will stop that invasion of persons to that type of company the ability to buy any small land in the Cayman Islands without the payment of stamp duty. To have no right will cause that type of person to own land in the Cayman Islands anyway. It might be some money.

So, Mr. President, I have no doubt that persons who would want to be home [sic] Cayman Islands will understand what this Bill means, and I am sure that this Bill is not going to cause any loss of investment confidence in the country. In fact, I think it will enhance the confidence in the Government of the country.

With those remarks, Mr. President, I support this Bill wholeheartedly.

HON. SPOTTSWOOD: We are already sixteen [sic] years than would find making our statutory afternoon break. I hope it's obvious that the Member was coming to the end of his speech and found that I was mistaken. I think perhaps we might suggest proceeding for a further eleven [sic] three hours, and suggest that we may be put back to ten minutes.

AT 3.30 P.M. THE HOUSE SUSPENDED

MR. SPEAKER: Please be seated.
Does any other Member wish to speak? The Second Elected Member for West Bay.

MR. W. MCKEEVA BUSH: Mr. President, I have approved the Government's Motion in this Meeting but I want to all good constituents accept this Bill. I should say that not being a lawyer I would like to hear these Bills for a longer period in order to study them properly. However, I give my support to this Bill.

Mr. President, I have listened to the opposition and I have listened to the Government Bench. I cannot see where anyone in their right state of mind can say that this Bill is a contradiction to the Government's policy. I see where it can help the country. I do not think there is anyone here who could keep any of these companies registered here. It is only allowing those companies who are not registered here in this country the opportunity to register; pay the penalty of $50 to the Treasury now for the Treasury like $.5 per cent stamp duty when it wants to sell the property and therefore become a duly registered company in this country controlled, Mr. President, by our Caymanian law. It would certainly make Caymanians people who want to use the Cayman Islands as a laundromat; ground for their dirty money. They might not wash this Bill but up a little grove of wood and then launder the money through here.

I do not believe, Mr. President, that this Government is in any sense towards Caymanian ownership. I do not believe that they have any vision for any part of land law. Why, Mr. President, they know that they don't run Cuba. I believe that the Members of the Government Bench have better sense. I look over there, Mr. President, and all I see are intelligent people. Very hardworking chaps. There are only politicians, no statesmen. I do not feel, Mr. President, that we train in this country any different from the look of any industrial Yankee. I have every hope that within a few months this country is going to take off again. Yes, Mr. President, right now is my feeling a little slow period but this will not occur just overnight. The economy of this country has been down for about the last two to three years. We have gone all over the Caribbean. We suffered the loss of investor confidence when investors in the past bought land here but found out that they had no land. We suffered the loss of investor confidence when investors brought money in this country and when they found out that they had some land. We suffered the loss of investor confidence when foreign investors bought condominiums in this country, but when they got here they were told that they had none and had to go to court to get them.

Mr. President, where are the measures why our economy look this downward trend. How are the Opposition get up and say that this real Government is causing the investor to lose confidence? Mr. President, some of them have a track record. They have been in Government for eight years and we have just taken over for a mere nine-and-a-half-months.

Mr. President, it is not fair to look at the past but we must look at the past. We learn by our mistakes, Mr. President. Mr. President, the Opposition has talked about nationalization. The only time nationalization began in this country was during the previous administration. They nationalized

MR. M. BOWERS QUAN (TRINIDAD): Our Government attaches as much importance to the Bill as the Government of Guyana. This is a nationalization. The only time that nationalization was mooted in this country was when the former Elected Member for Dedrick Jack joined ranks with a number of the Honourable Members in the previous Government suggesting the nationalization of Caribbean Bauxite Company. Mr. President, that is the Indian way. Even while they agree with Socialist schemes, the Guyanese people are known for, precedent. They realize what is happening and I am sure that the people realize that their Government which they have elected by a tremendous victory is doing the best. When they help free the straight and narrow way "Panjo" will help us back when back on the track again.

I support the Bill, Mr. President.

MR. SPEAKER: Does any other Member wish to speak? The Honourable Third Official Member.

MR. VICTOR C. JEFFERSON: Mr. President, what a difference twelve months make. First I am the mover and now I am supporting the Bill. However, I am very grateful to my learned friend for moving into the mind of moving the Bill.

You will agree with me, Mr. President, it is a Bill for a double check the Registration Bill. I have no doubt whatsoever that this Bill will cover effect the financial industry in the way. It will ensure no damage as will, Mr. President, in my view.

The Registrar of Lands incidentally operates on the three main laws when he deals with, the Registered Land Act, the Stamp Duty Act and the Land Holding Grant Ordinance Cap Land. In this area we are dealing with a country. There are a number of companies on the books, Mr. President. There is the ordinary Non-Resident company. There is the Exempt company and there is the Trade company. The reason for this Bill, Mr. President, and the effects of the Bill cause some of these companies any serious uneasiness.

In the areas of the Bill already introduced the Registrar of Lands, unfortunately for many years has refused to register any company wishing to purchase land at the Cayman Islands which has no registered office here, or else not registered in the Cayman Islands. While carrying out his duties, Mr. President, when a company presents him to purchase a parcel of land in the name, the Registrar requires documentation from this company that it is registered in the Cayman Islands, be it a certificate of incorporation or what have you. If it does not have this documentation he refuses to register the land in the company's name.

Prior to February, 1965 this was the operation. The Registrar refused to register any parcel of land in the name of a company which was registered elsewhere and has no registered office or what have you in the Cayman Islands. In February of this year the Learned Chief Justice ruled that that company could hold land in the Cayman Islands. Therefore, Mr. President, there cannot be many companies of this kind which registered land without one of the Although through the negligence of the Registrar of Lands and his unfortunate of dealing with the registration of land in companies as in Guyana, I would assume that we are dealing with only the one case which came before the Learned Chief Justice.

HON. MICHAEL O. LEAVITT (CONTINUING): The bill which is before this House today is seeking to re-establish the provision prior to the Supreme Chief Justice's decision. That is what a company, let us call it an alien company, must do before it can engage in business in the Cayman Islands. That company which will come here in the Cayman Islands. The main reason for that, Mr. President, is that we have no way of collecting stamp duty from a company which has no obligation to report anything whatsoever to the Registrar of Lands. Therefore, we will have no knowledge when the company changes shareholders.

Mainly, all it is the modification as set it, I would prefer to see the bill that the time will be moved to the Financial Secretary from the Cayman Islands Government. Mr. President, if we examine the Companies Law, Chapter 22 which has been on the books since 1961 or 1962, and look at section 179, if you would permit me, Mr. President, it reads:

> "Any property vested in or belonging to any company,"

I am relating all of this to a company which is struck off.

> "struck off the register under this Law shall thereupon vest in the Governor of the Islands for the benefit of the Islands, and shall be subject to the disposition of the Legislature."

Since that time, Mr. President, the word Treasurer was changed to Financial Secretary and the disposition was changed by the Governor in Council.

Therefore, Mr. President, there is nothing new about vesting of property in the Financial Secretary. I can think of no instance, Mr. President, during my time in the Department of Finance and Development that Government had ever taken any property from any company struck off the register. What generally happens is explained by the honourable Member Elected Member to that the Government receives the directive or description of the company in case that the fees which were due Government, and depending on what type of company we are talking about there are penalties also involved, penalties of several notices, Mr. President. Once those fees are paid Government makes the decision to restore the company to the rightful owners.

The reason for the Bill as I said before, Mr. President, is simply to show what we see as a very dangerous loophole in the payment of stamp duty and the collection of duty.

Thank you, Mr. President.

HON. PRESIDENT: Does any other Member wish to speak? I know the Member which to reply?

HON. MICHAEL J. DALEY: I think, Mr. President, I would be doing less than fulfilling my Ministerial responsibility to this Bill if I failed to reply to the debate which has taken place so far.

Mr. President, I have listened very attentively to the very eloquent which have been made in relation to this short Bill. I have in my opening speech endeavoured to make it quite clear that the Bill is merely designed to ensure that there is no ambiguity in the interpretation whereby the responsibility for the payment of stamp duty upon the effective change of ownership of land can take place.

HON. MICHAEL J. SHARRY (continuing): Members on this side of the House have explained and illustrated so amply the present situation and the great delinquency that there is no need for me to do anything further in pleasing the debate than to emphasize that hopefully this Bill and the exemption Bill the Corporate Investment Bill, have been made necessary because the family held belief for many years in this jurisdiction that a company which is a foreign unregistered company which purchases land in the Cayman Islands was not held to be so by the Grand Court, who held that it was just for purchasing land and registering it did not involve such a foreign unregistered company in carrying on business. That having enjoyed this decision and until this Government successfully appealed against the administrative decision of the Registrar of Companies not to register the document in the first, no such foreign unregistered companies were entitled and registered as owners of land in this jurisdiction. This anomaly must have been the first it may be that it is the only one. However, in order that this anomaly and any others that there may be must be made crimpels this Government has taken the unprecedented step of introducing in the Legislative Assembly two Bills one Bill entitled Legal Steps and the Registered Land Law. Both Bills have provided that the provisions really being debated here should not take until some four months time, the 30th September.

It is that time within which each foreign unregistered company which, upon having given us the assurance that they will not offer business in these Islands or offend by these our Bills, we seek to put on their own property then, if they have no land we have a duty for them.

What this Government in this legislature seeks to assure the, Mr. President, that necessary machinery are not carried in a manner contrary to the will and spirit of the legislature.

Mr. President, one other matter before closing I feel is worthy of comment. The Honourable Second Elected Member for Bodden Town has stated that one responsibility in presentation of this Bill to the general public is that the Association of Bylaws and Notices did not make its responsibility clear that the effect on application by me by my opening address would be. Mr. President, it is always a matter of balance in laying responsibility in relation to Legislative Language in a Memorandum of Objects and Reasons the effect of legislation without having to go so far and find oneself in the situation that the Memorandum of Objects and Reasons on face is many cases is far longer than the Bill. However, I do take note of the point and do concede to the responsibility for drafting Memorandum of Objects and Reasons appropriate with a Bill that persons reading the Bill and reasons will have as far as possible a clear understanding of the basic principles underlying the Bill which is encompassed.

I feel that if we are put in a Memorandum of Objects and Reasons to spend about "by" and for every Bill that the effect of such a memorandum would be explained. However, I have taken the point and I will endeavour to do so.

Mr. President, Sir, I commend this Bill to the House.

MR. PRESIDENT: The question is that a Bill entitled a Bill for a Law to amend the Registered Land Law be given a Second Reading.

QUESTION PUT: AYES AND NOS.

MR. W. McKEEVA BUSH: May we have a division, Sir?

DIVISION NO. 26

AYES:	NOES	ABSTENTIONS
Hon. Dennis M. Foster	Mrs. G. Haig Bodden	Mr. Clayton A. [illegible]
Hon. Michael J. Bradley		
Hon. Thomas C. Jefferson		
Hon. Duncan C. Ebanks		
Hon. W. Roman Bodden		
Hon. Capt. Charles L. McCormmell		
Hon. Vassel O. Johnson		
Mr. W. McKeeva Bush

Capt. Henry S. McCormmell		
Mr. D. Kneeland Miller		
11	1	1

MR. PRESIDENT: I declare the motion carried.

AGREED BY MAJORITY: BILL GIVEN A SECOND READING.

MR. PRESIDENT: We have approximately ten minutes before the normal time for ending business. There may be either a short time to start a Second Reading debate on the Penal Code (Amendment) Bill, 1998 which would normally be the next one. I'm wondering whether though it might be helpful if we took the First Readings of the three Bills which are down on the Order Paper. This would enable us without having to suspend Standing Orders to take the Second and Third Readings on the same day at a later stage in this Session if it deemed by be convenient so to do. It will not take us very long to deal with the three First Readings if we do them in succession. Is it felt to be convenient to Members?

HON. MICHAEL J. BRADLEY: Mr. Speaker, perhaps when you take the First Reading, just immediately after the First Reading of the Penal Code (Amendment) Bill if I could with your permission mention to Members a typographical transposition of words which has appeared in the green copy, otherwise it will be unintelligible to Members?

THE PENAL CODE (AMENDMENT) BILL, 1998

FIRST READING

CLERK: THE PENAL CODE (AMENDMENT) BILL, 1998.

MR. PRESIDENT: Perhaps the Honourable Second Official Member would like to direct the House's attention to the printing error which has occurred.

MR. RICHARD J. DOYLE: I am very grateful, Mr. President, for because I thought that the honorable Members were doing their homework tonight and come with fine contributions, as I am sure that they will be very busy homework tonight, that it would require a certain amount of confusion.

If Members would turn to the first, second, third, fourth, fifth, sixth, seventh page of the printed text of the Penal Code in the green copy they will find on page three section "(2) This section does not apply to a sentence for any offence whatever", which has three clauses that appear there, but should appear as (a), (b) the third page of the green copy which was handed, "(c) section 207".

Perhaps I can do it another way, Mr. President, that if Members turn to the third page which is section 197, that is the third page on the right hand side right at the top. Immediately before that (2) they would find right over in the margin "(2) This section does not apply to a sentence for any offence whatever". On the seventh page which would which I have read out, "(3) This section does not apply to a sentence for any offence whatever" should be deleted. The (a), (b) (c) those were renumbered in consultation I presume.

If any Member is still in doubt I will show it to them afterwards.

MR. SPEAKER: You will continue? Did I hear a Hon to second the Motion? Does he wished to have been read a first time and to set down for Second Reading.

If we could now take the First Reading of the main Bill.

THE HOUSE OF ASSEMBLY (AMENDMENT) ACT, 1968

FIRST READING

CLERK: THE HOUSE OF ASSEMBLY (AMENDMENT) ACT, 1968.

MR. SPEAKER: The Bill entitled a Bill for a Law to amend the House of Assembly Act (Revised) be deemed to have been read a First time and be set down for Second Reading.

THE REGISTRATION OF ELECTORS ACT, 1968

FIRST READING

CLERK: THE REGISTRATION OF ELECTORS ACT, 1968.

MR. SPEAKER: The Bill entitled a Bill for a Law to disqualify persons who have not been ascertained of the certain offence for periods of years to prevent the unauthorized disclosure of their previous convictions, to amend the Law of Defamation and for purposes connected therewith be deemed to have been read a first time and be set down for Second Reading.

ADJOURNMENT

HON. DENNIS M. FORTE: Mr. President, I move the adjournment of the House until 10.00 a.m. tomorrow.

MR. SPEAKER: The motion before the House is that this House do now adjourn until 10.00 a.m. tomorrow.

Perhaps before I put the question I could just say to Members in case any of them have not heard that unruly noise emanating from a member I have passed the information that it may be convenient, at least to many Members, if tomorrow we plan to break for lunch at 12.30 p.m., because a number of people interested in what appears have expressed. So I give notice of that so that Members may make their plans accordingly.

I will put the question that this House do now adjourn until 10.00 a.m. tomorrow.

QUESTION PUT: AGREED TO. AT 4.27 P.M. THE HOUSE ADJOURNED UNTIL 10.00 A.M. TOMORROW, FRIDAY, 23RD MAY, 1986.

SECOND MEETING OF THE 18TH SESSION OF THE LEGISLATIVE ASSEMBLY

SUMMARY
22ND MAY, 1988

PRESENT WERE:

HIS EXCELLENCY THE GOVERNOR, MR G TAYLOR ESQUIRE, CMG, O/B - PRESIDING

GOVERNMENT MEMBERS

THURSDAY

23RD MAY, 1985

10.08 A.M.

MR. PRESIDENT: Please be seated. Proceedings are resumed. Questions. The Second Elected Member for Bodden Town.

QUESTIONS

THE SECOND ELECTED MEMBER FOR BODDEN TOWN TO ASK THE HONOURABLE SENIOR OFFICIAL MEMBER OF EXECUTIVE COUNCIL

NO. 69: Would the Member state what the cost was per square foot of carpeting the Treasury Building, the Courts Building (first renovation) and the Administration Building (last renovation).

ANSWER: The cost per square foot of carpeting the following buildings was as follows:-

(a) The Treasury CI$2.25 sq. ft.
(b) The Courts CI$2.49 sq. ft.
(c) The Administration CI$2.68 sq. ft.

SUPPLEMENTARIES:

MR. M. McKEEVA BUSH: A supplementary, Mr. President. Could the Member say whether Public Works Department carried out this renovation, or whether it was a private company?

MR. PRESIDENT: By "this renovation" do you mean provided the carpet, because if you are talking about something quite different than it is....

MR. M. McKEEVA BUSH: The carpeting, yes, Sir.

HON. THOMAS C. JEFFERSON: Mr. President, the answer is that the carpet was supplied by a private company.

MR. M. McKEEVA BUSH: A further supplementary, Mr. President. Can the Member say what private company it was? Is that available?

HON. THOMAS C. JEFFERSON: Yes, Mr. President, it was Paramount Carpeting.

MR. PRESIDENT: If there is no further supplementary I will ask the Second Elected Member for Bodden Town to ask the next question.

THE SECOND ELECTED MEMBER FOR BODDEN TOWN TO ASK THE HONOURABLE SENIOR OFFICIAL MEMBER OF EXECUTIVE COUNCIL

NO. 80: Would the Member state what steps have been taken to investigate the allegations of bribery made by the Non-Attached Fourth Elected Member of Executive Council during the Budget and Throne Speech Debate in March, 1985?

ANSWER: In order that investigations may commence regarding allegations that any criminal offence has been committed, a complaint should be made to the police authorities. Once such investigation has been completed, if the matter is sufficiently serious, a police file is forwarded to the Attorney-General for consideration as to prosecution. No such police report has been received by the Attorney-General and no complaints regarding alleged offences of treason have been received by the police.

SUPPLEMENTARIES:

MR. G. BAIC BOOTH: Mr. President, may I ask a supplementary. Can the Member say if Honourable Members of Executive Council will make sworn statements to the police or any investigation they may have regarding this matter?

MR. PRESIDENT: I do not think that is a question which can be properly addressed to the Honourable Second Official Member. It is not something within his responsibility. If I understood the supplementary might you were asking whether Members of Executive Council would make sworn statements. Am I correct?

MR. G. BAIC BOOTH: Yes, Sir, because this is such a serious matter. If they have information they should make statements under oath to the police.

MR. EDWARD A. PICKLES: Mr. President, a supplementary. In view of the answer would the Member state whether the allegations made by the Honourable Fourth Elected Member in the Budget and Throne Speech debate were without foundation?

MR. SPEAKER: That is not a question the Member can properly be expected to answer, that is the Honourable Second Official Member.

MR. G. ALLY BOOCOCK: Mr. President, can I ask the Member if he will ask the Police Department to investigate this matter?

HON. MICHAEL J. HANDLEY: Mr. President, as previously stated the procedure is that if any individual believes that a criminal offence has been committed a complaint should be made to the police. If the Honourable Member has knowledge of any such offence I am sure that he will in a good citizens make a report to the police like any other citizen.

MR. G. ALLY BOOCOCK: Mr. President, my question was asked simply to get some knowledge. I heard something in the Assembly which I take it that the Member was making allegations responsible for the veracity of the statements.

MR. SPEAKER: I think that the Member has probably made his point. Would he like to move on to the next question?

THE SECOND ELECTED MEMBER FOR DOLOUR: (CONT'D) ASK THE HONOURABLE SECOND OFFICIAL MEMBER OR ANOTHER MEMBER OF COUNCIL

NO. 61: Would the Member state what sorts of treason have been committed by Miss Constance of 44 mentioned to by the Honourable Fourth Elected Member of Executive Council during the Budget and Throne Speech debate 4th March, 1965?

ANSWER: No inquiries have been received by the Royal Cayman Islands Police Force concerning allegations of treason allegedly to have been committed by any persons on Island.

SUPPLEMENTARIES:

MR. G. HAIG BODDEN: Mr. President, may I ask the Member if he can state whether Government has a list of the members of the Committee of 44 or has any idea of its composition?

MAJ. MICHAEL J. GRADDY: To the best of my own personal knowledge I do not have a list of the members of the Committee of 44, but I would be very interested to receive one from the Honourable Member if he wished to give me one.

MR. G. HAIG BODDEN: Mr. President, since this matter was started by Executive Council they are the ones who should have the list. I am asking the Member of whose Executive Council of which he is a part started this business, will he give us the names? Or is it that no Committee exists? I think he has a duty to the public to tell them and not try to dodge the issue.

MR. PRESIDENT: I am not quite sure whether there was a question in all that. It sounded more like a statement to me.

MR. G. HAIG BODDEN: Mr. President, since you mentioned it, I did make a question.

MR. PRESIDENT: It was well connected.

MR. G. HAIG BODDEN: My question is what arose the talk about the Committee of 44 was started by the Executive Council will he tell the Assembly whether a Committee in fact exists, or whether it was just a statement of the imagination of Executive Council?

MR. PRESIDENT: I think with respect that the supplementary is clearly objectionable. It says that talk was started by Executive Council. Talk was started by one Member of the House and I think that the substantive question which you have put does make clear that it was one particular Member of Executive Council who in the course of a speech referred to the Committee of 44. It was not Executive Council as such, so the supplementary I think would have to be disallowed.

MR. CARLTON A. FLOWERS: A supplementary, Mr. President, and it will be a supplementary, Sir. With anything as serious as an act of treason in this country, certainly the Royal Cayman Islands Police Force would have known of this. In view of the importance placed on the deliberations of this House, should any honourable Member be allowed to make statements without foundation?

MR. MICHAEL J. MYERS: ... hypothetical. Mr. President, may I say that not a very significant question?

MR. PRESIDENT: Well, I think that it is a question which can be answered by reference to... I would point more to being asked the question. Perhaps I was being asked the question, because, Standing Order 28(2)(b) says that if a question... does, that is if a question contains a statement of fact the Member shall make himself responsible for the accuracy of the statements. I think that there is probably something else. I cannot find it at the moment, but I think possibly there is something....

HON. MICHAEL J. BRADLEY: Standing Order 28(2)(g) additionally...

MR. PRESIDENT: That relates to questions. That is what I had in mind first. Oh, Standing Order 28(2)(g). Representation of opinions. Yes.

HON. LEONARD A. STEVENS: Mr. President,...

MR. PRESIDENT: Standing Order 28(2)(g) says that a question shall not contain an expression of opinion.

HON. MICHAEL J. BRADLEY: I think, Mr. President, that the many hypothetical questions of the Honourable Members appear to be well considered as the Minority of the Committee of 44. (LAUGHTER).

MR. S. ALEC DOUCETT: Mr. President, can I ask the Member of the Committee of 44 behind the Elected Members of Executive Council to be advised to the House?

MR. PRESIDENT: I think that the whole answer is in your remark. (LAUGHTER).

HON. LEONARD A. STEVENS: Mr. President, the point that I was making, Sir, and I can see them, this could be dealt with under Standing Order 28(2)(g) as hypothetical, but the statements which were made in the budget debate by the Honourable Fourth Elected Member of Executive Council was certainly news thereat. My question was enquiring whether such statements as certain as Leader should be just glibly made in the House, because we have a public out there who are listening to the deliberations of this House?

MR. PRESIDENT: If there is no further supplementary I will invite the Queen Elected Member for Georgetown to ask his question, Mr. Ed.

THE QUEEN ELECTED MEMBER FOR GEORGETOWN TO ASK THE HONOURABLE THE ELECTED MEMBER RESPONSIBLE FOR COMMUNICATIONS WORKS AND HOUSING: (Continued)

MR. ED: Would the Minister state whether the tender of tents issued out at the Public Works Department were applied for by a Division Engineer only stating that the amount applied for in this Department was not enough for his purposes in the immediate working environment of that employee, and the names of the individuals or institutions that received such tents?

ANSWER: The matter is presently under investigation by experts from the United States Administration, and the results of these findings will be submitted to the Congress when received.

It is anticipated that in each of the coming two years, a release will be made. However, the matter is one which is not justified at the present time.

MR. PRESIDENT: If there is no supplementary let us move on to the next question.

THE SECOND ELECTED MEMBER FOR CENTRAL TOWN (THE HONOURABLE JOSEPH EDWARD) (MINISTER OF AGRICULTURE, FISHERIES AND FORESTRY): REGISTRATION FOR TOURISM ACTIVITIES AND SERVICES

NO. 82: Would the Member state whether any efforts have been made to investigate complaints which have been made by visitors to these Islands regarding the very high degree of accommodation and the high costs of air fares to and from the Islands?

ANSWER: No formal complaints have been received by Government from visitors on these matters. However, discussions have been held with hoteliers and the difficulties regarding the cost of accommodation and air fares which have resulted in very attractively priced packages being made available to the travelling public.

SUPPLEMENTARIES:

MR. LINFORD A. PIERSON: A supplementary, Mr. President. Perhaps this supplementary might have needed some time for the Member. If not, I will bow to your ruling, Sir. Would the Member state the number of arrivals by air for the first quarter of 1986, and how this compares with the corresponding period in 1985?

MR. PRESIDENT: I do not truly think that that is a supplementary. I dare say that the Member will be prepared to get that information for you. However, I cannot allow it as a supplementary. It does not arise out of the answer.

HON. E. CLYDE FOSTER: Mr. President, this is the subject of another question which is put forward by the Second Member for East End, which will be dealt with on another day.

MR. PRESIDENT: To be truthful I had forgotten that.

HON. LINFORD A. PIERSON: Thank you, Mr. President, I have another supplementary which perhaps the Member could supply the information or do me if the right hon. Member could state what information is readily available. What the Member feels the average time spent by travellers using hotel accommodation during the first quarter of 1986?

HON. W. MCKEEVA BODDEN: Mr. President, if the Member is referring to the average length of stay, it is between four and five days.

MR. PRESIDENT: The Third Elected Member for West Bay.

MRS. LORRAINE T. OLIVETT: Thank you, Mr. President. I would like to ask a supplementary here. Could the Mexican state whether or not he was able to carefully read and observe what was printed in a recent issue of Time Magazine regarding the American invasion in the type of destruction they are looking at now private-wise?

MR. PRESIDENT: I am not sure that that is really a supplementary which carries out of this, though not having seen the article I do not know. If it was an article about refreshments perhaps.

MR. LEONARD A. STEVENS: I think that it does carry out of the question, Mr. President.

MR. PRESIDENT: You do?

MR. LEONARD A. STEVENS: If I may, Sir, the article which was in the Time Magazine was the part of answered by question, referred to the facilities which had been adopted now in the American public in furnishing to Europe because of the language and the cheap cost there and communication which they are getting there. This is why I am putting the question, Sir.

MR. PRESIDENT: I see. Well I will....

MRS. M. MORGAN BOLTON: Yes, Mr. President, I read the article in fact it was actually brought to my attention by the Second Planter/Member for Georgetown originally. By the way, in London Department that we are dealing with a highly progressive, hard headed worker. This is the reason why we have not been following and are trying in an effort to make our package known to the Cayman Islands more extensively known.

MR. PRESIDENT: Question no. 24?

THE SECOND ELECTED MEMBER FOR GEORGE TOWN TO ASK THE ADMINISTRATOR GENERAL WHETHER HE CONSIDERS THAT THE RESTRICTIONS FOR TOURIST ARRIVALS AND STAYS

NO. 24: Would the Minister state what efforts are being made to encourage and promote more charters and package trips to and from the Cayman Islands?

ANSWER: Cayman Airways has been negotiating with charter operators for charters to operate to and from points in the USA and Canada and the Cayman Islands. Arrangements have been approved for a number of charters from the USA and Canada. Such agreements were granted after careful consideration of their effects on the continued economic health of the Islands, having due regard to the fact that it is desirable to have the Cayman Islands benefit from tourism charter operations in the Caribbean.

Alternative package tours are currently in the marketplace and are already monitored and reviewed as necessary.

INTERPRETATION:

MR. G. ILLO ACOSTA: Mr. President, the amount payable that Guinea Africaine is seeking to have allocated into Canada and the United States. Can the Member ask if the present equipment, that is the F27 jets, will be able to handle the Canadian charters?

MRS. M. BERNICE PICKUP: Yes, Mr. President, the F27 aircrafts can handle additional charters, and as the charge begins to materialize you exercise Canada with no problem.

MR. LINDSAY A. PIERCE: Mr. President, without asking for exact figures, could the Member state whether the Turks and Caicos and New York charter routes have been successful for Cayman Airways?

MR. PRESIDENT: I really do not think that that is supplementary, because your first question was "what efforts are being made to encourage and promote more charters multi-million tours". I think that if you want specific information about past performance on a route you will need to put down a question about it.

MR. LINDSAY A. PIERCE: Thank you, Mr. President. The nature of the supplementary related directly to the previous question in that if the Turks and Caicos and New York charter routes were successful, it could be assumed that there would be an expansion in this service. If they were not, then perhaps further considerations would be given. This is the reason for the supplementary, Sir.

MR. PRESIDENT: I can understand the reason, but it still does not mean that it obtains into the answer given. If you read standing orders you will find that it has to, in fact, be a completely precise question but it would sometimes seem as a supplementary question. The Member really be that Members who answer questions cannot be expected to be ready to supply information which does not directly arise out of the answers they give. Anyway, I dare say that the Member will be prepared to attempt to make that information available to you in due course. I am not sure.

HON. H. HUBERT SOLOMON: Yes, Mr. President, I can make that information available, but the original question was in fact dealt with otherwise and package tours to and from the Cayman Islands, so I think that you are quite right to request a supplementary in connection with Turks and Caicos and New York charters. However, if the Member is desirous of having this information I can supply it.

MR. PRESIDENT: Question no. 22.

THE SPEAKER ELECTED MEMBER FOR WEST BAY TO ASK THE HONOURABLE SPEAKER/EXECUTIVE MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR TOURISM AIRPORTS AND TRADE

NO. 22: Would the Member state what the cost of the Lakehead and Monarch Report was?

ANSWER: The cost of the Lakehead and Monarch Report was CI$37,450.

SUPPLEMENTARIES:

MR. H. MARSHALL BUSH: A supplementary, Mr. President. Could the Member say whether the report was accepted by Government?

MR. PRESIDENT: I do not think that this is a supplementary. In any case I think that that question was asked yesterday and it was answered yesterday?

MR. H. MARSHALL BUSH: I was just trying to get him to repeat it to make certain, Sir. Anyway, Mr. President...

MR. PRESIDENT: Are you satisfied...

MR. H. MARSHALL BUSH: Could the Member say whether Government will take the report?

MR. PRESIDENT: I thought that was asked that question yesterday and had an answer to it. Let us try the Elected Member for North Side now.

MR. D. RICHARD MILLER: Yes, Mr. President, in light of the answer given yesterday, could the Member...

MR. PRESIDENT: Which yesterday are you talking?

MR. D. RICHARD MILLER: No, yesterday.

HON. MICHAEL J. GRADDY: That is not a supplementary.

MR. PRESIDENT: Well, nonetheless let me make sure that it is a supplementary which arises out of the answer to today's question.

MR. D. RICHARD MILLER: Yes, Sir. Since this report that Cabinet has now there may have been reports which Government might have in existing this amount of money which are not going to be accepted?

MR. PRESIDENT: I do not think that the Member can be expected to answer that question. It is not merely a supplementary. You could ask a substantive question to that effect if you wished.

MR. H. MARSHALL BUSH: Mr. President, whether supplementary, I am not certain if it is permitted as a supplementary, but let me try to....

MR. PRESIDENT: You may try.

MR. H. MARSHALL BUSH: Could the... tonight, Mr. President, I would just ask this question too. Of course anyway,

MR. PRESIDENT: Well, if nobody else is going to ask another supplementary you may ask another question now. Go now.

MR. H. MARSHALL BUSH: Mr. President, you see, if I may say so, this is when we get our questions still up.

THE SECOND ELECTED MEMBER FOR EAST BAY TO ASK THE PARLIAMENTARY SECRETARY REPRESENTING THE EXECUTIVE COUNCIL RESPONSIBLE FOR TOURISM AVIATION AND MARINE

NO. 86: Would the Member advise when the Lawnching Aid Research Report will be made public?

ANSWER: Government is studying this report which was a part of the Government development plan completed in 1982.

The report will most likely be tabled at the next Meeting of the House in September this year.

SUPPLEMENTARIES:

MR. M. MCKENZIE BUSH: Mr. Speaker, Sir. I wonder whether the Member could let us on this side of the House see this report before September?

MR. A. PEARCE'S REPLY: Mr. President, if request is given by Executive Council I have no objection.

MR. SPEAKER: If there is no further supplementary question no. 87, the Elected Member for East Bay.

THE ELECTED MEMBER FOR EAST BAY TO ASK THE HONOURABLE MINISTER ELECTED MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR AGRICULTURE AND NATURAL RESOURCES

NO. 87: Will the Member state whether any investigations or tests have been carried out in areas close to the Lower Valley Lane area where domestic wells and wells used for cattle have gone salty?

ANSWER: Ground water quality is being monitored approximately on the water levels throughout the Island at a three monthly interval.

Since October, 1982, 26 domestic wells have been monitored in the Lower Valley area. The programme was started at the end of the wet season just before the development of the well field commenced and the most recent tests were carried out in March of this year, 4 months into the dry season.

During this period, October, 1982 to March, 1983, the salinity of these domestic wells has risen by an average of only 6 per cent, from 280 parts per million chlorides, to 298 parts per million, well within the 600 parts per million level recommended by the Food and Agriculture Organisation (FAO).

This change occurs normally during the dry season and returns to normal during the end of the wet season. The water authority do not value of any domestic wells in the Lower Valley area increasing in salinity to the extent that they can be considered to have gone salty, that is, above 600 parts per million. The water tables usually occur at this time of the year, the dry season, as a result of tidal influence on the ground water level.

The situation with regard to some specific wells in the area is somewhat different. There has been some intrusion over a number of these wells to the North of the Lens and just South of the perimeter of the swamp. These are shallow wells that can be affected by the lowering of the water table.

SUPPLEMENTARY:

MR. PRESIDENT: If there is no supplementary. Oh, yes the Second Elected Member for Golden Lane.

MR. G. SAIZ BODDEN: It was such a long answer, Mr. President it took me some time to read it. The question which I would like to ask is with regard to the shallow cattle wells. Could the Member say if there is any evidence that the salinity has increased because of the canals; or is it because of extraction of ground water?

HON. VASSEL G. JOHNSON: Mr. President, the answer is that there has been no indication from the tests carried out that these wells have gone salty because of the extraction from the Lens. In fact before the development of the Lower Valley Lens the Water Authority expressed its concern as to the effects of canalization on the integrity of the Lens. Hydrologists were brought in to study the situation and the initial major endeavour the people might have some determined effort. A recognition was placed on the canalization in the area and data is still being collected. It is hoped that enough data will be available by the end of this year for a more exhaustive report.

MR. PRESIDENT: If there is no further supplementary the Elected Member for East End may ask question no. 88.

THE ELECTED MEMBER WHO HAS BEEN GIVEN LEAVE TO ASK THE HONOURABLE SPOKESMAN REPRESENTING THE MINISTRY OF EXECUTIVE COUNCIL RESPONSIBLE FOR DEVELOPMENT AND PLANNING MATTERS:

NO. 88: Will the Member state what plans Government has to ensure that another means of water supply is identified besides that supplied from underground supply, and how soon will this be identified?

ANSWER: Government is investigating the possibility of providing desalinated water as an alternative to ground water to supply the most densely populated areas of the Island, George Town and West Bay.

One of the most promising sources is the waste heat from Caribbean Utilities Company's generations. Government and Caribbean Utilities Company have entered into a joint venture to fund a consultative study to investigate this proposal. Full proposals are expected to be prepared within the next two months.

SUPPLEMENTARY:

MR. G. SAIZ BODDEN: May I ask, Mr. President, if the new source of desalinated water is adopted by Government, would it be an alternative to the ground water supply, or would it be supplement it?

HON. WILLIS G. HUNTER: Mr. President, if it is possible to supplement later, now the source I have just mentioned, namely the water head of Caribbean Utilities Company's generators, this will be in addition to the small water resources being used at the present time.

MR. PRESIDENT: If there is no further supplementary to the one to Item 2 on today's Agenda, Private Members' Motions, namely Member's Motion No. 4/85. Before the Member rises Hansard, I think that I should bring one point to be noticed and that of the House. I found meeting me this morning an amended version of the motion. The Member had told me that he might if it were possible to amend it, but the Standing Orders do say that five days notice of motions has to be given. I think, therefore, that the procedure that the Member has to follow is very basically the motion as it was first moved and as it was circulated to Members five days ago, and then each Member is free to do as he wishes in connection with the version which is circulated this morning.

Let me put it another way. I do not think that it is right or would be in the knowledge of the House to allow a procedure that a motion gets circulated to Members, and then on the very morning on which it is going to be debated a revised version of it which might be substantially different is presented to the House.

HON. MICHAEL A. ANDREWS: Is that a...

MR. SPEAKER: Yes?

HON. MICHAEL A. ANDREWS: I was wondering, Sir, whether that meant that you were interpreting Standing Order 24(2) so that the amended motion materially alters the scope or principle of the original motion?

MR. PRESIDENT: Oh, thank you, I am not sure that I had been reading Order 24(2). Is there anything that might have been omitted by mistake?

HON. MICHAEL A. ANDREWS: It was that the original.

MR. SPEAKER: Sorry? It says motion shall run from the time that the original motion was given. I see, yes. Alright, Bill, so that case I think that I am entitled to allow the Member to move the motion.

MR. LINFORD A. PIERSON: Mr. President, it states that Standing Order 24(2) shall apply in that case, which says that not less than one hour's notice shall be given of an amendment.

MR. SPEAKER: Standing Order 24(2) says that Standing Order 24(3) shall not apply.

MR. LINFORD A. PIERSON: Oh, shall not apply. Sorry, Mr. President.

MR. SPEAKER: Yes. So, provided that I am satisfied that the amended motion does not materially alter the scope or principle of the original motion, I may allow it. I think that on that basis, the amended version that you have had circulated today may be allowed. Contrary to what I stated earlier, you are entitled to move the version which was distributed this morning.

PRIVATE MEMBERS' MOTIONS

PRIVATE MEMBER'S MOTION NO. 3/85

ISRAELI PERSONS CONVICTED OF NAZI ATROCITIES

MR. W. HOWARD RUSH: Mr. Speaker, I beg to move private member's Motion No. 3/85 standing in my name.

HON. GILBERT S. GREEN: Mr. Speaker, I beg to second that motion.

MR. SPEAKER: Shall you...

MR. W. HOWARD RUSH: Mr. Speaker...

HON. HOWARD S. BUTLER: Perhaps it would be helpful if we were told just how the benefit of the...

MR. SPEAKER: I think that be is probably going to read it out now.

MR. W. HOWARD RUSH: Yes, Mr. Speaker;

"WHEREAS the historical possibilities of this Commonwealth are becoming increasingly;

AND WHEREAS the nation has become a fundamental element in the development of other nations;

AS IT REQUIRES that the United Kingdom Government be requested to take immediate steps to negotiate treaties with the countries of origin of the said persons for the purpose of repatriating them to their native countries; and that, pending the negotiation of such treaties, all possible steps be taken to ensure that as far as possible these organizations are not kept in our prisons;

AND AS IT FURTHER REQUIRES that the United Kingdom Government be asked to give such negotiations top priority, and that a progress report be made to this Honourable House at the next regular Meeting by the Honourable Member whose private bill this subject fills."

Mr. President, the Colonization of the Arctic before we I am sure must be obvious to all Members of this Honourable House and to all Bermudians as well.

A few years ago Government undertook the project of providing urban facilities in this nation. The project entailed a large expenditure, as I understand it somewhere in the vicinity of $2 million to date. At that time Government promised and assured the people that new homes were being done to replace those that were demolished. One of their prime reasons for the project was to prevent Bermudians merely from becoming involved in repeated criminal activity. Crimes was committed particularly about our youthful offenders. At the time this project facilities in this country could only accommodate 12 offenders.

MR. H. HOLMES SMITH (CONSERVATIVE): The present facility at Montebello was intended to comfortably accommodate 81 inmates. Earlier this year at one point there were 117 inmates incarcerated. A great proportion of these are from outside this colony, consisting of offenders coming from murder to rape, including drug trafficking and burglary.

Many of these consider, in my opinion, are a hardened criminal type from which we should be protected our own youthful offenders. But it is a fact that the vast majority of the Caymanians presently serving time at Montebello are there for minor drug offences such as possession a small or lesser of ganja, or for some other drug related crime, in my opinion, such as theft or an obvious attempt to secure the drugs to satisfy their growing habits.

One of my constituents pleaded that more was to be taken for a different and more effective approach in the most possible ways our young people. Until our Government seems to be only concerned about constructing these young people, housing them in conditions rather sectarian prescribed by this Honourable House, and taking them to Montebello to join the growing number of hardened international criminals, filling up the limited facilities at Montebello.

In my mind's eye, Mr. President, I see our young people coming out from prison at the end of their two or three year sentences better educated in criminal ways by these hardened international criminals. By doing else, one, would be expected when these youths are locked up with these people day after day, week after week, month after month, only to be with no rehabilitative programmes. Then we wonder, Sir, that they have to rob their own many Caymans.

Had the last Government, Mr. President, not left the treasury on the verge of bankruptcy my opinion many perhaps would have been no valid reasons for these incarcerated criminals to pay their debt to our society. However, we all know that there is no money now for that. Nor is there any money to be seen for the rehabilitation programmes which is desperately needed in order to return our youthful offenders as a useful place in our society.

I am not only going to blame Keating for these things, Mr. President, but the responsibility rests squarely on the shoulders of the new Government to provide these things and to stop these things from happening. Beyond all of this I do my opinion, Sir, that rehabilitation of any prisoner can be better accomplished in his own environment where he can have visits from family and friends with whom he can communicate.

The purpose of this action, Sir, is to urge Government through the relative security, with all speed to seek some agreement whereby these prisoners will be returned to their native lands to serve their sentence. In the meantime this Government might examine the possibility of decentralizing some of the prisoners serving time for minor offences, whether it would be after they have served a part of their sentence or whatever. However, that is left to the Government. They must find a solution.

Mr. President, in the Estimates for this year there is an income of $1,303,880 allocated for the prison service of this country. That is a large expenditure. If the figures which I have been supplied with are anywhere near correct we are already spending like $10,000 per month to maintain these prisoners. This, Sir, is a very substantial sum; a very substantial part of the revenue budget something in the region of $120,000 per year.

MR. P. KEATING (DEPUTY PRIME MINISTER): Mr. President, it is my feeling that this money could be much better used in rehabilitating our own people up there. On our visit to Rarotonga just last week, Sir, I was quite surprised at the number of people up there who I will not call by their name did not come to my eyes when I saw the education, and the unemployment, Mr. President, because some people have named it a hotel and you could count it that is a certain extent. However, Sir, whereas last census was somewhat of 12,000 and we see the discrepancy we have a figure for unemployment we see a sum for pensions and we see another sum for the people, Mr. President, this touches the soul of this little country.

I hope, Sir, that I have made my thoughts clear to all Members and I beg their support in unanimously passing the name of the motion. The motion is very clear, it is asking Government to ensure as far as possible that non-Cook Islanders are not kept in our prisons. I think that it is possible, Sir, I want to make it absolutely clear that it is not my intention to deprive our society of those pound of flesh from foreign offenders, so I do not want to hear anyone saying what I am trying to take them away from. However, we have to do something and as I say it is up to the Government to do it. I do not want to deprive society of those pound of flesh which is rightfully theirs. When these people have disadvantaged ourselves in this island way. However, lastly I am more than concerned about the number of foreign prisoners. I am more than concerned about our juvenile recidivists. Whatever, most important, I am concerned about our growing need to prevent and to rehabilitate our own offenders.

Mr. President, just in case some of the Democratic Members might be thinking and saying no, let me say it clearly that human progress is relative economic and predictable case, Sir, a look at history reveals that no social science rolls in on the wheels of inevitability. Every step towards the goals of justice requires scientific and energetic, the lifelong devotion and painstaking efforts of dedicated individuals. Without persistent efforts time freely becomes an ally of the resurgent and primitive forces of irrational emotionalism and social destruction. This time in our history, Sir, is no time for apathy; no time for complacency. This is a time for vigorous and positive action. All I am asking Government is to step up their speed. I know that they will be saying that they are trying. They are doing something. All I am asking is for more speed, more faster and faster.

I am asking Democratic Members to say yes to this motion. Thank you, Mr. President.

MR. SPEAKER: The motion before the House is Private Member's Motion No. 6/85. It is now open for debate but before we resume the debate on it I think it may be convenient to take our customary morning break. I would like to suggest that the break be fifteen minutes, because I believe that a number of Members would like to break for lunch at 12.00 p.m. So I suggest that we suspend proceedings for not more than ten minutes.

THE PRESIDENT: Please be seated. Proceedings are resumed. The Honourable Floyd Crouter.

DEBATE ON TRUDEAU MEMORIAL MOTION NO. 2/83

MR. DENNIS F. PORTER: Mr. President, I rise to support the motion in the amended form. Perhaps instead of waiting until the most opportune time to give a progress report I can give it this morning, Mr. President. Members are aware of the long-standing arrangement which we have had with Canada whereby our prisoners, that is to say Canadian prisoners may be sent back to Canada and they accept them willingly. However, this has not been a reciprocal agreement, and we have been negotiating with America for the last four to five months to see if we can get them to provide legislation whereby Cayenniens sentenced in America might serve their term here. We are still negotiating with them and we could then reply in the manner. As far as the United Kingdom is concerned there is provision there in their laws for Britishers sentenced, say here, to be sent under certain circumstances to serve prison sentences in the United Kingdom. We have never had an opportunity to look into this out before, but I am sure that to be workable if the need ever becomes necessary.

It is about January this year through our British Embassy in Washington which is the capital of Honduras we asked them to approach the Government there for the purpose of enquiring whether they would agree to make arrangements for the exchange of prisoners. At that time we had no fixed views. We sought a response from that Government.

Other countries, Mr. President, it is now informed to late 1983 by the Foreign Office that the Council of European Convention on the transfer of sentenced persons had been signed by the United Kingdom. This Convention provides a framework for transfer of the kind which we contemplate. Signatories to this Convention include the United States and Canada, as well as many other European countries. Others may sign it in due course. We were also prepared to assist the United Kingdom to sign on our behalf and we have replies shortly here. As a result this will enable the United Kingdom to ratify the Convention and to enter into parallel arrangements. Our understanding is that the ratification is close about now. In fact it may have already taken place and is under the Cayman Islands. The United States is expected to ratify this Convention some time later this year.

So, Mr. President, this has been done already. As to the timing this is not up to me. We cannot control that. We have to wait until these things have been completed and the necessary action taken by other Governments. It is inevitable that there will be unavoidable delays but we have gone a long way towards what the motion is seeking to do.

Mr. President, what is I said is a short progress report on what has been done already. However, I would like to comment on a few other matters which the mover made. I should like to comment on his plea for more flexibility for our officers. Mr. President, this is a humanitarian, sensitive topic. I, Sir, think that we will need the input from many experts to know how to tackle this. Balancing these matters is tasking them out in Africa is not the answer, Sir. Possibly the answer lies not out in Africa but while he was on Exile the international authorities

MR. DENNIS H. ROSTOW (CONTINUING): I am sorry if I said something which, logically I should not have said, Sir. Most of our families do share [illegible] simple, they are not sheep ahead for smoking a pound of gravy, Sir. I'd be more surprised than that. The majority of them are beautiful, educated and it is going to take a lot of effort to [illegible] them. Not only that, Sir, most of them know what try to make you believe that this is their first offense and if they are not they will simply add it to their [illegible] charges have consecutive as long as your arm. These people need a very definite type of help which I do not know if we can provide here right now

I agree, Sir, that we should try to be away with a case that we might just [illegible] simple for [illegible] purchase. However, Sir, I think that if the [illegible] made a proper check he would find that most of them are the first simple case not to [illegible] a crime, Sir. There were people in possession of it. They were pushing it and making money out of it instead of giving out and making an honest living by getting an honest day's work for honest pay.

It is my opinion, Sir, that the great majority of our people in these are too lazy to work. They want to make money by [illegible] drugs, easy money. However, this is not as easy possible as [illegible].

Mr. President, as I said, Sir, I support the motion and I recommend it to the other Members.

MR. MISSISSIPPI: The Second Elected Member for George Town.

MR. LINFORD A. PIERSON: Mr. President, I rise in support of Private Member's Motion No. 6/85 which seeks to establish a treaty between countries of foreign persuasion. The main point raised today, Mr. President, and one which was raised by the previous speaker addresses the question of what is the purpose of incarceration? The Member mentioned that it is very little use having with some of the inmates at the Northward Prison and while I partly agree with the Member I nonetheless feel that this is a matter of a philosophical view of the problems which are being experienced by our people who are sent to Northward Prison. The problem as I see it, Mr. President, is a two-fold one. When a person is sent to Northward Prison there should be two basic reasons in mind, one is punish him for his unlawful acts; for his offence, and the next argument is against the probability that prisoner on performing him so that he may be released back into society.

On the importance of the motion, Mr. President, I am quite happy to hear the short progress report from the Honourable Official Member that a reciprocal agreement is indeed being made with foreign countries and that we hope to be a party to such a Convention, and that we will be able to have a bilateral agreement under the underlying Convention.

The Private Member's Motion No. 6/85, Mr. President, suggests that the United Territories of the Northward Prison are being overcrowded. This is one of the basic reasons for the motion before us which seeks to send foreign inmates back to their foreign land.

Also, Mr. President, it is the case that because of the high percentage of foreign inmates at the prisons Government's financial funds are being strained to the limit.

MR. LEOPOLD A. PIERRE [COMMISSIONER]: Answer, Mr. President, I wonder what would be the position of the Caroline Islands today if America took the attitude of sending back to us all our citizens in opposed schools. I believe, Sir, that before we take any action in this matter it must be handled at the very highest level and this is why I am pleased to hear this Bill is being given consideration by Government at the very top level. This cannot be followed by just emotions. We must take a very sensible approach to this matter.

We have experienced who knows that what is happening at Northward Prison is indeed the best service we can give. However, my question, Mr. President, is this is it indeed the best we can give? There are no rehabilitation programmes at Northward prison, no very limited rehabilitation programmes. Why did not our Government in March allocate a part of the funds set aside for the Northward Prison to be utilized for implementing the rehabilitation programmes there? Why were our inducements more in expending the prison cells? Mr. President, in my view this is a very retrogressive step. We are saying to our people, 'We will build bigger and better prisons to lock you up in'. By providing with the manner after the fact. Our primary focus should be on keeping as many away from those offenders or potential offenders as the term implies. We should be providing more funds for our social services, so that people of venture could go and work with these people, but not the way we do it to them 'We will show you who is bigger. We will show you that if you offend you will be pushed in prison and left to rot'. Mr. President, instead of taking a positive approach to the problem we are taking a negative approach. Unless we offer the type of programmes which will indeed rehabilitate our people they become institutionalized. They come out into society and as a result they find themselves getting back into trouble. This should not be only concerns. They come back into society, and how many of us here would be prepared to offer them employment. They find themselves in a vicious circle society and inevitably they find themselves back in the house of Northward Prison.

A week ago, Mr. President, a number of the Members of this Legislature visited the Northward Prison and while there we took pains to give to the Director of the prison for the work he is doing with the limited facilities available to him, much more can be done, Mr. President. It is somewhat impotent to expect without the needed financial support from this Government. We visited prisoners. We had the opportunity to sit and listen to them as they expressed their views, and the main theme set amongst which came to us forcefully was their urgent need and want to do something. Most of them realize what they have done wrong and that they must be punished for their wrong but, Mr. President, they were crying out for some form of rehabilitative programmes. They were suggested to us, Mr. President, that the little limited woodwork which they were doing they were deprived of doing. What will the message be, Mr. President? Will we continue to expect the present inadequate accommodation or will we take the pro-active and realistic approach that it is important for us to deal with this matter at the grassroots level?

I thank you, Mr. President, and I support that the Second Elected Member for West Bay North and the Leader who has just risen has walked around. We are not talking about such animals, Mr. President. We are talking about human beings in that prison. We are talking about a facility in which one of us here might find ourselves in the future, especially if the visions of Drugs have gone through.

MR. LAWRENCE A. STEPHENS (CONTINUING): Parliament told us, Mr. President, that the many letters which they wrote to check facilities were being stored in the garbage bins. Other parliaments went above and beyond the letters in the garbage bins; a bad reflection, Mr. President, on our prison system. Other parliaments, Mr. Speaker, went to the point where, of the Bank of Barbados, the secretary of state or whatever, they were being looked up in their cells for up to 23 hours.

I was happy, Mr. President, to hear that the Government has taken to heart the problem of remand prisoners. I think that this is a possible step forward. It was envisaged, Mr. President, for remand prisoners to be held in Northward for weeks on end pending being heard in the courts. I was the statement to be innocent until proven guilty, but the presence in the penitentiary where a man is held on remand without even being told when he will be heard. So as I said, I am happy to hear that this matter is being taken into hand.

At least 50 per cent of our prison population knows the age group of males 20 years of age, and those people who are kept in Northward prison will be quite frankly ruined spending their terms. However, what will be their attitude when they come back into society? The question, Mr. President, why I bring these points up is that in my opinion the greatest problem in Barbados today is not overcrowding caused by juvenile remands. The biggest problem in Barbados today is the lack of rehabilitation facilities for our people so that they can be rehabilitated and come back into our society and not just stagnate there and come back into prison after two or three weeks out of prison.

Mr. President, we continue to consult supplementary expenditure, to provide budgetary provision in our annual Estimates and to raise taxes to expend facilities, but nowhere are we frankly attacking the most needed area which is presently our young people in the future.

I was talking to an economist or whatever he want to call him, who spent about ten years in Jamaica. The route which he is employed by today he learnt while he was in prison in Jamaica. We thank the Jamaican Government for allowing him the opportunity to learn a trade while he was incarcerated.

Mr. Speaker, another vexing problem at the Northward Prison is the classification system of these prisoners. Their facilities are not all unlike facilities like we have exist in the Cayman Islands. A lot of these prisoners are people who are constitutionally deprived people who are victims of a society, and people who do not have facilities and resources here to serve up to Northward Prison. Some of them walk in the prison to pay their fine, and their daughters and their husbands and whatever. Many times when it is raining these poor people have to stand in the rain and get wet because they have no car or bus or vehicle to get in, like reasons being. Mr. President, that there is no facilities which they can get, even out of the rain.

I repeat myself, Mr. President, when I attempt to describe the Members of the Legislature the night to where the prisoners when they feel it is necessary. We have now been told that the prisoners have to request that we come particular, while the prison authorities unilaterally adopt this practice as their rules? Will they use it at that Members are promptly advised when appointments requests to see them? Mr. President, this is a problem about which I feel very strongly but I know, Mr. President, that it is the wish of the House to leave here at 12.00 p.m.

MR. LEONARD A. STANDOW (CONTINUING): As before closing I would wish to say, Mr. President, that I do not see the matter problem as that of overcrowding because of foreign inmates. I see the major problem of a lack of rehabilitative facilities at the Northland Prison.

Mr. President, I approve the motion, Private Member's Motion No.8/85. Thank you, Sir.

MR. SPEAKER: Does any other Member wish to speak to the motion? The Elected Member for North Side.

MR. J. ERSKINE SMITH: Mr. Speaker, I wish to support Private Member's Motion No. 8/85. I would like to congratulate the mover of the motion. I think that he is continuing to espouse to us his Party's views which he told us about in the Budget Session. It seems as though the Second Elected Member for George Town is getting me very mildly. I would also like to congratulate Government on the action they have taken in this regard. If they can continue to be successful in their attempts for repatriation of foreign prisoners as mentioned before, I think that it will go a long way to alleviating some of the problems which exist at Northward Prison.

However, Sir, I would not like to see deportation alone adopted as a method of punishment for foreign criminals who come to these Islands, because in the international drug trade that results in a very minor form of punishment indeed, and we would have the international traffickers flocking to our shores if their only form of punishment was going to be deportation. I believe that they should be imprisoned for their crimes but I support the notion that they must be repatriated to serve their sentences in their homeland, there are many advantages in this to our society.

So, I support the motion, Sir.

MR. SPEAKER: Does any other Member wish to speak? Does the mover wish to exercise his right to reply?

MR. K. MCKEEVA BUSH: Mr. Speaker, I know that some of the honourable Members have commitments at 12.00 p.m., and I might be a little longer than five minutes in my reply maybe 12.55 p.m.

MR. SPEAKER: Well, you try.

MR. K. MCKEEVA BUSH: Mr. Speaker, I wish to thank those Members who have expressed support for this motion by speaking and to recognize not me but thank you to those who cast down and kept quiet, and hope that they will be moved to support the motion. Also, I wish to especially thank the Honourable First Official Member whose Ministry has responsibility for the prisoners report but given as the most regular Monday of this House, so I am expecting that now too.

I realize, Mr. Speaker, that as far as the Treasury is concerned it is not safe as to this Government. I realize that when I first thought about the motion with your help, Sir, that while I was speaking to it would not be an easy task, especially since we are not a self-governing country. Whatever one wants the Queen's representative in this country and that is his name. The treaty will fall under, Sir. However, let me say, Sir, that I am expressing that all possible because he moved so that we can get somewhere on this issue.

MR. P. HARDEN also (inaudible): Secretary, as I said in my responsible, that is our Government, for the beauty that Government must take whatever steps necessary to do what the Union asks if Government is going to succeed it. The Union says that passing the requirements of each a treaty, that all possible steps be taken to ensure that on for as possible non-Indemnities are not kept in our prisons.

Mr. President, I do not want one single Member of the Government side to interpret this motion if what the Union asks is not going to be accepted only. Let us not push ourselves. I do not want to be proud of the book why build. I have done a good job in presenting it. Certain it that we want why action we must get.

Mr. President, I am really worried that kind of measure always saying, and saying only. Mr. President, I do not asking Government to just let out anyone. I know full well that when a person is incarcerated in prison for committing an indemnities we only stipulating that if he was going to rehabilitate, if that is that this country really wants, instead of wasting a million to say that he have a purpose or to attend treaty or every years, I realize that with these kind of people, nothing that we do not the matter. I realize that when they go there they must pay their price and I thought that I had said that. I know that there are many steps for many different reasons. I believe my colleague was trying about somebody learning crimes before his come into us, that he was - I see the Honourable Deputy Official Member laughing but I am not going to let my friend - he was taken up for committing acts before his more recent finding. Because, I am not going to say, that he was guilty either. It was wrong of the Member to do that. That was taken from my constituency and he went to court quickly by the courts before we say that he was guilty.

Mr. President, as I said the motion asks that Government must take all possible steps to ensure that as far as possible non-Indemnities are not kept in our prisons. I do not care whether they are from Canada. I do not care whether they are from Pakistan. I do not care where they are from, but if they are here and it is any possibly $10,000 a month, $120,000 a year, we must do something about that alternative, because we cannot more and more. Our people want more and more, and $10,000 could go a long way in alleviating many of our problems which we face and which we do unfortunately are getting on to generally.

I think that I have made my point very clear. Government must know Indian, Pakistan and Asian countries. I do not want to mean, "I am saying, I am saying" they must have Indian, and Pakistan, and Asian. I hope that all Members are going to say yes.

MR. SPEAKER: I will put the motion to the vote.

QUESTION PUT: AGREED, SENATOR MADAM'S MOTION NO. 9/88 PASSED.

MR. SPEAKER: It is now just after 12.30 p.m. and as I mentioned earlier I will suspend proceedings until approximately 2.30 p.m.

AT 12.30 P.M. THE HOUSE SUSPENDED.

HOUSE RESUMED AT 8.30 P.M.

MR. SPEAKER: Please be seated. Proceedings are resumed. Private Member's Motion No. 8/85.

PRIVATE MEMBER'S MOTION NO. 8/85

DOCTORS' ROTATION AT HOSPITALS

HON. EDGAR NELSON: Mr. Speaker, I wish to move Private Member's Motion No. 8/85 entitled "Doctors' rotation at Hospitals" which reads as follows:

"WHEREAS the present arrangement for coverage of emergency and casualty at the hospitals by doctors, i.e., a doctor being on call, appears to be unsatisfactory to the public;

AND WHEREAS as confirmed in answers to questions during the Final Opening Meeting of the 1985 Session of the Legislative Assembly, all doctors employed by Government whose general duties are defined encompasses casualty duty;

BE IT RESOLVED that the doctors be rotated in such a way as to provide at least one doctor on the compound of the hospital at all times;

AND BE IT FURTHER RESOLVED that Government take such action as early as possible."

MR. K. MASSEY BUTT: Mr. Speaker, I beg to second the motion.

MR. SPEAKER: Thank you.

HON. E. EDGAR NELSON: Mr. Speaker, the fact that a doctor is not physically present at the hospital 24 hours a day, and especially at night, has been a bone of contention in this country for as long as I can remember.

The service in the region today with a doctor being on call at night is no better than it was in the 1950s when there was only one doctor on the Island, because he lives that matter first on the hospital compound.

In March this year, in answer to a question which I tabled, I was told that there are presently two doctors employed full-time at the hospitals. According to the estimates, that represents a salary figure of $200,000. I was further informed in March that the average daily clinic attendance at the hospital is 80 patients, and that it was broken down that each doctor would see approximately twelve patients.

Now, Mr. Speaker, taking this consideration the advances and the new forms of technology which are available at the hospital to assist the doctors in their diagnosis and treatment of patients, I believe that seeing twelve people per day is no great work load. In fact, Sir, as most the doctors are being paid, my personal opinion is that it is a great under-utilization of a very expensive resource.

I can remember, Sir, speaking in that Legislature when one doctor was as busy as 80 patients per day, and he did not have the technological facilities which are available today.

MR. E. EDWARD GRANT (CONTINUED): What is, he had to spend much more time than a doctor does today in ascertaining what the complaints of the patients were, because his diagnosis was largely subjective.

I can remember when there were three surgeons at the hospital, and when we talked for 32 hour strikes they told that they would give doctors to provide the service. When there were six doctors and the service was taken for they could that they needed nine doctors. Now, Sir, they have ten doctors and I expect them to say that they are going to need fifteen doctors to provide the service. However, I do not believe, Sir, that they need any more than the ten that they have. Now as I believe that it is the most logistical problem to retain them as we do provide an adequate service to a problem, and to work much harder for more than 37½ hours a week, because, Sir, in 1970 the then honorable Administrator and Leader Counsel said such a noble role for the physicians. Each doctor was required to work no more than 37½ hours per week, and this day immediately following the announcement of salaries he was given no alternative but to go to the Herald, or whatever he wanted to do.

So, Mr. Speaker, I believe that the time has come for action. I also believe that the Acting Minister of Health is going to continue on these grounds. However, like my colleague who became elected Member for West Bay, I get a bit impatient at times, and I think that the time for decisions on these matters to be at hand. I believe that the resources are there to deliver the service. I can see no reasonable reason why this service cannot be delivered. I am speaking in this motion, Sir, for fulltime to do this as early as possible, Sir, and as early as possible to me, Sir, would be practically the 1st June. So can somebody or you remind me if it is a good time to adjourn? I was sorry.

So, I am asking fellow Members of this Assembly to support this motion. I believe that with their support the Honourable Member responsible will find a way to deliver this service which is very badly needed in our community, Sir.

Thank you.

HON. SECRETARY: The Honourable Miss. Elected Member of Executive Council.

DEBATE ON PRIVATE MEMBERS' MOTION NO.8/85

HON. BERNIE O. EVANS: Mr. President. I sincerely and I agree that it is desirable and it would be nice to have 24 hours a day coverage by doctors at the hospital, and I have no problem with the spirit of this motion. However, I am not sure that I can say that I support the motion in the entirety because of the way in which one of the first resolved resolutions is worded. That is:-

> " BE IT RESOLVED that the doctors be required in such a way as to provide at least one doctor on the compound of the Hospital at all times. "

As the mover of the motion has said, the question of a doctor being on the hospital compound 24 hours a day has been a item of contention for many years. I have been misquoted by at least three medical officers which indicate that it is not possible or desirable to attempt to restore the present system of doctors on such a position. The argument given is that emergency services would of necessity suffer because while it is true that in the answer given to the Member he was told that all doctors share duties and on-call at the Hospital, the answer in the question also said that doctors served to their mid-specialities

MR. BEGGS: In a few areas, these special units of management on Saturday or Sunday were simple to give to us, and developing to the point where those doctors are just about fully utilized within that area of specialty. I personally would like some opportunity to study the situation to ensure that we rotate the doctors in the fashion sought in the resolution, would not lose ultimately on the service.

I am fully in agreement with providing a doctor 24 hours a day and in fact, Mr. President, can assure this House that the doctors at the hospital all agree that it would be desirable as well. However, it might be that in order to achieve this we might have to use service doctors to do, optionally for the Canadian ones.

I believe the Member moving the motion will appreciate that once the people in the doctors have to feel threatened. One cannot look at the hospital in the same fashion, that one can look at the running of a private doctors' clinic, because it is that clinic the doctor is only basically responsible for making that clinic. However, the entire health services of this country are different and, in fact, our hospitals, and this includes the operation of the detached clinics. So, I am simply saying the running of the hospital with the running of a private clinic.

I am told that the average number of hours worked by each doctor, for example, Newfoundland like 50 hours per week. I also, Mr. President, would like to see rather than restricting service at the hospital on a 24 hour basis, the number of visits paid by doctors in the detached clinics increased. I believe that the interests of the country can best be served by the Member of this motion will accept my assurance on behalf of the Government that it is my desire to see as quickly as possible 24 hours' coverage in the hospitals, however in detached clinics, but that the motion should not be pressed to the passage from, which if accepted would mean that we are saying that we are going to provide this service by magic. Notwithstanding, Mr. President, this might result in rather than improving the service, a much depleted and inferior service.

I am sure that what the mover, Honourable Member for Grand Falls, the Minister of Health and Member for Bonavista North has not been fully considered, Mr. President, and I would ask that in the interests of all concerned, and in the spirit of cooperation that the Member, having made his point and having shown his concern, and I am sure that other Members would want to do the same, would not move to tie the Government's hands as to the way in which this objective would be achieved.

In closing, Mr. President, I would like to say that I give the Member my assurance that it is my wish and it is my intention to use a clinic on the hospital compound 24 hours a day. But as to how that is to be achieved I would realize that many individuals in this matter that within some given time I be assured of best faith by not achieving that result in the way in which the motion seeks to achieve it.

Thank you, Mr. President.

MR. SPEAKER: The Second Elected Member for Mount Pearl.

DR. K. MARSHALL BUSH: Mr. President, at the outset of this motion I wanted to give my support to it. Mr. President, the Second Elected Member for Mount Pearl and the Elected Member for Mount Scio made reference to this motion. We should have brought this motion in the Throne Meeting.

MR. W. MACKENZIE BOWIN (GOOSE BAY): There is a mistake, Mr. President, because our health care in this country is high, which I may point with. Now, Mr. President, I see how interesting this might have been if I could be going to be right, that I am put here as a duty-room I will not think my responsibilities regardless of how many focus are made on all the Government benches.

Proper health care, in my opinion, is the single most important component in any developing country. I would say that health care in this country today, while we are paying millions of dollars it is not what it has been a drop in our people. One only needs to talk with his constituents, to talk to his people to see how dissatisfied and to hear the horror stories about our hospitals. Personally, Sir, I am pleased to attend the hospital. I cannot tell people to go there because I myself do not have confidence in it. That is not to say that there are not some good doctors there, but it is my that there are some who are lacking in their approach.

The trouble in our hospitals did not begin today; did not begin with the present Honourable Member; did not begin yesterday. It began a long time ago, but finding the solution to the problems lies clearly on the shoulders of this present administration if we are going to be a caring Government; if we are going to be a Government for the people.

I have had my best experiences with the hospital going back to 1972 but where and because that part is the part that many of our people may have suffered and are suffering because of carelessness and inadequacies at the hospitals.

Mr. President, there are times in our society who are able to go overseas and pay for medical assistance, and not afford, that I say, many of us who cannot afford to go overseas have much confidence in our system that we seek our Government hospitals. Many times after the condition of our people has worsened after treatment at the hospitals, and their health and their lives are endangered if they do not get better treatment, they are literally told by doctors that Government will not help them with overseas medical expenses.

Mr. President, there was given the Government (inaudible) in the region of $600,000 on overseas medical expenses.

MR. SPEAKER: I think that I should remind the Member that we are talking about emergency evacuation. It is not really a matter about hospital services generally and I must ask the Member to ensure that his speech is relevant. I am sure that he will bear in the relevance of what he is saying to the motion, that I hope that he will show it quickly.

MR. W. MACKENZIE BOWIN: I was just going to say, Mr. President, that the $600,000 we spent last year, in my opinion was spent by reason failure at the hospitals. I realize, Sir, that we are discussing emergency treatment and I would give just some personal stories of what to what the people want. If that is what we want to have in here, I can do that, Sir, because as I said I have had my bad experiences at the hospital, but I felt that this was a good time to bring out some of what needs to be brought out about the hospitals. I feel that I would object my responsibilities, as I said before, if I do not say the things which I have said. Now, I may be wrong but if you say that I must decide, I will do so.

MR. PRESIDENT: What I am saying to the Member is that it is unwise to introduce a motion the passage of which would prevent debate about the quality of medical services now taking place, and it certainly is unwise to do so. However, what we are debating now is a motion the purpose of which is limited to preventing average 84 hours a day, seven days a week by a doctor normally on the hospital's payroll. This is a much more limited question and really during the debate on this motion the Member's contribution should be relevant to that particular motion and should not cover at large everything to do with the quality of medical services and such facts.

MR. EDWARD A. GIBBONS: Mr. President, just as a matter of clarification, if the motion before us is seeking to expand the services at the hospital so that we have 24 hours a day service, would it be considered that the service is broadening, or is it out of order for the Member speaking to make reference to the situation which now exists at the hospital which would constitute this expansion?

MR. SPEAKER: I think that if the Member would use his imagination to the fact that there is no service now available, what he was saying would be relevant. However, he has not been doing that and it did not appear to me that he was doing so.

MR. DENNIS A. YOUNG: Mr. Speaker, I think that Standing Order 30 covers it.

MR. R. HARRIS BUSH: Mr. Speaker, they might as well have it now, because they are going to hear it.

MR. PRESIDENT: I am afraid that I will not hear that. I was reading Standing Order 30.

MR. A. MACKAY BUSH: Yes, Sir, I will just look to the motion, Mr. Speaker, we are seeking for a doctor to be at the hospital complex at all times. I submit again that if we can ever have 24 hours a day, we can get much worse service than what we are getting now.

Anyway, Sir, I hope this people go to the hospital at 4 o'clock on the morning with all the conditions of a heart condition. When he gets there the nurse is sleeping and he has to knock and then go to the doctor's house. The nurse will have to phone over to the complex until 4 o'clock when he comes to do his round. So, Mr. President, it was a good thing that this was not a good consideration or we would have been dead! Anyway,

Mr. President, I think the Honourable Miss Director of Recreation himself should not want to admit he is so lazy they have a lot more work than they used to get done. However, we are only talking about 12,000 people and not thousands of thousands of people. Some of the citizens here have come from larger hospitals to other countries and have had larger work loads. So it is not that they are used to still hospitals and they should be able to cope quite well with a 24 hour shift.

It looks as if I am not going to be able to say too much of what I wanted to say but let me say this, Mr. Speaker. We are finding ourselves of the problem that this morning we spoke of $2,700,000 a year roughly for health care. Whether we put a doctor there 24 hours a day which will help the situation, you, or whether we possibly the situation at the hospital completely, there is no easy looking alternative.

Thank you very much, Mr. President.

MR. SPEAKER: Does any other Member wish to speak?

HON. DENNIS R. COCKE: Mr. Speaker, I really did not intend to speak on this, Sir, but after listening to the amount of garbage which has been spoken there I cannot neglect it, Sir.

HON. R. HARBERD KNOX: On a point of order, Mr. Speaker...

HON. DENNIS R. COCKE: Now, Mr. Speaker, I did not interrupt the hon. Sir, Sir.

MR. SPEAKER: No, I'm not the enemy on a point of order... You have nothing on a point of order?

HON. R. HARBERD KNOX: Yes, Sir, on a point of order.

MR. SPEAKER: Under what section?

HON. R. HARBERD KNOX: I guess that it is section 64. Should we be able to refer to what some hon. Members have or say?

MR. SPEAKER: I do not think that privilege is the...

HON. R. HARBERD KNOX: I just think that I had sat down a little while, Mr. Speaker, and watched him out.

MR. SPEAKER: Is it out of order to use offensive or threatening language about other Members or to quote improper motives to them. However, I think that you are allowed to tell them what they said is rubbish or garbage and I would not regard that as unparliamentary.

HON. R. HARBERD KNOX: Thank you very much, Mr. Speaker. I'll bear it in mind.

HON. DENNIS R. COCKE: Perhaps I have appropriate now, Sir, though to explain. This has been used in this Parliament for many years, Sir.

The problem is, Sir, that although sometimes people on this side mix up their faces, when their faces are ugly then they are good looking people, but the speaker is always ugly, Sir.

Mr. Speaker, I think that it is unfair for statements to be made like, "Our conditions in the hospital are deplorable"; "Carelessness and deliberation at the hospital"; "Human failure at the hospital". Mr. Speaker, I would like to invite this Member to go down to any of the other Caribbean territories such as Belize, Anguilla and all those places, and let him see the medical conditions that they get there. I think our hospital, Sir, is a unique little place. It gives good service; good attention, and although I agree with the motion of this motion that there should be a doctor there 24 hours a day, this could be a good service. At present what happens is that the doctor stays there until midnight. If at midnight nothing has come in he goes home but he is still on call, and in most cases it takes him ten minutes at the longest to get to the hospital.

Mr. Speaker, we should be grateful for what we have, Sir. We should not take this supercilious attitude and criticise everything. I think that it is nothing short of a disgrace, Sir, for Members of this Parliament to be condemning every service that there is in this country.

HON. DENNIS M. ROBERTS (CONTINUING): This morning we heard about the prison. I shall sometimes that I could give him the opportunity to go and do better.

MR. LINDSAY A. KERSHAW: Mr. Speaker, I had not intended to speak on this motion, some enough I intended to support it in its present stage. However, I too agreed it is an insult when a senior Member of the Government Bench, an Official Member would refer to the remarks of a Member of this Assembly as garbage, rubbish or nonsense. That is actually how opinion may be is entitled to his opinions, but we were elected by the people of this country and we are not subjected to the whims of the Member of the Government Bench who is an Official Member of this Government. We were not elected by this country but by the people of this country. It is our right to bring to the attention of this House things which we see going wrong, and I take it as a proud result, such has happened. My interpretation of these remarks would seem to prove or to suggest that he was out of order even though it may not be regarded so by the Chair.

We are not talking about Anguilla. If he is satisfied with what is happening in Anguilla then he may go there and reside. This is Grand Cayman or the Cayman Islands. We are talking about Grand Cayman. I was a Parliamentary Secretary for Health and Education for two years in this country and I too know that there is a lot needed to be done in that hospital. I am not here to carry down the hospital, but we on Assembly Members are here to make things better, and to have some Member because he is hurt by the remarks of a Member on this side may to say down the Member on this side. As far as my remarks went this morning about the prison, I am sorry that I made his feelings, but what I am standing here for, if he wants me to desist from finding out information about what happens at the prison, then he should take the appropriate Order and I will have no reason to make my remarks on the prison.

However, we are not debating the prison now. We are debating increasing the conditions at the hospital. I would be the first one to suggest or to grossly that we have good doctors at the hospital, but the Member was also a Parliamentary Secretary for Health, Education and Social Services and I believe that he would be willing home that the truth of he said that things were good or he is trying to make them out to be. Perhaps he has got some friends in the hospital where facilities he would hate to hear.

We are here to represent the interests of our people and I congratulate the Second Elected Member for West Bay for having the guts to mention the points which he did, and also the Elected Member for South Side for bringing this matter up.

We are not perfect. It is a disgrace, I know was the adjournment moved by the Honourable Minister. I wonder if he really understands the meaning of the words. It is not a disgrace when we try to promote the interests of our people. It is not being argumentative when we try to provide for the people in this country. Let the Member tell you why the little boy who was taken to have his leg cut off at the hospital. But also if he got a second opinion he found that all that was needed was a simple operation on the bone marrow and he can walk with the leg again. They can tell you without that, and the impression that the public had to start get a better face that doctor to get a reference.

Such language, unbecoming. We are not here to accept the insults of the Honourable Member of the Government Bench. We are here to represent our people and any time in this House that I see such unnecessary attacks, I am going to be the first one to get up in defence of a speaker and in defence of myself.

MR. ANTHONY A. FIGUEROA (CONTINUING): The Honourable First Elected Member of this House is not a representative of the people. He is a Civil Servant.

MRS. JEAN W. FRANCIS: On a point of order, Mr. President, the Member must mean the Honourable First Official Member.

MR. PRESIDENT: I think that he means the Honourable First Official Member, yes.

MR. ANTHONY A. FIGUEROA: I apologise to the Honourable First Elected Member of Executive Council. I do mean the Honourable First Official Member. The point of order is taken. My apologies.

The Honourable First Official Member stated that the Second Elected Member for West End was quoting rubbish and also referred to the Second Elected Member for Cayman Brac, because he stood to embellish things we see wrong in this country. Mr. President, I do really do have the nerve to get out there and fight an election campaign, then it will be time for him to get up in this House and criticise the Elected Representatives.

Mr. President, I support the motion before this House.

MR. PRESIDENT: The Third Elected Member for West Bay.

MRS. ARLENE E. ORTEZ: Thank you, Mr. President. I had no intention of speaking regarding the motion before us. I would like to go straight down the middle here. I am not taking sides with anyone. I support the motion wholeheartedly. I also agree with some of what my colleagues from West Bay said. However, I think that I would be unfair if I did not speak what I found to be my experience.

What is that the services which I have received at the Cayman Islands Hospital over many years have been good. There have been times when I have gone to the hospital and I have complained that a doctor was not there, because I felt that the case which I wanted to have by the doctor was serious enough in my opinion or to warrant him being there. This is one of the reasons why I wholeheartedly support that a doctor should be there, and I feel that this must be adequately and satisfactorily by anyone who is employed at that hospital when they take up such employment.

If one wants to say it from statistics by Caribbean Ministries, Cable and Wireless or whatever, if one has to be there at a certain time one has to be there. I feel that when it comes to a matter of someone's health, and it could be a matter of life and death, it is no more than giving the patient or the person in hospital, who is relative of the patient the security of knowing that a doctor is there. If for no more than that, that doctor should be on that compound. So that particular part of the debate here, Sir, I wholeheartedly support.

To say that the services at the hospital are no good or whatever issue might have been used, I cannot support it. I only that there is room for improvement but I have lived in the United States for nine years, and if you think the services at the Cayman Islands Hospital are the worst, then live in a foreign country for a while. Not because one can pay for a plane ticket and go to Florida should be qualified that one is going to get the best service available. It is just, because of the size of the hospitals, some people, more people can be in there and one is not getting another.

MRS. MARIE L. CORBET (CONTINUING): I have known this to happen. I have read about it. One thing I have to say is that we in the Virgin Islands have to be thankful for what we have. It is one thing to come here to represent our people, but to destroy what we already have is wrong.

I plead in behalf of the nurses that, on this other hand, they do not agree with anyone destroying what we already have. I hope that the Members of this House will understand what I am saying. I am not talking alone with anyone but I am saying here that I represent those people in the hospital as well as I do anyone who are in this country.

Thank you, Mr. President.

MR. PRESIDENT: Does any other Senator wish to speak? Does the Senator which he recognize his right of reply?

MR. D. DONALD MOORE: Yes, Sir. Mr. President, to answer my friend, if any one asks up a hornet's nest which these four walls like I can. In the Committee the whole thing was discussed in minute. I have simply tried to speak according to what we know. It has been recommended by certain individuals and I have taken some leading for it. However, Mr. President, I do not believe that at any time you will ever have the real experience of the raising in this Chamber as has happen. That, Mr. President, is on record to my intelligence. It is not right to the people I represent, and it is not right to my own integrity.

Now, Sir, I did not want to get into ill of the faults of the hospital, but since it is such I would suppose we should all be grateful and retain that place with humility and hey. The Senator can speak the greatness of God which works within the confines of that institution. It is time that everybody told it the way it is, and I believe, Sir, that I am as qualified as any individual in this country to criticize, whether constructively or destructively, with health care institution in this world.

We have some good people in the hospital, Sir, but the hospital has some serious problems. It is unfortunate, Sir, that within the past week unfortunately I have had some personal experiences in that place which have led to, in one instance, the loss of life to a member of my family. They with you, Sir, that the doctor gets there in ten minutes. I have been to that hospital in a private, Sir, and I have sat in that casualty department for two hours waiting for a doctor to come and see me. We have not shown yet, Sir, as the nurse told me to go home and come back the next day.

Now, Mr. President, I am not a doctor and would never want to be one. However, I believe that I have something about my own health. I am not going to get out of my bed at 2:00 a.m. in the morning and drive 25 miles in case a doctor if I believe that the Honorable can tell me until 8:00 the next morning. Mr. President, the nurses advise which that hospital now as treatment to the Philharmonic strikes to my shoulder and chest which got weak. I can talk now to my people with my afternoon to Town Hall and make a hundred such speeches. Every time we hear that they are bigger and newer, but I have a person story about that place to be aware that the one before. That hospital needs to be straightened out, Sir.

I cannot, Sir, accept the Member's assessment that doctors are presently working 40 hours per week because, Sir, if they are working 40 hours per week this morning the number of patients which has been submitted to me, they are operating on hour and a half with each patient.

MR. D. SQUARE NORTH (CONTINUING): That is a waste of time. I have been to that hospital at 11 o'clock on the day and could not find a doctor to talk to.

Mr. Speaker, the emergency for medical care is created in a large extent in the mind of the patient, not always on the diagnosis of the doctor. The patient would feel infinitely better if a doctor who in fact composed what he advised, Mr. President, for 65.7 million a year there are no more excuses. I have heard excuses as I told you in my opening remarks. When there were those doctors they needed five. When there were six they needed nine. Now they have ten and the Member tells me he thinks they still need more.

Mr. President, I do not believe that nothing the extreme chiropractors do such I say as to provide a doctor in that capacity be lumped a thing to demean from any of the specialty utilized. To the best of my knowledge, and I speak subject to correction on this, most of the specialty clinics up that hospital are paid once a week. Nevertheless, I think some half an hour's and things like that, but what do the doctors during the other part of the week? They give us all these things to justify their salary, the bridge. I agree with the Honorable Member, Sir. I would like to see the doctors' visits to the disturbed teenage, however, Sir, that will not affect the role of the hospital. If a doctor is seeing the patients in the psychiatric to be not seeing them in the hospital. So the work load at the hospital is going to be reduced by necessity the work load of the clinics. That is no reason not to put them on a role. If these people are sick, put them on shifts.

The usefulness of getting this done, Sir, are not my problem. I am sure it is. I have myself to point to have caused management at the hospital, expert management in the Civil Service. We should be grateful for what the Civil Servants do for us. I am saying, Sir, that it is time for the service to work this out because I am telling you today, Sir, that it will be done. If it is not done in the very near future I will do it and publicise it for the people of this country.

I am always willing to compromise, Mr. President. I do not get up on the floor of this Assembly to make brinkmanship points. There is a need at this psychiatric for a doctor to be in the hospital 24 hours a day and the need must be reviewed. That is what we are in the confines of this Chamber for, to have given them their request in the budget. If they, nevertheless, the young doctors, that is not my problem, Sir. There are those fifteen Members I say. Send the young ones back. Let us get the right ones. We want a doctor on that complex 24 hours a day, and I do not think that is carriage, Sir. I think that is a serious need in that country which needs to be addressed, not in the 1st May, 1st September. It should receive priority, but you know, Sir, sometimes we have used this thing until they provide us finally with a room in their whole which they believe is a heavy attack, and the doctor tells the nurse over the phone, "Give him a dose of Epsom and send him home". It is nothing but a hangover and headache". That is what, Sir, we will get around.

I do not think that any of us are supposed to wait for that time. I suggest again we bring in responsible health but it can happen to the best of us, Sir. One minute one man is diagnosed in this place. Mr. President, you know I went home since 21st November and if there is one thing which gets on me, Sir, is the ability of some people in this House to change their comfortable salaries to suit themselves, when they are talking about how good our standard of living is compared to the United States, and when they are talking about how good a hospital is to be compared to Anguilla and St. Kitts.

MR. D. SCOTT MILLER (CONTINUING): As you know that I made a report some weeks ago that they had bought in people from diaries to evaluate the health services, to melt up what good health services we had; how evaluate the equipment; how evaluate the X-ray machines were. Well, council! You have been dismal! We do not have been asked to examine", of course they do not... We know what their equipments problems are. They cannot afford to buy it. Why not bring somebody from the Middle American summit which has equal equipment to tell us how the equipments is being utilized, Sir.

We have good people in the hospital. The problem is getting that thing together as a team to deliver the quality health care which this country needs. You know, Sir, I was a bit hesitant to accept the Honourable Member's undertaking that he was ready to provide the answers. However, after the protection of the Leader of Government business, I cannot take that from him, Sir.

Either, Sir, they are going to improve the position or its stands, or they are going to accept it as it stands. Therefore they are going to provide that service to the people of this country.

Thank you, Sir.

MR. PRESIDENT: I think that we have reached the customary time for the afternoon break, and I will therefore suspend proceedings for approximately ten minutes.

AT 3.15 P.M. THE HOUSE SUSPENDED

AT 3.32 P.M.

MR. PRESIDENT: Please be seated.
Proceedings are resumed.
Private Member's Motion No. 2/05. MRS

Those in favour please stand up.

QUESTION PUT: AYES AND NOES:

MR. D. SCOTT MILLER: May we have a division, Sir?

MR. PRESIDENT: I think that it should be held if we have a division, yes.

DIVISION
NO. 28

AYES	NOES	ABSTENTIONS
Mr. W. Mackenzie Bain	Hon. Dennis H. Mercier	Mr. D. Scott Miller
Mrs. Sophie I. Omari	Hon. Michael F. Bradley	
Mr. Wilfred A. Pierson	Hon. Maxwell C. Heffernan	
Mr. D. Scott Miller	Hon. Ransom O. Semple	
	Hon. W. Newman Seddon	
	Hon. Capt. Charles L. Nicholson	
	Hon. Russell S. Johnson	
	Capt. Henry E. Nicholson	
4	8	1

MR. SPEAKER: Did the Second Elected Member for Bowden raise a point of order? I did not hear it as I was absent.

CLERK: He mentioned, Sir.

MR. SPEAKER: I disclaim the notice then.

PRIVATE MEMBER'S MOTION NO. 9/80 DEFERRED AT MADCURRY

NOTICE OF STATEMENT

HON. EDISON D. JAMES: Mr. Speaker, before you move on to the next item on the Agenda, may I make a brief personal explanation? My intention to make a statement concerning the withdrawal of this statement, Mr. Speaker, is basically the reason for the vote which Government has given earlier on this motion. The statement will indicate that we suppose the 24 hours a day doctor service but should not subject the restrictions imposed by the motion.

MR. SPEAKER: Very well. I do not think that the Member should make his statement now, which is more in the nature of a debate, and I have looked up Standing Order 80(1) and he is required to give no notice, he may make a statement. So he may make a statement tomorrow. That is the order.

MR. M. MACKENZIE SCOTT: Can he say he expects it of he will not just vote for it?

MR. SPEAKER: That will be something for him to explain tomorrow.

HON. M. MACKENZIE SCOTT: I am very disappointed in hearing the explanation, Sir.

MR. SPEAKER: Well, I am afraid that you will have to wait until tomorrow. He has given no the notice and he can make his statement, and it will be on Wednesday's Order Paper as Private Member's Motion No. 10/82.

The Second Reading for March 26th.

PRIVATE MEMBER'S MOTION NO. 10/82

CLOSURE OF GOVERNMENT OFFICES DURING LUNCH HOURS

MR. D. ARNOLD NILSSON: Mr. Speaker, I beg to move Private Member's Motion No. 10/82 entitled "Closure of Government Offices During Lunch Hours". It reads as follows:-

> "WHEREAS there are certain Government offices which serve the public that are closed to the public during lunch time and this can cause undue hardship to members of the public;
>
> BE IT RESOLVED that Government take steps to have these offices open continuously to the public during lunch time to enhance the service rendered to the public."

MR. W. MASEBEYA SUSU: Mr. President, I beg to second the Member's Motion No. 10/65.

MR. D. BANDA MULUBI: Mr. President, I think the last one and a moment's worry. This one is going to be a backing.

Mr. President, there are certain offices in Government which serve the public, for example Lands and Survey, the Immigration Department, the Licensing Department, the Traffic Department, and I believe Investigation Department as well. These offices, Sir, are generally closed to the public for the lunch-hour. Some are closed for longer than one hour. In fact the Lands and Survey office is open only four hours per day to the public.

Now, Mr. President, the Lands and Survey office is the control hub of a lot of development; so a lot of the business transactions which take place in this country, and to only be open for four hours a day, I believe limits the service which it can offer to the public.

Other places like the Post Office are closed from 12 o'clock to 2 o'clock, and in many instances, Sir, there are many people in this town who the only opportunity they can get to pick something up from the Post Office or to get those documents or do any business with Government Departments is during their working hours.

Now, Mr. President, I know that I am going to be told that I do not like the Civil Service and that the Civil Service is doing a good job, and that I should be grateful and be satisfied with what we get. They are really not getting anything for what they are doing you know, Sir. They are working long hours and they haven't gotten no pay. We are trying to take away their fringe benefits, their telephone, and the Financial Member for North Side wants to take away their allowance. You have to believe I do, Sir, and I am preparing this motion for November.

However, Sir, be that as it may I believe that when the administrative section of Government is resuming approximately 30 per cent of the national income, I believe that provided the necessary resources be here these offices open during the lunch-hour period to better serve the public. I know my hon. Minister during the lunch-hour break with only two members of staff, Sir. So I think that it can be done on a very right schedule. I believe, Sir, that although Government sends how taken a decision to the word minute, they can relate the staff which these offices so that they can stay open for the lunch-hour period. I believe that the publics at large in this country will be appreciative of the service which they are given during lunch-hour.

So, without further ado at this time, Sir, I would conclude and I would beg, Sir, the Members of Government to support this motion in order to render a better service to the people of this country.

Thank you.

MR. SPEAKER: Private Member's Motion No. 10/65 is now open for debate. Does any Member wish to speak? The Honourable Minister Official Member.

DEBATE ON PRIVATE MEMBER'S MOTION NO. 10/65

HON. DANIEL K. KOSAM: Mr. President, I rose to mainly with the object of the motion, but I would like to point out a few facts for the Member's benefit. Of course I am generally aware that he knows these already. However, I will take them in the order in which he mentioned them.

MR. CHARLES P. TROTTER (CONTINUED): Roads and Survey. Mr. President, those hours are laid down in the Registered Land Rules, Section 101:

> "The Registry will be open for the transaction of business with the public between 10 a.m. to 12 noon and 2 p.m. to 4 p.m. on Monday to Friday inclusive."

Mr. President, I would like to point out that there is a section behind this, Sir. A person or persons may visit between 10 a.m. and 12 noon and negotiate transactions regarding lot of fifty-one to be done. The time is spent by that staff doing that work so that they can return the transactions to them possibly the next day or the day after.

Similarly in the private sector, banks close at a certain time, 2.30 in the afternoon. This does not mean that the staff goes home but there is plenty of work to be done, accurately and accountably and everything done. I spoke of one of them go home before 4 o'clock.

If we are to open Roads and Survey Department from 8.30 a.m. to 4.30 p.m., what time then does the staff get to do the work? Nevertheless, Mr. President, I will look into that and see what can be done. If anything can be done the Rules which have to be changed.

The Hon. Minister is a Statutory Instrument, Mr. President. We really do not have anything to do with it, but I think that the problem there is insufficient employees at that Registry Room. Most sometimes should that during that time of fifty-one some. So to make sure which that they close at 12 noon-4 p.m.

Similarly with the Lands Department, Mr. President, there is a lot of after-work. All the work is now a complaint and has to be looked in there, and the complaints which are to be made. I think, Mr. President, if officers are open until noon during the day, people who have other jobs want to come their lunch hour to come and get their business done at Government. Government should separate counter for private officers in lunch-time to do their business. They are closed.

However, in that as it may, I think that one must learn to understand that there are reasons behind that, Mr. President, I will augment the motion in the spirit in which it is presented. Sir, and I will attempt to look into this and see what can be done. However, I cannot make any promises as to results, Sir.

I am not sure that I can explain about the 60 per cent of the national budget going to civil servants, Sir, but I feel, on the other side, they work for what money they are paid, Sir.

MR. SPEAKER: Does any other Member wish to speak? Yes the Member of the motion which is... is the Second Elected Member but what I say seems to catch my eye or mine. I am not sure, Mr. Is the Elected Member for Marsh Side wish to exercise his right of reply?

MR. P. EDWARD MILLER: Yes, Sir, I would not deny an opportunity for the world, Sir.

Yes, Mr. President, I seem to have a problem here with motions. In March I brought one about the Registrar. I brought one a while ago about the hospital and I have just brought one about the Government officers.

MR. D. FRANCIS MILLAR (Government): It seems that if I could get the private enterprise separated from the body I should have no problem. Everybody can support the spirit of all of these resolutions, but they cannot support the body of the motion. Now, I have a little problem understanding that, Sir, but I guess that we had better let sleeping dogs lie.

I know, Sir, that the hours for Lands and Survey Department are half done in some areas, but I believe that these rules can be changed. I do not fully accept that they need all of that time to complete the transactions, because there is more than one person in most of these offices, usually it is not the same one front who deals with the public who do the transactions in the back.

Another thing which I have a little problem with, Sir, is there employees in Government. Now, Sir, I am a supporter in my business for one reason or another to take work serious. However, it seems that the employees in Government is requiring more staff than the normal procedures. As for the land-authority, if it is a Statutory body then might the Minister responsible would give me an undertaking that he will see that it is close for lunch, because my observations there indicate that they have two receiving clerks and they have two receiving clerks on the other side of the warehouse. So it is quite easy for them to send one receiving clerk and one receiving clerk for lunch 12.00 to 1.00 and the other one 1.00 to 2.00 to keep the facility open. As for the privilege to overspend, I think that this is controllable with strict management. If the people are working they should replace them, not send them for lunch.

However, Sir, I guess that we live by the sword and we die by the sword, Sir. So, some people bet per hour it is the vote and see what happens.

MR. PRESIDENT: Let us indeed put it to the vote.

QUESTION PUT: AGREED. PRIVATE MEMBER'S MOTION NO. 10/95 PASSED.

MR. PRESIDENT: I declare the motion passed, unanimously. (LAUGHTER).

Private Member's Motion No. 11/95

PRIVATE MEMBER'S MOTION NO. 11/95

PROHIBITION OF LIQUOR AND CIGARETTE ADVERTISEMENT IN THE CAYMAN ISLANDS

HON. RALPH E. COMEAU: Mr. President, I would like to present Private Member's Motion No. 11/95 regarding the prohibition of liquor and cigarette advertisement in the Cayman Islands. I am not sure whether I should do this now, but I would like to change, if possible, the wording of this slightly, which I shall do now and....

MR. PRESIDENT: Well, now we had this this morning and in accordance with Standing Order 24(7), a Member who desires to move a motion standing in his name may give an amended notice of motion if such an amendment does not, in my opinion, materially alter the scope of any principle embodied in the original motion. However, the amended notice shall not affect the date on which the original notice was given.

If you tell me what the amendment was, I could tell you whether in my opinion it is admissible.

MRS. DARLENE L. OLSEN: Alright. It should read-

" WHEREAS medical and scientific evidence has proven that the use of liquor and cigarettes is highly dangerous to one's health;

BE IT RESOLVED that this Honorable House take immediate steps to appoint a select committee to study the possibility and practicability of either introducing legislation or by some other means prohibiting the advertising of liquor or cigarettes by local radio and television."

MR. PRESIDENT: Has that been typed up, and are there copies of it or not?

MRS. DARLENE L. OLSEN: No, Sir.

MR. PRESIDENT: Could you for that same reason withdraw the resolution, since already as that Members would take it home and as that I would have it done?-

" BE IT RESOLVED that this Honorable House take immediate steps to appoint...."

MRS. DARLENE L. OLSEN: Withdraw a select committee to study the possibility and practicability of either introducing legislation or by some other means prohibiting the advertising of liquor or cigarettes by local radio and television."

MR. PRESIDENT: Perhaps I may read it out now just so the record that I have got it right. The preamble will be the same with the clause starting, "WHEREAS". It would continue-

" BE IT RESOLVED that this Honorable House take immediate steps to appoint a select committee to study the possibility and practicability of either introducing legislation or by some other means prohibiting the advertising of liquor or cigarettes by local radio and television."

MRS. DARLENE L. OLSEN: Yes, Sir.

MR. PRESIDENT: Is it "liquor or cigarettes" "liquor and cigarettes"?

MRS. DARLENE L. OLSEN: It is "liquor and/or"....

MR. PRESIDENT: "Liquor and/or cigarettes"?

MRS. DARLENE L. OLSEN: Yes.

MR. RICHARD J. MARSHALL: No pictures?

MR. PRESIDENT: Well, it was the effect of the things which you wish to make is that the clause, instead of intermediately legislation is to appoint a Select Committee. That is practically it, and I think that is perfectly acceptable to Rules of Procedure Order 81(2). In other words, therefore, you may move the motion as you read out and table that. I will suggest you do getting formally moved it now you have in fact read it out. If the Secretary will assist if you can then speak to it.

MR. LAWRENCE A. WILKINS: Thank you.

MR. W. MARSHALL BUSH: Mr. President, I rise and speak on seconder of the first motion.

MR. PRESIDENT: All.

MR. W. MARSHALL BUSH: I think that I am right.

MR. PRESIDENT: It is quite true. I mean if you have not agreed to second this amended motion, then the motion would fail and another seconder.

MR. W. MARSHALL BUSH: Mr. President, I wish you had given me a chance to explain myself, Sir. Yes, I have not seconded this motion, but I was not informed that this motion could take place. Seeing as I am beginning to worry a little bit in Committee the time might run out I might destroy something. I therefore commit second the motion for it to move.

MR. PRESIDENT: Can the mover make another seconder?

MR. LAWRENCE A. WILKINS: Mr. President, I second the motion.

MR. PRESIDENT: In that case, I declare the motion by the amended Resolution unanimously, and the Deputy Electoral Officer for West Bay may speak to it.

MRS. DAPHNE D. CARRITT: Thank you, Sir. Mr. President, the Constitution and the Code around through the use of Cigars and cigarettes is mainly until where to use Members of this Honourable House. However, our awareness of the problem should be seen to trigger some action on our part. I think that the order to control their effects by discouraging those use one of the first areas which we need to tackle would be advertising.

I have noticed, Sir, that on local radio and on billboards in certain parts of the Islands, there drugs, and that is what they are - drugs, are being advertised. Especially on Radio Cayman the way in which advertisements are put forward, for instance this one on cigarettes where a young, seductive model of a young woman encourages us to use cigarettes is to be a cool thing to do. I do not see how anything can be cool with fire on the other end.

When again we have all the advertisements for liquor which is so favorable as any drug there in on the market today, and I feel that it is time that we do all we can to see Government the use of cigarettes, especially amongst young people.

Mr. President, it is a well known fact that when advertising was permitted on the Radio Cayman on radio and television many years ago for both liquor and cigarettes, it was found that on television between the hours of 5.00 and 9.00 in the evening, that was the time that most of the advertising took place. The men behind the liquor and cigarette companies use to grasp the attention of the young persons, the ones, knowing that sooner or later a child or a young person looked on the habit of either smoking or drinking, one probably has a customer for a lifetime. Although the most fortunate that lifetime may be rather short.

I feel Sir, that it is not only highly detrimental to the user, but as most of us know, cigarettes affect the people that are around in contact with the smoke.

MRS. CATHERINE D. CRIER [CONTINUING]: I have quite a few facts and figures here on this. I notice that the Congressional Congress is already this year, even a big secretary like Cronin is trying to please our veteran organizations as much as possible. It is noted here that the Selective Service also is also a cause of concern and higher through certain operating groups in many cases, or their title being served by this. I feel that any such cause should be discouraged. I am not sure how we go about it. I think that the people of this country need to be educated on the dangers associated to cigarettes smoking and use of alcohol.

Also, Sir, I am concerned that cigarettes are made available to small children as it is. I should not go into how and where is a vending machine placed to be made there. They can walk them out and get them quickly. Knowing the advertisements on the radio on seeing it on a billboard they are tempted to try to use them. It is destructive to their health and if some restrictions on the Cayman Islands today, there has been a steady increase in the use of both liquor and cigarettes among our young people.

Now I notice here this onion in a large city like Gloucester in the Middle Kingdom, it is the view of the Selectmen Committee who is considering a ordinance for setting penalties for anyone who breaks the law and sells cigarettes to children. I think this is something which we need to look in here. We are unfortunately there to see it when we allow any smoking on the radio and on billboards.

I have been told that some states and cities have outlawed these advertising cigarettes on liquor, but because South Dakota elected to, there was hardly any money in the state burning down the money they necessary for advertising, because it was going over the air anyway. I am not sure that I support that particular theory, but nevertheless it was done.

Already it is found that smoking is one the number one public health problem. It is responsible in the United States for almost 250,000 premature deaths a year. We live next in the Cayman Islands and our population is a lot smaller. However, what I am trying to say is that the same effects will take place amongst our people.

Now, the Surgeon General knows is saying that it is not just a nasty habit, Mr. President, it is an addictive drug. Nicotine is an addictive drug. In fact the National Institutes on Drug Abuse has said that it is the most addictive drug in our society. All the things which have happened to our down smoking in public places came about largely through grass roots action, and I feel that the concern of citizens in our country today should appeal to us who are in this House to do what we can to curtail the advertising of liquor and cigarettes. There are many large organizations over the world today who are trying to see if they can eradicate in public places a smoking and I can see why. I feel, Sir, that I would hope anyway that the fellow Members of this honourable House will see to it that we do our best to keep this from the young and from the cause of our young people, because they are worth it. It is really unavoidable, and we need to take steps to see that an appreciation of it is done.

What I would like to remind Members of here today is that we not only need to see about the dangers of advertising, but there needs to be some proper steps taken to see that our young people and children are educated to the dangers of cigarettes, so that they will realize that in today's society it is sometimes a means of not being accepted in one's peer group. It is sometimes a means of one feeling grown up, but the dangers of this need to be brought to the attention of our children.

MRS. GILLIAM L. CHRISTIS (GOODMANSVILLE): I might like to read here just something which came from a constituent regarding the person who was writing to a magazine there. He went on to say:-

"As a long standing sufferer I must question the wisdom of threatening good American corporations in an already saturated market. Tobacco manufacturers may dispute the scientific findings, but I personally am in no doubt as to the sufferings caused by the smoking habit. I know I am preaching to my own choir... I say this but I would ask Congressmen for the sake of humanity to think of diversifying into other product areas before going ahead with any more investigations."

This constituent writes also regarding efforts he wrote this letter to take cigarettes.

I also have received an article in the Readers' Digest just a short time ago. It was entitled "The Death of a Salesman", a very prominent surgeon in the United States. He had an interview with a writer from Readers' Digest. He gave a long story. He was a family man with children. He had a good income and had accidentally come to his attention, but the last sentence he uttered to that writer was, "If only I had quit smoking twenty years ago."

Mr. President, the evils of smoking are plagued with us in our society. Someone mentioned that to use economic data of a heart attack because of the results of smoking is one thing, but to see a sufferer like for years with emphysema should discourage anyone from smoking. These are the things which we need to advertise. We need to advertise what is caused by an unborn child when his or her parents smoke, and the danger to anyone. What we need to give to advertisement on our radio and first class to a society today; that is the something which is completely not welcome by the non-smoker, and it is something which we in these Islands need to invest more, because in larger countries all-out campaigns are being brought about for the discouragement of both the advertising of liquor and cigarettes.

Mr. President, what I'm of this motion is to see that this Government does everything possible to discourage the advertising of them, and in addition to that, to do everything possible to encourage the education of our children and young people from kindergarten on up, of the dangers of cigarettes and alcohol.

I would like to put the support of this House on this motion. I had spoken a few preliminaries and mentioned here. For instance, in Georgia they have a campaign and that by the year 2000 they want a smokeless state. They would like to get people to stop smoking. I understand that this is something which is beginning to do in many other parts of the world. However, what I am saying is that we know the dangers of it and I would like to have the support of the Members of the House on this motion.

Thank you.

MR. SPEAKER: The motion before the House is Private Member's Motion No. 11/96 in the name of the Third Elected Member for East Bay at the time we moved.

The motion is now open for debate.

The Second Elected Member for George Town.

SENATE OF PUERTO RICO JOINT RES. 13/55

MR. LUIS MUÑOZ M.: Mr. President, on account of this motion I feel that I should be excused of not answer the motion brought up this Monday, the Chief Elected Member for Rest Day.

The motion seeks to appoint a Select Committee to study the possibilities and practicability of introducing or by some other means promoting the admendment of Liquor and/or Liquor Control by the local Legislature.

I would have wished, Mr. President, that the motion was somewhat wider, not to only include Liquor but tobacco products. I feel, Mr. President, that while we should legislate for the morals of people, that as a Government it is our duty to set the right example for the people of this country.

Mr. President, many of the members may view this as a religious issue. Some might feel that it is a motion brought by a religious denomination but, Mr. President, I would like that we should view this much more seriously, not even this as a matter of such deeper concern. We have made a lot of speculation in our laws for permitting the use of drugs. Mr. President, alcohol and tobacco are perhaps the most pernicious form of drugs there is.

I am not here to say, Mr. President, that we must ban the use of alcohol and cigarettes, because I feel that this would be taking away the rights of the individual to use it as he deserves. I think that the Senate of this House will also be one supporting the legislation of Liquor Licenses in this country, because I fully appreciate the type of our economy, and I also recognize the rights of the individual. So I am not here advocating, Mr. President, that we should ban this activity, as many misunderstood. I am saying, Mr. President, that as a Government we should help to suppress the consumption of alcohol and cigarettes, because I feel personally, because I am very closely associated with the United States of America and the lives of men who do work. The Magazine or other impressed literature, as well as television the trend in the United States today is to do away with the filthy habit of the use of alcohol; to do away with the cigarette purchase. Sports today are having wide and keen interest in terms of sports on the radio, not only because it is more fresh air but because it is much more healthy. I am not suggesting that I, as men perhaps have a terrible voice whatsoever I am known like any of me, but I am suggesting that the exercise involved are very, very important to one's health.

I am suggesting that any form of smoking is extremely dangerous to one's health, that what is up to some of the people is they used to have an early demise. Therefore, Mr. President, are defined as people who have to suffer from cardiac diseases mainly because people who have to suffer from the contamination of other smokers. That is why today in the United States, Mr. President, in many States about that where persons in the world they have smoking and non-smoking areas, more or less in public transport, like planes, the buses, you name it, because they realize that we can get as much disease from the surroundings as a fraction smoker as we can by smoking.

I would like to see the day in the United States, Mr. President, when public places are divided into smoking and non-smoking. I have talked a lot with a number of friends smokers, people who are professional smokers, people who are informed carcinogen of alcohol, and they also would have good to say about it.

MR. LINCOLN A. PIERCE (CONTINUING): Some people believe that the only way that one can quit smoking is cold turkey. My thought smoking. This is a failing, Mr. President. The overindulgence which one in the tobacco that causes people to start smoking, and the use of tobacco in any form can cause cancer.

We glamorize; we are all the pastors. A lot of children are led to believe that smoking is a sign of maturity. As soon as they reach thirteen or fourteen, they feel that if they can hold a cigarette in their hand they are big men or women. I have even seen in the market recently where tobacco for children was packaged in such a way as to give the psychological effect to the child that he is smoking a cigarette. That is wrong, Mr. President.

Statistics also show, Mr. President, that 50 per cent of auto fatalities are blamed through the abuse use of alcohol. As for those of us here who feel that this is a fundamental religious matter, we are fooling ourselves. It is very important to this country and to the people of this country that we do all in our power to discourage the use of alcohol and tobacco.

Mr. President, I give this matter my full support.

MR. PRESIDENT: The Honorable Idaho Elected Member of Leadership Council.

SENATOR CHARLES L. KEEPSOMEBODY: Mr. President. I have no difficulty, for, in supporting the motion as amended, and I am very grateful that it will be going to a Select Committee where we can all sit down and discuss this matter openly and frankly.

I realize like the remainder of the motion said, the danger which cigarettes and alcoholic items throughout the world, and for our own delights. I for one, Mr. President, became addicted to cigarettes, and I know what I am speaking about. I am speaking about what somebody else did. I am speaking from experience and it is one horrible addiction for one to have. I would not wish anyone, not even my biggest enemy, to become addicted to cigarettes.

Most of this glistening and glamorous advertising which we are hearing on the radio and seeing on television, cannot attract me again or deceive me, but it can deceive the young and innocent people in our society. They are impressionable. We have all been through that stage, and as the Senator said previously. They believe that smoking or holding a cigarette in their hand makes them a grown person immediately. Nothing is further from the truth.

I have been told of a young child going to the shop behind who is now singing a very advertising haunted him on Radio Caprom, and this innocent said to me. "This is what is the meaning Impressions in our society, and something which Government should take steps or to stop this type of advertising on the right."

In the United States every time of cigarettes carries a warning to the people that it is dangerous to their health. In the United Kingdom, radio and television have banned from advertising cigarettes, and I think the press too. We should do all that is within our power to help to educate our children about the dangers of using tobacco and alcohol. I realize, Mr. President, that we cannot legislate morals, but we can also stop assisting those who are selling harmful products to our children. We must find the problems of today and do our utmost to find solutions which alleviate and uplift our people, and stop assisting others who are selling drugs to the young and innocent people in our society.

I thank you, Mr. President.

MR. PRESIDENT: The Honourable Minister Electoral Member of Executive Council.

HON. W. RUSSELL BOGGS: The Honourable Minister Electoral Member of Executive Council.

MR. PRESIDENT: I am sorry. The Honourable Minister Electoral Member of Executive Council.

HON. W. RUSSELL BOGGS: Mr. President, I rise to support this motion and I would like to congratulate the mover of the motion on having so well chosen to make her presentation.

I am pleased also that it will be sent to a Select Committee where an in-depth study can be made, and it can be known at first hand by people as to what we can produce some form of legislation which will bring about the desired results.

Many people use, for instance, Family Planning but I suppose that is another "to page to advertise", and I believe, Sir, that that slogan is still true today, because the Bahamas and Nassau especially spend millions of dollars every year in advertisements to acquaint the public that they should healthy, and to promote their tourists.

The point has been made that other countries with sophisticated means of keeping entertainment down, are taking measures to prevent the spread of this and to control it in order for their people to have better health, on which there can be placed no monetary value, but which on a Government all the way value all for the reason which is stated in English pension. Many times we like to imply that we are the other countries. We have adopted some of the bad things. We have forgotten some of the environments. I feel, Sir, that it is time that we adopt some of the good things which can help to improve the quality of life in these islands we live.

With these few words, I support the motion and look forward to making a contribution when it goes to Select Committee.

HON. ARTHUR H. FOSTER: Mr. President, I promise you that I will be very short, Sir. I would like to support the motion, Mr. President. I only hope that when we are in the Committee Stage of this thing, that the management and press will be added, not only Radio Cayman and the Broadcaster. Just for information, Radio Cayman Radio announces up to the tune of $20,000.00 a year. I am quite willing to donate that loss, but if only I could convince myself, Sir, by non-advertising of business premises and things that it would stop regular loss broadcasts by either one of the two.

I think that we have got to be realistic. It is just like the illustrations given about Cayman Airways during the fortnight a few days ago. They are the losers. The only loser on this radio deal will be Radio Cayman. However, if all the rest lose too, - on quite agreeable.

Mr. President, having said those few words, I support the motion, Sir.

MR. PRESIDENT: Does any other Member wish to speak?

HON. F. WILTON BODDEN: Mr. President, I rise to intervene of speaking. However, listening to the debate of Government Business, who is suggesting, Mr. President, that we include consideration of this, I would like to give a brief history of this motion as I understand it.

MR. W. MARKHAM RYAN (CONTINUING): Were the motor-boats to be used for recreating the nation, newspapers and private enterprise were included. Mr. President, I hope that I would succeed the motion if private enterprise was not included in the motion. If this is going to be the attitude of the Committee when we get to Committee Stage that we include private enterprises I will have to vote no.

Mr. President, we must help private enterprise in this country. No Government cannot tell a newspaper or any advertising firm what to do. Just because Government is trying to tell us what we must each do, private enterprise must live it.

I think that is wrong. If it is I had convenient to be working, and I think that Members must decide in their minds whether they are going to defeat Government's motion which is asking private enterprises to stop doing what they originally should do if they want to. I know that the house has the responsibility to what we do and I hope that also one explain to me whether she will be voting to include private enterprise or not. I will then be able to make a note according to my conscience.

Thank you, Mr. President.

MR. PRESIDENT: Actually the Honourable Second Official Member was the first to catch my eye. I only noted the...

HON. NICOLAS J. PERALTA: Mr. President, Sir, I agree with the opinion that this motion should be referred to Select Committee, but I think my Honourable colleague has missed on this picture a very valuable point. My opinion is objectively be a bad thing for Government to do something but practically unavoidable for the private citizens to do it.

I think, Mr. President, that if the introducing of aggression and expediting legislation be, to be real so. Government cannot abandon themselves from the duty, if they are to be a duty, to prevent the public from their own weakness or carelessness, merely by saying that "no one is going to do it, but it is right for anybody else to do it".

I would strongly support my colleagues in saying that if a Select Committee is to be fruitful and to be to my use, that it should examine all forms of subventions of tobacco, liquors and alcohol products; examine the practice and procedure in other jurisdictions to see the value which have been achieved there and to see what needs to be done generally in regards enforcement of these drugs.

Thank you.

MR. PRESIDENT: Yes, the Honourable Elected Member for Executive Council.

HON. PERCY C. RENNIE: Mr. President, I support this motion, Sir, and I am pleased to know that it is going the Committee route. The one aspect of the motion as originally presented which gave me some concern was partially removed by the Honourable Second Official Member when he mentioned the amount of expenditure which follow Customs for this type of enforcement. It is not that I am concerned about the loss of this revenue per se. However, the revenue has obviously been taken into consideration in our estimates, and I would hope to have that we did anything which would have other consequences whereby we would be losing exactly the amount involved.

Furthermore, Mr. President, I do not know. I have not quite enlightened idea but also did not intend me to understand, what revenue is brought into the Customs Division from the use of the petitioners whom the application to the Customs.

REP. EDWARD O. BENNETT (CONTINUING): I know mentioned in the first three that I have used the new optional building that have one or two advertising billboards within the building. I am not sure whether any of those ever relate to alcohol or tobacco, but if they would have an impact on the amount of revenue involved. So, what we are considering on this motion, Mr. President, we don't know which necessarily determine the amount of revenue which will be involved; what amendments we will have to make from this during the next year. So, if perhaps together in the caucus that we can do it anyhow, we could possibly just put it in this year, providing that we are not bound by that time constraints.

It is a fact, Mr. President....

MR. PRESIDENT: Does the Member expect to be some time? My watch has gone a little slow and I had been disobeying the moment of intermission. However, if you are going to be a long time then I think we cannot finish tonight.

SEN. EDWARD O. BENNETT: Not more than seven two minutes, Sir.

MR. PRESIDENT: Alright.

SEN. EDWARD O. BENNETT: It is a fact, Mr. President, that the advertising of tobacco and alcohol seeks to stimulate the appetite and as mother Nature sometimes grows people to believe that it is the new thing to use it. I think that as a Government, if we are going to take the interests of our young people suitably into consideration, Government should be seen not to encourage the advertising of these drugs.

I support the motion.

MR. PRESIDENT: If no other Member wishes to speak, perhaps I could... You wish to speak? Well, in that case we normally finish tonight..

HON. MASSEL G. MOHAMED: Mr. President, I would like to speak on the motion, but not this evening, Sir.

MR. PRESIDENT: I had hoped that we might be able to finish this motion tonight but plainly we shall not be able to.

ADJOURNMENT OF DEBATE UNTIL TODAY

HON. DAVID S. OMAMO: Could I ask for a suspension of Standing Order, Sir, so that we can complete this Statement which...?

MR. PRESIDENT: There is no hurry in asking. I do not know whether Members will wish to stay on longer to complete this particular motion this evening, but if one or two Members may wish to speak, it may mean quite a long statement.

MR. W. KOSKEY: I feel that we should postpone the Standing Orders, Mr. President, so that we can continue Members' business. I do not think that it will be that long.

MR. PRESIDENT: In the meantime, in view of the fact that Assistant Minister Mr. Moi sought the Chair, in order to accommodate with the suspension of Standing Order 82, that Standing Order 19(1) be suspended in order to enable the Minister to be concluded today. Is that what the Member had in mind?

MRS. DIANA S. CROSS: Yes, I did. I....

MR. SPEAKER: I thought it was.

MRS. MICHAEL J. BARTLEY: All I can say, Mr. Speaker, to my fellow colleagues is that many times, if it had been the character of the motion to suspend Standing Orders, perhaps a little explanation would have been given to Members who only spoke very briefly.

MR. SPEAKER: Well, I do not think that the Member could have reasonably foreseen that the debate was going to be very long in ending this evening. The Honourable Member for Crescent Council should be aware, briefly or not as the case may be.

HON. MARGARET C. SCRIVENER: Briefly, Mr. Speaker.

MR. SPEAKER: Does any other Member wish to speak, only right the Member of the motion shall be entitled the right of reply?

HON. MARGARET J. BIRNEY: Sir....

MR. SPEAKER: Briefly or at some length?

HON. MARGARET J. BIRNEY: I will make it brief.

MR. SPEAKER: So, the other reason I am just trying to advise Members is that while they vote on your motion for the suspension I am not sure how long they may expect to be kept here if they vote in favour. The Chair is reluctant to put a question of this kind after five minutes to twelve but I wonder if the Member of the Executive Council have told me if he intends.

MRS. MARGARET J. BIRNEY: Not more than a minute or two Mr. Speaker, since you explain that to me again please. I am not sure that I understood exactly what you were trying to tell me.

MR. SPEAKER: My understanding was that you told me that you would like to move that Standing Orders be suspended in order to enable the debate on your motion to be completed.

MRS. MARGARET J. BIRNEY: Yes.

MR. SPEAKER: Members will have to vote on your motion to suspend Standing Orders. Before they vote, I thought that it might be helpful to them all to have some indication of how long we should be staying here if they intend to pursue your motion. The Honourable Member for Crescent Council says that he wishes to speak briefly also apparently wishes to speak. Each Member is entitled to speak right of reply. You have each said that you will be about five minutes. That means that we should not be here for more than another fifteen minutes if people vote in favour of suspending Standing Orders.

MRS. MARGARET J. BIRNEY: Yes.

MR. SPEAKER: Does that make it clear?

MRS. MARGARET J. BIRNEY: Yes, you have.

MR. SPEAKER: Sir....

MR. M. MAHESH BHAT: In addition to that motion, Mr. Speaker, there was another motion to continue so that we could finish Private Members' business today. I check up on it. We have one more motion left which should be short also and we could finish it today.

MR. PRESIDENT: It is perfectly possible to move a motion that we should stay for two hours on Private Member's Motion No. 11 as well, but I doubt that you would find the same support for that. I think let us vote first on the Third Elected Member for West Bay's motion. If later anybody wishes to move another motion, to suspend Standing Orders as the remainder the question. So, I will put the motion by the Third Elected Member for West Bay that Standing Orders be suspended in order to enable the continuation of the debate on Private Member's Motion No. 11/95.

QUESTION PUT: AGREED. STANDING ORDER 10(2) SUSPENDED TO ENABLE THE CONTINUATION OF PRIVATE MEMBER'S MOTION NO. 11/95.

MR. PRESIDENT: On that note I will ask the Honourable Fourth Elected Member for Prospective Council to finish.

HON. FRASER S. JOHNSON: Mr. Speaker, I rise to support this Private Member's Motion No. 11/95 as amended. Mr. Speaker, I have no difficulty in supporting this motion which deals with the dangerous drugs, regardless of who may use them. I think that what the motion is asking for is reasonable and that we might strengthen ourselves a bit more by trying to remove from societies anything which is harmful to them.

Mr. Speaker, this motion is not going to affect the smokers in these Isles to any great extent because these few people who still smoke in pubs might yet find their way to the stores to buy their cigarettes. Those who take a drink can still find a way of obtaining it. They do not have to listen to the radio or look in the newspaper or elsewhere to see who is selling cigarettes and where they can find the drink. Therefore, as far as advertising is concerned I cannot see that it will affect one of them if that is discontinued.

Mr. Speaker, I also believe that Government should take the lead in setting an example in cases like this. However, I do believe that if that example is to be set by it has to be legislated by this Honourable House, that there should be no discrimination as far as the percentages are concerned, to say that it must only affect Government and nobody else. I think that it should equally affect the board because what is not good for Government is also not wholesome for the rest of the society.

As far as Government's contributions are concerned it could be loss of revenue to some extent but, Mr. Speaker, if we are doing something which is good and something which is beneficial to the society, especially removing from the society habits which are very dangerous to individuals and to others, then the little revenue should be the least consideration in the recommendations which are being made.

Government's profits although they make some money from this form of advertising but, Mr. Speaker, if this motion is not allowed to take its course of elaboration in Legco I do not think that this is going to have it, however I think at the present time the motion has a lot of advantages.

MRS. PAULINE E. GRIGSBY (CONTINUING): The fact is that they were making fairly good income from this source to the extent that the institution has now become a self financing one. So, if they have to force this form of advertising, I am sure that it can be replaced with other things.

Mr. President, liquor has been very detrimental to the individuals and have brought a lot of heartache to the homes. I can prove what is being proposed in this motion, and I want to congratulate the women, in my opinion a move in the right direction.

I therefore support the motion, Mr. President.

MR. PRESIDENT: The Miss Mineral Maiden for Hot Springs.

MRS. PAULINE E. GRIGSBY: Thank you, Mr. President. I would like to thank those Senators who gave their support, and to those who brought to the forefront ways of the various ways this action should put the interest of the whole Senate.

I am glad that it is going to Committee stage because, Mr. President, I can assure you that any area on which information can be brought to bear to control gambling of liquor and cigarettes, I will do my utmost to see that this is done. I had one person tell me that she had a child who would that when the representative came from Radio Clayton to the ring across the Emerald Mountain. I have had other persons complain to me and say, "You know, that is one of the things which should not be on radio". One of Radio Clayton's close friends had a quiz where he says, "If it feels good, do it". Well, I do not necessarily subscribe to that because many things we like feel good, for instance when you have a minor toothache you go to the dentist affects which matter.

I realize that this will be a loss of revenue to Government, but from what I can gather from Radio Clayton, they have no new advertisements to put on there that they either have not had too much programming after all.

As far as the newspapers are concerned I really honestly cannot see how they should be exempted from this, because there is not that much competition. If all advertising by newspapers is done by one or two companies, possibly three. I feel sure that the Little Club Publicity, and other organizations which want to see these signs removed out on the Islands, would be able to lend their support and perhaps take up some of the slack in Radio. Clayton and the newspapers as far as advertising is concerned.

We want to ensure, Mr. President, that we do not have so many shops on these Islands what is good for our people. This is not really something new. This is being done in many countries. For instance in the United States in the state of Virginia, right now there is unrest, but we see, I think it is the police and fire service and teachers in that state, I believe that it got a job where one has to pay a penny to the dollar in the different income departments. They do not have unions unless they can show their application form to the effect that they have if they smoke they have shown risks. This is simply because they have found out that it is costing them so much for health care, absenteeism, insurance.

Mr. President, it is my desire to do my best for this country. As far as cutting cigarettes is concerned or any other body, I will be working in that direction. However. What I see that is hurting our people, especially children and young people, I particularly on that issue, and regardless if the also votes for this motion I would like to say that I feel my intention to seek to step in every way possible any advertising of liquor or cigarettes locally.

MRS. DOROTHY J. OLSEN (ASSISTANT): Thank you, Mr. President, and I thank every Member of this House for their support. I hope that those who did not might have seen otherwise which the last few minutes.

Thank you.

MR. PRESIDENT: The motion before the House is Senator's Motion No. 11/95 as amended both by committee by the Senate at the time she moved it.

Before I ask Members to vote on it there is one point which perhaps I should have brought earlier to your attention. That is that the motion as now amended reads:-

> "BE IT RESOLVED that the Honourable House take immediate steps to appoint a Select Committee",

and so on. Standing Order 86(1) says that the House may appoint any of its Members to be Members of a Select Committee, and so on. However, neither in this motion on which we are being asked to vote, nor in that Standing Order does it say how the House shall go about the task of choosing who it is appointing. My impression during the debate on this motion was that a majority of the speakers were assuming that if a Select Committee were appointed on the terms of this motion, it would be a Select Committee of the whole House, of all Members. I was going to invite the House to vote on the motion on the assumption that it is intended to be a Select Committee of the whole House, if that is agreeable to the mover of the motion.

MRS. OLSEN (ASSISTANT): Yes.

MR. PRESIDENT: I think that we do it in that way then. In that case I will put the question.

QUESTION PUT: AYES AND NOES:

MR. P. MCKENZIE (SR): May I have a division, Sir?

MR. PRESIDENT: Yes.

DIVISION
NO. 25

AYES	NOES
Hon. Dennis E. Foster	Mr. P. McKenzie (Sr)
Hon. Michael J. Murphy	
Sen. Thomas C. Hoffmann	
Hon. Samson G. Shemilt	
Hon. W. Noreen Dodkin	
Hon. Capt. Charles L. Kirkpatrick	
Hon. Manuel C. Johnson	
Hon. Daphne L. Arnett	
Mr. Lieutenant A. Pierson	
Capt. Henry G. Kirkpatrick	
Mr. G. Edward Miller	
11	1

MR. PRESIDENT: I declare the motion carried.

PRIVATE MEMBER'S MOTION NO. 11/85 TABLED BY HONOURABLE

MR. PRESIDENT: One final point. Standing Order 58(2) provides that I may nominate a Chairman of the Select Committee, if I do not make a nomination the Committee shall elect one of its own Members.

Now, like I think most Members of the House, I was slightly taken by surprise to find that this motion was going to call for the appointment of a Select Committee. I have not had an opportunity to give thought to the question of who might best Chair it. I do not therefore propose to nominate a Chairman. However, what perhaps by leave of the House I may do, is to invite the Honourable Hon. Elected Member of Executive Council to be responsible for convening the first meeting of the Select Committee at which a Chairman can be appointed by the Select Committee. This does not make him Chairman, but it does mean that the thing gets off the ground. Otherwise the danger with no Chairman is of nothing ever happening.

MR. MICHAEL J. BRADLEY: Mr. President, Standing Order 58(2) says that if you have not appointed a Chairman, "the Member with the longest, continuous membership of the House, shall appoint".

MR. PRESIDENT: Oh, well that too may make difficulties. Sorry, which Standing Order? Standing Order No....?

HON. MICHAEL J. BRADLEY: Standing Order 58(2)-

"The first sitting of a select committee shall be held at such time and place as the chairman or, if the Presiding Officer has not appointed a chairman, the Member with the longest, continuous membership of the House, shall appoint."

MR. PRESIDENT: One difficulty there is the Member with the longest continuous membership of the House is I think you regarded as being the First Elected Member for Bonavista Town. In view of his present illness it will probably make for great difficulty.

HON. MICHAEL J. BRADLEY: Why do you not appoint Mr. Pierson?

HON. DENNIS J. FOOTE: I second that, as it's a good leader, Sir.

MR. LEONARD A. PIERSON: No, I think that the honourable First Elected Member of Executive Council would be the proper person.

MR. PRESIDENT: If the Honourable First Elected Member of Executive Council was available to Chair the Select Committee, I would be quite happy to appoint him. If he is....

HON. DOUGLAS J. ELLIOTT: I am not available, Mr. President.

MR. PRESIDENT: Pitching? (Inaudible).

HON. DOUGLAS J. ELLIOTT: I am not available, but if it is felt that I should do it, then I will be happy to do it.

MR. PRESIDENT: Well, I think perhaps in that case it might....I thought I had found a neat solution until the Honourable Deputy Speaker dropped me up.

MR. M. MAKEBA BUSH: Under Standing Order 78(6)... One more question, Mr. President.

MR. PRESIDENT: Standing Order 78, or 78(6)?

MR. M. MAKEBA BUSH: I guess, Standing Order 78, subsection (8),

MR. PRESIDENT: Yes?

MR. M. MAKEBA BUSH: Committee, it says:- As I do understand that the Select

> "shall be confined to the matters referred to it by the Senate, and to any extension or limitation thereof made by the House".

So I do understand that the motion as it is framed, the Committee can only work according to the wording of the motion?

MR. PRESIDENT: One would be the interpretation of the Standing Order. You will have to ask the Chairman of the Committee to rule exactly what the Committee can do. However, that seems....

MR. M. MAKEBA BUSH: But this seems to be the place when you are appointing the Committee.

MR. PRESIDENT: Well, the Standing Order is there to govern.

MR. M. MAKEBA BUSH: But the House. I do not know whether the Standing Order would have any power in a Committee.

MR. PRESIDENT: If you are asking me whether the Standing Order applies, then the answer quite clearly is yes, the Standing Order does apply and the deliberations of the Select Committee are limited to the matters referred to.

MR. M. MAKEBA BUSH: To the motion? To the motion?

SEN. HONOURABLE J. BRADLEY: No, Mr. President....

MR. M. MAKEBA BUSH: As I clear the understanding it is the motion, Sir?

SEN. HONOURABLE J. BRADLEY: No, Mr. President, Sir, it is not like Hansard in that the motion because as it stands, the motion having been passed is the only matter referred to by the House. However, I think it is the feeling at least of certain Members that may that the Select Committee has been appointed, that the House may think fit and proper to widen the terms of reference which it can do.

MR. PRESIDENT: Oh yes, but until the House has widened the terms of reference, the Select Committee cannot unilaterally widen its own terms of reference. I think that that perhaps answers the point which the Second Elected Member for West Rift was seeking to make, and he is quite right.

MR. W. MARVIN WATT: Yes, that is what I was trying to find out. Whether actually they are...

MR. PRESIDENT: The House has charged a Select Committee with a certain task. The Select Committee cannot shoot off and undertake a quite separate or additional task of its own motion.

MR. W. MARVIN WATT: Thank you very much, Sir. I was just wondering whether we were going to try to curtail the freedom of the press here by saying that they cannot acquiesce.

MR. PRESIDENT: I think that if you labour the point you may find that the House is divided as to exactly what happens. The adjournment.

ADJOURNMENT

HON. DENNIS A. FOSTER: Mr. President, I move the adjournment of this House until 10 o'clock tomorrow morning, Sir.

MR. PRESIDENT: The question is that this House do now adjourn until 10 o'clock tomorrow morning.

QUESTION PUT: AGREED. AT 4.09 P.M. THE HOUSE ADJOURNED UNTIL 10.00 A.M., FRIDAY, 26TH MAY, 1989.

SECOND MEETING OF THE 93RD SESSION
OF THE LEGISLATIVE ASSEMBLY

BISMARCK
SIXTH DAY, 1973

SPEAKER PRO TEM:

FRIDAY

26TH MAY, 1966

10:00 A.M.

MR. PRESIDENT: Please be seated. Proceedings are resumed. Questions. The Second Elected Member for George Town. Question number 68.

QUESTIONS

THE SECOND ELECTED MEMBER FOR GEORGE TOWN TO ASK THE HONOURABLE SECOND OFFICIAL MEMBER RESPONSIBLE FOR TOURISM AVIATION AND PORTS

NO. 68: Would the Member state the amount which has been collected from the newly refurbished airport parking fees?

ANSWER: Up to 16th May, 1966, the sum of $12,828.00 had been collected from car parking fees at the new terminal buildings.

SUPPLEMENTARIES:

MR. LINFORD A. PIERSON: A supplementary, Mr. President. Would the Honourable Member state how this amount corresponds with the budgeted revenue for that particular period?

MR. PRESIDENT: I really think that that ought to be something the Member himself could find out by looking at the Estimates, and you are not allowed to ask questions that are not within the manners one available in published records. If it is not in the Estimates, then you are entitled to ask it. If it is in the Estimates, then you are expected to look the answer up yourself.

HON. W. MCKAY BODDEN: Mr. President, I can say that it corresponds favourably with the amount that has been estimated to be derived from this area of revenue.

MR. LINFORD A. PIERSON: Mr. President, if I may, Sir. The purpose of this question is to solicit certain information from the Honourable Member, and that is the relevance of asking the supplementary. I can appreciate what you have said, Sir, but I do not think it is very helpful if I am to go unprepared for a budget to try and find this information. The supplementary follows on the primary question.

MR. PRESIDENT: What Standing Order is it ? I have been trying to find the Standing Order; I was relying on memory - (1/1/1) (a) says is that a question shall not be asked the answer to which can be found by reference to available official publications. And the point I was making to make sure that if the printed Estimates give the information for which your supplementary asked, then the supplementary was itself out of order. If they are not (the printed Estimates) broken down in such a way as to give that information, then you are certainly entitled to ask the question.

MR. PRESIDENT (INTERRUPTING): I truthfully do not know whether the previous Statements are broken down in that way, but perhaps I could help both you and the Honourable Leader of Executive Council by asking whether the Honourable Elected Member of Executive Council could provide you in writing with the information your supplementary sought, if that information is not already available in the printed Estimates.

HON. W. HOWARD BOGGS: I see no problem with furnishing the Member, Sir, if that satisfies him.

MR. PRESIDENT: Would that be satisfactory?

HON. GARFIELD E. GRANT: A supplementary, Mr. President. Would the Honourable Member be able to say here whether airport parking fees are payable by employees at the airport or will the vehicles be free of charge?

MR. SPEAKER: I think that is a fair supplementary.

HON. W. HOWARD BOGGS: Mr. President, I presume that the Government is referring to employees who work at the terminal buildings, and if it be so, fees are payable by those employees. However, the Cayman Islands Corporation have set a special rate, which, if my memory serves me correctly, is $5 per month for employees who work at the terminal buildings.

MR. SPEAKER: If there is no further supplementary, Honourable Member 76.

THE HONOURABLE MEMBER FOR GREATER GEORGE TOWN (MR. JAMES BODDEN) ASKED THE HONOURABLE ELECTED MEMBER RESPONSIBLE FOR TOURISM AVIATION AND TRADE

QUESTION: Would the Member state the cost per square foot for renting space at the airport and the number of businesses which have recently taken advantage of the new terminal premises?

ANSWER: The cost for renting shop space at the new terminal buildings is as follows -

1. First Floor

(a) Departure Lounge - $24 per sq.ft. per annum
(b) Main Concourse - $18 per sq.ft. per annum

2. Second Floor

(a) Terminal Shops - $12 per sq.ft. per annum
(b) Office Space - $10 per sq.ft. per annum

One business has discontinued operations in the new terminal building.

SUPPLEMENTARIES:

MR. G. HAIG BODDEN: Mr. President, may I ask the Honourable Member if he is aware that this rate of rental at the airport is much higher than many of the prime office and shop areas in downtown George Town?

HON. W. ROSWELL BOWDEN: Mr. President, may I say not more than this is much helpful because I think the average square foot price for where the main areas in downtown George Town would probably be between $20 and $25 per square foot. However, I would point out to the Member that these rates were set prior to 11th December, 1984.

MR. G. SAIG BODDEN: Mr. Speaker, is the Honourable Member telling the House that they have blindly put in rates that have not been estimated even before the terminal was completed?

HON. W. ROSWELL BOWDEN: Mr. President, no I am not telling the House that we blindly took any decisions, because, as the Member will recall, supposedly the terminal was completed and opened before 14th November. The rates which we have applied were carefully examined by the Cayman Islands Corporation and considered to be fair and reasonable.

MR. G. CRAIG BODDEN: Mr. President, I wonder if the Honourable Member could tell us when he had the opportunity of this examination.

HON. W. ROSWELL BOWDEN: It is not in relation to the original question, but it was on 21st September, 1985. The reason I made that point was because the Member asking the question in previous meetings had indicated that it was opened prior to that in December some time.

MR. T. ALTA RUTTY: Mr. President, may I ask the Honourable Member if he is talking about the first baptism or the second baptism of the building? (Laughter)

MR. PRESIDENT: I am not really sure that you can ask that. So, we will have the Elected Member for North Side. (Laughter)

MR. D. EDWARD MILLER: Could the Honourable Member state what the above mentioned by the one business which was closed, has been filled or not.

HON. W. ROSWELL BOWDEN: Mr. President, I am not certain whether it has been filled or not.

MR. TIMOTHY A. TIBBETTS: Mr. Speaker, a supplementary. Could the Honourable Member state if any of the tenants in the terminal have complained to him or his portfolio of hardships as a result of the high rental costs?

HON. W. ROSWELL BOWDEN: I suppose not, Mr. Speaker, that any formal complaints came made to the Director of Civil Aviation. I have not received any myself. I do know that there have been discussions taken, by some of the shop owners, to negotiate with different positions within the terminal in order, probably, to give them better business opportunities. However, no formal complaints have been received by me.

MR. PRESIDENT: The Elected Member for North Side I see Sir.

MR. D. EDWARD MILLER: Could the Honourable Member state if there is a waiting list of businesses to get into the terminal? Are there a number of applications in hand?

HON. W. ROSWELL BOWDEN: Yes, Mr. Speaker, we have several companies which are still interested in working at the terminal, and there is a list.

MR. RICHARD A. PIERSON: A supplementary, Mr. President. Would the honourable Member give his undertaking to examine the situation, and if it is found necessary, also, to consider abolishing the airport parking fees and reviewing the rentals.

MR. PRESIDENT: I do not think the part about airport parking fees can be a supplementary question to this, but the rentals on the rentals can.

MR. W. RICHARD BOWLBY: Mr. President, we can look at the whole range, but the fact remains that we have a very nice terminal. As I may have said and it has to be paid for. This is a matter for the Corporation to deal with. I can say to the Member that we will look at it again, but I could not make any commitment here that we would be willing to reduce the rates as they are at the present time, because as I have said before, we have a very expensive terminal to operate and it has to be paid for. I am certain that the appropriate calculations have been made in additional rentals.

MR. PRESIDENT: Question number 21.

THE HONOURABLE MEMBER FOR GEORGE TOWN TO ASK THE HONOURABLE MINISTER RESPONSIBLE FOR IMMIGRATION AND EMPLOYMENT MATTERS:

NO. 21: Would the Member state how long an applicant granted permission to remain permanently in the Islands must spend in them each year in order not to lose that permission and whether any such period has to be consecutive.

ANSWER: The provisions of the Immigration Law, 1984, relating to loss of permanent residence by virtue of absence from the territory, is contained in section 44 of that Law at paragraph (2).

Mr. President, I realise that Members may not have this Law in front of them so for their benefit I will just read it -

"44. The Board shall declare that any person who has been granted permission to remain permanently in the Islands has ceased to enjoy such permission if any of the following circumstances, that is to say -

(a) he has been ordinarily resident outside the Islands continuously for a period of two years;".

SUPPLEMENTARIES:

MR. JEFFREY A. EBANKS: Mr. President, a supplementary. Would the Honourable Member state the minimum period required to be spent in the Islands in order not to lose this residence?

HON. JAMES U. BODDEN: Mr. President, the Law says if a person stays out of the Islands continuously for a period of one year, it shall be lost. It does not say the minimum time. So I was only suppose if a person was here for one week out of each year, he would not lose it.

MR. LISTON A. PITTMAN: Am I to understand, Mr. President, that if someone receiving permanent residence under section 93 and 94 of the Immigration Ordinance, Cap. 62, were out of the Colonies for one day a year that he would still be considered to have permanent residence?

HON. DENNIS D. FINGER: It would seem that way to me, Mr. President. It says if he is continuously outside of the Colonies for a period of one year. If he is in the Colonies for a few days a year, he will not lose it.

MR. LINTON A. GUTTERIDGE: Mr. President, my question is to get information which I consider useful, because I have been asked this question before. Am I to understand that an individual receiving permanent residence need only spend one day in the Colonies per year?

MR. PRESIDENT: That question has been answered since how it was?

MR. LINTON A. PITTMAN: Mr. President, I am seeking a specific answer.

MR. PRESIDENT: If there is no .....

HON. NEVILLE M. ROGERS: Mr. President, it seems to be a matter of legal interpretation. My interpretation is the same that if an ordinarily resident does not choose to go away for two or three years a year, that is fine. However, if an ordinary resident wants to also just only choose to come here for a day or two, I think it could be considered that is not ordinarily resident here.

MR. PRESIDENT: I do not think the questioner is going to be able to obtain from legal advice (laughter) an interpretation of the Law from the Government Bench. It is for the courts to interpret the Ordinance.

MR. LINTON A. GUTTERIDGE: Mr. President, ...

MR. PRESIDENT: If you need silence or there need advice on simple legal points of this kind, I think they should be referred to their own lawyers.

MR. EDWARD A. PEARCE: Mr. President, I am not seeking advice for my clients. I usually go to my lawyers for that. The purpose of seeking clarification in this House is to get factual answers. If we cannot get it for this House, where can we going to get it? And this is why I have an honourable Second Official Member who is well versed in the Law.

MR. SPEAKER: Now, I do not think anyone that it is the intention to give legal opinions, and indeed standing Order 31(1) (a) again suggests we should not entertain expressions of opinion on the solution of an abstract legal question. Well, I am not certain quite what an abstract legal question is, but I do not readily think that interpretations of the Law, which is really what you are seeking, can properly be sought.

MR. LINTON A. PITTMAN: One last supplementary question, Mr. President. Will there ever be Government Scholarships awarded to an individual if it has no idea of what period it is spending?

MR. PRESIDENT: I am not quite sure to whom you are addressing that to. Are you addressing it to the Honorable Floor Official Member?

MR. EDWARD A. PIERCE: To the Honorable Floor Official Member. That is to which my substantive question was asked.

HON. DENNIS H. MORRIS: Mr. President, the Board is not going to grant permanent franchise to a person who has not fulfilled the qualifications of the law. The qualifications are set out in the law that, I think, one must be resident here for six months first and then after you may apply, and so on and so forth. The qualifications are set out here and I do not think it is going to be granted unless a person qualifies under the law.

MR. EDWARD A. PIERCE: Mr. President, in view of the answer I have received, I wonder if the Honorable Member would give his undertaking to check this section of the law as there obviously appears to be a loophole there?

HON. DENNIS H. MORRIS: I cannot give that undertaking, Sir. The law is there and I do not see any loophole in it.

MR. EDWARD A. PIERCE: Mr. President, without undertaking to withdraw this question, I wonder if the Honorable Member would then state why he could not tell us the specific period that an individual would have to spend in these Islands other than guessing that it may be two or three weeks at a time, when in fact the law states that to lose it one would have to be away for one year, but it does not give any period in which one has to spend in the Islands. It could be one, two or three days.

HON. DENNIS H. MORRIS: Mr. President, the answer is in the law, Sir. If the Member reads the question there is better interpretation which I can give, then he can get it elsewhere also.

MR. PRESIDENT: Question number 72. The Elected Member for East Hoa.

THE ELECTED MEMBER FOR EAST HOA ASKED THE HONOURABLE MEMBER RESPONSIBLE FOR TOURISM AVIATION AND PORTS

NO. 72: Will the Member give this Honourable House a breakdown of tourist arrivals to these Islands for the period 1st December, 1984, to 31st March, 1985.

ANSWER: The breakdown of tourist arrivals to these Islands for the period 1st December, 1984, to 31st March, 1985 is -

	AIR	CRUISE	TOTALS
Dec 84	14,402	21,257	35,659
Jan 85	20,728	17,200	37,928
Feb 85	14,249	23,959	38,188
Mar 85	17,570	24,674	42,244
TOTALS:	56,858	26,537	155,106

SUPPLEMENTARY:

MR. JOHN S. NOLAN: Mr. President, a supplementary. I wonder if the Member could say how do these figures compare with the same period for last year?

HON. M. SHARP (CHARLE): Mr. President, for the four month period November, 1983 to March, 1984 compared with December, 1982 to March, 1984, exports by air are up 7.7 per cent. Cruise ship movements are up by 23.2 per cent for a total of 20.4 per cent.

MR. SPEAKER: Question No. 725

THE QUESTION ORIGINALLY WAS ASK THE GOVERNMENT HOUSE LEADER REGARDING AIRPORT AND FLIGHTS AVAILABLE FOR FLIGHTS AND TRADE
(Answers to the Honourable Leader Opposite Hansard)

MR. XX: Will the Member state whether there has been a decline in freight brought in by Cayman Airways as a result of the recent fare increases?

ANSWER: Freights during September by Cayman Airways has declined, but it cannot reasonably be said that it is a result of the recent fare increase because the fluctuating rates of freights does not support such an inference.

	1983 (Lbs)	1984 Value
January	335,320	138,038
February	341,829	150,861
March	489,239	197,624
April	609,376	158,312
	1,875,584	644,255
	1985 (Lbs)	1986 Value
January	427,965	157,956
February	502,887	132,609
March	491,205	196,530
April	308,903	119,385
	1,460,760	652,380

We have carried out a small exercise after the Cayman Airways Limited has been formed, concerning the cost of importation by sea and air (including Port Authority charges).

This exercise has attached appendix for information purposes the differences are negligible based on the nature of the goods imported.

SUPPLEMENTARIES:

MR. LEONARD A. LUCOCK: Mr. President, I have a question to pose, Sir, for clarification. Could you advise whether this question would fall under the definition of Section 22.(3)(f) of the Standing Orders?

MR. PRESIDENT: In considering the question I took it that it was a breaking information. It was not really relating to facts already decided. In other words, the terms which had been decided that there should be a change in certain charges. If somebody had moved a question saying that it might have been that there should be a change then I think Standing Order 22.(3)(f)(i) would have had to render that question inadmissible. However, if somebody moved that the effect of the charge I think that would be perfectly proper. Is that getting the clarification? I'm sure quite prepared to seek information about the effect of the change which has been approved by the House. I can quite understand that some Members may desire as a result of the information which they thus get that the charge should have been made. However, I am obliged to say that they may not be in order.

MR. JOHN A. WATTS: Mr. President, a supplementary. As a result of the answer given would the Member say whether it is correct that Cayman Airways limited applied to Government some time ago to reconsider the amended but then to the fact that it did about a decline in the freight rates?

MR. DONALD C. REYNOLDS: Mr. President, no formal approach has been made to me, Sir.

MR. J. EDWARD KILLAS: A supplementary, Mr. President. Could the Member state if Cayman Airways terminated their freight rates on November, 1984 or not?

MR. DONALD C. REYNOLDS: The freight rates for Cayman Airways were terminated on the 14th December, 1984.

MR. LEONARD A. LUCOCK: A supplementary, Mr. President. Could the Member say whether he has any information as to why that was seen to be necessary?

MR. PRESIDENT: As to why?

MR. LEONARD A. LUCOCK: As to why it was seen to be necessary to terminate the freight rates on December, 1984.

MR. PRESIDENT: I will let the Member answer but I think that that is getting a bit remote from the original question.

HON. DONALD C. REYNOLDS: Mr. President, I really do not have any first hand information but I would assume that when the Board was dealing with the matter of necessarily the rates or looking that on they were, it was an attempt by the Board to run a commercial airline, and at the time it was a matter of necessity were terminated.

MR. A. MILO SCOTT: Mr. President, it seems from a rough look at the answer that the decrease in freight charges over that period is something in the vicinity of close to half a million pounds. I am wondering if the Member can say if the rate decrease would compensate for the reduction in volume?

MR. PRESIDENT: I think that we have mostly getting to...

HON. THOMAS G. MASTROMARK: I would just like to answer him, Mr. Tax Payer be looking at on the weight. If he looks at the United States Dollars received, the difference is $20,799.00. I agreed that Cayman Airways needed to have any money at all or to make any differences of this type. However, when we take this consideration the wages we must look at the expenditures as well, not just the revenue side, Mr. President. We have a responsibility which we have to the people. We have to pay for the raising of the wages. We have to pay for staff on the Miami side as well as other things such as birthday fees, etcetera.

MR. LINFORD A. PIERSON: Mr. President, in view of the approximately 20 per cent reduction in the value of foreign currency and April, 1984 as compared to January and April, 1983 could the Member state whether he has any information as to whether or not the expenditure in the Estimate have taken into account a reduction of the tax increase?

HON. THOMAS G. MASTROMARK: Mr. President, no recent information has been sent to me of that type.

MR. PRESIDENT: Question No. 24.

THE SPEAKER AGREED FOR THAT HON TO ASK THE SUPPLEMENTARY SECOND ELECTED MEMBER RESPONSIBLE FOR TOURISM AVIATION AND SPORTS

NO. 24: Will the Member state what the estimated number of tourist expected for the year 1984 is?

ANSWER: The visitor arrival forecast for 1984 by the Department of Tourism is as follows -

Air arrivals	157,222 or 18.9 per cent over 1983
Cruise arrivals	219,037 or 7.0 per cent over 1983

SUPPLEMENTARY:

MR. SPEAKER: I believe any Member wishes to ask a supplementary. The Second Elected Member for Bodden Town.

MR. G. HAIG BODDEN: Yes, Mr. President. The answer shows that the forecast is for a 18.9 per cent increase for air arrivals. Can the Member say whether this is fairly real?

HON. T. RUSSELL ROLFE: Mr. President, I am told by the experts that this forecast of the increase is reasonable. I would say that the progress which we have made so far this year seems favourable. The reply which I gave previously to the honourable Elected Member for East End included December, 1983. However, the statistics are calculated on a calendar year basis. If we take January, February and March, 1983 and compare that with January, February and March for 1984 it can be established that so far for the first three months of 1984 we have at least 2,000 tourist arrivals to date over the same three month period for 1983. So that I would say that we are making fairly good progress and it is anticipated that we will be on target.

MR. PRESIDENT: If there is no further supplementary, question number 76. The Honorable Member for North Dade.

QUESTION NUMBER 76 ASKED BY MR. ROLAND BURRIEL PERTAINING TO INCREASE OF EXECUTIVE STAFF

MR. JOE: Would the Majority Whip say Government is advertising in the local media for Senior Customs Officers?

ANSWER: Government is advertising for Senior Customs Officers because there are a number of vacancies at that level.

Some of these vacancies are the result of an increase in the establishment, approved by the Legislative Assembly in the last estimates. One Senior Customs Officer has recently promoted as Assistant Collector, thereby creating another vacancy.

Interested Officers in the department will be considered for promotion and outside Officers in other Government Departments are free to apply for the advertised posts. If applications are received from non-serving Officers with better qualifications and experience than serving Officers, it is possible for a vacancy to be filled that may rather than by promotion. In considering the claims of persons in the service for promotion, merit and ability are taken into account as well as seniority, experience and qualifications.

Interviews will be held shortly and new appointments will be made if all the vacancies cannot be filled by promotion or transfers.

SUPPLEMENTARIES:

MR. O. RAY ROBERTS: Mr. Speaker, may I ask since the application for Senior Customs Officers does the Government really expect to find qualified people here other than Customs Officers who have worked?

HON. DENNIS A. LEWIS: Mr. Speaker, it is quite possible that persons in another Department such as Immigration or even Police might apply for these jobs. To make it sound as if that gave a senior position in Customs but the promotion of that Department to Customs Officers and then Senior Customs Officers. It is not really right up to the top. I think that we will probably get a lot of applications from other Departments.

MR. O. RAMON BURRIEL: A supplementary, Mr. Speaker. Could the Honorable Minister or not it would have a better opportunity to have considered all of the Junior Customs Officers before advertising for Senior Customs Officers?

HON. DENNIS A. LEWIS: Mr. Speaker, this is going to be vicious Mrs.

MR. O. RAMON BURRIEL: Mr. Speaker, if there is going to be done then why is it necessary to advertise for Senior Customs Officers why did the advertisement not simply read Senior Customs Officers to fill the posts of Junior Officers who have promoted?

HON. HOWARD B. FOSTER: Mr. President, there are a number of these posts, Sir, and I think that the Public Service Commission or some consultancy should be advertised locally to give other Civil Servants in other Departments an opportunity to apply.

MR. PRESIDENT: I think that it should be made clear to the House that statutorily declaration appointments in ministries are now made by the Public Service Commission and that no Member of Government, including the honourable Chief Ministerial Member, is responsible for them.

MR. W. HERBERT SIGH: A supplementary, Mr. President. Could the Member say whether he believes that he will be able to find those officers locally?

HON. HOWARD B. FOSTER: Most certainly so, Mr. President.

HON. PRESIDENT: If there is no further supplementary, question number 22.

THE MINISTER RESPONSIBLE FOR HOUSING AND LANDS TO ASK THE HONOURABLE CHIEF MINISTER: MEMBER OF EXECUTIVE COUNCIL:

NO. 22: Would the Member state what was the total cost of the teachers' mortgage scheme and what were the responsibilities and duties of each member of the team?

ANSWER: The total cost of the teachers' mortgage scheme was $18,000.00. The team had joint responsibilities, namely to select the most suitable applicants for each advertised post.

SUPPLEMENTARIES:

MR. S. EDGAR HILLIER: A supplementary, Mr. President. Could the Member state if the Principal of the school was a member of this team?

MR. PRESIDENT: Could you say the Principal of that school?

MR. S. EDGAR HILLIER: Of the High School.

MR. HOWARD B. FOSTER: Mr. President, the Public Service Commission has authorised a selection panel consisted of the Principal Secretary of Personnel, the Principal Secretary of the Portfolio and the Head of the Department to interview candidates for those positions. Sir.

MR. S. EDGAR HILLIER: A supplementary, Sir. Seeing of the cost of $18,000.00 can the Member state whether the quality of teachers has improved?

HON. HOWARD B. FOSTER: Well, Mr. President, those teachers have not come yet, but judging by the performances which we have had here, we certainly seem to have got a good selection there.

Mr. President, given the Member's benefit, unless he is not giving me a supplementary I am going to volunteer it, Sir. Some given the amount $18,000 by the same type of arrangement. I am sure that this year it will be possibly around $20,000 anyway, Sir.

MR. PRESIDENT: The Elected Member from North Side has risen.

MR. D. BRIAN MILLER: ...would the Member care to give a breakdown as to how that money was used? Is the Member saying that we are making a place to locate retiree when retiring people have not been already asking myself.

HON. DENNIS A. FOSTER: Mr. Speaker, because in the past we used to negotiate through the Union Agents and we have to pay them about 10 per cent of the amount salary for negotiations. It would never be possible to locate all of the specialists when we interviewed there, who remained in the Cayman Islands to-[illegible] then, it is much cheaper to send three people, the head of the Department being a qualified teacher himself. The saving really comes through the commission paid to the Trade Agents in the past.

MR. PRESIDENT: Further the Second Elected Member for West Bay caught my eye, if he still wants to ask a question.

MR. TRUMAN BODDEN: Yes, Mr. President, I did pray before the Member but he got his answer on specific[illegible] going to cost.

MR. PRESIDENT: Well, then the Elected Member for North Side spoke.

MR. D. BRIAN MILLER: I know that we should not make statements, Sir, but since everybody has had their turn it's I think that I will try mine. I was not suggesting that we bring them out here, Sir. I think that if we are offering the kind of jobs which we offer locally, they should be made to fly out here at their own expense.

MR. G. MILO BODDEN: Mr. President, may I ask the Member of the Government for the last two years is conducted through the Passport's office in London.

HON. DENNIS A. FOSTER: The answer is yes, Sir. He and his staff have done a very good job in helping out the Department recruiting.

MR. D. BRIAN MILLER: Could the Member state whether his office is taking by fees of charge, without commission?

HON. DENNIS A. FOSTER: Most definitely so, Sir. They are salaried people of the Government.

MR. D. BRIAN MILLER: Could the Member say what those salaries are?

MR. PRESIDENT: Is that information in the estimates?

HON. DENNIS A. FOSTER: I would think so, Sir, but I cannot remember them offhand.

MR. P. RICHARD BODDEN: They are not in the estimates.

HON. THOMAS C. JEFFERSON: They are in the estimates but they are under Other Charges. They are not specifically broken down.

MR. SPEAKER: Well, I think that if the Member would like that information I dare say that the Assistant Chief Official Reporter will provide it to him. It is not really a supplementary from the original question here.

I am not sure whether the Second Elected Member for West Bay was still trying to indicate by eye, or whether he was finished by eye. Perhaps he was not trying to indicate by eye. If there is no further supplementary, question... How you trying to attract my eye or not? No. Question number 22.

THE ELECTED MEMBER FOR NORTH SIDE TO ASK THE ATTORNEY GENERAL CONCERNING CANCER OF RESPECTFUL DISEASE

No. 22: Would the Member state why it is necessary for Members of the Legislative Assembly to have a prepared plan of action in what the return, and does the plan apply to members of the public?

ANSWER: Detainees are allowed only one telephone call and they are given the opportunity of choosing their relatives. The procedure is considered necessary to ensure that a detainee is not denied a chance for someone he genuinely wishes to see, simply because someone else wishes to see him and is allowed to do so. The procedure applies to all detainees whether they be family members or Members of the Legislative Assembly.

Weekly chosen exercises are held in a recreation facility, however, if an in-house request is received, this would be allowed and it would be outside the ambit of the law unless.

SUPPLEMENTARIES:

MR. D. EDWARD WILSON: A supplementary, Mr. Speaker, is it possible to have the Members of the Legislative Assembly's visits re-classified similar to the clergy so that they will be outside the room?

HON. GEORGE B. FOSTER: Mr. Speaker, I would not say that is impossible, Sir. However, I would just like to point that the Prison Rules used in the United Kingdom. It says:-

> 'An M.P. including a Member of the House of Lords can visit him if he wishes to see him. The meeting will not take up any of your visiting order.'

He gets a special visiting order.

> "You may also be visited by a member of..."

So it shows, Mr. President, if a Member of the Legislative Assembly is requested by the prisoner to visit him, I would say that there would be no problem in hoping that he contacts the Governor. If the Member wishes a request to see the prisoner I think he should have to ask the Governor if he wishes to see him or not. If he wishes to see him, permission would be granted, Sir.

MR. LINDSAY A. AMERONG: A supplementary, Mr. President. Will the Minister give the undertaking that separate from Senator Al Hartland Molson, for Members of the Opposition to speak then will be given [illegible] opportunities?

HON. MICHAEL M. POSTAN: Yes, Sir, I will give that undertaking. The Senator Molson might wish me to let you the message as well.

MR. SPEAKER: If there is no further supplementary we shall move on to the next item on the Order Paper, Item 4, Statements, the Honourable Miss Muriel Mackie of Parkside Council.

STATEMENTS BY MEMBERS OF THE GOVERNMENT

MISS MURIEL M. MACKIE: Mr. President, yesterday the Government Senate moved against Private Members Motion No. 2/75, which if accepted as written would have committed Senate either to the acceptance of the proposal to construct in such a way as to preclude at least the location on the southwest of the hospital as it is then. Although in speaking on that motion I made it clear that it was Government's intention to provide 24 hours per day coverage by a doctor on the original campus, perhaps that announcement may have been lost in the debate which followed.

Since this matter is of such public importance I would not like any misunderstanding to arise concerning it. I therefore wish to make it unequivocally clear that it is Government's intention to have a doctor on duty at the hospital 24 hours a day in keeping to the announced decision making this known to the Senate.

MR. SPEAKER: Item 5(1) Committee Reports continue....

MR. S. GRAHAM: May we have a minute to look at the answer in case I might want to ask the Member a question under Standing Order 30(7)?

STANDING ORDER 30(7)

MR. SPEAKER: Yes, certainly.

For the information of Members, Standing Order 30(7) provides that where appropriate, at this stage only, we may return on the statement just made, but that I may in my discretion allow a short question to be put to the Member who made the statement for the purpose of seeking clarification. So if any Member does have a question of that kind, I am quite prepared to entertain it.

MR. G. WALL SPARKS: Mr. President, may I ask the Member why a made the statement since the statement was already a proposition of the request which he had just so yesterday?

MR. SPEAKER: I think that the statement stands, I don't know whether you have a copy of it, the motion there. You may not agree with the supplementary but it is on record the issue.

MR. S. GRAHAM [MPHIL]: On a point of clarification, May could the Member please at this time how the objective of having a doctor at the hospital 24 hours a day is going to be achieved without [illegible] the Members?

MR. PRESIDENT: Well, again I think the Member's statement made it clear that he wanted to examine the position. In other words, he has not agreed but has objections which seem to be reasonable. So, I do not think really....

MR. D. BRIAN KELLY: Mr. President, Sir, this question has been examined by a previous Member for eight years and the Member before for four years, so it has had a lot of examination.

A. M. MARSHALL JONES: May we have a vote, Sir? I think that there was a question.

MR. PRESIDENT: ...Mr. I did not allow the question. In other words I do not think that it really was a question seeking clarification because I think that it was clear enough from the statement.

MR. M. MARSHALL JONES: Am I allowed to make a statement?

MR. LIEGARD A. FINNEGAN: Mr. President, a short question. Could the Member please tell the House the understanding that a report of the in-depth study will be brought to this House at the next Sitting or before?

HON. SENATOR O. ZAMMIT: Mr. President, I believe that the next Sitting would be Monday morning so I could not undertake to do that.

MR. LAWRENCE A. SCERRI: Mr. President, I believe that the Minister is saying sometime previous. We know that I mean September.

MR. PRESIDENT: Subsequently, the Member is saying September. If you mean September you should have said Monday, not Friday.

MR. LAWRENCE A. SCERRI: Mr. President, I believe that most of us here are intelligent enough to know that he didn't mean to an in-depth study and get it here tomorrow morning.

MRS. JOSEPH J. CALLEJA: Mr. President, Tuesday is Sarmula Day if the Member means at the next Sitting in September, I think that it is impossible for us to say that I will have an answer for it. Thank you Sir.

MR. M. MARSHALL JONES: Is the Member speaking in parliamentary language when he says have an answer for us on Monday and for September? I will not quite understand.

MR. PRESIDENT: September.

POINTS OF INFORMATION

MR. M. MARSHALL JONES: So that some clear, Mr. President, if I correctly make a statement now, I wish to put you on notice, Sir, that I want to make one of the adjournment Hour statements.

MR. J. BRIAN KELLY: If I could be of help to the Member, Sir, I mean the in-depth study might mean it by Tuesday. He could bring it on Monday.

MR. PRESIDENT: If the Second Blocking Motion has been withdrawn, I wish to make a motion on the adjournment. I beg his withdrawal to withdraw Order 15(7) so that he will not suppose that what he said a moment ago gives me the notice which is required. I want to make just as much time as possible.

MR. E. ROBERTS JONES: Yes, Sir, I quite understand what it is. I have that you suppose the Government Monthly Bill.

MR. PRESIDENT: No, that is not what it says. I think that you should read what it says a little more carefully. It puts on Minister an obligation to publish a certain proposition. If you publish that proposition then certainly you may raise the matter. I think that we have probably anticipated the possibilities of the amendment now, in which case the House will now go into Committee on which I will entitled the Clerk of the Court and Deputy Clerk of the Court (Powers) Bill, 1986 and certain other Bills.

THE CLERK OF THE COURT AND DEPUTY CLERK OF THE COURT (POWERS) BILL, 1986

COMMITTEE STAGE

MR. CHAIRMAN: The House is now in Committee. I have just a few to discuss the powers of the Clerk of the Court and the Deputy Clerk of the Court.

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 do stand part of the Bill. Unless any Member wishes to speak I will put that question.

QUESTION PUT: AGREED. CLAUSE 1 PASSED.

CLERK: CLAUSE 2. POWERS OF CLERK AND DEPUTY CLERK.

MR. CHAIRMAN: The question is that Clause 2 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 PASSED.

CLERK: CLAUSE 3. POWERS OF DEPUTY CLERK.

MR. CHAIRMAN: The question is that Clause 3 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 3 PASSED.

CLERK: A BILL FOR A LAW TO INCREASE THE POWERS OF THE CLERK OF THE COURT AND THE DEPUTY CLERK OF THE COURT.

MR. CHAIRMAN: The question is that the Title and Enacting Clause do stand part of the Bill. If there is no debate I will put the question.

QUESTION PUT: AGREED. BILL TITLE HAS PASSED.

MR. CHAIRMAN: A Bill for a Law to amend the Currency Act (Chapter).

THE CURRENCY (AMENDMENT) BILL, 1965

COMMITTEE STAGE

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 do stand part of the Bill. If there be no debate I will put the question.

QUESTION PUT: AGREED, CLAUSE 1 STANDS.

CLERK: CLAUSE 2. AMENDMENT OF SECTION 20.

MR. CHAIRMAN: The question is that Clause 2 do stand part of the Bill.

MR. D. EDGAR HILLS: Mr. Chairman, it is quite a common practice here that automatic coins are inserted for gambling, I suppose. In the strict interpretation of legality, that could probably be interpreted as inducing. So I wonder if we need it now, some discussion for the nominated coins. I would like to break it down by inserting my 500 gold pieces around my neck.

MR. CHAIRMAN: Did you mention this earlier the Second Reading debate?

MR. D. EDGAR HILLS: Yes, Sir.

MR. CHAIRMAN: I thought that you were going on [illegible] whether this will not still in practice the machines are not illegitimate?

HON. THOMAS C. JEFFERSON: Maybe the Learned Attorney-General will help us.

HON. MICHAEL J. SAVAGE: I think, Mr. Chairman, that the honourable Member need not worry himself unduly. The great majority of automatic coins, and we are here talking only about coins which are legal tender and part of the coinage of the realm here, and such coins presumably are the 10¢ and 25¢ pieces of that type thereof, and my understanding is that such coins for gambling purposes most of them are not declared but counted in a shortfall. Gambling is at its end destroy part of the actual capital and interest of the machine itself. However, if there was an understanding and you were required to themselves for gambling purposes the gambling, they could as a matter of actual policy that they would seek to substitute the face of the accumulation from the front of these, just coins. I think that the appropriate step which action is taken first would be if there that they take would be considering [illegible]. If they [illegible] permitted [illegible] would be guilty of an offence and liable both. However, I think that is an extreme case. I do not think the Honourable Member needs to worry about the normal process of machines for gambling.

MR. D. EDGAR HILLS: Are you thinking of what when they [illegible] a slot machine? You would not [illegible] that as [illegible]? Anyhow, Mr. Chairman.

MR. CHAIRMAN: Does that meet your point satisfactorily?

MR. D. EDGAR HILLS: Yes, Mr. Chairman.

MR. CHAIRMAN: If there is no objection to Clause 5 I will put the question.

QUESTION PUT: AGREED. CLAUSE 5 AGREED.

CLERK: A BILL FOR A LAW TO AMEND THE COMPANIES LAW (CHAPTER).

MR. CHAIRMAN: The question is that the Title and Enacting Clause stand part of the Bill. If there is no objection I will put the question.

QUESTION PUT: AGREED. THE TITLE WAS AGREED.

MR. CHAIRMAN: A BILL for a Law to amend the Companies Law (Chapter 22).

THE COMPANIES (AMENDMENT) BILL, 1986

COMMITTEE STAGE

CLERK: CLAUSE 1. SHORT TITLE AND DATE OF COMMENCEMENT.

MR. CHAIRMAN: The question is that Clause 1 do stand part of the Bill. If there is no objection I will put the question.

QUESTION PUT: AGREED. CLAUSE 1 AGREED.

CLERK: CLAUSE 2. AMENDMENT OF SECTION 104.

MR. CHAIRMAN: The question is that Clause 2 do stand part of the Bill.

MR. G. HAIG WOOD: Mr. Chairman, in the debate on this Bill I questioned the forfeiture on the application of property without notice both in the Companies Law and the Registered Land Law. I would think that ninety days' notice would be a reasonable time before the lands would be vested in the Administrator Generally. I am not going to propose an amendment because I know that we will only have one or two more Bills to deal with at these sessions. However, I think there is the matter of landowners who have bought property here or who may have been owing business to know that I call a reasonable application of this generally, even without notice.

I hope that Members are aware of what they are doing in the economy and in foreign investors if they pass this Bill in this form.

HON. LEONARD G. ARCHIBALD: Mr. Chairman, we are aware of what we are doing and it is by what than what we are doing is quite satisfactory for the private sector. Parties to agreement of the Bill I will indicate that sufficient notice will be given because the Law does not come into effect until the 30th September, 1986. Certainly that is much longer than ninety days. If it is a company which is not registered in the Cayman Islands, then it has to do is register and this participation provision will not affect it at all.

MR. G. HAIG WOOD: Mr. Chairman, I know that the Law will come into effect on the 30th September, 1986. However, perhaps someone should say and know this. As I do not consider this merely the ninety days after effect of the Law. What I consider notice is where the Law says that the Administrator must give notice in writing to the landowner that unless he takes action the property will be confiscated.

MR. G. MAY DOUGH (CONTINUING): This is a difficult matter which I would like to see the Minister. The Department does have efficient rent boards but it does not seem that somebody in Assembly could know what the fair market rate is.

MRS. SHOUSE OF SPRINGFIELD: Mr. Chairman, there is only one more thing we have which... As I mentioned during the debate of the Bill the Registrar of Lands has been approached for many years about the legal problem in the Alexander-Somerset tract of property which is registered in the Cayuga Indians, which has no title or clear ownership, complete land. He has been persuaded by prospective buyers that they were seeking to purchase a piece of land. Therefore, there cannot be clear title or there who have bought land since the Chief Justice's ruling in February, 1955.

HON. MR. ROBERTS: As I said to Mr. Chairman, there are quite many serious complications to the amendments being suggested by the Honourable Second Elected Member for Haldimand-Norfolk, in the circumstances I would rather be embarrassed, have the problem thus before which this Bill has been introduced rather... somewhat by it, namely that it seems to the Provincial Secretary. I consider that it is an extremely dangerous precedent to put this into the Bill because it would mean that just on any Indian reserve would have a piece of land we have to negotiate. Only in fact this is by where Crown or Ministers or really there is that which the Bill is, and only then it is the case of this land by negotiating.

MR. CHAIRMAN: Unless there is any further debate I will put the question that Clause 2 do stand part of the Bill.

CLERK: AGREED BY MAJORITY. CLAUSE 2 PASSED.

CLERK: A BILL TO AMEND THE CONSTABLES ACT.

MR. CHAIRMAN: The question is that the Title and Preamble Clause do stand part of the Bill.

CLERK: AGREED. THE TITLE WAS PASSED.

MR. CHAIRMAN: A Bill for an Act to amend the Registered Trust Deed (Revised).

THE REGISTERED TRUST (AMENDMENT) BILL, 1965

COMMITTEE SUMMARY

CLERK: CLAUSE 1. SHORT TITLE AND DATE OF COMMENCEMENT.

MR. CHAIRMAN: The question is that Clause 1 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1 PASSED.

CLERK: CLAUSE 2. INTERPRETATION OF NEW SECTION 21A.

MR. CHAIRMAN: The question is that Clause 2 do stand part of the Bill.

MR. H. RAY BOLTON: Mr. Chairman, I must raise this point of information. This clause will compensate land which is owned by a foreign company other than Irish Sugar, 100%, unless the foreign company does certain things. My understanding is that the foreign company may not know that we have passed such a law. The provisions of this measure should be given notice before the actual exchequer takes place. I understand that the Minister has said that there are some more foreign owned companies. However, certainly of those of which I am aware, they purchased their land here in good faith and believed that in owning the land, should they ever wish to rationalise the land or to amalgamate it, or to liquidate and take it for the purpose of development. It is just not fair to do this to the company by passing for the Government to just step in and take their property because it has passed a Dail and the public may not be aware that such a Bill exists. I understand that the Bill as drafted gives notice that the nationalisation is to take place, and notice of a reasonable time which allows the normal development which is now going.

Of course, I am not going to move an amendment because it will have only two or three votes, and there is absolutely no use in my doing so. However, I certainly feel strongly about this, that it is unreasonable that we nationalise property which belongs to anyone.

DR. GARRET FITZGERALD: Mr. Chairman, the procedure which Fianna Fáil is now adopting is to withdraw their amendments which have been in place since 1965. In Section 174 of the Companies Act it says that where a company is about to alter the objects of its Memorandum the property is vested in the Financial Secretary for the Government. Now, I have been in this chair for a long time and I have never of any issue where shareholders in Irish legal incorporated body came back to Government and said specifically to have whatever property there was returned to them.

Governments have always taken the view that if the company which was struck off the Register became in the new pay the amount less than those were paid and whatever conditions were necessary under the Companies Act were paid, the property was returned to the shareholders. I see no difference with this one, Mr. Chairman, except that we are probably talking about one or two cases.

MR. VINCENT G. DOWLING: Mr. Chairman....

MR. CHAIRMAN: The Minister for Lands may not be in a position to answer my question.

MR. DERMOT J. GLEESON: Mr. Chairman, the Second Stage Speech, for which I am responsible, something about people being given notice. However, my understanding of this Bill is that this should apply to companies in liquidation, and not to individuals who own and manage property here. I do not think it is too unreasonable to indicate. Individuals as such.

MR. THOMAS C. FITZPATRICK: It does not affect individuals, Mr. Chairman. Individuals are dealt with under the Land Duty Act. This is a company, a corporation or some corporate body.

MR. H. RAY BOLTON: Yes, Mr. Chairman, I understand that but I do not think that we need to quibble over semantics because a company is a person created by statute.

MR. G. MIKE MORRIS (CONSERVATIVE): Sir, whether it be a person or a company it really does not matter. What I would like to speak on is the amendment. Third Officer's Number eighty-nine what happens if there is no objection from what would happen under a situation where a company had been struck off the Register. Why is the distinction different because if the company had been struck off the Register and is struck off the person who registered the company loses at the time of registration what will happen if the deed are you have free and if the company is struck off. Here, when he bought this land, his company been registered this did not matter. This was something which is coming in after the act of purchase.

In the case of a company which is struck off the company struck off already does that the company would be struck off if it did not more serious requirements. However, this is imposing new requirements which did not exist at the time of purchase of the land. I feel that it is necessary to give notice.

MR. MICHAEL J. GRECH: Mr. Chairman, Sir, I think the Honourable Second Elected Member for Rabat, Gozo has the distinction of the Legal Adviser of it. However, I would like to point out to him and to other Members that the first page of this proposed new Clause 104A.(1) is in fact a prohibition to foreign persons unregistered company or body, besides it is a prohibition which says that Section 104A.(1) comes into force giving to power for such companies to be registered as provisions in the only action power to hold land in the Malta. That being so, if an unregistered alien incorporation comes in here will could to acquire land, it will be advised by the legal advisors that it has not to what to do. If it is unjustifiable enough not to have another legal advice before signing what purports to be a purchase agreement, it will then become more when it attempts to register the property in the Register of Lands. So, it is a positive prohibition to the foreign corporation so that it cannot in any way in the future put itself in title, because after the 30th September such a provision will prevent it being registered.

DR. J. JOSE SCERRI: Mr. Chairman, my comments is not with those people who may attempt to purchase land after the 6th June 1979. My concern is with those innocent people who may have purchased it before this Bill.

MR. ALFRED J. PISCOPO: Mr. Chairman, I expressed myself quite certain reservations also on this Bill. My reservation was mainly to do with the Objects and Reasons for the presentation of this Bill. I find that it was somewhat inadequate. We have in the first part of the Bill that it seeks to multiply for Malta the effects of a treaty judgement. In fact, we have no details of that treaty judgement except for what we have told here. The second part stated, that is Subclause 2, a prohibition of such British companies to hold land without any reason, the reason we were given here in the Assembly was that this was to ensure that Government would lose no revenue through the insurance by the changing of shareholders. So, there is no explanation in this.

The only thing which never somewhat impressed and perhaps this section is not necessary, but such as Dr. Scerri the Minister of Law to use policy to see that the principle which we are trying to stick here is again spread under the new section 2. as with assignment of property. However, we will look into this when we come to it.

MR. LEONARD A. PIERROU (COMMISSIONER): My point, Mr. President, is that I feel that the Declaration of Objects and Reasons should be drawn enough so that anybody purchasing this book will be left in no doubt as to what the Bill proposes, or the intent of the Bill.

MR. DENNIS E. FOSTER: Mr. Chairman, since it becomes law, also, the Declaration of Objects and Reasons is not studied as it.

MR. CHAIRMAN: Perhaps I could put the question now that Clause 2....

MR. LEONARD A. PIERROU: Mr. Chairman, I am not sure that I understand both the answer or this. Whether the Declaration of Objects and Reasons are stated on the Law or not I feel that the Law itself should be clear enough so that anybody purchasing the Law will know exactly what the Law is all about. We have a multiplicity here of foreign holding companies which means that they are anybody within this Island Of. However, for the purpose taking up this Bill, and I would like to make the point again that everybody buying a Law from the Legislative Assembly is not necessarily a Lawyer, I feel that our Bill should be clear enough for him to understand what it is all about.

MR. CHAIRMAN: Well, I think that you have made your point. I will put the question that Clause 2 do stand part of the Bill.

QUESTION PUT: AYES AND NOES.

MR. C. WAYNE JONES: Mr. Chairman, may we have a division on that?

MR. CHAIRMAN: Certainly.

THE AYES HAVE A SECOND MAJORITY AND PASSED.

MR. PRESIDENT: ... Item 8(xvi), ... Stamp Duty (Amendment) Bill, 1986.

THE STAMP DUTY (AMENDMENT) BILL, 1986

First Reading

CLERK: THE STAMP DUTY (AMENDMENT) BILL, 1986.

MR. PRESIDENT: A Bill entitled a Bill for a Law to amend the Stamp Duty Law, 1972 be deemed to have been read a first time and be set down for Second Reading.

THE STAMP DUTY (AMENDMENT) BILL, 1986

Second Reading

CLERK: THE STAMP DUTY (AMENDMENT) BILL, 1986.

HON. THOMAS C. ADEBAYO: Mr. President, I move the Second Reading of a Bill entitled a Bill for a Law to amend the Stamp Duty Law, 1972, Law 9 of 1972.

The Objects and Reasons of this Bill, Mr. President, have been cast in Clauses 2,3,4,5,6,7 and 8. In Clause 2, No. Resolutions, it seeks to exempt persons who have bought land by an agreement and want to pay the stamp duty on the value stated on that agreement but do have to wait until the expiration of the period for paying the stamp duty. That period may be five years or it may be ten years. However, Mr. President, the difference here is that it allows the person an option. The person may only wait five years later and pay the stamp duty but he gets all benefit, Mr. President, of the difficulties that have accompanied inflation because five years later the person is not paying on the original value but rather the current market value at that particular time of payment. The small amendment in Clause 3 allows stamp duty to be paid at the time the agreement is signed, which, as of benefit, Mr. President, to local people and to others who have to deal in land matters.

Clause 5, Mr. President, is seeking to increase the interest charged on late stamping or non-stamping of documents. It is pleased since recently, Mr. President, to encourage those who purchase land to stamp their agreement within the stipulated time set down in Section 33 of the Stamp Duty Law which is 30 days. However, Mr. President, we are aware that there are businessmen and individuals from outside who come to this country and remain here, and sometimes the documentation is to be completed beyond a longer period than 30 days. Side by the same token, Mr. President, may although we have increased the percentages of interest to be paid from a per cent to 10 per cent, and that from 10 per cent to 20 per cent in Section 35 of the Stamp Duty Law which reads, Mr. President, if I may -

> "In addition to any penalty imposed by this Law for late stamping or non-stamping of any instrument under is required to be stamped, there shall be charged interest at five per cent per annum".

The amendment is seeking it to ten per cent:-

> "For the first month or part of a month and thereafter at the rate of ten per cent".

HON. THOMAS E. MORGAN (CONTINUED): and we are increasing that figure to twenty per cent:-

"but never more than the total amount of the fine as originally imposed."

For those individuals and non-residents corporations who purchase less and have taxes less than $5 days, with a justifiable case, Mr. President, there is a provision in Section 26 which reads:-

"Provided that the Commissioner may, at his discretion for good cause waive payment of the whole or any part of such interest."

Therefore, Mr. President, I feel that clause 2 of the bill is fair and reasonable as it is.

We have made certain really objections in the past which I have stressed before in error. However, there is no question of the present Stamp Duty Law which gives any cause to anyone. Mr. President, to refresh each others duty. Clause 3 is being put forward to make this possible. In this day and age, Mr. President, the volume of business is so large and the demands on each one of us are so large, and it is not necessarily Government I am talking about, Mr. President, I am talking about the private sector, that it is unknowingly easier and easier to make an error and attempt a document twice. Therefore, there is justification for the provision of the commissioner being able to make a refund.

Clause 4, Mr. President, is seeking to delete the reference to Section 26 in the heading of a penalty and is a consequence of the proposed amendment of Clause 5, "Power to be mentioned, of the Bill of the liabilities to pay stamp duty on a receipt.

Clause 5, Mr. President, is self-explanatory to Clause 3. The aim is really the same, to encourage all people dealing with legal documents to ensure that they pay out the legal sections of the Stamp Duty Bill. It provides for an increase in the offence under Section 26 and is substituting $500 for $200 as a fine and also within Section "," I have worked as a solicitor, $6,500 for $500 and, Mr. President, if you will allow me to read the appropriate section of the Stamp Duty Act, it says:-

"(1) Whoever commits an offence under section 26 or attempts to commit an offence or aids or abets any other person to commit such an offence is, if the offence is committed contrary to paragraphs (a), (b), (c) or (d) of that section liable upon summary conviction to a fine not exceeding $500,

and the clause is increasing that sum to $500:-

"or to imprisonment for a term not exceeding three months".

and the clause is seeking to increase it to six months:-

"or both, and if the offence is committed contrary to paragraphs (e), (f), (g) or (h) of that section, liable on summary conviction to a fine not exceeding $500".

which the clause is increasing to $1,000:-

MR. THOMAS C. JEFFERSON (CONTINUED):

"or to imprisonment for a term not exceeding one year or both."

The minimum is twenty one years to two years.

The sentence which I have read, Mr. President, sends us (a), (b), (c), (d), (e), (f) or (g) and all found in Section 20 which deals with certain offenses under the Penal Code.

Section 20 is being amended by Clause 7 and this basically deletes anyone who fails to stamp an instrument and places back upon Section 22 which deals with the circumstances of this case. It deals, Mr. President, with stevedores, longshore, boat company officers and many other people involved in the private sector. Those who recall why officers under these circumstances may have their licenses removed. I've gone on and notes other statements, Mr. President.

In Clause 8 we are seeking to change 326 on an agreement and, Mr. President, I give notice that I wish to amend Clause 8 which is a result of representation and comments from the Law Society as we have, with Government's approval, allowed amounts to come back to us as the GCT Bill proposed.

The amendment would read in Clause 8(1) the 326 apply to whether the agreement is assignable or not, so that the amount is still $20. When the agreement is assigned, Mr. President, the fee to be paid is $100.

The Bill also seeks to increase the fines duty on a cheque from 5 cents to 10 cents. We have found, Mr. President, that a recent approach to impose fines

MR. SPEAKER: The question before the House is that a Bill entitled a Bill for a Law to amend the Stamp Duty Bill, 1992 be given a Second Reading. The motion is open for debate. The Second Elected Member for Eastern Side.

ORDER OF SECOND READING

MR. J. LEE HOUSEN: Mr. Speaker, the Bill before the House is a Bill which was found to be so ambitious during the Budget Meeting that it had to be withdrawn. It has come back to us a year from. Only that it has been sugar coated to make the Duty appear more palatable. That sugar coating is seen mostly by provisions made to allocate a percentage to be stamped for the pension money to the Government instead of the money going to Consolidated Fund.

However, we would not be dismissed by the sugar coating of some sections. We have that the Government has a revenue problem, maybe and forward to raise that of withdrawn Budget. When we came to the House on the 22nd day of March we received a report on the Appropriation Bill, 1992 and we passed into law a Budget which had a small surplus of about $25,000. However, the next item on the Agenda was the withdrawal of the Stamp Duty Bill. The Budget which we had passed had contained estimated revenue from the Stamp Duty Bill, revenue which would have been lost if it been withdrawn, something around $600,000. At that time the evening we passed the Budget, within three minutes we had made the Budget into a deficit by withdrawing the Stamp Duty Bill which would have given us $600,000. So, there is still that deficit to be filled for this year's estimates. I believe that so why this Bill has come back so quickly with a request for increased taxation on the same areas which will hurt the small man who we had squeezed out of estimates during the Budget Meeting.

I commend the Member for Clarence 2 and possibly 5 of the Bill. However, I am in disagreement with the rest of it. For example, the provision for loan agreement in Clause 7 of the Bill increases the interest which can be charged from 1 per cent to 20 per cent, and in one instance from 10 per cent to 20 per cent. Now, there may be people who make it impossible to delay the payment of stamp duty or any other tax. However, there are genuine cases where the duty is not paid simply because there is a shortage of cash. We need to be reasonable and I really have thought that it is too necessary to charge the percentage of the penalty. It should have gone from 5 per cent to 7½ per cent rather than 10 per cent, and the other one should have gone from 10 per cent possibly to 12.5 per cent rather than 20 per cent, because what we are penalising debtors are those who have to pay 20 per cent interest on unpaid debt, we are putting them in a way of accumulating interest rates. One must remember that Government revenue from late payments increases every year in proportion to the value of most trade transactions. So, while we are in the 10 per cent bracket we have been very much on a balance plus, maybe it is going a substantial amount of dollars. I feel that the interests are out of line and that they are excessive.

In Section 8 we are once more taking penalties out to. For example, Section 8(a) changes the figure $500 as a fine which might be imposed for a fine of $2,000. I have that this is the maximum fine. There are fines applicable to a company which can be imposed without - they and they are excessive.

Mr. G. Bill would consequently substitute (a) of Clause 6 also increases the penalties sought.

Clause 7 is a clause which seeks to discriminate against certain classes of people in that the mortgagee may re-enter and other people included in the building societies seem to be worse off than those in other categories. Connected with it is the restriction of the mortgagor's interest or whatever he may have. It seems really bad to me.

The Bill also seeks to impose a penalty of £100 for the assignment of a debt, policy or life insurance and other agreements for the purpose of fraud, whether debts or other documents previously. One of the forms of consideration in the Bill which was requested by Hansard was that of paying stamp duty when a person signed an agreement or made an agreement to purchase a property. It has never been a stamp duty because now the person would pay a heavy stamp duty of £100 on the agreement and might also contemplate to pay the 2.5 per cent duty as if he finally makes the purchase. So, for way a lawyer was trying to get a stamp duty, he must only pay the 2.5 per cent stamp duty which he perhaps did not be asked £100 when he wishes stamp it finally and before the final conveyance or agreement to buy it.

I am wondering whether the policy of this government is, as we have seen since November, only a policy which will run the small man in order to get the upper. I see the possibility for a fine of £100 on certainly a policy of life insurance. Only one person seeks to get a mortgage will purchase of the mortgage endowment plan may bought of them, a life insurance policy to cover that mortgage. In order for those policies to be effective now the person must pay £100 just to keep the small hold the policy. This is not right. The majority of which I am speaking is the ordinary £50,000 or £60,000 that the poor man is getting to finish a house. So many professional these people will have £50,000 of life insurance made up of three or four small policies purchased over a number of years. It will now cost £100 to have such policy assigned. This is unfair to the man trying to get a house. In the old Bill the amendment was, I think, £25 or £50. Even if he jacks up to £100, I wonder if the Financial Secretary understands what a life insurance policy is and why it is made, and think it seems wrong to penalise and discourage? I wonder if they understand that it is a vital document in the mortgage process and it is customary with most of the lenders to have this? Let here this Government Government to unduly the Estate Duty to pay £100 just to pass his policy over to the Bank or that the have not held it, and if the man should die the bank can use the proceeds to clear off the mortgage. This is unfortunate and should never be thought of by any other group of people than the present Government Council.

We see that they have also got back that amendment dealing with increasing the rent to £400 a year. Many hire purchase agreements are above £400 per annum, however, what we have in my imagination is, is how they could have the heart to put six to 8 per cent hire purchase agreement. When many people are struggling for the money which they have to pay to make a decision on an agreement of a certain, and they are asked to pay a fee on the value of an agreement. Here, the way it is drafted I do not think that one could a written legal business this is merely provision for people which are just have their double income. Most of these families are already struggling without a written lease. In every case now I have mentioned this was Bill, it is my understanding that we will be asked to pay a fee to the Government, a fee of a few more.

MR. G. DAVID THOMAS (CONTINUED): It does not matter whether it is office space or shop space, or a dwelling house or an apartment, many of these businesses owned by Pakistanis are owned by poor people, we only see a little lady and short trying to make a living somehow or operating a boutique but she might be struggling to make ends meet and it may cause a struggling couple to pay the rents. But this Bill removes protection by taking those poor people out of accommodation.

So, when Bill Wilson and Lim might find some other Mike that should go, into the hand of an owner, that block redeveloped and kept their rents control and prevented to this House in a sense from that scenario. Bill because do not recognise to apply the guarantee to absolutely the poor who in this country. When I say poor many I am talking about the little businessmen who runs his business or his other means. I am talking about the young couple who have to move an apartment. I am talking about the pensioners who does not have a home of to guarantee? By the Government from getting the increase the changes of getting that accommodation into controlled rent was gone up, a £100 per flat the consequence of a Tory Government policy. I am very disappointed at this when this Government will be here in the Budget Monday to hear that the housing authority building money, was making an income and was having no policy. I am one day. I can see why they can come in this position financially and income based on rents and housing trends on the environment of these in Inverness policies.

If the Elected Members of Inverness District have not kept any income they have certainly kept one. They proposed to help the small man and they are helping him out of existence. I would also mention that it is an injustice to this country to put forward the type of legislation like Government is putting forward in the manner in which they have put it forward. They have kept this Bill until the last minute. Of course, the Members were cast the white copy of the seven page proposed by the Scottish Office. Secondly people on the periphery have not seen and have not heard what is in these Bills. I have spoken to these tenements recently, one on Wednesday and one on Tuesday of this week, and neither of the three of these tenements had received the seven copy Bill from the Council. This is why there is no public outcry against this Bill and the other Bills which are in Office.

So, the Government whether intentionally or not have suppressed the passage of these Bills so that they are being pushed through without any public input. What there is a simple matter which nothing has happened to be exposed. The rents will have risen so far. They will have still unprotected tenancies. The tenancies will expire the prospects and the public will be informed the day the Government wants it to happen. But the first time to our notice we are Bills and matters coming to the Assembly particularly particular on Rents Chapter and this is unfair to the public. Mr Richardson has been pitted to an a Scottish Office Minister to discuss the effect of this Bill. Mr Dalgleish has been asked that she will like to speak the next one to replying gone by, whether it be in her capacity as the Area Minister. She has not been asked to comment on it and it will in up Scotland if the rent matter again to not close the door to say this but and the Bills are to comment by doing to pass it on to the Commons.

I will close by saying as I did on March that this Bill is withdrawn from this House; instead it is time consideration given to this matter until the reassessment exercise. My Lord Provost in this Meeting also which were held in the Highland constituency also which can change the circumstances there.

MR. S. MAYA REDDY (CONTESTING): However, here today we are passing a Bill which will greatly help poor men. We will hear possibly from the Executive Council what people are for. What do folks opine on a cheque? However, they have been saying this from October when they made the mistake of withdrawing a Bill, or a Ordinance which was the only, remaining a law which would have given them this power to get rid of this from a foreign source. Now they must make it up by what was called here the party whip system, whose duty must point a knife but have one pack a pistol but there until they get enough to balance their budget.

This Stamp Duty Amendment Bill is a Bill which if passed will cause great hardship, particularly amongst those family people who are trying to get out of paying rent and are trying to get a home. I am wondering if this is Government's answer to the dilemma which they pinpointed in March when the Housing Authority which was set up to help people get homes had no money, no loans and no policy.

I feel that it could not have been necessary to bring this Bill to this House if the Government had not been away with the commissioner tax. Anyway once away with it they have not found a replacement and they have gone in for many stiff oil tax Bill.

The very Honourable of this Bill has been so subtly written that when I read it first I did not realise that they had imposed the $100 tax on the assignment of a life insurance policy. That seems to have been left out if it had been done deliberately from the Honourable. I believe that the passage of this Bill will further depress our already shaky economy. The history of the Caribbean countries has been that it is easy for many of the nationals to take their share out of a country where the people are starving and where they are denied out of existence by the Government, because when the Government taxes the money, it cannot do as well with the money as private industry.

I oppose this Bill, Mr. President, and I ask members the House that I will be voting against the entire Bill as well as voting with clauses against particular sections; the sections which I feel are detrimental to the livelihood of our local people.

MR. PRESIDENT: I think that it is time for the luncheon break and I will suspend proceedings until approximately 2.15 p.m.

AT 12.40 P.M. THE HOUSE SUSPENDED

HOUSE RESUMED AT 2:12 P.M.

MR. SPEAKER: Please be seated.

Proceedings are resumed. The Second Reading Debate on the Stamp Duty (Amendment) Bill, 1995.

THE STAMP DUTY (AMENDMENT) BILL, 1995

(IMPOSITION OF STAMP DUTY ON REAL ESTATE)

MR. LINCOLN A. TIENGO: Mr. Speaker, unlike my good friend from Caroni East, the Second Elected Member, I have mixed reaction on this Bill. I find some improvements and I also see some areas which could be improved.

The Bill seeks to amend the Stamp Duty Act, 1975. There is a major improvement on the Bill which was brought to us in March. I feel, Sir, that with recommendations I will be able to support this Bill.

Clause 2 seeks to enable stamp duty to be paid on the face of documents as signed. This is a good idea, but I think that this is somewhat muddled - the effect of this by clause 8(b)(i). I will come to this as I go along.

Clause 3 of the Bill seeks to increase the increase to be charged on stamp duty. This, Mr. Speaker, is an amendment to section 32 of the Stamp Duty Law, 1975, which reads: "In addition to any penalty imposed by this law for late stamping or non-stamping of any instrument which is required to be stamped, there shall be charged interest at five per cent per annum for the first month or part of a month and thereafter at the rate of ten per cent per annum ....".

Mr. President, it would appear that those responsible for these amendments decided to arbitrarily double the interest that is now provided under the law without due consideration to the effect that a twenty per cent interest would have on an offender. I think, Mr. President that twenty per cent interest is unreasonable and this is one section which I feel should be given further consideration. Perhaps fifteen per cent would be more reasonable.

In clause 4, this clause seeks to impose the individuals on the provision is sought to be made for the Commissioner to make a refund of stamp duty in the circumstances as described by the honourable mover of the Bill earlier.

I beg to agree with the honourable mover of the Bill that there is no longer a necessity to have to issue receipts for certain payments, even though I would say here that there are many people who do not make payments by cheque. I still feel that it is not necessary for those paying by cash to have to stamp a receipt. Those paying by cheque, as was rightly stated by the honourable mover of the Bill, will find that the cancelled cheque will serve the purpose of a receipt.

I will congratulate the honourable mover of this Bill, Mr. President, for the very good job in presenting this Bill earlier. It was presented with clarity and it was very carefully thought out. I feel that he is to be commended for a very good job done on the presentation.

MR. LINDSAY A. PHARNEY (CONTINUING): Clause 6, Mr. President, makes provision for penalties for offences against the Act to be substantially increased. This, Mr. President, brings about an amendment of section 37 of the Act. Mr. President, I feel, unlike my hon. colleague and Mr. previous speakers, that it should be dealt with because as I read this Act it should specifically in section 37 of the principal Act that the offence would have to be done with intention

Section 37(1)(a) of the Principal: "with intention to defraud ....." Subsection (1)(b) reads "with intent to defraud ....." and subsection (1)(c) reads: "with intent to defraud ....." So it shows throughout the Act that the person making the offence would have had knowledge of what he was doing. Mr. President, I feel that the presentation made under clause 6 are most unreasonable.

Mr. President, of particular importance, as I said, in the road I will be making my debate on this will undoubtedly should be clause 9(b) dealing with assessments. Mr. President, it would appear that this clause has the same prejudicial effect of an appreciation of assessments, but there seems to be still a loophole in that law where an agreement for the purchase of any land, private table or other immovable property where there only an option and a half that could still be avoided, and that assessments should be made from Confederation to the present? Perhaps the honourable member will clarify this point in his summary?

There is also no distinction as to how long or the life of the assessments. Would the assessments last, for instance, six months, one year, ten years? Would it be possible for the assessment of a property to be able to remain this in any number of instances?

Mr. President, today I move my objections to certain parts of a Bill which I felt would harm this country and was confusing to investors coming to this country. The very possible that this Bill would be passed anyhow, the Registered Land (Amendment) Bill, 1981, to study it closely, it would seem, this still amending the Stamp Duty Law, 1978.

I understand from the Honourable Member of the Bill that the Bill does not in fact apply to private dealings with a debt or policy of life insurance. I trust, Mr. President, that the Honourable member will make this abundantly clear.

As I said, Mr. President, if the Bill should indeed apply to a policy of life insurance, it would be very dangerous and damaging to the Belize people in this country, even though I know that there are some persons who do not like the Belize people in this country. There are, Mr. President, many, many Belize people in this country and when I say Belize people I do not say this in a derogatory manner.

As I said, I have other objections in this Bill and I trust that the Honourable Member of the Bill will be able to clarify the points raised by me and be particular the points raised in assessments.

Thank you, Mr. President.

MR. SPEAKER: The Elected Member for North Side.

MR. C. EDGAR MILLER: Mr. President, I am pleased to speak this night but the Government bench spoilt my holiday, Sir. I see eight the Opposite, but not with the body of the Bill.

I agree with clause 2 which gives individuals the option of paying the stamp duty up front on a higher percentage of property. This has been a move which many people for some time became the value of property at the end of the purchase agreement, in some cases, may have quadrupled or even increased greater than the original purchase price.

MR. D. EDGAR MILLER (CONTINUING): I can support clause 2 of the Bill... I can also support clause 3 because I believe the penalties should be increased and at least they should be above that the person could get by putting his money in the bank rather than paying stamp duty for the period of time, as in Queensland than just holding back the stamp duty and putting it on a fixed deposit and making a profit on it while they dispute assessment of it. So may even have to increase that a little higher.

Now, Sir, clause 4. I agree again with the spirit of it, but I think there is something wrong with the wording of this clause too, Sir, because if I, as a Corporation, have to pay five per cent on a lease agreement or deem and a half per cent on a purchase..... I believe that this clause 4(b) is going to affect things like time-sharing companies and things like that; and stamp duties and considerations; and I intend to move an amendment to this clause that they should pay, at the very least, five per cent which everybody else pays on a lease because it would be argued that these people are leasing the space for one week or a year rather than outright purchase.

I'm also glad to see, Sir, that the loophole of the six day lease is being plugged. This has been a problem around for a long time. I have personally been advised by many people by attorneys and public solicitors, Sir, the attorney-general is not to make it the lease six months so as to avoid paying Government fees, but to make it six days, however, Sir, I believe that even though the practice in the community may be that leases are not normally negotiated on anything exceeding twelve months or thereabouts, I would like to see, Sir, an amendment whereby anything exceeding six months is considered a lease so that we can protect the little people which my good colleague Goldingham in his eloquent way has said when we are talking about inheritance. I would not want them to go completely out of consideration, Sir. We have to leave them a little room to complain.

I believe, Sir, that if we can make those amendments to the Bill, I will be able to support it, both in body and soul, Sir.

Thank you.

MR. SPEAKER: If no other Member wishes to speak ..... I call upon the Honourable Fourth Elected Member of Executive Council.

HON. VINCENT A. JOHNSON: Mr. Speaker, I rise, Sir, to support this Bill, to ask to amend the Stamp Duty Law, 1971 - a Bill which was introduced in this Honourable House during the March Meeting and was withdrawn for further consideration.

Mr. Speaker, whatever in the approach taken today over this Bill. However, we heard that the measure is now going to cause hardship to the public and it was going to further impound the already economy. This, Mr. Speaker, is to mind is another excuse to mislead the public.

As far as the reference to a shaky economy is concerned, that is what this Government found upon taking office in November last year, and every attempt is being made to stimulate the activities within the country. If that is the attitude of this Government, Mr. Speaker, I cannot see how we can going to bring legislation or any proposal to this Honourable House that would do such harm. That is not the policy of the various approaches of this Government. It is here to promote reasonable proposals to this House and the small list of revenue which the Government would perhaps receive from the provisions contained in this Bill is what I would call pennies.

MR. KELLY of PENNSYLVANIA: Mr. President, this Stamp Duty Act was introduced in 1783 - 18 years ago, and the provisions in connection with duty on cheques first came in to operation. Although acceptable from the length of time that the proposal to vary has been in effect. So I assume now there will be very few cheques.

The banks increase their charges from time to time and probably in future there. The whole point is, however, the amendment because of any of these facilities, then it is to the advantage of the public.

Mr. President, members have also made that the public have nothing about this Bill until it was presented here. I would like to remind honourable members that this is a money Bill and I am sure that we are aware of how the Bills are treated here. It is confidential until it is presented here. So I do not think there can be any leaking on the part of this Government as such that this Bill would be presented to the public before bringing it here, although I will say this, Mr. President, that a lot of discussions have taken and views with the Law Society in many confidential terms. It which is being presented here is generally accepted by the public.

Mr. President, the Housing Authority has been brought into this. The economy is so depressed that in fact there are stated here that we have no money to grant mortgages to the Housing Authority. May I remind the opposition that that was mainly the intention we found on the 30th of November.

The Housing Authority has stopped of all its money during the last political campaign, so that as the end of the year all the money that was provided by the Administration have been shared up.

Mr. President, there is only one small Bill which I would now looked at for consideration and that is Clause 9 of the Bill which I would mention. Also, Mr. President, honourable members ought to be reminded that the Act which is being repealed in fact in 1958 - 10 years ago, and the provisions in connection with duty on cheques from time to time do not. Although acceptable from the length of time that the proposal to vary has been in effect. So I assume now there will be very few cheques.

Mr. President, clause 9 of this new Bill, under amendment in the 1st section, says that sub-paragraph dealing with the right of an agreement or memorandum of agreement "..... the conveyance of any land, stocks, bills or other transferable property....." to be taxed also. The following sub-paragraph (2) says, "a duly certified copy of [illegible] the first time of the Act imposed "duty" and that was a life conveying, Mr. President. It appears to me that what was really meant there was that after [illegible] "of any rights under an agreement or memorandum of agreement for the purchase of any land, stocks, bills or other transferable property....." ..."duty", (2) should have read "of a sale, grant of life assurance or other thing the duties there to other duty in specified under other head of charge ....." It is a mere wording but the amendment is presented in this new draft Bill under clause 9. That, I am sure, the honourable Junior Official Member will clearly in his winding up.

The other part of clause 9, Mr. President, where it says "for the sale or purchase of any land or stamp duty ..... duty" - that is a small [illegible] the remaining duty being placed on it is because of the explanation given when placed and what we debated at the Second Reading of the agreement for sale. Other [illegible] from one person to the other - [illegible] stamp duty being used on it and as we thought that under section that the duty should be a bit more in order to [illegible] the significance of this particular head of charge for stamp duty.

MR. JAMES P. ANDERSON (Republican): Mr. President, as I said in my opening remarks, the Bill is just a matter of keeping up a fine record of the Trust Fund which has made it operational for over 14 years, and my Bill whether it be a permanent law or other time should merely be reviewed every such a lengthy period of time.

Mr. President, we should see about the 5 per cent consideration particularly as related to Secretary of State that particular law could work better to have balanced the budget instead of having to pay interest on the Trust Fund, let us keep peace people. Mr. President, the purpose of that 5 per cent consideration will be taken under the Bridge.

We have specific reason for reporting that one of the main thrust the objectives of Today and the Today organization of the present time with the number of new interest coming into the country. Now, in any case, Mr. President, the amount of our highway under the 4 cut cuts available to expressways under $600,000, and the increase up to the end of last year had only $200,000; and that was for a period from 1962 to 1964. So if you use such a difference you arrive at an interest that actually should have been in it that the Treasury was collected. That was not the reason why the tax imposed because that it have been that we could have not imposed the law. But could have increased that the debt during would be collected.

Mr. President, I support the Bill as I have made before and be in close harmony with you, apart from the other clauses which provide certain amendments to the present Act. Only two, I do not see that what is being recommended in clause 4 or amendments of the schedule is going to impose any financial difficulties on the poor people of these Islands. What the principle behind it is the first instance, Mr. President, that is check on all those big dealers who are always attempting to find means and ways of defrauding the Crown of its rightful share of duty under this Law; certain individuals that is so not in the habit of the use to a certain assignment of property without paying stamp duty, and therefore to enable the profit which they receive from those transactions are reduced and Government receives nothing from it. Those are the main things that are the principal amendment of the Schedule proposed in that Bill, but not the poor people. The only purpose of these letters contain these laws and request the Government that they are not going to make any attempt to impose increased of the rights which is explained.

Mr. President, I recommend the Bill.

HON. PRESIDENT: Since no other Member seems to wish to exercise my right of reply if he wishes.

Since no other Member seems to wish to exercise his Reconsider before to exercise his

HON. JAMES P. ANDERSON: Mr. President, I wish to thank the Honourable Members for their support regarding the recommendations on a few items.

One point which seems to have caused the greatest confusion appears to be clause 7 and perhaps the reason to which the amending is done now have moved it, Mr. President. Necessary if we look at the Bill, Clause 6(1) and we come further down to page 4 the final line of the item headed "Certificate" we are to substantiate amendment of any rights or an appropriate or reasonable of agreement for the purchase of any lands, structures or goods amounting property ..... Sir, we delete the word amendment, Mr. President, it would be "by" a State, paying or fit conveyance or other things to mention rights or other duty to be paid under any other head of charge .....ion. Therefore, Mr. President,

MR. SPEAKER P. PETTERSEN (CONSERVATIVE): There is no change in the salary rate on the assignment of any duty or increase policy. It remains at $5. The $100 relates to the assignment of land, which bears on Crown title property.

Mr. Speaker, this bill which is ordered very keenly by Manitobans includes a number of recommendations made to Government. We have examined these recommendations, Mr. Speaker, and our observations are what we see in the bill before us. Those increases relate that one salient achievement, Mr. Speaker, is very surprised to, and value supported from some of these recommendations. There are the people who own developed property along Assiniboine River. It was the assumption of that to pay income tax should be equally due so.

Some moment ago, Mr. Speaker, about discrimination in terms of section 20 (1)(a) of the Income Tax Act, but, Mr. Speaker, section 21 (1)(a) is under related to section 20 and it being increased that same section. Section 21(1)(a) reads: "Whenever with Government to defend title to lands a receipt of money until to him or title to stamp and, Government upon which duty is payable under this Act, being duly so to do", commits an offence. When enacted this section 20 which has been since 1978, that section which reads: "Whenever having an interest-in-land, lessee or usual occupant or any officer of a Bodies or trust society, or an administrator, agent, broker or estate agent authorized by any law to prosecute or maintain proceedings on behalf of any landowner or tenant of an offence contrary to paragraph (a), (b) or (c) of section 21 ...". Section 20(1)(a) which being amended with money for the purpose of planning an improvement; (b) deals with keeping and store or (c) deals with making any false statement, and heretofore, till we are adding to it, Mr. Speaker, to that it is relevant to defend Government by failing to stamp any instruments.

It would on the solution to section 20: "Any of the provision of the Criminal Code or in addition to any other punishment thereof have been imposed or sentence or to be sentenced determined or suspended for such time as the Governor may order and upon such conditions as the Governor may determine.". Therefore, Mr. Speaker, there is no discrimination. It does all of the people who operate in this particular phase of business in this country to be equal - no discrimination.

The assignment, Mr. Speaker, is an attempt to charge on any document where a person joins or agreement to purchase land, and that agreement that a condition that the agreement is assignable. Until then the agreement is assigned, Mr. Speaker, to that stamp. In relation to an agreement where the person pays the stamp duty up front, some legal persons will argue that when the sale price is that is when the agreement is assigned for $50,000 in addition to the original sum, the stamping has to be upgraded to that $50,000, because an agreement is not registerable, Mr. Speaker.

I thank all honourable Members for their support of the Bill.

MR. SPEAKER: The question before the House is that I will be introduced a Bill for a Act to amend the Stamp Duty Act, 1973, be given a second reading.

QUESTION PUT: AGREED. BILL GIVEN A SECOND READING.

MR. SPEAKER: Bill - Second Readings on the Penal Code (Amendment) Bill, 1980.

SECOND READING

THE PENAL CODE (AMENDMENT) BILL, 1980

COPIES: THE PENAL CODE (AMENDMENT) BILL, 1980.

HON. RICHARD G. ONYONKA: Mr. President, Sir, I beg to move the Second Reading of a Bill intituled the Penal Code (Amendment) Bill, 1980.

I apologize to honourable Members for the rough quality of my voice and if I know you sufficiently well I will ask the professional assistance of the Elected Member for North Nyanza - the one Luoxxxxx.

Mr. President, Sir, as Honourable Members of this House know, we have made a modification rude word for about one of more than some 20 amendments, some dating from the middle of the nineteenth century. Most of it happened in the 10 years ago the punishments and the offences cover a wide range of subjects that had been contained in a number of enactments laws. Perhaps on this amendment Bill lets us have before us, apart from an explanatory memorandum, there are five major fields of the Penal Code that are dealt with. The first is in relation to genocide and the second is in relation to treason. The third provides for imprisonment in default of fines. The fourth deals with forfeiture of property and the fifth deals with community service orders. I think it is appropriate to note, Mr. President, Sir, that in the 21 years of the Penal Code, all these are concerned with only 17 subjects to prosecution; and we seek it to also very significant to note, Mr. President, that they were not brought by this Government for this honourable House at the same heading of which honourable Members will also be interested, the other bills which pertain to the punishment of prisoners and the nature of dealing with prisoners for certain offences and generally apply the amendments in the Powers of Courts and the Rehabilitation of Offenders Law.

These amendments which are before you in the Penal Code are part of a comprehensive amendment, both of the method of dealing with prisoners to courts, magistrates have at certain stages of this Meeting pointed out, that the criteria are not unnecessarily overwhelmed and as a penalty of that is known that the Law, which it imposes a punishment for an offence, is an extended Chapter in the hands of the Court to make sure that the punishment fits the crime and that it is adequate to each case.

If I may then, Mr. President, Sir, to the Most main people which is partially misleading sentences. As honourable Members of the House are no doubt aware, in 1972 there was enacted in section 25 of the Penal Code which dealt with Imprisonment, and very simply there provided a general way in imprisonment for certain terms. In brief, despite on the concept of partially having convicted, there can operate in very simple the concept of the ability to suspend sentences. In instead of being sentenced to two years imprisonment, the court could sentence a person to three years suspended, which means that instead of a person committed certain offences within two years he did not go for a period for that.

MR. MICHAEL D. BARRETT [CONTINUED]: Those examples of inadequate and harmful laws mentioned will be dealt with more effectively in Bill. Bill which there are provisions for minimum mandatory sentences, which are not as yet in the penal Code. The provisions applying a court to hopefully suspect a sentence and possibly replace a sentence. It is now, Mr. President, Bill, the part of Clause 3 of the Bill before you, to think that gap.

I propose, Clause 3 will provide a new section 325 in the penal Code which will have the effect of enabling a court which passes an offence which is not less than eighteen years of age, a sentence of imprisonment of not less than six months and not more than two years to order that after part of that sentence has been served in prison, the remainder of it shall be held in suspense.

This, Mr. President, Sir, will mean, the court to give to offenders a choice, after serving of sentence to suspend the remainder of sentences which are under two years, but to have the effect of sentence of hanging to the person. They have served part of your sentence, if you do not behave, you will go back and serve the rest. The only restriction on that is that the court to be held in suspense shall not be more than three months and not less than one fourth of the full period of the sentence.

If an offender is subsequently caught while the term stands, to commit another offence he is brought back before the court and it would be ordered practice for the court to order that the remainder of the sentence be served. Secondly, in accordance with the policy of this Government is giving to the courts discretion as regards what is known as the non-custodial sentences which are applicable to a number of offences, and as mentioned in the Bill these offences in order it will not be impossible for the court possibly to suspend a sentence in 157 of the Penal Code which relates to manslaughter, which is the second category of any offence under the Misuse of Drugs Act therefore. I may also speak briefly for myself, and I was also hoping that I am not the only Members of Parliament in attendance in this, that we may wish to consider this provision and ask whether we should allow the concept of partially suspended sentences to be extended to offences under the Misuse of Drugs Act as well. The third category that it does not apply to the offences under the Penal Code which might have power to impose to partially suspend sentences in relation to existing offences, namely unlawful assembly, subversive offences and certain other miscellaneous offences.

The second main subject that this amendment Bill deals with, Mr. President, is the issue of bail by Magistrate. At present the courts impose a fine and they usually find if that fine is not paid, that the person shall in default of payment go to prison for a specified period of time. These offences punishable I shall be dealing with in my next category, but it was commented by your Government, Mr. President, Sir, that is the circumstances that apply in the Cayman Islands a much more effective penalty, a much more effective way of enforcing the law of unnecessarily committing of people not to pay fines and

MR. MICHAEL J. HARRINGTON (CONTINUING): ... to provide a sufficient period of time for the Parole Board to give his account the proper check ... fine to be imposed, whether in addition to or in default ... of a continuance of imprisonment, and such a fine ... In this bill there is provision that there should have been given to Mario a warrant to levy on the property, either movable or immovable, of each person ... warrant for the levying of the fine to be ... Very briefly, Mr. President, Sir, ... if you are fined a very substantial amount, and the Judge may say ... practically those are offences for which they issue fines are ... fiscal offences, fiscal offences and many times mentioned that if you ... give rise to very large sentences of imprisonment, instead of having ... a recent case in the Supreme Court in which Mr. Justice ... declined ... Should or if the person decides to be sent to ... these people or the people who may ... that ... there will be the ability for the person ... the same way as for a civil judgment there is power to ... that ... Mr. President, Sir, I think we ... be a very healthy change to have ... of our people. It will ... individuals who are fined substantial amounts or who have ... going to be fined substantial amounts if they are convicted, ... much longer and make inquiry before they commit those offences.

The third category, Mr. President, ... this amendment to the penal code deals with ... Members briefly just a few remarks ... of the concept of imprisonment ... default of a fine. Now, Mr. President, Sir, the law applicable ... that no person is sentenced to imprisonment ... that where a fine is ordered to be paid by the court, the ... court does so in imposing that fine ... term of imprisonment ... proportionate to the amount of the fine. Now, I am afraid that ... will find the relationship between the amount of the fine and the maximum ... period that one of these and if it was set of date ten years ago, it ... be much more or very different because ... says, and I quote, Mr. President: "In the absence of express provisions in any law relating ... where the term of imprisonment ordered by a court in respect of non-payment of any sum adjudged to be paid by an order made ... or recognizance under section ... or in respect of the non-payment of a fine or of any sum adjudged to be paid under the provisions of any law shall be such term as in the opinion of the court will satisfy the justice of the case, but shall not exceed in any case the maximum fixed by the following scale:

	Amount	Maximum period
Not exceeding	$ 10	1 month
	50	2 months
	100	4 months
Exceeding	200	6 months",

Mr. President, Sir, nowadays there ... very few offences that do not have a fine of close to $200. It is ... proposed therefore to substitute ... which I would now ... the section would be if the amendments ... passed - that if a fine does not exceed $100 the maximum period of ... imprisonment in default would be one month; that if the fine does ... exceed $200 the maximum period would be two months; that if the ... fine does not exceed $300 the maximum period would be three months; ... that if the fine exceeded $300 it is presently proposed that the ... that there would be power for a default imprisonment of up to five ... years.

MR. MICHAEL J. SUMMERS (continued): I will say no more, Mr. President, that this particular principle making this request to file quote was incorporated in the Act's as a base when we had not come to a determination as provided in the provisions of Sections numbers of fixes. In Committee I will reconsider, with Honourable Members, that perhaps that five years could possibly be reduced to a more sustainable figure of 3 months or one year, because I consider that when we have the Audit Report, the Auditor General should not be necessary.

We are now also considering, Mr. President, in this part of the amending Bill that relates to the presentation of deposit of fees, the removal that where a fee or other has been properly paid the term of imprisonment imposed shall cease and be reduced by the notice that the amount of the said payment having to the amount of the fine or such other sum. This now, I feel, a step and an encouragement in the law at present that if you have fined $100 with 3 months default, that upon if you paid $50 or even more of these to Lock by payment of $100 and there was also questionnaire that there was no obligation to release you from prison until the total amount had been paid. This I think is a small relief and some consideration and then if a person is fined and otherwise serves more than of most of the money has been recovered, then he shall not have to serve the amount of the deposit mentioned in full.

The fourth of the five matters which is dealt with in this Bill, Mr. President, is an extension to provisions of recognizances. This provision now here for in my Bill and in detail this Administration now lives many Members the real idea of the concept of recognizance. A recognizance is a bond that the court requires you to enter into in certain circumstances and that this can sometimes be done to make sure that if you enter into a bond and bind yourself to appear or to be of good behaviour or whatever other way you are bound for your recognizance, that if so is forfeited the court may require the person bound by it who may sometimes also to pay the sum in respect of which they were bound.

Again, in circumstances with the current time and one penalty of money may create the widest discretion possible, there is provision here which allows the court before the recognizance forfeited to at any time, instead of ordering the person, may the which sum is which he is bound however of sometimes the circumstances could the whole or any part thereof.

As I have said, Mr. President, Sir, there are five areas that are being dealt with in this Bill. The fifth, Mr. President, is one that should be welcomed. That is the removal of privileges and the method of publication of particulars in of royalty quote expression in anything else being debated in this House at this meeting.

As you know, Mr. President, some two years ago, following recommendations of Select Committees, a number of amendments were made to our Minute of Laws, and one of the main objects intended in doing was to bring into line the concept of the ability of the courts to make summary summary orders. At that time they were pleased only in that for in fact the court would enter summarily as it thought fit, only in relation to offences under some Drug offences. It is now considered likewise that appropriate by this Government that the concept of community service orders will be extended, not only to offences against the Misuse of Drugs Law, but, to all offences. And, I'm sure, Mr. President, any member of the public or any Members have also those kept this Bill

MR. MICHAEL J. MARKLEY (continuing): ...would have assumed to omit that: that community service shall now include that drug offense by virtue of the proposed substitution MARKLEY, but we may be quite clear to Honourable Members that the reason why that should also take place in this amendment to the Penal Code is to ensure that the whole concept of community service orders and also of suspended sentences is not fully to relation to drug offenders in the Misuse of Drugs Act.

The principles of community service orders which are contained in this Bill before Members of this House are similar to those of persons in the statute of those laws where a person who is found guilty of any offence which does not appear to be considered of any offence which does not appear to be considered of any offence which does not appear to be considered

MR. SPEAKER: The question before the House is that a Bill entitled A Bill for a Law to Amend the Penal Code be given a Second Reading.

The motion will be open for debate. But I think before speaker(s) Public servant representations for approximately 20 minutes.

AT 12:32 P.M. THE HOUSE RECESSED

UPON RESUMING AT 2:07 P.M.

MR. SPEAKER: Please be seated.
The motion is open for debate. The Second Elected Member for Bridge Town.

MR. C. KATE FORDE: Mr. Speaker, the Bill before the House highlights something that exists in the minds of the Government right now to become very important soon. This confusion stems with the amendment to the suspended sentence, the amendment which is presumably to defeat the very purpose of the suspended sentence. It is my understanding that a suspended sentence is usually given as a penalty to those of the person usually that is given, and is usually given in special circumstances where you may have a principal offender or a first offender, or perhaps also a very old offender, or in instances where the person is not considered to be guilty. I have visited prior cases that I have dealt with personally and also in the press, "You are guilty; you have been convicted - I sentence you to one year in prison, but you will serve a suspended sentence." In other words the person does not actually go to jail unless the person commits another offence within the time of the sentence.

If we change this and say that the effect of giving the person a full suspended sentence will cause the person to jail for three months and commit the person is months of the month sentence, we have defeated the very purpose of the suspended sentence because the person will go to jail for three months and he may be said have gone for 18 months. So to interpret as a person who has gone to jail, he or she could not have any further suspended sentence. He should either have the sentence suspended or have suspended. A partly suspended sentence is just as bad to the image of the person as if he had served the full time. So I do not agree with the same hardship a partly suspended sentence. The courts should either impose the sentence for the entire length of the sentence which is handed down or the court should not suspend the sentence. The correct suspended half of the sentence or to give of the sentence unless you make the same effect on the person so that it could not interfere with the suspended sentence.

The conclusion that I arrive about sentences interpreted this Bill is that the principle of the new Government is not, and that their sentences, that they want to get away from minimum sentences. The Honourable Second Official Member mentioned that we will be dealing with the Misuse of Drugs Law Trade and Economic Union that in the course of which we will be removing the minimum sentences which exist. But, in this enlightened state, the Government has decided to move all minimum sentences again,

U.S. v. RAFAEL ROSADO SUPPLEMENTAL: and that is with respect to the suggested sentence because it says in effect, if the jury wishes [illegible] that goes to the question of whether or not they have given the recommendation to which the government is entitled in order to avoid [illegible] sentence during the period of the suspension -- that seems to be held to somewhere really between three-quarters and not less than one-quarter of the whole period of the sentence. So it is a minimum sentence that may "last long time". Anyway, if we look at [illegible] in place I agree, it has to be mentioned again.

In some other parts of the world [illegible] the normally accepted practice, or perhaps the accepted [illegible] there seems to be a view [illegible] that they must serve not less than 60 hours more than [illegible]. So there is a [illegible] of the Government. They are happy to go along with minimum sentences in the hopes of having [illegible] minimum sentences for comparable [illegible] and minimum sentences for comparable of sentence. So there is [illegible]. I would like not have that [illegible] and I do not know where the sentence is going to end [illegible].

I am also totally against [illegible] sentence. It is my understanding that the Attorney could be authorized so as to call a man's [illegible] house; and if a person's sentence -- in the procedure how [illegible] this that when a person is sentenced of a criminal offense he could be fined, or [illegible] or both may be right also to [illegible] in lieu of paying a fine. Now, what the Attorney General should do is to allow the court to suspend him as to pay the fine rather than to go to jail, and that would be absurd. There may be good reasons why the defendant perhaps would not want to pay the fine and would prefer to go to jail. It may be some person with a strong religious belief who could perhaps be a martyr and be [illegible] than to pay the fine. I think this has happened here before. There could also be cases of a political nature where the person would prefer to go to jail rather than pay the fine. And, there may be cases where one of [illegible] the man may decide that he is better off going to jail than working, for once out of the [illegible] he would need [illegible] and if he can't [illegible] sentence the court really says, "You must pay the fine, for instance serve the time in jail. If not, we will issue a warrant and we will, until your house, we will sell your furniture and then when you come out of jail you will really need to be a criminal because you will have nothing to start [illegible] to find your family, you will have no job and it will really ruin you or your potential friends".

Q, a different comment is an [illegible] which would come under the Penal Code and so must not allow this to be put in because it could be abused and it is my belief it would be abused.

Under clause 2, on the new section [illegible] should also be inserted, he says, "A warrant should not, if it appears that the sum that [illegible] is paid, be held void by reason of any defect in the warrant." What a strange possibility I know of many cases where warrants, not relevant circumstances, have not been [illegible] because there were [illegible] and here we are making it so that no matter how great a defect in the warrant, it can be corrected. Suppose for arguments sake the warrant had the name of the wrong person, will it be said then the warrant is valid and that John Brown's house must be sold when it really applied to John Robinson? That can't be the meaning of [illegible]. I do not believe that a person should [illegible] because the warrant is defective. The warrant should be corrected, but here it does not say that - it says that the warrant must be executed, regardless of any defects in it. That has to be wrong.

Mr. T. Wise (Wythenshawe): I understand about rent, but do please see that the hon. Lady is allowed to be paid by people of her choice in the meantime. This cannot be right. If the argument is sound, the argument should be examined. I cannot conceive of a reason for it.

I understand from the Parliamentary Secretary that this Bill will not be working, at Committee stage, to remove clause 2 to restore the text of the Bill to its original form. The original Bill, the Labour Bill, had a ban of one month and I think it should remain because this was merely the base upon which to extend it to that of paying a fine which might exceed £1000; and fine payments are normally two weeks. I must congratulate the Parliamentary Secretary on this concession. I will not bother to tell you the names I have made before I heard of this change.

I am basically dissatisfied with clause 2 which deals with the forfeiture of recognizances. I understand, as I see from the Bill, that the recognizances mentioned in this Bill are likely to remain and quite rightly ought to continue to remain, and also not only to hold people generally. However, great hardship or anxiety would be sufficient to show why the recognizances should not be enforced if they have been forfeited. Section 31 provides that a person in accordance with a conviction under which the court may demand of penalty enjoinder, nonetheless the defendant upon him or leaving upon his own recognizance, with or without sureties, to come up for sentence when called upon, his recognizance may be dealt under section 31 of the Magistrates' Courts Act 1952 or any other enactment relating to recognizances which may be forfeited, unless it appears to the court that the circumstances are such that it would be unjust to make an order for forfeiture, or that it would be unjust to make such an order to the full extent of the amount of the recognizance, and may remit the forfeiture or any part thereof as it thinks fit, and the powers of a court under section 31 of the Magistrates' Courts Act 1952 to remit forfeiture of a recognizance may be exercised by the Crown Court.".

At the moment we have not come to the conclusion that we must oppose it, but we do not like it. If a person is ordered to enter into a recognizance and his sureties with the court that he will not do certain things or pay certain sums, whatever he owes to the court he ought to pay to the local court, they should lose the money if the person fails in doing what is expected of him. I can see that there may be cases in the event of any fine or penalty where they would really put up any hard, any cash, and then when they find it is impossible for the fine to be paid they would only have to go to a judge who was presumably sympathetic to their case. We have not come to any decision as to do, but we still make objections to part of the clause.". I should like this matter to be put right now and have given an undertaking in the speech of the Government Whip to deal, only this morning, with the Clerk of Courts Bill which is intended to give the possibility of the court to vary the conditions of the recognizance which the magistrates would automatically make applicable to the sureties of the money bond.

I should like to make another point now in the Committee stage, which the Labour Party would wish to put in the amendment in the name of the hon. Member for Leyton, E. The amount to be imprisoned, and he would be compelled to imprison in accordance with a fine of £1000 in the Act. All of

MR. [illegible] (CONSTITUENCY): Clause 7 of the Bill we see the same mistake principle being put in. Under the proposed new section [illegible] "A community service order made under subsection (1) shall require the convicted person to perform unpaid work in accordance with section 351 for a specified number of hours being in the aggregate not less than forty nor more than one hundred and forty...". So a minimum sentence is imposed with regard to the community service order. The judge could not send a person to do four hours work but must give him a minimum of forty hours - and all I know is we are giving discretion to the court, and we are taking out the minimum sentence. Therefore this has all the risks of mixing and minimum sentences, giving magistrates the power to do all that. The judge's hand is tied, he must do what parliament by the whole of its enactments. They do not know whether they want to put rid of minimum terms or minimum periods, or whether they want more of what because they take them out in one place and put them back in two places, maybe that cancels them out.

The community service order has been explained from some side as an alternative to a prison sentence. Will the probation officers will be carrying out certain functions. Now, this is deadly thinking because in the Home Office of the Minister responsible, I was unable to get one probation officer to change the three certain decisions. And even if we are saying that the probation officers will carry out the provisions of this Act with regard to the supervision of these people are are making reasonably serious orders under the Penal Code - that is contained whether, now section 351 (1), of the new Bill: "A community service order is an order in which the convicted person will undertake the requirements by section 351, 352 and 353 of the relevant offence shall be discharged by a probation officer." There is a lot of work involved in this because the probation officer would have to see the person, probably, on a daily basis. He would have to secure to him at regular hours. I assume the probation officer would have to oversee the way he was doing or inspect the work that he had done would have personal supervision. I would like to know how we are going to do this practically when we would have the probation officers in every Magistrates Court.

There must be some confusion in the mind of the Government because all we heard all from Bristol Summer, if I remember correctly, the two official officers and have to use helping about hundreds, basically members of probation officers. We are told by others why we cannot why the probation rooms were outside the prison be because we have the ability to supervise them; now here we are going to have a convicted person and report the probation officer. We have got to take on these responsibilities. It was unfortunate officers. Therefore, this probation officer has such sweeping powers and has to monitor the behaviour because the report and the officer, hopefully, must make sure that the work which is being done and determine what the person's existing hobbies must not interfere with the time that he attends a school or other educational establishment and so on. All of these things must be supervised by the probation officer - the judge or the court is not going to go out to see if this is happening. I would like to know how it may be done when we have very much to avoid not put the probation officer or one more worry for the three existing [illegible].

What is more worse, and what adds to the confusion is Clause 7 - see here on page 8. This, if one reads it in the existing, shows that the Government itself has no faith at all in the community service order.

MR. G. LEIF ROBERTS (CONTINUED): ... if one looks at 3(2) (a) it might be in order to make an application if the owner felt that the council had given undue consideration to the requirements of section 3(2), or may, alternatively, in addition to the continuance of the order, impose on him a fine not exceeding one hundred dollars or may revoke the order and impose in addition to any other sentence which it may of fine or imprisonment, or both, which may have already been imposed at the time of the conviction a further fine or a further term of imprisonment, or both, ...". This clearly shows that the Government has no faith in the system.

In clause 7 - 2(2), the normally accepted order can be amended, but it appears only to one circumstance which is unfair. It says: "Where a community council under is in respect of" a prescribed premise and, on his application on behalf of the relevant officer. It appears in the order that made the order that, knowing regard to circumstances which have arisen since the order was made, it would be in the interests of justice so the court may extend the order for a further period of twelve months. It does not say that he can produce the order if this would also be in the interests of justice. There are many circumstances that come to mind. For example, suppose the person serving the order had spoken to him, had been told, had suffered an unfortunate end it would be necessary to obtain an additional term which seems to make provision only for extending the period and this has to be unfair. It should read, "may extend or revoke the order".

I did not hesitate to speak on this because in the first under the same section that I spoke about where it is also sought to reduce the time spent in lieu of paying the fine, where the fines cannot exceed the considered system will spend five years and that is to be reduced to six months. Next, I would like to mention that I consider the fines excessive. They have been increased seventy two-fold, from $10 to $100; $50 to $500 and $100 to $1000. And it means the fines increased.

MR. MICHAEL J. DRAGUSH: Mr. Speaker, Sir, on a point of information, Sir.

MR. SPEAKER: Are you prepared to give way?

(The Member was given)

HON. RICHARD D. BRADLEY: I think the Honourable Member for Gimli may be on this point of information.

It may be the drafting of Bills, Mr. Speaker, Sir, that the intention and the effect is not clear. What precisely was the intention when there is a person was fined respectively $10, $20, $50 and $100, in view of that he should be imprisoned in default five days, ten, four or six months. What this amendment seeks to do is consistent what I thought the Second Elected Member from Rossmere would approve of, and that is to increase proportionately the amount that the fine must be before the equivalent maximum of imprisonment. Is that my understanding would have to be fined $100 before you could be sentenced the default of four months.

MR. G. LEIF ROBERTS: Mr. Speaker, I understand that. What I am saying is that it does occur that these increases in the money will allow greater punishment on the fine where one would only be fined $10, I think this could result in where there are no special provisions in any law. Such it could ..... Sir, I am correct. It says in section 3(2) of the principle Act: "In the absence of express provisions in any law relating thereto the term of imprisonment ordered by a court..." will be as set out below. So I disagree with the change.

MR. G. PATTERSON (Scarborough): Let me read the whole section. The only occasion of capital punishment is that subsisting thereto at the date of the enactment brought by a person in respect of his non-payment of any sum adjudged to be paid for costs under section 33 or section thirty-eight under section 33 or in respect of the non-payment of a fine or any sum adjudged to be paid under the provisions of any law shall be such term as in the opinion of the court will satisfy the justice of the case, but shall not exceed in any case the maximum fixed by the following scale:-

	Amount	Maximum Period
Not exceeding	$ 10	1 month
(Here the bill changes to $100 - 2 months)		
	$ 50	2 months
(Here the bill changes to $200)		
	$200	4 months
(Here the bill changes to $1000 - 6 months)		
Exceeding	$200	6 months
(The proposal is 5 years)		

So I am not happy with any part of this bill. I cannot find any cause of this that we can't agree on and I cannot see why the Government should bring such a bill as a time when apparently there is no justification for bringing it.

I have good job done that by the honourable Member in explaining the details of the bill, and also his background for a better understanding of it. But I am not convinced that the occasion was ripe in the Government, or the minds of the Members, whether have established as that this bill is necessary at all. I am in sympathy with a system that would enable, alternatively, a system that would be commenced on charges, and I would think that the Members on this side of the House will look by such system although we seem to be really pre-knowledge today. Nevertheless, Mr. Speaker, I cannot support this bill.

MR. SPEAKER: I would be grateful about twenty-one minutes to speak when no one else does rise to speak before the moment of interruption, as I suppose that I address my remarks principally, and thanks the honourable First Official Member to move his motion now.

ADJOURNMENT

HON. JAMES H. JOSEPH: Mr. President, I move the adjournment of this honourable House until 10:00 o'clock, Monday morning.

MR. SPEAKER: The motion before the House is that this House do now adjourn until 10:00 o'clock, Monday morning.

I think before putting the question, it may be convenient and courteous to Members if I mention my understanding that the Government Members have made representations to me as a Member, which proves that we will not really be sitting Monday morning. There is a Member coming here whose visit was attempted some time ago, so it may also be the hope that this meeting might have been avoided.

MR. PRESIDENT (CHRISTENSEN): By midday Monday, when what they have indicated to meet our Monday afternoon, we will adjourn until Monday morning, but for this understanding that we would adjourn at midnight if that is agreeable to Members.

I am putting the question that we adjourn until 10:00 o'clock on Monday morning.

QUESTION PUT: AGREED. AT 4:20 P.M. THE HOUSE ADJOURNED UNTIL 10:00 A.M., MONDAY, JUNE 10, 1985.

SECOND MEETING OF THE 1982 SESSION
OF THE LEGISLATIVE ASSEMBLY

MONDAY
29TH MAY, 1985

PRESENT NOW:

THE SPEAKER: THE HONOURABLE, MR G PETER LLOYD, CMG, CVO - PRESIDENT

GOVERNMENT MEMBERS

HON DENNIS B PUSEY, OBE, CBE, JP	FIRST OFFICIAL MEMBER RESPONSIBLE FOR FINANCIAL AND EXTERNAL AFFAIRS
HON MICHAEL J GRADICH, MC, ED	SECOND OFFICIAL MEMBER RESPONSIBLE FOR TRADE ADMINISTRATION
HON THOMAS C HENNESSEY, JP	THIRD OFFICIAL MEMBER RESPONSIBLE FOR FINANCE AND DEVELOPMENT
HON MONSON O SOARES	MEMBER FOR HEALTH EDUCATION AND SOCIAL SERVICES
HON M SCRIVEN COLLINS, MBE	MEMBER FOR TOURISM AVIATION AND TRADE
HON CAPT CHARLES L KLONARIDES	MEMBER FOR COMMUNICATIONS WORKS AND LABOUR ADMINISTRATION
HON RUSSELL A JOHNSON, CBE, JP	MEMBER FOR INTERNATIONAL AND INTERNAL RELATIONS

ELECTED MEMBERS

MR M MCKEEVER BUSH	SECOND ELECTED MEMBER FOR THE FIRST ELECTORAL DISTRICT OF WEST END
MRS SHARON E OTTEST	THIRD ELECTED MEMBER FOR THE FIRST ELECTORAL DISTRICT OF WEST END
MR LANFORD A TIBBETT, JP	SECOND ELECTED MEMBER FOR THE SECOND ELECTORAL DISTRICT OF GEORGE TOWN
CAPT MARK G KIRKCONNELL	FIRST ELECTED MEMBER FOR THE FOUR ELECTORAL DISTRICTS OF CAYMAN ISLANDS
MR G HAIG BODDEN	SECOND ELECTED MEMBER FOR THE NORTH ELECTORAL DISTRICT OF GEORGE TOWN
MR D EDWARD MILLER	ELECTED MEMBER FOR THE FIFTH ELECTORAL DISTRICT OF BODDEN TOWN
MR JOHN B MATTHEW	ELECTED MEMBER FOR THE SIXTH ELECTORAL DISTRICT OF EAST END

APOLOGIES

MR JAMES M BODDEN	FIRST ELECTED MEMBER FOR THE FOURTH ELECTORAL DISTRICT OF BODDEN TOWN

ORDER PAPER

MONDAY

8TH MAY, 1995

1. QUESTIONS

THE ELECTED MEMBER FOR CENTRAL TOWN TO ASK THE HONOURABLE FIRST OFFICIAL MEMBER OF EXECUTIVE COUNCIL

NO. 78: WOULD THE MEMBER PLEASE NOW LOOK AT UNSTARRED QUESTION 14(1)(a) OF THE CRIMINAL PROCEDURE ACT (CAP 22 OF 1988) WHICH STANDS IN THE PERMITTED ANNUARIES IN ORDER NOT TO LOSE IT?

THE SECOND ELECTED MEMBER FOR CENTRAL TOWN TO ASK THE HONOURABLE FIRST ELECTED MEMBER RESPONSIBLE FOR HEALTH EDUCATION AND SOCIAL SERVICES

NO. 79: WOULD THE MEMBER ADVISE WHETHER ANY MORE WAS BEING DONE ON THE SECURITIES COMPLEX SINCE 1ST MARCH, 1995, AND IF SO WHAT MORE WAS BEING DONE?

NO. 80: WOULD THE MEMBER STATE WHETHER ANYONE HAS BEEN EMPLOYED AT GREATER CONSIDERATION FOR THE SECURITIES COMPLEX AND IF SO THE TERMS OF HIS/HER EMPLOYMENT?

THE ELECTED MEMBER FOR NORTH SIDE TO ASK THE HONOURABLE FIRST OFFICIAL MEMBER OF EXECUTIVE COUNCIL

NO. 81: WOULD THE HONOURABLE STATE WHY DECEASED MEMBERS' PENSIONS HONOURED I TO 7 AND THE DEBATE THEREON WERE NOT BROADCAST ON RADIO CLARENCE?

NO. 82: WOULD THE MEMBER STATE WHEN THE TYPEWRITER TECHNOLOGY SENIOR INFORMATION OFFICER WILL BE REPLACED?

2. GOVERNMENT BUSINESS

CIVIL PENAL CODE (AMENDMENT) BILL, 1995 - CONCLUSION OF DEBATE ON SECOND READING 5

ADJOURNMENT 54

MONDAY

9TH MAY, 1994

10.00 A.M.

MR. PRESIDENT: Please be seated. Prayers are read. Questions. The Second Elected Member.

Mrs George Price,

QUESTIONS

THE SECOND ELECTED MEMBER FOR NORTH SIDE TO ASK THE HONOURABLE FIRST OFFICIAL MEMBER OF EXECUTIVE COUNCIL

NO. 731 Would the Member state how long an individual granted Caymanian status under Section 24(1)(c) of the Caymanian Protection Law (Law 21 of 1984) must spend in the territory annually in order not to lose it?

ANSWER: Mr Chair. The grant of Caymanian Status is set out in Section 21(1) of the Caymanian Protection Law, 1984, which at paragraph (5) provides for loss of Caymanian status outside the Islands only where the grant of status so by the Board.

SUPPLEMENTARIES:

MR. GILBERT A. FINZIGH: Supplementary, Mr. President. Would the Member state whether or Section 24(1)(c) the Caymanian Protection Board has any discretion to exercise since Section 24(1)(c) of the Caymanian Protection Law?

HON. DENNIS M. FOSTER: The answer is no, Sir.

MR. GILBERT A. FINZIGH: Supplementary, Mr. President. Would the Member give the nature of any individuals who have so far been granted status under this category, and how many of these individuals are now residents of the Cayman Islands?

MR. PRESIDENT: I think that if the Member wants information of that kind, it really should be put more as a substantive question. It is not really a supplementary. If the Honourable First Official Member can undertake to provide that alternative replies of a kind I will agree to that.

MR. GILBERT A. FINZIGH: Mr. President, just to comment on that, perhaps the Honourable First Official Member would state whether or not he has this information available?

HON. DENNIS M. FOSTER: Yes, Sir. I have it.

MR. PRESIDENT: Well, if you want to provide it then...

HON. DENNIS M. FOSTER: Alright. Mr. Clerk: Proceed. Judge ready.

MR. PRESIDENT: I think that the Member is relying on memory. We have not really got an available and ascertained, and I think that it had better be ascertained so be sure that it is accurate. If the Member would like to undertake to circulate...

HON. DENNIS A. ROSSITER: I will, Sir.

MR. PRESIDENT: It is a fact of life that there are still accidents. As I might think that was what you were asking?

MR. RAYMOND A. PERRAM: Yes, Mr. President, for clarity I think that I should mention that Section 14(1)(c) refers only to those people granted status by yourself or Cabinet of the Cayman Islands and not by the Caymanian Protection Board. I am working to get a list of those people who have so far been granted status and those who are still residents of the Cayman Islands or perhaps who have left to reside in other countries.

MR. PRESIDENT: Are you the first person who has been granted it under Section 14(1)(c) of Law 26 of 1984, or who has been granted it under both the provision, new regulated protection Law, and the previous one? I suppose that it is the latter but you did not actually say that.

HON. RAYMOND A. PERRAM: Yes, Sir, the Law 26 of 1984 came into effect I believe on 23rd March, 1988.

HON. ATTORNEY: So, it is the position that you have given as well. I am not sure whether it is Section 14(1)(c) or the earlier Law.

If there is no further representation, I will invite the Second Elected Member for George Town to ask Question No. 78.

THE SECOND ELECTED MEMBER FOR GEORGE TOWN TO ASK THE HONOURABLE FIRST ELECTED MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR HEALTH SERVICES AND SOCIAL SERVICES

No. 78: Would the Member state whether any work has been done on the sporting complex since 1st March, 1988, and if so, what work has been done?

ANSWER: Since 1st March, 1988, the following has been carried out at the sports complex:

(1) Contracts have been prepared and signed
(2) Workers and staffs have been accommodated
(3) All plumbing and electrical conduit under slab have been completed in preparation for pouring floor slab
(4) The pump room floor slab and footings have been poured. Block walls completed, and roof accommodation for three pump equipment for the pool to be installed by the Water.

On the track and field:

(1) Trenching for French drains has been 40% complete
(2) Topsoil to field has been stockpiled in preparation for seeding.

SUPPLEMENTARIES:

MR. CLARENCE A. PIERCEY: Supplementary, Mr. President. Would the Member state what is the estimated time scheduled for the completion of the existing complex?

MRS. FANNIE D. BRADY: Mr. President, there is no schedule at the moment for completion, since insufficient funds have been voted this year to complete it.

MR. LAWRENCE A. PIERSON: A further supplementary, Mr. President. Would the Member state whether this project, the existing complex, is regarded as a privately owned facility?

MRS. FANNIE D. BRADY: Mr. President, it is regarded as temporary, but I cannot say that it has privately owned.

MR. PRESIDENT: Is there no further supplementary, Question No. 20.

THE SECOND SENIOR MEMBER HAS SERVED NOTICE THAT HE WILL ASK THE HONOURABLE JUNIOR MINISTER OF SCHOOLS COUNCIL RESPONSIBLE FOR PRIVATE SCHOOLS AND COLLEGES REPLIES

MR. SO: Would the Member state whether anyone has been employed as county co-ordinator for the existing complex and if so the terms of his/her employment?

MINISTER: No person has been employed as county co-ordinator for the existing complex.

MR. LAWRENCE A. PIERCEY: Mr. President, as a point of clarity for the supplementary would the Member state if anyone in the position of Administrator has been employed for the existing complex or is being used?

MRS. FANNIE D. BRADY: The answer, Mr. President, is no.

MR. LINFORD A. PIERSON: Supplementary, Mr. President. Would the Member state whether any consideration has been given to employing already in that position?

MRS. FANNIE D. BRADY: Mr. President, I believe that the Member is referring to the post of co-ordinator as in the original question. The answer is that that post was considered for inclusion in the 1985 estimates. However, since it became known that the complex would not be completed, the post was not put in the estimates.

MR. LINFORD A. PIERCEY: On further clarity, Mr. President, a supplementary. Would the Member advise whether any consideration in the use of a co-ordinator has been received from Dade County in Florida?

MRS. FANNIE D. BRADY: Mr. President, we have had the services of a consultant from Dade County.

MR. LYNFORD A. PIERSON: Supplementary, Mr. President. Would the Member give the term of the consultancy and whether he was paid by this Government?

HON. HERMAN D. DENKEY: She moved, Mr. President, to the Floor and he has been paid by the Government as a full time public member.

HON. LAWRENCE A. STEPHENS: A supplementary, Mr. President, could the Member state a ball park figure of how much has been paid to date to Mr. Stage?

HON. HERMAN D. DENKEY: Mr. President, I am not in a position to state that figure.

HON. LAWRENCE A. STEPHENS: Mr. President, could the Member give the undertaking to supply us with this information?

HON. HERMAN D. DENKEY: Yes, Mr. President.

THE PRESIDENT: If there is no further supplementary, Question No. 21. The Elected Member for North Side.

THE ELECTED MEMBER FOR NORTH SIDE TO ASK THE HONOURABLE THE OFFICIAL MEMBER OF EXECUTIVE COUNCIL

NO. 21: Would the Member state why Private Members' Motions Numbers 5 to 7 and the debate thereon were not brought on Public Agenda?

ANSWER: Additionally to broadcast the Private Members' motions referred to in the original Government Motion No. 2, "Broadcasting of Parliamentary Debates Report" and when the station was advised of the intention to broadcast same on Radio Branch, the proceeding of the motions meant the Legislative Assembly entered some available, which were at a non-standard/professional speed of 7 1/2" per second and to try to broadcast the Legislative Assembly tapes to standard speed would have been a massive exercise with quality of tapes running below professional quality.

Members will recall that the last sitting of the Legislative Assembly lasted for nearly one month and thus Radio Cayman was broadcasting every night during that period.

The information is requested.

SUPPLEMENTARIES:

HON. E. KENNETH BODDEN: Supplementary, Mr. President. Would the Member please let us understand that in future all these professional things which need to be done so that we can have our motions broadcast will be done?

HON. DENNIS M. FOSTER: Yes, Mr. President, since that is the case and we certainly receive in there and it is not dependent on the Legislative Assembly area.

HON. D. JAMES MILLER: Supplementary, Mr. President, I do not have Government Motion No. 2/83 in my briefcase with me, but my recollection was that additional man hours for broadcast Members' motions to be broadcast

MR. DENNIS E. MOSHER: Mr. President, patently, Sir, because the first document which was distributed to Members did not have it on, and the second one which was a correction did have it on.

MR. W. HARRIS HUGH: Supplementary, Mr. President. Which section did we pass then?

MR. DENNIS E. MOSHER: The latter one. The correct one.

MR. W. HARRIS HUGH: If that is.... I guess that he already answered the question which I was going to ask.

MR. L. RICHARD MILLER: Supplementary, Mr. President. Can the Member give us the undertaking to have those revisions brought at this time?

HON. DENNIS E. FOSTER: I really do not think that it would make terribly interesting now, Sir, when they gave you a hearing in March. I do not see that it makes sense now.

MR. W. HARRIS HUGH: Mr. President, if you would allow. It is not a supplementary but this....

MR. PRESIDENT: I was only still supplementary, I am afraid. If you can find an ingenious way of showing what it is you want to say this a supplementary, I will certainly allow it, however, you have to do so.

MR. D. RICHARD WILSON: Supplementary, Mr. President. Would the Member please explain to us why they were not introduced in the final instance, which is a no brainer reason why they are not going to be introduced now?

HON. DENNIS E. FOSTER: No, Sir, I gave the Member the reply that he did not second time, Sir. It would be quite impossible to do them now from the Legislative Assembly's point. It is a different type of machinery completely. It was just an error. That is all.

MR. PRESIDENT: Question No. 52,

THE ELECTED MEMBER FOR SOUTH SIDE TO ASK THE HONOURABLE LEADER OPPOSITE REGARD OF EXECUTIVE COUNCIL

NO. 52: Would the Member state when the present temporary Senior Information Officer will be replaced?

MR. D. RICHARD WILSON: Mr. President, with your permission, Sir, I wish to withdraw question No. 52 in light of a press release which appeared on Monday's paper, which has pre-empted the answer, Sir.

MR. PRESIDENT: I suppose that the Standing Order which entitles you to withdraw a question, but I am quite certain that you do not have to ask me if you do not want to.

MR. W. HARRIS HUGH: I do not see any harm.

MR. PRESIDENT: Sorry?

MR. R. HOWARTH RYAN: I looked at the Standing Orders too, Sir, but I did not see any to withdraw.

MR. SPEAKER: I shall take it that it has escaped your notice but that is certain, and you can withdraw. You are not obliged to ask a question if you do not wish.

Item 8. Bills. Second Readings. The nomination of the Order on the Sewer Rods Amendment Bill, 1965. My recollection is that the Second Elected Member for Bubble Down has finished speaking and the motion was open for debate if any other Member wished to speak. The Second Elected Member for George Town.

GOVERNMENT BUSINESS

BILLS

SEWER RODS (AMENDMENT) BILL, 1965

SECOND READING

MR. LINFORD A. PIERSON: Mr. Speaker, The Sewer Rods (Amendment) Bill, 1965 has a number of important amendments. It provides a number of very, very important changes in the principal Law.

I must congratulate the mover of this Bill for a very, very good presentation. Of course, Mr. Speaker, I wanted to enquire as the other Bills is that is my opinion anyhow - that is not given to the public, and even to Members of the Legislative Assembly to which these Bills, are drafted to consult with members of their constituencies.

Also, it has been brought to my attention that some individuals within the legal field are not made privy to any of these Bills before they are brought to this House. It astonishes to such members of the Government as to me - astonishing that they have not been consulted. I am stating, Sir, that this is my understanding. I am not stating this as a fact.

Clause 3 of the Memorandum and Objects and Reasons to the Bill seeks to have the sentence of imprisonment greatly suspended. It states inter Section 7(1), (2):-

> "Notwithstanding subsection (1) of section 23, a court which passes on an offender who is not less than eighteen years of age a sentence of imprisonment for a term of not less than six months and not exceeding two years may order that, after he has served part of the sentence in prison, the remainder of it shall be held in suspense."

Subsection (2) of this section states:-

> "The part to be held in suspense shall be not more than three-quarters and not less than one-quarter of the whole period of the sentence, and the offender shall not be required to serve that part unless he is sentenced under subsection (3);".

Mr. Speaker, I have heard a number of debates in this Assembly during the passing of various Bills, but I am glad to see any amendments or changes made regardless of how important the matters dealt with are, or regardless of the points raised from across the House.

MR. LAWRENCE A. FERRARO (CONTINUING): I believe, Sir, that it is an anomalous situation if we are going to establish in this Commonwealth courts just the sake of having somebody's have even been told by members from the Commonwealth South that once retired from this also of the House have most important, and get nothing and done, to take those people into consideration.

Also retired persons in Commerce Steps are given the same kind of consideration. While it risks at all. However, it will go as may, Mr. President, I feel that I have like way of my colleagues responsibility to the people. In this respect I say God bless Radio Cayman. For had it not been for Radio Cayman, some of our people would never learned what we are doing in the House.

I see, Mr. President, there are a number of amendments and clauses in this Bill. I also see a connection between this Bill and the Rehabilitation of Offenders Bill which will be necessary to such a Bill. We have not yet debated that Bill.

There are certain points, Mr. President, which I feel will require some clarification. One of these points is whether the rehabilitation period will be calculated on the full term of the original imprisonment, or on the minimum period left after discussion.

I move, Mr. President, an Clause 4 which seeks to make provision for a warrant of distress. This is to be issued when there has been default in the payment of a fine or other sum ordered to be paid by the court.

Mr. President, in this respect I cannot help but refer to a remark made by the mover of this Bill, which in my opinion seemed somewhat out of line. It states:-

> "This Bill enable the courts to give offenders a short sharp lesson of imprisonment."

I wonder, Sir, if this supposition, and I will go back to the point of suspension; if the intention is to rehabilitate an individual or is it to give our people a sharp lesson of imprisonment, what is the purpose, Mr. President? Why does it say under Clause 4 that an individual will still not have the right of serving first imprisonment if he or course is spent in addition to Northward Prison, rather than having a policeman walk into the home and take one his colleagues; take out the natural things and tell him that if he does not pay the fine then a warrant of distress will be levied on him.

I am asking questions, Mr. President, which the Honourable Second Official Member will have the opportunity to answer when he is winding up.

Mr. President, I am also happy that some amount of clarity was somewhat brought into this Bill, because initially under Section 5 of the Bill which seeks to amend Section 95 of the principal Law, there are a number of important changes been proposed. I think that some of these changes are very good indeed because under the old Law, the amount stipulated was not in equity to the amount of the sentence imposed under the Law. We first originally had a period was six months, but in the Bill it was changed to five years. However, I am happy, Mr. President, that in Committee stage the power of the Bill will be strengthening to bring back sanity in this Bill by saying that the court be in a position to impose a maximum of nine months' imprisonment rather than the five years which was originally in here.

MR. GIBSON: Mr. President, Mr. President, I rise to a point of order. Mr. President, I rise to a point of order.

MR. SPEAKER: The hon. Member for Brantford will state his point of order.

MR. GIBSON: Mr. Speaker, I rise to a point of order. Mr. Speaker

MR. EDWARD A. PIERCE (CONTINUED): We have to be also very careful with this, Mr. President. It would be a situation where an individual is not available for many, many sessions, and I feel that the arrest and the bail opinions should be most careful in considering whether or not to commit such an individual.

The imposition of new sentences by this Law, Sections 304 or 305, I feel have been fine, very sensible. Section 307 of the bill, Mr. President, deals with the community service orders, and I think that this is a very important section, since though provision is already made under the Crimes Act:

> "Where a person who is over the age of 17 years is convicted of any offence (other than an offence in respect of which the punishment is death or imprisonment), the court before which he is convicted may with the consent and subject to sections 305 to 308 (inclusive), the authorities to be charged of dealing with him in any other way, make a community service order."

We have seen here, Mr. President, that a community service order made under Section 7 shall require the convicted person to perform unpaid work in accordance with Section 308, which will not be in aggregate less than one hour or forty hours, or more than 240 hours or approximately six months.

One question, Mr. President, is the reference for keeping these limits: Why one week, Mr. President? Why six months? I should hope the review of this bill will clarify this point.

Another important section of this bill, Mr. President, is Section 7(2) which states:

> "A court shall not make a community service order in respect of a person convicted of an offence unless the court -
>
> (a) has been notified by the Secretary to Council that arrangements exist for work to be performed under such orders;"

Mr. President, I am not quite aware of the relevance of subsection (2)(a). I can understand subsection (3)(b) which refers to a probation officer, because this is the normal course of events. However, I do not see the necessity for the Secretary to be involved in this decision. Perhaps this will also be clarified.

It should also be important to state instances when this would be necessary for the Secretary to Council to have to be involved.

Mr. President, I see the community service order as a form of rehabilitation for prisoners. I do not see this as major punishment to prisoners, and I can table on the basis of experience I have had with my own case from prisoners of the Northward Prison. They are crying out for something to do rather than sitting idle on the prison. They are not as concerned about losing the points and then in their prison uniforms as many of us may think. They seem to be involved in something constructive rather than being locked up for 23 hours as a time in the prison.

It is important also, Mr. President, that this option be left for the convicted person to help in rehabilitate himself.

MR. LAWRENCE A. PIERCE (CONTINUING): Section 360, deals with the breach of community service order, and in subsection (2) it states inter alia:-

> "it may, without prejudice to the continuance of the order, impose on him a fine not exceeding one hundred dollars or may revoke the order and impose in substitution therefor,"

Section 361 which deals with the enforcement of community service orders states inter alia that:-

> "It appears to the court that upon the order that, having regard to circumstances which have arisen since the order was made, it would be in the interests of justice to do so the court may amend the order fix a further period of twelve months."

Now again, Mr. President, I think that such case will be taken in imposing any additional fines or sentence in the prison. I feel that such circumstances which could have arisen should be taken in accordance with the magnitude and nature of the breach of the community order.

Mr. President, as I understand the nature of this Bill for the clarity in the presentation of the Bill. However, I also express my reservations, Sir, that way since I feel that something have on this side of the House is of essence of flexibility, except for the reverence which is received by Hon. Cayenn and his colleagues.

I trust, Sir, that suggestions made by this House will not just be considered stepchildren and forgotten, but that they will in fact be treated so, and that we will not be considered to know but our rights. That then speak. Let them get it off their chest". It is my belief, Mr. President, to the United Representatives of this country to be treated in such manner.

Thank you, Mr. President.

MR. SPEAKER: The Second Elected Member for West Bay.

MR. K. HUBERT ULRIC: Mr. Speaker, I rise in support of some of the amendments in this Bill. I cannot support it in its entirety. There are some provisions in it which I welcome, and as has been said, are long overdue. However, there is a requirement to Section 31 which causes grave concern.

Mr. Speaker, I know, like, that I am the least trained of all the Members in this Honourable House, and I hold a grave fear of sentence to jail. I can foresee the proposed amendment to Section 31 causing great distress and hardship to our people for certain minor infringement of the law. Under this Section 31 where default is made in payment of a fine or other sum ordered to be paid under any law or a specification or order of any court, the court may issue a warrant for the levy of such fine or other sum on the movable and immovable property of the offender.

As I said, Sir, the words in question in this section are not something which I can support. It says fine ordered to be paid under any law, and the words movable and immovable property. My understanding is, Mr. President, that this means that if a person is caught driving a bicycle without a light and he is taken to court and charged a fine, but he cannot pay it, his bicycle can be taken away from him.

MR. K. HARRIS [continuing]: Mr. President, I may be wrong, but if I am wrong I will give way to the honourable member and he can explain. [Interjection]. I do not know whether it is a joke or not. Just anyway it seems in my opinion that if a young boy is caught with a stick of gelignite on him in this country and is fined $1,000 but he cannot pay it, he can obtain the dividend that he may not be taken away from him. [Interjection]. Mr. President, I do believe that those people who might smoke a stick of gelignite do not have cars. Mr. President, smoking a stick of gelignite touches practically every household in this country. Let them laugh on that one.

I cannot, Sir, go with honesty to my people supporting this Legislation and, and I feel that it should be withdrawn and re-introduced. I must say, Mr. President, that there have been bills which we have on the Order Paper, I do not know who drafts them, Mr. President, but there is some bad draftsmanship there. We had one real difficult thing in West Bay, and I believe that he would have done just as well. However, Mr. President, I will have more to say when this Bill reaches Committee Stage, otherwise I can give my support to this Bill.

I am particularly happy about the proposed amendment to Section 23 empowering the Governor to suspend or remit of a private sentence once the committed person has served or become a prisoner of the exchequer. I think, Sir, that this will go a long way in relieving some of the overcrowding in our prisons. Simply speaking there, Sir, are the circumstances to consider the extent, with the consent of the committed person, to impose a period of community service instead of a period of imprisonment. I am aware, Sir, like I said, that this Bill is drafted badly, as the last three are, but I can understand some of it that this latter paragraph is conditional upon Government providing the proper facilities for the implementation of these community orders. However, I trust that Government will not drag its feet on this, Mr. President, because this is I believe, as I said, the wave to some of the ills at northern prison where we have the unfortunate practically a high school. As I said before, Mr. President, that little added income I heard some [illegible] from the Official Side of the Government Bench, teachers and [illegible] in this country. It is not a joke and I do not know what they are trying to laugh about this morning.

This community service order, I believe, will work well, as can work well in our society. There is a lot of work in my opinion which needs to be done. Mr. President, right now I know of at least two houses which are ready to be built but, they are poor people after struggling to pay the mortgage with the help of the wonderful services in this country, we will have the Government to put labour at this time. So, as I said, Government must move expeditiously on this thing called the community service order. I trust that it will not be like the hospital where they will be glad they are supporting but they cannot support the nations. I hope that we will see more action on this, Mr. President, before long times. I believe that this Bill is going to pass this house today. I trust that it gets the assent of Her Majesty's Representative before long so that we can move quickly on this situation.

I am particularly with the thrust of these amendments and feel sure that they will prove to be a great step forward in the rehabilitation of prisoners in this country, Mr. President, which for so long has been lacking since. They will allow persons who have transgressed against the law to pay their debt to society without imposing undue hardship on their dependents and the [illegible].

MR. W. HAWKINS (Surrey) (Conservative): Sir, I would like to see subsection (3) of the proposed amendment to Section 344 amended to allow the provisions to apply to those persons incarcerated under the Statute of Limitations where that incarceration appears to be solely for self-preservation.

HON. MICHAEL J. BRANDSE: On a point of information, Mr. Speaker, does the Honourable Member wish to give way.

MR. W. HAWKINS (Surrey): I have given way.

HON. MICHAEL J. BRANDSE: Mr. Speaker, I am always reluctant to interrupt the flow of other Members' thoughts, but I should put it clear in my opening remarks of this Second Reading that the Lawyer who I have to represent in this Bill is perfectly that community service orders made presently under the Penal Code do not apply to recidivating under the Statute of Limitations because there are already provisions in the Statute of Limitations for specific provisions both in relation to misdemeanours under and to community service orders. The fact remains community service orders have already been in the Statute Book in relation to many offences from this last year or two.

MR. W. HAWKINS (Surrey): Well, Mr. Speaker, the Honourable Member did just that. He interrupted my train of thought.

HON. MICHAEL J. BRANDSE: Just which I apologize.

MR. W. HAWKINS (Surrey): Mr. Speaker, I thank the Honourable Second Official Member for his explanation and I am looking forward to hearing his comments in that further in that when we get to Committee Stage. However, Mr. President, as I said in the first instance, I did not quite understand. There have been so many amendments to this Statute Bill that it has got me confused. I am not the only one. I have previously heard Members saying how they have been confused by this Bill.

So, to get on with what I was saying, Mr. Speaker, about this subsection (3) of the proposed amendment to section 344. I trust that we can include it in the Penal Code to apply to those persons incarcerated under the Statute of Limitations for self-preservation.

The Bill, Mr. Speaker, as I said in my opening, I guess, Mr. Speaker, that I have mentioned the merits of the Official Side again. I probably will in the Committee Stage. However, they were matters that I have and matters which already formed with similar debate, and this time I will be brief.

I support the Bill, Mr. Speaker. To be in my opinion, and I do thank Government for bringing the Bill at this stage. I trust, as I said, that they will have fewer and fewer Bills, and get the things done which we could have done, and not have to.

Thank you, Mr. Speaker.

MR. SPEAKER: The Honourable Second Elected Member for Roseau Central.

MRS. M. WARNER BOURNE: Mr. President, I support this Bill. I believe that has been overlooked on purpose and equally. I feel this Bill for a few is wrong the Penal Code to be fair and reasonable, just as to the powers of the court and also as to the rights of the individual having changed.

MR. W. BENNETT JONES (CONTINUING): When applied, I believe that it can be established a form of rehabilitation of a certain type of offender in our community, a need for which we have all recognized from time to time.

While mentioned other procedures, this will deal with carefully selected sentences and dramatic serious crimes. I know that it may be a bit radical, but there are occasions I find such good news that is to be received hopefully. My understanding to date is that a court has passed sentence for a short term, not less than six months nor more than two years, the court may order that after serving a part of the term the remainder may be held in suspense. It goes on to state that the suspended portion cannot be more than three-quarters of the term, not less than one-quarter. During the suspended sentence the offender must be of good behaviour, because as it states, if any other offence which is punishable by imprisonment is committed during the time that he is serving the portion of the suspended sentence, then the court shall exercise the discretionary portion of the suspended sentence and order the offender to serve it.

At the same instance it could then the court may order, in that instance it says that it shall order, unless the court is satisfied otherwise that part of the sentence that has been given the benefit of a suspended sentence, to be of acceptably good behaviour.

Other provisions are made for the court to exercise its discretionary powers under certain conditions of the case. As has been pointed out by the minister, suspended sentences do not apply to certain offences for manslaughter and certain sections of the Criminal Code. The motion has also indicated the circumstances in which an amendment at Committee Stage which would suspended sentences to be extended to the Yukon Territory. I support this. I am happy to hear this, personally in the case of first offenders.

Provision is also made for default in the payment of a fine and sets out the procedure by which the court shall deal with this matter. As I have said before it must be fair to the court and to the individual because we cannot expect that people to observe and follow certain procedures if they are both totally unaware.

The bill encourages the fullest amount possible in the area but also the minimum period of time to be served in default and a crime in the juvenile law.

This bill goes on to make reasonable provisions dealing with payment on fines on a per month basis, which to my mind is also fair and reasonable.

The other section of great interest to community service orders. A person convicted of any offence except an offence punishable by death, also must with the person's consent, it has to be with the person's consent and also in this manner the rights of the individual are protected, impose orders in addition to or instead of any other sentence. This is important work to the community of just these sorts of things some there are I have made a passing which pointed. I envisage that this would also accrue to the Territorial Council for Social Services, to supervise and to order these rehabilitive organizations, to be approved and by those persons carrying under a community service order. Before making such an order the court must be satisfied by the Commissioner in Council that arrangements are in place for community work to be performed. This is a necessary provision because unless the proper arrangements are in place it is natural that this area cannot be carried out and be as effective as it should be.

MR. M. ANDREW SCOTT (CONSERVATIVE): The probation officer must confirm that the person is a suitable person to perform such work. This Bill does not differentiate between the person serving under a community service order. Why, if he is not suitable, will he be considered to suitable to serve such an order.

While Bill does not distinguish between individual religious beliefs, it does not distinguish between religious beliefs and non-religious beliefs. I see that the Minister is nodding in agreement. I hope that person may be contacting to obtain at what time. It states that the option can be exercised for an additional period by the Minister of Justice will be carried by an order. I see this as fair and reasonable because there are circumstances which can make plans which would unreasonable or unfeasible. It can be recalled that this is an order which applies to persons not previously had cause to rely upon.

Mr. Speaker, this provides an alternative to just time or borstal system, or an alternative to [illegible] penalties, which I believe more effective. This has been successfully done in other countries and I believe that it can have similar effects in our country. As for me I am concerned, if only a part dealing with [illegible] be carried out fair and reasonable, this is it.

Mrs. Mr. President, we not disagree to protect nor encourage the hardened criminal nor the habitual offender, but it is intended to help that type of individual who makes the mistake of committing a not too serious offence. This gives him a chance to pay his debt to society in a meaningful and useful way rather than a meaningless way, which is what the most [illegible] in the past. It gives him an opportunity to prove to society that they still have confidence and trust in him as a member of the law abiding community once again.

Mr. President, many of our young people, especially our first time offenders [illegible] opportunity. Sometimes we not disagree the amount, and the circumstances there with it is a chance that we must take a hopeful look at our system. This provides an alternative to unnecessarily high [illegible] and useful way rather than a meaningless way, which is what the most [illegible] in the past. It gives him an opportunity to prove to society that they still have confidence and trust in him as a member of the law abiding community once again.

Crime must be punished. Respect for the and order must be maintained and the public interests must be protected at all times. At the same time, Mr. President, I believe that every possible means to help offenders put back on the right track must be explored and utilized by this Government to help them to mature to accept and take the responsibilities of our society which they, when are capable of doing.

I anticipate problems, Mr. President, that this Bill will have encountered there. We must not be seen as a country which seeks to solve the problems merely by suppressing the person responsible. We need legislation other words and we have good examples of [illegible] of tested and tried systems and procedures which can be useful to this country.

I support the Bill, Mr. President, and look forward to the Law being fully enforced in the very near future. Thank you.

MR. SPEAKER: I think perhaps that it may be convenient if we take our customary morning break. I will suspend proceedings for approximately ten minutes.

AT 11.20 A.M. THE HOUSE RESUMED

BILLS READ AT 11.06 A.M.

MR. PRESIDENT: Please be seated.

Proceedings now resume.

The Second Reading of the Penal Code (Amendment) Bill, 1976. The Honourable Nairobi Elected Member of Executive Council.

HON. DENGUA O. MBURU: Mr. President, I rise to support the Bill now before us. I find no confusion or misinterpretation in the Bill, Mr. President. I think what it seeks to do what the mover said and that is to show that the Government is mainly inside an enlightened approach to punishment and sentence generally.

I will just point out, Mr. President, in case of the matters raised, because there is certainly no doubt we will have further discussion in Committee Stage. While I agree, Mr. President, that if time permitted it would be nice to have these Bills for months in advance, it up to now has not proved possible to do this. I would just like to make the point that we are in fact receiving the stipulations under Standing Orders in this regard.

I do not accept that the comments from across the aisle are not paid attention to. When these comments are reasonable and useful of incorporation into legislation I certainly am open to accepting the suggestions. However, if the suggestions are never carried through to the point of where they are put into the form of a motion, then Government has little hope or little chance of accepting them.

The first section of this Bill, Mr. President, of significance is Clause 2 which deals with the hotly contested sentence. This was looked upon by some Members who spoke before me as being unreasonable because it meant that a convicted person would have to serve the stigma of having been sentenced to any prison. I think that Members should realise that the Penal Code at the moment provides for total suspension of the sentence, and this amendment now is making provision for partial suspension of the sentence. Whether the Second Elected Member for George Muite was reading from the paper or not, I think that the points made by the mover when he talked about a short, sharp jolt of deprivation, because it had to be worthy with this and not certainly with the distance under which the Member was speaking at that time.

The memorandum of the Bill quite rightly, Mr. President, said that the Bill in its present form curtails the application of this part, that is the ability to grant a suspended sentence from the sentences under the Penal Code (Amendment), but that if Members thought otherwise he would entertain an amendment in the Committee Stage to that effect. I think that that is the undertaking which he gave.

I commend this motion, Mr. President, and I realise that it was omitted because the total suspension provisions at the moment also excludes offences under the Penal Code (Amendment). It would be my hope that if an amendment is passed here to make the partial suspension of sentences applicable, then we might find it possible to also make the total suspension of the sentence applicable as well.

SUB. SESSION 0. COMMUNITY CORRECTIONS: Mr. President, the point of this bill which seemed to have caused quite a lot of concern was Clause 4 which dealt with the enforcement by distress warrants of fines, ...warrants. If one had listened to the representations on this, one would have got the impression that this was the first warrant for the levying of a fine. Perhaps if we look at Section 84 of the Penal Code as it stands now, in subsection (1) (f), it will be found that basically the same procedure exist, that is the procedure to secure a warrant against the immovable and movable property of an offender for the non-payment of a fine.

What Section 84(1) (f) says is that in Clause 4 of this bill what is to be newly here inserted will be supplemental ... the purpose is to give to Magistrates who will be empowered ... In addition, it is also to clarify a new procedure giving the right to take persons' property for failure to pay the fine.

Clause 5 of the Bill, Mr. President, seeks to amend Section 25 of the Penal Code so not to impose the penalty. In my opinion it is a welcome amendment of the somewhat ... because all that are time changed is now the method of ... implementation or levying of imprisonment. What has been proposed is the amount of fine for which the person can get the maximum length of sentence. So that really speaks in the benefit of the person convicted.

For example, where the person could get one month for a ten dollar fine previously, he can only get one month for a one hundred dollar fine at the moment. It should be made clear, Mr. President, that this is not really in respect of fines generally. It is basically in respect of private individuals against the person.

Section 5, Mr. President, dealing with ... the forfeiture of recognizances. This is an area where people have given recognizances to be of good behaviour or to refrain from committing certain ... they have given these recognizances, Mr. President, in lieu of receiving some other punishment, when if they break the terms there is an application ... they should not be entitled or to forfeit the recognizances.

The community service order, Mr. President, are welcome to this bill. As has been pointed out, the Minute of Paper has raised objections for the community service order, and that is why the offences under the Minute of Paper Act are excluded from this section. The reason, Mr. President, why this ... was not mentioned in this section of the Bill is because under the Minute of Paper Act, in addition to the community service order, ... as an alternative, the person might also be given an ... wage. This means that the person would be required to attend ... rehabilitation centre or clinic, or something of that sort.

However, Mr. President, seemed to have welcomed the community service order and I think that it is a step in the right direction. However, the procedure for ... the community service order seems to have been misunderstood. Members here again mentioned that it have the order enforced for a further period of twelve months ... the ... of the scheduled person. However, the contrary is true because Section ... also permits the number of hours to be increased. It is only the period of time within which the number of hours of work to be done can be performed. In the first instance, the period of time given is twelve months, and Section 3(2) makes provision that if it appears just and reasonable to the court they can extend that twelve months for a further twelve months. It would work, Mr. President, if maybe ... and this is an additional one although it is not ..., there was no appropriate work for the person to complete within the twelve months ...

THE HONOUR G. PEARCE (CONTINUING): However, a more likely case would be if the person became ill and could not fight parties the case within the twelve months stipulated, then the court could in its wisdom extend the period for a further twelve months.

So, Mr. President, I support those amendments to the Penal Code. I believe that they are steps in the right direction and in my opinion, they update and improve the law available to our courts in passing sentences on convicted persons.

I accept that the community service orders will put added stress on work on the probation officers but, Mr. President, I think that it would be better that those persons who are going for an appointment or conference with the probation officer and wanting to take care of our offenders at Northern Areas.

So, with those few remarks, Mr. Speaker, I fully support the Bill to amend the Penal Code, Law it is late.

Thank you.

MR. SPEAKER: The Elected Member for North Side.

DR. D. LEIGH HILLS: Mr. President, I would like to support a Bill for a Law to amend the Penal Code. Like the Honourable Second Elected Member of Executive Council I believe that it is fair and reasonable, and like the never disappeared it is an enlightened approach. However, I would wanted to add that I do not think that it is a very significant which might tend to undermine the security of the offences.

Sir, I would support the mover's intention to amend Section 3(2) which will allow partly suspended sentences to be applied to certain offences under the Penal Law. I think, Sir, that like the other areas of this Bill, a partially suspended sentence in regard to certain minor offences such as possession will the obvious intent for non-application which he would contribute to one's possession, could be a useful means of rehabilitation in a partly suspended sentence.

The enforcement by statutory order, Sir, I do not have any problem with this section of the Bill. Some Members and some people in the public, Sir, seem to have a broken sentence and refer to it as "probation or Northbound". I think that a prison sentence, Sir, should be punishment for an offence committed and if we allow, even if they are short term sentences or prison, to be looked at in the light of "probation or Northbound" because one is going to get these appointments a day and some fine enforcement, I believe, Sir, that we are doing an injustice to society and we are not being fair to those people who need protection from offenders in the Law.

I believe that certain people have abused this privilege of accepting imprisonment for that some reason, because they have heard that Northern Areas offers good meals and good accommodation, and because some who cannot go normally better off in Northbound Prison than the circumstances under which he is living his everyday life, that is in terms of meals and accommodation.

I believe, Sir, that part of paragraph was abused or suffered under Section 4(3) where it says:-

> "A sentence shall not, if it appears that the man has been so discharged as he would be held guilty by reason of any defect in the sentence."

MR. D. LEGARE HOLLAND (CONTINUING): I believe that if people are unjustly arrested by that section they can get justice under subsection (5) of the same section.

I might assure, Sir, with deference the Member of the court. This which you have to be placed before one can find the corresponding term of imprisonment under Section 6. However, Sir, I would hope that the courts are not going to automatically advise the first upwards that ten dollars to one hundred dollars, or five fifty dollars to five hundred dollars as the case may be.

Under Section 6, Sir, fingerprints of recognizances, I support this section, Sir, again because I believe that it is just and reasonable. I believe, Sir, that it is incumbent upon anyone who puts up a bond or whatever for recognizance or someone else, to make sure that they understand what they are getting themselves into. I fully believe, Sir, that since the onus is on them to understand what they are getting themselves into, if they fail to comply with the order then, Sir, I think that they should lose the benefits their recognizance.

With regard to the community service order, Sir, like other Members I feel that this is long overdue and I believe that it can go a long way to minimize overcrowding of the jail. However, Sir, I would hope that we are not going to have to wait on until long passed at time for the Government to inform the court that arrangements have been put in place. Further, Sir, I hope that this is not going to entail the hiring of twenty to thirty more probation officers to make sure we are possible with the utilization of work. I believe, Sir, that Government should give consideration under this section, in recognizing the shortage of manpower which exists in the Social Services Department, to involving the established service clubs in the recruitment of these community service orders. Most of the service clubs have at any time ongoing projects which these people could probably work on. I believe, Sir, that the rehabilitative and the reformation which these people can be exposed to community service should get in association with members of the service clubs would be very valuable to the offenders.

I do not have any problem anyway, Sir, with the ability to extend the community service order. I believe, Sir, that we have to give adequate provision for the back-sliders, so to speak.

So, Mr. President, I support the Bill to amend the Penal Code."

MR. SPEAKER: The Third Elected Member for West Bay.

HON. DARVILLE A. QUEST: Thank you, Mr. President.

I arise in support of a Bill for a Law to amend the Penal Code. I have studied this Bill and in point though it is never to me that what is intended here to exactly what should be done. That is either a person has committed a crime he must not only be punish here but be rehabilitative this individual. I feel that this Bill encompasses much which should go a long way to doing just that.

I suppose the Bill and there are a number of areas which have been touched on already and I do not know that I need to go over those. However, I feel some that life is something which is welcomed by the Caymanian public at large and I trust that other Members of the House will rise to give this Bill their support.

HON. DARRAH I. NICOLL (CONTINUING): Again I say, I ask this bill giving exactly what we need to be able effectively in this country, and that is to have more money to pursue than which is this country... to happen if they have done something wrong, but in addition to that our money will be spent rather than adding extra staff at Northcourt Prison, in Hackney to accommodate the offender.

Mr. President, I support the Bill.

MR. PRESIDENT: If no other Member wishes to speak... The First Elected Member for the Eastern Islands.

HON. HENRY S. KRISTOFFERSEN: Mr. President, the Bill now before this Honourable House, a Bill for a Law to amend the Penal Code, Law 18 of 1975. I rise to support. I feel that it is reasonable. It is just and the amendments are very necessary for the betterment of the judiciary here in the Cayman Islands.

I have given the very careful attention and as this time I would like to thank the Honourable Second Official Member for his able presentation in moving this Bill and also for personal explanations which he has given to me which have helped me to better understand.

There were some of my constituents who questioned the intention of Section 250 which states mental incapacity amendment. Some of the outside got the opinion that what this was doing was differentiating suspended sentences and making them at least partial. It is my understanding that this is not the case. The suspended sentences as we know them will continue. It just gives the judge or the Honourable Magistrate the authority to suspend a part of it which should not be more than three-quarters of the sentence, and not less than one-quarter. So, it is actually going to be beneficial to the persons who be sentenced. Maybe his crime is not of a nature enough nature for a long period sentence but a short prison sentence is necessary to make him realise what he has done wrong.

Sir, therefore I support that section. Whereas the enforcement of sentences commonly fined, accompanied this with the old saw I do not see as full list of charges and I feel that the courts must have the power to collect the property of the criminal, whether it be movable or immovable if it is necessary. What we are trying to do is deter crime in this community and we must not make it easy on the criminal. We should not be unduly hard but we must make him know that he has been convicted of a crime which is against the laws of the Cayman Islands, and he must suffer the consequences.

I think that the provisions of recognizances is fair. I would call to the attention of Members Section 311, subsection (2) which says:-

> "The court which declines a recognizance to be forfeited under subsection (1) may, at any time, thereafter call upon any person to pay the whole sum in which he is bound, jointly the whole or any part thereof either absolutely or on such conditions as it thinks fit."

Discretion is left in it and therefore I support that section.

I am very happy to see the community service order placed in the Penal Code. I had the privilege of representing it in the last Session of the Legislative when it was only the Leader of Opposition and I think Government to continue it implemented. I think that it is giving a second opportunity to the unfortunate who have been found guilty of a crime. It will give him an opportunity to pay his debt to society and probably still carry on a normal life.

CAPT. ALBERT S. KAWAUBAY (CONTINUING): I am happy to see that it states that:-

> "S69.(1) The discrimination given by the exclusion of persons under this section shall be for an unreasonable, unjustifiable and unwarranted person's religious beliefs and any disagreement with those, if any, of which he normally works or attends a school or other ... educational establishment."

In other words, the community service order will work to the benefit of the convicted and the community, not to the disadvantage of either.

There are provisions for the breach of community service which I think is necessary. I think the honourable First Elected Member for Bonaire Council for his explanation on the further period of twelve months. I do not understand it that way and I am very grateful for the explanation. In view of his explanation I think that it is very fine. It would be that because of school or some other reasons which I quoted earlier, he could not put the number of hours of his sentence into a period of twelve months, or six months originally, that it could be further extended.

Mr. President, I think that the most important task for these Islands at this time is to attempt to rehabilitate our unfortunate people who are convicted of crimes. I think that every effort should be made to try to rehabilitate them and retain them a decade. Let us not hate anymore. Anyone can make a mistake once and if we help to rehabilitate him or her they may not repeat it. Therefore they will be able to take their rightful place in society and fully build the Dignity Islands.

Mr. President, with these few words I support the Bill.

MR. PRESIDENT: If no other Member wishes to speak, does the mover wish to exercise his right of reply?

HON. MICHAEL A. BRADLEY: Yes, Mr. President.

Mr. President, Sir, I would like to thank all the Members who have supported this Bill sincerely before the House.

In a Bill of this kind dealing with five different types of punishments I would find it impossible if every Member had agreed with every particular provision in each of the five different matters dealt with. It is also necessary, to find, Mr. President, such a wide sweeping agreement that the Bill will come to nought and to make positive life in our society by making available to the courts a variety of methods whereby they can be dealt with.

However, Mr. President, I should like briefly to touch upon particular points raised by responsible Members opposite. The First Speaker, if my memory serves me correctly, Mr. President, was the Second Elected Member for Bonaire who seemed to believe that the Government was in a state of confusion because it adhered to the principle that the courts should be given discretion, and unfettered discretion in sentencing persons to terms of imprisonment but yet that they should not have unfettered discretion in relation to psychiatric examination, or that they should not have full discretion in relation to other matters.

HON. MICHAEL J. QUARMBY (CONTINUING): I think that a clear distinction should be drawn between the two items. We believe that the court, having regard to the particular facts of the case should have the discretion to impose such fine as it considers to be appropriate. However, I also think, Mr. President, that in relation to suspended sentences which are periodically suspended, that the court should have the advantage of the choice of the Legislature to, possibly be able to set out the types of circumstances and the manner in which fines are appropriate.

The Member I feel is on some ground as to the propriety of the remarks and I regret the misstatement which he made in his speech. He said that he was opposed to increase of sentence for non-payment of a fine because the judge, and I quote, "is in no better shape to decide". Mr. President, in the full knowledge before this House there is an express provision that where before he made the payment of a fine, additional, the court may issue a warrant for the levy of such fine or other sum. That is discretionary. It is not mandatory. The court may issue a warrant. There is quite ample provision in the rules of procedure in the Supreme Court for the court to be informed that where a court has power to issue a warrant it may, if it considers it expedient to do so, postpone the issue of the warrant until such time as on such conditions, if any, as it thinks just.

I think that the principle discretion that there should, if undertaken, either the Peace of Members that the other side who seem to believe that under Legislation should take place if on payment of a fine that a prescribed penalty would automatically be waived. The courts may postpone the issue until such time and on such conditions, if any, as it thinks just.

In relation to discretion exercised by a court where it has found a person guilty, it could that the issue of warranty may be postponed subject to certain conditions or that payment. The types of conditions which are most commonly used are a fine or imprisonment. Imprisonment is an action taken against the body of the prisoner. A fine is an action taken against the property of the prisoner. I think that it would be a defect of the distinction of the legislative actions which are taken by this Assembly and by the courts if it are not possible to allow effectively in our Law the carrying out of the deliberations of the court by making sure that the person's property is attached to pay the fine which the court has seen fit and due.

Another objection which was raised by the Honourable Member was in relation to warrantees. As for contravention to other Members thought that there would not be sufficient because he thought that "the person would only have to go to the judge who was previously disposed to him". Again, Mr. President, Sir, I regret the inference that there would be an ability to seek round for a particular judicial officer which one could that or suspect would have favourable to his purpose. I think that our courts are above having stone cast at them placed upon them.

Mr. President, the Second Member Honourable Sir George Tomy, when he commenced speaking on the Second Reading of this Bill said and only that sufficient time had not been given to the public for its comments upon it, and that it was his understanding that the Lawyers in the community had not been consulted, and that even my staff in the Legal Department had not been consulted in this regard. Mr. President, the measures in the Bill presently before us must before the Government-in-Council because the end of that year. At that time it was Government's and my wish that a consolidated legal should be introduced from the members of the Royal Fraternity. It at that time, I move both

HON. MICHAEL J. BRADLEY (CONSTITUENCY): So the Law Society as an official body and to another league not in the Law Society, ie the private sector, asking for their comments. I got a reply back from the Law Society saying that it had been passed for consideration to a committee of the Society. In April I asked for a progress report and was told that they had not been able to deal with the matter yet but they hoped to do so very shortly. No comments have in fact been received. I think, Mr. President, that when it is a Government Bill emanating the private sector, it is not unreasonable after an adequate space of time has elapsed to presume that the backers cannot have heard the mind of the particular association as greatly that it has not replied after five months. The other league in the private sector did reply; made several minor fundamental comments but basically said that from a lawyer's point of view that this was a matter of policy of Government, and if this was Government's policy then he had no objections as a lawyer to it.

In relation to my own Legal Department, apart from the members of the Law School there is a procedure administratively in my chambers that every professional member of staff sees or has the opportunity to see every piece of non-secret correspondence which goes out from those chambers. The drafting of all the stages is not a secret communication and there was an opportunity for members of my department, which I am sure they availed themselves of, to know the contents of this Bill in good time.

The Member also took me to task by saying that I was giving too far-reaching my duties or responsibilities when I said that certain procedures in this Bill would enable the offender to be given a short sharp lesson of imprisonment. I said that, Mr. President, and I mean that. I was emphasising what I considered one of the better points in this legislation, namely that instead of hamstringing the court having to decide whether it is imprisonment or to suspend the sentence of imprisonment completely, that it would in order to show the offender that it means business, to show the offender what prison was like, imprison them for a short period of time, so that having learnt that they would know effectively what would happen to them if the part of the sentence which was suspended had to be reinvoked.

So one was concerned about distress. We thought that there was unfair that the luxuries of life should be taken away from the criminal who offends against the society which he is part of. We thought it unfair that a person can blatantly disregard the laws of this land, can be convicted of an offence, can be sentenced to a term of imprisonment and should be able to ignore the courts and say, "Right I will go to Northward hotel but you are not going to touch my video or my satellite dish or my 125-bigatron going". I think that it is precisely for those people that these provisions are here. It is precisely to hit the criminal in the pocket. We may laugh; he may be a person to whom prison means nothing, but if the court says, "Right you have offended against society." You deserve to be punished not only in your person but in your pocket", that this is the way to do it.

Mr. President, Sir, I have no apologies for these provisions in this Bill. As I said, at Committee Stage there are several amendments which with the consent of the House I would propose to introduce. You know, Mr. President, there are not emphasis in Standing Orders any statements that there is a mandatory on the mover of the Bill or on the Government side to propose amendments. However, all Members of this Chamber have had these Bills with them for two weeks. They have been able to consider those Bills. Members are aware by the Hansard notice that might be more Committee Stage amendment to my Bill.

DR. SINGH: Mr. President, Sir, Members of this House have said, in so far as it be within my knowledge, even though according to one Member the drafting of this Bill is now ready to hon over soon and the amendments might do it better, even despite that, Mr. President, I am willing to help and assist any Members with the small amount of technical drafting experience which I am capable of. Members may not wish to use it. Members may wish to do their own amendments without my help or both of it. However, what I am saying, the Chief Whip Minister in this House do agree. Every Member can move a Committee stage amendment in fact, Mr. President, we have already had Committee stages of eight Bills and every one of the Committee stage amendments proposed by Members opposite have been accepted and passed.

I do agree that when we come to the Committee stage of this Bill and the Statute of Limits Bill and Limitation the Rehabilitation of Offenders Bill, Members may wish to make Committee stage amendments. I think that it's a matter fairly simply enough about any particular provisions. It is not enough for the Chief Secretary to announce in the Second Reading debate and then wait for other people to put amendments. If he feels that there is a specific point he should either draft an amendment himself or ask Government would they not be prepared to move an amendment.

Mr. President, Sir, Members have raised many, many different points in their wide ranging debate upon this Bill and I think that I have dealt with most of them. If there are any further particular points which Members are unsure or unhappy about or require clarification on, I think we've go through in Committee Stage that we should be able to deal with them.

May I just in closing and in connection this Bill do Members of this Honourable Assembly, remember what I said when I proposed the Second Reading, that what we as a Government are doing is, and this Bill is part of the exercise, to make the system of passing on criminal amendments in this jurisdiction sufficiently flexible, sufficiently wide ranging and sufficiently imaginative and innovative that instead of having an overcrowded prison with persons who are direct there and who are being taught bad example by others, we will have a wide range of sentences whereby the person who is fined, be imprisoned, be placed on probation, have sentences wholly or partially suspended, have community services made and have orders enforced by distress.

I think, Mr. President, that despite small doubts from one Member we have sufficient faith in our system of law and order and in our system of justice to ensure that courts and people in these jurisdictions have the flexibility in this and other legislation, that just cannot certainly every case and every purchase and every circumstance in which Grand Jury have knowledge having taken the view, will use in the appropriate manner.

Mr. President, Sir, I commend this Bill to the Members of this House.

MR. SPEAKER: The question before this House is that a Bill for a Law to amend the Penal Code be given a Second Reading.

QUESTION PUT: AYES AND NOES.

MR. W. HOSKINS HUGH: May we have a division, Mr. Speaker? May we have a division?

MR. PRESIDENT: Very well. I will ask the Clerk.

DIVISION
NO. 22

AYES	NOES
Hon. Horatio B. Boston	Mr. O. Roy Bodden
Hon. Michael J. Bradley	
Hon. Thomas C. Jefferson

MR. PRESIDENT: I declare the motion carried.

SINE DIE ADJOURNMENT

MR. PRESIDENT: Before inviting the Honourable First Official Member to move the adjournment, perhaps I should just make one point for the enlightenment of Members in view of the open invitation extended by the Honourable First Official Member to everyone who so wishes to move Committee Stage amendments, I would ask Members to be aware of the provisions of the provisions of Standing Order 30(2). Those provisions call for notice of Committee Stage amendments to be given two days in advance in writing, but do provide for me to give leave for the moving of amendments of which notice has not been given. I have been as flexible as I can be in giving such notice but it is in the interests of all Members of the House if any Committee Stage amendment could be reduced to writing so that it is available for circulation either at or immediately before the time it is moved. To try and draft verbally on one's feet is not the most convenient or the most efficacious of procedures.

The Honourable First Official Member.

ADJOURNMENT

HON. DENNIS M. MORRIS: Mr. President, I move the adjournment of this House until 10 o'clock tomorrow morning.

MR. PRESIDENT: The question is that this House do now adjourn until 10 o'clock tomorrow morning.

QUESTION PUT: AGREED. AT 12.30 P.M. THE HOUSE ADJOURNED UNTIL 10.00 A.M., TUESDAY, 28TH MAY, 1985.

RECORD HOLDING OF THE 2000 SESSION

THE ADDRESS OF GREECE (CONTINUED) 5TH, 1965 - SECOND SESSION	9
ADJOURNMENT	42

EVENING

DATE MAY, 1956

10.00 A.M.

MR. PRESIDENT: Please be seated.
Proceedings are resumed.
Item 1. Presentation of Papers and Reports.
Reports. The Honourable Finance Official Member.

PRESENTATION OF PAPERS AND REPORTS

FINANCIAL COMMITTEE REPORT

HON. DR. A. MUKERJI: Mr. President, I beg to lay on the table of this Honourable House the Report of the Finance Committee.

MR. PRESIDENT: So ordered.
Item 2. Questions. The Second Member for George Town.

QUESTIONS

THE SECOND SELECTED MEMBER FOR GEORGE TOWN (DR. A. K. DAS MUKHERJEE RIZVI): Sir, I ask the Honourable Minister for Education the following questions:

Q. 98: Would the Minister state whether the Local Administration is of opinion that Elementary Education should be compulsory as a priority way of any which we can expect to see work commenced on this feasibility within the next twelve months?

ANSWER: This particular issue will be given careful consideration by the Honourable Member of Executive Council before the Honourable Minister will be in a position to say whether such schemes can be included in our current five year educational plan. It is therefore planned that the services of the Committee for which we are to be discussed shortly will include a review of existing facilities as well as examining possible ways of extending provision. This exercise should enable us to make clearly determined the needs of our community which require to be financed through the Public Sector Plan or by other financial facility.

It is also necessary to take such an integrated approach in order to ensure there any additional local facilities commenced will be adequately financed within our financial legislation, and will themselves be utilised in the most possible manner.

Based on the foregoing it is clearly not possible at this stage to give an indication that work may be expected to commence on the approved school within the next twelve months.

SUPPLEMENTARIES:

MR. EDMOND A. PIERRE: Mr. President, a supplementary arising from the answer. In view of the increasing number of juveniles coming before the court, I wonder if the Member could have information regarding the number of Opportune Juveniles in approved schools in Jamaica at this point in time?

THE HONOURABLE E. SEAGA: The number, Mr. President, is unknown.

MR. EDMOND A. PIERRE: A further supplementary, Mr. President. I wonder if the Member could state whether he received any information regarding the maltreatment of juveniles in approved schools in Jamaica?

HON. EDWARD O. SEAGA: No, Mr. President.

MR. PRESIDENT: Sorry, the Third Elected Member for West Kay.

MR. DESMOND D. SWABY: Mr. President, I would like to ask the honourable Third Elected Member of Executive Council a supplementary. Could the Member be able to state whether or not there are visits by any officials from Social Services to approved schools in Jamaica, and if so how often?

HON. EDWARD O. SEAGA: Mr. President, to the best of my knowledge there is. I do not believe that it is on a scheduled basis. It has the attention of Social Services has indicated to me that she personally intends to visit these schools on the very near future to get first hand information.

MR. JOHN B. MALCOLM: Mr. President, I wonder if the Member could say whether the last visit to the schools is known?

HON. EDWARD O. SEAGA: I am not in a position to answer that, Mr. President. Mr. President, I have been told very late.

MR. JOSE G. MATALON: Mr. President, a further supplementary. Would the Member say whether we will intervene to get more regular visits to approved schools in Jamaica?

HON. EDWARD O. SEAGA: Mr. President, I think I stated earlier that the Director of Social Services would be visiting on the very near future, and based on her findings possibly a schedule of visitation could be set up.

MR. K. MARSEN PUSEY: Mr. President, some time ago Members of this House visited the prisons in Jamaica. I believe some delegation on other went. I wonder whether the same could happen with the approved schools in Jamaica?

HON. EDWARD O. SEAGA: Mr. President, I am not quite sure that the Member is getting after.

MR. PRESIDENT: I think that he was asking whether arrangements could be made for representatives of the House to visit approved schools in Jamaica. That was my understanding.

HON. EDWARD O. SEAGA: Well, Mr. President, I would say that would depend on whether the House felt that it was necessary, and whether it would be money well spent.

MR. GORDON O. PEARCE (CONTINUED): I as the Member, for example, responsible for Social Services should be prepared at the first instance to accept the reports given by the Director of Social Services. I personally give my undertaking that at the first opportunity when I get to Jamaica, I too will start those schools.

HON. K. HUNTLEY BROWN: Mr. President, I am not disputing any requirements or anybody's responsibility but I do feel that it would be good for Members of this House, at least a small explanation - I don't think I am not supposed to make a statement, sir, but I am just going to term it this a question by saying that the Member should look.....

MR. PRESIDENT: I do not think that you are learning at all.

HON. K. HUNTLEY BROWN: The Member should look this pleading or declaration and I would ask him if he can look....

MR. PRESIDENT: If you are saying will the Member look into this, that is alright.

HON. GORDON O. PEARCE: Mr. President, this can be discussed with Members, Sir.

MR. LINDSAY A. PIERSON: Mr. President, as a matter of clarification on asking supplementary questions. I think that the Standing Orders provide that a statement may be made with your permission, Sir, if such a statement would clearly what the question intends to seek; the information which the question intends to seek.

MR. PRESIDENT: Can you tell me the Standing Order which you are referring to?

MR. LINDSAY A. PIERSON: I am referring to Section 23(1)(a), Sir, which states that questions "shall not include the name of persons, or any statements of fact, unless they are necessary to render the question intelligible".

MR. PRESIDENT: What you are saying is whether that Standing Order entitles Members to make statements when they are asking supplementaries?

HON. LINDSAY A. PIERSON: What I am saying, Sir, is that we get the impression that statements cannot be made in this House during question time. However, under this Standing Order, with your .... permission, if the statement would make the question more intelligible, then there is nothing wrong with making the statement.

HON. PRESIDENT: I would not myself interpret Standing Order 23(1)(a) quite like that. My understanding of it is that it means that a question should not contain a statement unless the statement is necessary to render the question intelligible. That means that the statement must itself be an integral part of the question. One cannot make a long statement first and then at the end of it ask in a little question.

I can be liberal and flexible as I feel I properly can be in enabling Members to frame their supplementaries. However, unless the House wanted to amend Standing Orders to allow still greater flexibility, I do not really think that I should go any further than I now do. Indeed, I rather suspect that I go a little too far.

MR. RUDOLPH A. PIENAAR: Thank you, Mr. President. I just felt that in the light and the wording of Section 28(1)(a) that Members should know the difference which you have just explained there, because we have been led to believe, on the impression to them, an statements should be made. In fact, if the statement would seek to make a question more intelligible, and it is relevant to the question, then there is really nothing wrong in making the statement.

MR. PRESIDENT: I think you may have given a little bit further than my words were intended to, but I think we can leave it as that. Did the Third Elected Member for West Rand have a further supplementary?

MR. IMPENE I. GREEFF: Just to place it on record, Sir, that I think under Standing Order 28(1)(a) any such statement which the Second Elected Member for Cape Town is referring to would probably refer to the original question rather than supplementary questions, any such statement, even what your predecessor, would probably refer to the original question.

MR. PRESIDENT: I have taken it that that particular paragraph of Standing Order 28 would cover supplementaries as well as to the original question, and that the use of Standing Order 28 covers supplementaries as well as original questions, because there is not any other separate Standing Order which provides different rules in respect of supplementaries. Those Standing Order 28 applies to them there would not be any rules governing supplementaries. So I think that we can leave that Standing Order 28 does apply, but I would not like any Members to receive the impression that Standing Order 28 contains a kind of license to make statements in the guise of supplementaries.

Perhaps we can move on now to Item 8, in the Order Paper, Second Readings, the Mines of Dumps (Amendment) Bill, 1995.

GOVERNMENT NOTICES

BILLS

SECOND READING

THE MINES OF DUMPS (AMENDMENT) BILL, 1995

CLERK: THE MINES OF DUMPS (AMENDMENT) BILL, 1995

HON. BENSON O. BANDA: Mr. President, I beg to move, Sir, the Second Reading of a Bill shortly entitled the Mines of Dumps (Amendment) Bill, 1995.

Mr. President, this Bill seeks to make a number of amendments to the Mines of Dumps Law (Revised). Honourable Members will have received in addition to the Bill, notice of the Committee Stage amendments which are proposed to the Bill. In my observations on the Bill I will assume that the Committee Stage amendments will be incorporated into the Bill.

Clause 2 of the Bill, Mr. President, seeks to substitute an improved definition of the word "authorised", and also adds "dispositions" to the definition of hand dumps

MRS. RENSON O. SMITH (CONTINUING): Clause 2 seeks to paragraphs (a), (b), (d) and (e) to vary the present wording in this law. Paragraph (a) seeks to create the specific offence of possession with intent to supply, and paragraph (f) seeks to introduce those new subsections into Section 3 of the principal law in respect of defences and the burden of proof.

Clause 6, Mr. President, seeks to introduce a new section 24 to the principal law dealing with presumptions.

Clause 5 in paragraphs (a) to (d) seeks to delete references to minimum sentences, thereby giving some discretion of minimum as opposed to mandatory sentences. Mr. President, as far as I am concerned, this is the most important element of this Bill in that it puts the discretion for sentencing back into the hands of the court, where in my opinion and in the opinion of Government, it rightly belongs. We regard this Legislature as responsible for legislating the laws, and the courts for carrying them out. It does not in any way minimize Government's view of the seriousness of drug offences but on each case it can possibly different, it allows the court to decide in light of the circumstances what is a reasonable punishment.

Paragraphs (e) and (f) seek to clear up an anomaly by deleting an unnecessary reference. Paragraph (g) seeks to improve the wording of subsection (4) in the interests of clarity.

By Clause 8 provision is sought to be made in the circumstances thereby mentioned for the forfeiture of money or assets acquired due to, or as a result of an offence against the principal law. Mr. President, while this is a new concept in the scheme of these laws, that is the forfeiture of money or assets that it can be proved that that money or those assets have resulted by dealing in drugs, it is not an unheard of concept within the laws of the country. The Penal Code Law which we deal with presently makes similar provisions in respect of money or assets acquired under certain circumstances in that law. I would refer particularly to the abuse of office by public officials.

I think that this is reasonable, Mr. President, and there is a safeguard that if anyone else claims to be the owner of those assets, they can make a claim and prove the validity of their claim to the courts.

Clauses 9 and 10 of the Bill, Mr. President, again deal with the question of the removal of minimum sentences.

Clause 8 as originally printed would have repealed completely Section 22 of the principal Law, which, Mr. President, would have removed the discretion of trial by the certain circumstances. The amendment which has been circulated, if accepted, will restore this right in certain circumstances.

Clause 10, Mr. President, merely adds a section to state that the Law will not derogate from the provisions of the Rehabilitation of Offenders Bill, which it is hoped to have this Legislature later in this Meeting.

Clause 11 seeks to improve on the definition of "police", and Clause 12 seeks the substitution (a) to (i) in the wording of Part 2. of the Second Schedule of the principal Law. Paragraph (b) again seeks to delete from that part with reference to minimum sentences.

HON. EDWIN O. EBANKS (CONTINUED): There are some technical points in this Bill, Mr. President, particularly the offence which may be created under subsection (f) of section 7. However, I think that when the whole of subsection (f) is read, it will be seen that they are not an unreasonable condition.

The other section which might be of some concern, Mr. President, is Section 6. That is the presumption of possession and knowledge of controlled drugs". This is perhaps somewhat different from the normal criteria required in normal offences, but the offences relating to illicit drugs are considered in certain that it is unreasonably restricted that presumption have to be made in dealing with them. I do not see anything in this section, Mr. President, which is unreasonable when it is understood that one is just considering pure illicit, hard drugs.

With these few remarks, Mr. President, I commend this Bill to Honourable Senators for their favourable consideration.

HON. THOMPSON: The question before the House is that a Bill entitled a Bill for a Law to amend the Income Tax Ordinance, be given a Second Reading. The motion is open for debate.

The Second Elected Member for Georgetown.

DEBATE ON SECOND READING

HON. C. DAJO ADDAMS: Mr. President, I see the Bill before the House as a part of the fulfilment of the new Government of their campaign promises to put an end to crime in the Guyana Interior. In the recent election taken has been to encourage the drug trade. We have seen there attitude of guilty sympathy to the convicted. The Elections Act on the 31st October, 1968, there were about 82 people in our prisons, and that during the six months from November until the election took to about 120 at the time. It, Minute Tabled during the first six months of the new Government. I understand that the prison population has now declined and is much less than 120.

I feel we must finish with the mental of the minimum sentences but this country is paying a very high price to have these minimum sentences enacted if they accept the Private Bill. Now I know that what I am saying will not be received in the House because the press has been well treated by the new Government. The Managing Director of the newspaper and his Colleagues, Another newspaper are the most to the previous Government Press, and I do not expect that the press will be reporting fairly or accurately unless it can ultimately go through the Government.

This country is paying a heavy price if we accept this Bill because it seeks to change the responsibilities of Ministers in the Guyana Islands. Section 2 changes the onus of proof from the prosecution to the defence and this is contrary to the European Convention on Human Rights. I would like to read from the Banjulese Convention, Article 6, subsection (2), which says:-

> "Everyone charged with a criminal offence shall be presumed innocent until proved guilty according to law,"

Every criminal has the right to be presumed innocent until he is proved guilty according to law. What this section is doing is making every accused person guilty until he can prove his innocence, and this is a heavy price to pay for the removal of minimum sentences.

MR. G. FOX GRAHAM (CONSERVATIVE): In Clause 2 of the Bill we have tried to do the impossible in placing in the Law a provision known as Mr. Fox's Amendment:-

> "Without prejudice to any other provision of this Act -
>
> (a) where it is proved that a person received anything containing a contraceptive thing it should be presumed, until the contrary is proved, that such person knew that such thing was contained in such thing;"

Before this the Law said that the accused person could be innocent until the prosecution could prove his guilt. Now the onus of proof has been shifted. This is revolutionary stuff. I understand that this is the way that the Law is framed in all Communist countries. I understand that this system has been adopted from the Napoleonic Code as against the Anglo Saxon Law which we follow.

Also under subsection (b) it says:-

> "Where it is proved that a person had in his possession or custody or under his control anything containing a contraceptive drug, it should be presumed, until the contrary is proved, that such person was in possession of such drug;"

The danger of this Bill is that it is so easy to frame people. Every person in these Islands would be caught up under it.

Subsection (c) says:-

> "Where it is proved that a person supplied to any other person anything containing a contraceptive drug, it should be presumed, until the contrary is proved, that such person knew that such drug was contained in such thing."

Before Only the prosecution had to go to court and had to prove beyond a reasonable doubt that the accused person was guilty. With this new Bill, as I say certain the accused is guilty, the prosecution will have very little to do. The accused person is guilty. Some evidence on his behalf could then have to be. Give me a moment to see if I can find out why my colleagues in that Party thought that because he had been arrested and brought to court.

Subsection (d) says:-

> "Where it is proved that a person is in any way concerned,"

and I will be dealing at great length with the word "concerned" because that is a major change in this Law to ordinary practice. However, for short I will just read the-

> "Where it is proved that a person is in any way concerned in carrying, removing, harbouring, keeping, concealing, handling or dealing in any manner with anything containing a contraceptive drug, it should be presumed, until the contrary is proved, that such person knew that such drug was contained in such thing."

This is wrong. It should be up to the Crown Court, the duty of the prosecution to prove the guilt. Not the presumption that they are guilty. It is not necessary to prove the guilt.

Mr. G. Dale Smith (Chesterfield): Subsection (4), which by the same token such a serious matter should be the knowledge stock of the Legal Department, says:-

> "Where it is proved that a person had in his possession or custody or under his control any document of title relating to anything containing a controlled drug, it shall be presumed until the contrary is proved, that such person was in possession of such drug."

I wonder if the Legal Department understands what this subsection says. It plainly says that if one holds the title to any property in which drugs are found, the holder of the title is guilty. That means that if the Customs open a friend's car and declare it down the ramp, and want to impound drugs, the owner of the car is guilty because he holds the title of the property in which the prohibited drug was found. It also means that if one wants to make an investment in somebody, and after they have lived in it for three years the police come along and find drugs in it, it means that the holder of the title of that apartment is guilty under this Bill, because the holder of the title is the owner of the property and he holds the title. This Bill says that he is guilty.

If one possesses the habit of loading from a shipment of goods and the man packing that container is unlikely when the man subsequently puts containers, and goods are found in that container. The fact that one holds the title makes one automatically guilty. That is what the Bill says:-

> "Where it is proved that a person had in his possession or custody or under his control any document of title relating to anything containing a controlled drug,"

He is presumed to be guilty unless he can prove that he is not.

If I lend my car to someone how can I prove my innocence under this Bill. I would have to prove that I did not seem my own car for five years, or something like that to satisfy the court. Because I hold the title of sale from the car. If I lend it to a friend and the friend uses the car to transport drugs I would be automatically guilty because I hold the title. I do not think that this Bill would go through the Houses. One might as well go to Uganda where they simply take up a form and can be guilty. They either kill him or just lock him away where they do not hear from him. There is no doubt. If they go through a trial it is a mockery. This would make a mockery of our courts.

I have unwittingly yesterday because I contained something about the courts. My views are not on the courts. They are on our legal judgments and our Electoral System of Proportional Council. They are exempt to this House that Ulster should not come to a democratic decision, issue which should not come in a Colony of the United Kingdom. My point is with them.

If a clerk in a shop or a shop assistant sells drugs which are prohibited in the package under the Medicine, the owner of that shop would be guilty because he has the legal title to the property, or rather ownership of it. Although he could not know what his subordinates had done he would be guilty. This can never be right.

It also provides to cast an unbearable onus that not only the title document, but if one holds any other document or written or oriented matter relating to anything containing a controlled drug, it shall be presumed until the contrary is proved, that such person was in possession of such drug.

MR. [illegible] COMMON CONSCIENCE: One witness said, "If we destroy weapons for the Iraq we must first make the Iraq responsible". This is not a responsible bill. Another witness said that, if not enough public opinion can mobilize to be enforced". This bill has no public opinion on it. I don't think that within a couple of days when I showed how these bills had been kept out of the public's reach, and the requested copies were not handed to us until after the hearing started, when it was impossible for the public to see these bills.

We have an example, now I will [illegible] wishing which that be greater participation. Later on, when I came to the belated letter from the Chief Counsel which spoke to concern within municipal police, pointing which might belong many of the rights which the people of this country have enjoyed. They never knew that the Chief Counsel did not have time to write to the Government that way, "Amend this BILL", which after we got on the floor of the House. Yesterday morning that amendment was revealed to us. What would happen if we had dealt with this BILL on Thursday of last week because it was on the Order Paper, I believe? What would have happened? It would have gone without amendments. However, this will be the subject of another part of my debate.

Now, it seems that it is not enough to make a new policy. They also go on to take away the only defense which exists to anything in the Discipline Convention on Human Rights, because the same Article 5 which I read from, gives us the assertion that in any then ourselves already with a criminal offense was the following minimum rights. Amongst those rights is the right to defend himself in person or through legal assistance of his own choosing. I maintain that that right is taken away because he cannot defend himself when this BILL places the only defense he would have.

To Section 4(2) it says-

"The presumptions provided by this section,"

Now, remember what these are presumptions of guilt. The presumptions of guilt", as already read I mention.

"The presumptions provided by this section shall not -

(a) be rebutted by proof that a person never had physical possession of the prohibited item;"

Mr. Clerk if one can prove that he was off the Islands and had left the use with a friend for the one machine that he was using, then you would not allow him, because the defence, the right to defend himself which they had made his policy he must take away by this BILL.

"The presumptions provided by this section shall not -

(a) be rebutted by proof that a person never had physical possession of the prohibited item;"

I wonder what is going to happen to all those people who have been fined in a week-to-week? What is going to happen to every person in this country who owns a hotel room or an apartment, or even a private dwelling house? What is going to happen if somebody comes to some then a package through the mail and they get the little pills from the Post Office which are these pills because a lot of people in cancer research need.

MR. P. WISE (Subiaco) [10.22 p.m.]: This is serious business. I trust that they have time before talking about Aboriginals and booze, whatever that trite little slogan is. This is serious business and my God I never thought that I would live to see the day where I had to stand in this house and fight the destruction of the English system of jurisprudence which has made this country and its people substantially great. Are they going to have the courage to withdraw the Bill? We have yet to see just how much we have. We have it up to them to withdraw the amendments.

The media only alluded to Dick Kay and those that think they have come up with explosive amendments to this Bill, in proof that the Bill was dirty on Hasta, introduced by Hasta and brought forward precipitously before the committee period was complete.

Section 3 of this Bill would, but for a stroke of luck, have removed Section 25 from the Statute of Treason Act. Section 25 of the Statute of Treason Act makes available life imprisonment for those offences which would result in imprisonment of upwards of fifteen years, to be tried under our Criminal Procedure Code as a misdemeanour offence. Now, examine what is in the Criminal Procedure Code the misdemeanour offences are offences which can be tried by a jury in the Grand Court. There are three methods of trial. One is a summary trial before the magistrate. Another is trial by indictment in the Grand Court, and the special provisions in the Criminal Procedure Code and in Section 25 of the Statute of Treason Act would allow certain offences to be tried by jury rather than by the magistrate because of the gravity of the penalties.

This Bill which came in we would have hoped that trial by jury had not the Chief Justice managed to convince a lazy and sound Labor Government that by unnecessary that they do not be so foolish as to take away the rights of trial by jury. The submission said:

> "The effect of this is to remove the right of trial by jury, even though the maximum penalty may be thirty years."

This is acknowledged by the Chief Justice to be too high a jurisdiction for magistrate's court, something which I felt, and in fact long before yesterday I can reassure you that I had the wisdom to make a recommendation that we leave this decision as it is.

Why? Why should Aboriginal people wait for the Chief Justice to tell them that they should not take away the rights to trial by jury for grave offences in this country? I do not want to lecture them, and I do not want to be hypocritical, but the right to trial by jury is one of the fundamental rights of people who follow the British system. It is entrenched in the Magna Carta that a man has a right to be tried by his peers in serious criminal matters, and the all-knowing Executive Council are going to deprive the people of this country of the right to trial by jury for grave offences and it is not back for the quick action of the Chief Minister, who must be credited for having this step in mind when she planned privileges were going to have them away.

I was not surprised to see the reaction to the Bill, because I stood in this Chamber in 1975 or 1976 and fought the removal of the Coroner's jury from the Coroner's Act. However, as the Members who are doing the bidding of Executive Council were the Members of Executive Council back in the 1970s when they took out the Coroner's jury from the Coroner's Act. After the 1978 elections the Government of the day put back the use of the Coroner's jury into the Coroner's Act, and I do not mind one bobbing that the Coroner's jury is not a trial jury. It is a jury to decide if inquiries should be instigated. I know that. Nevertheless, the principle is the same.

MR. G. ELLIS MOORE (CONSERVATIVE): I believe that how they get away with wearing long hair from time to time, the next step would be to make it out of it from other ways. Communism is not something which comes upon one like a cyclical storm. It is not something which comes overnight. It is the philosophy many of the people there do have explained one by one; the seeking way of one democratic right by bit, as we have seen in the Bills brought here since November, like someone is chipping at the left under the general understanding and I hope that the time may the people will vote the Left as they do when not to see the Bills the next elections.

Under Section 3 I propose to move here and talk about the phrase "the communist" which has been used in the Act to replace the previous phraseology which existed in the old Act. Section 3(1) suggests that we should use words by subscription, the words "member or is concerned in any of such matters" for what was there before "appears or to do or like manner, promotes, solicits, encourages, aids, abets, permits or suffers any other person so to do". Why? Why was they change the previous phraseology of the Act and putting in words like "because or concerned in guilty"? Do they focus the whole application of the word to be? "Is concerned". If a child had been brought before the court would the parents not be concerned? Under this Bill the parents could be charged because they are concerned about the welfare of their children. We cannot use a vague word like "concerned" merely because we want to catch an unscrupulous employer who deliberately under this Bill.

I looked up in one small dictionary the meaning of the word to be, and I found out that the phraseology or the terminology "is concerned" had these many meanings, which could make anybody guilty if we thought that change in the Bill. "Is concerned", one would be anxious, disturbed, interested, engaged, publicly involved, involved, to one's business, to mingle, to be mixed, to have or influence, to do the business or affairs of a person, engage, occupy, and I imagine the man might have many other meanings as well.

There may circumstances and many magistrate which would not agree that one is guilty in a vague terminology "participation or concerned with the matter or guilty", because somebody, if it involves a husband or wife, the person should be guilty under it. Because they would have to be concerned with the matter.

Why were they changing a law which has been on the books a long time? The present Act, I think was written in the 1930s. It was revised some years ago, but mainly the first Minister of Labour which had any teeth in it was the Act written in the 1930s. It has worked well. There have been many convictions why can we change it, the philosophy in the Act matter?

We know that there are four kind on the world, the usual political diplomacy just dealing with the part which they have to be put forward, that of Turkey and the minimum sentences which nobody is disagreeable with anyone. But, what have it to do as I said yesterday and the day before, anyone control and connected to violence from so that we should accept impediment in the Bill.

This section on wrongful dismissal is an important section of the Bill, dealing with a serious offence, and to also put into other words. For example, apart from the exemptions in Section 2 of the principal Act to do also the Section 22(2) where they are substantially/reasonably in any employment for other words in the passage.

MR. G. MIKE AMOS [CONTINUING]: While some amendments of mine have been rejected. The Chairman was the Capital Improvements Act, in my opinion, simply with the wishes of the Chief Justice because they administered what he wanted to do by the amendment which they put through. And they put through an amendment simply to replace the section as would have been well and good. However, I have what members will notice the amendments before the House and see what has been done. They are changing the maximum from twenty years to fifteen, and some people may believe that they are getting a good deal. However, what is happening is that by reducing the maximum term handed to fifteen years, hopeful offenses can still be tried by the magistrate's courts. So they have appealed the good wishes of the Chief Justice. Apparently, the hardest hearted offenders who would have not twenty years to be tried by jury in the Grand Court, by indictment in the Grand Court, and....

MR. SPEAKER: Does the Member expect to be some considerable further time, or not?

MR. G. MIKE AMOS: Yes, Sir, but I would not mind finishing this period.

MR. SPEAKER: Alright.

MR. G. MIKE AMOS: So the amendment here in Clause 18 of the Bill deletes the numerals "20" and replaces them with the numerals "15" which is applicable to 15 years and 20 years. So, under the Misuse of Drugs Law a second offence of selling drugs will now carry a maximum sentence of 15 years rather than 20 years, and because it was a limit of 20 years, it can be tried in the magistrate's court, the very thing which the Chief Justice was trying to avoid, the trial of a serious, criminal offence by the magistrate's court.

Finally on this section I would say that we were interested yesterday that we should keep amendments if we do not like the Bill. However, I know the treatment of amendments will get. I am not belaboring any amendments further. I can master one, I mentioned two and maybe even three ones. So I am not going to keep up the view of the House with amendments. However, if amendments are brought to change the three sections I have dealt with so far, I would be obligated to support them, because I feel strongly that we should not change the presumption of guilt. We should not interfere with ... that by just one we should not put this vague terminology in the Bill which can catch up everybody.

Mr. Speaker, I would prefer if you have the break now.

MR. SPEAKER: Very well, I will suspend proceedings for approximately ten minutes.

AT 11.30 A.M. THE HOUSE SUSPENDED

MR. SPEAKER: Please be seated. Continuation of second reading debate. The second District Member from Region Four.

MR. G. ELLIS JONES: Mr. Speaker, Section 8 of the new Bill deals with forfeiture and I explained earlier I objected the Penal Code (Amendment) Bill yesterday that there would be a link between the Distress Warrants and the Misuse of Drugs (Amendment) Bill. That is why I hammered it so hard, not because I lack confidence in the personal officers of the courts, but simply because these officers will not live for ever and the way is open.

There has already been a forfeiture provision in the Misuse of Drugs Law. The new amendment seems to be much further than the forfeiture under the old Law. The section reads:-

> "(1) Subject to subsection (2) where a person is convicted of an offence against this Law, and the court by or before which he is convicted is satisfied that any moneys or any other thing relative to or have been acquired thereby or as a result of the offence, the court shall order that such moneys or other thing be forfeited to the Crown to deal with in such other manner as it may direct."

This section was brought widely the danger that other assets could easily be caught up in this forfeiture provisions, and of course again would probably be in violation of the Bacon Rights. So this section which is much broader, means the courts in principle, they can take any monies or any other thing related to or having been acquired thereby or as a result of the offence. The court shall order that such monies or other thing be forfeited to the Crown. To other words what is happening in this Law is that it has been broadened so that every person and everything can be caught up under it without any effort on the part of the prosecution to prove this thing. Without even a fair chance for the accused to defend himself because all of these rights have been restricted by one or more of the provisions of the Bill.

The removal of the ordinary safeguards will encourage the drug traffickers. I wonder what the Government is going to say later on this year when they face the United States and the United Kingdom to deal with the Extradition Agreement. Are they going to tell them that they are making the necessary laws or are they going to tell them that they have accepted the minimum sentences?

It was my understanding that during the original negotiations for the Extradition Agreement, that it was a foregone conclusion that this country would have the Misuse of Drugs Law. So, are they going to tell the diplomats during this year's Extradition Agreement that we have accepted the minimum penalties, and we have wisely reduced the maximum sentence for narcotic offences, one of them being reduced from twenty years to fifteen years?

MR. DE BRUYN ESSEBAGGER (CONTINUING): To sum up what I have just said, I am definitely against the presumption of guilt which has been brought into this Bill. I hope that it is true that the onus to prove can be used in some ways and can be very useful, perhaps in proving whether a person committed certain acts. However, certainly it is not useful when the presumption of guilt takes away the inherent rights of a person who is brought before the courts in this manner in which this Bill will do.

Therefore, I think that it is necessary for the Government to withdraw this Bill and bring back a Bill which deals with minimum sentences. This is what they campaigned upon. It is one of them in their campaign said the politics that they were going to change the onus of proof and make a man guilty simply because he was accepted as the Chief Executive. Not one of them complained on humanity like rights to trials by juries from this time. So, if they have given a big ambition in carrying out their campaign promises in the Manner of Dwight Eme, they should withdraw this Bill and do what they promised to do without trampling underfoot of human beings to be treated in consonance with Article 6(2) of the European Convention on Human Rights.

Whether Members realise it or not, we are a part of that Convention. The Convention was signed on the 4th November, 1950, and came into force on the 3rd September, 1953. The United Kingdom was one of the original signatories to this Convention. Before that time it has been extended to include all of the Colonies. So, we are a part of it and the United Kingdom is a part of it. This Bill would be in direct violation of Article 6. It is an impossible that I would like to read it again the Standing-

> "Everyone charged with a criminal offence shall be presumed innocent until proved guilty according to law."

This is a serious matter. As busy as the Government has been since December, it is really the first time that we have come up against this. Obviously, it shows how corrupt people are because when they know that they have the necessary to get through whatever they bring to the House. To think how the times appear that we do find ourselves and this is the issue where the freedoms which we began with almost 1,000 years ago will disappear if the Government is allowed to get away with it this time.

Sir, I am calling on them, simply that in the interests of humanity, those children and their grandchildren to whatever this Bill which is necessary to the worse Nights Ordinance; contrary to English jurisprudence; contrary to the views of the people of the United Nations.

Thank you.

MR. PRESIDENT: Does any other Member wish to speak? The Second Elected Member for West Bay.

MR. W. HEATHER BUSH: Mr. President, I rise to support certain provisions of this Bill to amend the Misuse of Drugs Law (Revised).

Mr. President, I will not pretend, Sir, to understand all of the legal jargon of this Bill. However, Sir, I believe that I am fair in saying that Clause 7 and 8 will be affect circumstances something which I personally my people I would say to accomplish. That is, Mr. President, but note observation in the hands of the judge when dealing with offences under the Misuse of Drugs Law relating to the possession of drugs in which is obviously intended for personal use.

Mr. [illegible] Mr. President, this, in my opinion has been the problem over the years, one of the problems over the years with the House of Representatives. There has been a misunderstanding between peacemaking for safe and peaceable society for self-protection. Sir, a man who has been tempted to experiment with drugs by having a couple of pills given to him by someone who he would be guilty of an offense or serious as a person who sells about to overcome and taking the lives of other people by selling them drugs. Now, Sir, I can well imagine that it is difficult sometimes to make a distinction, but we in this honorable House who were elected to represent the people to look after the interests of the people to see that justice is done, we must encourage in this bill the courts to make such a distinction.

[illegible] in some cases it is obviously plain that the possession is all there. In other cases I think it is not so easy. However, as I say, it must try to make a distinction. Mr. President, when I have brought some of these very serious sentences, and I am very happy to find that the people seem to be of the same opinion. I hope we should that the Honorable Attorney-General himself must have come to the same conclusion that there should be a second look at the laws dealing with mandatory sentences.

I believe that there are some instances when these laws were passed. Because of that, Sir, I know that the time has come when they should be scrutinized. I have spent [illegible] time to time of the judge himself making comments on the inability to impose such as he would like to impose them. I have seen so many instances of our young people coming before the courts, and whereas the judge would like to treat the matter in a different light, he has always found himself helpless. Unable to act accordingly to the circumstances. One thing I do know, and that is that there are those young people in our University, who if they had been given the opportunity, might have been rehabilitated in our first instance. That is why I say that there are those who cannot be rehabilitated. However, there are, I think, many persons in prison here because more humane sentences than anything else. The people in that there is rehabilitation. We find as many of these persons going back and never being rehabilitated at all.

Mr. President, I have made a before and I repeat, the effect of the enjoyment of people is not the same being committed in this society of ours. Mr. President, I am speaking to this House which will be assured in the assistance of this country, and I am not saying anything in this honorable House which I did not tell my people. Mr. President, I see it as an overwhelming majority. The people were disenfranchised by this type of imprisonment and this honorable House in order the rights that when we are speaking this law here today. We are pleading that we have some sought consideration. My fair young people for years when we fail to punish in these years for speaking such as hard from a home. Now fear in this, Mr. President that some of society in its face for. But we not dictate ourselves. As I said before, the use of guns in this country is big, and I am [illegible] especially to guns because the persons are looked upon with young people who were just there for the use of a celebrity gangs. The judge only see them there once a week and they like that to come and they have to go to jail.

The use of guns in this country towards [illegible] and I say this, Mr. President, and I mean it. We in this House had better have experience of that fact because as it is fact. Just we not obtain information. Each one of us have two children. Mine, see, are only five years old and eight years old. However, I am certain that there are many in the House tonight and those are the ones which worry me;

MR. W. ROBSON DUFF (CONSERVATIVE): Not by con, Mr. President, I am sorry that, but what of those poor parents who have struggled to bring their children to the age, when they reach the teenage, whether they cannot control them. These are the ones, Mr. President, which I am concerned with here. So in this House must better take cognizance of that fact. Let us not ignore circumstance. Many, many parents have not helped our education and we in this Honourable House can bring the right knowledge we are giving away with them.

Mr. President, I believe that the people of the Caribbean and the whole Commonwealth as well are all aware of my stand on hard drugs. They significantly, in my opinion, is one of the most serious problems that we are faced with in society today. However, they addiction, Mr. President, on the other hand is a disease, a serious sickness and should be treated as such. This Member said that the Government must treat it severely whether it should be treated as a sickness or criminal or whatever. But one cannot still mention that we have fundamentally diseases present. Mr. President, if it is a complaint please or if it is a fulfillment of a campaign pledge, I am happy because I promised to my people during this campaign that again to attempt to have our laws amended or modified to maintain their price that we would go along with necessary amendments.

So, as I said, just that they amended my the first time I am the bill on the first time I heard about it was when we got the white paper, but I am delighted that with that consultation terms that are doing the right thing.

I am very glad, Mr. President, trying to cover briefly what is a serious problem in this country. However, I do believe that the simplest we can with these things the more likely the average person on the streets will be able to understand what is involved in them.

Mr. President, I might as homestead for this but I do have one explanation for the amendment to Clause 6 which we got to Committee stage. I know that the practice now been before to allow amendments in Committee stage by some and not the matter from which I am now hearing about. I would like to see the justice of the courts jurisdiction which are properly of a restricted drug trafficker that is forfeited to the Crown to be used in a drug rehabilitation programme, whether or not properly including cash was or could have been acquired by the offence which is the subject of the conviction. If it can be proved that they acquired their benefits from the sale of drugs to our children, then it is to be used to put our people back on the right track again. As I said, this should be particularly so in cases where the convicts commit quite a legitimate source of income. If our society is going to suffer from these atrocities, at least them let us put back into society some of what they took.

Mr. President, as I said in the beginning, I do not support the entire bill. There are some things here which I do not like and which need to be carefully looked at. With regard to "Presumptions of possession and knowledge of prohibited drugs", Mr. President, I am looking forward to hearing from the Government Bench on the legal view on the Government Bench what the situation is with them. However, as first looking at it, Mr. President, I propose support it. I must say that this is a marvelous, supreme exercise of the will Mr. President, of any country who Government until they are removed by the wishes of the land to be guilty. While I do not agree with everything around from the mouth of the learned Attorney for Golden Vale, he does have one point here, Mr. President, so that to that this section of the Bill is dead in many respects.

MR. M. MARIETA DUCH (CONTINUING): However, Mr. President, we must ... speed for application's sake, just for the sake of being in operation. We still had more bad sessions but, Mr. President, the principle law itself was a contradictory law because it gave the Government permission to seize from a person's home without a warrant. The Second Elected Member for Belize West and a Government Member in 1968 when the principle law was enacted.

MR. E. RITA DOUGLAS: Mr. President, I want to make an explanation at the end because....

MR. F. MARIANO SHOU: Sir, Mr. President,....

MR. E. RITA DOUGLAS: ....that section can put us into jail in the meantime,

MR. M. MARIETA DUCH: Sir, Mr. President, he can make his explanation next. I give way.

MR. E. RITA DOUGLAS: Mr. President, the reason the number of responsible is for the misuse of power in the section which allows the police to break into and enter a person's property without a warrant. This was put into the Law in the meantime since a different Government was in power. It was between 1971 and 1974. It was not in by a Government of which I was a part.

MR. M. MARIETA DUCH: Mr. President, this law which I hold now in my hand, Law 14 of 1962, the Misuse of Drugs Law (Revised) Law, I more or less the administration of the previous Government. The former Hon. Minister, the Second Elected Member for Belize West and then the Honourable Fourth Elected Member of Executive Council. If I can be interrupted about what people do until I have that memory that contemptible practice which gave the police power to come into a person's home without a warrant. It is still not clear why the 1962 to 1974 Government did it, they were displaced in 1974 possibly because of that kind of Law. The Member's Government was possibly displaced, Mr. President, because they only further compounded the problem. We had a part of the Government of 1962 that did not do this only to the people. However, I am still not on Section 6, but we must not digress here, Mr. President, and say that this contemptible is now encouraging crime. If we look at the circumstances in this country from 1974 to 1984 we will see, Mr. President, that our young people are in those prisons simply because a Government was elected in 1974 which, Mr. President, did nothing to help our young people except to send them down the drain.

Mr. President, it was part of my campaign promises to help our young people and I am not ashamed of that. I am not encouraging crime. I would request Sir to let us be more responsible and we must not oppose for the sake of opposition. When I propose Law Governments which I have my rights to oppose, and it was built fourteen on this Law.

Mr. President, I realise I am the Leader of the Government. I would say the only other Government in the Caribbean that has more ready people of power. We must be constantly alert that to help them. Sanctions must be compared with money.

Mr. President, in taking away the powers of the courts, dealing only with a piece, let us look back on history and see what the former Government tried to do with the use to remove the Judges Law, Law 14 of 1975 which was unjustice: in November, 1982.

MR. P. MORRIS GUSS (CONTINUED): Mr. President, what did they do? It was ridiculous. It ought to take away the powers of the court and the Member was a Member of Executive Council, the leading Government body in the country. However, I am glad he is here to listen to. I agree with him that he must not do things like this irresponsible people which may cost the Government in additional costs. I cannot see that. There are things come here which I do not agree with and on time as I am here I will vote, Mr. President, according to my conscience. However, I have to tell the truth about that when the time comes.

Sight now, Mr. President, some of this will have to be withdrawn, redrafted or whatever. I am waiting to hear what the Honourable Second Official Member will say. However further of the evening will be had. Why Mr. President, I am saying that I am not talking anyone's position here, but if anyone could send the Queen's representative to this country a package they could send me a package bowled with dope. I would know nothing about it but I would have to suffer the shame of going to court proving that I was innocent. Mr. President, this is very serious and I do not know whether the draftsman for this country were already or whether they were idle-minded, Mr. President, but it is for serious consideration here. It is just simplicity.

I am wondering, Mr. President, whether it was not set up for the Opposition to speak on this Bill, Mr. President, certain sections of this Bill have my support and I want to make it clear that not because let's go ahead a Government who did not promise or mention about the police power to arise. Our language here was a man's home is his castle. This is much some how and do the same thing all over again. I must say, Mr. President, that it is not good. Where are the human rights in this country?

When I am debating now, Mr. President, and I know that you will soon stop me. I want to have some good explanation, Mr. President, and I must ask the Government bench that they either withdraw this thing or it should be revised here was not so that we may see to this thing. I am a simple boy. I am a known man and a big one, a heavy one, and I want to see justice done, but justice all around.

Thank you very much, Mr. President.

MR. SPEAKER: Does any other Member wish to speak? No, the Honourable Second Official Member I think perhaps caught my eye first.

MR. MICHAEL A. BENJAMIN: Mr. President, Sir, this Bill before this Honourable House relates to amendments of the Rights of Dogs Ordinance. Mr. President, it was brought to attention since the Bill had not been presented by me, to Members of the House, to deal with the Committee Stage and then if anybody to withdraw meanings of the provisions contained therein if they that there had been any wrong assumptions made with them. However, Mr. President, I realize that it is my duty to speak here and it is my responsibility to speak, because, Mr. President, words are going out from this Chamber, which require subsequent scrutiny by the Second Elected Member for Golden Rock, but words which convey expectations; which convey responses to this Bill which are inaccurately reported from the extract, the meaning, the purpose of the amendments of it.

SEN. MICHAEL J. MANSFIELD (CONTINUING): Mr. President, if the people outside the Senate were listening to it they may be led astray, as one might expect following the appearance of the Soviet Premier for Soviet Jews is, I am afraid, being led astray by it.

There is no great merit in this bill, and it is designed to improve our country, not to create a commercial state. The purposes of this bill, Mr. President, are to modernize our laws to bring it into line with other countries; to improve it, not to make people guilty unnecessarily. Mr. President, it is for that reason that I got up on to my feet now to speak briefly, and I make certain about the evidence and the representations which have taken place in this bill, Sir. I hope that I will be able to do it so that I will be able to assure Members of the Senate that there is nothing here which they ought to afraid to give with a clear conscience.

The first section which the house can address itself to, Mr. President, was a provision which sought to amend Section 2 of the subsection 2 of the end of subsection "E" of it. Now, Mr. President, our subsection has at the moment said:-

"2.-(1) Section without -

(a) lawful authority; or
(b) being authorised to that behalf,"

Then a number of things go back:-

"any explosive thing, pipe, element or thing used in the preparation or construction of any explosive thing, or who interferes or offers so to do on the ground, premises, building, enclosure, chest, trunks or anything any other person so to do in policy of the offence."

The President considered in this part could be put over the house, "or offers so to do on the ground, premises, building, enclosure, chest, trunk, pound or anything any other person so to do in part of the offence", and it was in there to the place the whether, whether that clause would "contain or be considered in any of such instance", as that it would imply:-

"or whatever attempts or offers so to do or who conceals or is concerned in any of such matters in policy of the offence."

This section encountered was considered and we have said that there might be type of provisions which permitted those charging that there were the type of provisions which could never ever have been permitted by the Senate already by the legislature of the United Kingdom.

Mr. President, Sir, let me read to you Section 2(2) and (3) of the United Kingdom Prevention of Terror Act, 1974, Subsection (2) provides:-

"Subject to Section 22 of this act it is an offence for a person to be concerned in the production of such a thing in contravention of that subsection by another."

Subsection (3), Mr. President:-

"Subject to Section 22 of this act it is an offence for a person to be concerned in the providing of such a thing in contravention of that subsection.

MR. MICHAEL J. WOULFE (CONTINUED):

> Subject to Section 28 of this Act it is an offence for a person to be concerned in the working to another the provisions of this subsection as apply to such a thing."

There, Mr. President, Sir, in the legislation of this country in this Act of Oireachtas the phrase which we are seeking to introduce once more has been used not once, not twice, but three times. That was passed sometime prior to 1973. I, Mr. President, feel that the Seanad is a mirror of this House when the original debate of Bunreacht na hEireann was passed here in 1937. If I had been I would have said at that time that we should more appropriately have followed the words of the Northern legislation. We did not do so then. We are seeking to do so now, I, Mr. President, for a purpose placed in the United Kingdom there would have been embarrassment and confusion in their Houses of Parliament, when I think back to the appropriateness and emphasis that it should use the same words, and use the same punctuation.

I will not attempt to agree with the points in this Bill, with the amendments which are sought to be made to it. I will not attempt to answer the possible questions of whether constitutionally minimum sentences should operate or not. What I will attempt to do hopefully, Mr. President, is this: where appears to be anomalies or misapprehensions which may exist in the mind of the public by reason of this speech which was previously made and which I have mentioned.

Mr. President, I am sure you are well aware that the proposed new Clause 6A, the marginal note of which reads, "Presumption of possession and knowledge of controlled drugs". Let me read it out to you so that nobody is under any misapprehension as to what is being said here; so that nobody is under any misapprehension that a person is being deemed to be guilty until he proves himself innocent. Mr. President, it says:-

> "6A. (1) Without prejudice to any other provision of this Act -

(a) where it is proved that a person imported anything contrary to section 3 of this Act it shall be presumed, until the contrary is proved, that such person knew that such thing was contrary to such thing.

(b) where it is proved that a person had in his possession or custody or under his control anything contrary to section 3 of this Act, it shall be presumed, until the contrary is proved, that such person was in possession of such thing;

(c) where it is proved that a person supplied to any other person anything contrary to section 3 of this Act, it shall be presumed, until the contrary is proved, that such first-mentioned person knew that such thing was contrary to such thing;

(d) where it is proved that a person did or in any way concerned in carrying, removing, harbouring, keeping, concealing, loading or delivering or in any manner with anything contrary to section 3 of this Act it shall be presumed until the contrary is proved, that such person knew that such thing was contrary to such thing.

MR. HUGHES: [CONTINUED]:

(c) there is to be proved that a person had in his possession or custody or under his control any document or right pertaining to anything containing a prohibited drug or any other document or thing or physical matter relating to anything containing a prohibited drug, it shall be presumed until the contrary is proved, that such person had the possession of such drug."

Mr. President, that is the first subsection. A Member has invited me to read subsection (2) and I shall be pleased to do so.

(2) The presumptions provided by this section shall not -

(a) be rebutted by proof that a person knew his physical possession of the prohibited drug;

(b) be construed as applying the presumption to prove any fact which, by virtue of any other provisions of this Act, it does not have to prove."

In each of these provisions, Mr. President, Sir, the onus is on the prosecution, in prosecuting the case. It is open for the person charged or his possession or custody or control of prohibited drugs, then the presumption applies which is that a person had knowledge of what he had in his possession or custody or control of the drugs. Then, Mr. President, in a charge in the prosecution after a burden of proof has been discharged by the prosecution and deals with the case where I have a container in my possession, where I have a substance in my possession and it is to be proved that I had it; that I was found with it; that it was important to me that it was in my possession, and it is to enable the Bar to give an, that I cannot them answer, using my hands on the air and say, "Oh, I did not know that. It was there". The presumption is to prove it is only that I had it in my possession, with knowledge, but what I knew exactly what was in the container.

It is because of this, Mr. President, that this clause is to presumption is here, and is here. Members have mentioned also the question of having a statement of this or those certain documents. Mr. President, let me deal with that in a moment when I mention that this is not an exceptional qualification. We have only to the Cayman Islands. Overwhelming very similar to this and consequent to legislation of other Dependent Territories which, Mr. President, have legislation which like our legislation has to be assented to by Her Majesty's representative and which, like our legislation can be disallowed by the United Kingdom Government if it feels to any way that such legislation should not become part of the law of that Dependent Territory.

Perhaps, Mr. President, the subscription I would have been made clearer if we had spoken only, and if Members think I will do so and propose to the Committee stage, a rather jejune clause, which on further consideration might-

MON. RICHARD J. HUGHES (CONTINUING):

"Where it is proved that a person had in his possession or custody or under his control, any stolen document or printed matter including a book warrant, a warehouse warrant or order, a luggage receipt, a luggage claim relating to anything constituting a controlled drug."

There are cases which happen in this jurisdiction where, Mr. President, people are found entering the country at airports. There is suspicion that they are concerned with the importation of controlled drugs. They are searched. They are found with baggage tags in their possession. If a luggage tag is found in the person's possession, then under this presumption, the person having been found with this document relating to the bag which has yet to be a controlled drug shall have the burden of proof adduced on him i.e. that he will say here that the drugs were there.

I consider, Mr. President, that this presumption which is contained in legislation in other jurisdictions, other Dependent Territories and which have not come as a surprise to the judiciary of this country because the matter was discussed with them by me, and there is approval for such a presumption going in because it is known that in the circumstances of this country such a provision, which is contained in other legislation in other places, is equally necessary.

Mr. President, another matter which was spoken about with the proposed new Section 31A which provides for forfeiture of convicted assets, Mr. President, the provisions regarding forfeiture which have heretofore contained in our legislation, related primarily to the forfeiture of any vessel upon and after the commission with a drug offence. However, all over the world it is realised that we must seek to disadvantage drug trafficking by making the trafficking unprofitable. In this respect, Mr. President, Sir, we are seeking to do this by going on to say that where a person is convicted of an offence, and the court is satisfied that any money or other things which have been obtained due or as a result of the offence, the court will order that such money or other things be forfeited to the state. In that connection, Mr. President, perhaps it might be relevant to say that we are aware of the matter recently, because the matter recently is attempting to bring in legislation to this effect, an amendment to their Control of Misuse of Drugs Law.

If I may, Mr. President, quote just a speech made by the United Kingdom's Home Secretary in December, 1987 to the London Diplomatic Association. In this speech he considered the whole problem of tackling drug abuse. He said that he was studying the report of a Committee which is considering general questions of forfeiture and confiscation, and that he will shortly introduce legislation having the help of the United Kingdom Parliament to provide for the confiscation of the proceeds of crime. This, Mr. President, is what this Clause 9 which seeks a new Section 31A seeks to do. However, even in what seeking to confiscate the profits made out of narcotics crimes contains a safeguard. However this safeguard is contained in subsection (3) that:-

"The court shall not order any person to pay amounts or to be forfeited as under subsection (1) where a person claiming to be the owner of or otherwise interested therein applies to be heard and can be heard by the court."

LORD HOWARD OF PENRITH (CONSERVATIVE): The United Kingdom does not in relation to these narcotics offences work of these powers which we are seeking in the Criminal Conventions Act of 1967 of the United Kingdom. There is no section dependent Territory, in this case Gibraltar, in their 1972 Misuse of Drugs Law, a similar provision. Lastly, Mr. President, this forfeiture is not something which the Crown Colonies is seeking to do without any basis. It is part of a worldwide concept which is particularly applicable in the United States where there are widespread and successful powers of forfeiture of the illegal proceeds and the illegal profits of narcotics offences.

Mr. President, one further matter was raised and explained about by the Honourable Second Elected Member for Middle Town. That was the fact that Gibraltar is also seeking to remove Section 23 of the principal Law, that was now a Constitutional Rights amendment which was legislated under my predecessor, who is seeking to put in a provision giving the rights of trial in certain cases.

May I, Mr. President, say and bring Honourable Members through the history of this particular clause, why we do have necessity to amend it, or repeal it or abolish it now. Mr. President, an amendment made in the early eighties to our Misuse of Drugs Law put in Section 23 of the Law as it presently is. That Section 23 now reads:-

> "Notwithstanding the provisions of any other section, where a person is charged with any offence inclusive to this Law and such person is liable upon conviction to be sentenced to a term of imprisonment exceeding fifteen years such offence shall be deemed for the purposes of determining the mode of trial, a category B offence in accordance with section 2 of the Criminal Procedure Code."

Now I explain to Honourable Members that a category B offence is an offence which can be tried either summarily, or here Gibraltar, a category B offence means that within the provisions of the Criminal Code the accused person has the right to ask for the jury trial. However, Mr. President, there are grave difficulties which that section is going put in the Law unamended, because as the Law, Mr. President, where are certain maximum penalties mentioned in the Schedule in respect of amount or subsequent convictions where the maximum is more than the fifteen years. This, Mr. President, is not a great difficulty because if, for example, the magistrate is about to try a person for the offence of possessing more than two ounces of a hard drug, how is he to know before he begins the trial whether he has jurisdiction as a matter of course because it is a first offence, or whether it is a category B offence where there is an option to elect for jury trial by reason of the fact that if the accused is convicted, it will be a second or subsequent conviction.

We have a principle in our Law and in the British system that the judge or the jury that hears which hearing and trying an offence, should not have any knowledge as to whether it is second. The accused has any previous convictions, because such knowledge beforehand could or would prejudice the court or the jury against that person.

If the person were charged as a second offender because of the fact that the penalties which could be imposed were more than fifteen years, then it would belong to the motive of the magistrate or to the court, to the judge and jury, the terrible knowledge which is undesirable.

MR. MICHAEL J. MYERS (CONTINUING): On the other hand, if it were not brought to the notice of the magistrate and he proceeded with the trial and acquittal, and then it turned out that it was a case of subsequent conviction, then there would be great doubt as to whether or not that trial had been a proper trial, because the person could never stand to go for trial by jury.

It was because the specialist, Sir, of those technical and procedural difficulties that it was thought, following representations from the judiciary, that the simplest method of dealing with this exceptional procedural problem was to make all offences contained in the Schedule of Serge Law triable only by the magistrate which, Mr. President, was the position from 1975 until 1988 when this amendment and this new Section 25 was brought into the law. It was from that purpose that this Bill originally sought to remove that subject matter.

However, on reflection and after consultation I, Mr. President, circulated to Members this the contents of my colleagues which I propose to move in this place. That is, Mr. President, Sir, in the case of an offence of burglary or aggravated where the penalty for a second or subsequent conviction could be a maximum of twenty years, to change that to the level of fifteen years and make it a summary trial. But for the other more serious offences of aerial, dwelling, threatening, especially dangerous weapon found there, that neither that reduce the maximum penalties for second or subsequent convictions, to extend to persons charged with those offences even though that are first offences and previously had not the rights to jury trial, such a right. So that in all cases that a person was charged with the offence in relation to hard drugs of selling or dealing or distributing, the problem, that they should have the right to elect trial by jury if they so wish.

It was for that reason, Mr. President, that I sought to make this Committee Stage amendment. But, Mr. President, there have been several other points mentioned by the Members, and as a number of Members still wish to speak, no doubt there will be more matters raised. As I said, Mr. President, I had not intended to speak before the Committee Stage, but I thought that it was my duty to do so; my duty to ensure that each and every one of the principles which were being attacked so vigorously, were not designed to turn us into a commercial nicety; were not designed to make everybody guilty, but were carefully thought out amendments, which were made not unlawfully here but on the basis of comparison with the legislation of other jurisdictions. They were made on the basis of recommendations and consultations from the previous Justice which such reasonable offences to the extreme, and were matters which the other Members to either Bodies, seek to create fairness and equity not only to the accused, but to the society and the cause of the society in which the accused is discharging.

Mr. President, Sir, I am quite happy to discuss with Members at Committee Stage the improvements which they can see to the provisions of this Bill. Once I have attempted to do in relation to certain parts of it so to explain why they were there and the good which they will serve.

Mr. President, Sir, thank you.

SIR EDGAR TONER: I will now suspend proceedings until 8.30 p.m.

AT 10.40 P.M. THE HOUSE SUSPENDED

HON. SECRETARY: Please be seated.
Proceedings are resumed.
The Second Reading debate on S.211 to amend the Statute of Kings Lodge (Amended). The Right Honourable Member for West Ryde.

HON. EMERITUS L. GORTON: Thank you, Mr. President. I rise, Sir, in support of the Bill for a Law to amend the Statute of Kings Lodge (Amended).

There were not too many in this place possibly bothered or embarrassed when the Honourable Second Opposition Member, I really was able to get into the rights of the subject. However, before I get any further I would like to assure the Honourable Members of Government-Whose I do not question whose ability, whose integrity, nor whose honesty, nor whose concerns regarding any Bill which is brought before this House. Although at no time is any Minister to mislead anyone. However, I must remark the Members that I would never wish have to believe that any of the Government Bills would barely a Bill in this House which was not intended to be for the good of our people. I would like them to know that as far as I am concerned, in this country today there may be some who are politically as culpable as the Honourable Members. However, not being a lawyer myself, rather than hear this Bill there I would seek further information from those who are legal experts. I am not a legal expert but it would seem to me that the overall scrutiny which the country requires of a politician, for instance Section 8, I mentioned this or four that one is a number of times and one can possibly get what he wants.

It was only evident that it might be a defence for an accused person to prove, standing, otherwise but in the last two times there we have one where it is stated, which it is necessary for the prosecution to prove if he is to be convicted. Also, unless he is convicted there is absolutely nothing which apparently should cause any question on that particular subsection.

Then in Section 6.(1)(c) we see that saving time there it is preceded by the words "Where it is proved", now it is the case saying that this person is going to court, they are have to prove something or to prove that he is not guilty unless some had been proved against him for whatever matter. It says here, "Where it is proved that a person unpaid anything constituting a controlled drug", that particular aspect of it had been proved. For the contrary would be proved to prove that like proceeds can apply saying the penalty as stated under the Law.

Now it goes on, and in subsection (5) it is preceded by the words "Where it is proved". Subsections (a) and (c) all say, "which the contrary is proved".

Now we go to Section 6. 1AA. It says-

"Subject to subsection (2) where a person is convicted of an offence under this Law, and the court is or before which he is convicted is satisfied..."

MR. SEARS of GREAT (CONTINUED): Now, they have not acted like some grown thing on the part of a person going up and breaking the glass of the door, and simply saying, 'Well, I should be able to get out as quickly'. It says, 'Before which he is convicted or satisfied', the court be satisfied, simply.

Then it says here that although the court can take any notice or anything relating to or connected due to or on a result of that offence, it shall apply such notice or other thing to be forfeited to the Crown or dealt with in such manner as it may direct. Again I do not think that we know why. Firstly-eighth Schedule on the bench of the court. I feel that any learned judge should look at both sides of the story.

Now, "unless a person claiming to be the owner of or otherwise interested thereon applies to be heard by the court within fourteen days of the conviction, unless an opportunity has been given to him to show cause why the order should not be made"; that particular section about taking people to property, it would seem here that if the owner can prove that he is in no way connected with the crime, then this section permits the court to look at this in a completely different light. The owner of the vessel or the car or whatever it might be can claim his property. It seems that is what I understand it to be.

Now, Mr. Speaker, the Bill I like this Bill in principle for years I have been concerned that the people who really get caught are just pawns like us. Unfortunately, more than unfortunately the only ones involved in this. In fact they are not really the people who benefit from it. It is just "they" who make the profits how to work and to distribute it while he pockets his money and builds one, two and three houses, and has expensive cars and helicopters and so forth. We have what he has and get if someone does not. So he drugs they have no question how it comes to them and are under the cost of living, and we should give as much as we can to stop it like.

Mr. Speaker, I was very interested here where the Member of the court were like to have like to convict a person who are involved in such a way. I feel that this particular Bill will go a long way in helping to have those like. I feel that it is not just the "they" who become a object of people or they; it is usually he who is involved, in fact he is least involved in it. It is the person who is using it to make money while he destroys other people's lives.

As I said, I am not a legal professor. Nor am I an expert in legal affairs but I have been delighted this Bill and like the way which, I agree in principle with the legal profession I can see here this Bill is not controlling which has become it now allowing authorities to dispose the people of anything which is found, and hopefully there, not even to issue it to someone to prove that he is innocent by the court proving his guilty before the court has been heard. It is all proceeded here with "where it is proved".

Mr. Speaker, I would like to say from this Honourable House that I am not here as a new lawyer, or as the community need of an extension card. However, to stand here and to just talk and talk and talk, and to continually oppose what this Government is doing is not my business. I have in two things which I am not happy about. However, I will support these later and I will end up in it by saying so let the public believe that we have sense on the other side of this House a bunch of people who do not know what they are doing. That is not my intention at all.

SEN. WILLIAM E. OBERST (CONTINUING): I would be prepared that I have many recommendations on this Amendment. I cannot think of what we have had one which is better, and I would like someone to prove that to me. I should have thought that whatever is done is done for the good of this country. When we find out that they have made a simple mistake in the drafting of a Bill or in our Amendment, we should take immediate action, in order to correct the mistake when one, as happened with the Watergate Bill, to correct it when for just a few minor clarifications or typographical errors in some Amendment, I do not go for that.

I feel that we are doing no more injustice to keep these Amendments going in the right direction, and I would commend this Bill to this House because I feel that this is a step in the right direction. I commend the author of the Bill and those involved in this Amendment, and I trust that it will go a long way in curtailing Federal taxes. Any amendment might be necessary just that they were of a question or a statement, or a decision in court. If he would in time have found an omission it is just as he may be accepted in time than deceptively any more of our young people in these Federal, that should happen.

The issue of money is the root of all evil. Just in our society today there are more ways than one of getting it. I feel that anything which is done that we can be helped to bring the dual duties before the country should be done now. I am interesting that this will still go a long way to curtail that area and I support the Bill.

SEN. PRESIDENT: Does any other Member wish to speak? The Pleading Member for Rock End.

SEN. WILLIAM E. HUDSON: Mr. President, unfortunately I must say that I take slightly different from the last speaker. Legislating round rules, Mr. President, surely do not the answer to the drug problem or experience in these Islands.

Mr. President, I am certain that the majority of the people will look on this Bill as a very harsh one. It does lay to the conviction of many and honestly, Mr. President, at this stage I cannot see the necessity of this wording Bill.

Mr. President, we have seen brought out here, namely the problems experienced now among the youth of this country. It is unfortunate and I honestly believe that the money spent on dealing and policing, and the time spent by us as Legislators to debate this Bill could have been better been spent how to bring it to bear on the people of this country, Sirs.

Mr. President, I am personally convinced in my Districts which I hope will work, not only in my Districts but throughout the Protectorate so they will realise be successfully the drug problem.

I feel today, Mr. President, as I have expressed on this Section many times, I am totally opposed to Sirs. However, at the same time, Sir, let us face it. There are people in these Islands who have problems. Let us face facts. Let us be Legislators and responsible people to see they receive filtering our income and other means to prevent this evil. I feel that we are fighting a losing battle.

Mr. JOHN B. McCLAIN (CONTINUED): Mr. President, the honorable Senior Official Member of Government has undertaken to go into this Bill thoroughly and to try to explain it in our mother tongue. However, I must say, Sir, that on certain provisions of this Bill he has not been successful in convincing me.

I have heard many times, Mr. President, Legislation in other Dependent Territories and Legislation in the United Country, why should it not be adopted in our Islands. I am really and truly fed up with this, Sir, because we have come to see the habits and conditions are completely different. I feel that the time has come for us to put into force legislation which is essential and beneficial to the people of these Islands and the country as a whole.

Mr. President, I must agree with previous speakers that have expressed concern over the words, "reasonable" to be determined by way of court actions" for offence to be in the causes," observers. I think that this is very, very serious clause. Mr. President, I am personally in the business of automobile service. It is unbelievable for me to hear quietly the provision of such of my automobiles. However, Mr. President, at the same time I am fully concerned about my vehicles. Unless I am completely wrong in the this Bill (unintentionally) as I do not think that I am, as I see it here, Sir, I would be the concerned party and there is no reason why one of my vehicles could not have been seized by an individual, returned to my premises and hidden somewhere inside it could have been done without my slightest knowledge. Therefore, Mr. President, I would be the concerned party involved. How could I answer this process Bill (provision) (section)? I cannot help that the vehicle is not mine because the record books indicate that I am the whole owner of that vehicle.

Mr. President, I should hope that in Committee Stage either the owner of this Bill or the honorable Senior Official Member would endeavour to have sections such as this one removed and cast aside.

I mention, Mr. President, in Clause 6 of this amending Bill. Again, like others I am very concerned about this clause, the prescriptive clause. As the Second Elected Member for Middle Town mentioned I can be the presence of qualified lawyers who thought as we do that this section of this Bill should never have been brought before this honorable House. I do not intend to go into the European Convention on Human Rights, Mr. President, but it is a fact that if this Bill passes in its present stage it may in the rights of the people of this country. Accordingly, Mr. President, one is guilty until he or she proves themselves innocent, as such cases here I fail to see where the individual will ever be able to prove himself innocent. Again, I am not a lawyer and I hope that if there is somebody who feels that my interpretation is wrong, they will try and prove it, not only to me but to other Members of this House who are very concerned.

Mr. President, I was real happy to receive the statement which was circulated from the Chief Minister, which deals with Section 33 of the old Law. Again I do not intend to go into this in detail but, Mr. President, it surely behoves us to know that should we have dealt with this Law earlier on this Meeting of the House, what we could have really planned on the shortcomings of this Legislation in these Islands. My honest opinion, Mr. President, taking just these considerations, should your Government worry ahead to withdraw this Bill and to study its Legislation clause by clause, and to bring it back at a later stage.

MR. JOHN E. MOSS (CONTINUING): To the present moment, Mr. President, I find it impossible to support. I would like to make it abundantly clear that we have been asked many times today, I am not opposing for opposition's sake because I do not believe in it. I particularly object that I feel that participation in the Government Reorganization, Mr. President, which I feel will benefit this country, I will support in every thing. The record will indicate that I have taken that stand many times.

So, Mr. President, without further debate, once again I trust that those Members on the other side who are concerned with this bill and who have made it the procedure, will nevertheless now have the bill withdrawn.

I thank you.

MR. SPRINGER: Does any other Member wish to speak? The Honorable Chief Steward Member of Pennsylvania Counsel.

MR. [illegible] Mr. President, I rise to support a bill for a time to amend the Reform Act [illegible]. Mr. President, the previous speaker said that he understood the bill to be a bonus and that he would like the bill to be withdrawn. I do not agree. Sir, that is a fresh bill and I do not see why it should be withdrawn.

The bill is, in my opinion, in the best interests of the people of this country, and it is to correct many inequities which have been put in the record. The organization will have to look to the people who have not got to make effectuate it fair. I think that this is a big step forward in the right direction.

I believe that the bill makes it quite clear the Chairman's [illegible] Counsel cannot be [illegible] being withdrawn", and this, Sir, is just throughout the bill with [illegible], and then a person who "without [illegible] cause or [illegible] being withdrawn". In case of, Sir, in the bill that it states emphatically on the section "Termination of Association and knowledge of unlawful [illegible]", and makes it quite clear that, the first words in each sentence, "Where it is proved".

This will make sure that the case [illegible] of proof in the courts. I have no difficulty. But, with the bill in it as and I feel that if any Member have [illegible] which I [illegible] should offer amendments. I have been in this House for eight years and at no time do I commit an amendment by the other side of the House being rejected. It has always been carried [illegible] and the [illegible] has always allowed it in spite of the fact that we might [illegible] be required for an amendment. So if any Member on the other side of the House is concerned to [illegible] I am sure that the [illegible] Counsel Official Member will be delighted to help him, if he considers it as a proper amendment by any [illegible] that is still [illegible] [illegible] or anyone under the House to us.

I feel, Mr. President, that this is a fine bill. It is not one which has been taken out of a hat. There are other [illegible] and new matters [illegible] which have [illegible] Legislation and it has received [illegible]. I know that our Government has been through this [illegible] and I am sure that we would not have permitted such a bill if it was not [illegible] and in fact for this country. I am sure that he would not have allowed it to come forward. As he [illegible] in his debate, other [illegible] has similar laws which were examined by and they have not [illegible].

MAY. CAPT. CHARLES L. STRONGYLOS (Continued): He will have to go the same route that he took a while back when there are two other channels. Maryland will not consent to it or anybody else will be disallowed if it is not in keeping with international law. We are obligated upon things we are not aware of the International Law Society or anybody else will be called. Somebody, we are under the United Nations and whatever they have to comply with, it is mandatory that we follow.

Mr. President, I think that the gentleman's objections must be met. I think that if it was the point that people have used drug money or other criminal money to purchase a house, to purchase a ship, its furniture or television sets or whatever they may use that money for, that it should be confiscated.

The repeal of section 8, Bill, and the new amendment is quite clear. I think that it has reference to the Bill to the principal law what the Members have been thinking that it had disappeared, that is it has put back into the Bill the right of a forfeiture jury. Mr. President, I do not think that the Chief Executive of this country would have recommended these amendments to the Legislature-General had he not seen fit to do so. I have no problem recommending this Bill.

DR. PRESIDENT: The Honorable Fourth District Member of Montgomery County.

GOV. CARROLL O. SCHMIDT: Mr. President, it rises to support this Bill, I will be among the Members of Drugs that introduced. Mr. President, when I heard the discussion on these matters arise, considering the Bill and understanding that it was another communicable route by this Government, I thought it was time that when I contacted the Executive Council or when the Bill was passing through Executive Council I had fulfilled, or that I had released the portfolios, Mr. President, I am not going to act in Executive Council or the Senate or anything which, in my opinion, would be detrimental to the people of these Colonies. I am here to do what is, in my opinion, in the best interests of all concerned.

Mr. President, I am certainly in my mind that the Section 8 which has so heavily been debated and criticized is not carrying the sentiment expressed by the Administration and that is that as the section is proposed, that it will deprive individuals of their rights under the British Jus system, whereby a person who is charged or accused of a criminal offense is innocent until proved guilty. Mr. President, the basic concept of British law that a person is innocent until proved guilty is maintained in Section 8 of this amendment Bill, because the only specific cases of such subpoenaing happens that there is going to be a person is implicated.

Mr. President, I know that on the outside there are people who have pleaded this point as well, I think that have been convinced by the Opposition here that the section of this Bill which is being criticized, Section 8, is a deterrence to the legal system of these Colonies. Mr. President, the problems in our courts have been many times and accurately made so that the enforcement agencies of this country, the courts, the police and the governments be known, Mr. President, one of the things which is very difficult for these agencies is to get to the root of these practices that do these Colonies. We usually include the manufacturers and the users of a subversive nature, and they are all open to purchase under this famous conspiracy sentence sentence, and final under this law by the great Government.

SEN. [illegible] JOHNSTON (CONTINUING): Mr. President, what do of concern to me today is that these minor offenses are sending people to [illegible] our prisons and that is of real concern to the Government of the day. While, of course the trade continues as it normally is even the dealers or the "big boys" as we call them are always able to slip through the nets. They are able to employ the brunt of the legal profession in these islands who very often play a technical point of law to send them out through the front door again.

Mr. President, these are the ills, whether they be of the legal system or of the ability of the prosecutor or whatever. However, they are going to be continuing problems in this country if the law enforcement agencies are not able to prosecute these successfully. I believe, Mr. President, that these simple amendments to this Law, we do see it in Section 6, may be a way to assist in this unfolding area.

Mr. President, we cannot shut later this year when this Government goes on to recognize the Minister's statement. We may have to tell the Americans that we have unsuccessfully reduced the sentence for narcotic offenses in these Islands. Well, I'm sure that the Administration will not lose any opportunity of publicly exercising to blame us for. Seriously, Mr. President, the Americans have never yet questioned the penalty aspect of our laws now I do not think that they would at any time question the legal system of this country. In fact, they do not like the Americans [illegible] cowboy laws. They are acceptable, harsh and wrong of bringing these narcotic criminals to justice, and is the quickest possible route. Whether we send people to jail here or we sentence them, or we receive who determine, this has nothing to do with the Narcotic Agreement [illegible], Mr. President. They should know this. They have been involved in this [illegible] years.

Mr. President, I should not think that there may be suggestions for amendment to certain areas of Section 6, for instance Section 6. (d). (iii). There has been some concern that this widespreading, and also [illegible] Section 7(3). However, Mr. President, I will abide by the unanimous Second Official Member who is quite capable of winding up on the of these technical amendments. As do not expect, Mr. President, that many Bill which is presented here can be published through without amendment. It is the prerogative of the honourable Members of this Legislative Assembly to examine all Bills [illegible] before they can be published into Law provisions as recommended before they give their consent to approval.

So, Mr. President, I would not be surprised if recommendations are made for minor amendments. However, Mr. President, as far as the principle of Section 6 is concerned, I have no difficulty in accepting the recommendations as put forward there.

Mr. President, the honourable Second Official Member has already given the explanation for the recommendations of this Bill to which I do not think that it would any further explanation.

So, I will again reiterate my support of the Bill and I hope that honourable Members will give it their support as well.

Thank you, Mr. President.

HON. PRESIDENT: The Second Elected Member for George Town.

MR. JOSEPH A. DIGGS: Mr. President, the Bill before us known as the Misuse of Drugs (Amendment) Bill, 1985, seeks to make a number of amendments to the Misuse of Drugs Law (Revised). Before dealing with the contents of this Bill, Mr. President, I think that I should make it abundantly clear that it is not my intention at any point in my debate to be derogatory to any Honourable Member of the Government Bench. At the same time, Mr. President, while my views are objective and not in any way intended to pose personal comments or subjective ones, I am not, Mr. President, a believer in blind loyalty.

Mr. President, as I started in my earlier debate, the onus for a law to succeed the purpose which it should, it must be a good law and one which is capable of being implemented by the majority of the people. If we therefore propose for this Law we must first make the Law workable. Again, Mr. President, I'd reiterate the point that Laws which do not embody public opinion can never be enforced.

Mr. President, quickly for the Government and the Constitutional role in that orderly Service Bill report is unbelievable responsibility. Before leaving those Chambers for lunch, I would have thought that the Honourable Second Official Member would have had a hard job indeed the same scrutinizing the Elected Members of Executive Council but alas, Mr. President, we have come to a lot of difference in the minds of people.

In defense, Mr. President, of the Elected Member for East End I would point out that my understanding of what he said was that, and I quote, "I could not support this Bill in its present form and hope that it would be withdrawn and studied further, and presented at a later date". It was not my understanding, Mr. President, that it was the intention of the Elected Member for East End not to support the Bill at all.

Mr. President, a great deal was made of "proof", as in my attempt to enlighten myself on this topic used I got a dictionary and I looked up the meaning of the word "proof". It states, Mr. President, that it means to test the genuineness, to ascertain, to establish or ascertain and so forth. Evidence in that dictionary, Mr. President, does "proof" consist of knowledge. It is "proof", Mr. President, of possession. It has nothing to do with the "proof" of the knowledge of possessing any prohibited drug or other substance. I think that is a very technical point, Mr. President, that should not be ignored. We are not here, Mr. President, talking about proof of placing goods in someone's care, of proof of finding contraband on someone's care. If it is there, it is the right end of the police find it on someone's care, the fact that it is in his care is proof enough that it is in his care. What is not considered which is the proof of knowledge that he knew that it was in his care. Accordingly, he knew that it was in his care.

Mr. President, we have to be extremely careful with some of these laws which we are hurriedly passing through this House. I would have thought that it would have a much better understanding if a legal committee composed of members of the Law Society, members of the Legal Department and members of the Judiciary, perhaps even as eight people could examine these Bills before they come to the House and make suggestions.

The Interpretation Law, Section 26 Mr. President, makes not exemplify ejusdem generis. It says, Mr. President, that the legal interpretation of a person should be done only after conviction. It also states, Mr. President, that subsidiary officers shall be considered included until proved guilty according to the Law.

MR. SIMON J. FISHER (continuing): What we have here, Mr. President, is a change in the matter of proof. The BIA is seeking to prove cimarron guilty before he can even establish a case. However, I must congratulate the Honorable Second Official Member. I think that he did a very good job in changing the minds of some of the Members who intended to speak on this bill. Nevertheless, Mr. President, of the emphasis which he placed on the word "present", it still does not change the impact and content of these phrases on the bill.

Mr. President, a couple more to his credit. I think that we have to be very, very careful about how we impose with this. The Honorable Second Official Member, Mr. President, also made a great deal about the words used "seriousness" as it appears in the United Kingdom law. Mr. President, I would like to make it quite clear here that while we as a Government sometimes will borrow as much from as many countries as possible, we do not necessarily have to accept every statute or fact as the books of the United Kingdom Government, as the only if those laws are appropriate to the Cayman Islands and to the people of this country. The United Kingdom law was concerned with specific matters. It was concerned with procedures. It was concerned with the rights of drugs. It was concerned with the making of drugs. It stood specifically. Perhaps it is not the intention of Government Bills to make that section a bad character, but might not it be seen to have an inherent meaning.

Mr. President, I am also pleased to see that it is the wisdom of our Civil Service Leader to be present. I will not go into the details of this because I feel that it has been given sufficient debate. However, suffice it to say, it only highlights the point that more input should be received and solicited from the judiciary and the legal society in this country.

Yesterday, Mr. President, in the wisdom of the Royal Cayman amendments were made about the absence of Members of this House until regard to statements will other matters. Mr. President, I wish that we were to a position as Members, or as Representatives of the people, to take these matters as lightly as they seem to be taken by certain Members. Sometimes we have a responsibility to our people. I am not concerned, Mr. President, whether any Member of the Opposition or any Member of the Government Bench be blamed with what I say. This is irrelevant to me. I am here to represent my people because they have told me to keep myself healthy and that they will do their part so that I will have for years and years to come. So, I am not concerned with the Official Members of the Government Bench or the Elected Members. I am concerned with good representation for my people.

Mr. President, amendments should not be made for the sake of amendments. They should be timely and necessary. Take for instance the Matrimonial Law. We have had made one amendment to increase the powers from $20 to $50 but yet there are so many inconsistencies in that Law. While I am not debating that Law to highlight the point which I am making that more thought and time needs to be put into the amendments brought forward to this House. Under that Law for instance, a child seems to be entitled to maintenance from the lawful father until the fourteen years of age. Yet if he was in attendance while he could get maintenance up to seventeen years of age. The inconsistencies, Mr. President, and this is why we need a complete study of our Laws before we today then have and have them amended in years and years.

MR. STANLEY A. STALEY (continuing):... where are these amendments originating from? Are we following other communities because it seems to these communities? Or is the bill hogging the dog? We have about this absolutely from 1973 to 1975. Mr. Speakership, are we responsible to the people of this country that we are supposed to be representing? For this the reason why we have put this issue by the people, for we do stand up here and say that if previous Governments had made the mistakes when it was good enough for us to continue making them? That is not the reason, Mr. Speakership. We now have to believe and improve the situation. It is not enough information for us to state here that because the Government from which might please you, it is classification enough for us to be wrong.

Mr. Speakership, I am afraid that I cannot blame the backbench of the honourable Assistant Official Member. He also said that he is very pleased with the bill. Well, he presented the bill so this is understandable. The honourable Minister Minister of Executive Council, perhaps, presented the bill but the honourable Second Official Member did say that he was very pleased with the bill at the presentment of the bill. So who is taken by these reasons, Mr. President, the ultimate responsibility for this bill.

Mr. Speakership, I may not to deal with matters which I do not understand because unlike some people I appreciate that a little learning is a dangerous thing. There's deep in state like the Jordan springs where absolutely intoxicate the brain and drinking happily ashore as against. Mr. Speakership, I am not going to stand here and say that somebody is good just because I do not understand it. I try to understand the contents of these bills and I am not going to stand here and say that it is good because the honourable Second Official Member did. It is a matter of intelligent arguments etc. I must first work it is good before I am going to say that it is good, and if I feel that it is not good I think that I have enough intelligence to make my own decision on the matter.

Mr. Speakership, my interest mainly with this bill is the encouragement of knowledge of agricultural crops. Regardless of the major little word which I point out here, Mr. Speakership in subsection (1) of Section 7 where it states which:-

> "The aforesaid person -
>
> (a) shall not be convicted by reason only of passing that he neither knew, reasonably had reason to suspect that such substance or product was the particular controlled drug alleged;"

This is the case. This is no defence to say that one did not know. Mr. Speakership, there is a lot that is wrong with this. There are some points which are good but there is a lot wrong with this bill. It is more benefit considered, Mr. President, the negative points would outweigh the positive.

Section 8(1)(a) states:-

> "Where it is proved that a person imported anything containing a controlled drug,"

"It is proved". What does that mean? "Proof". Of course it can be proved. If someone has received a letter or a package in the mail or how the receipt of having received it and it is in his name. Of course, if it is opened and there is evidence in it, it is proved that it is...

MR. EDWARD A. PERSON (GOODYEAR): How can he get out of that? It has got to be with his knowledge. We have right to have access to him. What is to stop some shop who wants to share the Second Elected Member for George Town out of petrol from keeping on his premises of gasoline? How do I mean that I have nothing about it? Then will I be given the opportunity to prove to Government or will I be whisked off to Northward Prison until some minor lawyer can get me out?

The Bill continued to stand over.

Section 64, (1)(a)(i)-

"It shall be presumed, until the contrary is proved, that such person knew that such drug was contained in such thing;

(ii) where it is proved that a person had in his possession or custody or under his control anything containing a controlled drug, it shall be presumed, until the contrary is proved, that such person had the possession of such drug;"

Most humbly, Mr. President, if the crook had anything else could already walking on the road and he given him a life, and we charge a price of gasoline to his door. That is unreasonable. It should be presumed that he was guilty until he could prove otherwise.

MR. SPEAKER: I wonder whether this would be a convenient moment to take our customary afternoon break? If the Member has very recent [illegible] I would prefer to [illegible] ... I may take the break? Alright, let's then let us suspend proceedings for approximately one minutes.

AT 3.40 P.M. THE HOUSE RESUMED

AFTER RESUMED AT 3.50 P.M.

MR. SPEAKER: Please be seated.
Proceedings are resumed.
The Second Elected Member for George Town.

DR. EDWARD A. PERSON: Mr. Speaker, at the time of taking the break, which it was necessary for us to refresh ourselves and could seem a little, I was dealing with Section 3, subsection (5), as I stated, this is a very dangerous and serious allegation under this section. The hon Member with the assumed innocent of both his members. It states:-

"The accused person -

(a) should not be acquitted by reason only of proving that he,"

but no knowledge of the allegation which leads to the possession of the controlled drug.

MR. JOSEPH J. DYSON (Continued): ... by one, Mr. Speaker, ... to be acquitted by proof of not having knowledge of the possession ... then I ask, Mr. President, how can he ... be convicted.

Section 2, subsection (5)(b) states that:-

> "shall be required to be proven that he neither believed, suspected nor had reason to suspect that the substance or ... product was a controlled drug."

Mr. President, how does one prove to an individual who state of one's mind at a particular point in time, whether one believes something or whether one does not? Mr. President, in prosecution of possession it brings to mind a story I heard from a lawyer yesterday, where we were discussing this Bill. This was where a known gang member ... man from the capital of Nuku'alofa this evening in front [illegible] with his supply of ganja. He had it in a radio, Mr. President, together with other [illegible] which he was carrying. It so happened it is a high legal official. Somebody mentioned an ex-Attorney-General. I do not say that. That was one of the [illegible] decided to help this poor man and take his radio through. When he was outside this man took the radio back and it was found only later that it was filled with ganja.

What would have happened to this legal official if there had been a drug at the moment when [illegible] this radio had found him in possession? What would happen to our good Attorney-General, our present Attorney-General if that was happened to him out of the goodness of his heart? What would happen if the owner of the radio, which he was accosted, said that he knew nothing of the radio? We did not know about the Attorney-General ... we talking about. It had to be him. It would be a crisis situation. Mr. President, be put out of.

... Mr. President, in the same section, if it is the understanding that the prosecution must prove that the accused is guilty beyond doubt, then I would have no problem with this Bill and I trust that the prosecutor and the mover of this Bill will make this abundantly clear from the outset any changes in this Bill.

Mr. President, the Honourable Minister Foreign Affairs took quite a lot of time in explaining Section 6A.(2), but Section 6A.(3) states:-

"The presumptions provided by this section shall not -

(a) be rebutted by proof that a person never had physical possession of the controlled drug;

(b) be construed as requiring the prosecution to prove any fact which, by virtue of any other provisions of this Act, it is not [illegible] to prove."

Mr. President, what are we thinking about in this section?

"Forfeiture of equipment". Mr. President, if I felt that this Bill would assist in bringing the big people in the drug trade before the courts I would be the harshest person in the Kingdom Islands. I understand, Mr. President, that this is the thrust of this Bill but it must be ridden somewhere where I cannot see it.

MR. LORENZO M. TAÑADA (CONSTITUENCY): While we have some reservations about certain provisions of this measure, Mr. President, we do not wish to be an obstacle to its approval. We have also been informed that the Committee on Appropriations has already agreed to the amendments proposed by the Committee on Local Governments. We are therefore willing to support the amendments proposed by the Committee on Local Governments.

Mr. President, I would like to ask the Committee on Local Governments whether the amendments proposed by the Committee on Appropriations have been incorporated in the amendments proposed by the Committee on Local Governments.

MR. PRESIDENT: The Chair will now recognize Mr. Tañada.

MR. L. TAÑADA (CONSTITUENCY): Mr. President, I would like to ask the Committee on Local Governments whether the amendments proposed by the Committee on Appropriations have been incorporated in the amendments proposed by the Committee on Local Governments.

MR. PRESIDENT: The Chair will now recognize Mr. Tañada.

MR. L. TAÑADA (CONSTITUENCY): Mr. President, I would like to ask the Committee on Local Governments whether the amendments proposed by the Committee on Appropriations have been incorporated in the amendments proposed by the Committee on Local Governments.

MR. E. BRUCE KETCHUM (CONTINUING): What do where I have problems in reconciling my support for this bill, Sir. If they have enough evidence to prove my presumption of possession then I cannot conceive what evidence I could muster to prove my innocence of possession. My point remains here, Sir, in the opportunity this section might provide for framing of an individual. If somebody came up, Sir, a policeman posed in the mall and I accepted it, and the possession took the form that I knew it was in my possession the split second after the seal of the white I signed in receipt of this package as proof of the presumption that I am guilty then, Sir, I would have no I could legitimately in finding cases under which I could prove my innocence.

My concern, Sir, then as I said in the unfortunate circumstance that some innocent individual could enjoy that the possibility could exist under any law that somebody could be unnecessarily framed for a charge of serious or a drug offence, whereas such a charge, Sir, is not a crime which is highly considered. Even if one is successful after it is proved that he is guilty, he presumed innocence, it is like the old saying, Sir, "I would rather go to jail for killing a man because when I come out they can only say I killed a man, rather than walking as a thief "on the west of my life".

Of the nature of this Bill, Sir, cannot disagree in its entirety up here if it is possible and common sense that the innocent individuals will not suffer and that there is absolutely no possibility of any kind of framing, concerning under this Bill, I might find ways to augment it.

... under the provisions of suspicion arrest, Sir, I support that section wholeheartedly. I believe, Sir, that it is finding ways to determine what services has been taken illegally from the sale of drugs or whatever, because under current circumstances of learning a display, storekeeper, one usually has the duties at the time to answer every search which he is enjoying in life. However, if someone has huge sums deposits at the bank, hundreds of thousands of dollars which have been acquired over relatively short periods of time, I believe, Sir, that the onus should be on that individual to prove that they were not acquired by illicit means.

So, in saying so offer my support for this Bill, Sir, as I said my concern is that while I support the spirit, they all must be done to stop the abuse and the illicit trafficking of drugs, I think that we should never lose sight that we have an obligation to protect the innocent in our society.

Thank you, Sir.

MR. SPEAKER: If no other members wishes to speak.... The Hon. Elected Member for the Lesser Islands? Yes.

HON. MARY S. ELIZABETH: Mr. Speaker, the Bill before the House has been thoroughly debated. Much has been said pro and con. I support a Bill for a law to amend the Misuse of Drugs Law (Revision). I now the privilege of voting for the Misuse of Drugs Law, Cap 78 of 1991, which I think was better. If we find some that certain amendments are necessary to that, I have given it very serious thought and have discussed them carefully and asked many questions.

I did have specifically concern for Section 2 which is a new section to this Law, which amends and repeals subsection 6A of the principal Law. I think that a new understanding is and I look forward to Committee Stage to a further explanation of the circumstances of possession and knowledge of a controlled drug.

MR. [illegible] E. MERRIWETHER: [illegible] I agree wholeheartedly with the proposition of people which he has just stated some unspecified thought that [illegible] on the side of drugs. I feel that we do have some of that in our community and if this can be eliminated, I feel that the person who is really benefiting from drugs is the one who we need to punish. The small offenders other Members have spoken of here, need to be separated and rehabilitated. However, those who are benefiting more are the ones who really need to be punished.

I agree with the remarks of the gentleman from the Seventh [illegible], and also the gentleman from Georgia [illegible] the introduction of a new clause to which will [illegible] certain crimes of serious nature to be handled in the federal court and by jury. I feel that [illegible] Federal prosecutor will help to alleviate some of the problems which we have had with overcrowding at Southern Penn. It will also give [illegible] the opportunity to process cases [illegible], and in this manner knowledge apply where he thinks best.

Mr. President, with those few words I would like to [illegible] to [illegible] Committee Stage, but with that I suppose that [illegible].

MR. [illegible]: [illegible] other other Members wishing to speak I will invite the mover to reply if he wishes.

MR. [illegible] G. [illegible]: Mr. President, I wish to thank those Members who have expressed their [illegible], either verbally or in part, and I think especially the Honourable Senior Official Member for the explanation and explanations which he gave to the more technical parts of the Bill.

I have heard a lot of different interpretations put to the various sections of the Bill and honestly, Mr. President, it is difficult for me to understand how some of the interpretations can be arrived at, or how some of the questions or queries [illegible] can be [illegible].

The Senior Official Member for Justice has said that it is the intention that the Bill be the [illegible] of [illegible] principles. The only thing which was [illegible] about what he said about that was that he went on to say that the Government did recommend to [illegible] and to [illegible] in the Cayman Islands. I do not believe that applies in this particular [illegible]. However, we certainly, most of us, Mr. President, [illegible] to remove the minimum, mandatory sentences from the Misuse of Drugs Law. I, the extent that is a principle [illegible]. I have no apologies to make.

Statistics will prove that from the time that the minimum mandatory sentences were put in the Misuse of Drugs Law it had no effect whatever on reducing the number of persons convicted. In fact, it acts like reverse psychology-backfires. As was earlier spoken about, we have heard on at least many occasions when the Judiciary have lamented the fact that their hands have been tied by these mandatory, minimum sentences.

I believe that much of the opposition and many of the [illegible] which have been given across these Bills arise from the very fact that at least we are [illegible] removing the minimum mandatory sentences from the Misuse of Drugs Law.

The main thrust of this Bill, Mr. President, is the removal of these mandatory sentences. The rest of the Bill really comes as basically the results of negotiations which have been taking place between the Judiciary and the Legal Department.

MR. EDWARD O. SMITH (CONTINUING): You, some people have read with [illegible] the final language of the amendment proposed for the Committee Print carries a notation on it which says something to the effect that the Chief Justice wondered why Section 25 was not being proposed in the Bill here but high a jurisdiction for the Magistrate's court. Perhaps we may find out the Chief Justice mentioned this Bill on the side of time, it would have been agreed as originally pertained with that was as a result of a lack of consultation. However, Mr. President, I believe that the consultation was an ongoing one. The consultation started and took place long before the amendment before us was drafted. In fact, I would suggest that the Chief Justice was not in the Islands between the date of the white Paper being published and the date of this amendment.

So, Mr. President, Bills are not drafted in any ad hoc or careless manner. There are times when it is difficult to reach common language and so on, as between departments and different Lawyers. However, eventually a happy medium is reached and I can assure Members that no Legislation is ever introduced consultation or in any ad hoc fashion.

Mr. President, the Chief Minister would like to make very clear to this Hon Bill, as far as I am concerned, if we exclude the removal of the amendment, nowhere anywhere has nothing in it which would really apply to what we call the small man or the man on strip. One Member talked about this being a rich Bill and it was being the answer to our problems. Mr. President, I have argued for years that these particular amendments were not the answer to the majority of our problems. I still agree with that. However, nothing in this Bill really affects the little chap who is usually dealt with by Magistrates Courts. These provisions which have been recommended, chiefly by the judiciary, are provisions which are found in other Laws, as has been said in the various courts and other Commonwealth countries, and they would plug some of the loopholes which obviously the judiciary feels that the powers in particular could run to wasted movement.

Mr. President, Members must note that of Section 4 with "presumptions". They are created that if somebody does some thing or other they would have to go to court to prove their innocence. Mr. President, that is exactly the case with the Law as it is now. If someone is found in possession of a drug and it says "who without lawful excuse or being authorised in that behalf" and goes on to enumerate the offences, so that if someone is found with ganja or any drug in his car or the vessel, he still have to explain to the satisfaction of the court that he was innocent of it being there. So, however the onus might be placed he has to go to court and he has to prove his innocence as the case may be.

The section which seems to be giving most trouble is Clause 4 in subsection (2). This is the one which Members seem to have found so objectionable. That is that:-

> "The presumptions provided by this section shall not -
>
> (a) be rebutted by proof that a person never had physical possession of the controlled drugs;"

Mr. President, if the first subsection is going to work, it is my opinion that this subsection has to be in, because there is no other option to what we would call the kingpin or the godfather of the operations.

MR. GEORGE P. SHULTZ (CONTINUED): Without this subsection, Mr. President, in my opinion a big drug dealer could stay in his home and organize all of the arrangements necessary to purchase, shipment, import and distribution, but as any lawyer or judge in this country, and he would never have to speak to. The only thing which would convince him is that the money which he hoped to get from other objectionable conduct being concerned with. I believe again this is where the reluctance comes in, because ordinarily the lawyer when I have spoken about would be concerned with all of the difficulties which this section refers to.

Mr. President, that is not the point of view. I have enough confidence in the legal, judicial and law enforcement agencies of this country to believe that the law will not be abused. The dangers of abuse lie in a procedure for appearance of where it be found. Because of the very reasons to have available procedures which might not be found in other cases.

However, so far as this bill opening up or facilitating freezing permissibility, Mr. President, that is nothing new. It is not a new change in this country. How often have lawyers not heard of people who were approached for the possession of goods or monies say, "the policemen stuffed it in my pocket". He might have to go to court and defend himself.

Mr. President, I consider that most of the opposition to the bill has really made a mountain out of a molehill. We have heard members talking about Government using the media to suppress publicity. But the press would give favorable coverage to Government exposition of what happened. Mr. President, to the best of my knowledge, Government has taken no action to give any biased opinion, or any position under the policy of this bill.

One member said that he wondered how Government could be able to know the negotiations going on and why that is now making possibilities less for change. Mr. President, this bill does not seek to make the possibles less for the misuse of drugs. What it seeks to do is to take away the mandatory minimum sentence. The maximum sentence is stated except in the one case where it is my belief that the new section is right and has worked to reduce the sentence in that particular case, and it is in a special case. However, Mr. President, I believe there is still a very serious fear about. So I do not think that we have anything to worry about with making this or the Government safe in drugs.

It was also said that the removal of the minimum sentence will increase the use of drugs. I do not believe that, Mr. President. The idea is right in the bill.

Clause 5.1(a), is the forfeiture clause, Mr. President. I do not think that we ought actually the Senate Member for Canada Dock's amendment for deleting that, because in that sense one has objected to the use of the word "proved" and in this one he objects to the whole being satisfied. The money is not forfeited just because someone makes a charge. The court has to be satisfied, which refers to the ultimate satisfaction would be the language which I understood the Member to have; it is to prevent the abuse of a right.

Once it can be proved that assets have been acquired by illegal dealing in drugs I cannot see why anyone should object to those assets being forfeited to the Crown.

One last word which I would like to mention, Mr. President, which seems to have been of great concern was subsection (5) of Clause 2, amending Section 3 of the principal law, and subsection (6).

MRS. DAWSON (U. DEANES (CONSTITUENCY): Mr. President, I would prefer to take subsections (4) and (5) because I think that subsection (4) is very important, because it makes it for an accused person to prove that he neither knew, suspected nor had reason to suspect the existence of some fact alleged by the prosecution which is necessary for the prosecution to prove if he is to be convicted".

Subsection (5) is the one which seems to have given a lot of trouble. This reads:-

> "Where in a prosecution under this section it is necessary, in order that an accused person is to be convicted, for the prosecution to prove that some substance or product involved in the alleged offence was the controlled drug which the prosecution alleges it to have been, that it be proved that such substance or product was that controlled drug, the accused person -
>
> (a) shall not be acquitted by reason only of proving that he neither knew, suspected nor had reason to suspect that such substance or product was the particular controlled drug alleged; but
>
> (b) shall be acquitted if he proves that he neither believed, suspected nor had reason to suspect that the substance or product was a controlled drug."

To me, Mr. President, what this really says is that if the prosecution alleges that a person has a controlled drug and it is found that he did because it or dealt in it, or whatever the charge might have been, that he cannot claim innocence or acquittal merely by saying that he did not know reason to believe or know that it was that particular drug. What he has to establish is that he knew that he was not dealing in any kind of controlled drug. The clause quite often plays with semantics, because magic a drug has different names. It is even known by different names. So what this sought here to prove is that they are not guilty of the act of dealing in any controlled drug.

Mr. President, wishes to say that this Bill is brought in all good faith, and that it is not a contentious Bill; that the technical aspects of the Bill are brought to line what are considered loopholes, or to correct anomalies in the Law as seen by the judiciary, I can only say that this Bill is a good Bill because it justifies the requirement of removing the minimum mandatory sentence from the Misuse of Drugs Law. Whether that was a campaign promise or not it is, in my opinion, the right thing to do. It is something I have been fighting for for a long time. The fact that minor anomalies which are necessary come with it does not detract from the fact that we are removing the minimum mandatory sentences.

I am satisfied, Mr. President, that the Honourable Second Official Member will be able to the Committee stage to satisfy the few remaining doubts which might exist on some Members' minds about any areas of this Bill. I am sure that the good Honourable Member opposite will be supporting the principle of the Bill but I understand that he would not oppose a further clarification on subsection (4)(b) of Section 4 concerning the anomaly which he could elaborate on when that, to show exactly what is meant.

With those few remarks, Mr. President, I commend this Bill to the House of Assembly.

SEN. SPARKMAN: The question is shall a bill entitled: A BILL for an act to amend the Revenue and Taxation Code relating to personal exemptions,

BILLS

THE REHABILITATION OF OFFENDERS BILL, 1965

ORDER READING

ORDER: THE REHABILITATION OF OFFENDERS BILL, 1965.

MR. GEORGE A. BROWN: Mr. Speaker, I beg to move the Second Reading of a Bill to provide; entitled The Rehabilitation of Offenders Bill, 1965.

Mr. Speaker: This Bill which is sponsored by the Conservative, Labour and Liberal Parties in the United Kingdom seeks to make reasonable provisions for certain criminal convictions to become spent after a period of time and to provide the reasonable discharge of any such convictions. Mr. Speaker, this Bill I hope will be non-controversial. It seeks very simply but it seeks to remedy a problem which has existed in this country for some time. I describe it as a problem, Mr. President, because in addition to rehabilitating offenders, in the United States we have the lesser of a United States Post System in operation, I have in many instances brought undue hardship on people. As is usually known, people have to put a positive statement to get the right and very often a small family squabble which has taken place many years or twenty years ago is exposed in the papers, and has often resulted in people not being able to get employment.

The Bill which is attached into several clauses, Mr. President, provides mainly for the mechanics of the working of the Act when it is enacted. However, Clause 4 gives basically the effect of this Bill when it becomes law. I would like to read this section, in case of it for the benefit of Members to bring it to their attention:-

"(1) Subject to section 7 and 8, a person who has become a rehabilitated person for the purposes of this Act in respect of a conviction shall be treated for all purposes in law as a person who has not committed, been charged with, prosecuted for, convicted of, or sentenced for the offence which was the subject of that conviction; and notwithstanding the provisions of any other law to the contrary but subject as aforesaid -

(a) any evidence shall be admissible in any proceedings before a judicial authority exercising its jurisdiction, or functions in the Islands to prove that any person has committed, been charged with, prosecuted for, convicted of or sentenced for the offence which was the subject of a spent conviction; and

SEN. SAXBE (CONTINUED):

(b) a person shall not, in any such proceedings, be asked and, if asked, shall not be required to answer any question relating to his past which cannot be shown to be relevant to a fact or matter in issue, notwithstanding or pretending to a fact or matter in issue, notwithstanding or pretending to a fact or matter in issue, notwithstanding or pretending

MR. M. BENJAMIN BOOK (CONTINUING): I should prefer to see this matter in more precise in the Committee Stage. Again, Mr. President, I have not decided on whether or not I or somebody else would change their minds during the Committee Stage. As I said, I would like to see this passed tonight. Mr. President, if we take for instance a young boy just out of school, just turned eighteen and he gets involved in some offence which might be attributable to the natural mischievousness of youth, which gets him six months, he is out of prison before he eighteen-and-a-half with a record which probably bars him from entering many schools of higher learning and those many jobs, and we are not perhaps from obtaining visa which would to travel to the United States. Mr. President, if we have to write every crime to have this record cleared now is really helping him? What do society is supposed to him in these seven years?

I feel that this seven year period is too long. The police cannot use this for his information benefits from it and I feel that we need to change it. I look forward to the speech of those members who put their sensible ideas towards year or improving this Bill. However, if they have to wait until they can be Bill to benefit from it then the amendments to Abolishment, Mr. President, I support this Bill. I do not have very much to say. I suppose the Bill helping that those things I mentioned will be taken into consideration when we get to Committee Stage.

Saying that this is the last Government will be the Bills which I would like to say on finishing, Mr. President, that in this Meeting we have dealt with some very serious Bills. Some of us have agreed. Others please correct me if I am wrong, but I think that these Bills are important rights. That is an important right. I would like to say, Mr. President, that it is one thing to oppose for the sake of opposition and another thing in order to effect the economic and political amendments which are greatly needed in the country today.

Sir, regardless of how members may think of me, or for that matter how high I may be in others, or for that matter regardless of whether some people feel that I am here to represent, as has been said before, I have pledged to my people that I will face the challenges of my time, that I will struggle relentlessly to change those things both in our economic and in our social life which have adversely to the misery of the people such that we secure their proper place in the brotherhood of man.

Finally, Mr. President, with your indulgence I am coming to a close, Mr. President, and I ask you to bear with me. Nobody will judge whether I am a man of God or not of course. However, in my humble name the humility of Jesus Christ. I love my people. That is why I speak out so strongly, Mr. President, and I believe in dreams of this that I will draw strength from the courage of the people that I will draw strength from this family that I will draw strength from the faith of their help that I will draw strength from the hope of their race. The thing which keeps me going, Sir, is that I will draw strength from the love of human nature. I pray, Sir, that God will bless this little land. I urge and please ask of us to use wisdom to do what our conscience leads us to do.

Thank you, Mr. President, for hearing with me. I appreciate the fact that I know that all reasonable leaders will be the same.

MR. [illegible]: I should like to take the time to keep the Honorable Member from speaking, but I shall be grateful if he will say so right on the question which we are debating.

The Second District Member for Georgia [illegible].

MR. EDWARD A. [illegible]: Mr. Speaker, it was not my intention to speak on this Bill but I have been somewhat surprised by the Second District Member for West Bay. Mr. President, some times Members including myself rise to take [illegible] our criticism is commendable so I hope mine is taken that we not quite right. I feel also, Mr. President, that it is only fair and proper that we should give praise and compliments where they are due.

In this connection, Mr. President, I wish to congratulate the mover of this Bill for a Bill which I think is very timely, and also I would congratulate the architects who put the Bill together. This Bill, Mr. President, we now hold is modelled on the contemporary provisions in the United Kingdom. It is true to some extent but I feel that it is a Bill which should have been on the Statute Book long ago. It seeks to make comprehensive provisions for various criminal convictions to bring about after a period of time and to formalise the unconditional discharges of any such convictions. Mr. President, there is a very positive step forward because it gives the offender a chance to gainfully rehabilitate himself and to be insights back properly into society.

I would not regard any part of this Bill as bad for our people. However, maybe the reason of the Bill could do with somewhat explain why there is no distinction in the Bill. We have under the ordinance the sentence and the rehabilitation period but there could room to be a major criterion to work [illegible] a schedule of offences.

Mr. President, the effect of rehabilitation would seem to put the rehabilitated individual in a very, very good position indeed. "Subject to Section 7 and 8 a person who has become a rehabilitated person for the purposes of this Law in respect of a conviction shall be treated for all purposes in law as a person who has not committed, been charged with, prosecuted for, convicted or sentenced for the offence". I agree, Mr. President, with the Second District Member for West Bay that if a person has spent his time he should not have this hanging over his head for the rest of his life. Surely opportunity should be given to [illegible] the individual rehabilitated. However as he said the rehabilitation period is somewhat reasonable.

On the other side of the coin, Mr. President, subsection (2) of Clause 4 of the Bill reads:-

> "A conviction which has become spent or any circumstances ancillary thereto, or any failure to disclose a spent conviction or any such circumstance, shall not be a proper ground for dismissing or excluding a person from any office, profession, occupation or employment, or for prejudicing him in any way in any occupation or profession."

Mr. Speaker, we have to be very careful with this subsection because we can have professionals who through professional negligence or otherwise may be investigated and sentenced for certain serious [illegible] with our society but being temporarily suspended or rehabilitated, and being placed back into their employment and subsequently receive promotion.

MR. DAVID A. EVANS (LEICESTER): While I think it is good that this subsection should make provision to enable people to subscribe themselves and to also be placed back into society, I feel that we have to be very, very careful indeed. I think that we have to be very, very careful indeed. I think that we have to give very careful consideration where this situation could occur.

Mr. President, as I said, I feel that this is a good Bill. With the exception of the reservations which I have raised I wish to give this Bill my full support.

Thank you, Mr. President.

MR. PRESIDENT: Does any other Member wish to speak? The Honourable Chief Elected Member of Kentucky Council.

THE HONOURABLE A. FINNEGAN: Mr. President, I rise to support a Bill for a Law to rehabilitate offenders who have not been convicted of any serious offence for periods of years to provide the appropriate disclosures of their previous convictions, to amend the Law of Defamation and for connected purposes, hereinafter.

Mr. President, the objects and Reasons is quite clear on this Bill. Many of all, in the Objects and Reasons it is stated that it is to rehabilitate persons of the United Kingdom. Secondly, the Bill seeks to make appropriate provisions for certain criminal convictions to be spent after a period of time, and thirdly to prohibit the unauthorised disclosure of any such convictions.

The Bill for a Law to rehabilitate offenders seeks to express the new Government's intention primarily to rehabilitate as possible. I hope that this Bill will not be misconstrued in any other way as has been attempted with other Bills which have come before this House in this Meeting. The policy of the new Government should have initial doubt in the minds of our people that we have recognised the errors of the past administration in dealing with various criminal offences and in particular the misuse of drugs, and that we are attempting to bring our problems in a more humanitarian manner.

We have, Sir, in my constituency those who break in drugs or who have committed other offences against our society. In one of the earlier debates on another Bill I stressed that our action would encourage people to invest in drugs and other irresponsible social society. Under the past administration sentences were both retributory which only served to fill our prisons and create problems, problems which were difficult enough. We have in this Meeting endeavoured to remove the retributory sentences and are looking to help our people who have committed offences by first making them aware of their responsibilities and secondly giving them a second chance.

This Bill further seeks to rehabilitate as far as possible to help our people return to live normal lives and take their rightful place in society. We are trying a fresh approach to our present problems and instead of driving into lawlessness those who have committed offences against the laws of our Islands, we are through this Bill and other Bills seeking ways and means to have them back into society as a living and useful duty.

The greatest task in these Bills we have to provide here ourselves and that we should be able to help those as we would have others do unto us. Mr. President, this Bill is quite clear and I have given Government's intentions and policy, and I now invite to give this Bill their full support.

I thank you, Mr. President.

MR. SPEAKER: The third Printed Motion for Wednesday.

MRS. MARION L. CORBETT: Thank you, Mr. Speaker. I rise to discuss this Bill for a few minutes. Offenders who have not been successful at any previous efforts for parole of course to centralise the unsatisfactory classification of their previous convictions, to amend the Law of Defamation, and for purposes connected therewith.

Mr. Speaker, I wish to congratulate the mover of this Bill. I think it very wise to consolidate. In fact, I think that the public should welcome this from more persons than once. Subsection (2) of Section 4 is particularly wordy, very commendable because I have known of cases where [illegible] have [illegible] and maybe absolving for ever in their life or for very often unfortunate of the Law and to have back until spoken then for so long. I feel that when it is felt that a person has been rehabilitated and that should certainly be a welcome change in our society.

I also notice here that although there is a list of offences scheduled here which applies to the sentence, in clause stated in Section 5(2) that there now certain sentences mentioned. So, show us one what has been scheduled it should not be too difficult to understand exactly what would be included. Included would be a sentence of imprisonment for life, a sentence of imprisonment for a term exceeding twenty months, a sentence of detention during the Governor's pleasure, and any other sentence to a punishment subject to rehabilitation under this Bill.

I also notice in Section 6 that:-

> "(1) Unspecified terms of imprisonment and terms which are wholly or partly suspended, fines, or imprisonments imposed in respect of offences of which a person was convicted in the same proceedings shall be treated as a single term."

I think that that is very commendable. Also I notice that in Section 7(1):-

> "A sentence imposed by a court outside the Islands which is substantially the same as a sentence of any description mentioned in this section shall be treated as the sentence so described in this section."

I feel that this will be a welcome change in our society. This will also not apply, as we believe on any sentence under Section 6, subsection (1) and (2) and further on down, so I give anyone leave to think that they will be considered rehabilitated and that they will be able to go out and commit another [illegible] and this will still apply.

However, I think that it is a very good Bill. I welcome it. I congratulate the mover. I congratulate the legal draftsman and I commend it to the House.

Thank you, Mr. Speaker.

MR. SPEAKER: If no other Member wishes to speak I will now call on the question that....

HON. LEROY O. SMITH: I would just like to make....

MR. SPEAKER: Oh, I am so sorry. Sir, you spoke again, so the earlier time you did not have any chance to make it. I invite the Honourable Minister of Economic Development to exercise his right of reply. My apologies.

MR. JEREMY D. BENNET: Thank you, Mr. President, and I assure you that I will not be very long. I would just like to thank those Members who supported the Bill either by speaking to it or by not opposing it.

Mr. President, I would just like to touch on two points made by speakers. The first is the point made by the Second Elected Member for East End about the length of time required to elapse before a person is considered a rehabilitated person. I too, Mr. President, thought that perhaps 3 months of time were a bit excessive. However, when one considers that the onus is on the person to first prove that he has indeed rehabilitated himself and the Bill merely gives discretion or status to that rehabilitation, then it is not unreasonable to have a fairly long period there before the person can be considered rehabilitated for purposes of the Bill.

The other one is the question raised as why the offences were not listed in a schedule. Clause 3, Mr. President, states the sentences which can be utilized under this Bill:-

> "(a) a sentence of imprisonment for life;
>
> (b) a sentence of imprisonment for a term exceeding thirty months;
>
> (c) a sentence of detention during the Governor's pleasure,"

The offences for which such sentences can be passed will be found in the Criminal Code. However, one can see that certainly in the case of subsections (a) and (c) the sentences are of a serious nature. As far as subsection (b) is concerned, Mr. President, I considered about that long as well. I think that is why I made an intervention that this be a bit on the short side but I would prefer to move expeditiously with this Bill, Mr. President. If it be found that that precludes us working hereafter, well it will be no big problem to move an amendment to the Bill and change it. However, in light of those matters which have been taken on this Meeting particularly with the receipt of minutes mandatory sentences and so on, I sincerely that this Bill will work well as it is presently looked and I would therefore recommend that we give it a try with the terms as presently expressed. As I said, if we find that we have not met our objectives we can always amend the offending section.

Thank you, Mr. Speaker.

H. E. Jackson Miller: So the Members be now going to entertain votes.

The Speaker: Order, order.

The question before the House be that a Bill shortly entitled The Rehabilitation of Offenders Bill, 1996, be given a Second Reading.

Assistant Clerk: Ayes.

I declare the motion carried.

SB 1 - STATE A. AMEND REVENUE.

MR. PRESIDENT: The House will now go into Committee to study a Bill entitled the State Duty Amendments Bill, 1981 (No. 2) Bill.

THE STAMP DUTY (AMENDMENT) BILL, 1976

COMMITTEE STAGE

MR. CHAIRMAN: The House is now in Committee. A Bill for a Law to amend the Stamp Duty Act, 1976. Before we embark on this and the other Bills, perhaps I could have Councillor's confirmation that Members will agree to following the usual procedure whereby instead of identifying clauses, members just state that kind of thing. We understand the Honourable Second Official Member to answer them when they have not been explicitly mentioned during the Committee Stage of the Meeting. Is that agreeable?

HON. MINISTER OF FINANCE: Yes.

MR. CHAIRMAN: Secondly, it may be considered for convenience if as we come to each Bill I inform the Committee of the amendments of which I have been given notice in respect of the Bill concerned, so that Members may be forewarned that these amendments will be moved when we come to the particular clause. In the case of this Bill for a Law to amend the Stamp Duty Law, 1976 I have been given notice of two amendments, one by the Honourable Third Official Member (Treasury Clerk) and the second by the Second Elected Member for Prospect Town, Miss Jeffrey (Clause 6). So when we come to Clause 6 we will take those amendments.

MR. RICHARD J. HUGHES: Could I help you, Sir, that you might like indicate any amendments of which short notice has been given, because I understand that Members have clarified and crystallized, or are doing so, amendments which will resolve the issue of the Chair.

MR. CRAMER: Yes, indeed. I was hoping to find out if the House is to vote, or jettison the whole of all amendments of which I have been given notice. Since the notice has been abridged these Standing Orders provide I was going to indicate that I was going to allow them. With the two in respect of which Mr. I think that we were given sufficient notice. The major notice I think was by the Union, and I think that the major notice was given with both of those two. Now we can turn to the Bill.

MR. RICHARD J. HUGHES: Without delaying proceedings, Mr. Chairman, there is just one very minor technical point which arises possibly in the exercise of amendment to this Bill and possibly to a further notice of amendment to the Minutes of Proceedings Bill. That is that a notice of amendment was given based upon the white copy circulated to Members. If the notice of amendment is read with the green copy, because of the different layout of it, there is a very technical minor difference. For instance the notice of amendment by the Association should officials Members receive a deletion in the last five lines of paragraph (a). It was five lines on the white copy but it is only three lines on the green copy, however, I take it that you would not rule my objection invalid.

MR. CHAIRMAN: Well, no I think we will deal with this when we come to Clause 1. Otherwise we will.... However, thank you for drawing my attention to that. I had noticed that in one or two cases I think, not just in this Bill alone but in the case of other Bills, amendments have been drafted in a way which refers to the white copy whereas that to the green copy. However, I think that we can work that out as we come to them.

CLERK: CLAUSE 1. SHORT TITLE.

HON. CHAIRMAN:
I declare the motion carried. Clause

Clause 7 agreed to accordingly.

CLERK: CLAUSE 9. AMENDMENT OF AGREEMENT

MR. CHAIRMAN: The amendment to Clause 9 is in your front of you, Bill. If this meeting should approve this I have been given notice of two amendments to be moved to Clause 9. I think that it would be best if we take them as a whole first and then there comes in the middle part of Clause 9. That is the one by the Honourable Chief Official Member of Executive Council and it is the one destroyed of which the Honourable Second Official Member explained that it had been circulated with reference to the White Paper that you seen copy. After we have disposed of that amendment I would propose to move to the amendment which has been put down by the Second Elected Member for George Town. Mr. Speaker, I see that the amendment was actually dated the 14th May, so from the conclusion of the debate I assume that I give him leave to move it even if he was not, and he may not have seen, given the numerous amount of time of reading, so that there will be no doubt about its being properly moved.

Third Official Member wish to explain what he is moving the amendment which stands in his name?

HON. CHARLES C. JOHNSTON: Yes, Mr. Chairman.

MR. CHAIRMAN: I did mean to get two months difference right at the beginning. Mr. Johnston are actually three and I take it that the one which we are discussing is the first....

HON. CHARLES C. JOHNSTON: Perhaps I should....

MR. CHAIRMAN: Perhaps you should read it out and then I will be quite sure.

HON. CHARLES C. JOHNSTON: I move that Clause 9 of the Bill be amended by deleting:-

"Other immovable property which provides that rights under it are not recognizable or transferable by any party thereto."

MR. CHAIRMAN: So the amendment to that Clause 9 of the Bill be amended by deleting the words:-

"Other immovable property which provides that rights under it are not recognizable or transferable by any party thereto."

Those words appear in the white copy in the last five lines and in the green copy in the last three lines of paragraph 9(a) of a proposed new clause to be headed "Agreements or Memorandum of Agreement".

HON. CHARLES C. JOHNSTON: Mr. Chairman, the words "any of the beginning of the second line in the green copy should be terminated and placed between"void" and "thereto" in the first line, I think.

MR. CHAIRMAN: I am concerned about that. I think that it probably is right. Would the Honourable Second Official Member like to advise me?

MR. MICHAEL F. DOUGHERTY: The Honorable Third Official Member and the Honorable Second Official Member have both had a private discussion over the wording of the amendment and I did not catch the exact query.

MR. CHAIRMAN: I'm sorry. Do you desire which the amendment defines, that [a] reads:-

"for the sale or purchase of any land, private title or

$50,000"

The suggestion is that the word 'for' should be moved in some between land and private title.

MR. MICHAEL F. DOUGHERTY: I have just querying with the Honourable Third Official Member, Mr. Chairman, why we are making out the words 'or other immovable property'.

MR. CHAIRMAN: It is basically because the agreement is dealing with the purchase of land and private title, and not referring to other items.

I think, Mr. Chairman, subject to the views of the Honourable Second Official Member, the Hon'ble Member on my [a] further down.

MR. CHAIRMAN: Well, I would accept it did not do

MR. MICHAEL F. DOUGHERTY: any harm, did it?

MR. CHAIRMAN: My, no what I mean is that as the amendment was originally worded it was "or other immovable property". There was not a word "for" at the end of [a]. If there has not originally been a need for the word "for" at the end of [a] I wonder whether there is a need for the word "for" at the end of [a] now. It seems to me that it is more likely that the word "for" should come between the words "land" and "private title" as the Honourable Fourth Elected Member of Executive Council has suggested. However, I am seeking guidance from the Honourable Second Official Member on the point.

MR. MICHAEL F. DOUGHERTY: Yes.

MR. CHAIRMAN: In which case would you agree to re-word the agreement, or would we agree that really what it is doing is applying to agreements that the Honourable Second Official Member should be empowered to carry out if the Governor votes the failure of the amendment and then if the clause as amended originally moved and make the point that the Honourable Fourth Elected Member has made for a slightly re-worded clause.

Does any Member wish to speak to the amendment? If not I will put the question that the clause be amended as proposed by the Honourable Third Official Member.

QUESTION PUT: AGREED BY MAJORITY. AMENDMENT PASSED.

MR. CHAIRMAN: Are you voting against the amendment, not merely against the clause?

U. A. ELIE ESQUIRE: Yes.

MR. CHAIRMAN: Recently, there is an amendment proposed by the Second Elected Member for Georgetown South and I would invite him to read out his amendment, ...

MR. LINDEN A. PINDWARD: Mr. Chairman, I move under Clause 9 of the Bill to amend by the deletion of the numerals 4½% as they appear at the end of subparagraph (a) of paragraph (b) under the (a)(ii) "Assignments" and the substitution therefor of -

"For the first assignment $150

For any subsequent assignments at 7 1/2% per cent of the consideration".

The reason for this, Mr. Chairman, is that this amendment seeks to provide any possible loophole in the Bill which could be abused by persons seeking to assign land or other immovable property under Crown lease for the 4 1/2% per cent stamp duty. The idea here, Mr. Chairman, is to try to avoid any speculation or trafficking being made through these assignments and that any profits being made should be subject to 7 1/2% per cent stamp duty.

MR. THOMAS C. LEPPENCE: Mr. Chairman, the reason why I support the hon. Member's proposal by seeking this amendment and move on Clause 9 to delete that I wonder if we could not have a bit more certainty now under (a) of the amendment. I read:

"For the first two assignments $150

For any subsequent assignments at 7 1/2 per cent of the consideration".

Will it not be one of those which would possibly need litigation to decide and I think that normally the consideration given for an assignment, if we put the amendment through as it is presently worded, it will not be the case of persons a project will ultimately benefit. I think that if the Mover would be willing to accept an amendment where it would read:-

"For the first two assignments $150

For any subsequent assignments at 7 1/2 per cent of the consideration".

I would find it more comfortable.

MR. WINSTON A. GRIFFITH: May I just mention a technical point, Sir. I would be grateful if the word "Deed" also added before the first, otherwise there is an ambiguity as to whether the duty of $150 is payable on the execution of the first two assignments. I seek to move to clause 9(a) on page 4 of the first line.

MR. CHAIRMAN: Does the "Deed" come after the $150 or

MR. WINSTON A. GRIFFITH: It would then read, Mr. Chairman:-

"For the first two assignments each $150",

MR. CHAIRMAN: Is the Honourable Third Opposition Member planning to move an amendment to an amendment already, which I think he can in under Standing Order 37(1), or is he withholding the Second Elected Member for Castries Town to somewhere amending his own amendment?

HON. DESMOND C. CHARLERY: I am absolutely not to second Mr. Chairman.

MR. CHAIRMAN: Would the Second Elected Member for Castries Town move to amend an item?

MR. CYRIL A. PILGRIM: Mr. Chairman, I would be very happy with the amendment to this proposed amendment. For the amendment to read:

"For the first two amendments each $100

For any subsequent amendments at 7 1/2 per cent of the consideration".

That would be fine, Sir.

MR. CHAIRMAN: I think that I am allowed to permit you to alter the wording of your amendment. We had this with a motion the other day did we not? We found that I was empowered to allow somebody who had moved a motion to amend it. It is known to me unfortunately that I can let you. However, let us just look at standing orders carefully.

HON. ALPHONSE J. EDWARD: I think that the relevant Standing Order is 37(7) which we referred to before.

MR. CHAIRMAN: Yes, I think that it is applicable to us now?

HON. ALPHONSE J. EDWARD: In any case Standing Order 37(1) is relevant where:

"An amendment to an amendment may be moved and proceeded with any time".

MR. CHAIRMAN: I think that possibly the way we have worked it is more a substitution rather than an amendment. If the Honourable Third Official Member had been moving it it would naturally be an amendment to an amendment. However, it does arise if it is a substitution. It seems to me that I can properly accept the substitution.

So the question now is that Clause 6 should be amended by deleting the words in their entirety at the end of subparagraph (a) of paragraph (5) under the title "Assignment", and the substitution thereof -

"For the first two assignments each $100

For any subsequent assignments at 7 1/2 per cent of the consideration".

HON. ALPHONSE J. EDWARD: Yes, Sir.

MR. CHAIRMAN: Does any Member wish to speak further to that? Then I will put that question that Clause 6 of the Bill be amended as proposed by the Second Elected Member for Castries Town.

QUESTION PUT: AGREED BY MAJORITY. AMENDMENT IS PASSED.

MR. CHAIRMAN: I do not have anything of any further assistance. The question therefore is that Clause 9 as the Committee has stand part of the Bill. I will put that question.

QUESTION PUT: AYES AND NOES.

MR. G. WILLIS PRICE: Mr. Chairman, may I have a division please?

MR. CHAIRMAN: I declare the motion carried. Clause 9 as the Committee stands part of the Bill.

CLAUSE 8 AS AMENDED AGREED TO BY MAJORITY.

CLERK: A BILL FOR A LAW TO AMEND THE STAMP DUTY ACT, 1974.

MR. CHAIRMAN: The question is that the Title and Preamble Clause stand part of the Bill.

QUESTION PUT: AGREED. THE TITLE WAS AGREED.

MR. CHAIRMAN: I suggest that before we move to the Committee Stage of the Penal Code (Amendment) Bill, 1976, we might take our customary morning break. I do not see any particular reason why we should not take it straight from Committee and resume straight in Committee. We'll do so then.

I will suspend proceedings for refreshments by ten minutes.

AT 11.25 A.M. THE HOUSE SUSPENDED

COMMITTEE RESUMED AT 11.50 A.M.

MR. CHAIRMAN: Please be seated.

The next Bill on the Order Paper is the Road Cess (Amendment) Bill, 1986. I am told that as a result of the Central Standing Orders we have still the Honourable Second Official Member in presenting the Select Committee Stage amendment which will be moved, if leave is granted, shortly. In the meanwhile on the list key notice was given of some Committee Stage amendments. It was a simple notice which encompassed three amendments to Clause 2 and one amendment to Clause 5. Apart from the amendment namely under proposition which I referred to some ago, these are the only amendments of which I have been given notice so far.

What I suggest to the House at this stage? Considering the amendments of which we have been given notice, and with the further amendment be available and if necessary we can have back to it.

THE ROAD CESS (AMENDMENT) BILL, 1986

COMMITTEE STAGE

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1 AGREED.

CLERK: CLAUSE 2. AMENDMENT OF SECTION 23 OF ACT 17 OF 1970.

HON. MICHAEL J. BRADLEY: Perhaps, Mr. Chairman, since this is the first of the clauses which the amendments with, proposition....

MR. CHAIRMAN: Clause 2? I see.

HON. MICHAEL J. BRADLEY: Not yet. Before Members retire to their bishops I would explain my thoughts upon this amendment.

In a meeting of the House, I think it was last year or 1985, we provided for the concept of wholly suspended sentences which although on the original 1970 provision of wholly suspended sentences. In both this Bill which is Clause 2 seeks to do with purely suspended sentences and the power of the present substantive law dealing with wholly suspended sentences, there is presently a provision which contemplates the court's power to wholly or partially suspend any offence under the Bylaws of Anguilla. Now, I had in mind at once the feeling of Members having the opinion that the courts should be able if they thought fit and proper, to partially or wholly suspend a sentence which was being given under the Bylaws of Anguilla. It is to give effect to that power that the amendments which is presently being Notwithstanding related.

MR. CHAIRMAN: Does that affect Clause 2?

MR. THOMAS A. DUNLOP: Yes, because Clauses 2 of the Bill presently deals with an amendment to Section 33 of the Penal Code. Section 33, subsection (6) of the Penal Code provides:

"The power to suspend a sentence pursuant to subsection (4) may not be exercised in respect of a sentence for ... any offence against -

(a) section 187;

(b) the Misuse of Drugs Act, 1973;"

So that is why we would be seeking to amend. If it were the wish of the House, Clause 2 of the Bill.

At the moment the position is that a court cannot suspend a sentence if it is for an offence against the Misuse of Drugs Act. This has been the position since the Penal Code (Amendment) Act, 1979.

MR. CHAIRMAN: I see. I have just been given now, and I hope all other Members have been given a copy of the additional Committee Stage amendments, one to Clause 2 and one to Clause 3, which you are seeking leave to introduce. In terms of Standing Order 32(2) I grant leave for these amendments to be moved at this current sitting. I wonder whether you would like formally to move the amendment to Clause 2, the purpose of which you have just explained.

HON. MICHAEL A. CUBBON: Yes, Mr. Chairman. Thank you for having been granted. I would now move that Clause 2 of the Bill be amended by deleting-

", and is further amended in subsection (6) by -

(a) adding "and" at the end of paragraph (a);
(b) deleting paragraph (b); and
(c) redesignating paragraph (c) as paragraph (b)".

This, Mr. Chairman, is the only de minimis amendment that the effect of it is that if we pass this proposed amendment to Clause 2, that it will enable the courts, if they think fit, to consider and impose wholly suspended sentences in relation to misuse of drugs offences, which is a power which they presently do not have.

MR. LAWFORD A. PICKERING: Mr. Chairman, I suppose if the Honourable Second Official Member could explain this a little further, because I have been looking at the subsidiaries that have been added to this clause, (a), (b) and (c). I am wondering whether the subsection (b) which is referring to is the removal of Section 33 or Section 187(2)?

HON. MICHAEL A. CUBBON: Mr. Chairman, in 1979 by Law No. 10 of 1979, which has entitled the Penal Code (Amendment) Law, Section 5 of that amending Law added in Section 33 of the main Law two more subsections which are subsection (4) and subsection (5). Subsection (5) says :-

"The power to suspend a sentence may not be exercised in respect of a sentence for any offence against -

(b) the Misuse of Drugs Law, 1973;"

SEN. MATHIAS: I'm perfectly willing to delete that parenthetical phrase, Mr. Chairman, so that the intent, if it existed, could hardly surround a sentence in relation to a drug offense.

MR. D. BRIAN HUSER: Mr. Chairman, maybe the Honorable Senator Mathias can explain why he thinks that it is necessary for subsection (a) to remain? That is subsection (a)(1) of Section 1010 of the Traffic Law. Or does that have to be used nonetheless, in whole or number?

SEN. MATHIAS: Perhaps the Clerk could be kind enough to give me a copy of the Traffic Law and I will endeavor to answer that. Or perhaps the members who were members of this House when they passed this law in 1973 could enlighten me?

MR. CHAIRMAN: It is certain sections of the Traffic Law.

MR. D. BRIAN HUSER: Yes, Sections 65, 69, 80 and 70. I thought you all agreed....

MR. CHAIRMAN: There are certainly certain sentences for certain offenses under the Traffic Law. I think, like anything would disqualified and it may be that this was put in to keep the records from suspending an otherwise meritorious sentence. I am speculating but there is possible.

SEN. MATHIAS: If it pleases the Chair, I would move that the only offense for which a mandatory sentence can be applied under the Traffic Law is an offense for obtaining a license or driving while disqualified, an offenses punishable by imprisonment. Any other offense under the Traffic Law, any person may have a mandatory suspended sentence. He presumes the power to wholly suspend a sentence is not applicable to Section 1010 of the Penal Code which is manslaughter, by reason of these two offenses and to all Traffic Law offenses except the two which I have mentioned.

I really have no idea why it was passed in that form in 1973, Sir.

MR. D. BRIAN HUSER: Mr. Chairman, I really cannot see an offense such as one of those offenses under the Traffic Law being regarded as more serious than offenses under the Penal Code. Those manslaughter things is already accepted under the Penal Code. So I would like to move a further amendment that subsection (a) be deleted.

MR. CHAIRMAN: Can you explain again, what is it in respect of Traffic Law offenses which cannot now be the subject of a suspended sentence?

SEN. MATHIAS: Mr. Chairman, it says that the power to suspend a sentence may not be exercised for any offense against the Traffic Law save for offenses against Sections 511(1) or 70. This means that the court has only power to exercise to Traffic offenses to suspend a sentence when it is a mandatory for an offense contrary to the section for obtaining a license or driving while disqualified, or Section....

MR. CHAIRMAN: Contrary to driving while disqualified

SEN. RICHARD J. DOGGETT: Sen. Eck, would the law as it presently stands that the court can suspend a sentence which is mandatory under the law of driving while disqualified.

SEN. D. EDWARD HEMMER: Then it cannot suspend...

SEN. DOGGETT: It sounds like it has got to the second one, Howard.

SEN. MICHAEL J. HALLIGAN: I suspect that in 1979 the Legislature were put in the wrong way round at that time.

SEN. D. EDWARD HEMMER: It does not make sense to me, Sir. That is why I think that it should be changed.

SEN. RICHARD J. DOGGETT: It was brought to the attention of the Senate by their own officers...

SEN. DOGGETT: What is the second?

SEN. RICHARD J. DOGGETT: The second offence in respect of which I presume the court can wholly suspend a sentence is Section 53 of the Traffic Law which says:-

> "Whosoever - which pertains to females, you know -
>
> (a) attempt, wash, female, or attempt to be named, dies; or
> (b) makes or has in his possession anything necessary

which is said with language:

> " or
> to make any false statement or withhold information in order to obtain, or
> (a) renew either holder of registration or privilege, any certificate, permit, license, or other document, is guilty of an offence and is punishable upon summary conviction with a fine not exceeding $100 or with imprisonment for a term not exceeding 30 days or with both, or upon indictment, with a fine not exceeding $500 or with imprisonment for a term not exceeding two years or both."

I would point in reinforcing the interpretation on the normal freedom in relation to the Traffic Law personally.

SEN. H. NORMAN ZONTEK: Mr. Chairman, maybe I am misunderstanding this but when I read this I got the impression that it was different between traffic offences and more serious traffic offences. I think that we should be careful that we do not allow many serious traffic offences to be included in this section.

SEN. DOGGETT: Yes, I think that the trouble is that the law as it presently stands is allowing the courts to suspend sentences which are otherwise mandatory, because maybe the whole code is wrong. In enacting the Legislature back in 1979, the consequences were... I think that is going to be difficult to work this out and get it straight.

MR. D. EDGAR HARRIS: I think that the best thing to do is to just drop it and forget about it, Sir, while I mention that the history of offences in this country has been that the more offences one could even remote were either against the Highway Act or against the Traffic Act, everything else was looked at as a different light. I think that it is time to restore the traffic offences to their rightful misdemeanour status and not....

MR. CHAIRMAN: Are most of the more serious type of traffic offence like causing death by dangerous driving or driving while disqualified offences under the Traffic Act or under the Penal Code or something else?

MAJ. MICHAEL J. ZIMMERN: The Traffic Act, Mr. Chairman, causing death by dangerous or reckless driving, reckless and dangerous driving, careless driving, driving while disqualified are all in the Traffic Act as offences which are dealt with by the Traffic Court. The only ones which one can give exceptional sentences for are the ones which I mentioned, namely dangerous and driving while disqualified.

MR. D. EDGAR HARRIS: Which carry mandatory sentences?

MAJ. MICHAEL J. ZIMMERN: In respect of the second offence, driving while disqualified it is a mandatory sentence. Whoever drives while disqualified is guilty of an offence and shall on summary conviction be sentenced to six months hard labour for a term not exceeding two years, and in addition to such punishment shall be disqualified from holding any vehicle for a period of two years.

MR. CHAIRMAN: Assuming, as the Bill now stands, the Court could impose that mandatory sentence but that would be? Whereas it could not impose a suspended sentence in respect of careless driving.

MR. D. EDGAR HARRIS: Not for dangerous driving. Not even for causing death, Sir.

MR. CHAIRMAN: Not even for causing death.

MAJ. MICHAEL J. ZIMMERN: Perhaps, Mr. Chairman, whether that is a widely declared or not, those that had the misfortune of the Traffic Law suspended sentences like in Singapore, I will undertake that the Bench to take up the matter with the Traffic Department, and see if I can ascertain whether there is any good reason why that law be so framed.

MR. D. EDGAR HARRIS: They are going to move with it because it is framed so.

MAJ. MICHAEL J. ZIMMERN: Not only that, Sir, but I think that is the declaration of the Member to go through every Traffic Bill with a view to remove some harsh provisions.

MR. CHAIRMAN: I certainly believe it is time that some of the Traffic Law is under review. I should like a little enlargement on the full effect of what it may not legally do. Now, particularly when it is not really understood why the present law stops what it does and certainly it is a possibility to find out. I think that it might be wiser to accept the undertaking that the Member will look at and that legislation will be brought in so that it would not have a mixed patchwork effect. Secondly, it is just a question of what exactly it would be wiser to do.

MR. R. DONALD NICOLL: I will accept that, Sir.

MRS. MICHAEL J. HOOPER: Then, Mr. Chairman, perhaps my motion is unnecessary....

MR. CHAIRMAN: That is right.

MR. R. DONALD NICOLL: I will withdraw the amendment.

MR. CHAIRMAN: Yes, so the question now before the Committee is that Clause 8 stand part, and perhaps I had better read it again, by adding -

"8. And be further amended in subsection (2) by -

(a) adding "and" at the end of paragraph (a);
(b) deleting paragraph (b); and
(c) redesignating paragraph (c) as paragraph (b)".

The effect of that has I think been fully explained to Members.

QUESTION PUT: AGREED. AMENDMENT PROPOSED.

MR. CHAIRMAN: I have not received any further amendments to Clause 8 so the next question is that Clause 8 as amended do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 8 AS AMENDED ORDERED.

NEW CLAUSE 9. INSERTION OF NEW SECTION 33A.

MR. CHAIRMAN: The question is that Clause 9 do stand part of the Bill and in respect of Clause 9 there are three amendments standing earlier in the name of the Honourable Second Official Member in a table which must stand on the first day, and there is another amendment which is on the green sheet of paper as the amendment to Clause 9 which we have just discussed. Of the various amendments, one is to subsection (2) of the newly inserted 33A, one is to subsection (3) and another is to subsection (5). So I will take them in that order if I may. That is to say I will take first the amendment which is to subsection (2) of the proposed new section 33A. Maybe the Honourable Second Official Member would be kind enough to move that now?

MRS. MICHAEL J. HOOPER: Yes, Mr. Chairman. I beg to move that Clause 9 be amended by the deletion in the sixth line of subsection (2) of the words to be inserted section 33A, of the words "shall" and the substitution therefor of the word "must".

This is a very minor technical amendment which makes it clear that the normal procedure is that the owner shall not be required to surrender his certificate of registration but that he must forward it with the notice following subsection 2(a)(i). It just strengthens slightly the meaning of the words in the subsection. It will then read:-

"A surrender under, as defined in subsection (2), shall require that the certificate held by the registered owner be surrendered to the Registrar."

This is subject to the making of special regulations not to be in the following subsection.

MR. SMITHSON: Ok a very minor point in case it should any Member, the paper which went around a while ago giving notice of the amendment, said that Clause 3 should be moved by the deletion of the first line of subsection (4). This must be referred to the white copy. You must cut the right line today because it is the clerk then on the green copy.

Does anybody want to speak to that amendment?

HON. PETER D. SEARLE: What I am not quite clear on, Mr. Chairman, is whether the amendments proposed further to amend, that the amendments you have moved of his just completed statements. That is, "subject to the provisions of subsection (4)" or whatever? The notice I have does not help me on it....

MR. H SEARLE HIGGS: If he does not mind that on it....

HON. MICHAEL J. SHADDICK: No, it was just my explanation of what happens in the machinery of the court's procedures.

MR. SMITHSON: It is not necessary to say it because subsection (4) of the Clause as printed provides for the point.

MR. H. SEARLE HIGGS: Mr. Chairman, is changing the word "may" to "shall" does not also cancel subsection (4), if it says that it "shall" mean the same thing as "may" means.

HON. MICHAEL J. SHADDICK: The notice to what the wording of the notice might be it should be in the proper still, however it says in pursuance of which any time the offender commits another offence. Your subject to subsection (4), a competent court, or failing to subsection (4), may exercise some of the powers". Therefore, then, subsection 4) goes on to say:-

> "If the court, notwithstanding the aforesaid provision of the opinion that, in view of all the circumstances which have arisen since the order was made, it would be unjust to exercise the part of the aforesaid power, it shall otherwise exercise a lesser part or decline, with reasons stated, the decision to make no order under the subsection".

What the subtraction of "shall" for "may" does also is to make it clear that the normal course is to exercise the powers, but the circumstances which I am seeking to make it so may otherwise grant the court's rights under subsection (4) for different reasons to somebody or anybody fail to exercise it.

MR. H. SEARLE HIGGS: As long as it does not take away that discretion I am happy with it.

HON. MICHAEL J. SHADDICK: No, it does not.

MR. CHAIRMAN: So, it was in fact, I think I am right in saying, the discretion which suggested the amendment.

HON. MICHAEL J. SHADDICK: Yes, and one of the advantages which it has is that each person liable also to a suitable legal discussion.

MR. CHAIRMAN: So, I will put that question that Clause 3 be amended in the proposed new subsection (2).

QUESTION PUT: AGREED. AMENDMENT I AGREED.

MR. MICHAEL J. BRADLEY: May I now move, Mr. Chairman, that Clause 3 be amended by the deletion, in the first line of paragraph (a) of subsection (3) of the newly to be inserted section 23, of the word "by" and the substitution therefor of the word "in".

As proposed it will read that the Bill

"may be dismissed, cannot now be challenged on any basis",

the more correct wording be:-

"cannot be challenged on any basis".

I should have asked more just to do a typographical error but I apologise....

MR. CHAIRMAN: (INTERPOSED): It is a very technical, legal point.

I will put the question that Clause 3 be amended in the manner just indicated.

QUESTION PUT: AGREED. AMENDMENT IT PASSED.

MR. MICHAEL J. BRADLEY: Subsection (7). I would now be move, Mr. Chairman, that Clause 3 be amended by the deletion, in the penultimate line of paragraph (a) of the newly to be inserted section 23, of the word "Ministerial" and the substitution therefor of the word "ecclesiastic".

As proposed, it says:-

"For the purposes of this section, a nominee of [illegible] issued in an affidavit in support with an order under subsection (2) shall be treated as having been granted [illegible] by the court by which he was [illegible] nominated."

I note, it has been suggested by the Judiciary that the technically correct word ought to be to put by which he was originally nominated instead of "ecclesiastic" mentioned.

MR. CHAIRMAN: I will put that question.

QUESTION PUT: AGREED. AMENDMENT TO BILL.

MR. CHAIRMAN: We move now to the amendment to Clause 3 which was included on this morning's Bill.

MR. MICHAEL J. BRADLEY: I would ask leave of the Chair to move Members supplementary notice.

MR. CHAIRMAN: Yes, I granted that permission.

MR. MICHAEL J. BRADLEY: I beg to move, Mr. Chairman, that Clause 3 of the Bill be amended in subsection (2) by -

(a) deleting paragraph (b); and
(b) substituting paragraph (a) as paragraph (b).

MRS. MICHAEL F. DIMOND (Continued): Mr. Chairman, if I may continue what we planned on to be on the queue still where do we go to amend a sentence under the Statute of Drug Use (Revised). The object of this amendment as Committee Whips is to delete the non-applicability of partially suspended sentences to offenses under the Statute of Drug Use so the term mentioned in the amendment by Clause 2 did do to wholly suspended sentences.

MR. CHAIRMAN: Would it be fair to say that the understanding which you gave to the Committee to look into the question of amending the present Alcoholic Beverages Control Act, the applicability of offenses under the Seattle Law-Wholly suspended sentences would have to respect of partially suspended sentences also? In other words even though we pursue the proposed new language in lieu of the proposed subsection (2) and thereby continue under Seattle offenses, you will look into the question of whether...

MR. MICHAEL J. PEABODY: I am happy to give that understanding, Mr. Chairman, the intention to partially suspended sentences as well.

MR. CHAIRMAN: The question, Counselors, is that Clause 2 be amended in subsection (2) as explained by the honorable Senator Michael Peabody. Unless someone wishes to speak I will put that question.

QUESTION PUT: ADOPTED. AMENDMENT IS CARRIED.

MR. CHAIRMAN: The question now, Counselors, is that Clause 2 be amended in the four separate ways which the Committee has agreed should form part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 AS FOUR TIMES AMENDED AGREED.

CLERK: CLAUSE 3. SUSPENSION OF DRIVER'S LICENSE.

MR. CHAIRMAN: The question is that Clause 3 do stand part of the Bill. I will put the question.

MR. M. MACKENZIE BIGGS: Mr. Chairman, on my debate, Sir, I do notice that Clause 3 was something which I assume was accepted. For, I think it was Clause 4. This deals with the enforcement by distress warrant of fines.

Mr. Chairman, for the record I just want to point out that I am objecting this section because it talks about there to be one fine system take away a bicycle. I am just using simple language here so that everybody understands what I am talking about. If a person is caught stealing a bicycle without a light, he is charged a fine and cannot pay it, his bicycle cannot be taken away from him. It is very simple, Mr. Chairman, but it would cause further inconvenience if it is not changed I cannot support it.

MR. G. BRUCE CHOUINARD: Mr. Chairman, it is much worse than that. Widows have disqualified because they could not pay fines.

HON. MICHAEL J. PEABODY: And if it was a fine section they should.

MR. M. MACKENZIE BIGGS: You are talking about this decision but what about if somebody is caught with one ounce of pot, and cannot pay the fine if it is taken to court?

MRS. MITCHELL J. CHESLEY: May I remind businessmen Members that the penalties have never been such that default is made the right reason to warrant for the levy of bank fines or other sum on the movable or immovable property by distress and I should be glad to say that the court should have power to levy the warrant, if it believes expedient to do so, postpone the issue of the warrant until such time and on such conditions, if any, as it thinks just. The magistrates could in short the court could say, "Right we shall not issue you the warrant. We shall postpone it until you are back at work and able to pay". It is not mandatory that distress should be the method of enforcement. It is up to the court.

DR. F. MORGAN AUSU: Mr. Chairman, I am not throwing any aspersions on our good judges in this land. However, we must look at the future, Sir, and what could happen. We could give someone bail and check it says "pay", they might just do it for a period of months on just reading out rights as a lawyer.

MRS. JACQUELINE C. FYNN: Mr. Chairman, I should further point out also on the statutory section 24 of the Penal Code, enforcement warrant, it is already possible to levy against the property, Sir. This is only reinforcing it and giving the procedure as to how to enforce the provision to already there as I see it.

DR. F. MORGAN AUSU: On further point sir, Mr. Chairman, just because it is in the Penal Code I am asking and saying that it should be enforced. That section should be taken out because I do not agree with it. It is wide. Its scope is very wide.

MR. CHAIRMAN: What the Member is saying is that it is in the Law already.

MR. LAMPTEY A. OKERTEY: Mr. Chairman, I believe that the Committee should direct Counsel to look at the Section 24(2)(b) because it does go on to say:-

"Provided that if the sentence provides that on default of payment of the fine the offender shall be imprisoned, and if such person has undergone the whole of such imprisonment in default, he cannot again be imprisoned unless for special reasons."

MR. EDWIN A. ADAMS: That does not cover what I said.

MR. LAMPTEY A. OKERTEY: Mr. Chairman, I may have misunderstood the Member but I think that he was really suggesting here that the Supreme Court should be looked at instead of a fine, because that Section 24(2)(b) states that there could be imprisonment in lieu of a fine.

MRS. MIRIAM J. ERASMUS: Mr. Chairman, if I may say, my understanding of the present section 24(2)(b) is that the provision says that if you have served your imprisonment that you cannot be double punished by saying the Supreme Court we will impose some penalty. If I am fined $1,000 with an default three months' imprisonment and I have been in prison for the three months, then there is no other function to distress for the $1,000.

MR. LEONARD A. STADNICK: Mr. Chairman, while it is entirely the point we're making. I don't think it is reasonable irresponsible for this amendment to impose on an individual, to deprive him of his rights of having [illegible], if he feels that he wants to spend the time in prison, until about to have his assets taken by the Veterans Government. I do not, I think that's a very dangerous clause in this bill. I am I said in my debate. I'm afraid that I am not able to support it in its present form. I would like to see some encouragement in it, even though I appreciate the Honorable Second Official Member could then [illegible] I propose [illegible] or the clause 844.(3), also as it may [illegible]. So, I have a lot of faith in the [illegible]. I have no doubt that they will do what is right. However, it still seems to me unreasonable unnecessarily [illegible] of his rights.

MR. NICHOLAS J. SPARAGNA: I do not think really that anybody in our town should be given the authority of having written determination as to how the sentence of the court should be carried out.

MR. DARRYL E. DUCETT: Mr. Chairman, I agree with what the Honorable Second Official Member just said but I also think that we should look at Section 4.844.(2). It states that:-

> "Where a court has power to issue a writing under subsection (1) it may, if it thinks it expedient to do so, postpone the issue of the warrant until such time as such conditions, if any, as it thinks just".

I think would seem to me that there is a wide open hole, a wide range of possible. If the court does that it is depriving a man of everything he has, especially at that juncture this under just reasons and [illegible] the terms of the warrant. Maybe they can allow the person, and I like it to mean this, either time or double an [illegible] form of payment or something of the sort.

MR. W. MORRISON DUCEY: Where does it say that? It does not say that on the bill.

MR. LEONARD A. STADNICK: Mr. Chairman, I think that the Second Official Member for West may be quite right.

MR. DARRYL E. DUCETT: So you can put?

W. M. MORRISON DUCEY: It is so.

MR. LEONARD A. STADNICK: We may reserve whatever we want to build into this but specifically as it is not stated there. I think that I just came through completely by the Second Vice-Chairman from West. Any of a child having his property taken away because he might not pay a fine, should not be taken too lightly, because that could really [illegible] we might as well. I believe that it has to be very careful that we don't do I mean there is some question under this bill for the [illegible], I believe that it need to be very careful.

MR. W. MORRISON DUCEY: Mr. Chairman, I think that we are not going to get this resolved as the night as will go on. Since I started it I just came to say that I think that it should be withdrawn. I [illegible] happens it is all already to my personal knowledge of who might [illegible] what they think.

SEN. M. MANSFIELD MOVED (CONTINUING): We cannot sit down here when the things we are for are in front of us and talk about thinking and what it might do. Does anybody know what it will do? We are not suggesting anything except that maybe this is the time to look at the figures. This is my amendment today, not what we have had on the Senate; this we might get on the Senate.

SEN. M. HAZE BROWN: Mr. Chairman, if I may have one word. If she could be told about this session, what it is doing is making it clear that the Governor appoints in an alternative to sending the persons to prison. This is what we do not want. It is clear. The sentence on this side does to understand it. It does not apply only to drugs. It could be simple offenses like riding a bicycle without a light. If the person is fined $10, not only the bicycle could be sold but his house could be sold. The question is still valid. I could in my debate yesterday on the day we dealt with this that if is Governor can use for I am concerned. I will not change this, have other forms besides the Governor alone here.

SEN. CHRISTIAN: In that case I will put the question. It remains Senators, the question is that Clause 2 of the stand part of the Bill.

CLAUSE TWO: YEAS AND NOES.

SEN. M. MANSFIELD SAID: May we have a division, Mr. Chairman?

DIVISION
NO. 20

AYES

Sen. Dennis R. Becker
Sen. Michael F. Bentley
Sen. Edward C. Heffernan
Sen. Benson D. Hughes
Sen. K. Norman Swanson
Sen. Capt. Charles L. Winkenwerder
Sen. Vernon G. Nelson
Sen. Dennis E. Owens
Sen. Bobby R. Richmond

9

NOES

Mr. M. Mansfield Wood
Mr. Clifford A. Simonsen
Mr. C. Kelly Snider
Mr. D. Edward Miller

4

SEN. M. MANSFIELD MOVED: I know what he would say, Mr. Chairman.

I withdraw part of the Bill. I second the motion carried. Clause

CLAUSE 2 PASSED BY MAJORITY.

NEW CLAUSE 3. ... AMENDMENT OF SECTION 20.

SEN. CHRISTIAN: Notice was given of one Committee Stage Amendment to Clause 3 by the Honourable Second Official Member, and I will ask him to move his amendment now.

MR. EDWARD F. REILLY: Mr. Chairman, I beg to move that Clause 6 be amended on paragraph (a), by the deletion of the words "a permit" in the last line thereof and the substitution therefor of the words "a ticket".

Mr. Chairman, as I explained in my Second Reading speech proposing this Bill, in view of all the other provisions in the Bill I think that it is unnecessary to have a penalty period of such a large magnitude for fines exceeding $7,000. I am happy to reduce it to what it was and in the alternative I am merely proposing the deletion of "a permit" in default.

MR. SPEAKER: The question is that Clause 6 be amended in the manner just outlined by the Honourable Second Opposition Member. I will put that question.

QUESTION PUT: AGREED. AMENDMENT PASSED.

MR. CHAIRMAN: The question now is that Clause 6 as amended do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 6 AS AMENDED PASSED.

CLERK: CLAUSE 8. INSERTION OF NEW SECTION 314.

MR. CHAIRMAN: The question is that Clause 8 do stand part of the Bill.

QUESTION PUT: YEAS AND NOES.

MR. G. ALEC BROOKS: Mr. Chairman, may I have a division please?

DIVISION NO. 26

YEAS	NOES
Hon. Donald R. Foster	Mr. G. Alec Brooks
Hon. Michael J. Breslin	
Hon. Thomas C. McPherson	
Hon. W. Ronald Dodsen	
Lt.-Col. Charles S. Richmond	
Hon. Russel G. Johnson	
Mr. K. McNeil Hunt	
Hon. Stephen D. Cassidy	
Hon. Sanford A. Pinsent	
Hon. Shirley S. Richmond	
Mr. E. Ronald Wilson	
11	1

MR. CHAIRMAN: I declare the motion carried. Clause 8 agreed to.

CLAUSE 8 AGREED TO UNANIMOUSLY.

CLERK: CLAUSE 7. INSERTION OF NEW SECTIONS 35A AND 35B.

MR. CHAIRMAN: The question is that Clause 7 do stand part of the Bill.

AMENDMENT PUT: AGREED. CLAUSE 7 AGREED.

CLERK: A BILL FOR AN ACT TO AMEND THE PENAL CODE (CAP 10 OF 1930).

MR. CHAIRMAN: The question is that the Title and Enacting Clause do stand part of the Bill.

AMENDMENT PUT: AGREED. THE TITLE WAS AGREED.

MR. CHAIRMAN: Hon Ali a Bill for a Law to amend the Penal Code (Amended). In respect of it I have two Notice of Amendments, both to be moved by the Attorney-General officially, notice of which have given respectively on the 8th and the 22nd May. They affect Clauses 2 and 5, and 8 and 12 of the Bill. Since the notice has been given there is no need for special leave and we can take them up now order to that.

THE MISUSE OF DRUGS (AMENDMENT) BILL, 1986

COMMITTEE STAGE

CLERK: CLAUSE 1. SHORT TITLE.

MR. CHAIRMAN: The question is that Clause 1 do stand part of the Bill.

AMENDMENT PUT: AGREED. CLAUSE 1 AGREED.

CLERK: CLAUSE 2. AMENDMENT OF SECTION 2.

MR. CHAIRMAN: The question is that Clause 2 do stand part of the Bill.

AMENDMENT PUT: AGREED. CLAUSE 2 AGREED.

HON. G. KATO NDIWA: May I have a division please, Mr. Chairman?

MR. CHAIRMAN: On Clause 2?

HON. G. MULI MUSYOKA: Yes.

MR. CHAIRMAN: Yes, certainly if you wish.

HON. G. MULI MUSYOKA: Oh, I am sorry it is Clause 3 I seek.

MR. CHAIRMAN: I thought that it was probably Mr. Kato that was wanted the division. So no division on Clause 2, is that all?

Clause 3, there is already notice of two Amendments and I will invite the Honourable Second Official Member to move it.

HON. MICHAEL J. MANSFIELD: Mr. Chairman, I beg to move that Clause 3 of the Bill be amended in paragraph (a) thereof by -

(a) the deletion of the word "this" in the first line thereof; and
(b) the deletion of the word "Minister" in the third line thereof and the substitution thereof of the word "Act".

This again is a minor technical improvement in the language of the introductory part of this clause which has been suggested by the Parliamentary Counsel.

MR. CHAIRMAN: The question then is that Clause 3 of the Bill be amended in the manner just moved by the Honourable Senator Official Leader. I will put that amendment.

QUESTION PUT: AGREED. AMENDMENT PASSED.

MR. CHAIRMAN: The question now is that Clause 3 as amended do stand part of the Bill.

QUESTION PUT: AGREED ON DIVISION.

HON. C. WALTER BOSLEY: May I have a recital, Mr. Chairman?

DIVISION
NO. 41

AYES.

Hon. Deenie A. Beaton
Hon. Michael J. Brayley

CLAUSE 3 AS AMENDED AGREED TO ON DIVISION.

CLERK: CLAUSE 4. INSERTION OF NEW SECTION 6A.

MR. CHAIRMAN: The question is that Clause 4 do stand part of the Bill. However, I have apologies to the Committee because when I was mentioning the amendments that is to be proposed to this Bill, I forgot to mention because I have previously misplaced the piece of paper which I have now surfaced again, a Committee Stage amendment, on the Parliamentary Committee Stage amendments all affecting Clause 4 which the Second Student Member for Georgetown has sought permission to move. Firstly, I grant him leave to move them although the correct notice for which Standing Order 42(7) provides has not been given. Secondly, I hope that I am right in saying to that noble Member here had the advantage, as I have, of getting the written notice.

MR. LORENZO A. PIERCOW: Yes, Sir, they were listed several.

MR. D. EDWARD HOLLAND: Mr.

MR. CHAIRMAN: Some Members seem to have come. Some Members seem not to have come. If any Member does not have a call, perhaps the Clerk.

MR. LORENZO A. PIERCOW: They were passed around by the Sergeant-at-Arms.

MR. CHAIRMAN: Yes, it may be that somebody has registered or left one. I think that the Electoral Member for North Main has left his.

MR. DEMOCRAT D. EDWARDS: Did the Member vote who those away his amendments? (INAUDIBLE).

MR. D. EDWARD HOLLAND: He the Member presumably we are going to support it, or might?

MR. CHAIRMAN: Would the Member like formally to move the amendments now?

MR. LORENZO A. PIERCOW: Mr. Chairman, I move that Clause 4 of the Bill be amended by the addition, in each of its sub-paragraphs (a), (b), (c), (d) and (e) of Section 84,(1), of the words, "beyond reasonable doubt", after the word "proved" as it appears in the first line of each sub-paragraph.

MR. CHAIRMAN: Do you wish to speak explaining the amendment?

MR. LORENZO A. PIERCOW: Mr. Chairman, in my remarks yesterday I expressed concern regarding paragraph (d) (i) of the Bill. I think that I was quite explanatory in my presentation that I would again mention here that my wondering of these sub-paragraphs would not be sufficient in my opinion to cover beyond any reasonable doubt whether a person in fact has such a controlled drug in his possession. Under this section "possession of prohibited, and knowledge of prohibited drugs", I feel that it is most appropriate Sir, that the words "beyond reasonable doubt" should be added after proved in each of the sub-paragraphs.

MR. DENNIS E. FORDE: I cannot see that it adds anything to it Sir. Either it is proved or it is not proved, one of the two. It is not a matter of "beyond reasonable doubt" at all. It is either proved or it is not proved.

MR. MITCHELL J. BRATHWAITE: I think, Mr. Chairman, that the advantage, if there is an advantage in the amendment moved by the Honourable Second Elected Member for George Town is that it makes it quite clear that the standard of proof, separated from the prosecution is the same criminal standard, which is beyond a reasonable doubt, in contradistinction to the balance of presumption which is the civil one on the balance of probabilities. I cannot also for the Honourable Mover of the Bill that I personally have no great objections to this amendment.

MR. DENNIS E. ROBERTS: I do not have any objection either, Mr. Chairman.

MR. CHILDRESS: It seems to me that there's some personality conflict, although I'm not absolutely sure that it changes anything substantive. However, it will help to clarify the issue the president explains.

SEN. CAPT. CHARLES L. KINSOLVING: Mr. Chairman, I think that it strengthens the Bill and I think that it will satisfy other members.

MR. CHILDRESS: In that case, I will withdraw my proposal and I would propose adoption by the agreement of the Committee, to insert it as one amendment. Mr. Tapia, technically it is fine or else we can make a different amendment. However, if the Assembly as Committee agrees in each case and since the motion has made it one amendment I think that we can just do it as one.

The question then is that Clause 8 of the Bill be amended as the amendment proposed by the Second Elected Member for Belize Town.

MOTION PUT: AYES AND NOES.

MR. LINFORD A. PIERCE: Mr. Chairman, may I have a Division please?

DIVISION
NO. 43

AMENDMENT PASSED BY MAJORITY.

MR. CHILDRESS: The question was....

MR. V. ALPHONSO USHER: Mr. Chairman, before we move from this clause, I want to say that I just voted for that amendment because I do agree, in my opinion, make it a little bit better than it was. Before it said, 'where it is practical' and now it is going to say 'practical beyond reasonable doubt'. So it does make it a little bit better because, Mr. Chairman, the whole thing was that we are presumably innocent as guilty....

SEN. DENNIS W. ESPAT: No, Sir, you have proven them guilty, Sir. It is proved.

MR. CHAIRMAN: We are now turning to Clause 2 as amended, so you will have a chance to vote on Clause 2 as amended. The first thing you voted for the amendment does not oblige you, if that is what you were wondering, to vote for the clause as amended.

MR. M. MONTEITH (Perth): Yes, it does make it a little bit confusing, Mr. ...

MR. MICHAEL F. BRADLEY: Well, perhaps, Mr. Chairman, since I think not committed the honourable member of the Mill. But maybe he would try and make the Second Electoral Member for West Lip a little more happier about it if I suggested a further amendment.

MR. M. MONTEITH (Perth): If it be good, yea, the honourable member will make me happy. However, if it be bad he might as well save it to himself.

MR. MICHAEL F. BRADLEY: Then so, sir, that in the Second Electoral Member expressed concern at the practicality of the registration requirements of documents of title and other particular documents.

At the moment it says:

"(c) shows to the knowledge that a person has the possession or custody or under his control -

(i) any document of title relating to anything constructed or manufactured wholly or partly outside Australia; or

(ii) any other document or writing or printed matter relating to anything constructed or manufactured wholly or partly outside Australia,

he shall be guilty, unless the contrary be proved, that such person was in possession of such thing."

Although as I said in my second Reading speech that there are provisions contained in relation to the registration, which would be unaware of the part of members, I personally would have no objection if inserted at the end (c) or (d) paragraphs there we put in a short list of particular types of documents. In this respect I was thinking of a dock warrant, a warehouse warrant or order, a baggage receipt or a baggage claim, which will have the disadvantage from the point of view of the registration that it will have to be applicable only to these particular types of documents. However, I think it is these extremely limited types of documents which the main cause would be, if the Commonwealth Member requires the information to be that he had no great objection to this I would try to formulate some words.

MR. CHAIRMAN: Well, I think we...

MR. DAVIES (Kalgoorlie): What about a bill of lading?

MR. MICHAEL F. BRADLEY: Or a bill of lading, yes.

MR. CHAIRMAN: I think that we have to first resolve the new when normally we break for lunch.

MR. CHAIRMAN (Interpreted): I already will wish to give leave for the introduction of an amendment which has not been received in writing and circulated because I have ultimately Members that those amendments should be in writing and circulated and I would not want to have....

MR. M. MOHAMED ZUBIR: Mr....

MR. CHAIRMAN: No, let us finish and that shall have been my. I would not wish to make any rule for one and not another. I think that if we have exhausted proceedings until 5.30 p.m. that may give an opportunity for a written amendment to be prepared, and Members can then consider and debate it.

So, I will not venture there is something which needs anyway before the business proceedings....There will be further opportunities to debate this although the amendments to it after we resume.

MR. M. MOHAMED ZUBIR: Sir, Sir, I was just going to comment on what you have anyway about the amendment. I am both quite pleased by my client, Sir, but in the Legal Meeting we had in March I know that there came a list of investments passed which some just arrived and have not in written papers.

MR. CHAIRMAN: I know and....

MR. M. MOHAMED ZUBIR: If I can remember. I thought we have all a principle and now we have assistance may flow to.

MR. CHAIRMAN: I think that we can politely take from it because I come to the conclusion that if we really can face to Members and making, unavoidable difficulty for them by the way in the only issue some something cause in writing.

So, let us suspend proceedings until approximately 5.30 p.m.

AT 12.40 P.M. THE HOUSE WAS SUSPENDED

COMMITTEE RESUMED AT 5.32 P.M.

MR. CHAIRMAN: Please be seated.

Proceedings are resumed.

I hope that all Members of the Committee now present are. We may be reassured by the end of the afternoon. (LAUGHTER). I am sorry to keep Members waiting. I think that all Members have probably now received copies of a Tanzanian Consulting Engineering which was mentioned just before we broke for lunch, and which the Honourable Second Official Member was very kindly leave to move. I think I have probably indicated but I was anxious that I propose to grant him the necessary leave in connection with the provisions of Standing Order 52(2), despite the fact that the amendment may not be in writing if the amendment was not given.

I will invite him to move the amendment now.

MR. BENJAMIN J. RANKIN: Thank you, Mr. Chairman.

Mr. Chairman, may I move that Clause 4 of the Bill be amended in paragraph (a) of subsection (1) of the proposed new Clause 56, by -

(a) deleting the hyphen at the end of the third item;

(b) substituting "a dock warrant, warehouse warrant or goods, bonded receipt or baggage warrant, or bill of lading or other similar document relating to anything containing a controlled drug," for the fourth to ninth items.

Mr. Chairman, as I attempted to explain just before our lunch adjournment, the Member has expressed a certain amount of unease concerning what they believe to be the inclusiveness of the provision relating to any document of title or to any other document or printed matter relating to anything containing a controlled drug, and while I was of the opinion that the said words this particular paragraph ought to remain relevant simply to items commonly referred to as baggage and freight being brought into the jurisdiction, that position is an inclusive one I would be happy to make this amendment inadvertently narrowing the type of document it which is included, whilst at the same time recognizing, if the Committee feels that the very remoteness of it makes it unenforceable, as most other pieces of it are under ordinary the Clause may wish to delete the matter before the Clause.

So, Mr. Chairman, would I move the mover's permission, move this amendment to Clause 4?...

MR. CHAIRMAN: The question is that Clause 4 of the Bill be amended in the manner just moved by the Honourable Second Official Member. I will put that question.

SECTION AGREED. AMENDMENT AS PASSED.

MR. CHAIRMAN: Clause 4 has now been amended, and in the manner proposed by the Second Elected Member for Georgetown, which was in fact a series of five, I think, separate but identical amendments to five paragraphs of a subsection, and once as just agreed to respectively by the Honourable Second Official Member in respect of, I suppose to sub-paragraph (i) of paragraph (a) of subsection (1) of the new Section 56.

The next question, Mr. Speaker, is whether Clause 4 as amended in these two respects should stand part of the Bill. I will put that question.

SECTION 5(1): AYES AND NOES.

MR. G. LEACH WILLIS: May we have a division, Sir?

MR. S. SAID HUSSEIN: May we have a division please, Mr. Chairman.

MR. FRANCIS J. RANKIN: Mr. Chairman, I wonder before the Clerk takes the division if I could just have a word with the Honourable Second Official Member.

MR. CHAIRMAN: I am sure you could have a...

Sir S. BYRON WILSON: They have to come now, Sir, they already voted.

Mr. G. MAIN (GOOLWA): In that case, Mr. Chairman, we need not have those votes. (LAUGHTER).

Mr. D. BRYAN WILSON: They have already committed themselves.

CLAUSE 4 AS PRINTED AGREED TO.

NEW CLAUSE 5. AMENDMENT OF SECTION 12.

Mr. COUMBE: The intention in that Clause 4 (a) stood part of the Bill. However, notice was given of an amendment to Clause 4(a). It is a substitution of a complete new clause. The notice was given on the Blue Map and was, I think, circulated to all Members by the Honourable Leader's Official Member. I will invite him to move the amendment now.

Mr. MACGILLIVRAY: Mr. Chairman, Sir, I beg to move that Clause 5 of the Bill be deleted and the following new Clause 5 substituted thereto -

"5. Section 12 of the principal Act is amended -

(a) by the deletion, in subsection (2), of the words "shall, on summary conviction, be imprisoned with hard labour for a term not exceeding seven years and in addition shall further be liable to a fine not exceeding $20,000 and in the case of a second or subsequent conviction for any such offence shall be imprisoned with hard labour for a term of not less than six years nor more than ten years and in addition shall further be liable to a fine of not less than $5,000 nor more than $40,000.", and the substitution therefor of the words "shall, on summary conviction, be liable to a fine not exceeding twenty thousand dollars or to a term of imprisonment which may extend to, exceeding seven years or to both such fine and imprisonment and, in the case of a second or subsequent

MR. MICHAEL J. BRADLEY (CONTINUING):

conviction for any such offence, be liable to a fine not exceeding twenty thousand dollars or to a term of imprisonment with hard labour not exceeding two years, or to both such fine and imprisonment;";

(b) by the deletion, in subsection (5), of the words "shall, on summary conviction be imprisoned with hard labour for a term of not less than five months nor more than seven years and in addition shall forfeit to Her Majesty not less than $5,000 and without limiting the generality of the foregoing" and the substitution therefor of the words "shall, on summary conviction, be liable to a fine not exceeding twenty thousand dollars or to a term of imprisonment with hard labour not exceeding seven years and, in the case of a second or subsequent conviction for any such offence, be liable to a fine without limit or to a term of imprisonment with hard labour not exceeding fifteen years or to both such fine and imprisonment;".

I feel, Sir, there is the danger of the fine to one essential phrase which may have been skipped out. That is why in the best use of quickness

"be liable to a fine", "or to a term of imprisonment",
"or to both such fine and imprisonment".

I see, Sir-

"(a) by the deletion of subsection (5),",

which is over the page. My apologies. I have just been reminded.

MR. CHAIRMAN: So, the question you would like to put first is of subsection (b)?

MR. MICHAEL J. BRADLEY: On the fifth last line. After "shall" it should say, "or to both such fine and imprisonment", it does not seem to be absolutely clear that the last words of the page....

MR. CHAIRMAN: Which one are we in? Subsection (5)?

MR. MICHAEL J. BRADLEY: Subsection (5), yes.

MR. CHAIRMAN: And the fifth last line?

MR. MICHAEL J. BRADLEY:

"with hard labour not exceeding seven years or to both such fine and imprisonment".

What the purpose of this new clause is is, Mr. Chairman, to give this House a guiding decision on behalf of the Government that minimum mandatory jail and minimum mandatory imprisonment should be deleted from the provisions of the Narcotic Bill.

MR. MITCHELL of BURLINGTON (CONTINUING): The point is that even though the Senate's motion to replace provided for the addition of certain words of mandatory application, they still contained the qualifying provision that there are to be certain circumstances which would be an absolute bar to the granting of improvements which would be of a detrimental character. It was on this basis, since it became clear to me as Attorney-General and I knew the responsibility that Mr. Burr, that the interpretation of Government was not going to obtain the clear duty mandatory improvement to give the complete cleanstreak to the south, that this clause should be replaced by the present clause.

The present clause seeks by specifying that in full the areas which were there and the words which will be replacing it, to make it clear what is now before and what it is not. In other words, the courts in the first instance should be able to find up to $50,000 in respect of the seven pieces, or both. In the second instance the person will be liable for a $50,000 fine on the charge or both, and similarly in subsection (3).

MR. SPEAKER: I would welcome guidance on a technical point. If we are replacing a clause and subsequently another one for it do we treat it as an amendment and introduce the amendment and then the clause as amended, which in some matters sometimes, or do we treat it as a new clause which is really in fact, in which case we have before ... it one of them.

MR. MITCHELL of BURLINGTON: I had thought of that, Mr. Burr, but of the choice in the matter had been indistinguishable as an amendment....

MR. SPEAKER: Well, it does not have to be in the amendment really. A new clause in the replacement of a clause which is not in the Bill. I think that at the risk of being a little ridiculous we will have to vote on the amendment and then on the clause as amended which will really be voting on the same thing I am afraid on this occasion. However, I do not see a lot of point in it. It will give some members a chance of our decisions if they like.

The question then is that the amendment to Clause 6 of the Bill, which is the first the substitution of a new Clause 6 should be accepted.

QUESTION PUT: AMENDMENT BY MR. MITCHELL. AMENDMENT AGREED.

MR. SPEAKER: I will now put as I just explained a further question that Clause 6 as amended stand part of the Bill.

QUESTION PUT: AGREED BY MAJORITY. CLAUSE 6 AS AMENDED AGREED.

CLERK: CLAUSE 8. INSERTION OF NEW SECTION 24A.

MR. SPEAKER: The question is that Clause 8 stand part of the Bill. I think that there is quite a major printing error at the end of section 24A(2). And some words not inserted unnecessarily. Am I to it that I just do not understand it? It is the last three lines of that page where it says, "applies to be the owner of an otherwise improvement thereby", and then goes on "applies to be heard". I think this is supposed to make sense but it does have a printing error which you can correct?

MR. CHAIRMAN (CONTINUING): Shall we put any amendments to which none has been given in respect of Clause 2 as I will put the question that Clause 2 stands part of the Bill.

QUESTION PUT: AYES AND NOES.

MR. G. WOLF SCHOOL: MR. Chairman, may I move a Division?

ORDER'S PASSED BY MAJORITY.

MRS. MICHAEL F. BENDLAY: Mr. Chairman, the point has occurred a few several times in the past but I thought that perhaps I would wait a proper time to get a ruling from the Chair. Under Standing Order 85(5) it says that Members must be registered to by the names of the Electoral Districts for which they have been elected. Is it not strictly more proper that when a roll is taken it be taken by Counties or Electoral Districts rather than by name?

MR. CHAIRMAN: Sometimes it has occurred to me that it would seem to be more proper. I believe that the procedure has been of long standing and I did not question it. Maybe some of the older Members will know whether it has always been the practice to vote that?

HON. JAMES D. EDGAR: I think that it is specific in the Standing Order dealing with a division. I am not sure but I believe that it is that they have to be registered so.

MR. D. BERNARD WOLFSON: We can change that in the Standing Orders.

MRS. MICHAEL F. BENDLAY: Check of course to see the question as to when the Official Names should be called.

MR. CHAIRMAN: Yes, names by Electoral Districts. They like the Names such as Mr. Smith do they?

CLERK: Yes, they call the names.

MR. CHAIRMAN: Apparently, in our House of Commons practice.

HON. DONALD S. SOSTER: For the last nine years I've been here the question here.

HON. DOUGLAS C. JEFFERSON: Mr. Chairman, I believe that under Standing Order 32(3)....

MR. CHAIRMAN: That is quite right, Standing Order 32(3), "putting each Member's vote". So it is perfectly correct. My lack of familiarity is ventilated.

CLERK: CLAUSE 5. AMENDMENT OF SECTION 26.

MR. CHAIRMAN: The question is that Clause 5 do stand part of the Bill. I will put the question.

QUESTION PUT: AGREED. CLAUSE 5 ACCORDED.

CLERK: CLAUSE 6. AMENDMENT OF SECTION 28.

MR. CHAIRMAN: The question is that Clause 6 do stand part of the Bill. I will put the question.

QUESTION PUT: AGREED. CLAUSE 6 ACCORDED.

CLERK: CLAUSE 7. REPEAL OF SECTION 29.

MR. CHAIRMAN: Clause 7 is also the subject of a Committee Stage amendment of which notice was given by the Honourable Liberal Official Member some time ago in a note later than the 72nd Hour, which indicated that he proposed to move that Clause 7 as printed in the Bill be deleted and a different version of it substituted. In other words we have the same situation as we had a few minutes ago in respect of Clause 5. I will invite him to move the amendment.

HON. EDWARD J. RYCKY: I beg to move that the Bill be amended by the deletion of Clause 7 thereof and the substitution therefor of the following new Clause 7 -

> "7. Section 29 of the principal Act is repealed and replaced by the following new section 29 -
>
> "Procedure in respect of certain offences. 29. Notwithstanding the provisions of any other section of this Act, where a person is charged with any offence of, or relating to, dealing in, distributing, supplying, dispensing, storing, keeping a prescription for, administering, selling, exporting, importing, obtaining, possessing, or having in his possession for the purpose of dealing in, any drug that is a narcotic as defined in section 2(1) of the Narcotic Control Act, or any drug that is a hard drug, then such offence shall be deemed, for the purpose of determining the mode of trial, a disclosable offence in accordance with section 2 of the Criminal Procedure Act."

As I attempted to explain, Mr. Chairman, in the Second Reading debate, the present Clause 7 in the Bill by simply seeking to repeal Section 29 of the existing Act has the effect of making all offences' trial summarily.

SEN. RICHARD A. DOYLE: (CONTINUING) despite the longstanding misinterpretation which the Honorable Second Elected Member from Nassau has put to his second Reading speech that I support stopping funds from the Chief Justice to the Legal Department just to take for a power struggle to be waged, the premise in fact was somewhat misunderstood. It was after Mr. Schaefer thought that perhaps a better way to deal with this great backlog difficulty which we had about first and second convictions and the mode of dealing with them by courts, would be to make a right to opt for jury trial apply to the more serious offence whether it be first conviction, second conviction in the case of the offence of peeking, stealing by housebreaking, burglary, etcetera in relation to moral charge where the offence can be punishable by death which by up to twenty years.

It is for this, to save, we give the option for jury trial to a person charged with these offences for which large penalties of imprisonment already exist to provide.

SEN. D. LEWIS HILLOCKS: Mr. Chairman, what exactly does the Honorable Second Official Member mean by "leaving a proposition open"? Is he referring to medical officers leaving propositions for unspecified subsequent ... if it is I do not see the relevance of it being in that clause.

SEN. RICHARD A. DOYLE: Without legal authority, yes. It seems like the best course of these to such a thing.

SEN. D. LEWIS HILLOCKS: That is where I have the difficulty reading the Minister of Second within the law to some degree. Does the Second Member mean we are going to determine that he is a fit person by issuing a presumption for whatever?

SEN. MICHAEL J. BRADLEY: Without going into too much detail, evidence could be struck off the register and not registered to whether here. A person could purport to issue a presumption, which would be filled. These are illegally issued jury evidence.

SEN. D. LEWIS HILLOCKS: Alright. As long as it covers these areas I am happy with it.

SEN. CHAIRMAN: The question now is that the amendment, Clause 3 on the two pages should read, ... somebody be appointed by the same Chief Justice, Clause 3 be amended in the manner proposed by the Honorable Second Official Member.

AGREED BY: ALL, UNANIMOUSLY RESOLVED,

SEN. CHAIRMAN: The question now is that the amended Clause 3 stand part of the Bill.

SEN. MICHAEL J. BRADLEY: May we have a recorded ... ?

SEN. CHAIRMAN: We have not been asked yet. (LAUGHTER).

SEN. D. LEWIS HILLOCKS: Are you asking for a ... ?

AGREED BY: AYES, AND NOES.

MR. CHAIRMAN: ... Do you want a division? Yes, very well.

MR. D. DONALD MILLER: ... do they agree they are going after the Senator and not the Government in the aircraft sale?

CLAUSE 9 AS AMENDED PASSED.

CLERK: CLAUSE 10. EXEMPTION OF NEW SERVICE BY.

MR. CHAIRMAN: The question on this Clause 10 is stand part of the Bill. I will put the question.

DIVISION BELL: AGREED. CLAUSE 10 PASSED.

MR. MICHAEL J. BRADLEY: I think that the existing numbering can be regarded as a reasonable question. They could not be quite sure but that the same people do pass it.

MR. D. DONALD MILLER: Test of confidence.

CLERK: CLAUSE 11. AMENDMENT OF FIRST SCHEDULE.

MR. CHAIRMAN: The question is that Clause 11 do stand part of the Bill.

DIVISION BELL: AGREED. CLAUSE 11 PASSED.

CLERK: CLAUSE 12. AMENDMENT OF SECOND SCHEDULE.

MR. CHAIRMAN: The question is that Clause 12 do stand part of the Bill. However, before that question is debated I draw to Members' attention that notice has been given by the Honourable Second Official Member on the 23rd May in the name proper which gave notice of an amendment to Clause 8, that he intended to move an amendment to Clause 12 of the Bill. I will invite him to move that amendment now.

MRS. MARGARET J. PRIESTLY: Mr. Chairman, I move that Clause 12 of the Bill be amended -

(a) by substituting"; or" for the full-stop at the end of paragraph (b) thereof; and

(b) by the addition, immediately after paragraph (b), of the following new paragraph -

"(c) by the deletion in the fourth sub-section thereof (Wednesday) of the numerals "21" where they first occur in respect of the offence of Sunday, Monday, Tuesday, Thursday, etc., and the substitution therefor of the numerals "14".".

MR. CHAIRMAN: The question is that Clause 12 of the Bill be amended in the manner moved by the Honourable Second Principal Member. I will put the question.

QUESTION PUT: AGREED. AMENDMENT PASSED.

MR. CHAIRMAN: The question now is that Clause 12 as amended stand part of the Bill. I will put that question.

QUESTION PUT: AGREED. CLAUSE 12 AS AMENDED PASSED.

NOTE: A BILL FOR A TAX TO RAISE THE WEIGHT OF LOAVES AND CERTAIN

MR. CHAIRMAN: The question is that the Title and Enacting Clause stand part of the Bill.

QUESTION PUT: AGREED. TITLE AND ENACTING

MR. CHAIRMAN: Our next item is the Committee Stage of the Rehabilitation of Offenders Bill, 1968. In respect of this Bill, so far as I can ascertain, I have only been given notice of one proposed Committee Stage amendment. That notice was given earlier today by the Second Elected Member for West Bay. It is an amendment to the Schedule. In accordance with the provisions of Standing Order 51(2) I accept that I have granted leave to him to move the amendment when the Bill comes, despite the fact that he has not given the customary six days' notice. However, my understanding is that all Members have had a typed copy of his proposed amendments, and that therefore they have had that amount of notice of it.

THE REHABILITATION OF OFFENDERS BILL, 1968

(PROPOSED AMENDMENT)

CLAUSE: CLAUSE 1, SHORT TITLE.

CLERK: A BILL FOR A LAW TO ESTABLISH...

HON. DENNIS C. CHAIRMAN: It should be the Schedule.

CHAIR: Schedule.

MR. CHAIRMAN: The question is that the Schedule of stand part of the Bill. As I mentioned earlier Action may be taken by a proposed amendment to the Schedule which I am sure the Second Elected Member for West Bay is to move.

MR. E. MILTON SCOTT: Mr. Chairman, I beg to move this amendment. I think it was made very clear.

MR. CHAIRMAN: Would you read the amendment out first for Members?

MR. E. MILTON SCOTT: Yes, it is that the words.... I beg to move the amendment to the Schedule, section 6(3) that the words "equal parts" as they appear in the seventh line of the Schedule be deleted and substituted therefor by the words "five seven".

I think, Mr. Chairman, that I have said all I can in support of my motion that I would like to see this amendment. Sweet seems to be a long time for a young person and I have already given my reasons for wanting it and I feel that it should be there. I do not propose to take up any more time. I will just ask for the vote.

MR. CHAIRMAN: I will put the question that the Schedule be amended in the manner proposed by the Second Elected Member for West Bay.

QUESTION PUT: AYES....

MR. ROBERT O. EBANKS: Mr. Chairman, I thought that you were going to ask if anyone else had any debate on it.

MR. CHAIRMAN: Oh, I am sorry. I looked around to see whether anybody wanted to debate.

MR. E. MILTON SCOTT: Perhaps I did not look for some reason. In that case....

MR. E. MILTON SCOTT: It is too late, the vote has gone.

MR. CHAIRMAN: I think that inadvertently has occurred. I can only apologize to the Member. I did not mean to be bent out of his opportunity to speak. We have multiplied the ayes already.

QUESTION PUT: AYES AND NOES.

MR. E. MILTON SCOTT: May we have a division, Sir?

MR. CHAIRMAN: I think that we had better have a division because I would not like to....

MR. E. MILTON SCOTT: We only had two ayes and one no.

MRS. EDNOOD C. EBANKS: No, I beg.

MR. CHAIRMAN: I heard one aye and one no.

MR. E. MILTON SCOTT: Two ayes, Sir.

MR. SPEAKER: Maybe there were a lot of abstentions.

MOTION PASSED BY MAJORITY.

MR. K. McKEOWN-COOK: I wonder if the Minister concerned could have a statement from the Government bench why they voted against the amendment?

MR. SPEAKER: Order, order.

CLERK: A BILL FOR A LAW TO RECLASSIFY OFFENSES AND RATE AND FIXE RECONSIDER OF ANY SECOND OFFENCE FOR PERIODS OF CRIME TO [illegible] THE UNAUTHORIZED DISCLOSURE OF CERTAIN CLASSIFIED INFORMATION, TO AMEND THE LAW OF ESPIONAGE AND FOR PURPOSES CONNECTED THEREWITH.

MR. CHAIRMAN: The question is that the title and preamble stand part of the Bill.

QUESTION PUT: AGREED. THE TITLE AND PREAMBLE.

MR. CHAIRMAN: That concludes proceedings on....

MR. RICHARD A. BRYANT: Mr. Chairman, just before the conclusion of the Committee Stage, I wonder if the Honourable Second Official Member would clarify one matter which is still somewhat hazy. First on that minor question of the Schedule of Consequential Bills, I think he mentioned that there was some matter in the Bill which was inserted after the White Paper. I wonder if we could get that clarified?

MR. CHAIRMAN: I am not sure that I fully understand now. Are you asking whether there was a provision which is [illegible]....?

MR. RICHARD A. BRYANT: Yes, I think that is what should be mentioned. If he could just put the matter right clearly if for the records that Section 5(2) in the green paper will become the same as the white copy? I think that there is...

MR. CHAIRMAN: We are talking about the Schedule of Consequential Bills?

MR. RICHARD A. BRYANT: Yes. I think that is what is [illegible] the matter under discussion of [illegible].

MAJ. MICHAEL J. BRADLEY: At the bottom of the page on the newly inserted section for the words, "In the event of an otherwise intervening [illegible]", are repeated in the third and second last line and should be deleted. It is a typographical error. In the third last line which everything from the word "by" to the word "agitator" in the second last line.

MR. CHAIRMAN: I think [illegible] this amendment is. It is in fact a typing error but it was a matter which [illegible] several and I thought that some Members might have noticed it and felt a bit puzzled.

MR. RICHARD A. BRYANT: Was it correct in the white copy?

MR. CHAIRMAN: No, I do not think so. No, I think that it was wrong in the white copy now. I have not checked but....

MR. RICHARD A. BRYANT: I assume if it would just show that it was of it also. It is just for the records.

MR. CHAIRMAN: No. I think that the white copy is [illegible].

MR. MICHAEL J. BRADLEY: It is not the previous [illegible]. It is the Legal Department's fault. In the circulated copy it is repeated.

MR. CHAIRMAN: So, that concludes proceedings in Committee on a Bill entitled the Stamp Duty (Amendment) Bill, 1965 and other Bills. The House will now resume.

HOUSE RESUMED

MR. SPEAKER: Please be seated.
I think that we might complete the Income stamps before breaking. Yes, Minister on Bills. The Stamp Duty (Amendment) Bill, 1965.

AGREED BY MAJORITY: BILL GIVEN A THIRD READING AND PASSED.

THE REHABILITATION OF OFFENDERS BILL, 1985.

THIRD READING

CLERK: The Rehabilitation of Offenders Bill, 1985.

HON. DENNIS O. HARDY: Mr. President, I beg to move that a Bill shortly entitled "The Rehabilitation of Offenders Bill, 1985" be given a Third Reading and passed.

MR. SPEAKER: The question is that a Bill shortly entitled "The Rehabilitation of Offenders Bill, 1985" be given a Third Reading and passed. I will put the question.

QUESTION PUT: AGREED. BILL GIVEN A THIRD READING AND PASSED.

MR. SPEAKER: I am looking at Standing Orders to see whether the Presiding Officer has the right to call for a division but I am not sure if he has. It is discriminatory. I call the attention of the Select Committee on Standing Orders to this evidence of blatant discrimination against the Physically.

HON. D. DENNIS MILLER: Mr. President, could we have the order that they call the votes mechanically, Sir? I keep getting the feeling that I am not going to get the opportunity to vote.

HON. PRESIDENT: I think that perhaps we had better break off for approximately ten minutes.

AT 3.22 P.M. THE HOUSE SUSPENDED.

HOUSE RESUMED AT 3.38 P.M.

HON. PRESIDENT: Please be seated. Proceedings are resumed. Private Members' Motions. Private Member's Motion No. 18/86. The Third Elected Member for West Bay.

MOTION

PRIVATE MEMBER'S MOTION NO. 18/85

LIQUOR LICENSING LAW

HON. CAPTAIN L. GERRITT: Thank you, Mr. President. I wish to move Private Member's Motion No. 18/85, which reads as follows:-

MRS. BARBARA A. GREEN (COCONUT GROVE):

"BE IT RESOLVED that Government take immediate steps to introduce the necessary legislation to amend the Liquor Licensing Law, so as to prevent the sale of all alcoholic beverages on Sunday, between the hours of 00.01 hours and 06.00 hours, local time."

CAPT. HARRY S. KITCHINGMAN: Mr. President, I beg to second the motion.

MR. PRESIDENT: Thank you.

MRS. BARBARA A. GREEN: Thank you, Mr. President, I am grateful to be able to speak to this Honourable House on a matter which weighs heavily on my mind. In fact if I were to be more specific it weighs heavily on my very soul.

My reason for bringing this motion which has just been put before the House so calmly because I, like many others in this country, am very much aware of the devastation which is being caused within our society through the excessive use of intoxicants, more often of which is liquor. Liquor is perhaps one of, if not the greatest evil with which mankind has ever been plagued. This evil is fully licensed in our society and I am aware of that, so it is in nearly every society around the world. However, like a cancer the fact that it is there does not stop us from trying to get rid of it. Also not because one's dealing now effects an urgency to suppress and abolish it, and to lessen its devastating effects.

The reason that we have licensed liquor outlets on our Islands does not mean that we are to allow this have to completely change our way of living. We are to preserve as far as possible our cultural ethics, not to let it destroy every fabric of our society.

Mr. President, I am old enough to have known what life was like in the Cayman Islands before liquor was given so much participate in our society. However, I am also young enough to try in whatever way I can to help eliminate this evil. That is exactly what it is. It has been allowed to strike at the roots of the few who benefit from the sale of this despicable commodity. It is bad enough that it was allowed to be sold in so many outlets. However, the fact that we have over the past several years allowed it to be sold on Sunday, our day of rest and worship, and more recently have competed with the neighbouring Government radio stations, again to detour to the pockets of those who being well aware of our laws would go ahead and establish businesses to cater to the sale of liquor while on the sale of either a church, school or public service or all three, and that is why this Honourable House should do its part to stop it.

Mr. President, I have to say it here and now that I was extremely disappointed that it was allowed to happen in this House Sunday by absence in number that that quarter of the House was tempted with. I seek to say here and now that I was extremely disappointed. It need not have been touched. However, I will deal with that at a later stage.

Mr. President, I am aware that with progress, change must come. It inevitably must come. However, the responsibility of this Honourable House and indeed of all our people is to ensure that any change that is allowed to take place within these Islands must be seen, as far as possible, to help enhance them to further the right peace and tranquillity which our people have long been accustomed to.

MRS. DARLENE L. DROST (CONTINUED): The first that extra money can be derived from gambling machines being made is not sufficient reason for doing so. The question must be asked whether such changes be for the ultimate good of our people, both for the present time as well for future generations. Certainly in the case of the sale of liquor the prime consideration must be whether what is gained from the sale of it can compensate for the deterioration and death caused in addition to the many social problems with which we are faced as a result of its use.

As much as I wish that I too could be quick to completely remove this evil from the face of this country, I am not so naive as to believe that I will see it happen, at least not yet. However, I wish to impress upon this Honourable House that many serious ducts be and our country unless we take immediate steps to halt the flow of this road slow in our midst. I feel that it is time that we tell the world that these Islands are not for sale and that there are just certain basic principles which we are not about to have broken down just to enter to the outside world.

Mr. President, there has been strong opposition that we are a secular provincial society and therefore we cannot legislate for morality which would deprive the right to drink at the fingertips anything which could suit his fancy. Why I remind this Honourable House that when tourism started coming here we did not have Bingos on Sundays. In fact there were a lot of activities on which we were restricted on Sundays. I think that where it can be found that certain changes do not interfere with our needs and tranquility on the Lord's day, then we can look at those changes in a different light. However, this cannot be humanly and repeatedly the sale of liquor on a Sunday.

Mr. President, good people fearing God sometimes have to say, "Where do we draw the line", or else they speak out their feelings by saying, "Well I just did not want to get involved. Perhaps we are more guilty of saying this way than speaking that way. The point which we must get quite clear in our minds is that silence in the face of great social problems, public expression on the shows of the weak and helpless is wrong. If we are to be God's servants in this Honourable House, if we are our brothers' keepers we must stand out against the evil which is in our communities. Any other course is cowardly and wrong.

What we must never forget is that living a Christian people in this country carries a heavy responsibility. We who have received so many blessings forget that these carry a heavy burden of responsibility. We must make a conscious choice to do right. Our purpose here is to do good. Since what is evil and how much is good. To have knowledge the active desire of the one loving. Rife involves a conscious rejection of the thing hated.

To know the right means to choose it. To know the evil means to reject it. We have to make these choices. These responsible choices. To choose means good and avoid evil. We must make our choices available to ourselves, so we all agree here this time of the Session is an evil which is pushing out of hand; that the Legislature of Canada is an evil. Then, if we are going to show our people that we are against these evils while they make sure it is our positive forthright action against it. Progress and finality, Mr. President, were not done for less fine words and empty purposes. We offered here to our people and they are expecting us not just to make a response, but to create a right cause of necessity to improve some of the evil trends which have slowly crept into our society.

MRS. LEONARD J. DUNNE (Connecticut): Mr. President, many of the duties recently are based on those words found by Gladstone. We purport to be a free country and the tradition of freedom is so free anywhere else. As the 32nd Honourable House can go a long way in doing that. We have not taken a different attitude. We have not thrown up our hands.

There is one thing which I want to touch with this Honourable House and I wish them to pay this point in their minds, that many of us here claim to be God's children. Whatever work we are called on to do in this world we must do it with His glory and the good of mankind in mind. Anybody entering in this Honourable House with any bad intention and commitment should not be here.

What I want to say, Mr. President, is this. We cannot throw in our hands and say we cannot do anything about it because we have gone on too long but it is getting worse and worse. When this meeting has come to the place where a special license can be issued for a dance party on Seven Mile Beach on Sunday, and I agree to be invited at a food raising effort for a social club, we are getting in a serious state of affairs.

On Sunday just above a year ago most of the finest citizens through a church which they walked across the street to go to a church. Now, Mr. President, what I am saying is this. I brought this in the attention of the Honourable Members of this House to say that maybe then that is going to happen. I have that one days a week until this thing can happen. However, do we rough under God's name, in the name of humanity that even one a Sunday we have to divide the streets with the fear of being destroyed by someone who is under the influence of liquor?

Mr. President, in this country of God's money goes unrecognized. Furthermore, those of us who have been recipients of special blessings, as I mentioned earlier, shall also find ourselves recipients of special judgements. I assure you we are not seeing some of that judgement right now in the form of the many social problems we are unfortunately have. Although the light but we should never forget that the power to do anything does not necessarily make that thing right. It is time to remember that every one of us are answer those who can be found guilty of the time. However, there is been seen our guilty as to our responsibility to make a correction.

Mr. President, we speak of our faith, but the tragedy is that often we do not really wish to apply our faith in life. We fail to recognize that many wise, particularly aged wise and not unlawful. They are fewer among. We take all things made to distinguish between what is legal and what real... among of us. It is quite easy to begin to believe that what one thinks is what God intends. No society will long endure which refuses to meet its social and ethical obligations. Not only must we not capitulate this week, but we must take steps to see that we give complete, unequivocal duty; the absurd, neglected obligation; the work, fulfilling demand, we owe to this Honourable House and we must demand diligence and vigilance of those people. A special obligation is laid upon us to examine the adequate care of the poor, the weak and the helpless. The point we must face is that as the this House have brought the opportunity and the responsibility to look after our people, to listen to them. So refuse to listen to what is said here tonight is to emphasize our because we do not necessarily agree with it, does not take the meaning out from ourselves.

MRS. DEBBIE L. SMART (CONSTITUENCY): The point is that as we provide elected representatives have a responsibility to listen to whatever affects our people and not just to what we want to hear.

Mr. President, I am aware that there are many people in our society who are very disappointed about the tampering with that question while I was in Nevis, I knew that. I am also aware that for years people have been questioning why Sunday has been taken from us in the manner in which it has been, to such an extent. What, we never did, is the hotels wanted to get the liquor at 8am they would be able to serve liquor with their meals. That is unthinkable in the circumstance and so the little person. Our forefathers why it could not be permitted to open on Sundays, and so it was extended a little further and that if they can get a few minutes on the corner of the strip then they can sell liquor.

Mr. President, as far as tourism is concerned there are still tourists coming in this island where on a Sunday everything is closed. In the Cayman Islands not even supermarkets which sell something as necessary as fuel/gasoline are open on a Sunday. Some of the might hear of are not normally they are closed. All of the stores, businesses and offices are closed. Are not also hotels, restaurant and bars because tourists to Caymanians? However, are not these offices closed on Sunday? Am I being told that tourists coming here must have a drink? What are we saying to, a bunch of drunkards? Am I being told that it is a necessity for a person to have a drink with his meal?

Mr. President, for at least ten years I have been asking people what are their feelings about the Cayman Islanders when do they like best about Cayman Islands? What changes do they feel necessary? What changes are they not happy about? In so many words the answer is simple and plain. We all the system have to have and change what you have. Remember that the first life, existence, and the night life is one get where we come from. Remember, to get a place where you are first safe, comfortable, welcome and everyone can remain from the pressures of a big city, your economy depends what we want and this is why we have rules and laws again. So, I mean specifically asked that do people think of the sale of liquor on Sunday because I have happened in the very much involved with relations to our Islands since the last ten years. The majority will tell us that if they want it they can get out it. It is not necessary for a place to be open.

Mr. President, what I am saying is this. If the hotels and the restaurants have to be licensed then everywhere else has to be licensed. The whole law on the corner has to be licensed. In what legal I do not speak for the other Ministers but I feel that they encounter the same thing, seeing people drunk and if one happens to be walking or driving you have to send one's way accordance to some of the drunks who are gathered in front of those liquor outlets. It must say we also have a neighbourhood where residents would from noise, mid on Sunday have some peaceful day outside and they have to put up drunks getting on the side of the road; little girls exposed to the evil surroundings of people under the influence of liquor.

Mr. President, what I am suggesting is whatever we want to work until this thing gets a much out of control that we cannot stop it, or it is relevant to address the problem now and we know for that one day we see a celebration in our Islands where they will drug, a hard drug, it will enter freedom to do its harm? To see anyone who wants to, going and did alike, one should just take a walk around some of these tourist outlets in West Bay and you will see children, families and fifteen year olds including their boss and acting their drunk.

MRS. MARIE L. GRANT (CONTINUED): If one goes up to Hardy Boys and sees little children fighting from the glue, and there are all these drunks in white robes and with their foul language. Here are children who a Sunday supposed to a education like this. Are we going that with an example like that we hope to have a future generation who are not occupied in the fights of hate and resentment?

Mr. President, we ask you what we will about the church. We may say that they have prejudice than their children or we may say they are religious fanatics, or we may say whatever we wish. However, the church in this country needs the help of the Lawenforcement Members of this House. It is not a second class institution. It is an institution to be reckoned with. Because, as I see it the church is lawful entity. The matter this bill has been tampered with. Sunday has been taken from us so the church is now is coming second class to those liquor outlets which are helping to destroy our people.

When we talk about a man who needs to come before the church for his lawlessness to Christ, we should ask that wicked wife who on Sunday night goes to her husband and he has nothing to offer her for Monday. Children go to school with nothing. We should ask them of who would not like one night on a weekend which is not crowded and jammed. We should ask those children if they would not like one night on a weekend when they can close themselves being cuddled by a Christian, knowing father who has an idea what he is going to do about. We should ask those children if they might on a weekend that they would not like the atmosphere of those who are being able to stay home without having subjected to a liquor outlet to influence to that destruction.

Mr. Speaker, Mr. President! Often it is that should wife who does withhold her money or that child who, have go to the high school, neither parent in the Primary School not provide sufficient funds while those drunken fellows who have spent his money comes to our house cursing. They are the ones buying for the liquor outlets in this country.

However, I hope that the remembrance of everyone who would fight against this and who would come in spite of my efforts on the part of the church or anyone else, will permit them when they step that money lay on that bank on Monday morning. Because the people who paid for it are the little ones who are helpless to do anything about it.

Mr. President, dealing with the Police Department on Sunday nights is when one finds more reasons for immediate quarrels than any other nights. Why, because Friday he gone out and spends his money. Saturday he were out and spends his money and some Sunday night the last he gone and that wife who needs some money to have Monday morning perhaps to buy for the [illegible] she had put some the last week, and the children must go without it. This is a problem of our country. There are women in this place today, not only from the low sections of society but a man whose husbands sit behind desks and women whose husbands have good businesses, who will tell us that the greatest evil they say to [illegible] which have destroyed their home. We should not many names today. We be faced with a situation like that what we should do on Sunday. We should not just turn in here and make laws and Sunday because we want it. I am not unreasonable for a few people who want to get [illegible] Those are other ways and means of making money, are we to be told that if we give them six days to work [illegible] they need more? In fact, Mr. President, while I have been [illegible] to that now the liquor outlets are complaining that they do not have sufficient hours on Sunday. They need extra hours.

SEC. SATRUM T. ARNOLD (continued): They are having Thanksgiving because on Sunday they have to open two or three hours later. They could thank that we are going to have to operate on night day for them. There is no other business on these Islands which has such importance as the planes which call there. Am I to understand that why might therefore Aviation will not come to the Cayman Islands because we refuse to work on Sundays? I would think that most of them would say, "Congratulations for sticking with a stand". There are planes in the United States today where communities are getting up on their own and are saying that something has to be done. In no event what are called day operations in certain States. We cannot buy things there at any time. I think one of the most praiseworthy, first class workmanship in these islands is the Civil Air Terminal. When it was under former management they sometimes opened here until 12 noon on Sunday, and they had an excellent business. To get from that place was hard to make reservations early. Nobody complained that they should not get in there on a Sunday. However, there do have those people who say that it would be fine to make their business known . . . and to pay duty, they have to be open on Sunday.

Mr. President, I could hope that Mayors would be so highly insane that to get one drink it would cost ten dollars, because I am saying that this is getting out of hand. Someone said to me, "Which Airline have Cayman Legislators rented your House". I know that we cannot Legislate morals but let me ask this question. Just because we cannot Legislate morals are we going to make it legal ? Is it prohibited? Just because we cannot Legislate morals are we going to make it legal to be a thief? Just because we cannot Legislate morals are we going to make it legal to use cocaine or to smoke ganja? No, what I am saying is this. We have to put our foot down some place. We cannot get rid of Liquor altogether. It is just much too much embedded here. I know that. However, what I am saying is this. It does not have to be duty of the road. We can put it in the rightful place.

As far as possible never, ever now we serve it. Never, I take the oath. I know what it can do to a human being. I had an aunt in her early twenties, first and I only months pregnant with an eighteen month old child laying on her breast in her bed, and her husband unbeknown came to drunk and hit her over with a bottle nearly. She died two days later. Under the influence of drink.

I had on people having eight pints of the way of the Antigua rum in Florida he got in an argument, a minor argument over which flag was better, the American flag or the English flag. After the argument the "guy" with whom he had argued left and a few minutes later when he arrived out of that door that "guy" was to his end without his children upon my badly that they could hardly get him to the hospital in one piece and he died a couple of hours later.

Mr. President, I have seen drunk persons come to nothing. I have seen intelligent ones to nothing. I have seen some of my best friends, one in particular, one when it is over anything one of his best friends was killed, and one I may affectionate he committed suicide in a foreign port because of what it did to him.

Mr. President, I would wish Cayman take others who were beautiful and happy and they would a reputation where they are mentally ill; they are emotionally ill and something else. It has caused more disturbance in this country than anything else.

MRS. PEGGIE J. HEMPY (Oklahoma): Professor, what really bothers me, Mr. President, is the fact that years ago we would not see young people drinking. If we take a walk on Bourbon Street Beach or a Sunday at some of these barbecues, wineburns, we will see fourteen and fifteen year old girls and boys drinking beer after beer. When we do, we punish the young people there and consider that as having to do with these things.

Statistics will prove, Mrs. President, that liquor is causing more destruction on our land than anything else. We went to Bartlesville [illegible] and I found that I knew many of the young people who were there. Except for a very few young people one of them telephoned to a man who was in [illegible], I cannot blame and I struggle to survive, rather as the result of the example set by a father who has been absorbed by alcohol!". We say the young people why they get involved in drugs? Why are they doing it? They say, "My father takes his liquor. I take my marijuana. My father takes his drink. I take my marijuana." It is the same thing.

Mr. President, I am very busy, and sometimes should misunderstand me, my statements are not [illegible]. God forbid that I should be such a thing. However, some persons tell me have a further and essential bill would assist many who need they when he has the [illegible] Can someone tell me how only persons can survive or alternate a child back that child we look up them and say, "You cannot buy anything in the [illegible] unless you bring the same [illegible]; only with something else".

If we all do [illegible] beautiful Alaska and we can look out into the water and see the ocean [illegible], the mountains and the beautiful [illegible]. However, I can bring one night up a little planes along the wall so can see what should can do to [illegible]. But just recently the Indian [illegible] Board as it is in addition to the [illegible] just a few hundred yards apart, southern Arizona just down the road, not just a home and also license, a [illegible] license. You all [illegible].

Mr. President, we need to think that because we are a tourist oriented society, that it have to well [illegible]. What I would like to say here is that this is one area and the home is where our obligations lies. And it going to [illegible] someone else come into our home and tell us how to run our home? I can have someone in my home; maybe like a [illegible] will have to meet [illegible] in my home[illegible], or come over and enjoy my [illegible]. However, I am not going to tell anybody that whatever I do in this house will [illegible] or what to [illegible] about it. By [illegible] foreign people [illegible] and tell us how we must run our country. That is the beauty to being able to govern our own country. We do what is best for this country.

Mr. President, what I would like to say here is that in Oregon having to absorb water when [illegible] is [illegible] taken place in a family, or especially is [illegible] and [illegible]. We will have people [illegible] and say, [illegible], we commend you to the [illegible]. God will take care of [illegible], and [illegible] and rightly so. [illegible] I am [illegible] [illegible] [illegible] from this world to the next [illegible] the [illegible] of [illegible] I [illegible] [illegible] [illegible] to help us [illegible] [illegible] of [illegible] [illegible]?

If we have [illegible] [illegible] [illegible] [illegible] to this Democratic House to [illegible], we do not [illegible] [illegible] [illegible] that he will help us, and [illegible] [illegible] might [illegible], but he will [illegible] [illegible] [illegible] [illegible]

MRS. DOROTHY A. GRIGGS (CONTINUING): ...because unemployment is now above 6% providing work for people on Sunday. I have up people in most any employment, Mrs. Sachse, who think about it in that you have got to work seven days a week. You cannot ever get a day off". What is no response. What is your, I do not even care to discuss that any longer.

On the other hand, Mr. President, they still come to me and I have had people who have told me that I did better not being this aggressive because perhaps I might become unpopular, and I may lose in 1988. Mr. President, that is the least of my worries in bringing this matter to this House about what happen I win in 1988. I have got people out there who are suffering and if there is any one platform where I ran it, it is Work Now. On Monday when our young people should be in church and should be praying and should be taking time out to think on things of importance; where our families should be getting together, we have a liquor outlet.

Mr. President, I am not saying that one who sells the liquor goes into the house and pulls the gun out of the house. I am not saying that. However, when a person is addicted to something, the more temptation is to go and get it. Do we mean that six days a week is not enough to sell liquor? If it was five seven six days would be long enough, but liquor?

Mr. President, there are no pictures in liquor. I do not know how much more time I am going but I would beg for this Honorable House to give me a few minutes here.

Mr. President, just over the line Ohio passed a law on Sunday sale, Mr. President, to determine how well that Government has been committed for a long time, and the problem will not be solved without a real battle or without a genuine commitment to fight one. The agency responsible for Social Education and Social Services said that the Government fully endorses the view and the price of failure is dreadful. The Vice Commissioner of Police said that they testified to an audit which not only endorses wages but damages the economic and social structure of a country. The Chief Executive Officer said that we should make no mistake. It is a very real cost perspective like an underlying that the whole community joins forces with the Rivers Club and supports this programme. Mr. Richard Lamb, the Chairman of the Council of Social Services said that it is up to every responsible citizen not only to restrain from taking these themselves but to urge young people never to start, and endeavour to get every house to have a like treatment and something in order to break the addiction by which they are and will be engrossed.

Now we go further on in that same publication and it says that the reason for obesity is given to obtain a pleasurable feeling. That is what liquor does to us. To put it more simply, a person uses a drug to feel good. Now, Mr. President, in mentioning that there is one thing which I want to bring to this Honourable House's attention. When a man or woman is drinking their liquor, they are feeling good then. However, if we have an abused wife or an ill treated child or a broken hearted parent how it invokes them that person gave into the house, that is the time when it causes problems and they are the ones who must suffer.

Mr. President, if you can bear with me I would like to move further.

MRS. MAUREEN L. CHANEY (CONSTITUENCY):

"Alcohol is the number one misdemeanour in the Cayman Islands and most of the serious murder. Besides a drug addict and many people immediately associate a dangerous knife a hypodermic needle. In fact a staggering and equal amount is the more common type of drug addict. Alcoholics are just dependent. They drug is alcohol. This particularly with alcohol seems to make most people acceptable in U.K. it is not. It is a drug. It is abused. It is a dangerous drug if not more so than other drugs and it is more commonly used. Alcoholic, loss of concentration, impaired ability to administrate or perform complex tasks, decline in human efficacy, loss of judgement, personality changes, weakening of the alcoholic's eyes and distorted vision are some of alcohol's effects.

It cause not just to physical dependence, especially to drink. Can get liver, heart, brain and nervous system damage, nutritional deficiency, memory impairment and it has possible effects on the reproductive system causing congenital malformation in the offspring. The people who are psychically and physiologically addict dependent, cannot solve their problems alone.

The age limit for the legal consumption of alcohol in the Cayman Islands is eighteen years. The increase drinkers are young men because the ages of sixteen and twenty-five. It is also known that drinkers are more likely to use weed and other drugs than non-drinking people." As just part of all violent crime, is part more of all rapes, so to 80 per cent of all child, wife and incest rapes is committed while offenders, most of them alcoholics, are under the influence of alcohol.

These are not the only frightening figures connected with alcohol. An increasing number of accidents occur as lives are in the work place due to alcoholism. Drunk drivers are the real killers on all roads. Often they are responsible for taking the lives of others. Alcoholics are not just a danger to themselves. They are a hazard to everyone.".

Mr. President, Mr. Richard Cook had a full page advertisement in this supplement and his message to the Caymanian people was this:-

"Even one alcohol abuse could only destroy the future of our country that generations of Caymanians have fought so hard to preserve. It is our wish and that of so many Caymanians that our generation of today will make every effort to preserve the future of Cayman by eliminating drug and alcohol abuse.".

Mr. President, when I spoke here, I am pleased to say only positive but I see a lot of children growing up here today. When I think that it is up to all of us our Constitution left for us and when I see those of my colleagues and grandparents and what the social conditions were back when I was growing up, and to see that the only country we have children growing up in this type of a society, I shudder to think what their future will hold for them.

MRS. DIANE K. GRADY (CONTINUING): In this matter are those who say, are we sending our children out there with no moral principles or ideals; nobody listening they ask me, "Are we not in this, are we not one?"

Mr. President, the Rollins Department had a big advertisement in there. They said, "Will you have to do it by no". Well and good. That was a good message. However, let me say this, it is a little difficult to say as about accepting in right there for one to just so easily. If I am in a bind and somebody comes and wants money a dime of the green might be great of me, I am tempted to take a little.

Mr. President, we are making it too easy for some young people to get on to this drug. It has been found that many in the Florida School and in the High School are using drugs. Some few months ago a happened to be sitting near a group of young women some of whom came from mine homes and many will it make me speechless. However, they were talking about a party which they had been to the night before. Mr. President, all of those gathered I knew one child who was thirteen. I have one who was twelve and the other three were between fourteen and sixteen. Their conversation was how drunk they had got. They did not know who had taken them to the case. One of them said, "Oh my grandma, I was so drunk I did not even get undressed when I got home and mommy asked me where I had been, and I told her to go-and-go's party".

So, I listened for a while and then I very gently said to them, "Do you mean that at your party you were smoking drugs?" She said, "They had a lot of beer there".

Mr. President, what I am saying is this. We have a problem. We can face it. We can decide to or we can make our heads like Pilate and say that it will not have anything to do with it. However, it will not only remain but it will get worse. This honorable House is in a position to do something about it. And I leave this session with the members of this House to remember, not what they have to answer to me, but what they are going to have to answer your years from today when we may not be sitting here. I do not have any conscience that I am going to pay anywhere from pocket to here. Some people seem to be sure of whose pocket but I am not sure of mine. However, while I am here I want to make an impact on this society for good.

This matter is presented not for any show of power on my part; many examples left me angry, a number of people said to me. "Please you know you should not bother with that. Leave this alone". Mr. President, there is not one single problem in this society today which I have in front of me any more frightfully than that which I have just stated to present to this House.

We have a problem. I am not asking for anything more. We should just be given back our Sunday. If we must vote them all days, let those be.

Mr. President, I am leaving the matter with the honorable members of this House.

MR. SPEAKER: According to my watch, it is now 1:30 p.m. I am not sure whether it will be the wish of members to suspend, then I can find it, the maximum suspension time, thirty minutes in order to enable this Senate to begin and accomplish the business to be considered today, or whether Members will prefer to break off now and have lunch immediately.

SUSPENSION OF STANDING ORDER 10(7)

Col. D. RYANG-NGUSAH: I move that the Standing Orders, etc.

MR. PRESIDENT: I'm anyone minded to move that Standing Orders be suspended as one table a date and that will probably be the fastest way to deal with the matter.

Col. LAMPREY A. FLANNERY: I second that motion.

MR. PRESIDENT: Well, I will take it that the motion is moved in accordance with the provisions of Standing Orders 13. Standing Order 10(7) shall be suspended in order to enable the business which is not down to be completed. Does any Member wish to speak to that? I will put the question.

QUESTION PUT: AGREED BY MAJORITY. STANDING ORDER 10(7) SUSPENDED TO ENABLE THE BUSINESS OF THE ORDER PAPER TO BE COMPLETED.

MR. PRESIDENT: We now continue with business and the motion before the House is Private Member's Motion No. 19/86 which has just been moved by the Third Elected Member for Nadi Bay. That motion is now open for debate.

DEBATE ON PRIVATE MEMBER'S MOTION NO. 19/86

Mr. K. NATABUI BUNE: Mr. President, although I have to finish this afternoon I am sure this motion that we are going to be finished.

Mr. President, I rise in opposition to this motion. Sir, I oppose this motion I am a strong advocate of the sale of alcohol because as I have said earlier on this Honourable House, whether we like it or not people who want to use alcohol, use it. However, I oppose this motion because I am here as a legislator to legislate for rule and distribution. Sir, the negative which are brought by the motion cannot and will not help our society.

Mr. President, the Honourable mover has told us that a lot of thought was given to this motion and so have I have also given a lot of deep consideration to this. After having and finally seeing the way ways in which this motion could be changed if not accepted, I am left to wonder whether he was given enough thought on this point.

Sir, why are we prohibited? Are we fair in asking that the sale of liquor be prohibited on Sunday only? What about Saturday? Mr. President, Saturday is an important day to many people as Sunday is to me. So, why are we seeking here to stop it only on Sundays. As I said, it will not help. It will only discriminate others trying to take place in our society on what day on which we buy the most. I am of the view rather that we can and we should be legislators not a moral examples. However, we have rightly been said, we cannot legislate morals. We should use the moral examples. Yes, we must set the example. However, as mentioned, only I will not be a hypocrite.

Mr. President, much has been said about our tourist industry but I am asking what is going to happen to our tourist industry if this motion is passed? It is good to look at it in one way but we should consider other ways as well.

MR. M. MORRIS DYE (CONTINUING): whether we like it or not, whether the majority of this House likes it or not, the majority of people coming to the Cayman Islands do wanted to come to have a good time. Let me face the facts and that includes alcohol. We don't have anywhere else that people can go and high on the mountain that because of the high cost and now it is being asked that they should even have a beauty breath if they wish to.

Mr. Speaker, with this motion, or concerned about, the spirit in good but the body is weak. Another point is, Mr. President, and only be one which we have never realized. That if we allow the liquor establishments in Georgetown it will only increase the number of illegal sales of liquor. That is all that is going to happen. Now, I am talking about the speak-easies and we know where they are all about, speak-easies which the police may not even anything about.

Now, as I have said before, unless you give these speak-easies to the illegal sale of harder drugs then alcohol. While the police can control around the bars and the hotels where there are sales of drugs going, and while they may not stop it entirely while it does with many going around the bars. I am asking how the police, although, also does the sale of drugs under an alcohol environment in somebody's home you do not know about it.

This is what this motion will create. I will create these illegal places and these illegal places, in my opinion, contribute more to our social problems in that they make it much available to anyone at any time irrespective of age, or they have the money to pay. Let us not fool ourselves, Mr. President, we have gone mad if we stop the sale of alcohol on Sunday that is all that is going to happen. They are going to open it in the back and sell it, if they will be open in the back, they will sell people and they will sell them and the police will not know anything about it.

I cannot support it in all good conscience Mr. President, if I was interested to save people I would not make speeches, and the vote would probably have been taken at 4.30. I have heard all kinds of reasons why I should not speak in this motion. They said that the churches would not support me if I voted against it. Mr. President, I am here to represent all the people and to my conscience to these my conscience leads me. The churches have no position. When they engaged you we only helped to get as elected they knew that I am not a hypocrite. They know that I will fight for the rights. They know where I do stand. If we want to do something, let us set the example. Let us when we go to national parties and ministers not even drink as liquor, even if it be only a glass of wine. Let us not be hypocrites.

Mr. Speaker, prohibition did not work in the United States of America and it will not work in the Cayman Islands. It will only further compound the problems and help to destroy more. While it always discrimination will come in. We heard some talk about discrimination when we were dealing with the hospital. This is where the discrimination will come in because if we stop the sale of liquor on Sunday we are going to create a new scale of hard drugs in this country which the opening up of these little places to accommodate hard rums. It is a fact.

The Member, Mr, is not found in this motion. It will not help. The reason is found in ignorance by reason of the dangers of these drugs and a more aggressive social drinking programme. That is where the reason is found.

MR. M. BERNARD RUSH (CONTINUED): Mr. President, I might add somewhere people to some people which the media made. That is their normally misrepresented about the passage of the Eighth Reporting Law to the Ninth Meeting. Mr. President, the Member knew that the Bill was merely up in the Senate Meeting and the Hall which is contained. So she should not now try to make the people believe that we passed did something which she did not know about. She knew well enough of it.

Mr. President, now, that was Sunlight we I want to say again that I only agreed to that section because unless the Liaison Committee and the Board will have to make it mandatory and it will have to have representatives from individuals or groups, which will include anywhere was either whole organizations, Mr. President, it would be acceptable under the conditions of this Liaison Committee but for all open Common Wives Law, Corporations Code and Indiana should disregard which services. I would never have agreed to it, but this is why I voted for the Eighth Liaison Committee for the Ninth Meeting. The Member knew right it and she must not misrepresent and let the people believe that she did not know that. That Bill was coming and what the Bill contained.

Mr. President, if Eighth was not on Sunlight they would buy to some other day to provide for Tuesday as there is the purpose of the motion. If the people from Wyoming it will fail miserably. It is a bad, bad motion. The spirit is good but the most to well was passed under good circumstances. We are on the board to help across then we are not if we pass this motion as it is. We will put our people because of the misrepresenting other things to come, as we know that they will vote if we pass the motion as it is.

Mr. President, I support all on this Notes and be a legislative and decide that will be well used to consider the Tuesday. I am not a fool and even if all I am not a hypocrite. Our country is based with problems. There are no quick answers or easy solutions and we must live them with courage and with a scripture guide in the belief that they can be solved with growing awareness, and we must do it together. A country divided against itself cannot survive the dynamics to make the changes which are needed today. Each of us owes to this country but how we be free, free to think new things and work new ways. But part of all free is where our Christian belief in the brotherhood of man that we make that brotherhood real. And we must be supported, Mr. President, which motion will fail this country miserably and I oppose it, and the amendment here that I opposed it. May also local that Bath stands for the right. So, I am not looking for my vote. I know what will happen, or what can happen. I am only trying reasonably to the discharge of my conscience.

I thank you very much, Mr. President,

MR. PRESIDENT: The Chair thanked Member for the Senior Delegate.

SEN. WILLIE J. STUCKEMBERG: Mr. President, I rise in support of the motion, not particularly because it will lay the date of Senior Tuesday, however, I think this is a step in the right direction. I commend to the Body of reconsider for Tuesday in this country. I was taught by my parents to observe Sunday as a special day, a day of rest and of reverence and I think that particularly for that, and I know that I will die with that belief.

CAPT. MILES S. ROSENFELD (CHRISTIANSTED): I am not here to try to legislate morals but I am here to say that we have proud of our heritage as Caymanians. I have heard a lot said about our ability to build existing schools and the return of the "Caribbean" to preserve our heritage. Well I would say to all Honourable Members here today that a part of my heritage as a Caymanian is my respect for the Lord's day.

I feel as I said that this is a beginning. This is not the end. There is much which we need to do. I am not here to hit out at those who will display or apply the principles or pleasures which they think they got from us. I am here to say that as a God-fearing man I simply like to have it said that I helped to preserve this observance of God's day. I was tempted to abstain Sunday. I know that there are other legislators waiting to move another day and that is their privilege. However, all of the Dutch community except a few observe Sunday and I again say that I suppose this motion because I think that it is a step in the right direction, and I do sincerely do hope we will again restore reverence to God's day in the Cayman Islands.

Thank you, Mr. President.

HON. PRESIDENT: Does any other member wish to speak? Does the mover wish to exercise her right of reply?

HON. DARWIN E. QUEST: Yes, thank you, Mr. President. I am a little bit surprised and very much disappointed not to have had any more support from my colleagues the Second Elected Member for West Bay, then I did. My only fear is that it was a bit revision but apparently he felt that it perhaps will not give it much thought as all. However, the thought behind I have to that motion did not come simply since September, 1994.

Mr. President, statistics from the Statistical Department on Alcohol abuse and Alcoholism gives a few figures here. These statistics mention the recorded deaths from selected alcohol related causes. In the United States and the Cayman Islands, number one on the list was the Virgin Islands, number two was Alaska and number three was Canada. The United States Virgin Islands had 6.65 per hundred thousand people with a 5,83 per hundred people. The Virgin Islands had almost 100 per cent more deaths per capita from alcohol related diseases. Alcoholism, alcohol psychosis, cirrhosis of the liver, accidental poisoning by alcohol. Some time ago in a local publication it was stated that the Cayman Islands consumed more alcohol than any other Caribbean Island. Now, if the United States Virgin Islands has almost double the amount of deaths caused by it and that it is a part of the Caribbean Islands, and we in the Cayman Islands are supposed to be the ones who drink the most, then it should be obvious where that places us. If there is a race then we are going to get first prize.

In addition to that, Mr. President, the Lions Club of Boston did a study on how much alcohol was drunk per person and arrived at these figures. I am not sure whether this includes the babies which is brought from a pagan state or whether this includes what is brought in by the tourists on the ships. I do not know. However, Mr. President, that is the statistics, although as I mentioned a while ago to with us. Mr. President, if I have cancer in a certain organ of my body and the doctor says to me that unless it is removed in very short time, I would. If he says to me that I have cancer in a certain spot and if we treat it with this certain drug we can at least minimize it.

SEC. SARBANES [D., MARYLAND]: Mr. President, although I do not like to see anyone arrested, I think the one who can handle it is the one sitting here. The one who cannot are the others. What I am saying is this: How can we ask them and assert themselves not guilty if we do not at least try to help ourselves by trying to help hold down the crime which is taking us to this place.

MR. CHARLES S. SMITH: I stand here to represent that many who wanted that child to have a traditional Easter in the depths of Tidyness. Mr. President, nobody should tell me that the churches in those Islands want. I stand here today to tell you that it was wrong to tamper with that quarter mile limit. I'm saying this. The church needs all the help it can get from us. I don't stand here and make it harder for them. We have lost a few family this year in this country and yet I would be told that you people in Washington that there would not be riots or violence or shooting or any such ugly happening because they did not want to hurt their neighbor's feelings, or their brother's feelings, or their husband's feelings, or whoever might want to establish a Tidyness business.

Mr. President, in order to protect our Islands to know this. I feel that that problem was coming in this House....

MR. PRESIDENT: I am afraid I have been silent so far. However, I must draw the Member's attention to the fact that Standing Orders prohibit raising again a matter which the House has already been discussing and deciding.

MRS. AUDREY S. SMITH: Very well, Mr. President, thank you very much. However, could you please, Sir, let me apply to amendment which is an entirely different which was mentioned by the Shadow Minister for Rest Day. I have about the quarter mile limit.

MR. MICHAEL J. BRADLEY: In all the cases, Mr. President, for one minute to call the attorney of another Member in between?

MRS. AUDREY S. SMITH: Again, I apologize....

MR. PRESIDENT: I think that is unnecessary language and that be that....

MR. CHARLES S. SMITH: Mr. President, may I say that it is necessary. Thank you.

I hear about the quarter mile limit and the motion which was coming up. Before I left I made it clear to Members that I did not want them to make any changes to that quarter mile limit. I was against it. I circulated photographs of what I felt was more relevant on the circulation and the dangers of alcohol. I planned to attend before I left to go to England. I am thank of the Members to thank to confirm that I circulated and voted in the Bill and was back again. Mr. President, sorry if I were mistaken either.

MR. PRESIDENT: No, will I am sorry to what I think what you have made your point. However, to correct matters that will have again.

MRS. AUDREY S. SMITH: Sir, I should be standing while you are speaking to me, I am sorry. While I am not listening to I must in this place that I called Hon. Members to any time I made this question which I had planned of that Bill had not been dealt with, to move here and around in this House and Senate to any what I felt about it. I attended here and when I rushed in the radio in my car the Speaker had concluded the meeting that day. I was unable to speak on that as no one even stood here and said that I shall decide it and I did not do anything about it.

MRS. SIRIMA E. BRETT (CONTINUING): Mr. President, for some reason it seemed that that still had to go through for a hearing. Enough on that.

Mr. President, as far as I am concerned this motion which I have brought before this House today is not in vain of a few people. It involves the majority of this country and if any of us have to go out on the street and ask what the people think about this motion, be it a good motion or be it as my colleagues here made a bad motion, we will find out the response we get. In fact, he has just told me, "Remember". I have not many calls although I did ask only this question. I did not have to go looking for the person. I did nothing of that sort. However, somehow it leaked out that I was going to bring this motion to the House and I received many calls from people who said, "Madam, it is also something we are concerned about here", as voiced in their offices. We have chosen not to make a lot of pronouncements. Perhaps we should do that so that we have that option, and maybe this fight is so funny it is not worth giving the penalty.

Talking about the tourist industry and tourists coming here to have a good time. Of course, but it depends on what a person calls a good time. If a person can relax and enjoy, that is a good time. Talking around rivers is not a good time. Nobody asked me what will happen with pedestrians going from the airport? I ask again, what is going with going here either?

Mr. President, we cannot take a unfortunate situation here. There are certain people in this group who claim that they know it all, who seem as if they have everything. However, Mr. President, nobody can have everything. We would not have anywhere to put it. That goes for Parliament. We can learn from the unfortunate ones.

I want to say this. It does not matter whether anyone calls it a bad motion, I am pleased that I brought it to this House. Perhaps I have left out a lot of what I was hoped to say but I can assure you, Mr. President, that whatever other given hand bombs, no people know that I can have to deal with but what only be in reference to an almighty Dollar; that is all some people see. If we make Government bring a few cents and make them to raise money in some other means, we will have a lot better and know what Government is doing and how they are taxing the people and everything else. With this motion, many be in it be aware, what Government is going to look in revenue. I am not sure that Government is going to lose anything by passing. However, if it does it will probably be made up with what we have on added service charges. Mr. President, I wish to say here again that we have a choice to make....since we was elected here, I will be right with you in a moment. We have a choice to make. We cannot vacate it, we cannot be neutral about it. We say either, "Yes we will stay by it", or we stand here today whether we consider this motion a good one, a bad one, a workable one or whatever. There is no neutral ground. We cannot wash our hands of responsibility as elected Members would. We must make a clear choice.

I have encountered more a situation while in opposite house to others. We cannot ignore it. We have not really got what we all came and want to do something about it. I hope the Leader for North Side Association or (?) is hearing just a few views. I do not know what is acceptable about this. However, it is right....

MR. S. ARTHUR HENFREY: Of a friend of mine, Mr. President. Although I might have been misunderstanding I was not misunderstanding as the Member. I was wondering which was going to happen the way in the Government Bench side.

MR. SPEAKER: I am not sure that that was a point of order but, nevertheless, you have got away with it.

MR. DARYLE D. OGDEN: Anyway, Mr. Speaker, I can assure you that in this Honourable House I do not behave myself as much as numerous other Members of this House are speaking.

Mr. Speaker, I would like to inform this meeting with the Members of this House. I can assure them that they will have the backing of the majority of the Cayman people. They might have the perpetrators of a free liquor establishment but these people do not make up the majority of the people whom we are here to represent.

In presenting this motion, Mr. Speaker, this is exactly what I am doing. I am bringing to this House something which affects the majority of the people on the Cayman Islands today. We can do whatever we want to about marijuana and about everything else. Everybody knows what he is, whether he is a hypocrite or not. I am not here to talk people hypocrites, however, that I am saying to them. We have a responsibility to God and to our people to stand up against this evil. It is a sin. We are supposed to be a God-fearing people. We are in a way on drugs and, Mr. Speaker, there is absolutely no substitute for marijuana as a drug, and this is why we must abstain from it.

I have spoken from my heart. Perhaps there are relevant points which I have omitted. However, I ask for Members' serious consideration, not just for the sake of this Bill. We should not worry about this; what we stand on here can have grave, dramatic, far-reaching effects on our children and the society in which they have to grow up.

Mr. Speaker, I thank you for the time that you have given to me this afternoon.

MR. PRESIDENT: The question before the House is:

> "BE IT RESOLVED that Government take immediate steps to introduce the necessary legislation to amend the Liquor Licensing Law, so as to prevent the sale of all alcoholic beverages on Sunday, between the hours of 00.01 hours and 24.00 hours, local time."

I will put the question.

QUESTION PUT: AYES AND NOES.

MR. D. EDWARD MILLER: May we have a division, Sir?

MR. S. ROBERTA BURR: Would you give the Member two minutes?

MR. SPEAKER: Yes.

PRIVATE MEMBER'S MOTION NO. 18/05 DEFEATED BY MAJORITY

THE PRESIDENT: Private Member's Motion No. 18/05. The Chief Elected Member for Home Affairs.

PRIVATE MEMBER'S MOTION NO. 18/05

TRANSMISSION OF LEGAL AND DISASTER ADVERTISING TO THE CAYMAN ISLANDS

THE HONORABLE T. OMNETT: Mr. President, I wish to move Private Member's Motion No. 18/05 which reads as follows:-

> "BE IT RESOLVED that the terms of reference of the Select Committee appointed by Private Member's Motion No. 17 of 1985 be enlarged to include the consideration by the Select Committee of advertising of Government tenders and notices pertaining to employment, appointments, sales, auctions, meetings and all other ways in which public announcements to the public in the Cayman Islands".

MR. LINFORD A. PIERSON: Mr. President, I second the motion.

THE PRESIDENT: Does the mover wish to speak on the motion or just to put it to the vote?

THE HONORABLE T. OMNETT: Mr. President, I may just be put to vote because actually this is the same as what I spoke on a few days ago. Thank you, Sir.

THE PRESIDENT: I think that technically anybody else may speak if they wish to. However, the motion was of a fairly debatable and I think that most Members made their views known when the debate was.

Do you wish to speak?

DEBATE ON PRIVATE MEMBER'S MOTION NO. 18/05

MR. K. MCKEEVA BUSH: Yes, Sir. I promise the House that I will not be long. With respect to the motion just mentioned, the spirit of the motion was good. However, this one, while the spirit is good, I have serious (?) Private Member's Statement.

MR. K. HOWARD DUDA (CONTINUING): I know, Mr. President. Given the previous debate on the other motion that I stood alone on this particular subject. However, I have been alone on many occasions and I suppose that I will be alone on many more. Last week, Sir, we saw the introduction and appointment by the majority of a motion which has now in my opinion taken away $20,000 per year from the budgeted dollars which Government personnel to this Committee knows is much, much needed, Mr. President. We see the same motion coming back again, in my opinion, a very regressive attitude to the whole approach dealing with the press and in effect will inhibit free and private enterprise in this country.

Sir, I have always been an advocate of a free press. In fact, I have been used before because I objected the press against reprehensible laws of the previous administration. As we explain this motion before this Honourable House is a form of censorship of the free press and a censorship of free enterprise, and it must be very careful not to destroy those liberties of a democratic society.

Mr. President, I am asking how far will this motion extend? Will it extend, Mr. President, to the Sisters Club if they wished to subscribe a motion which says that certain words will be cut? Will it extend to the Kiwanis Club if they wished to do the same things? Will it extend to the Ambulance if they wanted to do the same things? I will not say the Lodge. However, Mr. President, I am asking how far is the motion going to extend? Will it extend to those publications circulated into the country such as the Island Herald, the Junior Observer, Seasonal and Time magazines? Accordingly to the motion nothing will be able to subscribe to this country fiscal restrictions.

MR. SPEAKER: If the Member's questions are not absolutely relevant to what he may be asking for a moment and answer, because I think that he may be under a misapprehension.

HON. MICHAEL J. FINNIGAN: Mr. Speaker, Sir, on a point of information is it my understanding that all we are doing in this motion is referring some matters to a Select Committee they will then be referred to the House.

MR. SPEAKER: All the questions that you are asking can be asked in a Select Committee. We cannot in any of these have yet been given.

MR. K. HOWARD DUDA: Mr. President, I was that is in giving to a Select Committee but I am certain that I can stand here and debate it, and it....

MR. SPEAKER: I do not think that you can properly contemplate the considerations which the Select Committee will consider. I do not think that is allowed. I will have to look up my Standing Orders to find out but I think that it is wrong to do that.

HON. MICHAEL J. FINNIGAN: I think that the Member can indicate matters he should go to the Select Committee.

MR. SPEAKER: Yes, I mean you can make representations and say that it is all wrong to do this or that. However, you cannot assume that the Select Committee is going to reach a determination or valuation.

MR. E. MARTIN DUBAY: Mr. Speaker, I thank you very much and I bow to your ruling. I guess it is unfair to anticipate but we know what will happen, Mr. President. I can only function myself in my case. However, I think that I am allowed to say these few words.

A Member can only exercise with the support of the people. It must be done with the people in command. It develops as they develop. It maintains the pulse, the hopes, the inspirations and the achievements, the good and the bad of the community.

Mr. President, I think that it is only right to a Select Committee. I will not support it. As I said it is a case of censorship. If it is agreed by the Committee that taxpayers will not be able to advertise I feel that it is a kind of censorship and it will inhibit free enterprise in this country, and I will not support it.

Mr. President, we are talking, and I might be a little bit wrong here because I am told that we cannot anticipate what they will say or what committee they will come to, the Committee to take away $25,000 a year from Radio Cayman. I am sorry again, I guess. However, I will ask the Committee then to take this into consideration. They should weigh the advertisements on the radio and take the $25,000 a year which we could lose and not let it influence the Broadcasting Corporation. $25,000 with the help of this community can build a lot of low income houses.

Thank you very much for your time, Mr. President, and I am sorry if I went slightly harsh on for on the issue of the motion here tomorrow.

Mr. President, I just ask you to bear with me for one last subject. I have been told that I may have turned back to the Chair at times and, Sir, whatever the impression I may have given I mean well when I stand be this House at all times. I do not mean to go against the Standing Orders of the House. It is only because I feel strongly about issues that I talk here in this House. Whatever the impression, I mean well at all times and if I may have deviated the Chair, the Chair does have my apologies. However, Mr. President, when I feel that I am right I shall let the Chair know although I will abide by the ruling.

Thank you very much for allowing me to say words, Mr. President. I oppose the motion.

MR. LEMUEL A. BODDEN: Mr. President....

MR. PRESIDENT: Thank you. Oh I am sorry....

MR. LEMUEL A. BODDEN: Without wishing to keep us here any longer, I feel that I should be remiss in my duties if I did not briefly, and I state briefly as I am not going to dwell upon this too many long, comment on the remarks made by the Second Elected Member for West Bay. My only comment is that this motion has provoked the blessing of this House. This is the motion to the motion which has already been passed to support the terms of reference of this Committee in Private Member's Motion No. 11/91. It is the Mover's business, Mr. President, if he does not care to support this motion. However, I think that he is out of order to state that the Responsible Members of this House would be supporting a motion which would be repugnant to the people of the Cayman Islands. It is not the only person who can put up here and make statements, Mr. President. We might discriminate the Only Member for West Bay but he does not intimidate me. I am the seconder of this motion,

MR. EDWARD A. FINNEY (CONTINUING): Mr. President, I asked by what I have supposed here. I think that it is a good solution regardless of the $50,000 which will be lost by Radio Guyana. If we find that it is not a good thing for our country then we may do it. I am afraid of hearing that Radio Guyana is going to lose $50,000 that this Government is going to lose $50,000. If it is good for us, it is good for us. If it is not good then we do not do it. It is the previous instance as I stated, Mr. President, whether he wants to support this or not. However, we are going to push this issue down anybody's throat. We should vote on a democratic manner. We can vote as we care to vote no. These people who want to vote yes will vote yes. Anything that positive are happening with the power in this country. Should be happening with the power in this country. This is a free country with freedom of the press. However, because this Government believes that it is wrong to acknowledge alcohol and tobacco products. So that's happening with the press?

So, Mr. President, I support this motion 100 per cent.

MR. PRESIDENT: I do not wish to prolong the debate but I am sure that Members are anxious that the vote be taken. However, I do think that it might be helpful to the House if I did make one point which is that when there is a motion for the appointment of a Select Committee to examine something, all the merits, including among the merits or demerits of the particular action which they will be examining. We are simply selecting whether a Select Committee ought to examine that matter. It is only if the Member feels that the matter ought not to be examined by a Select Committee at all that he needs to speak or vote against the motion. If he thinks that it is not a matter which is worthy of the attention of a Select Committee, then of course he is entirely and it may be the duty to oppose the motion. Otherwise, normally it seems to me that it would be a little odd to vote against the motion. Arguments that a particular course of action should or should not be taken in relation to the matter which the Select Committee is to examine and the various arguments which the Select Committee itself should look into. That is really what I was trying to say when I was saying that it is wrong to assume that the Select Committee is necessarily going to come to particular conclusions and not call all manner of witnesses or hear Radio Guyana because of anything else. The Select Committee has to look into all these things and to identify what is advisable.

Perhaps anyway I may now put the question.

QUESTION PUT: AYES AND NOES.

MR. P. AUGUSTUS JULIEN: May I have a division, Mr. President?

MR. PRESIDENT: The Assembly is in session.
I will invite the Reverend Bishop
Dundas to say prayers for us.

REV. EDWARD DUNDAS: Let us pray.
Almighty God, from whom all wisdom and
power and strength do proceed: We beseech Thee so to direct and govern the
deliberations of the Legislative Assembly now assembled, that all
things may be ordered upon the best and the surest foundations for
the glory of Thy Name and for the safety, honour and welfare of the
people of these Islands.
Grant our Sovereign Lady Queen
Elizabeth, the Queen of these Fifty Isles of Melanesia, Charles
Prince of Wales, Duke of Edinburgh, Queen Elizabeth the Queen Mother,
Princess Margaret and all the Royal Family,
Thy gracious favour and keep them ever in Thy holy protection,
and bless and prosper them in all their undertakings, that they may
always be faithful servants of Thee and Thy people. Endue with
wisdom and understanding, Christian zeal and virtue, truth and justice,
Thy servant Sir Peter Kenilorea, Governor-General of these Islands,
and all those associated with him in the Administration of these
Islands, that they may be enabled faithfully to discharge the duties
of their high offices, to the maintenance of Thy true religion and
virtue, the honour of Her Majesty's Crown and Government and the
welfare and happiness of these Islands, whose Constitution and Laws
they are sworn to uphold and maintain.
Bless and direct, sanctify and govern our Prime Minister,
Ministers of the Government, Leader of the Opposition and Members of
the Legislative Assembly, that they may be enabled faithfully to perform
the responsible duties of their high offices.
All this we ask for Thy great Name's
sake, Amen. The Lord's Prayer.
Our Father, who art in heaven,
hallowed be Thy Name, Thy kingdom come, Thy will be done in earth
as it is in heaven. Give us this day our daily bread and forgive
us our trespasses, as we forgive those that trespass against us
and lead us not into temptation. But deliver us from evil. For
Thine is the kingdom, the power and the glory, for ever and ever.
Amen.

The Lord bless us and keep us. The
Lord make His face shine upon us and be gracious unto us. The Lord
lift up His countenance upon us and give us peace now and always.
Amen.

MR. SPEAKER: Papers for tabling.
Presentation of Report and Accounts
Central Hospital Report (March, 1984). The Honourable Minister
Member of Executive Council.

PRESENTATION OF PAPERS AND REPORTS

CENTRAL HOSPITAL REPORT FOR 1984

HON. D. KUDUON ADOORE: Mr. Speaker, I beg to lay on the table
of this Honourable House a Report on Central Hospital for the year
ended December 1984.

MR. SPEAKER: So ordered.

HON. M. APIKAI ADAMU: Mr. Speaker, thank you. The new
Parliament Building in Honiara was built by the people of different
ethnic origins in the country and represents the hopes of the nation
to build the National Play Ground as the focal point of harmony
to give the country's decentralised economy stimulated and supported
by Government ministries and

MR. K. [illegible] SCHOPP (CONTINUING): Mr. President, before the interruption for this quorum call I was saying that the public was entitled to know the details of the proposed airline merger.

The Senate, Mr. President, has a responsibility in determining if the proposed merger is necessary. If such a merger is approved by the Board of Directors and recommended to them by the Justice Department in keeping with the terms of reference mentioned in the Justice Department letter which was originally instrumental in causing the Board to hold hearings, it should be approved.

In the event of approval the decision financial stabilization of the airlines is especially borne out by the testimony, and I quote:

> "The balance sheet of Eastern Airways is a disaster. The accumulated loss of over $30, which has taken on large proportions which is clearly unacceptable to normal financing procedures."

Mr. President, much emphasis has been placed in this report on the profitability of the airline. The report goes on to point out that the Eastern-Capital merger would improve a large number of routes to various cities, some which are unprofitable. It would be recognized that this might not be financially possible, it was pointed that the company's obligations be eliminated so, if the merger was more than compensation company.

In an attempt to stabilize the airline industry many proposals be presented to provide necessary financial assistance to the individual airline as a final basis. There is no doubt whatsoever, Mr. President, that Eastern must be aided in the very near future, in fact at the present moment it appears that unless some financial assistance is forthcoming in the very near future, Eastern will be forced to cease operations. Additionally, we must not lose sight of the fact that Eastern is engaged in the largest single airline operation in the world, and its failure would create an unbearable financial burden.

Eastern Airlines' record since its inception in 1926 is one of profit and progress, and they have maintained an unbroken dividend record. Eastern's debt is a 737 of this large amount is guaranteed by the Government under the Federal Aid Airport Act.

It is the view that the 737 of airlines [illegible] been approved back in 1958 at a time when the 737 of that time, the company could very well have gone bankrupt in a much shorter financial position. However, it is very logical and important to note that Eastern has [illegible] to maintain its position. Additionally, we must not lose sight of the fact that Eastern is engaged in the largest single airline operation in the world, and its failure would create an unbearable financial burden to the

MR. H. EDGAR HINDS (Parliamentary): Finally, and of course very importantly, I would be totally remiss in my duty if I did not express appreciation to the Secretariat staff, particularly Mrs. Lynch, for the very able support and assistance rendered to the Committee throughout the Session.

The other areas which have engaged the attention of the Committee have been of a very complex nature in the areas of organization, information and communication. In this regard, many interesting methods and suggestions were made. I am pleased to report that much progress has been made in implementing many of these recommendations. Others are currently in process, while others are still under active discussion. It is important to point out that a restructuring of the arrangements was initiated whereby Secretariat staff were selected and placed in respective Committees. The organizational chart forms a part of this Report. Additional jobs for the support and management personnel have been developed in this regard and approval is forthcoming.

Mr. President, this Report is lengthy. It is helpful to Caucus Members. It will prove invaluable to the members of the future Assembly and will hopefully enable our National Flag to continue to wave bigger and brighter hurricane.

In conclusion, I wish to say a few words of thanks to the Secretariat team, to the Heads of Divisions and Regional Offices who carefully examined the Reports for details, and to the staff of Caucus Members who contributed in a very meaningful way to the proceedings.

Mr. President, I recommend the Report to Caucus Members for their favourable consideration. Thank you.

MR. PRESIDENT: Presentation of Reports. Hon. Errol Mitchell.

PUBLIC ACCOUNTS COMMITTEE REPORT

MR. MITCHELL: Mr. President, I beg to lay on the Table of this Honourable House the Public Accounts Committee's report on the proposed amendments to Standing Order 99.

MR. SPEAKER: So ordered.

MR. MITCHELL: Mr. President, the Public Accounts Committee met to consider the draft proposals submitted by Mr. O.K. Lynch, the Private Secretary and Executive Service Secretary, with respect to Standing Order 99 and the terms of reference of the Public Accounts Committee Standing Order 99 for the purposes of this Committee's consideration of the matter. Report. I should like to place on record the Committee's appreciation and thanks to Mr. Lynch for his invaluable assistance given to and to the Committee.

The Committee held two meetings. The first meeting was held on the 21st June, 1988 to consider the proposed amendment to Standing Order 99. The second meeting was held on the 5th July, 1988 to enable the Committee to consider the circulation of the 21st June's meeting to enlist a Standing Committee of Standing Orders prior to the Committee's Report being tabled in the House.

In conclusion, the attendance of Members at the meetings do not call in the Minutes which are attached to the Report.

Mr. [illegible] (Secretary):

In accordance with Standing Order 90(1), the following persons were in attendance at the Committee's meeting held [illegible] June -

Mr. G.F. [illegible], Esq.	- Public Accounts
Mr. [illegible]	- Auditor-General
Asst. Commissioner [illegible]	- Acting Deputy Financial Secretary
Mr. [illegible]	- Chief Accountant

Also in attendance were -

Mr. [illegible]	- Deputy Financial Secretary
Mrs. [illegible]	- Financial Secretary

The Committee agreed that the report and statement of Standing Order 90 which is the subject of the Minutes [illegible] be presented to the Council by the Deputy Chairman of Committees [illegible] on behalf.

Resolved by Mr. President, member of Executive Council -

"That in accordance with Standing Order 90, this Council approves the Public Accounts Committee's report dated [illegible] June [illegible]."

Mr. [illegible] (Secretary):

"(1) There shall be a Standing Select Committee, to be called the Public Accounts Committee, to consider reports of the Auditor-General -

(a) on the accounts of the Government;

(b) on such other accounts required to be laid before this House as the Committee may think fit; and

(c) on any matter incidental to the performance of his duties as the Committee may think fit.

(2) The Public Accounts Committee shall be appointed by the House at the beginning of a new session following a general election and shall consist of five Elected Members. The quorum shall be three members, including the chairman.

(3) Upon the receipt by the Presiding Officer, a report mentioned in paragraph (1) shall be laid before, and referred by the clerk to the Public Accounts Committee for consideration.

(4) In accordance with Standing Order 72, the Public Accounts Committee may call any public officer, and in the case of a person in the employment of an authority in a non-governmental or in an unincorporated body elected on account of their work or organisation, to give information on any matter in connection with accounts which the Committee may require for the performance of their duties.

(5) The Public Accounts Committee shall make their report upon the report of the Auditor-General on the accounts of Government after the Auditor-General's report has been laid on the Table of this House and both the Committee's report and the Auditor-General's report shall be laid at the same time."

MR. TIBBOTT A. FIELDS (CONTINUING):

(6) Subject to these Standing Orders, the practice and procedure of the Public Accounts Committee shall be determined by the Committee.

(7) The Chairperson should preside at the Table of the Legislative Assembly while there is being laid the Report of the Committee and of the report of the Auditor-General to which it relates.

(8) The Auditor-General, the Deputy Financial Secretary and the Chief Accountant shall be in attendance when Controlling Officers or other persons are providing information or explanations to the Committee.

(9) Notwithstanding the provisions of Standing Order 78, the Quorum of the Public Accounts Committee shall be determined as three members."

Mr. Speaker, Sir, I move that this Report should be the Report of the Committee to the Legislative Assembly at the Third Meeting of the 1983 Session, and I recommend this Report to this Honourable House.

Thank you, Mr. President.

MR. PRESIDENT: Thank you.
The presentation of Reports and Reports. The Standing Select Committee on Standing Orders Report, the Honourable Chief Official Member.

STANDING SELECT COMMITTEE ON STANDING ORDERS REPORT

HON. DENNIS A. SCOTT: Mr. President, I beg to lay on the table of this Honourable House the Report of the Standing Select Committee on Standing Orders.

MR. PRESIDENT: So ordered.

HON. DENNIS A. SCOTT: Mr. President, at the First Meeting of the 1983 Session of the Legislative Assembly, Government Motion No. 4 was moved by the said Council on Monday 28th March. I am not going to read the whole motion, Sir, but just the relevant sections:-

"AND IT APPEARING EXPEDIENT, in accordance with Standing Order 78, that there be established a Standing Select Committee entitled The Committee on Standing Orders which Standing Select Committee shall consist of the White Bears and shall constitute as a Committee of this Honourable House until the Legislative Assembly is next dissolved in accordance with Section 27(1) of the Constitution of the Cayman Islands, and that the said Standing Select Committee have full power to, inter alia, generally to consider what changes to standing orders are necessary or desirable and particularly to consider any proposed amendments to standing orders which are referred to it in accordance with Standing Order 83(3)."

HON. DENNIS M. ECKERT (CONTINUED): Mr. President, I will try to be brief, Sen. Kenney. I may limit my objections these questions time if I take too long.

I was surprised Chairman of Administration by the President, Sir, and we had six meetings. One meeting we were unable to do any business because of lack of a quorum. The Administration amendments and veto-overrides to Standing Order 19, Standing Order 20, Standing Order 21, Standing Order 23, Standing Order 24, Standing Order 26, Standing Order 29 and Standing Order 75. We also dealt with Private Members' motions on Standing Orders. We considered Motions 2 and 3 which were passed by a majority of the First Session of the Legislative Assembly. The motions, No. 2 dealing with the proposed amendments to Standing Orders 8 and 10, and No. 3 dealing with the proposed amendment to Standing Order 29 were defeated by a majority vote on each on the Legislative Minutes.

On the recommendations amendments to Standing Orders was the Report Islands Consolidation Order, 1976, Mr. President, the Committee agreed that the Honourable Second Official Member make any consequential amendments arising out of the amended Standing Orders to Standing Orders and the Cayman Islands Constitution Order, 1976.

We had another recommendation on Standing Order 26. The Committee agreed that the standing Officer be advised that in the opinion of the Select Committee another ceremonial chair should be given to which Legislature may presently be appointed. There were other miscellaneous points of order. The following were identified as points of order, extension of Standing, Withdrawal of Members, Reading of Bills and Resolution. The Committee agreed that Private Members motion as a point of order may refer to the relevant Standing Order.

There was a minority Report in accordance with Standing Order 74(3)(b). The Committee granted leave to the Second Elected Member for Bodden Town to table his report which is Appendix A of the Report.

Mr. President, we will have what the Standing Orders provide a general debating on and vote on what the Committee has sought to do, Sir. In accordance with Standing Order 74(3) I move that the Report be adopted, Sir.

HON. SPOKESMAN: The question is that the Report of the Standing Select Committee on Standing Orders be adopted. Debate on the question.

HONOURABLE ATTORNEY GENERAL.

THE MOTION TO USE STANDING ORDERS CARRIED BY SUBSIDIARY ORDER - PASSED BY MAJORITY VOTE.

SUSPENSION BY THE PRESIDENT

MR. PRESIDENT: Members will now be entertained for the first time here and now at this stage in explanation of what will, from my understanding, now happen.

The Rules are governed a number of amendments to Standing Orders. Section 82(1) of the Constitution provides that:-

"The Assembly may from time to time make, amend and revoke Standing Orders for the regulation and orderly conduct of its own proceedings and the despatch of business, and for the passing, initialling and numbering of Bills and for the presentation thereof to the Governor for assent; but no such Standing Orders or amendment or revocation thereof shall have effect unless they have been approved by the Governor."

What therefore has to happen is that the amendments which have been passed or recommended today as the result of the Standing Order Committee on Standing Orders Report receive the Governor's approval.

I think that I can speak for the Governor in saying that the approval will certainly be given but that it may be unreasonable for us simply if it is not given until it has been possible to go through the recommendations made and to appreciate them as it were, because they are not easy to follow in the way in which they are set here. Moreover, it may be, as I understand it from the Report, necessary to do a little bit of minor tidying up. The Report says that the Committee agreed that the Honourable Second Official Member should make any consequential amendments which were necessary, and that must be borne in mind. I would think that the Governor's approval for the agreed changes will also need to be given for the Honourable Second Official Member to amend the motion for either a repeal of Standing Orders as the case may be, or for a motion to be made of the amendment as these Members have got something which they can apply before.

I think that probably it will be, then from what this Meeting has been finished but before the next Meeting starts that the amendments will certainly take effect. I have been told that it was the hope of the Business Committee that in connection with one of the matters contemplated by the Committee's Report, Members should be invited to ask questions shortly. I see no difficulty about that provided immediately after Christmas the Standing Orders amendments have not been formally approved and will not actually come into effect probably until the next Meeting of the Assembly.

MR. SPEAKER: I might point I have kept that clear. If any Member has a question to ask, he will need but him ask.

MR. D. CRAIG MILLAR: With respect, Mr. Speaker, may I also ask that the part of the Standing Orders relevant under Standing Order 24(7) be deemed to be suspended so that Opposition Government might ask the relevant Committee Minister through the normal and not a Government Minister as it usually is in the case of the Opposition.

MR. SPEAKER: I think that now that an agreement that a Government Minister will be produced.

MR. D. BRIAN MILLAR: Thank you, Sir.

MR. SPEAKER: I find it a little bit more difficult to accept that particular amendment because in the case of the progress I was not initially applying the amendment. There is nothing in Standing Orders now which prevents the Member from asking Ministers any civil day.

MR. D. BRIAN MILLAR: The amendment will be withdrawn, Sir.

MR. SPEAKER: Well, I am sure that I speak for the responsible Head Official Member in saying that this will be done. Questions may be tabled to Written Answers Minister. Oral Reply on Monday to Written Reply also on Questions Minister. Oral Reply on Monday for Questions Time. However, it is delightful to see that I would like Members to bear that in mind when tabling questions.

Questions. The Second Leader Member for Golden Town.

QUESTIONS

THE SECOND ELECTED MEMBER FOR GOLDEN SANDS TO ASK THE HONOURABLE MINISTER RESPONSIBLE FOR THE MOTOR VEHICLE REGISTRY FOR INFORMATION AND ACTION WHETHER

MR. PAT: Would the Honourable Minister state the intention of the Motor Vehicle Registry to issue a set of [illegible] to Cayman Motor Vehicle Registry Centre?

ANSWER: The reply given by Miss Treasury reads:

"TO WHOM IT MAY CONCERN"

The Government of the Cayman Islands have no objection to the importation of goods and services listed on Appendix I of the CITES Convention, provided the permit is obtained from the country of origin and the importation is in accordance with Article V and VI of the Convention.

Signed: Kenneth E. Jones
Financial Secretary (I & HA) and
"CITES Management Authority".

SUPPLEMENTARIES:

MR. G. HUNTER JONES: Mr. Speaker, a supplementary question. Would the Member say if the two weeks that a reply had been given to Mr. Treasury?

DR. PARKER T. HUBBARD: Yes, excuse, Mr. President. Yes, the Principal Secretary advised me that the note was written. The note was not addressed to Mr. Bowdy. It was left with the Secretary for information.

H. E. MR. ABDUL RAHMAN: Was the Member who took Mr. Bowdy's note of this note by it was not for him to see?

DR. PARKER T. HUBBARD: Mr. President, I have already said what the note given to Mr. Bowdy said, and I read the note. So I have said already that it was given to Mr. Bowdy.

MR. CHAIRMAN: It was given to him but not addressed to him, I think that...

H. E. MR. MATS SZYPRYT: Can the Member say if Mr. Bowdy's evidence were to contradict to the note?

DR. PARKER T. HUBBARD: Mr. President, Mr. Bowdy attended the meeting of the Civil Management Authority. At the meeting there was a discussion including the Assistant Principal Secretary of that Ministry and Mr. Matthews. The Principal Secretary explained all the problems of trade in which together to Mr. Arthur Bowdy was not also view it was thought that the matter was acceptable. However, later on Mr. Bowdy submitted his offer again tentatively that we be given a concession or something which also we could remove the export in order to obtain the permit which he wanted to import into the Cayman Islands. He was told again that we would consider an export license from Cuba from the Civil Management Authority before the issuance of an import license to them. Inquiry by the Civil Management Authority there would be considered.

Mr. President, there continuously have been discussions going on between the Civil Management Authority, especially in this regard. Perhaps this year Civil Management applications from Cuba like and Nicaragua should be failed to look at the tourist flow operations. Discussions have been with the Civil Management Authority here concerning the existing of tourists in their territorial waters. These questions arrived the Civil Management Authority here that no permit should be given to anyone to export tourists from their country except out of their territorial waters. So the Civil Management Authority here are quite aware of that and this is what Mr. Bowdy was told. We also told that if he would apply an export license from the Management Authority in Cuba then this Government would look at it.

However, as has also happened, Mr. Bowdy then left and he obtained his an export license from Cuba first, but he obtained from the Agricultural Department a permit to transport tourists to Cuba also tried to obtain a different story from explaining himself from Cuba first. Those permits to transport tourists to Cuba also were fraudulently issued from one to the other and the certificate was a local certificate to say that the tourists could be transported.

Mr. President, Article V of the Standard was the guidelines for trade in Appendix I, species such as the green sea turtle which is an endangered species. It is not a threatened species as it was back in 1978 which they were moved from that appendix to the endangered species appendix. It states, Mr. President, that those tourists meant be exported and to do so permits will only be given in very exceptional circumstances.

MR. PALMER (Trust Territory): The Administration note which was written by the Management Authority here expressed to us verbal approval, or consent, to be obtained from the Management Authority in Palau first. It was not a permit to harvest turtles. Mr. Speaker, you already explained all that, Mr. President. If it were that it did not have what the position was. We just simply explained that Mr. Speaker, Mr. President, those statistics that Mr. Speaker is quoted in Micronesian have been created by the Government of Micronesia to be used as an aid for him

DEL. G. MORRIS KING: Mr. President, I would like to remind the Committee of Style.

DEL. G. HAIG SOSOKE: Mr. President, may I ask a question of the Committee? Why did the Committee allow Mr. Speaker, even a part of it, to read the Government's information note to allow him to hunt turtles? Why did they allow such a note which would lead him to believe that he had the right to hunt turtles?

DEL. FRANK R. MICHELSON: It was because, Mr. President, of Mr. Speaker's insistence that a statement contained in this document be here so that he can be able to get the actual report over there. We are still pursuing where that regulation was and we would not believe it. So he was given this note to look at the TTPI Management Authority in Palau also.

DEL. P. MARTINEZ ROBO: Mr. President, a supplementary. In the note saying that Mr. Speaker indicated as something to have which has been a discussion for the Government prior to the distribution. To whom was the Memorandum signed, sir?

DEL. FRANK R. MICHELSON: To whoever gave Mr. Speaker the permit, the statement. I have already said in the reply to the question that the note was written to whom to the permit, but it was written by the TTPI Management Authority of the Pacific Islands, not a Municipality.

DEL. M. MARTIN ADUR: Mr. President, is the Trust Management Authority in this country, not the Statistical Secretary under the Speaker's Portfolio?

DEL. JESSE M. MARIAS: Mr. President, TTPI Management Authority is composed by Palau, the Governments of Micronesia Trust, Micronesian Bureau of Fishes and Plants, and the Government of the Pacific Islands.

DEL. LAZARUS E. SALII: Mr. President, I have listened to some of these answers. Is it my understanding that the Members of the Committee are being misled into giving information which is not true, but here we have this information anyway? I would have, Mr. President, that the letter be signed by Mr. Speaker rather than the Trust Territory Authority under the Speaker's Portfolio.

DEL. KASUO S. MIDO: Yes, Mr. President, I am the author of this Committee but I have stated, and I say that I am not the spokesman of Department of the Pacific Islands. When have explained a number times as to the Management Authority in which Palau and I cannot divorce that knowledge for the explanation which he does not want to. We attempt to refute this note to show it was unauthorized and to have a copy addressed to TTPI authorities in which Palau was not addressed to Mr. Speaker.

MR. LINCOLN A. BECKER: Mr. President, while I do not regard the Member in the senate for anything the Federal Government, he cannot abrogate his responsibilities because this note was signed by the Principal Secretary for the Presidio. Is he an individual responsible and if the President could file be here if he accepts this responsibility?

REV. HAROLD G. HOSKINS: Mr. President, as far as I know the President is responsible for the actions of Principal Secretaries in this Government, not the Member.

MR. H. RAY JORDAN: Mr. President, may I ask the Member if from his knowledge of the execution of this Convention, it is not correct to say that the Ministry of Agriculture or the Department of Agriculture, as the Presidio is the Government Authority in every country which is a signatory to this Convention?

REV. HAROLD G. HOSKINS: Mr. President, the signatory to this Convention is the Government of the Cayman Islands. Therefore there should be a Management Authority in each of the countries.

MR. H. RAY JORDAN: The question I am asking, Mr. President, is the Management Authority in reality the Ministry of Agriculture or whatever we want to call it?

REV. HAROLD G. HOSKINS: Mr. President, I would be the very first person on this Island to demand the whole Convention and be most glad to represent the Government of the Cayman Islands at these conferences.

MR. G. HUGH SCOTT: Mr. President, the question I am asking is, is it not correct that because, actually the Ministry of Agriculture, or the Department or the Presidio of Agriculture is the appointed management body for the purposes of the CITES convention?

MR. PRESIDENT: I think quite clear that the Member who is being questioned does not have any responsibility either for appointing or keeping the so appointed Management Authority or other countries and to that extent perhaps the question is out of order. Nevertheless, I have been minded to hear the Minister of Agriculture to assist hon Members on both sides by what the original question which was asked. I think perhaps that has now come to the implementation of that particular question and just as the hour question.

THE HONOURABLE MINISTER FOR TOURISM AND AVIATION, COMMUNICATIONS AND PUBLIC SERVICE MEMBER OF EXECUTIVE COUNCIL, RESPONSIBLE FOR DEVELOPMENT AND PLANNING, AGRICULTURE

Q. 52: Would the Honourable Member kindly advise the balance of sums of the monies imposed by John Yossen on June, 2010?

ANSWER: If the question is directed to monies imposed by John Yossen in July, 2010, the answer is as follows.

To the credit of the enforcement, the court orders were enforced by the STAFF Management Authority in the Cayman Islands that the notes issued "Covid Punish" revoked in the Cayman Islands on the 1st July,

1965, with a copy of motion plus Court Rule without an exhibit dated June 1965 designated Motion for Court Rule and that thereafter counsel on October 1965 the Subsequent Juvenile Petition and Petition dated July 1965. The action commenced by the Chief Probation Officer took appropriate action.

ATTORNEYS:

MR. [illegible]: Mr. President, a supplementary. Could the Member tell us why only some of the parties were released?

MRS. HARRIET F. WOODBURY: Mr. President, in connection with the Senate Education matter which appears to be in fairly good working condition were released the others of parties were left like Mr. John Young. It seems as though the action were very limited because all the parties would have been reinstated.

MR. [illegible]: Mr. President, could the Member tell the Education Committee when we have been informed of the reinstatement of I was not the other of small [illegible] in a public information matter, but were not the subject of a petition?

MRS. HARRIET F. WOODBURY: Mr. President, I would have to give the same answer again unless I just said now.

MR. PRESIDENT: Put the case on then to the next question, Senator [illegible].

THE CLERK READS NEWSPAPER ARTICLE ENTITLED "NEW TEST FOR SCHOOL BUSING" REGARDING DEPARTMENT OF EDUCATION'S PROPOSAL FOR DESEGREGATION AND RACIAL BALANCE

MR. [illegible]: Would the Commissioner review whether those of the Stanton Report by John Young in June, 1965, which were released as Department orders have been monitored to determine their compliance?

ANSWER: Reinstatement in most cases of any families impacted by John Young in June, 1965, but if the requirements of the Stanton Act report by John Young in July, 1965, was unclear in the following:

The families which came released were not monitored to determine current rates. The process is complex for the role is very complicated. It would be very costly in terms of providing manpower and personnel with additional training devices which would have to be followed for each family. By the time these were completed the families would have other [illegible] changed.

[illegible]:

MR. H. [illegible]: Mr. President, may I ask if the Member can explain that the Department Authority have complete responsibility for the [illegible] of Stanton which are the subject of petitions or Supervisors [illegible]?

MRS. HARRIET F. WOODBURY: Mr. President, those families work in the [illegible] as the Chairwoman of Stanton Schools have reviewed each family case.

MR. D. RITZ DOUGLAS: Mr. Treasurer, may I ask the Member if he knows that the counties on this Seattle Home up until the moment of their release are properly fed and kept in roads which contain water, unlike the counties which have released some counties which had been part of the water for many years?

MR. PONTIUS: I think that the new agency obtaining jurisdiction from the Legislature [illegible] and I did ask Members whether to which representatives [illegible] on here on page. The Second Blocked Member for Ward Two.

THE HONOURABLE MEMBER FOR WARD TWO IS ASKED THE HONOURABLE MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR DEPARTMENT AND MINERAL RESOURCES

MR. JAY: Would the Honourable Member make the amount of reinforcement requested by Mr. Pontius for expansion and loss of his lower [illegible]?

ANSWER: No, sir.

SUPPLEMENTARY:

MR. A. MACKENZIE, SUDS: Supplementary, Mr. Speaker. Would the Member say whether Government is considering [illegible] the amount recommended, and if not, why not?

HON. ROBERT G. PONTIUS: Mr. Speaker, Government is under no [illegible] to compensate Mr. Pontius. I believe [illegible] to this effect.

MR. A. MACKENZIE, SUDS: Mr. Speaker, might this be put a question [illegible]...

MR. SPEAKER: If it is not a question that [illegible] not mine.

MR. A. MACKENZIE, SUDS: Maybe we do not have a legal [illegible] but what about a commitment, Sir?

MR. SPEAKER: The Second Blocked Member for Ward [illegible] may now ask the next question.

THE SECOND BLOCKED MEMBER FOR WARD TWO IS ASKED THE HONOURABLE MINISTER RESPONSIBLE FOR MENTAL RETARDATION AND SOCIAL SERVICES

MR. JAY: Would the Honourable Member please provide a breakdown by sub-vote of expenditures under this year's Social Services Department vote?

ANSWER: The breakdown of sub-votes is as follows:

01 - Personnel Services	$433,507.56
02 - Travelling & Subsistence	3,983.90
03 - Supplies and Materials	20,187.84
04 - Utilities	849.00
05 - Other Operating & Maintenance Expenses	3,204.00
06 - Grants, Contributions & Subventions	188,894.33
14 - Equipment	917.22
Total expenditures as at 31 July, 1976	$651,643.85

SUPPLEMENTARY:

MR. D. EDWARD HIGGS: A supplementary, Mr. President. Could the Member state whether he finds the public of the cost of giving 21 groups money if to be reasonable satisfactory? He gave out grants, entertainments and subsistences of $200,000 and it seems to me that the cost of giving out these grants is as much as the grants.

HON. LEONARD O. SHARP: Mr. President, if one Member is making reference to the figures for Personal Emoluments he should realize that the cost of the Departmental Committees would also eliminate many grants.

MR. SPEAKER: The next question. The second Elected Member for West Bay.

THE SECOND ELECTED MEMBER FOR WEST BAY TO ASK THE HONOURABLE FIRST OFFICIAL MEMBER REPRESENTING HER MAJESTY'S EXTERNAL AFFAIRS

QU. 53: Would the Honourable Member make a statement on the progress on the matter of foreign enlistment?

ANSWER: Yes. A statement will be made during this Meeting.

MR. SPEAKER: We intend to adjourn soon.

HON. JOHN B. MCLEAN: Oh.

MR. SPEAKER: The Elected Member for West End.

MR. JOHN B. MCLEAN: Mr. President, are you willing to allow Tuesday to ask you to reflect...

MR. SPEAKER: I was not sure the question is one of those are not any supplementaries you might put such.

HON. JOHN B. MCLEAN: Thank you.

MR. SPEAKER: I will give Monday before I am sure to close so that any Member who wants to propose any question may do so.

THE FIRSTLY ELECTED MEMBER FOR WEST END TO ASK THE HONOURABLE FIRST OFFICIAL MEMBER REPRESENTING HER MAJESTY'S EXTERNAL AFFAIRS

QU. 54: Would the Honourable Member state the purpose of the Permit proposed to be carried out by the Police Department when required to fingerprint?

ANSWER: The purpose of the survey is to confirm the accuracy of police records and to ascertain if the persons for the medical grant of a firearm authority are still valid.

SUPPLEMENTARIES:

MR. D. EDWARD HIGGS: A supplementary, Mr. President. Could the Member state whether it is the intention to recover finances of the persons fingerprinted?

SEN. ROBERT H. MICHEL: Mr. President, in the manner which [illegible] the newspapers have been no indication given to date as to, they that Watergate would be involved. However, I would like to ask that if a particular circumstance arises there be added to it the best interests of the community, and instead of the possibility that they could be involved.

SEN. JOHN G. TOWER: Mr. President, I may interrupt, do I understand the Senator correctly that the intent is to place matters in that of the Agnew?

SEN. ROBERT H. MICHEL: Mr. Mr. President, definitely not. That the Cabinet now and out in campaign one of the Nation. They do not [illegible] for that or sale, Mr. Senator. I think that it is in the best interest that Agnew [illegible] and have a package or [illegible] up to [illegible] there is still [illegible] from this to vote. I am sure, they that a lot of people in region to this [illegible] to say, that shade gas one other and they had experience in [illegible] the crowd up to be to take stock.

SEN. H. EDWARD HUTTAS: A supplementary, Mr. President, part of the [illegible] identification of [illegible] Agnew was going to be done. Is the Senator saying that if [illegible] in the Agnew [illegible] to [illegible] and [illegible] to the Agnew [illegible] to [illegible] and [illegible] to [illegible] and [illegible] to [illegible] and

MR. HAWKINS of ARIZONA: Mr. President, would Senate Standing Order 29(c)(2) this be dealing the inclusion of the relevant legal question and, or hypothetical?

MR. MANSFIELD: Well, I think that it may be, but, however, I make no more supplementary I am afraid...

QUESTION OF STANDING ORDER 29(2)

MR. CURTIS of NEBRASKA: Mr. President, under Standing Order 29(2) I would ask that the...

MR. MANSFIELD: Standing Order 29(2)?

MR. CURTIS of NEBRASKA: Yes, sir. I do not think that this question is ready now until tomorrow because it is a very important question, and I do not feel that it has received its proper attention.

MR. MANSFIELD: With the exception, the question has been answered. There can be unlimited supplementaries. If there are questions which already have been asked or supplementary to that matter that have been of a substantive question.

QUESTION OF SENATOR CURTIS

MR. HOLT of WEST VIRGINIA: Mr. President, in today's Order Book question number 21 appears in my name. Under Standing Order 29(2), I would not like to be carried over until tomorrow's Order Book.

MR. ROBERT F. KENNEDY: Mr. President, I am not clear as to what is the reason for asking for suspension of Standing Order 29(2), for it is not in the interest of the fact that we have matters here with other Senators present prior to the question.

MR. MANSFIELD: It seems to me that Standing Order is suspended in order to allow question that is unanswered for long enough, although I am not clear as to what was being asked, for further supplementaries to be asked to question number 21. I would see no difficulty about that.

NOTICE
CONSIDERATION OF CALENDAR ORDER 2317,
AND 21;

MR. J. CALEB BOGGS: Mr. President, I do wish this question [illegible] suspended by suspension of Standing Order to complete the question on today's Order Book.

MR. CURTIS of NEBRASKA: Mr. President, I object.

MR. PRESIDENT: The question is not in accordance with the provisions of Standing Order 29, Standing Order 29(2) be suspended in order to enable...

MR. RICHARD B. RUSSELL: Standing Order 29(2) is to be, Mr. President?

S. PRESIDENT: ...under Rule, Standing Order ...(1) and (2) I think probably it is important in order to enable the remainder of the questions on today's Order Paper to be answered. Does any Member wish to speak on this?

MR. [illegible] ASHBY: [illegible] STRUCTURE ORDER 30(1) AND (2) BE SUSPENDED IN ORDER TO ENABLE THE REMAINDER OF QUESTIONS ON THIS ORDER PAPER TO BE ANSWERED.

MR. PRESIDENT: If that stands I will, subject to Members' views, allow further supplementaries to question number 50. I think that the Second Elected Member for Georgetown has the first supplementary question.

SUPPLEMENTARY QUESTIONS ON QUESTION NO. 50 PUT/ASKED:

MR. LEONORA J. CARRINGTON: Mr. President, a supplementary on question number 50. While the Member stated that there was no intention for [illegible] a new Chinese, is having a [illegible] planned?

MR. CLEMENT H. PARKER: Mr. President, I am not a member of the Sun Club but in the light of my knowledge, this, of course, is a member of the Sun Club for membership. If he is [illegible] membership, naturally he will have to [illegible] the Sun Club name or the name. However, that does not say that we have not [illegible] for other organizations or to provide a gym. If a person does not fulfil the qualifications for membership he is not going to be granted it, but [illegible] a person who feels people can take it that if they become a member of the Sun Club they are automatically going to get a license. I do not think that is the way it works at all.

MR. LEONORA J. CARRINGTON: Mr. President, then if that is not the case, my question is, and it is on the basis of information I have received if I may just briefly mention it before I ask the question, which is that in the future a preference for getting one's own license should be that one of a number of the Sun Club, and I was making the question to clarify some information which I have received. That is my feeling that one should be considered on the original information given when first obtaining the license. One would not want to [illegible] a membership in the Sun Club to have one's license removed or to obtain a license.

MR. JAMES R. FIGUEIRA: There are certain criteria that have to be [illegible] for a renewal or granting of a new license. One is a person who is operating a gym and needs a gym to fully [illegible] and [illegible] and [illegible] etc. The other is if the person is a member of the Sun Club. Just to make sure I think that if one is a person, a [illegible] license should be a person of the Sun Club. I could imagine that person who could get [illegible] license removed. I do not see anybody to deny [illegible] one's membership [illegible] and they are entered into the Sun Club, that will get a license as well. I cannot make it any clearer.

MR. LEONORA J. CARRINGTON: Mr. President, I think that there is some confusion. My question to [illegible] one is not, and by the way I am a member of the Sun Club, a number of the Sun Club and all other Unions being equal one qualifies, that one could be granted [illegible] if one is registered.

MR. SPEAKER: I hope that I have it right. If you do not I suppose it will be corrected. I would like to do it if there is nothing. I wish to say, Mark on approving the had got a weekend recess between the last Thursday and the new Thursday, they might go another one he might not get it. However, all things being equal I would believe that one would get it.

MR. J. SPEAKER MCKEEN: A supplementary, Mr. President. On the questions on the supplementary paper, "Purpose of Grant", would we assume such to be about be responsible for that subsidy?

HON. PRESIDENT: I certainly will ask the Minister to further expanding on that. I think that perhaps we could take it. We have had a file on that question. We will pass on to the Honourable Member for Inverness County's question. I think that he might be prepared with that by the time we get to it. I suppose that he would like to ask it today.

THE CLERK WILL READ THE BILL AND WE ARE NOW ON THE SECOND READING OF BILL NO. 27, AN ACT TO AMEND CHAPTER 1 OF THE ACTS OF 1972.

MR. SPEAKER: Would the honourable Member make a statement on the proposed delegation to Cuba that you have in your office and give the copy to me and the rest of Members.

NOTE: A delegation led by the Honourable Minister for Industry, Trade and Commerce, comprising the Honourable Chief Secretary, the Honourable Member for Communications, Trade and Industrial Development and the Deputy Minister of Industry and Trade visited Cuba from the period 24th-31st July, 1972.

The purpose of the visit was primarily to improve Nova Scotia's trade relations with Cuba and to explore the possibility of establishing a direct air service between Cuba and Nova Scotia. Meetings were held with Cuban officials of INRA on this matter. It is intended to study the report and consider the assessment of the delegation in due course. To date, no decision has been communicated to Cuba by Cuba.

The cost to Government was $2,214.00.

QUESTIONS:

MR. G. MUIR BIGNELL: Mr. President, a supplementary. Is the delegation back or will the Minister say if the Minister of Trade Mission was satisfied from that visit?

HON. M. MCNEIL ROSSITER: Mr. President, I believe that the Minister who is the Minister of Trade Mission was in agreement on the fact that this trip was made to Cuba also. However, which did not reveal the Minister of Trade Mission really has nothing to do with trade rights with the Cuban Islands.

MR. [illegible] M.: Mr. President, the Chairman of the Executive Government Business may just be ... Thank you.

MR. G. ALEX ROBERTS: Mr. President, may I ask the Member if he is aware that any suspension from sitting in Court by Cayman Airways?

MR. M. MILTON BODDEN: Mr. President, I am aware of that, Sir, but that would not coincide my circumstances from Cayman Airways because if Cayman received Grand Cayman to Sam Jones it was already planned that in March that they would have to employ pilots which would create any convenience for Cayman Airways. They would be nobody on the Grand Cayman/Sam Jones route.

MR. G. ALEX ROBERTS: Mr. President, may I ask the Member if he agrees that if a complete route to Sam Jones instead of Miami, Cayman Airways hopes a fare which Cayman Airways would have had if the planes had gone to Miami?

MR. M. MILTON BODDEN: It depends on how the passengers decided. Sir. Cayman Airways would hope a passenger from Miami to Grand Cayman and the passengers might decide to extend his trip down to Sam Jones. We would buy a Grand Cayman/Sam Jones/Grand Cayman ticket and return to Miami on Cayman Airways, or by night even make possible deviation.

MR. G. ALEX ROBERTS: Mr. President, may I ask the Member if he agrees that the only possibility of one Cabinet member to attend the funeral of another?

MR. SPEAKER: I think that is an accurate and fair question from the original.

MR. TRUMAN A. BODDEN: Mr. President, would the Member state whether there is any truth that the Government is waiting the resignation from the present ministry out of Cayman Airways.

MR. M. MILTON BODDEN: Absolutely not, Mr. President, and I'm sure I think that we would be looking at the very dramatic increase I do not believe that cause would have to [illegible] time, if that is what the Member is referring to.

MR. SPEAKER: Let us pass on to question number ... The Honourable Member from West Bay.

THE QUESTION BEING PUT WAS CARRIED IN THE NEGATIVE AND SEVEN MEMBERS RAISED THEIR HANDS IN FAVOUR OF THE MOTION, FOURTEEN VOTED AGAINST AND ONE ABSTAINED. THE MOTION WAS LOST.

No. 23: Would the honourable Member state the policy of the National Airline - Cayman Airways - concerning the employment of foreign pilots with qualified Caymanians?

ANSWER: The policy of Cayman Airways is that as and when suitable, experienced and qualified Caymanian pilots become available they will be employed in preference to foreign nationals.

[illegible]:

MR. [illegible]: Mr. President, may I ask if the privacy legislation any problems should arise in the implementation?

[illegible] MR. [illegible]: Mr. President, the implementation process can only be brought about in the way we're doing it, that we are required to set by the Congressional act, and by legislation of the present bill when they acquire the experience which is required by the Secretary. The only way that they can be informed upon is when those individuals reach the maximum which the secretary appoints and designs.

[illegible] MR. [illegible]: Is it possible for the Senator to explain explanations as required by the language?

[illegible] MR. [illegible]: Well, to my mind and I think the proposed change is applicable by most candidates in relation to explanations or certificates, to use an example, private pilots who flight duties for this nature or circumstance and be in qualified [illegible] with a commercial pilot's privileges and be rated in the [illegible] qualified to fly certain types of aircrafts. This [illegible] rather than a policy of requiring that person to have 3,000 or 5,000 more additional hours before they will have [illegible] flights and another, and that is when the experience comes into play.

MR. [illegible]: I think that we have gone on another issue that could [illegible] consideration of [illegible] for approximately fifteen minutes.

AT 11:30 A.M. THE FOLLOWING OCCURRED:

SPEECH RESUMED AT 11:50 A.M.

MR. PRESIDENT: Please be seated. Item 2. Statement by Members of the Government. The honorable Fiscal Officer, Senator.

SUBMISSION OF THE SUPPLEMENTAL FISCAL OPERATIONS BUDGET:

MR. [illegible]: Mr. President, I move Senate Resolution No. [illegible] which was passed at the last Meeting of the Assembly, with no [illegible]:

> (a) Rapid progress is to be made with regard to [illegible] which multi-[illegible] consumer goods be sent back to their own countries to serve [illegible] [illegible] by people here; and
>
> (b) All possible steps to be taken to ensure that such [illegible] are kept [illegible] as much as possible.

As I explained when the motion was debated the power of which [illegible] are [illegible] to the United Kingdom's multilateral control. It depends on the willingness of the other states to [illegible] that.

MR. ASHBY (United Kingdom): As I said this explained, it would be wholly unreasonable to make any assignments which prejudice the non-governmental bodies in a position to assess orders. Some will expressly, because they have that we should accept them when possibly and could not send them to secure assistance in their own countries.

The motion also called for the adoption of measures to this issue at the present meeting. - in the hope of similar arrangements -

(a) Suitable provision already exists in the case of Namibia. As Americans economically, non-governmental bodies are especially sure to carry in persons whose visas will expire have been issued.

(b) In order in the case of the United Kingdom law and we have asked that arrangements be made for the issuance of the non-United Kingdom citizens who, in the present circumstances here.

(c) The United Kingdom has also submitted a draft Convention which provides for the exemption of nationals parties. We have asked that the convention be reviewed to ensure that consideration may be given to the possibility of providing for such exemption should cases be made. Some of this case has only will be open to accompany for the exemption of nationals of other States which have also ratified the convention. Our understanding is that the United States has done this, in which case we can see that any American citizens may possibly have to seek here.

(d) We have proposed a provision enabling arrangements to the Government of Namibia who issues visas exercises. We shall continue to pursue them.

As to Rhodesia because in respect of non-Organization personnel there we cannot put the reasons to which some others, a portion of the position prevailed was opposite. This was that Organizations may be entitled to visas on because other country may grant or will their personnel, whichever is the greater. However, those non-Organizations who might have been considered entitled for reasons as Rhodesia was qualified because they are not permitted to remain here after being released. The effect is that they have had to leave at least two thirds of their sentences. It has now been decided that their cases shall in future be reviewed by the Parole Commissioner's Board on the same way as the cases of Organization prisoners, and that some or all of them would have been released or likewise may be taken into consideration for release. In the payment of any fines imposed, be released from prison until the whole sentence to the one have money.

The non-Organization has already been released. Matters have been similarly affected as the result of representations by the other parties concerned.

We should appear to think the number of non-Organizations in prison should be steadily reduced and I do not know that the cases. We have asked that some will remain, except for one for the foreseeable future.

MR. ENGELHARD: ...ment of Government Relations. (d) Rhodesia. The responsible Rhodesian officials ...

CONFERENCE PROCEEDINGS

RESOLUTIONS

RESOLUTION ADOPTED BY THE BOARD OF GOVERNORS

RESOLUTION NO. 6/85 - CAPITAL INCREASE OF THE BANK

U.S. DELEGATE TO CDB: Mr. President, I have the honour to present Resolution No. 6/85, Caribbean Development Bank, which reads as follows:

AUTHORISE Caribbean Development Bank, hereinafter referred to as "the Bank", to increase the authorised Capital Stock of the Bank by US$50,000,000 (fifty million United States dollars) divided into 50,000 (fifty thousand) shares of US$1,000 (one thousand United States dollars) each, which are reserved for allotment only for the purpose of maintaining the proportion of the capital stock of the Bank held by Regional Members to that held by non-Regional Members as provided in Article 6 of the Agreement establishing the Bank;

AND RESERVE the 50,000 shares for the Ordinary Capital Resources of the Bank as follows:

(a) 15 shares each to the Regional Members listed in Part A of the Schedule to the Agreement establishing the Bank;

(b) 49,970 shares to the Regional Members listed in Part B of the Schedule to the Agreement establishing the Bank in proportion to the number of shares held by each of them;

AND RESOLVE that the Capital Stock increase authorised by this Resolution shall be offered for subscription at par value in accordance with the following terms and conditions:

(a) 20 per cent of the subscription price of each share shall be paid to the Bank in gold or convertible currencies within thirty days after the date on which the share is offered for subscription;

(b) the remaining 80 per cent of the subscription price of each share shall be paid to the Bank in gold or convertible currencies or in such currencies as may be required for the purchase of the Bank's obligations or for the lending operations of the Bank, within thirty days after the Bank shall have called for such payment;

(c) the Bank shall call for payment of the remaining 80 per cent of the subscription price of each share only when required to meet obligations of the Bank created for the purpose of the funds received in payment thereof;

(d) payments on account of shares subscribed shall be made in proportion to the paid-up capital stock of the Bank;

(e) no share shall be offered for subscription except as authorised by the Board of Governors;

(f) the terms and conditions of subscription to shares of the Bank shall be uniform except that the Board of Governors may authorise the Bank to accept payment for shares in special circumstances in currencies other than those specified in (b) above on such terms as may be appropriate to avoid impairment of the Bank's liquidity;

AND RESOLVE that the Governors of the Cayman Islands undertake the rights to subscribe to the Bank's capital stock of this kind and that the Financial Secretary be and is hereby authorised to pay to the Bank out of the General Revenue a sum not exceeding US$81,222.16 or CI$37,605.58 in respect of that portion of these subscriptions which are payable in five equal instalments, the first payment of CI$7,521.12 to be made on the 31st January, 1986."

Mr. President, let me add a bit of clarification. On looking at the Government Motion No. 6/85 which was submitted to the Clerk some weeks ago, it was discovered that four of the figures were slightly wrong by way of the using conversion from the United States dollars to the Cayman Islands dollar, and the relevant figures did not take into account also the cost of purchasing the stock from the Bank.

Therefore, some figures should be changed. For example the US$1,222.16 mentioned in Cayman Islands dollars should be CI$1,027.20. These two figures also appear in and should be changed in the "RESOLVED" section of the motion.

To elucidate a bit more on the matter, Mr. President, the Board of Governors of the Caribbean Development Bank acting in accordance with the Agreement establishing the Bank, have the right to subscribe for the allocation of new shares to the Bank, including the condition that Commonwealth Caribbean members should have a majority of the voting power in the Bank and a majority of the number of Governors.

THE SPEAKER. Is there objection to the request of the gentleman from Virginia [Mr. Smith]?

There was no objection.

THE SPEAKER. The Chair lays before the House the following communication from the Secretary of the Treasury, which will be read by the Clerk.

The Clerk read as follows:

TREASURY DEPARTMENT,
Washington, January 3, 1945.

Hon. SAM RAYBURN,
Speaker of the House of Representatives.

SIR: I have the honor to transmit herewith a letter from the Secretary of the Treasury, dated January 3, 1945, submitting a supplemental estimate of appropriation for the fiscal year 1945, in the amount of $1,000,000, for the Treasury Department, Public Debt Service, to remain available until expended, for payments to the Federal Old-Age and Survivors Insurance Trust Fund, as provided by section 201 (d) of the Social Security Act, as amended by the Social Security Act Amendments of 1939 (53 Stat. 1362).

Respectfully yours,
HAROLD D. SMITH,
Assistant Director.

THE SPEAKER. Without objection, the letter and accompanying papers will be referred to the Committee on Appropriations and ordered printed.

There was no objection.

THE SPEAKER. The question before the House is on the motion of the gentleman from Virginia [Mr. Smith] that the House do now adjourn.

The motion was agreed to.

RECESS

Accordingly (at 12 o'clock and 3 minutes p.m.) the House stood in recess subject to the call of the Chair.

AFTER RECESS

The recess having expired, the House was called to order by the Speaker at 2 o'clock p.m.

THE INTERNAL REVENUE CODE

FIRST READING

The SPEAKER. The unfinished business is the bill (H.R. 4790) to amend the Internal Revenue Code, and for other purposes.

Mr. DOUGHTON. Mr. Speaker, I ask unanimous consent that the bill be read for the information of the House.

The SPEAKER. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

SECOND READING

The SPEAKER. The Clerk will read the bill for the second time.

The Clerk read the bill for the second time.

Mr. DOUGHTON. Mr. Speaker, I ask unanimous consent that the bill be read for the amendments of the committee.

The SPEAKER. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

The Clerk read as follows:

Be it enacted, etc., That this Act may be cited as the "Revenue Act of 1945".

TITLE I—INDIVIDUAL INCOME TAX

SEC. 101. RATES OF TAX.

(a) NORMAL TAX.—Section 11 (a) of the Internal Revenue Code is amended by striking out "3 per centum" and inserting in lieu thereof "2 per centum".

(b) SURTAX.—Section 12 (a) of the Internal Revenue Code is amended by striking out the table and inserting in lieu thereof the following:

If the surtax net income is—	The surtax shall be—
Not over $2,000	6% of the surtax net income
Over $2,000 but not over $4,000	$120 plus 13% of excess over $2,000
Over $4,000 but not over $6,000	$380 plus 20% of excess over $4,000
Over $6,000 but not over $8,000	$780 plus 26% of excess over $6,000
Over $8,000 but not over $10,000	$1,300 plus 32% of excess over $8,000
Over $10,000 but not over $12,000	$1,940 plus 36% of excess over $10,000
Over $12,000 but not over $14,000	$2,660 plus 40% of excess over $12,000
Over $14,000 but not over $16,000	$3,460 plus 44% of excess over $14,000
Over $16,000 but not over $18,000	$4,340 plus 48% of excess over $16,000
Over $18,000 but not over $20,000	$5,300 plus 50% of excess over $18,000
Over $20,000 but not over $22,000	$6,300 plus 52% of excess over $20,000
Over $22,000 but not over $26,000	$7,340 plus 56% of excess over $22,000
Over $26,000 but not over $32,000	$9,580 plus 60% of excess over $26,000
Over $32,000 but not over $38,000	$13,180 plus 64% of excess over $32,000
Over $38,000 but not over $44,000	$17,020 plus 68% of excess over $38,000
Over $44,000 but not over $50,000	$21,100 plus 72% of excess over $44,000
Over $50,000 but not over $60,000	$25,420 plus 76% of excess over $50,000
Over $60,000 but not over $70,000	$33,020 plus 80% of excess over $60,000
Over $70,000 but not over $80,000	$41,020 plus 84% of excess over $70,000
Over $80,000 but not over $90,000	$49,420 plus 88% of excess over $80,000
Over $90,000 but not over $100,000	$58,220 plus 90% of excess over $90,000
Over $100,000 but not over $120,000	$67,220 plus 91% of excess over $100,000
Over $120,000 but not over $140,000	$85,420 plus 92% of excess over $120,000
Over $140,000 but not over $160,000	$103,820 plus 93% of excess over $140,000
Over $160,000 but not over $180,000	$122,420 plus 94% of excess over $160,000
Over $180,000 but not over $200,000	$141,220 plus 95% of excess over $180,000
Over $200,000	$160,220 plus 96% of excess over $200,000

Mr. Speaker, I ask to have that bill entitled a bill for the revenue production for the prosecution of the war, and to have explanation thereof made a part of my remarks.

The objects and purposes of the bill, Mr. President, are to provide a mechanism for the withholding of income taxes at the source of income [illegible] and to provide [illegible] revenue for the prosecution of the war.

Mr. President, as I have said [illegible] address must [illegible] in relation to [illegible] and to [illegible] the [illegible] which is [illegible] the United States [illegible] the [illegible] of the [illegible] and [illegible]

MR. JAMES C. DAVIDSON (Worcestershire): Mainly because of the character of the Resolution to the House, for instance on overtime, which is then passed and put into effect immediately.

The amendment legislation will bring into effect any increase in overtime only on any abolition of statutory duty. The Association, Mr. President, is United Kingdom provisions do not debated. What is debated on the Bill when it formally comes to the House. What in our view we will have to put forward a Customs Bill to bring into effect and to receive the parliamentary effect of this legislation in front of us. So all Members will have an opportunity to debate the Bill. Certainly I am sure that none of the Members wish to preclude the whole two debates on the same subject, one when the Resolutions is put and the other when the Bill comes.

It is a matter, Mr. President, which in my mind is quite useful on the rare case of increases in overtime duty whenever they occur in a Budget Addepad. It gives complete effect and Government receive the possibility of having reviews as a result of perhaps more pressing the Bill on the same day.

Mile is mainly the effect of the Bill, Mr. President. It will, in order for the provisions to be effective and similar to the United Kingdom Customs Control, mean that our Standing Orders will have to be amended. Amendments will have to be given by amendment of the Standing Orders so that we do not have the debates, one on the Resolutions and one on the Bill when it comes. I think that is fair, Mr. President, and it is in the best interests of this Government when dealing with increases in customs duty.

I commend the Bill to the Members of the House.

MR. PRESIDENT: The question is that a Bill entitled a Bill for a Law to make provision for the parliamentary collection of Customs duty, and matters connected therewith be given a Second Reading. The motion is open for debate.

DEBATE ON SECOND READING

L. H. TATE (Scarborough): Mr. President, I rise to claim my right to speak. In the past it has been normal that Government has made any substantial amount of revenue matters there have been Debates on the Resolutions of Law which provides for additional customs duty.

I know that it is normal that a Debate does be given on the United Kingdom. However, there are two main differences with our situation and the situation there. The difference is that we have a small Parliament with only fifteen Members while the United Kingdom counts its Membership of one hundred. So it is not a cumbersome matter to deal by two, - if the dealing of Standing Orders remains Bills can be passed in one day. Also, the other difference which I anticipate in the Bill already mentioned can be put into effect by Members of the Government. There is a matter arising on which I will not anticipate, which refers to this Bill, which matter would significantly in many Bill matters on the organisation of the Customs. What is happening here is that this Bill, if passed, effectively does away with the need for parliamentary Bill at the time that is to be brought to make the changes. The increases can be made by a resolution and under this Bill can be effective, as the Bill says, that the same as if it were a Law, and will remain in force for four months. During that time a Bill would have to be brought.

MR. E. WAYNE STONE (CONTINUED): I think that it is important to take care that we avoid such the difference between increasing taxes by resolution rather than law, because that is an efficient way happens. The resolution passed in the house would go into effect immediately and would remain in effect for four months. I think that we have managed per enough from the uncertainty effect which we anticipate.

In order to make sure I think we should pass this. It is true that revenue laws in the past have been dealt with quite speedily, but nevertheless they have had subject to all the checks and balances which are laid down in the Constitution and in the standing orders, and as such these laws were open to the scrutiny of the public, the criticism of the opposition and could not be railroaded the way this bill would make easy.

The reason why we must not automatically transfer by resolution rather than by law is that the law goes through many different processes which need to fulfilled. I specifically to call attention to this procedure of one examines the provisions for the passage of bills one will know that many things must happen. First of all the Government must decide to have a law. The Government Member must send a notice to the Clerk that a Bill will be coming to the House. The Bill must have been drafted. The bill must have gone to Executive Council. The bill must have passed through committee stages. If it is a matter of a economic bill it must take along with it a certificate from the Governor that he has given his consent to this revenue bill. When the Clerk receives the Bill, the Clerk has certain functions which are laid down in our standing Orders. The Clerk must be satisfied that it is drafted in order and the publication are followed properly that each clause and schedule has in the margin a clear note numerically the contents that the Bill has a title and that the provisions do not go beyond the title. When the Bill is produced by a short explanatory statement of the objects, and if a Bill makes provision for revenue matters it must have the Government's recommendation. If the Bill involves the expenditure of public money, then it must set out the financial effect of the Bill and an estimate of the money involved. All these things happen only if the Clerk is satisfied. If the Clerk is not satisfied that the Bill meets all these requirements, the Clerk will inform the Presiding Officer who, if he agrees, will so inform the Member in charge of the Bill and no further proceedings can take place.

If satisfied complies with all the requirements and such matters as, the Clerk will then cause the Legislative Assembly to be summoned. In the course of the week every Member has been given days before the Bill should be read the first time. When all of this is done the Bill is finally set down for the first reading.

The Bill before the House must go through three different readings. The Bill is voted on separately in each reading and then, if there is agreement by a majority, the Bill is passed by the House. Of course, the Members of the Opposition have an opportunity to debate the Bill.

However, even when the Bill passes the House it is not yet law because under the Constitution, the Bill must then go to the Governor. Sometimes so, it may if the Constitution deal with this and the Governor may give his consent. However, if the Governor does not agree with the Bill he is not forced to assent to it. He may refuse to assent to the Bill. He may send it back to the Legislative Assembly with suggestions for Amendments.

Mr. T. Richardson (Roscommon): However, even supposing that the Governor accepts the Bill, the Bill still must have the sanction of London. The Privy Council or the Secretary of State has the power to disallow a Bill which has been passed by the Assembly and assented to by the Governor. So there may all these checks and balances to make certain that our laws are not inadvertently ultra vires or in some manner.

Since the Government introduced its Finance Bill, which is the raising of money, this is taking the heading direct from Hansard. We can be plunged into revenue Bills by Members proposing to reduce their scope on one day. So, there are many checks and balances provided in the Constitution for the passage of a law. I think that there is no more important Bill than a Bill which calls for the collection of customs, duties on a new item, which increases revenue.

However, the Member yesterday referred to the fact that it was unnecessary because they have installed Clause 2(3) which says that:-

> "A resolution which ceases to have annulling effect under this section if the resolution is not approved by a resolution of the Assembly within the prescribed period."

So, even when the Bill is brought out for its effect immediately by this temporary measure, they feel that there are safeguards that the Bill itself may be rejected later on. They are quite right, because if they were going to put in unreasonable clauses, for example suppose they were going to put a 1,000 per cent increase in duty on spectacles to discourage people from buying them or, they would have provisional collection Bill together with the resolution, and put in that unreasonable duty to discourage just a time the Opposition or Government knowing full well that later on the Assembly would reject it anyhow.

It shows the importance which applies in the Government, that go as far as to make provision for changes which will follow upon the implementation of the resolution. It says in section 2(4):-

> "Where a resolution ceases to have effect by virtue of subsection (3) or where the period of five months mentioned before in that section (which expression includes the days on which the House is not sitting) has expired and the Assembly has not passed a resolution in terms proposed."

I question had the Government to go by to do this. For example, suppose they were to discontinue the duties on Artificial materials. Well, the merchants would pay the increased duty but the consumer would ultimately pay, indirectly because the increase is on the one who pays the duty. The merchant only advises the change. When he sells the goods in advance the price he sells includes his increase charges and all other charges which make up the full cost of the goods.

So, how do the Government going to have this refund now but to get back to the people who really paid it, the consumer, because even if the resolution ceases to have effect on the day which he said, he cannot ever affect on it his calculations because there is no machinery whereby the rise and fall when series of many customs duties going into the store.

Mr. G. Mills Scott (continued): ... do now ask that they proceed by order on a paper of a date which I brought in here recently. They did not know that I brought the paper in on a certain day. They will not know that I brought a new paper on a particular day. Now, it is not possible to expect that those matters could, because it is a complete duty straight on people which arrived in the place yesterday may possess every hope. If the Government does proceed to reject this bill because the bill can not be supported by the Assembly, he will really have a reasonable for his next Legislative Unit the most part of the world the duty, would have confirmed this issue.

Then the bill does go to say:-

"Any declaration made in pursuance of the provisions shall be deemed for all purposes to be an instrument executed"

in Ceylon namely, if the duty had been taken out instead of impressed stamps then Mr. Chairman how charges in those people duty have, I've said here to pay the duties? So, duplication would become in goods for the stamps, documents, conveyance, customs dealings or the many documentations which a lady needs to produce here in person, just in the world trade. Those people who brought those duty free goods be able to be specifically charged in documents to pay the duty under the normal provisions of the Law that brought into effect?

Sir, one can see that this is subject reasonable. If we pay duty or if we do not pay it considered to have been in the use of the nation. There is no way back or back to the main mechanism in the ordinary and they can roll in the bought a household of or a mobile yesterday, or even a use of ourselves. To be later somewhere.

This bill is unnecessary. We have had no problems with the multiplicity of duty in the past. Every merchant, every person importing has paid the duty declared by Act. Customs have full control because the goods are in the warehouse, full control of the warehouse keeper and the country, and no person should be allowed to take out those goods which the duty has been paid. To be sure that sometimes a little bit might slipper from the bonafide forward of the bill, but I am asking Ashby which is the key reason for worrying about the base of import duty on a specific item for one day or the other?

Mr. Speaker: Is the Honourable Member saying the cost of his speech or does he intend to allow for some consideration thereon also?

Mr. G. Mills Scott: Mr. Speaker, I intend only to speak for a very short time.

Mr. Speaker: Well, in that case I think that perhaps we might continue proceedings until approximately 2.15 p.m.

At 12.45 P.M. the House adjourned

MOTION RESUMED AT 5.05 P.M.

MR. PRESIDENT: Please be seated.

Resumption of the debate on the Second Reading of the Provisional Collection of Customs Duties Bill, 1966. The Second Elected Member for Western Rural.

MR. G. WILLIE HOOKEY: Mr. President, my motion comes in under Clause 3(1), of the Bill which reads as the opening line:-

"Where the Legislative Assembly passes a resolution,"

In the Bill we are not given any explanation as to what follows this resolution. We do not know to what extent and in what fashion the resolution will be presented. In my mind, the extent to which the Government will go to collectable and unpaid of philosophical explanation. I can only believe that the resolution which will be placed on the Order Paper will be similar to that contained on page 372 of Erskine May dealing with matters urgency which are specific. That procedure therefore provides for certain matters to be passed without notice, and it is my belief that this is what the Government has in mind. I may be misconstrued when the brevity of the motion is noted, but I thought that if the motion is brought without notice that the Members will be given just one more opportunity to debate this motion, because on page 372, the paragraph which deals with matters made without notice does not specifically include these matters.

As an example of the motion is given as an increase in the BIET I am only unsure that it will have to come through always in our Standing Orders. I go round of the item of the Agenda to change a Standing Order and I am not unsympathetic to debate because I have that under our Standing Orders there will be debate on that particular motion when in debate, which necessitates the Standing Orders be suspended. Therefore there, will be some inconvenience to a Select Committee who will deal with the motion.

MR. PRESIDENT: Perhaps it would help the Member if he perfectly knew that a motion to refer something by way of an amendment to Standing Orders cannot be debated. However, when the Select Committee on Standing Orders reports, the report can be debated.

MR. G. WILLIE HOOKEY: I understand that perfectly, Mr. President, but that is debate after the Standing Order has been changed. My opinion in that debate after the fact is a matter of view.

Once the Select Committee has made its findings and the Standing Committee which we are going establish for dealing with our Standing Orders, which is made up of the Members of this House, agrees on anything, it would be fruitless to attempt to change what the Committee has brought back to the House, because the Committee is the supreme body made up of the Members of the House. That is why I am endeavouring with this motion which would examine this matter before it is put forward, which means whatever you debate as well, any opportunity would be stifled.

Mr. [illegible] (continued): I believe that if we go into a more philosophical discussion on the United Kingdom White Paper several weighty questions arise which appear to be ripe for such debate. If I may quote this section:-

> "HOUSING AND RESIDENT MATTERS. Certain procedural matters relating to the implementation of Ordinances may be made statutory matters. These include matters which presumably affect normal running, that is will be communicated to a Committee of the whole Senate, a matter considered as a joint committee or, under departmental orders, to a specific standing committee matters for which responsibility already rests in the provisions of Section 3 of the International Conference of Rivers and Lakes 1921; and matters for the implementation of Local Government Ordinances."

However, the particular matter mentioned earlier dealing with the giving of permissional procedure, differs quite from the provisions of Section 3 of these two documents. It would be wrong for us to allow our present standing Orders to be changed to facilitate this Bill or under that the matters dealt for the implementation of the Law could not be changed. This is undemocratic. I feel that it is unacceptable. It may be one thing to debate a parliamentary motion like the standing of a Cabinet Minister, but to debate the implementation of a Law requires a very responsible Senate that provision would be only necessary when the minority Senators or proportionately to voice their interest of those very matters. It would also be unfortunate if that the Standing Orders would not have any say in the terms of the Law or the provision of the Law. Otherwise it may be.

This is the reason why I am concerned with this Bill. We already have adequate provision for the passage of Resident Bills. Many times in the past they have gone after the Law Day. This will be specifically aimed at the Budget Session of the House, when the Budget Address is presented it normally runs into four hours and it has been the custom in the past to give those Senators only after an hour to speak. This has always been done by dealing with the Private Bills before we go on to other business, or go on with the debate on the Appropriation Law.

However, there is no provision in which we will be able to put the Law into effect until the Bill has passed through the House. The Bill may be brought at this time, but eventually it has not fulfilled its purpose. It has not passed through all the stages which have been set into Law. This type of legislation [illegible] through constitutional matters that is how to accept.

I anticipate my opinion of this Bill to be necessary in a large Parliament. Here, I certainly should be content in fifteen minutes to outline the fifteen Members in the Delegation but we could put a Standing Committee very [illegible]. In the United Kingdom of the House and it is not necessary to put a Standing Order it would take a long time. I imagine to convene the large or five hundred Members of Parliament in a Standing when they might be in Hull, or perhaps even abroad. Moreover, here is a small community there is no need for this Bill. We did not hesitate to depart from the provisions when we passed the Penal Law. When we ratified the Human Rights Convention. We did not worry about what they did in the United Kingdom. The fact that the United Kingdom is not to be [illegible] which proved guilty did not involve our ratification then. So why do we need to refer to the Indian Ocean Conference Centre Bill. Even if we were following it to the letter it would not be the law.

MR. G. MAIN MACKAY (GLENTWORTH): Sir, I propose to make a few brief comments on the motion by the Honourable the Attorney-General for Justice and Minister of Consumer Affairs, Hon. Mr. Chichester-Clark, for the second reading of this Bill.

We have had complaints from many of our citizens here and outside which we have had to deal with. That is quite right because they are of a technical nature. However, the implementation of a Bill is normally a technical matter and should be dealt fully at that. The Minister on his own or on Public Bodies and the public can know it when they are helping to stop the racket.

In connection I would say that if the Government had had practical experience as those that they had unfortunately had themselves, because a Conservative Government would not have introduced this Bill. If they had put forward any alternative to what the public had suffered, which the Minister has not been prepared just why they were immediately, I would say that there would be reason to consider this Bill. However, having had both of which none for it, I think that it is time to make a reference of our Constitution and to make a thorough, of our Standing Orders by a Committee of the whole House of Assembly to streamline the procedure of the passage of a Bill.

This Bill is but one only highlights to my mind the confusion which has existed in the minds of the last Government from November last year. I am not a lawyer, good to be trained by the passage of this Bill except to have on the Statute Law which becomes no response to what it does not take Government's purpose. It does not help the business people. It does not help the residents of the Bahamas and I suggest earlier are totally unacceptable.

Mr. Speaker, I assure you that if there is only one vote against this Bill, that vote will be mine.

MR. MICHAEL A. SYMONETTE: Mr. Speaker, Sir, I rise to support my Honourable colleague the Third Official Member in this presentation of this Bill to this Legislative Assembly.

What this Bill proposes to do is to introduce a system the structure of which is very similar to that in use in the Province of Manitoba, in the State of Canada. In that Province in and has been in the Statute Book since 1912 and I propose therefore to read to this Honourable Collection of those Act. The provisions there in that United Kingdom which we are seeking to enact for our own Legislative Assembly here, provide a system whereby the motion, and we are thereby to be sustained and not granted twice, Unless where one party prepared by the Honourable Financial Secretary, in the Budget Address are required to be brought into operation will be prevent avoidance of enactments that will be free to the citizens of the country.

The Honourable Member who spoke just before me made much ado about the fact that there was no necessity for it and no danger for it. In my opinion, Mr. Speaker, there is the very important criticism which has been advanced. That is this: there exists a system of business taxes which are not made through the original bringing into the country at a certain time of taxable offence, but a system of income withholding which connects to very large organizations there such as tobacco, cigarettes and intoxicating liquor which continually are the subject of smuggling in

SIR. STREET: A. Judicial responsibility: Judges play a crucial and highly responsible role in the administration of justice.

It should be a matter of grave concern to all of us that there has been delay between the previously announced decisions made on the Widgery recommendations and their legislative implementation, for persons injured by the activities of proscribed organisations, such as the two organisations I have mentioned. Even though of course such an action could be brought by private individuals, including the victims themselves, it is not unreasonable to expect that the Government should take some responsibility for the matter. Because of the enormous cost of bringing such an action, and the complexity of the issues involved, it is not surprising that few victims of terrorist violence have been able to afford to bring such actions. It is for this reason that I welcome the possibility that the Government may be willing to provide financial assistance to victims of terrorist violence who wish to bring such actions. I hope that the Minister will be able to comment on this matter when he winds up the debate.

There is, however, one more matter which I want to mention. Both Bills have been made necessary by the fact that the provisions of the Widgery Report will not be implemented in full. If this Bill is passed, for example, it will be necessary to bring forward another Bill to implement the remaining recommendations of the Widgery Report without delay. It has been made clear by the Government that they do not intend to implement the Widgery recommendation that there should be a new offence of causing death by reckless driving. Instead, they have said that they will be bringing forward proposals for a new offence of causing death by dangerous driving. I am sure that the House will welcome the fact that the Government have decided to implement the Widgery recommendation that there should be a new offence of causing death by reckless driving

Sec. 302(b) 5 Budget Committees

The recommendations which form the basic contents of the Committee's statement on the negotiations for the continuing, daily budget process, as distinct from annual reconciliation bill, and the imposition of any new limitations or prohibitions of enforcement devices necessary for the purpose of achieving the purposes of the legislation, are in the opinion of the Committee, necessary and proper to the implementation of the powers granted under Article I, Section 8, Clause 18 of the Constitution.

Special procedures on budget reconciliation

The procedure on account of the budget reconciliation, which the Senate will be introduced, differs from the ordinary procedures on bills and Senate resolutions given the House vote to be subject to consider the reconciliation proposed by the Committee on Finance legislation which requires various amounts of revenue to be changed as a whole; and must also be in order to consider amendments in the nature of the Senate of providing the necessary revenue. A general debate, which is not the Senate floor, is automatically allowed, amendments will those reconciliations and the financial resolutions necessary to the budget. To permit this, the debate takes place upon the first reconciliation proposed - presently that for the purpose of amending the Social Act - and a conference for which time at the end of which the question is put on the final resolution and, then, under Standing Order No. 1, the reconciliations not yet forwarded over all the reconciliations upon which the Bill is to be brought in. The consideration of this procedure on the one hand to permit orderly consideration of the budget reconciliations which by their nature must be reported until the financial arrangement be made before the Senate is required to proceed upon them, but on the other to permit individual consideration of the reconciliations and to deny the opportunity of amending any of the reconciliations upon the floor. It may be the case on the same matter of reconciliation, the first reconciliation for the Senate Bill will not have to be put forward under Standing Order No. 21(6), and consideration needs to be passed at the disagreement of which however to make this obligatory.

Procedural collection of taxes

to explained above. The question following the Treasurer statement is for a payment period to take place on the first Wednesday and Senate resolution reasonably that entitled 'Amendment of the Act' and for the questions to be put on all the resolutions upon which the Senate Bill is to be finished at the end of the last day of the budget debate. Provision has place to be made, however, for making immediate provisions validity to those proposals which are to come into force ready of their enactment day specific before specific provisions can be introduced. This is done under the terms of the Provisional Collection of Taxes Act 1913, as amended by section 1(5) of the Finance Act 1968, and under section 59 of the Finance Act 1968.

Section 5 of the Provisional Collection of Taxes Act provides that provisional validity may be given to specified Budget resolutions by means of a simple motion. This enables action to be taken immediately after the consideration of the Budget speech and the question for that Resolution forthwith under Std. Ord. No. 14(3)."

MR. MORRIS of GRANT (INTERRUPTING): May I request that, Mr. President, they furnish [illegible] to the [illegible] Government.

> "This section would be quite inadequate after the introduction of the budget system and the creation of the Supreme Financial Authority under Sec. 77(f). The budget procedure also given parliament [illegible] to be passed within the same day [illegible] to be continued."

[illegible] Sir, I have to make a motion that this House, in order to proceed the [illegible] of that Bill in the future and to permit the speedy enforcement, amend this legislation and [illegible] to provide the procedure which is provided in the United Kingdom.

Thank you.

MR. SPEAKER: The Honourable Member from [illegible].

MR. J. [illegible]: Mr. President, unfortunately I cannot support this Bill in its present form. After the Government has said on the floor supporting my Honourable Member's motion, I am [illegible] with the spirit but not with the Bill.

I fully realize the necessity for [illegible] to enable [illegible] to [illegible] any loss of revenue to the country. However, Sir, I would be much [illegible] this Bill, and in fact I would support it if the [illegible] was put forward which the Government [illegible] that the [illegible] public [illegible] through the three months [illegible] be [illegible]. However, Sir, when this Bill gives the [illegible] three months before they have to present the [illegible] to the Legislature, I think it is too long. I believe that there are certain [illegible] which are urgent and although the Bill is amended [illegible] for [illegible] of people who will have been charged under the previous [illegible], that [illegible] is going to be very difficult to [illegible], because [illegible] with the people who are affected one could not [illegible], for instance, [illegible] I believe [illegible] when they [illegible], these people [illegible] of pocket for [illegible]. It is not only [illegible], Sir, revenue normally is taken [illegible] that [illegible] is not a Bill [illegible] fact I do agree it goes through, the [illegible] by the [illegible] be supported by the Secretary of State, the Governor and emphasize that. So we are hoping [illegible] might [illegible] Supreme Government has the [illegible] to [illegible] to [illegible] provisions.

Do you have a point of order, Sir?

If the [illegible], Sir, was brought simply to make the [illegible] immediately, and the [illegible] there was [illegible] that the Bill [illegible] there [illegible] was brought [illegible] publishing the [illegible] of that [illegible], I would suggest it believes it would then give us the opportunity then, and then to [illegible] the [illegible] and [illegible] of it.

The Financial Secretary [illegible] official [illegible] has just given [illegible] to explain the [illegible] through [illegible] Sir, I hope that I am not misquoting him, but I think that he did [illegible] that the Bill has to be [illegible] within [illegible] days.

MR. MICHAEL J. SMITH- ...on a point of information. Thank you, Mr. President, and I think the Senator for giving way. No, what I would ask him is that the previous resolution which incorporates all the proposed changes makes all forms of legislation do undue or without delay. That simply is a ten day period and within that ten days certain of these resolutions which separate sets of requirements must be made. Those procedures do not start to work at all. They merely have to pass resolutions which is a much more simple procedure than some. So that explains the ten days after the well-debated motion, debated procedures are to be implemented. The explanation would be the Senator Bill if it is fair to say.

MR. C. RAY JONES: Mr. President, may I read what it says for the information of the Senate Senator from Mississippi?

MR. THOMPSON: I wonder if you could like to first check whether you are using the same edition of Robert's Rule?

MR. C. RAY JONES: This is the explanation, Sir. It says:

> "The budget resolution also gives procedural force that is passed within the next ten days or which the Senate's budget is to be considered."

MR. THOMPSON: I think that is what the Honorable Senator Mississippi means just said.

MR. C. RAY JONES: I do not think so.

MR. SPECTER: It is what I misunderstood him to say.

MR. J. STENNIS SMITH: Anyway, Mr. President, I think that after all of the legal clarification the fact remains that in the matter of furnishing the legislation that is passed within ten days, and here we are asking for four months.

Because it is a similar instrument, and because it is easier for me to get together on it not more than days. I think that it can be done reasonably after the resolution is passed. We can then just pick up the regular bill. The resolution can have the same effect in that the income ceilings are effective and whatever they are. The money can be collected into the Treasury.

The point I am trying to make, Sir, is that I do not think that we should be given four months. I think that it should be shorter. The ramifications of the legal terminology do not concern me.

So, Mr. President, if Senators in favor of this bill by keeping unnecessarily after the resolution and plug up the chance to debate it, and the public can clearly get the information concerning the bill, I will support legislation introducing the system of enacting income taxes by resolution. Because, if they can give it back four months I cannot support it. Sir-

Thank you.

MR. THURMOND: Does any other Senator wish to speak? The Senate Electric Senator from Georgia Sam.

[illegible] Mr. President, this bill entitled the Presidential Disability of Western Sahara Act, 1981, seeks to provide the machinery for any Bill relating to a particular [illegible] of any serious duty, on the receipt of notice duly given a copy of [illegible] Committee constitutional authority.

The question will arise as to why Mr. President, that such constitutional authority be entrusted in the [illegible] of the Bill. The reason of the Bill, Mr. President, must be accommodated for a very good job in his government, as in the case of the Honourable General Official Number of Executive Council. That is somewhat distressing, Mr. President, in the isolated and repeated behaviour in this chamber recently. While I realize and appreciate, Mr. President, that our legislative Assembly, our Constitutional Council and Parliament for our Government would succeed on the United Kingdom system, I cannot accept, Mr. President, that merely because [illegible] obstacles in the United Kingdom Parliament that it is necessarily good for the Cayman Islands.

We were told that the Presidential Elections of Western Sahara Bill will result in reducing the possibility of having persons. The Honourable General Official Member, Mr. President, went on to say that the Town of Governance if such is not planned in that there is the possibility of [illegible] and others in this country with limited power or otherwise having advantages of a few days prior [illegible] of the [illegible] and possibly the [illegible] of these [illegible]. This is [illegible], Mr. President, could indicate to us what that Member, whether he appears on his own behalf or on behalf of the Government, thinks very little of the [illegible] and business community. I cannot support this view, Mr. President, that our members in this country would behave themselves in such a situation. This, Mr. President, he stated was one of the main reasons for this Bill. Mr. President, I find this reason to be very flimsy indeed.

Mr. President, section 21(1) of the Bill states:-

> "A resolution shall cease to have statutory effect under this section if the resolution fails to [illegible] during the passage of the Bill."

Mr. President, I ask kindly see this Honourable House passing a resolution after having considered the resolution, and which four months going back to this Honourable House and rejecting it. While this is certainly a possibility, it is highly improbable.

Section 21(2) of the Bill, Mr. President, states:-

> "Where a resolution ceases to have statutory effect by virtue of subsection (1) or where the period of four months terminates before a [illegible] subsection providing for the payment of [illegible] duty or, as the case may be, ceasing or abolishing any rate of any customs duty, any money paid on importation of the resolution shall be repaid or made good, and any [illegible] made in pursuance of the resolution shall be deemed for all purposes to be an unauthorised [illegible]."

Mr. President, I could see such a provision [illegible] [illegible]. Perhaps, Mr. President, as I have said to this Honourable House on many occasions, it is [illegible] to consider the construction of Bills or amendments to present laws, that such considerations must be in line with consideration of the interests of the people of this country.

MR. LAWRENCE J. PITTMAN (Constituency): I do not think, Mr. President, that this will be the only way ordinarily of imposing what we already have in operation. While I have much sympathy on the Executive Council of this country, I do not believe that they should be given carte blanche authority to impose any type of taxation on this country, whether this matter possibly should be brought before the people before it is brought into operation.

Unlike the honourable Elected Member for North Side who stated that he could see the necessity for this Bill, Mr. President, I am afraid I cannot see the necessity for this Bill. While the honourable Leader Opposition Member was debating this Bill he took a lot of time to go into the details of what obtains in the United Kingdom. As I said, Mr. President, I have very much respect for the parliamentary system of Government but do not unnecessarily believe that this Bill is in the best interests of our country and people.

Mr. President, I am going to conclude by making this a very, very short debate. However, I would say in closing, Mr. President, this is the general view I am expressing that I am not able to support the Bill before us.

Thank you, Mr. President.

MR. PRESIDENT: The Honourable Third Elected Member of Executive Council.

HON. DENNIS D. BROWNE: Mr. President, I support this Bill entitled the Provisional Collection of Customs Duties Bill, 2001. The Bill has been given many interpretations and many alternative procedures have been suggested. However, I would like to make a few points on some of those procedures, Mr. President.

The Second Elected Member for Cayman Brac, for example, gave all the virtues of a Bill as opposed to a resolution. But, on the same breath he suggested that revenue measures could be passed by simply suspending the Standing Orders which give all of the validity to the procedures to be followed in respect of a Bill. This motion, Mr. President, as has been said by Honourable Members from this side of the House, seeks to give protection by means of a resolution which gives provisional authority for the collection of import duty. It does not create duties. The resolution is voted on and hopefully passed, and then the debate takes place on the Bill which gives validity to the resolutions.

One Member mentioned that it would in fact take eight months to go through the normal procedures of the Bill was not brought until four months after the resolution. However, this is not what the Bill says. What the Bill says is that a resolution ceases to have effect if a Bill has not been passed giving validity to the resolution within four months. So why the time of four months has been put here is to permit a Bill to be taken through all of the stages including debate, in my opinion, in the United Kingdom. For the Member might be slightly mild, hopefully this takes in the normal course of events, about four months.

It would be the exception and the intention I am sure to bring the Bill pertaining the amendments to the same Meeting as the resolution is brought. The Second Elected Member for Cayman Brac said that the mover has not stated the necessity for this Bill. I am going to remind him of his contribution and that is that in March this year we stayed here until 1 o'clock in the morning to pass the revenue Bills, and we only succeeded in doing it then after one Member had invoked several times the closure of debate motion.

S.O. (cont'd) c. 554/82 (CONTINUED) It has rightly been pointed out that Private Members must have, and traditionally enjoy, a procedural effect, otherwise they can be abused. This is so at first stage every Private Member's Bill may be permissibly unamendable but it works on the floor of Commons. If more restriction on Bills reviews are needed, one must only refer to that case Private Members of this place take the House the best course in opposing Bills but his colleagues did not want to debate the Bills because they had not notice of them. They knew that they could not debate them satisfactorily. That is my recollection. Yes, Mr. President, if the procedures intended to be applied now are to give procedural effect to a reasonable view, the purpose of facilitating Bills for Members to study them, and the first deliberations on the policy, can be achieved. However, whatever machinery needs to be being proposed by this Bill, it would be inadvisable to over give notice of any increases in expenditure approved or authorised in advance Bills.

The second Electoral Reform Joint Select Committee did not deal with the Bill. Mr. President, please, I will not go into the speculation that the Committee would have made. Mr. President, please, I will not go into the speculation that the Committee would have made.

This Bill only takes upon the Assembly powers a resolution which -

"(a) provides for a change of electors duly taken a new item of power, or for the variation (with or without modification) or for the cancellation of any rule of standing order, under the Northern Ireland Assembly; and

(b) contains a declaration that it is expedient in the public interest that the resolution should have effect under the procedures of this Act."

Then the resolution shall:

"give a period expiring on the 21st of four months after the date on which it is passed, have statutory effect or if approved in that."

It is important to note that there is no procedure to extend the period of four months mentioned there. In fact, under subsection (4) to recall to have statutory effect of the Bill is not applied within the four months period.

So, it is my opinion, Mr. President, that the intention is that the Bill will be brought at the very earliest as the possibility. Members will have ample time and opportunity to debate the Bill even though they have not had an opportunity to debate the resolution.

However, Mr. President, I would also like to remind Members that there are provisions in this Bill for expenditure from public sources according to the legislative assembly, as this will be one of several new subsidiary things. There are various other responsibilities to increase them to certain circumstances, and this has been done in the past and there have been occasions that have been controversial. To my knowledge, the most recent case, Fishery Harbour, Road, planning fees and all such fees are passed by resolution, or by regulations which must come to the Legislative Assembly for debate. So, this would not in fact be the only occasion on which charges would be imposed without debate of this sort the case.

Hon. EDGAR G. STARR (Conservative): Mr. Speaker, I rise to speak on Bill [illegible] for the first time since it was introduced in the House. I do not intend to delay the passage of the Bill at this time, but I do feel that I have a few comments to make on the Bill.

Mr. Speaker, there is much controversy and excitement about this Bill. In fact, I have had many letters from people in my constituency about this Bill. As you know, quite a few people have spoken to this Bill and I am sure that before the Bill is finally passed there will be many more speakers. However, my comments under the Bill will be directed to the responsibility of the Government to ensure that any change in the present system of licensing is carried out in the best interests of the people. The Bill will give an opportunity for anyone who wishes to speak on the Bill before it is finally passed in this House.

Thank you, Mr. Speaker.

Hon. PETER G. MacKAY: Mr. Speaker, I rise to support this Bill. I have had a number of people in my constituency of Pictou East who have spoken to me on the subject of this Bill. I am glad that the Government has brought forward this Bill at this time. I am sure that the Government considered all aspects of the Bill before bringing it to the House. I am sure that the Government has considered the views of the people in my constituency and the province as a whole.

Mr. Speaker, I am glad that the Government has brought forward this Bill at this time. I am sure that the Government has considered all aspects of the Bill before bringing it to the House. I am sure that the Government has considered the views of the people in my constituency and the province as a whole.

Mr. Speaker, I am glad that the Government has brought forward this Bill at this time. I am sure that the Government has considered all aspects of the Bill before bringing it to the House. I am sure that the Government has considered the views of the people in my constituency and the province as a whole.

[illegible] Mr. Speaker, I rise in support of this bill. I think it is a good bill and I hope that it will be passed by the House. I am glad to see that the Committee on Rules has brought it to the floor so promptly. I am sure that the Committee on Rules realizes the importance of this bill and the necessity for its speedy enactment. I am very grateful, also, that they saw fit to grant a rule which will permit the House to work its will on this bill without the necessity of having to go through the motions of a Committee of the Whole. I am sure that the House will be grateful to the Committee on Rules for this action.

Mr. Speaker, I have had the honor to be a member of the Committee on Interstate and Foreign Commerce for a number of years, and I have had the opportunity to study the problem of the railroads and their relationship to the public. I have had the opportunity to study the problem of the railroads and their relationship to the public. I have had the opportunity to study the problem of the railroads and their relationship to the public.

Approved For Release 2001/08/08 : CIA-RDP80-01601R000100010001-6

MR. PASTORE: please be seated.
The Secretary will call the roll of Senators.
(Roll call.)
MR. PASTORE: Senator Bible, Yea, Senator Brewster. The Senator from Rhode Island.

MR. F. NORRIS HOYT: Mr. President, I rise to say that only a few of the people we have to debate and pass with Government's authority, which is to be always exercised with [illegible] I hope we'll debate [illegible] Mr. President, why I have felt as I do. I am not convinced that it is a [illegible] on the situation. We must always have reasons [illegible] although I suppose the Chair [illegible] to preserve the dignity and decorum of the proceedings, I would suppose the [illegible] as given by the Majority Leader [illegible] I feel [illegible] should be heard [illegible] the record [illegible] Members [illegible] I feel that [illegible] Members [illegible] to protect [illegible] to be heard.
I am a Member, Mr. President, who has [illegible] I should [illegible] Many things we should debate [illegible] I feel which should be debated. But, no amendments will be put by the Majority Leader [illegible] Government will accept his amendment I still suppose [illegible] I feel that if the Senator [illegible] Mr. President, why is it necessary for Government here to be debated [illegible] of four months. Even though Mr. President I might [illegible] I feel that [illegible] I suppose I [illegible] I feel that [illegible] Members should have always a right to speak as they [illegible] Mr. Majority which is brought to [illegible] I suppose it because I feel that [illegible] I suppose the Senator from Rhode Island [illegible] Mr. President, I have no [illegible]

MR. ALLOTT: Does any other Senator wish to speak? The Clerk will call the roll of Senators.

MR. HUBERT H. HUMPHREY: Mr. President, I rise [illegible] the Senator from the Republican [illegible] Senator from Colorado, [illegible] Senator from Rhode Island [illegible] Mr. President, I have listened attentively to all the debate here today and I do not wish to be unsympathetic to anyone and I do as elected Member representing my constituents [illegible] the opportunity to cast my vote. I do not place an undue emphasis on how debates. I say what I have to say in many [illegible] Therefore the lack of a debate on this amendment would not concern me. What concerns me is that because [illegible] necessary for the successful operation of [illegible] to succeed [illegible] unsatisfactorily to [illegible]
I thank the Majority Leader, the Senator from Colorado, the Honorable [illegible] Republican Member for his explanation and [illegible] Senator from Colorado, the Republican Member who is the Assistant Majority Leader. I would summarize the motion made by the Majority Leader [illegible] the motion that the period of four months would be too long and would be eliminated.

MR. HUBERT H. HUMPHREY (Minnesota): I feel the Senator from Nebraska has made a very acceptable and sensible proposal, it would have my support. Would that be all, Mr. President, I suppose the bill could and the other leaders be glad to check amongst as well.

MR. MANSFIELD: Does any other Senator wish to speak? Does the Senator from Nebraska withdraw his motion?

MR. HUBERT H. HUMPHREY: Yes, Mr. President.

We have been under a period of quiet. Mr. President, much change on the Capitol Hill, much progress, many differences. Private conferences, meetings taking place. Mr. President, I am concerned a Senate not speak up is not necessarily why may be should be to this year, must pass on his record this session. The bill which is before us seeks to accomplish the purpose of meeting with the increase of revenue. We are only back here to the Senate Meeting in March and remember the long deliberations were about the revenue bill. I also recall, Mr. President, the arguments in the minds of some of the members who specifically be opposed the revenue bill or signatures only to have that it have not come into effect until the bill is approved to and passed.

This bill, Mr. President, this is the Supplemental Continuation of Statute Action 1968, this is a bill which seeks to set a precedent for additional revenue which is first necessary to meet the expenditures in the following year. We say to ourselves at that I see the procedure wrong, Mr. President, in the fiscal matters there is always a serious dispute with the Senate Committee. It always involves the Senate Committee in the question of whether or not the revenue bill is to be brought to the House and be originally brought in the House in the appropriations, we have no intention of changing that, Mr. President. That will remain the case. But we could also see examples of disagreement between the Senate and the House which could be put forward by the Senate Finance and the House which could be put forward by the Senate Finance and the House which could be put forward by the Senate Finance

[illegible] THOMAS C. [illegible]: [illegible] say, Mr. President, there is no answer to [illegible] question. The reason for the veto is to provide a mechanism of dealing with [illegible] Congress [illegible] the present situation, in my mind, creates [illegible] time to deal with it. Then, the bill was to be brought to [illegible]. Still we may start to proceed. It has to be [illegible]. It has to be [illegible]. It may need [illegible] to [illegible] of that [illegible] and then it has to be [illegible]. If any [illegible] talk along the way, Mr. President, the bill is here now. [illegible] for a day, maybe for three days, maybe for a week, but I [illegible] whether all of that [illegible] taking place, Mr. President, [illegible] do not [illegible] the duty which is ours. We are [illegible] [illegible] [illegible] to [illegible] of [illegible] [illegible] by members of the public. I would like accordingly to [illegible] a vote [illegible] to [illegible] of us will take a [illegible] of [illegible] [illegible] [illegible] and the hope thereof is the public [illegible] [illegible].

While we may [illegible] [illegible] does not seem [illegible], we may come to the conclusion [illegible] by having a [illegible] where it [illegible] a [illegible] of a million [illegible]. Then, I am sorry, the [illegible] that circumstance [illegible] [illegible] [illegible] that the process of dealing with [illegible] [illegible] of the budget [illegible] [illegible] [illegible]

MR. SPEAKER: Order, Hon. Hon. Member for [illegible].

THE MINUTES OF PROCEEDINGS (NO. 21) TABLED, 1985

REPORT RECEIVED

THE MINUTES OF PROCEEDINGS (NO. 21) TABLED, 1985.

MR. SPEAKER: The Hon. Member for [illegible] to move that the Minutes of Proceedings be deemed to have been read a first time and be set down for second reading.

SECOND READING

THE MINUTES OF PROCEEDINGS (NO. 21) TABLED, 1985.

HON. MINISTER OF STATE: Mr. Speaker, I beg to move the second reading of a Bill to amend the Minutes of Proceedings (Amendment) Act, R. S. Bill, 2000.

Mr. Speaker, this Bill seeks to amend the Minutes of Proceedings Act to clarify the interpretation of the use of community service orders where an offender under section 5 of the Minutes of Proceedings Act (Revised). In that case the Act was amended to section [illegible] the Act provided that where a court makes a community service order under subsection (1) it shall be proper if the same offence also in circumstances under subsection (2).

It is felt, Mr. Speaker, that the community service order may be brought in quite effectively [illegible] community service order, especially [illegible] of offence which in circumstances under subsection (2) it shall be proper if the same offence also in circumstances under subsection (2).

This is a very simple amendment seeking to delete the word "shall" in section 12(2), and in substitute therefore the words "may also". This means that in the future when we have provisions for passing [illegible] instead of the fine or [illegible] of community service orders [illegible] of community service orders would possibly be appropriately, could also be available. However, by also allowing for [illegible] of the use of community service orders will be emphasized [illegible] considering the [illegible] which [illegible] is to be [illegible] to the community.

I therefore commend this Bill, this Hon. Member to debate.

HON. [illegible]: The question is that a Bill entitled [illegible] be given a second reading. The motion is open for debate.

DEBATE ON SECOND READING

HON. G. SATO [illegible]: Mr. Speaker, my debate on this Bill will be brief. I commend the purpose of having a community order [illegible] to be attached under which it [illegible] the Member to [illegible]. Such is just [illegible] in the minds of the people that we may possibly [illegible] this Minutes of Proceedings and [illegible] which [illegible] have [illegible].

MR. G. [illegible]: ... to see that the Bill is brought before the House for its consideration when a petition is brought before the House for the purpose of ...

MR. SPEAKER: I think hon. Members must speak to this Bill and not become involved in a debate about a Bill which has already been enacted.

MR. G. [illegible]: Sir, Mr. Speaker, what I am saying is that the Ministry of Energy has not yet published the Regulations which this Bill seeks to be in force before a period of seven days elapses from the date of the publication of the Regulations.

MR. SPEAKER: If the hon. Member wishes to make a statement on the matter, he may do so, but I do not see how it relates to the matter before the House. Hon. Members must speak to the Bill before the House. Hon. Members must speak to the Bill before the House.

MR. [illegible]: Thank you, Mr. Speaker, Sir.

MR. SPEAKER: Hon. Members, I would like to remind the House that this Bill is to be read a Second Time today and that is the only matter before the House.

MR. [illegible]: Thank you, Mr. Speaker, Sir.

MR. SPEAKER: Hon. Members, I would like to remind the House that this Bill is to be read a Second Time today and that is the only matter before the House.

MR. [illegible]: Mr. Speaker, Sir, I would like to move that the question be now put.

MR. SPEAKER: Does any other Honourable Member wish to speak? If not, I shall put the question that the question be now put.

MR. [illegible]: Yes, Mr. Speaker, I wish to move that the Bill be read a Second Time today and that it be committed to the Committee of the whole House today and that the Committee stage be taken immediately after the Second Reading.

MR. SPEAKER: Hon. Members, I would like to remind the House that this Bill is to be read a Second Time today and that is the only matter before the House.

MR. [illegible]: Thank you, Mr. Speaker, Sir.

MR. SPEAKER: Hon. Members, I would like to remind the House that this Bill is to be read a Second Time today and that is the only matter before the House.

MR. [illegible]: Mr. Speaker, Sir, I would like to move that the question be now put.

MR. SPEAKER: Does any other Honourable Member wish to speak? If not, I shall put the question that the question be now put.

MR. [illegible]: Yes, Mr. Speaker, I wish to move that the Bill be read a Second Time today and that it be committed to the Committee of the whole House today and that the Committee stage be taken immediately after the Second Reading.

QUESTION PUT: [illegible]

MR. G. [illegible]: Mr. Speaker, may I have a division please?

MR. SPEAKER: Certainly.

TYPICAL OF SENATORY VOTE - [illegible] [illegible]

Mr. President,

[illegible] Number 151,
I think that is now all the Items

Reading Through.

THE PUBLIC SCHOOLS AND ADULT EDUCATION

SENATE RESOLUTION

Cosponsors: The Public Schools and Adult Education

Mr. President: I would entitled a bill just a few minutes for the community management and needs of the public Education Schools and for such budget and associated purposes to proceed to have been read a first time and in and also for Second Reading. Before Mr. Clerk reads the title for the second reading and the reading of the Second Reading Debate, it is a very long bill and I imagine that the Senate will be spending for a little time on it. It may modify part the [illegible] of the Senate, it [illegible] [illegible] have to be [illegible] before we [illegible] [illegible] of an [illegible] a Second reading. So, I think that we have to [illegible] the First Reading and the Second Reading and [illegible] procedure.

Before I invite the [illegible] Senate Official Member to move the adjournment. I have also all Senators have been [illegible] to [illegible] of a [illegible] that we [illegible] the [illegible] was. I would [illegible] this to [illegible] for Members, that we might move [illegible] for [illegible] [illegible] minutes maybe of the [illegible] of the Public Schools & Adult Education Committee. This would [illegible] Members a chance to [illegible] if they have not had a chance to read it yet, in case any of them have questions about it, because I would like to give all Members an opportunity of [illegible] the Amendment and knowing what exactly this [illegible] is. It is quite a significant [illegible]. So, if Members can be kind enough to try to read it this evening if they get the chance I will [illegible] them tomorrow, and perhaps we can expect a few minutes discussion on.

Accordingly, if the [illegible] Senate Official Member would like to move the adjournment.

ADJOURNMENT

[illegible] Agenda Item: [illegible] Introduction, [illegible] adjournment of this House until 10.00 a.m. tomorrow.

[illegible] Question: [illegible] Question on [illegible] to be taken at 12.30 p.m. tomorrow. [illegible] to move [illegible] put the question.

[illegible] Agenda Item: [illegible] [illegible] 10.00 a.m., Monday, [illegible] 2000.

[illegible]

10:00 A.M.

THE CHAPLAIN: Prayer. To be read by the Chief United Nation for Host Type.

[illegible] Almighty God, from whom all mercies and justice and decisions: We beseech Thee so to direct and prosper the deliberations of the Legislative Assembly that all things may be ordered upon the best and surest foundations for the glory of Thy Name and for the safety, honour and welfare of the people of these Nations.

Bless our Sovereign Lady Queen [illegible] the Queen Mother, Philip Duke of Edinburgh, Charles Prince of Wales, Anne Princess of Wales and all the Royal Family. Endue [illegible] with a right understanding of our Commonwealth that peace and happiness, truth and justice, religion and piety may be established among us. Especially we pray for the guidance of our Ministers, the Members of Executive Council and Members of the Legislative Assembly that they may be enabled faithfully to perform the responsible duties of their high office.

All this we ask for Thy great Name's sake. Amen.

Our Lessons, which are to be read, are taken from the Book of Psalms. The Psalms [illegible] to be read in the following order. [illegible] and Psalms of Thanksgiving, are to be read [illegible] Psalms [illegible] Psalms [illegible] Psalms

[illegible]:

1. [illegible] - [illegible] [illegible] [illegible] [illegible]

   To write off expenditure in preparing the ADB project in 1982.

2. [illegible] - [illegible] [illegible] [illegible]

   To write off expenditure for costs incurred for training of officials in U.K. Government and a British Consultancy Organisation in connection.

^. Provision, shown as a credit item. It should read "Un-drawn assets". It should be "U.K. Treasury Account".

All [illegible] and the [illegible] are [illegible] of that case where Government provided [illegible] [illegible] which is [illegible] in the Khartoum Chancery as well as the [illegible] Chancery in Pretoria. This [illegible] for this case. It is [illegible] [illegible] by this Government in [illegible] with the Harambee Agreement and other related matters.

[illegible] [illegible] [illegible] $[illegible]

MR. [illegible] PRESIDENT [illegible]:

MR. [illegible]
[illegible] [illegible]

On behalf of [illegible] I move to be excused [illegible] which has been [illegible] with work from the [illegible] since [illegible] the [illegible].

[illegible] [illegible] [illegible] [illegible],
[illegible] [illegible] [illegible] [illegible]: [illegible]

A number of [illegible] were [illegible], Mr. President, and approved. [illegible] [illegible] [illegible] dealing with the Caribbean Development Bank for the [illegible] of Belize and the [illegible] [illegible] on the [illegible] of [illegible] [illegible] from Mr. Bird yesterday.

Another [illegible], [illegible] by a [illegible] for [illegible] [illegible] of Title [illegible] [illegible] [illegible] [illegible].

A third [illegible] was passed by a [illegible] for the Inter-American Development Bank. It is a [illegible] for the [illegible] of the Cayman Islands to become [illegible] and [illegible] the [illegible] which is presently [illegible].
Thank you, Mr. President.

MR. SECRETARY:
In accordance with the [illegible] of [illegible] Order of [illegible] (4) the House is deemed to have agreed to the motion that the Minister [illegible] be [illegible].
[illegible] [illegible].

[illegible] [illegible],

REPORT OF THE AUDITOR-GENERAL

MR. [illegible] C. [illegible]: Mr. President, I beg to lay on the table of this [illegible] House, the Report of the Auditor-General on the [illegible] of the Cayman Islands Government for the year ended [illegible] December, 1982. That [illegible], Mr. President, also has included [illegible] the Government's [illegible] for 1984.

MR. SPEAKER: So ordered.
[illegible] [illegible]. The Second Elected [illegible] [illegible].

ANNUAL REPORTS OF STATUTORY BODIES

MR. [illegible] A. [illegible]: Mr. Speaker, I beg to lay on the table of this honourable House the Report of the Public Accounts Committee on the Auditor-General's Report on the accounts of the Cayman Islands Government for the years ended 31st December, 1981.

MR. SPEAKER: So ordered.

MR. [illegible] A. [illegible]: Mr. President, the Public Accounts Committee which was established by Government Motion No. 1 of the 23rd November, 1984, functions under the provisions of Standing Order 74.

[illegible] The membership of the Committee is arranged alphabetically as follows:

CHAIRMAN - Mr. Clifford A. Peterson

MEMBERS - Mrs. Daphne L. Arnold
Capt. Mary A. McDermott
Mr. J. Samuel Miller
Mr. John E. Nelson

The Committee held five meetings during the period from July, 1965 to December, 1965:

6th July, 1965
1st October, 1965
9th August, 1965
16th August, 1965
30th August, 1965

The minutes of these meetings are attached to the Report and form an integral part thereof.

Also, Mr. Davidson, attached to a copy of the Nelson Committee which is a report which was filed by the Secretary of State and came out of the Secretary of State's Executive Committee of the 89th Congress, 1965. This report, Mr. Davidson, made other minor recommendations for the further and improvement of qualified citizens. Though dated on the book it [illegible] which contains many useful publications which is the right still [illegible] is kept by the Government of the Islands, and will receive comments on the Government's Minutes.

In attendance at the meeting, Mr. Davidson, were the following administrative officers:

Chief Secretary - Mr. Ray Kelly
Senior Financial Secretary - Mr. George Haverly
Senior Accountant - Mr. Derek Hendrickson
Treasurer (Offshore) - Mr. Tom Digby

Together, Mr. Davidson, with certain administrative officers was present before the Committee.

On 6th July, 1965, Mr. Eric Bergstrom, Director of Tourism appeared before the Committee. On the 1st August, 1965, Mr. Ray Kelly, Financial Administrator, Mr. Peter Lee, Chief Environmental Health Officer, Mr. Geoffrey Brown, Agricultural Consultant, Mr. Stuart Hooker, Senior Agricultural Technical Officer, Mr. Peter Richardson and Social Services, appeared.

Also on the 9th August, 1965, Mrs. Marcia Wood, Collector of Customs, Mr. C. Lyle, [illegible] Director Tourism Consultant Mr. Clifford Grant, Manager - Central Trading Estate, Mr. L.E. Hall, Senior Chief Engineer and Mr. Leonard Wright, Assistant Secretary for Social Security and Social Services Council.

On the 16th August, 1965, Mr. Trevor Mr. Basil Fleming was summoned to the meeting and appeared.

The Committee wishes to place on record its appreciation of the cooperation expressed by all Government Officers who appeared before the Committee. Further, the Committee wishes to record its thanks for the assistance and consideration shown throughout by the Administrative Officers.

MR. SPEAKER A. PIERCE (CONSERVATIVE): The Committee also wishes to place on record its appreciation to Government and the excellent presentation of this report and accounts, and is particularly impressed that for the first time in the Province the accounts and the Auditor-General's report thereon have been prepared and presented within nine months of the financial year end.

The Committee further wishes to place on record its appreciation to the Clerk of the Legislative Assembly and his staff for the invaluable assistance offered by them to the Committee.

Mr. Speaker, the Committee looks forward to receiving a Government Minute as provided for in the Committee's Statute. The new Standing Order 90(2) states that Government's written response to the Committee's recommendations are due in the Legislature.

Mr. Speaker, in view of the many recommendations made by the Committee and because the reply to the Government Minute on these recommendations will be subject to debate in these Chambers, I have not been minded here to deal individually with the recommendations made in this Report. However, Mr. Speaker, of the thirteen or more recommendations made by the Public Accounts Committee arising from the examination of the Auditor-General's Report on the accounts of the Cayman Islands Government for the year ended 31st December, 1981, it has been decided to proceed only on two of those due to the time constraints, and to deal with the remainder in writing.

The first of these was, Mr. President, whether the decision to commence the hotel tax refund scheme was lawful or unlawful. The Committee noted that, in light of the legal opinion of Crown Counsel to the Government dated 30th September, 1982, it was clear that the scheme was unlawful. Government have necessary action to ensure the proper collection of all revenue due.

On Statements of Assets and Liabilities, the Committee noted the various discrepancies in revenue collected under Export duty, stamp duty and customs fees and made the following recommendation.

In view of the financial situation of the country and the fact that there have been reductions from the revenue of the recurring income base, the Committee recommends that Government take necessary action to form a special committee to investigate any variations in the present multi-duty system.

On the financial responsibility of Government the Committee recommends that Government take action to ensure that at the end of any financial year the surpluses accrued have not caused Private Consultancy embarrassment.

On the Imprest Account the Committee recommends that Government take necessary action to ensure that all Imprest Accounts are reconciled within three months and some to those responsible for the Auditor-General's comments when reviewed by him.

On Payroll Tax, the Committee recommends that Government take necessary action to investigate the application for the collection of payroll tax. The Committee endorses the Government's recommendation that the collection of payroll tax will have only minimal impact on employment, mainly to enhance effectiveness the collection and enforcement of regulations.

On Stamp Duty, the Committee recommends that Government take necessary action to increase the receipts of Stamp Duty, and that fees for services be brought to reasonable.

MR. PHILLIPS (CONTINUING): On Portage Road, the Committee recommends that Government take measures, similar to those now envisaged by the Public Roads Department and promptly publicized for any addition.

The Committee further recommends that Government carry out a survey to determine the exact nature of persistent weekend garbage collection complaints.

On Bogert Road, the Committee recommends that Government take necessary action to ensure that overnight jams, as outlined to the Committee's Secretary, be eliminated.

The Committee further recommends that Rural Postal Delivery Schedules be published for the information of the public.

On purchase of land and property by the Government, the Committee recommends that Government take necessary steps to ensure that Government services raise the money on future purchases.

On recommendation number 12 which is directed at rural tax arrears, which deals with the General Taxation Policy, the Committee recommends that Government take measures, service to ensure that the accounts of the General Manager are properly and timely produced, and further that the Government Policy rests on a regular basis to improve the position of the Department.

The Committee further recommends that a more effective survey of the General Building Scheme be undertaken.

Mr. President, the Committee agrees that this Report of the Public Accounts Committee of the 19th Session of the Legislature should be tabled at the Third Meeting of the 19th Session of the Legislature, and accordingly I recommend that the Report be tabled.

Thank you, Mr. President.

ADJOURNMENT OF THE ASSEMBLY

MR. PRESIDENT: Thank you. I am sure that it would be the wish of all Members that I should thank the Chairman and all members of the Committee on the very speedy production of the comprehensive Report. As the Chairman has rightly said, in view of the amount of work and study we have, apparently, undertaken at our Committee Sessions to submit that new procedure. I have given the undertaking to the Government I shall be responding the amendments, and I am accustomed that I personally should report those amendments on Monday, the production of a Government Minute in respect of this Report. In the circumstances of the Report this year, as the Chairman rightly said, when the Government Minute comes out there will be an opportunity for the House to debate it then.

HON. D. QUESTIONET: If for some reason there is a hospital bill to meet with regards and that not yet been available for questions. Perhaps I can answer such matters as may well be reasonably sought with those statements made. Question No. 33. The Senior Executive Service.

THE ACTING EXECUTIVE SECRETARY INFORMED THE BOARD THAT THE NEXT REGULAR MEETING OF EXECUTIVE COUNCIL REPRESENTATIVES WAS SCHEDULED FOR MARCH 22ND AT DULLES AIRPORT.

Mr. Ge: (a) Will the Hawaiian state the reasons for disagreeing the policy of applying rate points on the basis during those earlier hearings?

(b) Would the Board further state whether the new policy of not applying employment to these points came about as a result of the Post Authority's efforts to secure expenditures on the basis of the amount for the safety of these men?

Answer: (a) During the course of the meeting held with representatives of the ports, it was determined that the airport boys were employed and rendered flight duties in the transit shed area running all over the docks, picking up incoming late flights between ports of entry at their assigned jobs. They also participated in the Union pension plan. Recognizing the above pertinent points and having in consideration the hazardous waste duty they should not have been.

Although the discontinuance of the practice of having patrol boys will result in overall annual savings in the port operations, it was not the main reason for the action of Management's decision to stop having patrol boys. They decided that it would be unwise to stop having them at the risk to personnel and possible accidents that happened to them, rather than ignore the potential danger and be sure that one will occur on the dock.

(b) As previously stated, the main reason for the discontinuance of having patrol boys was due to a reduction in the port operations, it was not the main reason for the action of Management's decision to stop having patrol boys. They decided that it would be unwise to stop having them at the risk to personnel and possible accidents that happened to them, rather than ignore the potential danger and be sure that one will occur on the dock.

QUESTIONS:

MR. H. EDWARD HOLLAND: A supplementary, Mr. President. Could the Marine clarify whether the policy of applying rate points on the basis of the Port Authority or a decision of the Port Authority?

MR. CAPT. CHARLES E. KIRKPATRICK: Mr. President, there was never any policy established for the basis of application. It was only a question.

MR. H. EDWARD HOLLAND: In the light of the answer that it was only a question, who was then responsible for the establishment of these points which were a policy in place?

PRESIDENT CHARLES E. KIRKPATRICK: Mr. President, I am told that some discussion were brought to the attention by local persons with the Port Authority of what were presented by the Port Authority, Mr. President that is all.

MR. LAWRENCE A. SCANNELL: A point of parliamentary inquiry, Mr. President. I wonder if the Marine could state whether the information we received in the International Information Bulletin we received in the Corporate Security Office or not?

Mr. CARMEN A. PERILLI (continuing): Mr. President, to refresh the Senator's mind I will state here that this was the information given and I based my question on this Governmental release. It stated:-

> "Another $40,000 will be saved by the ending of the practice of employing school-children on vacation for two weeks each year and leaving them on premises."

In addition, Mr. President, was work of the safety of these children why I would ask the Senator to clarify whether this arrangement is correct or not, whether it was because of the reasons for shutting the plant or out of safety for the children, or both.

Mr. [illegible] Mr. President, there is another question namely the work or that which follows. The answer is no. There were two schools. When the Committee was investigating the financial problem of the plant they were only one of the many measures which they suggested that it need to take in order to make the plant viable. It was either that we reduce expenditure wherever possible, or increase the fees or ask Government to subsidise the plant. So, really it was not in fact, Sir, there were two schools also, however, the practical reasons were mainly the removal of the children; the surrounding areas that were working in. I do not know of any plant in the world, Mr. President, where children are employed on the lathe.

Mr. [illegible]: Mr. President, I wonder if the Member could tell us whether at the time of employment of these children it was in order possibly to employ them?

Mr. [illegible]: President, this is a question which came through my mind. As I recall, it was never a problem. It was a question. I do not think that anyone really looked at this especially because they looked at it particularly as some would have employed children in a hazardous trade, which I think is, because these are private working industries, there are trade unions back and forth and there are also fixed rigid hours. Anywhere one may turn, and particularly with children coming into the region where it is not allowed from the ships, there are the factors which I think have.

Mr. [illegible]: A further supplementary, Mr. President. I wonder if the Member could say how long the children were employed before this decision was taken?

Mr. [illegible]: President, I am not sure when precisely started, Sir.

Mr. [illegible]: Mr. President, a further supplementary. In the Member's answer a while ago he established a lack of responsibility on one of the chief shareholders as the Government. I wonder if the action taken by the chief executive has rectified or corrected by his immediate boss, the Minister of Works or some other senior official?

Mr. [illegible]: President, I am not sure of the answer but I imagine that it would have had to have the blessing of the Home Minister.

Mr. [illegible]: Would the Member further state, Mr. President, what is fair and reasonable to assume that if these children were away from the most hazardous that they would have been contributed by the Marine responsible for its work?

MR. MCDONOUGH: I do not think that applies in this matter. I think that is probably out of order, because I do not think that you were allowed to ask questions taken back on my question of yesterday. That is what that question was today. Very frankly, Under Rule 7(g). You may not ask a question which criticizes or recommends or explains and you have already had Member's opinion as to what Member would like and reasonable.

MR. LAWRENCE A. GIBSON: May I respond, Mr. President. Yesterday the Member Chamber had to assure that this military has been the military of the constitutional over the past few years. So military going out on the street.

MR. CHARLES A. STRICKLAND: Mr. President, I wonder, Mr. Minister, if there has been no policy at any time. There is nothing in the records to show that there has never been a policy. There has been a procedure but never a policy laid down by the Government. I was Governor, Sir, from 1960 to 1962. The Second Mineral Session for Sandra Town was the Members from Bain and there is no policy to be found in any of the Government's records. There is no policy until then, Sir.

MR. G. ISAAC DONOVAN: Mr. President, I wonder if the Member can give us the average age of the boys employed at the Camp?

MR. CHARLES A. STRICKLAND: I cannot, Mr. President, there were boys employed aged 8 years, 10 years, 11 years and also 12 years.

MR. JOHN C. WHITAKER: Mr. President, I wonder if the Member could tell us exactly what boys aged 8 years would do at the Camp?

MR. CHARLES A. STRICKLAND: I cannot, Mr. President, this is a question that is in my mind which I would like answered.

MR. SPEAKER: I think let us move on to the next question. It is not dealing the subject.

MR. LESTER BENJAMIN BROWN FOR CENTRAL: Page 24. The Government agrees with the Committee's recommendation that the Government pay the Police Association the sum of $5,000 for the building of their police club.

MR. P.L. (a) would the Member state whether the Town Authority's building scheme envisaging the new building of the Government school on the Police Association's site has been delayed; and

MR. CHARLES A. STRICKLAND: Mr. Speaker, I think that we have not been approached.

MR. P.L.: That being so, I think that we have not been approached.

MR. P.L. (b) would the Member also state the amount which the Town Authority hopes to spend on a variety of recreational facility for the building of the Government school on the Police Club?

MR. SPEAKER: I would suggest that the Member enlighten the answer to the Question as to give such. It has been answered.

ANSWER: (b) ... in the local areas for which figures are available, a total of over $20,000 was raised by the Fund Authority activity school boys. It is estimated that a similar amount will be raised in 1975.

QUESTIONS:

MR. ARMSTRONG (1, OTTAWA): Mr. President, is it correct that there is available that the only reason why the Post Authority discontinued the activities of young men on the work was to save expenditure, and will nothing at all to do with their safety. This only some about [illegible].

MR. GILBERT CARTER (Yukon): Mr. President, I think that this is a question. I hope with that opinion because I stated here that the number was no. Among other things which were investigated on the work by the Committee this was only one of the small areas which they recommended that be covered. So I disagree with the Member's statement, Sir.

MR. G. PERCY DOWNES: Mr. President, may I ask the Member to repeat the question answered in the answer. The answer says that it is hoped or it is anticipated that $20,000 would be raised in 1975 if they do not apply the subscribers. May I ask who would be the ones which the subscribers must have done in order to have paid $20,000 the previous year? Would it be a grant subsidy of $20,000 as normally [illegible] Mr. Chairman?

MR. CHAIRMAN (Mr. Taylor): Mr. President, the witnesses were not required [illegible] they were just working along with their people. They had an installation job. They were just working away with other people. Since they have left and we have adopted [illegible] them on the work, we have not had to [illegible] the exact number to take the place of them they were doing. I stated earlier, [illegible] that most of the time they were playing around the work instead of working.

MR. PRESIDENT: The next question. The Honourable Member for Mayo Lake.

THE HONOURABLE MEMBER FOR MAYO LAKE: MR. PRESIDENT, DOES THE HONOURABLE MEMBER FROM WHITEHORSE [illegible] HAVE ANY [illegible] THAT TIMES

MR. DE: Would the Member please advise whether arrangements have been made by the Public Service Employment to employ Local Student during their school holidays?

ANSWER: Government [illegible] to use its best efforts to place any students on school holidays in any temporary positions which may be open at the time.

The private sector through the Yukon Federal Chamber of Commerce has been approached and encouraged to offer employment to students during their school holidays.

The Labour Office will endeavour to place on available vacancies, any students who are registered as seeking employment.

SUPPLEMENTARIES:

MR. H. NEAL SCOGGIN: Mr. President, may I ask the Member what temporary positions could be given to the graduate in History?

REP. W. NORMAN SCOGGIN: Mr. President, I would not specifically state what temporary positions would be given because it depends on what positions would be available at the time. However, I do know that even during this past summer Government has offered positions to school leavers who, I suppose, perform clerical positions just necessary positions. They have helped out in these areas. It would depend on which of these positions are open at the time.

MR. PRESIDENT: I think that we can file the next question. The Second Elected Member for Eastern Nine. Oh, I am sorry. You have got a supplementary?

DR. LINFORD A. PIERRE: Yes. Mr. President, just on supplementary. Would the Member give the assurance that he will use his best endeavours to employ as many of these school boys as possible in the future?

REP. W. NORMAN SCOGGIN: Mr. President, I can give an assurance that I will use every means at my disposal, not to employ them, but to see that the Governments for which I am responsible make their best endeavours to offer employment.

DR. D. OSCAR MILLER: Mr. President, I wonder if it would be possible to suspend Standing Order 22(7) to allow for the completion of the questions.

MR. SPEAKER: I was going to suggest that that might be the wish of this House anyway, because we did spend most of our time on Ramos. Would you like to move that or shall we ask the Honourable Chief Official Member to move it?

SUSPENSION OF STANDING ORDER 22(7) AND (8)

HON. DENNIS M. PYKE: Mr. Speaker, I move the suspension of Standing Order 22(7) to enable the remainder of the questions to be answered, Sir.

MR. SPEAKER: The motion is that the provisions of the provisions of Standing Order 9A, Standing Order 22(7) shall be suspended in order to enable the remainder of the questions standing on today's Order Paper to be asked and answered. I thought if you suspended Standing Order 22(7), Standing Order 22(8) did not apply anyway. But Although, Standing Order 22(7) and (8) that, I am informed that we had better suspend. Does any Member wish to speak, if not I will put the question.

QUESTION PUT: AGREED. THAT STANDING ORDER 22(7) AND (8) BE SUSPENDED TO ENABLE THE REMAINDER OF QUESTIONS ON THE ORDER PAPER TO BE ANSWERED.

MR. PRESIDENT: Question duly carried. The Second Elected Member for Eastern Town.

THE HONOURABLE DEPUTY MINISTER FOR AGRICULTURE TAKES ON ASK THE HONOURABLE SENIOR MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR ENVIRONMENT, PARKS AND RECREATION ADMINISTRATION.

QUESTION NO. 96: Would the Honourable Member state the cost of employing the proposed extension to the Staff Road on Cayman Brac?

ANSWER: The cost of employing the road use file,extension which included the "Ox Bailey" culvert, for the three miles of road construction period to November, 1984.

MR. SPEAKER: Question No. 97?

THE SECOND ELECTED MEMBER FOR BRITISH TOWN TO ASK THE HONOURABLE SENIOR MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR ENVIRONMENT, PARKS AND RECREATION ADMINISTRATION

NO. 97: Would the honourable Member state why the proposed extension to the Staff Road failed to be tarmacked?

ANSWER: Preliminary planning of the proposed route encountered extremely rough terrain which required a deviation in part route to reduce the cost on order that the road could be completed with the funds allocated for the project. Once again that new access roads will not be tarmacked once the road is widened to the designated 30 feet.

MR. SPEAKER: If there is no supplementary, perhaps we can turn to question No. 98. The Second Elected Member for West End.

THE SECOND ELECTED MEMBER FOR WEST END TO ASK THE HONOURABLE SENIOR ELECTED MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR HEALTH SERVICES AND SOCIAL SERVICES

NO. 98: Would the Honourable Member make a statement on the progress of the re-organization of the Community College?

ANSWER: Under the rationalization of responsibilities in the portfolios the Adult School, Marine Science and Training were placed under the Ministry responsible for Education. These would also be looked back assignments until the Community College is fully re-established as the Institution with various sections. The Agricultural section has been discontinued due to a lack of students. The Agricultural and Cooperative sections have been amalgamated with the Technical Training section. The re-organized Community College now consists of four sections, the Adult School located in Bodden Town, the Technical School on the old LIC site, the Extension Section which also includes the Cayman Islands High School also serving the community, and the Business School which is due to open in the Seven Buildings on 10th September.

The administrative offices of the Community College are now located in the Seven Buildings, under a full-time re-organization who are appointed acting in there.

Consideration planned to acquire a permanent facility for 1985 are still active on the further development of the College. To this end Mr. Speed plans an education planning on the Community Environmental Project to be done to promote terms of reference and an interim report.

In the meantime the College has contracted for storage of the hotel and heating industry in order to upgrade the present offerings. The institute of Service courses will start in September at the Wilkinson Pioneer as well as a two year accounting course. It is hoped that both these courses can be offered full-time in the near future.

The expansion of the Hotel School courses relocation of the school to a larger site. Plans are well underway to offer a building trades course in January, and a course for nursery nurse assistants is under active consideration.

In the meantime, the enrolment picture continues to be very positive with over 900 people taking advantage of early registration for classes which start this September.

QUESTIONS/COMMENTS:

MR. G. MAY TROSKY: Mr. President, may I ask when the government going to stop giving grants to the Cambrian College and get on with the job of building it?

HON. DENNIS R. TIMBRELL: Mr. President, this government has indicated that it has received private representations on the accommodations or do not to locate money on happened on the road.

MR. G. MAY TROSKY: Mr. President, may I ask the minister if he considered the recent study by Professor Gallagher relating to the wisdom of the College expansion, or is it simply because we wants to delay the projects?

MR. ROBERT G. FERRIS: Mr. President, the report given by Dr. Gallagher was extremely valid report, given the limited time which he spent in the Peninsula. However, I believe, that it would be fair to admit that his report is not comprehensive and all-encompassing.

MR. R. MARTIN RUSH: Supplementary, Mr. President. Could the Minister say where the Hotel School will be relocated to?

HON. DENNIS R. TIMBRELL: Mr. President, if the Minister of Agriculture was ready the Department of Agriculture will be delighted to anywhere else to enable the Hotel School to be sited in the development now owned by the Agricultural Development.

MR. G. MAY TROSKY: Mr. President, may I ask the Minister to his statement that Professor Gallagher's report was not comprehensive, is the opinion of his Ministerial solutions in education, or is it his own personal opinion?

HON. DENNIS R. TIMBRELL: Mr. Speaker, it is the opinion of the Secretariat Advisors, and as I said, Dr. Gallagher himself. The report indicates that it is not all-encompassing.

MR. SPEAKER: Question no. 91.

HAS ANYONE ELSE'S NAME BEEN ADDED TO THE PETITION?

Q1. Will the Member say how much of the cost of the proposed bypass will be borne by the Government and how much by the Municipality?

YEARS	COST	GOVERNMENT SHARE
1980		215,600.00
1981		16,320.00
1982		411,791.00
1983		445,310.00
1984		837,980.00
TOTAL		1,926,910.00

QUESTIONS:

MR. SPEAKER: Mr. President, a supplementary. Would the Member state whether any assessment has been made of the possible unemployment that could be caused by the cancellation?

MR. SPEAKER: Mr. President, such estimates as are available have been made by the Department of Works.

MR. SPEAKER: Supplementary, Mr. President. Could the Minister state whether in the light of the increasing amounts being spent for subways would the Government do investigating studies into some through the Health Maintenance Organization or anything like this in order to reduce the cost?

MR. SPEAKER: Mr. President, there is an ongoing study under provisions of legislation, in order to attempt to reduce the cost incurred by moving such subways.

MR. SPEAKER: Mr. President, would the Member state whether it is a policy of Government to refuse such subways which cannot be handled locally, and whether it is accepted for arrangements to be made for the maintenance of such a road.

MR. SPEAKER: Mr. President, I think that the first part of the question answers itself. If the Minister was unable to move with a road they will refuse it. I would assume that the second part would refer to areas where Government does not have responsibility, for example in the case of Crown lands, I assume if Government has a responsibility in those areas. However, it is the intent and is certainly the policy to recover the cost from the individuals or their relatives who are name drivers.

MR. M. HARPER: Supplementary, Mr. President. Could the Minister say what has been spent so far this year?

MR. SPEAKER: I do not really think that this is a supplementary but I will allow him to answer if he....

MR. M. HARPER: Sorry, Sir?

MR. PRESIDENT: Oh, yes. I beg your pardon. The question was: Does your name [sic], as you say it is a relatively fair question.

HON. EDGAR G. EDWARDS: Mr. President, I am afraid that I do not have that figure, sir.

MR. SPEAKER: I wonder whether you might undertake to get that figure and circulate them to Members for their information.

THE HONOURABLE G. EDWARDS: Yes, Sir, that can be done.

MR. EDGAR G. EDGAR: Mr. President, a further supplementary. In order to give the correct information on this matter to the public I wonder if the Member could state just what sums of this expenditure [illegible] have been made for refurbishment and what is the [illegible] to be written off against Government's revenue?

HON. EDGAR G. EDGAR: Mr. President, I thought that I answered that question already.

MR. PRESIDENT: I think that the Member could rise on second where Government does not have a liability to meet the expenditure in the case of rental accounts, that refurbishment could be disregarded wherever possible. So, I think really your supplementary has been answered.

HON. EDGAR G. EDGAR: Mr. President, the purpose for the supplementary is that the information have given the impression that Government has been spending a lot of money on [illegible] which is true. However, I wanted to get it definitely clear that most of this is already covered under [illegible] to be recovered.

HON. EDGAR G. EDGAR: Mr. President, if it helps the Member, what is in that a great portion of this is recoverable.

MR. SPEAKER: The elected Member for North side.

MR. L. BRAM HILLS: Supplementary, Mr. President. Could the Member give any more details as the issue of expenditure where refurbishments are carried with in the plant area in relation the rest of the health care.

HON. EDGAR G. EDGAR: Mr. President, I am not prepared to give the specific names of the institutions. I could just say that refurbishments are being sought for the canteens.

MR. SPEAKER: Question two.

THE ACTING SECRETARY BEGAN READING THE NEXT DAY OF THE MORNING BUSINESS QUESTION HOUR QUESTIONS FOR ANSWERS AND ORAL ANSWERS

No. 230: Would the Honourable Member state what steps are being taken to ensure that all qualified and qualified Expatriates are employed on the Hydro project before work permits are granted for non-Belizeans or both?

ANSWER: Prior to the grant of any permit consideration is given to employment on the Hydro project, representatives of the Expatriate Association Board, together with the Chief Immigration Officer, met with the Chief

Jamaica Conservation Association and subsequently with senior management of Caribbean International and Guyanese Enterprises. At the latter meeting, the Board stressed the point that local personnel should be employed at the project wherever possible and that all available local employees should be trained to participate therein.

Thus far the Board has granted only a small number of applications for employment with the Hyatt project. As such, the Board has been encountering a phenomenal lack of skilled persons and the Board is therefore disappointed that there can be local persons available to fill it.

All further applications for gainful employment please will be considered in consultation with the Government Labour Office and permanent employment will be placed on the availability of the local workforce and availability of suitable expatriates to fill the posts.

QUESTIONS/ANSWERS

Mr. SPEAKER: The Prime Minister for Grenada.

Mr. G. [illegible]: Mr. Speaker, may I ask the Member if he can tell us what is about by a small amount of foreign workers being employed at the site?

Col. [illegible]: Mr. Speaker, yes.

Mr. G. [illegible]: Mr. Speaker, also can I ask the Member if he can tell us what are the exact circumstances of the professional and technical workers employed from overseas?

Col. [illegible]: Yes, Mr. Speaker, I am well prepared for these supplementaries, Sir. However, I would like to say that there are two companies involved, Caribbean International and Guyanese International, and therefore we might find a slight difference in each one. However, there are a number of Guyanese engineers, project manager, security manager, building supervisor, general engineer, welder, security supervisor, personnel manager, accountant, receptionist, secretary, marketing manager, planning officer, engineer and another general worker.

Mr. S. [illegible]: Supplementary, Mr. Speaker. Is there not a possibility that the sub-contractors have contracts or wages cheaper than what is paid that they could get the same help on the Islands, that is Guyanese or Grenada?

Mr. [illegible]: I think, Mr. Speaker, what the Member is saying is that a lot of the work on the project is sub-contracted out to local contractors, who in their workforce might have a few people who are on some premises.

Mr. [illegible]: Mr. Speaker, a further supplementary. I think that he already answered it but I still ask it again. Is there not a possibility that the sub-contractors have already an agreement with the Islands and are making them on the job?

MR. PRESIDENT: I think that the Member is quite right. It has been answered and the answer was yes. There is that possibility . .

MR. M. MORGAN JONES: Mr. President, a further supplementary. What then is the position? Are we saying that Commissions are taken out of the hands of this country?

MRS. EMMELINE W. PIKE: Mr. President, it is my understanding that the Soviet Commissions in the Polaris-type ships were never sent on their work areas whereupon ships set out Commissions ships like that, however, as a part of their work areas some of them have joined ships which have been with them from the yards on work permits. If they get a sub-contract then will also their work. Nevertheless, we do not have anybody who have reported to the Labour Office as those contracts who do not of course.

MR. M. MORGAN JONES: Mr. President, a further supplementary. Is the Member saying that the sub-contractors who have these permits or work permits are also then some if those are Commissions activities? I have a cause for notice, Mr. President, and I know this if it will please to get a answer here on another time. However, it is a fact that those things are happening and they must be checked first.

MRS. EMMELINE W. PIKE: Mr. President, it is my opinion, Sir, that Ukrainian Commissions went to work they can go and work for anybody. Sir, nevertheless there is that case is not right but when they work.

MR. M. MORGAN JONES: Mr. President, just to get the case straight. Let us take this thing seriously. The only [illegible] Mr. President....

MR. PRESIDENT: You may ask questions, not make statements.

MR. M. MORGAN JONES: What is what he just said, Sir, a statement.

MR. PRESIDENT: He was certainly a question.

MR. M. MORGAN JONES: In my opinion it was a statement when answering my question. However, I will leave it quite calmly. However, it needs to be checked later, Sir.

MR. PRESIDENT: The Third Alternative Answer for Mrs. Pike.

MRS. EMMELINE W. PIKE: Thank you, Mr. President. Would the Minister be able to tell us what steps are being taken to ensure that Commissions are invited by Soviet shipowners to ensure that they are able to replace those non-Ukrainians who do work permits within a reasonable period of time?

MR. GEORGE M. FOSTER: Mr. President, I am really not responsible for shipping, but I would say that where a young Commissioner is employed with a contracting firm and he wishes to leave and therefore to where he can be a fitter or plumber or carpenter, certainly the Government would be stupid to refuse any permits or work permits which he has ready, where he could have a favourable opportunity to replace them.

MRS. MARY D. BROOKS: A further supplementary, Mr. President. Based on first hand knowledge of many individuals who have been on work permits for nine or ten years now, or more or less than that, although the need of a union contract is indicated, would the Member in charge be willing to take time to ask someone to check to see whether or not these people are now being done by non-Organizations to do certain jobs which are now being done by non-Organizations? I mention Mr. President, that the Members be sure in terms of training. Because, I would like your assurance that this will be kept in mind and I would like the Member to give us some answer as to whether something is being done to ensure that this person is not overlooked.

MR. F. MORRIS HALL: Mr. President....

THE PRESIDENT: Mr. Hall rise? The Member must first rise and address to answer the question which has been asked.

MRS. GERTRUDE M. BROOKS: Mr. President, it is difficult for me to give any such assurance, for, because the contractors that choose and purchase to their own needs. I commend to Chairman to them and telling them what they must do. The Board of Commerce are private persons. However, then as not them coming, they will have one keeping the book. I cannot get my work done because you are not giving me a work permit and there is no Organization available. I cannot give any assurance for outside firms like that, Sir.

MR. F. MORRIS HALL: Mr. President, a supplementary. All the answers we have received this morning were out of the question-

> "What steps are being taken to ensure that all qualified and qualified Organizations are employed on the Lynn project."

The fact is that the Lynn project, the environment of the whole problem....

MR. PRESIDENT: Is the Member asking a question?

MR. F. MORRIS HALL: Yes, Sir, I am asking a question. Just to get to it, Sir.

MR. THOMPSON: As long as you get to it reasonably soon.

MR. F. MORRIS HALL: Yes, Sir. The fact is that the representations for the Lynn project have sub-contractors. In the light of my question and the answers given, I would ask the Minister that my question to ensure.... I am asking what steps are being taken for Organizations to be hired on the job. The fact is that the sub-contractors are the ones who are actually the problems. However, according to the Minister's answer the Provincial Board is doing nothing about it. If that is what he is saying, then he should rectify it.

MR. FRANK D. ROWE: Mr. President, the answer given the other day by the steps which were taken prior to the commencement of the job. The Department Provincial Board did everything possible to see that Organizations were represented on the job. However, Mr. President the Provincial Board has no control over sub-contractors, we cannot go to the project management that they cannot give out a sub-contract to neither can we control the sub-contractors from working with them over the past years.

MR. H. MONESTA RICE: Mr. President, I think that the Member is...

MR. PRESIDENT: No, I did not call you. Please sit down. We must take turns. The elected Member for North Side was the next one who caught my eye.

MR. J. BRIAN ATWELL: Mr. President, I wonder if the Member would give the House the assurance that the Protection Board will review work permits being held by the sub-contractors and in places where there are qualified Caymanians, have such work permits revoked?

HON. OSCAR S. RUTLAN: Mr. President, this is a constant policy. If a firm or contractor applies for the renewal of a work permit for a person employed there, the Board goes into the facts and does whether it is necessary to renew that permit or not, similarly with the application for new permits. Of course, Mr. President, the minute we have one down we get a great big invitation. This comes every day to me.

MR. SECRETARY: No, the second elected Member for George Town East. You will get your turn.

MR. TIMPSON A. BODDEN: Thank you, Mr. President. The Member elected that he is still prepared for supplementaries. I think if I may say, Mr. President, arising from the supplementaries the question is not have whether the contractor can have the authority to use his people under his employment. The question is that there are many Caymanians available for the jobs which are being filled by people on work permits. I wonder whether the Member would state whether these contractors should be allowed to employ individuals on work permits when there are local qualified Caymanians available and what is being done to remedy this problem?

MR. SECRETARY: I really think that this has been answered already. It has been said that the Immigration Board takes steps to ensure that each application for a non-Caymanian whether new or renewal is scrutinized. So, unless you can explain to me why that has not been answered? Alright, you tell me.

MR. LONFORD A. PINEAU: Yes, Sir, I would be happy to. The Immigration Protection Board comes into play when an application is made to it. I am here speaking of where a contractor has already received a permit for someone and the job for which that individual was employed has been completed. Now, that person may have six months to seven months to run on that permit, and rather than working that individual back after that particular job has been completed, that person is held and the qualified Caymanian is deprived of filling the position in another job. That person is just transferred and the Protection Board would hardly be aware of this unless this is brought to their attention.

HON. JAMES M. BODDEN: Mr. President, I think that I got the point but we have to bear in mind that these sub-contractors are local people and they do not stay at one job all the time. If they have a sub-contract done at the first to do a particular job, when that is finished they probably have two or three other jobs lined up and they take their workforce there. However, Mr. President, I am aware that any Caymanian who has gone to that position looking for work recently has got it, Sir.

MR. CHARLES E. SHEEHY (CONTINUED): At least fifteen people from Queen Anne, because there is nothing going on down there, have applied to them for jobs and got them right away. I think that if these people who are out of jobs here in Grand Cayman went there, they might get a job immediately.

MR. PRESIDENT: The Second Elected Member for West Bay North. He has been waiting a long time.

MR. W. MCKEEVA BUSH: Yes, I waited long enough because it was my question and I should have immediate reply. Anyway, Mr. President, it seems that my question is not going to be answered. My question is will Government get involved in some to what effect? It seems that the sub-contractors are the culprits and the Member is saying that they have to conduct their sub-contractors. So, my question is not going to be answered but some how under will come out of it. Sir.

MR. PRESIDENT: I see. You are making a statement. You are not asking a question now, it seems to me. The Third Elected Member for West Bay.

MRS. LUCILLE E. CONOLLY: Thank you, Mr. President. What I would like to ask if the Member, Sir, is how does the Immigration instruction stand where they a local sub-contractor applies for the renewal of a work permit for a non-Caymanian employee, that the Immigration Department merely know that that contractor has finished the project. Does Government give the opportunities local the local people, or like it is that Immigration Department is assured that there is no local person available for that position, since with most positions, any for instance the night engineer, I see no advertisements in the paper for many of the jobs which would be available on that sites. Would the Member be able to state how the Immigration instruction stand....

MR. PRESIDENT: I think that the Member has asked the question. You do not have to ask it three times each with different words.

MRS. LUCILLE E. CONOLLY: Alright, thank you.

HON. TRUMAN M. BODDEN: Mr. President, in most cases they make their returns and a started history with the Labour Office is kept, so that if a person is applying for a work and the Labour Office has a Caymanian with that qualification on their list, the applicant is told to go and have that person. That is how it is done, Sir, and the Labour Officer, without any votes attends the Immigration Service meetings.

MR. PRESIDENT: I am sure that the tape is running now. But I do not think that Members would wish to waste their questions without a tape. I think we should take our morning break. We are a little bit late. It is a question though of whether, having finished our morning break we should then complete the rest of the questions. I suppose so. We have suspended Standing Orders to do so. Those were the terms of the suspension. So let's we suspend proceedings for about ten minutes, and we will continue questions thereafter. We have not finished with the supplementaries to this question yet, you may recall counsel.

MR. EASTLAND (CONTINUING): I did desire Members, as I indicated to despite Members to submit their questions in paper which I distributed copies of. If Members would care to make such inquiries for the Committee hearings before having office and refreshments, I would be grateful.

AT 11:30 A.M. THE SENATE RECESSED

AFTER RECESS AT 12:00 P.M.

MR. THURMOND: Please be seated. Proceedings are resumed. Questions. Are there any further supplementary questions to question No. 100? The Senior Elected Member for Georgia Mr.

MR. RUSSELL B. LONG: Thank you, Mr. President. This morning we were being asked what the knowledge that the Member is still employed for these assignments and if anyone else of the subcommittee questions. Would the Member state why were the heavy equipment and the heavy equipment operators without take the initiative to do the necessary work on the Ryan Road when there are heavily qualified operators and heavy equipment available?

MR. RUSSELL B. LONG: Mr. President, I see and now that I made a mistake in saying that I was well prepared. Really, I do not even know that they have heavy equipment here or I am not in a position to answer that one at all.

MR. EASTLAND: I think that supplementary should be limited to the questions, but if you do not know whether there are any operators perhaps work scheduled....

MR. H. RUFUS BOWLES: Mr. President, may I ask the Member if the Organized Environment would especially studied the site or had some investigation made to determine whether the fifteen people which the Member mentioned are employed out the daily commutable area the high probably within which he grew up, such as Pitts, perhaps managers and construction engineers, and to find out whether these people are actually doing jobs which local employment could do?

MR. RUSSELL B. LONG: Mr. President, I really do not think that the Department Protection Board has studied the site, Mr.

MR. H. RUFUS BOWLES: Mr. President, I wonder if the Member would give the Senate an understanding, even if it is possible to the Senate, work permits granted to people in the fields of common labour such as carpentry and carpenters should be limited to the specific building. I think part of the problem is that Department goes out of town when they give one a work permit for a year. When the applications are made there are no Department available. However, in the Atlantic parcel between the main Courthouse block they have moved on to another building, there are Department who are out of work and could fill the posts.

MR. DENNIS R. EDGERS: No, Mr. President, I believe that's all the questions I have. This is a motion for the record. I just wanted to show that undertaking like that and I will say again, Sir, every local undertaking from this, as I understand it, the rest of next year they have to get a permit for a project, and then for two weeks and send them back. These permits cost money.

MR. LEONARD A. STAVISKY: Mr. President, a further supplementary, would the Member give the undertaking that we will look into the problem of sub-contractors or construction trailers be ready equipment operators where there are available classrooms?

MR. DENNIS R. EDGERS: Yes, Sir, I will instruct the Department of Education Board to be most careful and cautious on these heavy equipment operators. Again, there is an exception for an operator who is out of a job. We ask go to the Parking Office and say that he is out of a job and there are plenty of classrooms there. So that makes a compromise.

MR. SPEAKER: The next question. The Elected Member for South Side.

THE SECRETARY READING HIS QUESTION PUT TO HON. THE ENVIRONMENTAL PLANNING MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR TRANSPORTATIONS, WORKS AND SUPPORT SERVICES

No. 101: Would the Honourable Member state the cost of work done on private drive-ways from inception year up to 31st August, 1985, giving a breakdown in the most for this and every application?

ANSWER: The Public Works Department has in recent years upgraded residential roads falling into three categories:

(i) Public roads, in sub-divisions and traditional residential areas;
(ii) Private roads, in sub-divisions; and
(iii) Turnings roads in established residential areas.

The necessity to upgrade private roads in sub-divisions arose from the absence of adequate regulation of sub-divisions until only a few years ago. There remains a substantial backlog of this work to be done.

Private roads in traditional residential areas are also increasing. All such roads serve more than one household. While the Department does not have complete records of the expenditure on each of the individual categories, total expenditure on residential roads from 1st January to 31st August, 1985, was $124,000. Of this amount, $3,500 was expended on the upgrading of three (3) roads in Blocks 14C and 22D, North Side, falling under category (iii). The estimated cost of the upper and main element of these projects was $1,000.

SUPPLEMENTARY:

MR. E. SPENCER MILLER: Supplementary, Mr. President. Does Government have to consider the views of any of these private roads in their policy to be any attempt made to preserve any of the cost?

HON. MRS. CHARLES E. STEPHENSON: Mr. President, the cost of the upkeep and any element as mentioned is the last part of the question. Any policy to try to recover this from the people whose privacy roads.

MR. E. SPENCER EVANS: Mr. President, a supplementary, Mr. Could the Member say what does Government determine to be a private drive-way or a private road?

MRS. CHARLES E. STEPHENSON: I think that the Member asked what does Government determine to be a private road?

MR. E. SPENCER EVANS: What does Government determine to a private road or a private drive-way?

HON. MRS. CHARLES E. STEPHENSON: Mr. President, a private road is one which is owned by an individual and a private drive-way is one which is owned by a private individual and the Government has not taken over the private road. There is an agreement to a certain standard this is what one requires to be the answer here. Government have been approached and that before they would take over the private road it has to be brought up to a certain standard by the Chief Engineer of Public Works Department. There is done to receive a private road.

MR. SPEAKER: The Third Elected Member for West Bay.

MR. OSBORNE E. SANDS: In the answer just the Member were it that private roads in predominantly residential areas were done properly, and this road already more than one household. Would the Member be able to say, although I am not aware of what Steps it and that Board took any, whether or not these particular roads did in fact come into existence?

MRS. CHARLES E. STEPHENSON: Mr. President, my duty to say is not aware more than one individual household. It was the responsibility while the drive-way was built. This was done, Mr. President, as I understood it, on a basis in connection between the subscribers of roads and the Government here.

MR. JOHN B. MCLEAN: Mr. President, I wonder if the Member would state exactly, although I know that he has answered and the Hon. Member here, what part of North Side is it? Is it old Man Bay, North Side or what exactly?

MRS. CHARLES E. STEPHENSON: Mr. President, All Age Bay.

MR. SAMUEL E. JACKSON: Just one more supplementary, Mr. President. I wonder whether the Member would be able to say at this stage whether it just simply will be made to preserve the concrete expended on those three roads, even although there might have been a breakdown in communication between the road subscribers and the Government.

MR. PRESIDENT: I think that the Member has answered that adequately. It was said that an attempt to postpone the matter would be made. Perhaps you did not hear him but he said that.

HON. EARNIE L. GRIFFITH: Thank you.

MR. PRESIDENT: If there is no further acknowledgement we can move on to item 6. Second Reading. I think that there is probably time to make a start on this also.

STAR

THE PUBLIC FINANCE (PROVISIONS) BILL, 1985

SECOND READING

CLERK: THE PUBLIC FINANCE (PROVISIONS) BILL, 1985.

HON. SPEAKER: The Honourable Third Official Member.

HON. LINDSAY K. THOMPSON: Mr. President, I move the Second Reading of a Bill entitled a Bill for a Law to provide for the control, management and audit of the public finances of the Cayman Islands and for incidental and connected purposes.

Mr. President, as I said yesterday in winding up on the Consolidated Collection of Customs Duties Bill, 1985, which is certainly taking place in the Cayman Islands, and as must appear not only now today, but has appeared since then.

When I moved the Budget, Mr. President, just as an example, in 1981, the Budget for that year was approximately $25 million dollars. The revenue in that Budget was approximately $8 million, the difference being made up of loans and development aid from the United Kingdom. There was approximately two Civil Servants and the Treasury staff in those days was comprised of 11 officers. The audit of Government accounts was carried by the Auditor-General of Jamaica. Additionally, Mr. President, that Island's responsibilities at that time was the administration, and the legal tender in the Cayman Islands was Jamaican dollars.

To make a comparison between that time and the present, Mr. President, it is quite obvious to all that our Island's responsibilities in the Treasury, the Revenue and Audit was carried out by Auditor-General in 1982, paid for from the funds provided by the public. The Cayman Islands dollar is now legal tender and have been since May, 1972.

The current Budget is approximately $85.5 million and there are now approximately 1,370 Civil Servants. The Treasury staff is now comprised of 16 officers.

However, Mr. President, we spend more than education. We have been $8 million to $18 million, while the Treasury maintains dealing with the collection of revenue, processing of expenditure and possibly the responsibility of accounts has only increased by four officers.

Mr. President, shortly after I entered the Service there were talks of the need to enact legislation to deal with the control and management of public finances. Sorry, Mr. President, it is on this - it might help on the piece when she was a wee lad or man, "Better late than never".

Mr. President, the control of public finance and responsibility in the Cayman Islands is presently prescribed by Colonial Regulations. These regulations are predominantly drawn by the Crown through the Secretary of State for the Foreign and Commonwealth Office.

MR. THOMAS K. HODGKINSON (Urban Council): Mr. President, I am in favour of the Bill which has been moved by the Attorney General. I am in favour of it because I think it is a very necessary piece of legislation. I am in favour of it because I think it is a very necessary piece of legislation. I am in favour of it because I think it is a very necessary piece of legislation.

MR. CHAIRMAN (CONTINUING): In the meantime, Mr. President, Sunday 10th, while the Act is not in effect, certainly the Chinese can be used as guidelines when discussing the Bank. It will also enable us to look at the structure of the Treasury and to ensure that it has adequate manpower, not only in numbers but also in quality, to oversee a smooth implementation of this piece of legislation which we are considering today. We will be seeking also, Mr. President, to establish an Internal Audit Section in the Treasury. We will also try the Auditor-General to get on, as I am sure he wants to, with a computer audit whose be completed to Government pending a dollar's value for a dollar spent. Besides that the exercise which an internal auditor usually carries out, which is making sure that payments are properly made and properly documented, and records properly documented, posted and accounts prepared accurately.

Clause 2, Mr. President, seeks to provide that, except where otherwise provided by law, any money received be raised for the purposes of the Government shall form part of Revenue.

Clause 3 seeks to provide that no expenditure shall be charged to Revenue except by or under law.

Clause 4, Mr. President, deals with annual appropriation, that is the Budget, and with the presentation of the Budget to the Legislative Assembly, and the following clause 5 also deals with the Appropriation Law which is still known as Government Expenditure with the Budget Speech that is now commonly known as the Budget Session.

Clause 7 provides provisions for the authorisation of necessary expenditure in advance of the Appropriation Law. This is a clause to give Government to deal with urgent matters where Government needs to make payments before the Appropriation Law can be brought to the House.

Clause 8 and 9 respectively seek to prescribe the manner in which charges may be made to the Consolidated Estimates of Expenditure and, in the event of any excess expenditure arising from those charges, for the presentation to the Legislative Assembly of a Supplementary Appropriation Bill. This is mandatory, Mr. President, but it is considered necessary to have it in these clauses.

Clause 10 seeks to provide that subject to law, the Financial Secretary shall have the management, administration, control and direction of the Government's financial affairs.

Clause 11, By the enabling power to confer on the Financial Secretary the power to make administrative regulations and to give administrative directions and instructions for the better carrying out of those responsibilities.

Clause 12 seeks to make provision for the powers, duties, responsibilities and accountability of Controlling Officers in relation to expenditure and also public property under their control.

Clause 13, Mr. President, provides for the duties and responsibilities of the Accountant General. We will be seeking in due course, Mr. President, a new designation from Chief Accountant to Accountant General. The reason for this is because the Crown will also be responsible for the income/Audit Section as well as a small training section dealing with finance. This is not to say, Mr. President, that we are going to have a training section in addition to the Government training section, but someone in Revenue Department should be responsible for training.

PART IXXXVI - CONSEQUENTIAL PROVISIONS: Clauses 81 through 84 seek to give power to the Financial Secretary to make adjustments and to revise payments from public moneys. Clause 85 seeks to provide for the winding up of the Consolidated Fund Account and to revise payments from public moneys.

Clauses 86, 87, 88 and 89, Mr. Speaker, Sir, deal with the borrowing and investment of public funds and seek to provide the Secretary of Treasury and the Ministry of Finance by the Government. All Memorandum Numbers are source of that borrowing for those expenditure.

Clauses 90 and 91 seek to provide for the authorisation by the Legislative Assembly, of payments and special expenses accounts.

Clause 92, Mr. President, provides that all authorities for expenditure given in respect of a financial year lapse at the close of that financial year, which most of the people of this country, if not all, realise. The funds provided in the 1985 budget will lapse at the end of that year and will be the 1986 budget which is due for presentation in the latter part of November, this year.

Clause 93, provides to enable the appointment of an Auditor-General and by clauses 94 and 95 the new penalty of torture and of salary to enable him to exercise freely the duties and powers of his office. Clause 96 continues to deal with the Auditor-General in the employment to the constitution applicable to other public officers and clauses 97 and 98 make provision for the setting up of a Ministry of the responsible officer, that is the Auditor-General's post itself.

Clauses 99 and 100 prescribe the duties and powers of the Auditor-General and clauses 101 and 102 provide for the appointment of staff to assist him in these duties and the exercise of those prescribed powers.

Clauses 103 to 105, Mr. President, seek to provide for the disposition of casual vacancies by the Governments Council to the Auditor-General within a specified period of time for the Auditor-General to vacate his office. Clause 106 seeks to provide for the submission of these annual accounts and special reports by the Auditor-General to the Legislative Assembly and for these reports to be considered by the Public Accounts Committee of the Legislative Assembly. Clause 107 requires the Auditor-General to report to the Legislative Assembly any matter which in his opinion constitutes a serious irregularity in the accounting for public funds or public property.

Clauses 108 through 111 seek to make certain regulations regulating the audit and examination by the Auditor-General under him or on the authority of the Government, or corporate persons, bodies corporate or other bodies. Clause 112 would enable fees to be charged by the Government in respect of certain audit inspections by the Auditor-General or to be paid by the Government in respect of audits inspections by outside persons on its behalf. In the Public case, Mr. President, the Financial Secretary determines the fees. It is well and that throughout the Legislative there are checks and balances in the system.

Clauses 113 through 118 seek to make provision in certain circumstances for the surrendering of public officers, for the appeal by public officers against their being dismissed and for the publication of summaries.

HON. THOMAS R. <u>HARRISON (CONTINUING)</u>: Clause 48, Mr. President, authorizes the Executive Authority to establish rules governing the use of public places and public property, subject to such conditions, exceptions and limitations as may be specified by the Standing Committee of the Legislative Assembly. Clause 50 would give similar unfettered authority to the Standing Committee to dispose of Government stores and personable property.

Clauses 51, 52 and 53, Mr. President, seek to give power to the Governor to issue directives to public officers under the Law, to clarify the operation of the Law in relation to trusts, and to make certain transitional provisions.

Lastly, Clause 54, Mr. President, will repeal the existing Audit Law (Revised).

If you will allow me to proceed a bit, Mr. President, Clause 45 which basically reads:-

> "(1) Notwithstanding that he is not empowered by any law to audit, examine or enquire into the accounts of a person, body corporate or other body, the Auditor-General may audit, examine or enquire into the accounts and records of any person, body corporate or other body if -
>
> (a) he is authorized in writing to do so by the Government or the public authority; and
>
> (b) in the opinion of the Auditor-General, such audit, examination or inquiry will not interfere with the due performance of his duties and the due exercise of his powers under this Law."

Subsection (2) of that same section 45, Mr. President, reads:-

> "(2) Where the Auditor-General undertakes under subsection (1) the audit, examination of, or inquiry into the accounts and accounts of any person, body corporate or other body, he -
>
> (a) shall have the relation to such persons, body corporate or other body, the functions, offices and employees who were likewise engaged or employed or had by statute 30 and 32 in relation to public moneys, stamps, securities, stores and any other public property;"

Clauses 50 and 51, Mr. President. Clause 50 deals with the duties of the Auditor-General and Clause 51 deals with the powers of the Auditor-General. Leading on to Clause 50(1)(b), Mr. President, it says:-

> "any authority in writing any qualified accountant or any public officer to audit, examine or enquire into the accounts and accounts of such persons, body corporate or other body and require the authorized accountant or public officer to report thereon to the Auditor-General in such manner as the Auditor-General may determine;"

and the proviso, Mr. President:-

> "PROVIDED that any such authority to a public officer shall be subject to the approval of the Head of the Government Department or office in which the public officer is employed."

MR. JAMES C. ANDERSON (CONTINUED): I realize, Mr. President, that clause 45 could be misunderstood; could be misinterpreted. So let me try to illustrate why it is here. Clause 45 gives power or access the Solicitor-General to his respective duties, and let me just remind me, that we are dealing with Bayer Aircraft, an Auditor-General has a supervisory function and he carries out this function by making inquiries of the auditees of Bayer Aircraft about the financial affairs, if necessary going into details of the accounts themselves. It is the power of the law which gives him that authority to do so. I think that without that section he will be seriously worst changed.

Consequent upon amend that accounts, Mr. President, with persons. Clause 45 gives the Auditor-General the authority, when it is deemed to be necessary and in the public interest, to audit the changes of the respective persons. I have a list example, Mr. President, but I do not want to use it in this particular case.

Let me start with subsection 1a to 1aa). Government gives away powers. Government has recently made many loans available to people. It gives the Solicitor-General the power to go in and examine the books, even if it is a change book, of the respective auditor in granting applications. We may give money private to those in need. Or perhaps it might be interest-free available where Government gives lots of money from time to time, that is a sum of $20,000 to $40,000 every year. So we want to lots of money.

It was also for, Mr. President, that a controlling officer, let us say the person who has not paid the Ringgit, or he can take it further and say now he is misappropriated the Government funds which were in his personal interest. This section gives the Solicitor-General the authority to inquire into that person's account.

Perhaps with those brief illustrations of clause 45, Mr. President, it may become more clear to some Members. Maybe I am misunderstanding it. Maybe they misunderstand the whole thing.

Under section 57 which deals with inspection of document persons, which is an omission, Mr. President, but in my view it needs to be here, an illustration of this is where a Government officer is misappropriating the Government or he commits theft. And before we can recover the funds the person dies, we want the ability to get our money back, nothing more, nothing less. So, Mr. President, Sir is the reason for clause 45 and I support this clause.

Thank you very much.

MR. SPEAKER: The question is that a Bill entitled "Bill for a law to provide for the creation, management and audit of the public finances of the Cayman Islands and for connected purposes be given a Second Reading. The motion is open for debate. However, before we debate it I think personally, we are a little bit late in suspension than today, so I suggest that we suspend then until another later than 2.30 p.m., perhaps a little bit before 3.30 p.m. We do not want to rush the explanation for those.

AT 12.55 P.M. THE HOUSE SUSPENDED.

HOUSE RESUMED AT 2.30 P.M.

MR. SPEAKER: Please be seated.

Second Reading of the Public Finance and Audit Bill, 1995. Does any Member wish to speak? The Second Elected Member for Savanne Town. Do you mean that you are going to be speaking out of the side of your mouth? (LAUGHTER)

DEBATE ON SECOND READING

MR. LEANDRE J. PLANTEUR: Not before it is time, Sir. Mr. Speaker, it gives me much pleasure to support this Bill. As a past Member of Her Majesty's Civil Service, and having filled a number of positions in the financial sections of the Service I can, more than many, appreciate the necessity for this Bill.

For many years, Mr. President, we depended on the Customs Department to accept us, which they did in a very good manner. However, as the result of the Bill mid this morning, Mr. President, we are a growing country and what was good for us twenty years ago is perhaps not adequate today. Since the United coming into effect of the relevant sections of the Colonial Regulations applicable to our audit and finance, our revenue and disbursements have grown tremendously. Mr. President, the arrangements under which the public finances of this country were controlled as contained in the Colonial Regulations were somewhat inadequate, as were also the guidelines contained in the Audit Law (Revised). However, Mr. President, I would not go so far as to say that they were totally outmoded.

If a little time is taken, Mr. President to compare the contents of the old Audit Law with those of the Bill before us it will be seen that much of the new Bill is lifted from the old Audit Law (Revised).

Notwithstanding these remarks, Mr. President, with the exception of a few points which I will raise, I feel that the Public Finance and Audit Bill is very comprehensively prepared, and it can very well be endorsed by the House, the honourable Third Elected Member of Executive Council.

I would also ask, Mr. President, to please me record my congratulations to Mr. Gordon Lyte, QC for the invaluable contribution which he gave in the preparation of the Public Finance and Audit Bill, 1995, which is before us. Of course, Mr. President, it goes without saying that the Financial Secretary and the Auditor-General were very, very much involved in this exercise.

Mr. President, the cover of the Bill runs through 62 sections, each section of the Memorandum of Objects and Reasons very carefully and it would be unnecessary repetition to go over those sections again. As I said, Mr. President, upon the completion of one or two reading I find that we have a very, very good Bill before us.

One of the sections, Mr. President, which gives me a great deal of concern, but which I have made note of, is section 32. I believe, Mr. President, that this is to enable the Government, but now enable which the Government proposes and Administrative Manual. However, section 32 which is appropriate the Auditor-General and sections 33 and 34 seek to give security of tenure, otherwise term means. I believe that in the section of the Bill that is to come that the public officers who holds that great office enjoy the security which carries within the position of Auditor-General.

MR. [illegible] (GUYANA): It does not elaborate on this particular point, but section 33 reads:-

"(1) A person who is appointed under section 32 as the Auditor-General -

(a) shall hold that office during good behaviour."

This is the only mention, Mr. President, of security of tenure and I enquire what this is meant to mean.

Mr. President, whereas we said it was considered an inner safeguard to provide the duties and powers of the Auditor-General. It should be noted, Mr. President, however that security that were related specifically to the Auditor-General of the Cayman Islands Government, and not to maintaining generally, because within the previous section, Mr. President, the public officer under which one standards and principles be laid down through these functions and by the organizations body which they are associated with. Incidentally, Mr. President, there is not conflict with the laws of the land.

Mr. President, throughout this Bill it is proposed that appointments be done with regard to the Auditor General but to be with the prior approval of the Secretary of State. Section 32(2) stipulates:-

"The Governor, with the prior approval of the Secretary of State, shall appoint a person to be the Auditor General."

In another number of cases, for instance in section 32(3)(b)(iii), it also states that whatever is done by order is undoing by the Governor must be made with the prior approval of the Secretary of State. Perhaps this is the procedure to be dealt with the Auditor-General but it would seem that it is giving the Auditor-General a very unique position envisaged that whatever order which the Governor may wish to impose would have to be done with the approval of the Secretary of State. Perhaps, Mr. President, the words of the Bill would clarify these points.

Mr. President, before I speak further I would like to comment on clause 40 which seeks to provide for the submission to the Legislative Assembly of annual and special reports by the Auditor-General and a report by the Public Accounts Committee of the Legislative Assembly. For clarity, Mr. President, I would wish to point out that the guidelines, terms of reference of the Public Accounts Committee are specifically contained in Standing Order 74. This is just for clarity.

Sections 40 through 49, Mr. President, were clarified in detail by the mover of the Bill. These sections did give me some concern, but the mover of the Bill took time out this morning, in particular to go over the contents of section 45. Section 45, Mr. President, deals with audit surcharge or penalty from accounts of public officers, auditors, ratified by law. However, in discussing this matter with the mover of the Bill I was assured that this was not necessarily applying to the private sector in the ordinary course of events, but only where, if ever, criminal activities. It would normally apply in cases where Government has offered or given subventions to various bodies or individuals.

It must be taken and understood, Mr. President, that the Auditor-General could not normally apply to the officers of a company registered in these Islands and audit the books of that company, unless there were very good reasons and reasons to do so.

MR. LUCKHOO (Guyana): Mr. President, this Bill as I said, is very, very long section. It is a very, very good Bill and I have no hesitation or reservation in supporting it. I would just like to say, however, in saying it was good that it was time that this old model was changed. I do not know where he got this phrase from. Previously he did say that an old maid said in the place which she was in her room, "Better late than never". I would suppose the power to supply that even though this Bill has taken a very, long time to come to this House, that it is better late than never.

Mr. President, I give this Bill my unlimited per cent support.

Thank you, Sir.

MR. PRESIDENT: Does any other Member wish to speak? The Second Elected Member for Golden Fern.

MR. G. BEST GOODEN: Mr. President, I would like to congratulate the mover of the Bill on the presentation and also the very edition of this Bill. My feeling is that the Bill simply puts into text what has been customary here over the years, although some of these duties have already been assumed by an enabling Act.

There are, however, provisions in which I find too much power is given to the Financial Secretary, and too much power is given to the Auditor-General. However, I will only take one example of each case. My opinion of the Bill briefly pointed out the power given to the Financial Secretary to authorize the salaries of a person who has died; to authorize the personal representation of such a person. I think that the section is just wide. This should not be in the hands of the Financial Secretary. It should only be done through a court because, in some instances the personal representative may be simply minor children. If parents who had minor children I do not think that the Financial Secretary should step in and say, "because your father was this many and he had overdrawn his, you must pay", and take away the funds from those children in that manner. It should be done through the court in the normal process when the will is probated or if there is no will, when the letters of administration are taken out.

The second item which I want to mention is the power given to the Auditor-General under clause 32(3). Clause 32(3) says:-

> "In the performance of his duties and the exercise of his powers under this Act the Auditor General shall not be subject to the direction or control of any other person or authority."

I think that that power should only be given to Almighty God. We said that power corrupts and absolute power corrupts absolutely. Like everybody else, the Auditor-General must be answerable to anybody, because what happens if the Auditor-General is malfeasance-minded is that first come first serve. The first part of subsection (3) of section 32 says:-

> "The Auditor General shall not be subject to the direction or control of any other person or authority."

Now, how can he function at all if he is not subject to direction from somebody?

MR. H. LEWIS BOOKER (CONTINUING): Let us take this case of private ambulance in the Peterborough area. If a businessman gives cash to Lions Ambulance or one of the other philanthropic firms, the businessman must only say, "I want you to credit my Income". They must say, "Those are the books. This is the company I want you to credit". If there is any significant reason for the money to finally be withheld out of the terms of preference given to the auditor, in this case of the Government auditor, there must be some discretion given somewhere so that he knows what he has to say when he looks for it. This person has wondered because of what such discretion is, or what he is to do.

In fact, it would seem to me that this section could even exclude him from this role, because this is an auditor. This section seems to give him additional powers not subject to the discretion of anybody or any authority. Here, the second part of subsection (3) of section 32 might limit the Auditor-General still not be subject to the control of any other person or authority. Here again, this could become the right, or would be subject to arbitrariness, if it is given the power by the Secretary of State's. Reinforce more those additional powers.

I know, not being an auditor myself, that auditors need to have their independence. They ought to be able to function independently without any political harassment, without any unnecessary fear from the Civil Service. They need to be able to exercise discretion on the work of accounting and income would be important. So, I feel that this section is far too wide, particularly when it says that he cannot be subject to directions. I understand the need for his independence, but I feel that it is wrong to give to any member from the executive powers which can prevent him from doing his duties.

While I have spoken at some length, I would just like to point out what I think is a deficiency in the Bill. Subsection (3) of section 32 will not get any support from me because I believe that it is wrong.

Apart from these few points, I would commend again the Member for bringing the Bill, which on the face of it looks good, some better into even more.

MR. SPEAKER: Does any other Member wish to speak? The Honourable Minister of Treasury and Economics and Chairman of Management Board of Executive Council.

HON. WILLIAM G. DAVIS: Mr. Speaker, I too would like to give some credit to the sponsor. It just is a Bill which has been long due. In 1951, between the Ontario Government and the need to provide pensions and benefits for certain municipalities, Her Majesty's Government provided that a company known to us as Ontario Pensions Corporation. These provisions were made applicable to a number of municipalities which benefited the Crown in right.

In those days, these pensions regulations were seen to be very useful for our municipalities back in those days. However, as we pointed out by the nature of this Bill, they have become obsolete today.

Since 1951 and the years which followed, we began looking at the need for a municipal pension in this Province. It was largely because many other municipalities had become to Ontario were serviced by local legislation, for instance, Windsor, Port Arthur, Kenora, Sudbury and other Departments. It began to ask the question why is Ontario not serviced by a local law?

Mr. Speaker, Sir, I would like to thank the Government spokesman for giving us the assurance that the Government intends to look at the whole question of the Auditor-General's Department and to bring in legislation. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance.

Mr. Speaker, Sir, I would like to thank the Government spokesman for giving us the assurance that the Government intends to look at the whole question of the Auditor-General's Department and to bring in legislation. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance.

Mr. Speaker, Sir, I would like to thank the Government spokesman for giving us the assurance that the Government intends to look at the whole question of the Auditor-General's Department and to bring in legislation. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance.

Mr. Speaker, Sir, I would like to thank the Government spokesman for giving us the assurance that the Government intends to look at the whole question of the Auditor-General's Department and to bring in legislation. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance.

Mr. Speaker, Sir, I would like to thank the Government spokesman for giving us the assurance that the Government intends to look at the whole question of the Auditor-General's Department and to bring in legislation. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance.

Mr. Speaker, Sir, I would like to thank the Government spokesman for giving us the assurance that the Government intends to look at the whole question of the Auditor-General's Department and to bring in legislation. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance. I am sure that the House will be pleased to hear that assurance.

MAJ. MAJOR G. JONES (CONTINUING): The Bill, Mr. President, contains in my opinion, what is necessary in such legislation to control all the aspects of finance. As we said, the days of colonial finance regulations are passed. The sophistication which we see today; the varying circumstances in all aspects of financial control, all require a bill more than what we find in Colonial Finance Regulations and that is what this Bill is about. However, so far as I am concerned, Mr. President, the most important aspect of it is that we have local legislation approved by the Legislature hereafter to control all aspects of financial administration in Government.

I support the Bill, Mr. President.

MR. SPEAKER: The Second Elected Member for West Bay.

MR. K. HERBERT DONE: Mr. Speaker, I rise to support this Bill for a law to provide for the control, management and audit of the public finances of the Cayman Islands and for incidental and connected purposes.

Sir, while I say that I support this Bill which for brevity, I guess, I will call the Audit Bill, I have some reservations on certain sections of it which may need to be further explained to me in Committee stage or in this Member's winding up.

I believe that this Bill, as he said, is long overdue and I believe also that the Cayman Islands should today be in better shape if we had had this Law a few years ago.

Looking at clause 8, Mr. President, and remembering the previous administrations, I am not entirely pleased with the phrase "as soon as practicable" as it appears towards the end of clause 8. We do know, Sir, that we will always have supplementary bills but I can see no reason why such bills cannot be brought to this Assembly within six months of the end of the financial year. As far as I am concerned, "as soon as practicable" leaves the door open for such bills to show up in this Assembly two years or longer after the money has been spent.

Clause 21 of the Bill I also have some trouble with. That is, Mr. Speaker, Sir, clause 21(a)(i) where it reads:-

> "(a) to meet expenditure -
> (i) for which no provision or sufficient provision is shown in the approved estimates of expenditure,"

otherwise. I have no hesitation in giving the Financial Secretary the power specified where there is insufficient provision for the estimates. However, I must question this where there is no provision in the estimates at all. Again we do all know sometimes mistakes happen. The Finance Committee which is comprised of all the Elected Members of this Honourable House is the body charged with the control of Government spending. Except for the First Elected Member for the Sister Islands none of us live more than thirty miles away from this Chamber, and there is hardly anything which could arise so urgently, Sir, other than a criminal incident, which could not be dealt with by the normal means.

I do not believe that as Legislators we should delegate this power to the Financial Secretary, or anyone else for that matter. I am not personally casting any aspersions on him, Sir.

MR. E. HARRIS SIDE (INAUDIBLE): Now, I come to the duties of the Auditor-General. I believe that is in clause 22 of the Bill. I support this section generally, but again I have some questions on it and I have circulated my amendment to specifically cover something which has interested me since the sale of the Waterloo property during the last administration. I feel, Sir, that provision should be made in this Bill to charge the Government to seek the advice and consent of the Legislature for the sale of any Crown property. I know that a few years ago the Lady Hewer for Dundas took brought a motion which was defeated. However, I feel that this can be changed in this Bill and I feel that as Legislators would be doing the right thing. I trust that the Government would see fit to accept my amendment.

I give my support to clause 20. This section, Sir, explains why persons that the Auditor-General thinks should do or be certain way within or relations he has dealing with any public property. Again, perhaps if we had had any such power before, maybe we would not have had the Waterloo incident which I referred to. He also may have avoided the more recent incident during the previous administration of the purchase of the sawmill and adjoining the land. I do not want to go into specifics but everybody knows what I am talking about. I trust that no more in this country will there be such an abuse of public money.

If I am correct in my interpretation clause 22 of the Bill it will help to eliminate such things from happening again.

Now, Mr. Speaker, I turn to clauses 44 and 45. I support these two clauses in principle as far as they relate to public accounts. However, again clause 45(1)(a) and (b) give me some trouble, and I have brought some clarification from the Member. I also have had some legal advice on it and it does give no reason to think that what the Government is trying to accomplish in this section, and what could actually happen is something which we would not want to see. I believe that where there is enough suspicion of a person other than a public servant in connection with investigation or enquiry into that person's records, that other should come from the Chief Justice of this country and not from the Lieutenant-in-Council. I also believe that the request in any such examinations or enquiry should be made to the Attorney-General of this country. That is, Sir, providing that something is found which in the opinion of the Auditor-General would warrant reporting.

Now, Mr. Speaker, if this section is used to look into the affairs of what they are, and in my opinion is still going on with the Interchurch case and the handling of the matter by the Liquidators, then as I said earlier I could support it, because that situation is something which must look very bad. I am sure that many other Legislatures have today and in the past have been embarrassed by members of the public on the Provincial enquiry from situation. We have been asked to look into the situation but as we all know in this House, when we question anyone all we have is that the answers have to be hard and we cannot battle with the answer, which is true. However, it would seem that it is the Liquidators, Sir, of the Interchurch case who have everything in hand and people are upset at the loan situation. If this section in any way gives that there are the kind of situations which could be taken in hand or examined, then I would give it my full support. Not only the Interchurch case, Mr. Speaker, but also the International Bank, I think it was called, to be sure which as investigation there it was felt to look into those matters. Well then it has my full support. Otherwise I believe that there could be some danger in that clause, unless of course that person or body corporate, or other body which the Bill states shall be doing business directly with the Government.

MR. M. MURPHY (CORK): I hope Sir, and I trust that the Minister [illegible] will specifically withdraw my quarrel on the possibility of amending into the Estimate [illegible] Sir, I oppose this section with the acknowledging of public servants who are, or might be negligent in their duties. The elimination of this subsection is wrong as the dissemination of the Financial Secretary. However, it is within the ambit of this Bill. I feel, Sir, that no public servant will be unduly penalised. Mr. Speaker, I am no solicitor, I am not even good in grammar. However, I see the need for such a Bill.

Let me first, Sir, that people did not look at this Bill while there was not much opposition to it because I had many meetings of the public come to me and question these sections. So people are watching it. They are looking at the things we are doing and we must not forget this. A lot of people have said to me to oppose it. So what appears, Mr. Speaker, and I have opposed where opposition is needed and I will continue to do this. However, when something is good for the country as, all of us in this House must put politics aside and do what the people sent us here to do. Then we do see that they are under harass.

The Cayman Islands today are under attack. There is no question about that fact. No one knows without any doubt how the existence of the ship must be dealt. We must be wise and we must work together hand in hand to see that our ship remains floundering on the rocks, or like a house divided cannot stand.

I feel that it will be needed and I trust that we make a good law which I hope will enhance the smoothing running of the public Service in this country. I applaud the Government and the Member on the Bill's presentation.

MR. SPEAKER: I think that it may be convenient if we take our usual afternoon break before any further Member speaks. So I will suspend proceedings for approximately ten minutes.

AT 3.25 P.M. THE HOUSE SUSPENDED

HOUSE RESUMED AT 3.42 P.M.

MR. SPEAKER: Please be seated.
The Public Finance and Audit Bill, 1986. Second Reading. The Elected Member for North Side.

MR. D. EZZARD MILLER: Mr. Speaker, I too would like to express my support for this Bill and to commend the Government for bringing forward this timely and badly needed piece of legislation. I believe that under this Bill what happened to the Public Accounts Committee, for instance, over the last eight years will not be allowed to happen again.

MR. D. BRIAN NILSEN (CONTINUED): This Bill, I think, Sir, will play vested standby and protection. It will thereby reinforce the responsibility of officers involved in the financial operations of Government. It will introduce more responsibility accounting by defining areas of responsibility and reporting, and the accountability of the officers who are involved in the handling of the Government's funds to either the areas of revenue or the areas of expenditure.

I support the mover's comments that the time has arrived in Canada where the Government legislature must attempts to handle all the ramifications of the finances of this Government. These change, Mr. President, and we must change to suit the times. So as legislatures must continually change to obtain the maximum benefits for the people which we represent.

There are a few sections of this Bill however, Mr. President, with which I have some difficulty. Section 3(2), Sir, is a section which I support fully and I hope that the Honourable Financial Secretary will take new pot to change some of the Government Departments' practices into compliance including matters from the present time that system which is being used, however under the provisions made, Sir, I think that it will be easier for us to monitor the effectiveness and efficiency, and to ensure that Government is getting value for the money.

Section 8(3) is a good section. It will be very beneficial to us as ordinary members of the Legislature if we have quarterly reports from the Financial Secretary of what changes have taken place in the Accountability Bill which was passed into Law.

Section 12 gives power to make regulations and directions. I feel, Sir, that all these regulations made under this section should be subject to the approval of Finance Committee.

Again, Mr. Speaker, in section 27(2) I would like to see that some taken under this should not exceed limits which were approved by Finance Committee.

Concerning section 28, I would like to see a new section added there. While I support all of the terms of section 2 I think that in keeping with the normal hope that if it was established on internal audit department, the Auditor-General will be able to spend his time studying the efficiency and effectiveness and value for money. It may be convenient at this time to include this kind of evaluation in powers given to the Auditor-General in accordance has made.

As I said, Sir, this Bill is a timely piece of legislation. It has my support. Section 42 provides the necessarymess of things like public accounts Committee not meeting for eight years, because it lays out time frames under which the Accountant-General must present the estimates and Expense statements to the Auditor-General for his auditing. Nevertheless, Mr. President, I have some difficulty with section 28, the power to make regulations. I would be much happier, Sir, if that section allows the Financial Secretary to submit Minutes of his recommendations to the normal administrative body in Government, that is the Governor with the advice of the Public Service Commission. I think that if any disciplinary procedure, suspension or otherwise, is going to be laid on public officers, it should follow the normal and established procedures and have that authority laid by the Government on the advice of the Public Service Commission. I realise that there are safeguards there of appeal to the Governor, however. However, I just think that we should keep it in accordance with the disciplinary procedures which are already there.

MR. D. LOCKARD WILSON (CONTINUING): I support this Bill, Sir, and I commend Government on the timely introduction. I believe that this is the kind of progressive legislation which this country needs and with the exception of those few areas mentioned I offer the Bill my full support. Sir,

Thank you.

THE SPEAKER: Does any Honourable Member wish to speak? Does the mover wish to exercise his right of reply?

HON. EDWARD L. DE FREITAS: Yes, Mr. President, thank you. I would only reply Mr. President, by thanking Honourable Members for their support of this Bill and will try to the best of my ability to give explanations to some of the points raised, perhaps not all.

There was one question on clause 2 where the Honourable Member did not think that the term was grammatically very adequate, and that it were or have left it as in the Bill, I think, Sir. President, if we replace on what were place this morning, the fact that the Government's reports and the accounts have tabled in August for 1965, we will see the difficulty of saying anything different from what we have here, because it may be a year where the accounts, never mind if there is a qualified panel of view, but the accounts are late and it would be quite to say the Appropriation Law before the Parliament should receive the certification on the 1966 accounts which will show that there is a supplementary Appropriation Law. However, I can assure the Member, Mr. President, that it will not take years. It will happen as quickly as possible following the Government's completion of the accounts for the previous year.

Under section 31(2), I think that the reason for this, Mr. President, is that the Government's financial situation, current expenditure for payment". So one might argue, as the Member did mention, additional allowance. I think that is where it is an urgent that payment has to be made otherwise one runs the risk of not doing the action which is necessary to have Government from further expenditure if one looks at either, such as in the case of maintenance.

In relation to the acceptance of bond which was raised, Mr. President, I think that the matter is adequately covered under the Royal Instructions 13(1) and 13, as well as Section 40 of the Constitution. So I am not sure that raising anything in this Bill will assist us to anything differently than what we have been doing in the past.

In relation to the Second Bridge for Hope Bay and the Lagoon situation. I think that all of us are unhappy about the time which has been taken in finalizing the matter. We can only say to the Member that we will endeavour wherever difficulties which we have in trying to bring the matter to a speedy conclusion.

Some points were made on clause 12 on land, Mr. President, and I am not sure that I know my notes correctly. It deals with the estate and the land that it may be used to surrender. It may include minerals of fossils. We are not trying to deprive anyone here of any thing, Mr. President, to which they are entitled. The clause is here to separate from the waste lands which are due to Government. It would be a case where the fossil did not legally belong to the person therefore we would give a recognition to the Government estate and have the fossils returned to Government.

MR. PHOMMA P. SAYAVONG (LAO PEOPLE'S DEMOCRATIC REPUBLIC): If we abolish the Financial Secretary note would hardly there be given under another section for appeal to be made to the Secretary for Economy, who, after investigating the matter can issue a directive that a surcharge ought to be rescinded.

The power to surcharge under section 32, Mr. President, is not unlike what is in force at the present time, because if we research these colonial Ordinances which we are talking about and which have been in existence for many years now which served us well in the past, Mr. President, I am not saying to say anything different, regulation 32 reads:-

> "If it is by the public accounts committee, have by reason of the negligence or fault of an officer he will be liable to be surcharged with the amount."

I think that is more or less what section 32 is all about in the present Bill before us, and I have no personal reasons to be heard this regard. Neither do I have any personal reasons to deny to executive power unless it is justified, and unless I can convince other people that it is fair and equitable to government and to the public whose money we are dealing with.

I would also like to go on record in the statement, Mr. President, as I mentioned this morning when I read the constitution of 1971 and what was taking place in those days as compared to today, I did not mention that in those days in that year the term expired until 1975, the Auditor-General of Jamaica submitted the document under here. I would like to place on record the information available for the records some other the people, the personal relationship which developed over the years between the Finance Department and the Auditor-General's Department, and also to say that I have never had any difficulty at all with any of these persons with whom I came across. No certainly will be indicated to place on the history books of the Cayman Islands for as long as this world goes on.

On section 32(2), Mr. President, dealing with the powers of the Auditor-General, I am asked to try to clarify this matter. Perhaps it is something which the Cayman Islands are not accustomed to, after all, we may able to compare it to other countries simply because we do not have the public finance legislations of many developed Commonwealth countries within our means of research. However, section 32(2) really says that in the performance of the Auditor-General's duties and the exercise of his powers under this Bill, the Auditor-General shall not be subject to the direction or control of any other person or authority. I think that is right, Mr. President. If the officer is carrying out the performance of his duties without any particular matter, he must be left to his discretion as to how to complete that assignment and should not be given instructions by any other person as to how to complete it, what to say in his reports, reviews.

If he misbehaves, Mr. President, and if he is not keeping with the clause which says that he will vacate the office on good behaviour, if he does not maintain that then he is subject to be dismissed. All Members have read that particular clause and know what it says.

Mr. President, in closing I thank all Honourable Members for their support and I am sure that we have given very useful history in the books of this Legislature which this present Bill

MR. PRESIDENT: The question is that a Bill entitled a Bill for a Law to provide for the control, management and audit of the public finances of the Cayman Islands and for incidental and consequential purposes, be given a Second Reading.

QUESTION PUT: AGREED. BILL GIVEN A SECOND READING.

MR. PRESIDENT: Bills. Third Reading.

THE PUBLIC LOANS (AMENDMENT) BILL, 1988

THIRD READING

TITLE: THE PUBLIC LOANS (AMENDMENT) BILL, 1988.

MR. PRESIDENT: A Bill for a Law to amend the Public Loans Law be deemed to have been read a Third time and do now pass for Second Reading.

SECOND READING

TITLE: THE PUBLIC LOANS (AMENDMENT) BILL, 1988.

HON. THOMAS C. JEFFERSON: Mr. President, I beg to move the Second Reading of a Bill entitled a Bill for a Law to amend the Public Loans Law (Law 20 of 1978).

This Bill, Mr. President, is a short one. The purpose of the amendment is to substitute the "Cayman Islands Currency Boardthereon mention 13 of the Public Loans Law for the "Government Savings Bank" in the first line of section 13, and also in the marginal note, and the "Board", which is the Cayman Islands Currency Board for "Bank" in the third line of section 13. So, Mr. President, if we were to read the amendment, assuming that the Bill is passed, in section 13, the new section 13 would read:-

> "The Governor may appoint the Cayman Islands Currency Board as its official banker for the loans and management of public loans and as manager of the sinking fund and the Board as banker may issue and guarantee Government securities in the open market."

The Public Loans Law, Mr. President, gives authority for borrowing. It sets out the requirement of setting up sinking funds. It provides for the Government to issue necessary bills and in this case the Currency Board is being substituted as banker for the Government, instead of the Government Savings Bank which has been wound up.

Thank you, Mr. President.

MR. PRESIDENT: The question is that a Bill entitled a Bill for a Law to amend the Public Loans Law be given a Second Reading. The motion is now open for debate. If no Member wishes to speak I will put the question.

QUESTION PUT: AGREED. BILL GIVEN A SECOND READING.

THE COURT OF APPEAL (AMENDMENT) BILL, 1988

FIRST READING

CLERK: THE COURT OF APPEAL (AMENDMENT) BILL, 1988.

HON. PRESIDENT: The Bill entitled a Bill for a Law to amend the Court of Appeal Law be deemed to have been read a first time and is set down for Second Reading.

SECOND READING

CLERK: THE COURT OF APPEAL (AMENDMENT) BILL, 1988.

HON. HUBERT J. HYDES: Mr. President, as all Members of this Honourable Assembly are aware, under the 1972 Constitution, the Court of Appeal for these Islands was the Court of Appeal for Jamaica. That situation continued until after the amendments made to that 1972 Constitution in 1984 by the Cayman Islands Constitution Amendment Order, 1984. There was established by the Order that our Constitution of a new Part V which consisted of sections 49 to 61(3), inclusive provisions for the establishment of our own Court of Appeal for the Cayman Islands. That Constitutional amendment and those parts establishing the Court of Appeal were duly force and effect a year ago.

It was considered at that time that it was appropriate that we in the Cayman Islands look closely at the Law pertaining to the Court of Appeal which was the 1975 Court of Appeal Law (Law 8 of 1975), which was enacted at a time when our Court of Appeal was the Court of Appeal for Jamaica. Various consultations took place with the view to the drafting and preparation of a complete and comprehensive new Court of Appeal Law for these Islands. Consultations have commenced and are presently ongoing between myself, the members of my Chambers, the Presidents of the Court of Appeal and the Judges of our own Grand Court as well as the representatives of the legal profession, with a view to getting these views, and in due course next year bringing before this House for its approval a fully comprehensive new Bill.

That being said, Mr. President, nevertheless it was felt that there were several matters which necessitated action to be taken somewhat in advance of that Bill, and it is for this reason that there is before this Honourable Assembly today this short Bill which seeks to amend our present Law to cover certain limited areas. I will propose to deal with these three certain areas in the order in which they appear in the Bill.

As Members of this House will know, in the last session there was enacted an amendment to the Summary Jurisdiction Law and also an amendment to the Grand Court Law, both of which provided for certain powers to be given to Court marshals who will have the duties of locking after and maintaining order in the Courts buildings and precincts within these Islands in which Courts sit. Since the amendments contained in clause 3 of this Court of Appeal (Amendment) Bill, 1988, follow upon the recommendations made and carried for the reorganization and increase in efficiency of our own Royal Cayman Islands Police by removing the responsibility for control and the keeping of order in such buildings from the police force, and the establishment of a system of marshals to do so instead of the police.

HON. MICHAEL F. BYRNE (NEW ZEALAND): Sir, in clause 8 of this Bill before the House it is sought to amend clause 30 of the principal Act by inserting a new subsection. That new subsection reads:-

> "(2) An officer attached to the Court as a marshal under subsection (1) hereof, in addition to the powers and duties conferred on or to be performed by him as aforesaid by the Court or a Judge or as may be prescribed by any rules of court, have -
>
> (a) the power to administer oaths to witnesses on all matters before the Court or in connection with any proceedings pending before the Court:
>
> (b) subject to the provisions of the Court Act or the order or direction of the Court or a Judge, the power without warrant to take into custody and detain any person until the rising of the Court."

This is the third new piece of the provision of powers for these marshals, and these powers are analogous to the powers which the Honourable Assembly has seen fit to grant earlier this year in the amendments the Summary Proceedings Act to the Penal Court Act, the second amendment which it is sought to make to the principal Act is contained in clause 6 of this Bill which seeks to provide a new section 6, subsection (1) into the principal Act. Section 6, subsection (2) is present in our Penal Code, and I quote:-

> "Subject to the provisions of section 8, the Court on any such appeal against conviction shall allow the appeal if the Court considers that the verdict should be set aside on the ground that it is unreasonable, or cannot be supported in regard to the evidence or that the judgment of the Court before which the appellant was convicted should be set aside on the ground of a wrong decision of any point of law or that on the ground there was a miscarriage of justice, and in any other case shall dismiss the appeal with or without variation of sentence."

It has been sought and proposed by the judges of our Penal Court, with the support and concurrence of our own new Court of Appeal, and I be explained by myself and my Ministers that the powers of the Court in relation to allowing appeals should be enlarged and brought into line with the United Kingdom powers under the 1907 Criminal Appellants Act. It is sought thereby to substitute for the subsection which I have just read, the following new subsection which the Honourable Members will see is the giving of a greater power to the Court in relation to the allowance of appeals, and is a similar provision to the appellate law appears before them appealing against a criminal conviction. The proposed new subsection says:-

> "Subject to the provisions of section 8, the Court shall allow the appeal against conviction if it thinks -
>
> (a) That the verdict of the jury should be set aside on the ground that under all the circumstances of the case it is unsafe or unsatisfactory;

MR. MICHAEL J. WOULFE (Roscommon):

(a) that the judgment of the Court before which the appellant was convicted should be set aside on the ground of a wrong decision on any question of law or

(b) that there was a material irregularity in the course of the trial,

and in any other case shall dismiss the appeal."

That second proposed amendment to new Part 2 also commend to the Members of this Assembly.

The third amendment which it is proposed to make is contained in clauses 2, 3 and 5 and before I proceed to go in detail into the provisions of those, it may perhaps be appropriate that I explain the necessity for them. They are all provisions which set out the power in the Court of Appeal of a single judge. As Honourable Members are aware, when the Court of Appeal sits and considers appeals, it is a Court of three Judges of Appeal, whilst our Court of Appeal was the Court of Appeal for Zambia, because of the proximity of that country. Because of the fact that the Court of Appeal for Zambia are in continuous session for all practical purposes, so when work could be quickly and expeditiously dispatched, and because of the quick access of access to that Court from here by reason of our geographical proximity, it was not thought that the old law and until this time that we should have a system whereby in certain circumstances a single Judge could determine certain matters, whether they are matters which do not relate to the merits of an appeal itself or the hearing of an appeal but relate to certain interlocutory or procedural matters.

The new Court of Appeal is a Court of Appeal established for Zambia also. It is a Court in which we have drawn upon the wealth and experience of judges from various jurisdictions who come from different countries in the world to sit on our Court of Appeal, but who because of that very fact cannot be quickly and promptly convened within days of time any single Judge of ours.

For that reason, Mr. President, there is a provision set in in clause 4 which is an amplification and enlargement of the very small section which was made of the powers of a single Judge in relation to hearing interlocutory applications which were contained in clause 4(2) of our old Court of Appeal Law which said:-

> "Provided that if so prescribed by rules of court one Judge may hear and determine an interlocutory matter."

That provision is repealed and in substitution is now enlarged into very similar provision to that in which says:-

> "(1) Any jurisdiction exercisable in any proceedings incidental to any civil case not involving the hearing or determination of an appeal may, as fully as may be provided by rules of court, be exercised by a single Judge in the same manner as it may be exercised by the Court and subject to the same provisions."

MR. MCCABE (Hillsborough): Mr. President, I move that the Assembly adopt the recommendation of the Committee of the Whole.

Question on adoption of Committee of the Whole recommendation:

"Those in favor—" AYE.

"Those opposed—" NAY.

"The ayes have it, the motion is adopted."

Section 3 reads:

"Appeal from single judge" Any case in the jurisdiction of a court appealed by a decision of a single judge made in the exercise of any of the powers conferred by this Act, may either from or under the direction of the Court be duly constituted for the hearing and determination of appeals under this Act and shall for all purposes be constituted by any three of the judges of the Court."

"Powers exercisable by a judge of Court" Any case in the jurisdiction of a court appealed by a decision of a single judge made in the exercise of any of the powers conferred by this Act, may either from or under the direction of the Court be duly constituted for the hearing and determination of appeals under this Act and shall for all purposes be constituted by any three of the judges of the Court."

MR. MCCABE (Hillsborough): Mr. President, I suppose that there should be some machinery and discretion to provide for a system of appeal for the determination of a single judge and at the same time to provide for cases that such interlocutory applications and similar matters could be heard expeditiously. In the new sections 29 and 30 which we propose to be inserted by this Bill, that the powers exercisable by a single judge in this Act may be exercised by a judge of the Court. The point of that is that the judge of the Court will always be present there. However, as a safeguard against any person thinking that there are any matters in determination of a single judge, there is made right to be instituted a specific power of appeal from any such decision of a single judge to the full Court of Appeal. Again, if the Honourable Members of this Assembly will bear with me I will move them, because I think that it is important that we be clear in the minds of all who are interested what the new position may.

Section 29 reads—

"Appeal from single judge" Any case in the jurisdiction of a court appealed by a decision of a single judge made in the exercise of any of the powers conferred by this Act, may either from or under the direction of the Court be duly constituted for the hearing and determination of appeals under this Act and shall for all purposes be constituted by any three of the judges of the Court."

Section 30 reads:-

"Powers exercisable by a judge of Court" Any case in the jurisdiction of a court appealed by a decision of a single judge made in the exercise of any of the powers conferred by this Act, may either from or under the direction of the Court be duly constituted for the hearing and determination of appeals under this Act and shall for all purposes be constituted by any three of the judges of the Court."

Mr. President, Sir, I commend these above amendments which by be cought to order to the Court of Appeal Act of 1970 to the Members of this Legislative Assembly. As I said when I started, many years after careful thought and after consultation with all parties it is my intention to bring before this House a new Court of Appeal Law. In the meantime, with our own Court of Appeal of the Cayman Islands firmly established and working in a manner which is seen to be fair to all, it is thought fit and proper that we should bring in provisions to enable it to be seen by the public at large and by all persons who are affected by it, that justice shall not be delayed, because justice delayed is justice denied. These provisions will go to place off interlocutory matters and minor matters but will still keep a right of appeal to the full Court against such determinations which are presently not determinative, and will now be a right of appeal when it comes here to get to the merits, to the substance and to the hearing of the appeals themselves.

Mr. President, Sir, I commend the resolutions of this Bill to the House.

MR. PRESIDENT: The question is that a bill entitled a bill for a law to amend the Courts of Appeal Act be given a Second Reading. The motion is open for debate. If any Member wished to speak I think that we should hold the debate over until another day. If no Members were ready to speak, then I can put the question now. Nobody catches my eye. I will put the question.

QUESTION PUT: AGREED. BILL GIVEN A SECOND READING.

ADJOURNMENT

THE HONOURABLE R. SCOTT: Mr. President, I move the adjournment of this House until 10.00 a.m. tomorrow.

MR. PRESIDENT: The question is that this House do now adjourn until 10.00 a.m. tomorrow. I will put the question.

QUESTION PUT: AGREED. AT 4.35 P.M. THE HOUSE ADJOURNED UNTIL 10.00 A.M., THURSDAY, 6TH SEPTEMBER, 1984.

[illegible] MEETING OF THE 3RD SESSION OF THE [illegible] ASSEMBLY
[illegible]
[illegible], NEW HAMPSHIRE, [illegible]

[illegible]

[illegible] SECRETARY FOR COMMERCIAL, INC. 2 [illegible] [illegible], OHIO, [illegible] - PRESIDENT

[illegible]

[illegible] [illegible] B [illegible], [illegible] — [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

SUNDAY

APR SEPTEMBER, 1990

Room 4.40.

MR. SPEAKER, I invite the Honourable Member Lincoln, Leader of Legislative Council to say prayers.

PRAYERS

REV. CANON E. MOSES: Let us pray.

Almighty God, from whom all wisdom and power and goodness do proceed, look in mercy and graciously incline the hearts of the Legislative Assembly and Council, and all those, who are entrusted with the high and sacred responsibilities for the place of this Land and for the welfare, peace and progress of all its people.

Bless our Sovereign Lady Queen Elizabeth, the Queen Mother, Prince Duke of Edinburgh, Prince Charles of Wales, Prince Andrew of Wales and all the Royal Family. Give grace to all who exercise authority in our Commonwealth and provide and strengthen, with wise policies, judgment and piety the new established Army, so that it may play its part in the protection of our sovereignty. May Members of the Legislative Council and Members of the Legislative Assembly, work together in unity to promote the progressive welfare of their high offices.

All this we ask for the glory of Your Name.

Amen.

Our Father, which art in Heaven, Hallowed be Thy Name, Thy Kingdom come, Thy will be done on earth as it is in Heaven. Give us this day our daily bread and forgive us our trespasses as we forgive those who trespass against us and lead us not into temptation but deliver us from evil. For Thine is the Kingdom, the power and the glory, for ever and ever. Amen.

The Lord bless us and keep us: the Lord make His face shine upon us and be gracious unto us: the Lord lift up His countenance upon us and give us peace now and always. Amen.

MR. SPEAKER: Please be seated.

Item 2 - questions. The Second Minister for Foreign Affairs.

QUESTIONS

THE SECOND MINISTER, MINISTER FOR FOREIGN AFFAIRS AND INTERNATIONAL SECURITY AFFAIRS, MINISTER FOR ENVIRONMENT, MINISTER FOR TOURISM AND CULTURE: MR. SPEAKER:

MR. SPEAKER: (a) WHAT IS THE PRESENT STATE OF THE CANADA AIRLINES DISPUTE AND WHEN IS IT EXPECTED?

(b) WOULD THE MINISTER STATE WHETHER HE WAS AWARE OF THE FACT THAT WAS USED BY THE CANADA AIRLINES

1/16/67 (a) THE PURPOSE AND SCOPE OF THE NATIONAL CODE CONFERENCE INCLUDES WHAT IS TO BE INCLUDED WITHIN THE CODE AND WHAT IS TO BE CONSIDERED BY EACH LOCAL GROUP.

(b) DEFINES THE RESPONSIBILITIES AND DUTIES OF THE NATIONAL BUILDING CODE CONFERENCE WITH RESPECT TO THE USE OF A NATIONAL CODE. HOWEVER, THE NATIONAL BUILDING CONFERENCE DOES NOT ATTEMPT TO DICTATE HOW ORGANIZATIONS USE OR ENFORCE THE CODE. IN OTHER WORDS, THE NATIONAL BUILDING CONFERENCE DOES NOT ATTEMPT TO DICTATE HOW ORGANIZATIONS USE OR ENFORCE THE CODE.

QUESTIONS:

MR. LAWRENCE A. STANLEY: A HIGH COMPLIMENT, MR. PRESIDENT. WOULD THE GENTLEMAN MOVE ABOVE CONSIDER THE BOARD PLUMBING BUILDING CODE AS MUCH NEEDED AS ANOTHER ADMINISTRATIVE DEPARTMENT?

MR. MARCUS A. JOHNSON: MR. PRESIDENT, I DON'T BELIEVE THE BOARD BUILDING CODE IS BEING USED BY THE GENERAL PLUMBING AUTHORITY IN DEALING WITH QUALIFICATIONS FOR EXAMINATION, NOR OF A PUBLIC OUT CRIER QUALIFICATION.

MR. LAWRENCE A. STANLEY: A COMPLIMENTARY, MR. PRESIDENT, WOULD THE GENTLEMAN BE KINDLY ENOUGH TO ANSWER ABOVE CONSIDER FURTHER THROUGH THE USE OF THE BOARD PLUMBING CODE IS NOT PROVIDED FOR UNDER THAT WHICH HAS BEEN USED AS A POLICY OF THE GENERAL PLUMBING AUTHORITY SINCE THE PAST YEAR OR THE WORKING OF A LOCAL BUILDING CODE?

MR. ROBERT E. JOHNSON: MR. PRESIDENT, THE GENERAL PLUMBING AUTHORITY MUST USE AS ITS GUIDELINE IN DEALING WITH APPLICATION FOR EXAMINATION, THE REGULATIONS AS THEY ARE SET FORTH IN CONNECTION WITH THE POLICY OF THE BOARD PLUMBING CODE AND THE REGULATIONS AS THEY ARE SET FORTH IN THE BOARD PLUMBING CODE.

MR. STANLEY E. JOHNSON: MR. PRESIDENT, A FURTHER COMPLIMENTARY, WOULD THE GENTLEMAN KINDLY TELL THE USE OF THE BOARD PLUMBING CODE AS THE GUIDELINE BY THE GENERAL PLUMBING AUTHORITY OR WILL THE ORGANIZATION WILL PROCEED OF THE PLUMBING?

MR. TIMOTHY E. JOHNSON: I AM UNSURE ABOUT THIS COMPLIMENTARY, MR. PRESIDENT, BECAUSE I HAVE ALREADY STATED THAT THE POSITION OF THE GENERAL PLUMBING AUTHORITY WOULD BE UNFAVORABLE, AND WOULD NOT HAVE ANY FURTHER APPLICATION IN THIS CONNECTION. THE QUESTION, THEN BECOMES, TO BE WITH IT. THE APPLICATIONS OF THE GENERAL PLUMBING AUTHORITY AND THE AUTHORITY TO ADMINISTERED UNDER THE PROVISIONS OF THE LAW TO DEAL WITH PLUMB MATTERS.

MR. LAWRENCE A. STANLEY: MR. PRESIDENT, WITHOUT SPEAKING TO PARTICULAR QUESTION, I FEEL THAT IT WOULD BE WORTH INFORMATION BUT WE MIGHT BE AND I ASK THIS QUESTION AS WAS THE CASE OF THE CHAIRMAN OF THE BOARD PLUMBING AUTHORITY FOR TWO YEARS, AND I WAS MORE THAN, MR. PRESIDENT, AND WE GET OUT OUR INSTRUCTIONS FROM THE GENERAL. MR. PRESIDENT, I WOULD LIKE TO KNOW WHETHER THE POLICY THAT I FOUND WHEN I WENT IN AS CHAIRMAN, WHERE THE BOARD PLUMBING CODE WAS USED, WAS IT A LINE OF A BOARD BUILDING CODE, HAS BEEN CHANGED IN ANY WAY OR WHETHER THE POLICY WOULD REMAIN.

MR. ROBERT E. JOHNSON: MR. PRESIDENT, IT IS DIFFICULT FOR ME TO SAY WHAT POLICY HAS BEEN ADOPTED BY THE GENERAL PLUMBING AUTHORITY UNDER THE BOARD PLUMBING.

SE PROPOSED: I think it is quite clear the Company [illegible] has no responsibility for these wells as they were [illegible] of ownership after they were [illegible].

Mr. Lawson J. Hinson: Would you, Mr. Armstrong, [illegible] the Commission Engineer [illegible]?

Mr. Armstrong: The Commission Engineer has [illegible] operate wells. It may not mean [illegible] but he may [illegible] or whether not I do not think we can [illegible] this question.

Mr. Lawson: Mr. Armstrong, [illegible]

THE SECOND STATUTORY QUESTION MUST BE ANSWERED: WILL APPLICANTS WITHIN [illegible] OF CORRELATIVE RIGHTS?

EX. 103: [illegible]

ANSWER: [illegible]

SE PROPOSED: I think it is [illegible], [illegible] the Company should [illegible].

THE SECOND STATUTORY QUESTION MUST BE ANSWERED: WILL APPLICANTS WITHIN [illegible] OF CORRELATIVE RIGHTS?

EX. 103: [illegible]

ANSWER: THE PROPOSED SPACING AND WELL LOCATIONS WILL PROTECT CORRELATIVE RIGHTS.

STIPULATED ISSUES NOW BEFORE THE COMMISSION:

(2) NEW DISCOVERY:

7. [illegible]
8. [illegible]

[illegible]

[illegible]

[illegible]

MR. SPEAKER: Well, that is what I am doing, but you are not doing it. (LAUGHTER)

The Member for East End.

MR. JOHN M. MCLEOD: Mr. Speaker, I wonder if the Minister would be in a position to say whether that statement by a spokesman of the Public Works Department or a private engineer?

HON. MICHAEL A. KIRKCONNELL: Mr. Speaker, both that and maps were done by the Civil Division of the Public Works Department and the actual surveyors who did the work, together with the Chief Surveyor for East End, were brought into eventually looked at the different roads and determined which roads would require this work. It is from that basis they had that the road would be [illegible] the Bodden Bridge. The roads studied are the ones which would be [illegible].

MR. SPEAKER: If there is no ...

MR. D. MICHAEL ADAM: Mr. Speaker, because of the hour and knowing the time which we intend for, there are additional questions that we obviously have, and I am wondering whether the Honourable Member will have enough time with us on Wednesday when the Budget is the item?

HON. MICHAEL A. KIRKCONNELL: Mr. Speaker, the Budget is quite long. We do have always tried to come with the Minister of the Legislature [illegible] and have gone with them and have tried to have their questions [illegible].

MR. D. MICHAEL ADAM: Mr. Speaker, may I ask if [illegible] be published or be in a book of [illegible]?

MR. SPEAKER: I did not quite hear ... ... to be published, is that what you said?

MR. D. MICHAEL ADAM: In relation to the reports of these roads and Government use the information of publishing in the question of [illegible] where we are going to [illegible] Bodden Town ... Just how are these being? Is this published or is it privately [illegible]?

HON. M. MICHAEL ADAM: It is private. (LAUGHTER)

HON. CHARLES A. KIRKCONNELL: Mr. Speaker, I should be very happy to have that Member [illegible]. We are [illegible] public policy. It is [illegible] to the expenditure of this Government, that they will be [illegible]. (LAUGHTER)

MR. JOHN B. MCTAGGART: Mr. Speaker, is the Honourable Member saying that our relations with [illegible]?

MR. SPEAKER: Did the Prime Minister hear your question ... have I misunderstood it?

HON. TRUMAN A. BODDEN: Mr. Speaker, although there was a [illegible] of roads that needed rehabilitation in East End, and the areas in the Eastern district we have gone to as the roads that needed [illegible] attention.

HON. CHARLES A. KIRKCONNELL: Yes, Mr. Speaker, this is the first question to be [illegible] by the Member for [illegible].

MR. [illegible]: [illegible] the question will now be put.

THE QUESTION OCCURRED UPON MOTION BY MR. [illegible] TO AMEND [illegible] BY [illegible]

[illegible]: WHICH THE HONOURABLE MEMBER STATED [illegible] AND SUBSTITUTE [illegible] FOR THE YEAR 1986, IN LIEU THEREOF, 1985.

[illegible]: THE AYES AND NOES BEING TAKEN [illegible] AYES 31, NOES 12, [illegible] RESPECTIVELY.

MR. SPEAKER: The Hon. Member for [illegible] – the main question.

THE QUESTION WAS PUT [illegible] AND THE HONOURABLE SPEAKER DECLARED [illegible] OF THE HOUSE [illegible] AND PASSED BY A MAJORITY OF [illegible] AND ORDERED TO BE [illegible].

MR. [illegible]: SINCE THE HONOURABLE MINISTER HAS STATED [illegible] OF THE HOUSE [illegible] ON THE RECORD, [illegible].

SUPPLEMENTARIES:

MR. [illegible]: A supplementary, Mr. Speaker. Could the Honourable Minister state if [illegible] on coal mine workers [illegible]?

HON. [illegible]: Mr. Speaker, [illegible] of the cost of [illegible] has been [illegible] as a [illegible]. It does not [illegible] [illegible].

MR. [illegible]: A supplementary, Mr. Speaker, [illegible] the Honourable Minister may [illegible] [illegible] be [illegible]?

HON. [illegible]: Mr. Speaker, I [illegible] to be [illegible] of the [illegible] which [illegible] to be any [illegible] [illegible] that [illegible] [illegible].

MR. [illegible]: The [illegible].

THE SPEAKER: [illegible] MR. [illegible] TO [illegible] THE HONOURABLE [illegible] [illegible] OF [illegible] [illegible] AND [illegible].

MR. [illegible]: [illegible] THE HONOURABLE MINISTER STATE THE [illegible] ON THE RECORD [illegible] [illegible] [illegible].

AUDREY: [illegible] THE TOTAL COST OF THE CAMPUS [illegible] NOW ESTIMATED AT APPROXIMATELY $[illegible].

CHAIRMAN:

MR. [illegible]: I SUPPLEMENTARILY, MR. PRESIDENT, [illegible] SUBSTANTIAL [illegible] ON CAMPUS [illegible] SUPPLEMENTARY [illegible] BOARD MEMBERS A CONCRETE VIEW FROM THE BOARD OF [illegible]. [illegible] OF THESE PROJECTS [illegible] [illegible] REASONABLE BOARDS MEMBERS [illegible] PROVIDE ADDITIONAL [illegible] [illegible] BOARD?

MRS. [illegible]: MR. PRESIDENT, [illegible] SUPPLEMENTARY [illegible] BY THE COMPLEX OF [illegible] WHICH INCLUDES A SMALL [illegible] [illegible] MEMBERSHIPS, IS IT APPEARS THAT THE COMPLEX IS [illegible] [illegible].

MR. [illegible]: MR. PRESIDENT, [illegible] A MEMBER OF [illegible] [illegible] ON THE [illegible] OF THE COLLEGE [illegible] [illegible] [illegible] OF APPROXIMATELY $[illegible], BUT I WONDER IF A [illegible] BOARD MEMBER MIGHT [illegible] A MOTION. IN THIS FIGURE [illegible] [illegible]? THIS COULD [illegible] [illegible].

MRS. [illegible]: MR. [illegible], I WOULD [illegible] [illegible] WITH THE MOTION, BUT I THINK THE [illegible] A REAL [illegible] MAY BE [illegible] [illegible], I WOULD [illegible] [illegible] THAT THE [illegible] FOR THIS [illegible] [illegible] [illegible] [illegible].

MR. [illegible]: [illegible] [illegible]. THE [illegible] [illegible] A [illegible].

THE CHAIRMAN [illegible] THE NORTH SIDE OF [illegible] THE [illegible] STREET [illegible] [illegible] OF THE [illegible] [illegible] [illegible]

MR. D. FRANK MITCHELL: I appreciate it, Mr. President. Would the honorable Senator please share with the present complement of Senators in the George Town hospital why?

HON. JAMES G. SMITH: Mr. President, I think the weight is out.

MR. D. FRANK MITCHELL: Is this honourable Senator suggesting to this honourable House, Mr. President, or does this fellow minister, Mr. President?

MRS. BRENDA M. EBANKS: Mr. President, Mr. Whitley speculated the new part of the development of doctors at the hospital, now was their salary, as I understand it, as a fixed expatriate bonus. They come in and when completed or we find when they come [illegible] to be their salaries.

HON. DENNIS E. FOSTER: Mr. President, I would like to ask the honourable Minister whether or not, referring to accommodation of overseas personnel at the hospital could accommodation be found a days, should the [illegible] there shortage of accommodation has been at the hospital which are [illegible] by outside doctors and whether we contemplate to build accommodation?

HON. BRENDA M. EBANKS: Mr. President, as mentioned, now, they are the [illegible] I have to check those figures for the present moment. We have been criticised and have agreed to, which I say, should be [illegible] but [illegible] there is office to build accommodation, as one mentioned, is not necessary [illegible] accommodation, so one mentioned is not necessary to provide accommodation, but it is necessary to provide accommodation for [illegible] to be prepared to [illegible].

HON. D. FRANK MITCHELL: I understand, Mr. President, that the honourable Minister stated that it is proposed to have more air conditioned doctors rooms[illegible]?

HON. BRENDA M. EBANKS: Mr. President, possibly what this honourable Member might suggest be put in the hospital for [illegible] accommodation will have taken up quickly as the money as the plans have been prepared.

MR. D. FRANK MITCHELL: I understand, Mr. President. Is it the intention that there has always be general accommodations or accommodations who may come again which they do not want to do their general duties?

HON. BRENDA M. EBANKS: Mr. President, there will be general accommodations to increase the all around benefit of the doctors.

MR. D. FRANK MITCHELL: Mr. President, can the honourable Minister state how many of the present [illegible] doctors are general practitioners?

HON. DENNIS E. FOSTER: Mr. President, I think I answered the question a question like [illegible]. Most of those are general practitioners, but in addition they have specialities which they [illegible].

HON. D. FRANK MITCHELL: Most obliged, Mr. President, that the present [illegible] are [illegible] specialists. There is no need [illegible] to [illegible].

MR. PENCE: [illegible] That is a statement, Mr. Brzezinski, and it would only be a matter of opinion.

MR. [illegible]: [illegible] Sir, that is my opinion.

MR. [illegible]: [illegible] Senator Church [illegible] ... If there is no further objection, the [illegible] your next [illegible].

THE CHAIR WOULD NOW LIKE TO ASK THE DISTINGUISHED SENIOR SENATOR FROM [illegible] TO [illegible].

MR. [illegible]: Would the distinguished senior Senator from [illegible] yield to me briefly?

MR. [illegible]: Yes, but I [illegible] I am asking this distinguished witness a question before the Senator's question.

[illegible] SAY THAT TO [illegible] OF THE [illegible] OF THE [illegible] [illegible] [illegible]

IT WAS VOTED, TO ADD WITH CONSTENT TO THE POLICY OF THE STATE DEPARTMENT TO SEEK LEGAL ASSISTANCE AND ADVICE BOTH WITHIN AND WITHOUT THE OFFICE OF THE SECRETARY OF DEFENSE IN CONNECTION WITH SUCH AN ASSIGNMENT AND ADVICE WILL BE AT THE EXPENSE OF THESE AGENCIES.

CONGRESSMAN:

SEN. JOSEPH R. MCCARTHY: Mr. President, would the Secretary have a breakdown of costs to Department of Defense for the various public relations assignments?

SEN. WILLIAM F. KNOWLAND: Mr. President, many of those are ongoing responsibilities, the final total cost is not yet known. However, if I can explain to Senators that basically the purpose of certain Army and Navy information specialist people also they have that be engaged for one month on the basis of a specific publication of public interest which is to be brought up to date, newspaper-industry people sometimes that publication for us in their spare, also out-of-pocket expenses.

In addition to that the President's Committee on Employment, for which $100,000 was requested by the Congress and which is to include the final cost of work engaged by this Army and Navy function in one appropriation.

The third item of Army public information specialists employed mainly on a one month basis to maintain the continuous professional service of that function, the general procedure of the United States, the cost of a publication issued on a part basis with the assembly of part issued and is normally within the range of around $2,000 but can be higher or lower.

SEN. C. DOUGLAS SCOTT: Mr. President, may I ask the Secretary of the two items of Army information and Army and Navy information with the majority of the job on the basis?

SEN. RICHARD M. NIXON: I understand that the item of Army and Navy information is to do certain work especially in connection with the efforts to get the cost of living.

SEN. G. MILLARD TYDINGS: Mr. President, may I ask if the item of Army and Navy information work done was also the person Information Advisory who had been employed in Washington in connection with the Capehart case?

SEN. STUART SYMINGTON: My understanding is that there were employed, in connection with the Civil Mobilization Planning Board item, a group of economists in the United States who were employed for the purpose of that responsibility. It is my understanding that there was not any connection whatsoever with any part time consultant employed in the Department of Defense.

SEN. MCCLELLAN: Would the Senator from Utah like to ask the next question?

THE CHAIRMAN ASKED FOR FIRST VOTE ON THE PROPOSITION THAT THE PROPOSED FIRST OPTIONAL PROTOCOL SHOULD BE INCLUDED AS ANNEX I.

In favour: MEMBERS OF THE COMMISSION ON HUMAN RIGHTS, THE CHAIRMAN OF THE COMMITTEE ON CIVIL AND POLITICAL RIGHTS, THE REPRESENTATIVE OF THE SECRETARY-GENERAL, THE DIRECTOR OF THE DIVISION OF HUMAN RIGHTS

Against: NONE

Abstentions: NONE

The proposal was adopted by 33 votes to none, with no abstentions.

The CHAIRMAN said that the Commission had thus completed its consideration of the draft Optional Protocol and would now proceed to consider the draft resolution contained in document E/CN.4/1989/L.11.

Mr. ABDEL RAHMAN (Egypt) said that, in view of the importance of the draft resolution, his delegation would like to have more time to study it before taking a decision.

Mr. OSTOS (Venezuela) said that, in view of the importance of the draft resolution, his delegation would also like to have more time to study it before taking a decision.

Mr. Vice-President, this evening Mrs. Mehrez and I had lengthy consultations about the Commission's programme of work and we decided that we would ask for meetings to be held on Monday, 13, 14, 15, 16 and 17 March.

Under agenda item 8(a), we have received 40 replies, 10 from women; United Kingdom - 10 replies, 3 from women; Canada - 4 replies, 2 from women; United States - 2 replies; Uruguay - 1 reply; Australia - 1 reply, 1 from a woman; Switzerland - 1 reply, 1 from a woman; Austria - 2 replies, 1 from a woman; New Zealand - 1 reply; Netherlands - 1 reply -- making a total of 100.

Under agenda item 8(b), we have 5 replies, four from women and 1 from the United Kingdom -- making a total of 5.

Under agenda item 8(c), we have 3 replies and 2 replies from women; 1 reply and 1 from the United Kingdom; 1 from the United States; 1 reply, 1 from Bahamas -- making a total of 3.

Does the Member from Uruguay or Chile wish to add to what we have so far?..... Not right.

Under agenda item 8(d), we have four replies, 2 from women; United Kingdom - 1 reply; Canada - 1 reply; United States - 1 reply and 1 from a woman; Barbados - 1 reply; Costa Rica - 1 reply; Malta - 1 reply; Japan and Canada - 1 reply -- making a total of 10.

Under agenda item 8(e), we have four replies, three from women; 1 from a woman.

Under agenda item 8(f), we have four replies, 2 from women; United Kingdom - 1 from a woman; Canada - 1 from a woman -- making a total of 4.

Overall total 200.

Mr. TEITGEN (Assistant Secretary-General) said that, since the Commission seemed to be quite prepared, I believe, if agenda item 8(f) is not to be considered, to proceed to hear the very large number of persons that were on the speakers' list, especially the Ombudsmen, representatives and so on.

Mr. JEMBAYE (Chad) said that, as he had already said, he was not quite ready to do so.

Mr. LOPATKA (Poland), Mr. Chairman, with the agreement of the representatives, that the number of persons that have asked to participate in the Ombudsman is very large.

MR. ROBERT E. PORTER: No, Sir, I have not yet done that but I think that under the law they would have had to be here for a period of seven years immediately preceding their application.

MR. LAWRENCE A. FERRARA: Mr. President, I have what is a clarifying question. However, I wonder if the Member in charge, Sir, that certain applicants who are seeking citizenship under section 245 have been overseas in the Defense for twenty years and upwards?

MR. DAVID E. PORTER: No, Sir, I was kind of taken that those were one or two that have been here for several ten to twelve years, but not that long.

MR. JOSEPH E. MCGEE: Mr. President, I wonder if the Member would say if there is an estimated time to have the applications dealt with by the Board?

MR. DAVID E. PORTER: Yes, Sir, I think it is either under the application or the directive that they are supposed to have all these applications processed out by I am not mistaken.

MR. EDWARD J. PATTEN: Mr. President, I am quite aware of the discretion given primarily to the Immigration Board. I have either a point of law. However, I wonder if the Member could state whether the applicants will be given priority in order of the number of years they have been here in the Islands, or what procedure will be taken in these applications?

MR. DAVID E. PORTER: Mr. President, it is difficult for me to determine the answer. However, the Board does have evidence laid down, either in regulations or directives. In effect of all the speaking amongst us we have the applications. There could not be made any differences between their coming in, but I think that they will be treated somewhat in the ordinary legal form.

MR. J. WALTER DUNCAN: Mr. President, would the Member say how many of the 245 applications have been processed since January of this year?

MR. DAVID E. PORTER: Mr. President, there are many applications. Yes, and have not been processed at all as far as I know. Why did the Member say January? Yes, right after the new Law I think it, processed since 245 was not provided so many years ago. That was under the old Law though, but this year. When we have started off afresh and there are new applications under I have given the Member here.

MR. LAWRENCE A. FERRARA: Mr. President, in the Member replies whether he is aware that an examination and grant of status of the 245 applications went to the Immigration Board, the last quarter inside, that there were applicants well in excess of ten years who fulfilled all the requirements of the Regulations from witnesses who were not available either? Are there those who had been fulfilled the minimum number of years who were granted it already?

MR. DAVID E. PORTER: Yes, Sir, I am aware of that.

MR. LAWRENCE A. FERRARA: Mr. President, in that supplementary, Sir. Would the Member advise whether that priority will be attached to applicants?

HON. DENNIS M. HARVEY: Mr. President, I do not think that it is of any use, Sir. It is not the number of years of being here which convinces the Board to give everybody whatever it wants. I think here the Board looks carefully at every application and then determines the best.

MR. GERVAIS M. PIERRE: Mr. President, I did say that the application had complied in all respects with the directives given by the Democratic Party, so it is not the number of years which I am more interested in. I am more interested in the consideration being given to the circumstances all things being equal, whether, with all things being equal the application will be favourably.

HON. DENNIS M. HARVEY: Mr. President, the Board has the same regulations and directives to work within. I do not disagree with them, Sir, and I am afraid that we will just have to leave it. I think that it is a good Board and I think we will have to leave those decisions to the Board.

MR. SPEAKER: If there is no further supplementary that completes questions. Item 2. Statements. The Honourable Prime Minister, Hon.

STATEMENT BY THE BERMUDIAN PARTY OFFICIAL RESIGN

HON. LOUIS M. TODD: Mr. President, a new Bermudian Constitution Order was enacted last year in the wrath of Bermudians each by a Select Committee of the previous Legislature Assembly. Before it was enacted the Foreign and Commonwealth Office proposed certain amendments. They suggested a number of changes should be made to ensure that it would comply with the provisions of the British Nationality Act of 1981. Unfortunately, however, there happened to be quite a large number of people eligible to come here. Since it was assumed there had been further correspondence about the matter. As a result, agreement had been reached that the Cayman Islands will admit any citizen Dependent Territories who has a connection with the Islands under the terms of the British Nationality Act, 1981, but does not enjoy rights abroad and has no right of abode in any other country.

This will enable in satisfy the provisions of the Convention on the status of stateless persons to which the United Kingdom is a party. However, it should not have unacceptable consequences. Nobody is denied, by or the citizenship described, so few of any people are in future likely to be found the full citizen is.

MR. SPEAKER: Item 3. Private Member's Motion No. 14/91. The Second Elected Member for Pembroke East.

MOTION

PRIVATE MEMBER'S MOTION NO. 14/91

CONSTITUTIONAL REVIEW SCHEME

MR. K. HARRIS SMITH: Mr. Speaker, I beg to move Private Member's Motion No. 14/91 standing in my name, which reads:-

MR. D. MORRIS (Local Government):

"WHEREAS in a free vibrant society a large number of Guyanese want social organisations for entertainment, and having a Society is our social programme;

BE IT RESOLVED that the Government of the Cooperative Republic of Guyana introduce draft legislation for the establishment of a Social Welfare and Culture Council that the Council has the power to co-opt outside expertise.

AND BE IT FURTHER RESOLVED that the Legislative Assembly do appoint a Select Committee of the whole House to consider such draft legislation.

AND BE IT FURTHER RESOLVED that Government do bring such draft legislation to the Select Committee within six months for its consideration.

MR. S. EDWARD MINGEY: Mr. President, I beg to second the motion.

MR. M. MORRIS RUSH: Mr. President, the intention and purpose of this motion is not something which is new or radical in parliamentary procedure. It is not such new to the Guyana Parliament. The intention and purpose, sir, is to make it legal and mandatory for Government to proceed with the difficult task of establishing a national peoples culture in this country.

Sir, I might as well say here and now, sir, that I do not feel, sir, as not in this Chamber in favour of this motion, I cannot call me a lover of art. Anyone who knows, I regard it as a vote against establishing this essentially peoples culture in this country.

Sir, it is my belief that there are few democratic countries or communities in the world without some kind of national peoples culture for their people. That is, sir, some kind of society for the workers where they have organised their free-thinking and responsible young persons between of age, whether or whatever. This subject, sir, because you are not in this country, has been thrust beyond the political scene of the Guyana Republic for as long as I can remember until I returned looking at politics from the year 1972, not to say that I did not attend political meetings.

The promise, sir, formed a political commission manifesto as early as 1972 and even before that year as I understand it, Government had organised the services of a Mr. Inroger for a feasibility study of the matter. This Mr. A.F.C. Inroger was an experienced social development adviser on loan from London. In his report Mr. Inroger strongly recommended the setting up of some kind of a national peoples culture, where because of our small population at that time, he suggested a simple provincial place where there could be upgraded into a national social gathering.

Now, in the year 1979 the peoples of a national peoples culture was embodied in the election manifesto of which we had pointed here earlier this morning. Four years later in 1976 the majority of that group are elected to Government to the Fifth Parliament, again promising a national peoples culture from the political platform. As we all know, that group governed this country for the next eight years, Mr. President, eight of this country's most productive years, without establishing such a peoples culture.

Mr. President, this is a very important matter. Despite the fact that on 24th October, 1973, a motion such as the one before the House today was debated here, twelve years ago what is being done at this time is to make new people pay many thousands more than they had to pay then.

Sir, by introducing legislation on the other side, the Royal Bahamian Police Force was the first Service to hold responsibility under the previous Constitution, holding responsibility for the Protection of Special Services while such a movement existed and still fail. The present Constitution as we all know came into effect in January 1973.

In 1974, Mr. President, the Government again acquired the services of a Board of Examinations, a Mr. H.H. Jenkins from the International Police Organization. Mr. Jenkins, I understand spent a week on the Islands and submitted a recommendation to the Government, which it seems little was done before the change of Government in 1977. It is unfortunate to note, Sir, that other Caribbean territories including the Cayman, Grenadines, St. Kitts, Anguilla and Barbados and Belize, which were assisted by Mr. Jenkins, all today have complete control over their police.

In 1977, Mr. President, the previous Government inquired into the services of another expert, a Mr. Mitchell Langford to look into the Bahamas Department of Corrections Establishment. Again, Sir, it is interesting to note that some of the other Caribbean territories which were Mr. Langford such as Barbados, Jamaica and the Virgin Islands will not have workable Borstal Schemes for their juveniles. However, Sir, one of the most encouraging developments in the Caribbean, the Cayman Islands where we all represent, has workable Borstal Scheme. We are still talking about it and planning to adopt this system.

Mr. President, the situation of crimes and penalties and sentence has reached the stage where such sentences as of some of the cases I have heard of the old days in the Supreme Islands, today, Mr. President, of the days where corporal and imprisonment prevailed, if any days when the only hope for a person was to pay off the Islands and work his future in another land, and the only hope of a young person now that one of these young men would come back and marry him. In those days, Sir, if a young man had a girl in mind and would ask the girl's father for his hand in marriage and if he wanted that girl to work for him he would write a letter to her parents seeking their consent. If consent was given although Sir, this may not have been written down, it was understood that the girl would have honour, you have said that she would obey them with other customs and their offence. If it was not felt that the girl was taken to her parents, she could be used for damages for breach of promise and finally no, Sir, for to the time that the poor girl waited for her who would have suffered of what would have economic to her.

Now, the notion of promise and I do not only hope but I do pray that it will be passed, will represent to our children in the economic for the future, that failure of conduct represented to that girl in preference. It will add to our records that this Government is working towards bringing them nearer to their responsibilities towards it will not only, Sir, be a useful amendment to our people to do everything as quickly as possible, and twelve years ago like.

MR. P. HOWARD (NEW ZEALAND): I will say to them, "Now gentlemen, we are not just talking on the rose down before".

This matter, if passed, will take the matter of a national pension scheme one step beyond a campaign promise, and give hopeful a feasibility study upon which the appropriate legislation to begin the scheme.

Mr. Speaker, as one and I have talked to many people on this matter, we unanimously that this is the only or simple thing to do. Many of our people will express that this matter will mean paying benefits once or more months, or even each year. The reason that proved to that, as I said, the Social Assistance Act Government to go ahead with its great work, Sir, which I am sure is to satisfaction of doing, especially with my honourable colleague Dunedin who has recently elected in the prime list to be looking into it.

Mr. Speaker, while I do not want to say too much on details, as I will leave that for the Government Members and the Committee to deal with, I would like to clear misconception in the part that the motion calls for a contributory pension scheme that means that employees alike will be required to contribute to this. Now, Sir, to the employee that will mean a little less take home pay which will be put aside and paid back to him at a later date when he is unable to work.

Sir, according to the last census taken, if there is any time to start a contributory pension scheme because the majority of the population are working people. That is census shows that below the age of 20 are the working people, Mr. Speaker, and 20,000 people or 23.6 per cent of the population who would be contributors to a pension scheme. Mr. Speaker, this is the good part. Above the age of 65 there are 5,100 people or 7 per cent of the population who would be eligible to receive pension payments. Sir, if we assume that most people will not have begun the age of 70, there would be only 750 people eligible to receive pensions.

If the scheme, Sir, was to start next year we would have 9 people contributing for every one person receiving. I will say that again. If the scheme was to start next year we would have 9 people contributing for every one person receiving. There is uncertainty to the census figures, I do not know what the experts will say. We have so many of them.

However, Mr. Speaker, the one fact that we certainly do the census figures of the Cayman Islands which was done in 1979, that this scheme is not a good one. These are the facts, and we have about it. These figures are taken directly from the census. However, for the sake of argument, Sir, suppose that you cannot use part of those but the unemployed and concentrate on the census, there 7% people. They would account to $1,971,200 paid out for the year. Now, Mr. Speaker, if the scheme is this country, again according to the census, paid $15 per week and has employees would pay a total of $45, the scheme's revenue in this first year would amount to $2,227,800. I will interrupt that again then. If the worker paid $15 per month and his employer paid $15 per month, a total of $30, the scheme's revenue in the first year would amount to $3,341,700. Now, Sir, that does since the amount paid out. This is still using the census figures.

MR. W. KARZEN RUSK (UNINTELLIGIBLE): another thing was mentioned when I looked at the census figure for the year 2000, that is a million person difference between 1960 and 1970. It shows that the participants in 1970 would have many old people and the contributors would have been small. So these census figures show that the tendency is going to increase the number, the number of people paying to people receiving will be lower, therefore, the specialists, looking the projection of this system very differently.

MR. PROCTOR: Does the Honorable Member wish to speak for some further period?

MR. W. KARZEN RUSK: Yes, Sir.

MR. PRESIDENT: Well, perhaps it would be convenient that of the International year for...

MR. W. KARZEN RUSK: Yes, Sir, I was perhaps hungry and thirsty.

MR. PRESIDENT: Maybe we should be better if we did not allow you to resume your duties. You might finish earlier. I will suspend proceedings for approximately fifteen minutes.

AT 11.21 A.M. THE HOUSE SUSPENDED

HOUSE RESUMED AT 11.40 A.M.

MR. PRESIDENT: Please be seated.
Announcements are awaited. The Honorable Member for West Soy.

MR. W. KARZEN RUSK: Mr. President, when we broke the House I was saying that I felt unable with the question of the method, more difficult, was that I felt that a longer delay would make it more difficult.

Mr. President, we will have the impression following this meeting. They will tell us all sorts of reasons why it would be proper period of time to get this system's implemented in October. Mr. President, if that is what they are concerned about, the new workers' organisations which I have been one of officials, however, are ready to have what they have to say. I have that we are going to have all kinds of economy strategy but I believe that I am in solid ground in saying that. I believe that in one of these ways or I just suppose, Mr. President, our economy and are about upon possible still working until reaches the age of 70 have to keep their jobs in some form of significant manner, I realise it may be hard to do. It must be done with sensitive, with flexible guidelines, but realise it... of this situation. It can be done and by which arrangements be changed, it can be done in a reasonable period of time.

Mr. K. Morris Cobb (continued): Mr. President, a previous speaker said, "It seems Solomon." One might believe in the ocean, as could my constituents and, Mr. President, should I do not want to pass on this Senate because the issues of Government Economics and Energy, and I do not feel that I can accomplish from the action that I would have that if we pass, I want to extend a warning bell to this Senate. This action, as I said, is not a matter of choice to Senate but a constitutional question before each Senator. The two often which is used about Communism and socialism to scare, Mr. President, does stop living used to dangerously. If it is so, but we must an appreciation of the people help to degrade them. We need to appreciate the ones who fear ones reasons on the other do not have the incentive to work any more. We have some of the answers. I still not go into that but our efficient society is rewarded with more profit and our people have been entitled to them. The Government is not going to use the Communist who deliberately avoid the jobs and, Mr. President, the first time they are rewarded there they back a job they are discouraged. This, Mr. President, is wrong and young Ireland because who can I waiting for jobs today.

As I said, it is not a debate on Solomon but it is getting for a multibillionaire pocket a share and some of the things which are happening in the Solomon market today should be discussed. I believe, also, that I was as much possible in my capacity as a Member of this Senate as Chair on the Government Senate and, Mr. President, they can say, "Welcome your are gone." You are a politic as politics. You must be political". They can say that if they want. It is true to an extent. However, Mr. President, I believe that I know what is happening in this country and I feel it may cause concern, and I feel that the cause of change are blowing in this land. The Government who are puppets, hand now gamble in time to not be today. Our unemployment problems, and now much attention to him. We have bills to pay, although we already have them. We have billions to cope with and other problems which we are just unable to handle. I have nothing with rank and, Mr. President, I can feel their anger. There is something building up in the Senate today and my warning bell is saying that we have to move further and further. We are fair-weatherites are only human, gregarious, we are allowed to give things like and our people are astonishing us to strengthen our the Senate problems for them. They we be careful where we walk. We are superannuationers, Sir, must do everything in our below not to encourage disconnection in this country. Who needs that? There is a strong need of always blessing in this country. Let us not just overlook.

Mr. President, in speaking into retirement I am thinking of all those people who work in the shops, in the stores, in the supermarkets, we have been working in those houses for me to fifteen years. When they leave, what do they get? Some of them when they leave for the world, they have to look under behind their backs to get what is going to happen, such long after ten to fifteen years. They are not changing clothes. I am thinking, Mr. President, of all those men and women working for a few and pensionless for long, today. Fifteen or twenty years at the end of the day. What will they take home? Please explain what a good day or use of that a good week pay was? What amount will mightily's salary.

I am thinking, Mr. President, of all those men working in the construction industry in this hot, humidity and lighting summer, mixing cement and going home to the afternoon with sore shoulders, sore hands and backs all over. At the end of the day what will they have? Mr. President, I, have no sympathy in this country when their day end, they will not have a job.

MR. P. HOUSEAL MOVE CONSTITUTIONAL: Mr. President, I am thinking of all those Democrats on the dock and do public moves the Government have one to produce at the end of the day. When are we going to do something about these situations, Mr. President. Are we going to keep talking about economy and expense? There are the people about which I am concerned. I have also my people; the people I have, the people I want to see taken care of in their old age. When are we going to stop talking and beginning? Are we going to be supposed to sleep? Let me decide, Mr. President, as Representatives of the people and think off our dull wits. Let us spend time profitably, perhaps still suggesting to provide somewhere. But this thing is such a difficult thing to do? "Right", Mr. President, like the monkey said, "My lawyer". Let me remind them though that national legislation is the proper road to minimum standards. Mr. President, we make also having taken compulsory contributed to an extent which is the people to count. The people need to be heard and I know Government always hears them,

Mr. President, I am glad of hearing these remarks at the front desk and the house full. Time is pressing ... There is a change brewing in this land. Mr. President, as I see it, the purpose of a pension scheme is to provide a decent pension for old age economy in this country, having in mind the particular the most unfortunate who do not have a scheme to contribute to privately. In my opinion, then, I would hope to see a pensions scheme for the people in the dumps and other organisations who already have some form of pension and who now pay their contributions to those schemes which they have paid. As I see from my list, and as always tends to do, something which we all experience, that is taking advantage of us, those people will realise that the pensions which they thought could be adequate for them, will not at all be adequate with the great increase of the costs. When these same people retire on their pensions, I feel that they might find they had a little more money than and I believe that they should contribute to such a scheme so the Government might pension.

Mr. President, I heard some unfortunate remarks during the break, who was responsible for what the was responsible for pensions. Who was responsible for Hitler's pensions. Mr. President, there are very old retired Civil Servants who are getting very little help from the Government by way of pensions. In my District there are no. number who I think originally who to this country, a Miss Leslie Yates and a Miss Dillon Smith. I also know in the other Directorate there are very people who did great work for this country and it should be looking about them. I am very that the pensions when they get to entitlement and as I understand it, because they get a raise it is just a few shillings.

Mr. President, all I am asking is that we have a commission. The proposition being a multiplicious pension scheme, it is not to say that other benefits cannot be maintained as it.

Mr. President, in closing this part of my debate let me make reference also briefly that there is very strong opposition to a national pension scheme in this country. Mr. President, that is evident by the fact that we are here today still talking about it. I believe that there people in this country who are opposed to labour legislation being brought to this unfortunate Press will oppose a pension Law. I can tell by the out of their jobs. This will oppose it. Let see, Mr. President, for a long time in this country there have been the obstacle, "No Tony as I get, we and my family, I do not care whether you strike". That is what was happened. However, I see our Brothers' Progress and we have to change our way of thinking. However, Mr. President, I do not expect that my Member will be there enough to stand up here today and say that they oppose this motion.

MR. X. SOKOLOW [CONTINUING]: I believe that we will have to accept the word of the motion to determine who is really in favor of and wishes the vote to know who really opposes such a motion. There will be all kinds of excuses. I still feel that up to this, I have asked myself and I have asked other Assemblymen to ask themselves what are the circumstances in this general matter. But we forget about the basic fact we're given I put in the motion. What is it we're asking, Mr. President. What we're asking is something known. The motion can be amended with your permission and I suppose,

Let us now enumerate what are the circumstances. Why, all of the circumstances which I can think of and for deciding it. I heard the gentleman on the back, we hear a lot about how to get to work, that Government takes care of them. Mr. President, that is not the alternative. We have what the Government has offered to give to many times. Still a month cannot help anybody. What counts is what they need to keep the people and the situation to keep them going in their city. What do they expect people to live off, see groups?

Mr. President, I have the word of Government bureaucrats coming. If he wants to give him I will because I am prepared to take them on faith.

Mr. President, in our discussion yesterday we've had many points, only the many which we have had reps of making amendments. We all know that. I am only asking the Members this which is astonishing which they know as well as I know. As a matter, the amount devoted on this bill from the Senate, the Government is not here. As I see this, here no committee discussions which somebody. Actually, there is one bill which Members who are now thinking of certain amendment this morning that question. They have expressed the desire which will be raised upon us in the next few days when I hope enough part of our opinion can find themselves ability to work out with a range of purpose.

Mr. President, what Chairmanship has gone why do not have today. We have that it is a fact that they do not have the basic plan of legislation some Members of the last administration always expressed. What has to be your function, Mr. President, I would go on until I endure myself to sleep, keeping together for this motion. However, I am unwilling, Mr. if such that would get enough support to pass it.

Why, I have listened this morning to the letter of counsel which was customary to vote recently to pass just by. I believe, Sir, that is a fair comparison. By the end of this session, every one of us in here who will just judgment in this matter will be provided to a member financed by the taxpayers and, Mr. President, is for the people opposing the Constitutional Revision Bill that question should be put simultaneously with a bill from the people of this country. They have a change of heart. They say that it is only a few who oppose them this night. Since we have, however, can be proud that one by a to vote on this motion, tell them that people that we do not believe that they should stay here some longer. That is [illegible] Mr. President.

The motion does not ask for a delay for our people. It is merely asking us to ask of the secretary merely that some consideration for these difficult bills so they do not

MR. [illegible]: I still have myself and [illegible] Members to think of the point who may have been stopped before reaching this place for hour or [illegible]. But anyway we have the right after spending all those years and accomplishing here [illegible] and we [illegible] himself and all the glory and the power naturally [illegible] with nothing to oppose us. So the Members may think that the people here [illegible] have done their obligations, those Members alone may [illegible] have been done. They must have [illegible] and [illegible] and nothing but which [illegible] to show up.

I will close now, Mr. President. I am [illegible] for support. However, [illegible] in [illegible], but it is, as the Shakespeare who said, "What is here [illegible] of these [illegible]. To [illegible] Shylock is not in our [illegible] but [illegible]". We owe it to [illegible]. We owe it to our people to see to it that these things are done, Mr. President, if not now, when; if not us, who?

Mr. President, I again beg leave to [illegible] the motion and if they want an [illegible] to the motion, [illegible] to do so, be done. That is all. I am not sure, Mr. President. I ask all Members to support it and [illegible] I ask you to [illegible] of the House to let this motion be a [illegible] vote or I vote [illegible] the Blessed Members elected by the people.

I thank you, sir.

MR. [illegible]: The motion before the House is [illegible] Member's Motion No. [illegible]. I will now call the roll of the [illegible] Members they have been [illegible]. The motion is open for debate. Does any Member wish to speak? The Honorable [illegible] Member of [illegible] County.

DEBATE ON [illegible] MEMBER'S MOTION NO. [illegible]

MR. [illegible]: Mr. President, having listened to the [illegible] of the motion I am wondering whether the Member should have really called it a [illegible] because, first of all, the motion. I am sure that the motion is [illegible], Mr. President. However, as far as I am concerned, [illegible] to [illegible] by [illegible] the necessity of [illegible] a preliminary [illegible] before [illegible] can have been suggested by the Members. Certainly, Mr. President, the [illegible] of legislation is not the first case [illegible] the [illegible] of a [illegible] preliminary [illegible] before [illegible] of the merits of these [illegible].

This motion, in my opinion, is a [illegible] example of [illegible] to put the cart before the horse. The [illegible] of [illegible] the [illegible] is the last thing to [illegible]. When the [illegible] by [illegible] the [illegible] I will have all of the [illegible] of the [illegible] before [illegible] vote it.

I [illegible] a [illegible] Mr. President, about the necessity of [illegible] the question of whether or not a [illegible] motion is [illegible] to [illegible] and I [illegible] to do so [illegible] to have it [illegible] once and for all. Time have been, as the Member said, [illegible] in the [illegible] before but I am glad to [illegible], Mr. President, that [illegible] is abundantly clear that a [illegible] is [illegible] in this [illegible]. If in my [illegible], Mr. President, we wish to [illegible] [illegible] after this Meeting is [illegible] the [illegible] [illegible] of [illegible] through [illegible] Members [illegible] a [illegible] [illegible] to [illegible] to [illegible] [illegible] [illegible] [illegible] [illegible] to [illegible], and if not, to [illegible] it.

MR. ROBERT C. BYRD (continued): Such a person would most likely be, Mr. President, a Fellow of the Institute of Actuaries of the Faculty of Advocates of Great Britain, or someone with comparable qualifications and experience. The matter, Mr. President, is not quite so simple as the Senator tried to make it in his presentation. He should certainly know that the reason why many people would be unemployed at this time, and have many years to be employed, is unemployment. Mr. President, it is not just a straightforward example like that. For example, I would hope, Mr. President, that my colleagues interested in this measure would consult with many others. When these factors are taken into consideration the apparent simplicity of the example goes out of the window.

Only it becomes much more complicated when one realizes that the greatest single employer in this country, the Government itself, has a non-contributory pension scheme which is part of the, what I said, universal system which operates here. There are other firms which also have pension schemes. If those persons are taken out of the pool then, Mr. President, we see a completely different picture. The case application form of negotiation will inevitably have to go on in order to see whether those persons are brought into the system, or people in similar circumstances in the future are brought into a system of insurance.

Nothing short of a proper actuarial study, Mr. President, of this whole circumstance will be with any certainty whether a pension scheme on the part proposed for the country as large, an unfunded one as I would feel it is. This matter, Mr. President, as I see it would not take too very long. This matter ought to necessitate legislation.

Mr. President, the notice to the Chief Legislation and then to study the legislation, just to study the practice of whether a contributory pension scheme is possible or viable. It is my contention that that is what first has to be looked.

We have evidence, Mr. President, that an actuary first took place in connection with the Government itself as I said the number of people available to pay their share to give all pensioners. We should say that because Barbados has a universal system that it is economically possible to work here.

Mr. President, the Senator from Christ Church East suggested that a vote against this motion was a vote against the establishing of a contributory pension scheme in this country. I might as well advise him now that I will be voting against this motion and I will not be voting against a contributory pension scheme for the country. I endorse the introduction of a scheme if it is possible but we must first, Mr. President, determine whether this is possible. I do not see why then, Mr. President, the motion can be amended to read implementation before it is withdrawn and substituted by a completely different motion, by which this application of study can be met. That waits for the drafting of the legislation.

Mr. President, I do not know what the Senator means because when he was debating the bill he denied the use of experts. He said that we were sick of being experimented to death. I believe that was his phrase. However, Mr. President, an actuary is only a term used to describe someone who might be more familiar with a contribution scheme and how that might be operated, or a breakdown. Persons familiarized with Government can be employed to work only. In cases where they themselves do not have the expertise, then actually is going to be left that qualification or training.

MR. GLENN D. BROWN (CONTINUED): I have just one concluding comment, Mr. President, on this question of a constitutional convention for the country. To be obvious to me that if we have a simple straightforward manner to be answered. As I said, I am convinced with the many steps you've had to go through, an extensive experimental in the field to come up, there's thoroughly study of the situation and build an issue card for all whether this matter of a constitutional convention method is possible to those reasons which are obvious problems.

I have hurried with scope of my presentation today, Mr. President, and I have also wanted to reemphasize the desirability of the scheme in our constitution structure. It is unnecessary to see how that particular scheme worked. However, Mr. President, it is obvious that it was not clear to witness and it has been and is continued actively every two years. While in part of Mr. Ross, it is evident to the Ross. Mr. President, I do not know why the question of labour legislation and parliamentary practices have not entered-broken in this matter. However, I am dealing generally with the matter before us. I will deal with the labour legislation as not which the Committee must and hopefully we will immediately bring a particular list of legislation before this matter.

The constitutionally Planning Bill as mentioned as going to be dealt with later today and I will deal with that when I get to it. However, in summation, Mr. President, what I am saying is that I support the provision of certain methods for the misuse in this country. However, Mr. President, it have to be done in an organized and accurate way, and it is my contention that we do not need legislation to prescribe the steps and that the legislation comes as a result of this study of it is I have that the method is feasible in our provincial and regional setting.

I trust that it will be found as and it will be my sincere pleasure to have taken part in the start of a possible scheme for these purposes. However, Mr. President, I support a method which in my opinion would be just the right before the House.

Thank you.

MR. PRESIDING: The Third Standing Member for Hamilton.

MR. JAMES E. JEFFREY: Mr. President, the matter before us as I can sense most members are ready, I was to begin upon the principal discussion of this motion. I certainly support the Bill being debated that Government was sincerely in the process of looking into this matter seriously. I mentioned earlier that this was not something which was being pushed under the carpet but Government was to face seriously looking into the matter.

I must say Hamilton Mountain is very to have been in here lately, I guess, caused like people opportunistically. There are many things which need to be done. There are many things which we recognized in our Canadian society which I for one hope to see accomplished. However, when one considers the time and the matter and that is taken place and time and expenses, and previous to get this particular scheme under way, then I feel that a motion calling Government to study this whole matter being a valid, its merit. I rise to commend the Member Hamilton for most any for his presentation. I do not necessarily agree with many points of it but I can sincerely say that I think that his deliberations are good, as was which.

MRS. DOLORES T. GARCIA (CONTINUED): However, at this particular time I cannot support the motion as it stands. I would hope to see similar views reflected in the not too distant future as well. I realize that years ago when older people were revised often by their children things were different. It is not as it was some ten years ago. It seems that most children have too much to learn care of an their own and some parents and older people to suffer as a result of not being properly looked after. It is a shame really that this should have to be, but it does exist. However, we can only do so much at one time. When I think of the money which this present Government has had to find and pay out for overstrengths made by the former Government, that is clearly obvious as not to have all that we would be here doing this year. However, there are many things which I hope to see accomplished and I hope that this particular motion will be one of those.

I feel that every effort should be made. I do not want to look only at what is not possible; it seems to do so. I feel that if we can be glad here all night we can. However, unless pressure is to be put on people our contribution on a purely optional basis many people would have to be paid in not unnecessarily all that one has to contribute.

Taking for example, and of course this is a big country but when necessary to purchase one single item a lot of money can go down the drain, and as I understand it some 95 cents out of every dollar which is contributed towards social security in the United States goes towards the administration of providing that particular scheme. So that one considers what will be taken in, there are many factors which have to be considered in what will actually be paid out of the money which would have been collected as a contribution from our people.

I think that something can be done. I certainly hope that we the study grant on as will find that it will not take too long to do so. However, I can assure Members of this House that it is my strong feeling that a pension scheme is something which is wanted and the sooner we get to it the better. However, we can do no only what we are a position financially and otherwise to accomplish it.

Again, I wish to commend the Senior Elected Member for Mons Ray for the scheme and his presentation. I also wish to endorse what the Honourable First Elected Member of Executive Council has said and I do feel that this House working together can come up with something which is workable and might for our people. I wish that I could say that I supported my colleagues. In this case, under the circumstances I cannot support the motion, however, as for an alternative perhaps it would be I should suggest that the matter should be dealt with, leave it over and hopefully we will find that it will be possible and desirable and it will be instituted in the not too distant future.

Thank you, Mr. President.

MR. SPEAKER: I think that it may be convenient if we now break for lunch, as I will suspend proceedings until approximately 2.15 p.m.

AT 12.48 P.M. THE HOUSE ADJOURNED

HOUSE RESUMED AT 8.47 P.M.

MR. PRESIDENT: Please be seated.
Accordingly, the resumed
Tai debate on Private Member's Motion
No. 1/93. Does any other Member wish to speak? The Senior Elected
Member for Bukom Zone.

MR. D. ARYEE ZOOOOM: Mr. President, ever since November 31
this House unfortunately chose I should Mr. Speaker of the House. For
all I do not speak, there is seldom any debate. When I do speak the
House is even packed.

I am looking, Sir, at the Private
Member's Motion which is before the House. The motion seeks to
provide assistance or pension benefits for old people. This time
of the Month coincided or the Christmas, how I have waited a long
time to the Chief Justice who is here present. But since I only
how I have waited a long time it possibly that was been to any great
extent, because it is only since the end of March that we have
seen, since it, the Judiciary sometimes may rejoin vacations for
substantial benefits.

Mr. Speaker, speaking on behalf
implementing an provident benefits for old people through insurance
policy and through group pension plans, I am a big believer in these
schemes. Because, the final thing which must be considered is the
funding of the scheme. Where is the money going to come from to
provide the benefits? The Member said about old age, "Our fees
to the morning and you have got it". However, this reality is not
it. One takes a long time to get the old age benefit in that
area is something like the United Kingdom and the United States
where old age and fixed allowances are to which we have paid
a whole lot they had which they were to. The reason for this
Country of the scheme. Where is the money going to come from to
provide the benefits? The Member said about old age, "Our fees
to the morning and you have got it". However, this reality is not
it. One takes a long time to get the old age benefit in that
area is something like the United Kingdom, which is not
a problem. So, there are a lot of people in the house and it was
thought a blessing to have a grandfather or a grandfather living to
be able to take care of the children and to help with the homework,

(21) C. MRS PEISER (CONSERVATIVE): Likewise, this whole family structure has changed in the Cayman Islands as well where we have old people in the home and the old people are no longer cared for in the home. Whereas in the old days we looked after them in the home, we have complaints about elderly. When there is a possible way that we can help the lack of child responsibility where there is no one available to look after the elderly for an appropriate, particularly if the relative is not in gainful employment, a payment or a grant/allowance.

All of these grievances of Caymanians I would highlight and hope [illegible] Many Caymanians accept that Hurricane Ivan is the one major risk, but the major and risks of higher risk rates, we will see rates go the roof [illegible] Hurricane Ivan is in his modest lifestyle. This is quite true. The modern conveniences which we have to deal with in our homes as well as the whole family life has been affected in where the family really are at a disadvantage. We have tried to put more money into old people to find employment. For example, once the Government - unemployment rate is looking [illegible] some of these older people are looking as economic refugees of the airports. I think that they are [illegible] to be there. To be the same circumstances around. Employment not on the usual people when there's attempts to [illegible] to find that they are getting on in age. All of this highlights how much [illegible] became to prevail what the new provisions that he worked, because there was only one economy of money in his world and there was work or enough of work. Unless we have money invested which helps us on Caymans, we still have to find money to will at people, and we do agree to not [illegible] Cayman.

There is also the possibility to move [illegible] by elderly persons, by [illegible] Many in [illegible] Cayman Islands since Hurricane Ivan, a [illegible] of older. There is sensitive persons who provide social care. I do see [illegible] of people who have moved one more owning up their property. I believe that the [illegible] will get worse.

On the other hand, where the Cayman [illegible] have provided [illegible] for their children that the rest of this that we pay, the more people will be [illegible] for [illegible] The good sign of the [illegible] is that it is not [illegible] to provide those benefits when it was in the past because on [illegible] the private sector is increased, business profits [illegible] Government therefore has the opportunity to provide [illegible] There seems to be also amongst the private companies, that desire to provide something for a pension, and perhaps a Government [illegible] the same [illegible] that a person who has lived a long [illegible] and lived a good life might need to be, as it were, rewarded for having lived so long.

The system before us is seeking a pension for people who, [illegible] for work, for whatever reasons, I [illegible] to me I said in this House before only a [illegible] might under-take the person that has served the [illegible] in running the country [illegible].

To assist a new [illegible] people find that [illegible] would be looking [illegible] who had not contributed before, but that is the way to avoid this. After the address to [illegible] number of people, most of the [illegible] would be the people who have made no contribution to the [illegible].

I have no declaration about this scheme. I believe that it can work. I only hope to [illegible] [illegible] by the present Government. The matter could [illegible] within nine months and the Member may or may not want to change his mind [illegible] a longer period.

MR. T. [illegible] (CONTINUED): Of course, we heard here yesterday that it will take two years to get agreement on the Caribbean College. This was the Minister's answer when I asked him if they would be looking again further ahead on the subject of university education in 1988. He would be hard-pressed to establish the 1988 to probably one year after we have established it in 1987. However, negotiations do seem to take a long time to get a consolidation of agreement about what the consolidation. If they want the consolidation they can finish with the signature of a pen on which a telephone call. Anyway, that's another matter.

The Opposition generally thinks to their idea is how is it going to be funded? The motion clearly recommends that we have a contributory pension scheme, which I imagine would be a scheme whereby most working people would put some money into it, however, I do not believe that that in itself would be sufficient to fund the scheme, because an ordinary private pension fund does not usually get funded by large multi-millionaire corporations, it does usually fall part way of a person's salary, to provide an adequate pension, a portion of about two thirds of his average earnings. So, if we are going to provide a scheme for all the people who will reach the age of 65, we are going to need more than a new contribution, even if the wealthy private sector are going to be expected also to be matched by the employer. If we are going to look for those other people who are not working like, say, housewives and students, and people who are not entitled to work, is it going to take funding from outside? I believe, without having done any actuarial calculations, that the sum of money which we would need in the future if we started this scheme, would probably be a sum of money equal to about half of the recurrent revenue to provide the type of scheme which I suppose would be provided.

Now, is it true that some of the other Caribbean islands have these schemes and I would say that we have fallen out of anything rather than some of the schemes which they have, because they are subsidized by the money Governments spend or else by the funds and by the benefits. If we are going to have anything at all, if we are going to have anything to meet the expectations of the people in the Cayman Islands, it will have to be weighted on the North American system, probably the United States of America. However, I would like to think that nobody should oppose this motion because we support a scheme like the scheme which was now provided under the United States social security system or the Canada pension plan. It would be impossible to do it.

Anyway, nevertheless, I believe that the scheme would be unrealistic at these early stages providing only a single benefit initially. Everyone knows that the United States of the Canada scheme provides many benefits outside of the pension. They provide not only the pension for the old person. They provide pensions for widows and widows. They provide payments for unemployment. They provide social assistance and so on. So, I do not think that anyone would expect this to be a fully funded scheme initially.

I have a little about the history of some of the plans provided by Government in the Caribbean countries, and I would perhaps like to give an outline of the various pension plans that have been started. The first thing that did was to find out how they were going to fund it. To ensure that sufficient by contributions I know you could notice that we all agree that we must also have contributions from employers too as well. To other words they [illegible] the scheme and they also wanted a share from them but as contributions.

MR. G. HEATH BARNES (Cockfosters): Now, we have a problem here in probably we should have to be looking at increasing Government's revenue in some way by an Income Tax increase next year, even if we have that in contradistinction from these people who work, because I believe that if we start this scheme it could not be right to put all taxpayers under it. For example, there numbers who are below the poverty line, there are those workers who are not working very much and can only be able to contribute anything at all. There numbers who receive cash on their own bike, say, people who are not employed by organisation but who work on their own and may not even under this system. It would probably happen that those organisations themselves provide certain benefits they might not be asked to contribute. However, even if we put contributions from the workers, I think that the Government if they are going to put in finance will have to find out where the money is coming from.

What I would like to see if the Government decides to go ahead is that they invite for a report who is responsible for the administration of these plans, responsible for raising the Government how they can find it, because I think that is the key to it. If the private sectors that they are willing for the tax to go up on their wages, or the employer only to go up on their wages, and if they can find out how to raise the money, perhaps we can contribute more and more from some more yet untapped. However, if we are going to raise substantial sums of money we have to provide the cash flow. Why, perhaps the answer would be to find some other way and to impose the tax, and reimburse part some money back. One might perhaps be going into.

We must look a few years ago that the United States social security system was in the hands of bankruptcy because the payments had gone to where the contributions of the people had given to such enormous proportions that they had outstripped the few people who were working to support it. It is necessary to get in enough in from the many people to still have to subsist the ones who are retired, because we have to remember that one population here is growing older every day. They are living longer every year. Now, we might have heard of the old person whose knew if the old people lived beyond the age of 100. However, the fact is that the Queen receives an card on the ninety centenarian annual birthday, the life span of the individual is much longer than it was at the beginning of the century.

The number who receive that if we introduce paying the pension, may be people would be the second problem to pay on the amounts under they are in. This may be corrected but I believe that payments would have to be made to many people much longer, because at birth today if we take any of the existing mortality tables, we will find that the life expectancy of a baby in now from 72 to 74 years of age. If a person reaches the age of 65 and is in good health, that person can well expect to be 80. So, it is known that all of these people will live to the age of 100. However, there is still the side which exceeds the 100th mark, but in any mortality table we will find that the probabilities are that they will be down to age zero and they will die at age 100. Due to the improvements in medicines and due to the improvements in sanitation and the keeping down of communicable diseases, are living much longer. This is what creates the problems with the pensions in the United States. The people are living longer, and if anyone eventually if they are those benefits to provide some of the basic necessities, this alone will enhance the lengths of life for these people.

MR. S. ALLEN PEACOCK: CONTINUING: So, if we think about providing a sensible benefit, and this is what I mean by reshaping of the Social Insurance system, of the order of dollars we will have to find and we are going to have difficulty showing it until our Government is in power to raise significantly the revenue base. Because this Government is in power to need quite a large administrative staff to deal with this new venture.

We have found and I've mentioned this once to the House that roughly 30 per cent of the money given to social assistance goes to recipients in need. The rest of the money goes to pay salary and to do administrative and clerical work, paperwork and that sort of thing.

The Member never did make mention of it once I was the word in her name. I was speaking slightly to some by which to speak on it. However, the fact is that any payments which have to be maintained unless we have to do it on a universal we are eligible to receive. If we have to do an arrangement by simply well pay the pensions or to see that payments are made, it is going to take quite a bit of administration, and this has to be reviewed for.

So, the reason is not reject the ability of the Government to implement. My own opinion is, that if this scheme is not pursued by the present Government, no increase will be taken of the ideas of the Opposition. They will just be rid them. Certainly if I have any idea at all I will come to an election before we will implement it, because we believe in it, I know that my views are never acceptable to the present Administration. However, I guess they have a right to vote as they like. That is their business.

The Canadian pension scheme was started with the idea that they could not provide everything for everybody initially. When one of the reasons why their scheme got off the ground. The way they looked at was that in the first year of the administration either they had just the funding in place, they have the benefits payable to all those people over the age of 70. The second year they made it payable to all the people over the age of 69 and then the next year to those over the age of 68, until they brought it down to 65. So, in the first year they were not giving the benefits to too many people. They kept increasing it every year. Then they also did not start out to pay to provide many benefits. They built first with just the pension aspect of it. Strangely enough their income started at $75 per month which was in the Canada Pension Plan after that.

Now, one of the disturbing things about a scheme like this is that it changes substantially from the very start and might happen in a situation like this is that once the amount is introduced we may find that the principle of providing to the most disabled would be that they were going to increase the benefits. It also becomes highly questionable and it may increase to find that the benefits were or possible payments then on account basis, like I spoke about the needs test earlier, both on a political basis rather than a universality basis.

The notice to me which is accepted by the House, must be studied in all its aspects. We must not only look at the benefit to the individual. We have to look at the people who are going to pay up the next year after year to pay for these benefits. This is especially true during the early stages, probably the first 15 to 20 years of the plan. There is two ways to look at it. One way is that the people who will receive the benefits are the people who have contributed the most.

MR. G. KITE SECRETARY (CONTINUING): ... if their services are to be maintained and if this is what the public wants, the public itself will realise that they will have to have sacrifices. They will have to make sacrifices to provide the cash which they would still spend on other things; perhaps spend even more profitably. They will have to deny themselves of some comfort today so that they may provide a better benefit tomorrow.

The motion is asking that the Legislative Assembly appoint a Select Committee of the whole House to consider the Land Tax Legislation, on payment the Land Tax Act. We accept that as a reasonable suggestion. I would suggest that if we are going to get reliable information that we get people who benefit from different areas. I would like to have a comment either from one of the large insurance companies like Metropolitan or Prudential, who are involved in the motor vehicle industry, who understand the projections into the future versus the assessment of the past, and that we also get someone with more broad knowledge from this area, not perhaps that we do not welcome local people because this scheme can be either a millstone around the neck of people or it can be a scheme which does do just enough to help building going. I suggest to the Hon. Minister for Transport who are the members of the Social Security Committee from the United States. I suggest to them, here are the members of Government services, people who are receiving pensions from private companies, and if we decide to have taxpayers they will all tell us that ... not enough they have given to the pension system, no matter how small it is.

The point I have is with these people who contribute nothing. I think that this is what the motion is seeking to remedy. I must say that the Member for Fremantle did a very good job in outlining forward the problems and he also did a good job on his research which was pretty accurate. He also mentioned that in 1972 the two Golden Boys Members of Parliament introduced a similar motion. If he would have researched he would have seen that the Government party in the Member who spoke today, Mr. Hassell, was the one who in 1978 and that his attitude has not changed substantially towards this scheme.

My attitude has not changed either. I believe in it then and I believe in it now. It is only that this seems to be the most appropriate time in the history of these Parliaments to think about this entitlement issue. It is a fact whether Governments like it or not that things are not well. In fact, before things can be well they must go out and make money to pay back the Treasurer which they have spent since January 1983. They must go back and get this Government back on a sound financial footing, get the economy back on a viable economic system in order to get back people feeling secure at Christmas. Where we do not have signs of recovery in the expenditure of money at the moment, where we do not have a lot of people spending like they used to, I have had a couple of people say to me in the Chamber today round the world, "We have got the only thing to succeed was one plan for somebody to put up a resolution like in the world". We have to get somebody and unemployment today in this country.

The time to put this in is really the time when the Government has offered it. I think a recession exists, but the Government offered this? I believe that the Government has offered it if they will change their whole way of the thinking of an administration which brought this Government from the Labor Club economically in 1972 to one of presently those ... last seven years of misery.

MR. S. KEITH RICHEY (Cambridge): We have to get out of this area on the seven years of income or at least I should say on the four years of income. I mean there is a change in the policy making of people in Cambridge so probably which is the five seven years of income.

Anything with this aside, I still have faith in this country. I still have hope for the future that if we are going to get this into perspective we are going to have to put the country back in a viable, financial position. We still have to get back to the principle stone which existed prior to the 1960 elections. If this can be done, and if I were to choose how this can be guided: what it can be administered: how it can be said that, I personally still support it. I would say that I commend the Mayor for having brought this matter to the scene. I would say that the most important to that I was visibly for my constituents to come back.

The motion is carried unanimously. Unfortunately, I was not home to hear the opinion of the Government as to their reaction to it. Perhaps it was a good thing that I was not here but I would like to place before Council. Nevertheless, it is my intention to support the motion and I trust that when the motion is presented we will take out the last three of which are reading just change them to read:-

> "AS IT APPEARS PROBABLE that Government is going ahead legislation to the Water Committee."

I recall the story of the Post Office Company when one of their managers recommended the building of the Telex voice car. They put a time limit on it and the engineers used to work, and the car was produced on time. However, the car was a failure and many few hours were sold and they were taken off the market. On the other hand, when the new manager Henry Ford III recommended the building of the Mustang, he said that there would be no time limit on this job but he wanted them to build a car which would match any system and one sold on the market. This is exactly what was produced. The Mustang made money for Ford than even the predictions forecast, and it made more money than the model T or the model A ever did until Henry Ford died of a stroke. It is all because the engineers could sit down and work out the plan, and try to get what was best know it.

I believe that this can be done if we do not hurry. I hope that it will not become the subject of the Provincial Election of these Bill that come under one of these resolutions which will be dealt with without debate and passed without debate. I would say that this Bill will be regarded as a Bill on which all the Legislators can, and individual to will have, but sensible business people around the province and here I talk of the one who buys "Wall, we believe this will work and that it will be done not on an emotional basis or on a political basis, but on a sound economic system where not only the benefits will be considered, but where the funding which is perhaps the most important part will be considered in great detail".

I am in agreement with the Government Members, having discussed these today hardly to visit with this new problem which has been dumped on their laps. However, perhaps this new problem which can not of their own creation as many of the other problems were, will shock them back into reality and they will sit down as sensible members of Government and study it during this recess, which although it would appear will be a long recess, it is a motion which deserves the attention of Government

MR. G. RAMA REDDY (Kurnool): ...is a problem which provides opportunities to be dealt with as speedily as Government can deal with it.

Thank you, Sir.

MR. PRESIDENT: I think that it may be convenient if we have completed proceedings for approximately ten minutes.

AT ALSO P.M. THE HOUSE ADJOURNED

HOUSE RESUMED AT 2.01 P.M.

MR. PRESIDENT: Please be seated. Proceedings are resumed. Private Member's motion No. 16/85. Dear only other Member still to speak? The Second Eligible Member for Coast, Zoom.

DR. ANYANGU A. ATEKYEREZA: Mr. President, I was here also to debate on Private Member's Motion No. 16/85 relating to a unemployment problem, that the Government South will make certain commitments must be held under their collective responsibility, because this matter, Mr. President, is a very serious matter indeed. I appreciate and the moves of this motion for the specific and the objective moves of that what should be put into the implementation of the proposition. I cannot congratulate enough the mover of the Honourable Elected Member of Parliament because he started that his presentation appeared to be that of a holder of economy, or a economics Minister. To me, Mr. President, that is misleading and making just as a very serious matter.

I should like also, Mr. President, to make it quite clear to this Assembly for themselves may not remember that in the final Meeting of this Assembly in December after the General Election, that I brought a question to this House which the same subject for in this original Member's Motion. For the records, Mr. President, I would like to state that question was question no. 1 which I moved on this floor on the 11th December, 1984. That question, Mr. President, was aimed at the Honourable Point Minister of Economic Planning responsible for Public Education and Social Services and it stands:-

> "Would the Honourable Minister, if any plans are being made to introduce legislation in the near future to provide for a compulsory pension scheme for employees in the private sector and those not already covered by the Government Schemes?"

Mr. President, this answer which I got from the Member does not seem to clarify much from his personal feelings. He stated that:-

MR. LEROY A. GOLDMAN (CONTINUED):

"The determination of existing legislative or the kind
referred to in the question will depend upon the nature
of a possibility study which Government will consider
undertaking in the near future."

In reply to the answer, Mr. President, I would ask supplementary and I have requested the Member to try to give me a little better idea of what is meant by the "near future". I would like to put to a think frame of what is meant by in the near future and I believe, Mr. President, that the answer I got earlier was not possible".

Mr. President, since making statements we are still getting the same answer in this Honourable House. Mr. President, since making after a possibility study was not even been undertaken. We have been told in this House that it is planned to commit us to study the existence of an airstrip. Mr. President, the word to sell is carved with many interpretations. Procrastination, Mr. President, is the thief of time. The Government doesn't have a cause from stepping, because brought by this other side of the House. I sit here, Mr. President, and see the result of this happening. I better from this side of the house will get up and be able to have ministerial responsibility to be made to the Honourable the Native Affairs. The problem, Mr. President, is that under section 5 of the Constitution they have normally no responsibility.

The reason of this motion goes on
because of the many answers who gave response on this matter,
Mr. President back in 1978, a Mr. Premier in 2011 and others.
Looking back to 1978 we are talking about 12 to 13 years. I
wonder, Mr. President, if this is the time frame which the Member
is contemplating when he says "in the near future"?

Is it the intention, Mr. President,
of Government to look into these matters seriously? I heard mention
made of putting the item before the House and then the terrific
thinking of those Executive would take place we are waiting for two
weeks. However, Mr. President, as in my view that the Members
are giving the impression that the Government is only minded of
a handful of people. The people who listen to these debates are
very intelligent people. They realize that no possibility legislative
can be brought to this Assembly unless there is endorsement or there
is done that legislation. This is undemocratic. We do not need to
spell everything out for people.

As since the Member stated that after
legislation for the introduction of a compulsory pension scheme
be brought to this Honourable House, it would be appreciated by
the most elementary mind that a possibility study would be necessary
before we could bring anything legislation for this matter. This
is me, Mr. President, in fact wanted attempt to simplify and give
you a concise notion. The motion will be lapsed into Assembly".
There is a certain phrase in this issue. "In the answer". "In
the near future". We cannot put a time frame in the near future.
I am not suggesting, Mr. President, that this matter is intentional
or it is not be unconstitutional in this matter. I am not suggesting
that. Besides we I appreciate that the answer of this motion should
change the composition of the motion. I am glad that the Minister the
second version which he had to mind because it could have made a
mockery of his substantive motion. As far as I can see, Mr. Presi-
dent, all that would be necessary is to take out the "the" in order
the motion should stand as it is otherwise.

MR. LAWSON of TEXAS (continuing): Why was not a zone made, similar to Zone 3, to bring in the necessary expenses since December, 1965? Why is it that we are just hearing about attempts will be made to bring in the necessary expenses to local units since 1965? How do we know that the people will be represented in this county? Mr. Speaker, we should never lose sight of the fact that we are here to represent the people of this country. We are not here to promote ourselves or to build political fences for ourselves. We are here to look at the interests of the people which we represent. I wonder just how many of us will be keeping up the political pledges we made? Do we remember what we promised when we were campaigning? Will we have the guts to stand up and say something when we think something has been done.

We realize, Mr. President, that this supplementary general revenue will cost the employee some money, but we also know that the employee will have to contribute something. This amount is compared to the necessary pension deduct in a fifo pension. This is something which he gets back as a matter of contract. It is not the usual expenditure. I wonder, Mr. President, if you look at the amount in this entire bonus about it a result of the reluctance of would be employers to participate in this scheme? Why do we not tell the people decide whether they want this or not? Why do we not go to decide for them that they will not want this scheme? Perhaps the possibility really and there is not enough whether it can afford the scheme or whether it is good for the economy. However, Mr. President, the attempt has not once been made to look into the matter.

Mr. President, let us take us get up on this side of the house and we firmly pronounce matters which are of essential interest to this country, but unfortunately they are hidden under the carpet. I would not bring for the sense of this bill, Mr. President. We do a very capable piece work. We does not want to expose to that position. I appeal to conscience. I speak for what I think is in the best interests of this country.

We have been told, Mr. President, that this pension scheme will cost money. We have this. However, we have not been given assurance to show that if an employee will be going to be paid $10 a month, that the state would withdraw one penny towards this scheme. Consequently, Mr. President, the taxpayer will still pay this subsidy.

Unless the Legislature wishes, there are provisions to be members of Her Majesty's Civil Service or any other company which provides a pension, that they are automatically out of luck. Mr. President, I know as a fact that there are a lot of people in this country, old people over 65 who cannot find the pennies to make together, and what they are dependent on the poor relief granted them through the Social Services Department. Unfortunately, Mr. Speaker, there are Members of this House who do not have this people realize. I have heard Members of the Executive Council get up in this House and ask, 'Where are the Welsh people in this country?' I wonder if they would have asked that question on the 27th November, 1964, since before the election? They know a lot of the Welsh people then. However, since the elections they have forgotten them.

Mr. Speaker, I like to say in this House appreciation that a lot of money will have to go into the rehabilitation of a redundancy payment scheme. However, we want to see a share of good faith. The matter should not be lengthened unduly.

Mr. LUNCEFORD (Mississippi): Mr. President, I thought I understood the Honorable Floyd Clarke of Pennsylvania would be so kind as to kindly explain his motion, his statement a constitutionary position wherein the self-existence of the system would have a constitutionary position, what is his actual opinion? It seems to me that the constitution is unassailable structure.

Mr. President, unless some Delegate responsible and a speaking vote really of which Congress but of Congress that and Little Congress, we have a lot of needy people. I am not going to stand here and support this a constitutionary position either on the previous for which time. However, I am going to suggest that we will help them to maintain their police and dignity. Congressmen are not a people who have to face their wants and their problem known to the world. So do not feel that we the elected Congress. They are a very special people, Mr. President, and our Government should encourage to help them to maintain that position.

We have heard, Mr. President, that in other Commonwealth countries when persons off state the Supreme Colonial Fiscality, this such a subject has arrived. My home Island of Bermuda with certain exceptions, in the Foreign Policy Islands and the other countries. Despite I am informed, Mr. President, I am not here pro-rendering the outcome of a Constitutional study. I am saying, Mr. President, that such a study should be given top priority. "In the near future", what is "In the near future"? We heard that since 1970. This is 1985 and we are still hearing "In the near future".

We do not want to hear cries of the privileged and capitalistic, but we cannot allow here our pride in our Government unless that Representation is based on proper studies. We must stop pushing this matter under and deal with it promptly.

Mr. President, Senator Hughes's Motion No. 14/85 reads:-

> "Whereas in a few short years a large number of Commonwealth will reach maturation or retirement age, and become a burden to our social programme."

I submit, Mr. President, that unfortunately this problem has been answered by experts. We have neighbour there years. We are outside their power but it is different, Mr. President, if we are not to study problem to implement which the Islands provide that. There is the work manpower. There are not many of our experienced citizens for their sight of their own responsibilities. It is not enough, Mr. President, to go round the countryside provide and Rise in the High Society. As pensions of our Commonwealth who people below the middle income level of our Commonwealth simple and those are ready of our people who are on the minimum level. Those are people, Mr. President, who retire on the pension to the age of 65, so and 99 who are not able to save a penny because of the amount of Commonwealth which they have. We are helping our people. We are trying to realize them by looking into matters such as the problem of Commonwealth pension scheme.

Mr. President, my concern of this Private Member's Motion is not the aspect of an individual in this House. I am appreciating we have until I think it is the most interest of our people and I suggest studies have arisen, Mr. President, that this matter should be given top priority also months. Time expires, Mr. President, that is argument of this Private Member's Motion that I should like to see this matter thought of a priority also.

MR. EDWARD J. OSTICK (COMMISSIONER): I understood, in support of the honourable First Elected Member of Executive Council, that he had invited us that afternoon to another meeting and I commend him for that. However, this does not take the place of a proper study being done. As the Second Elected Member for Sudden Task pointed, why not today do people who are qualified for pensions, or the retired? Because they are not in here and let them make decisions in this country. It is not enough to go off to another country and then take decisions. We can hardly compare the system in a country with 80,000 to 90,000 people and feel that it can work in the Cayman Islands with 22,000 people unless it is properly monitored and amended in the hands of the people of this country.

Mr. President, I am also appealing to the social conscience of the people in this House. But for the grace of God we would be one of those poor people who travel each day on poor relief. We should be in the same position that God has helped us to come here and try to help these people. What are we doing with the privileges and opportunity which have been given to us by the people of the Cayman Islands to represent them? Are we showing this from the inside?

Mr. President, I hope that each Member of this honourable House will have another look at this motion. As I said, Mr. President, with the exception of the views from in this motion I support and I commend the Second Elected Member of Executive Council for moving this motion. In my opinion, Mr. President, this is unbelievably low pensions. We must realize that inflation is going on. We have stated that a responsibility already will be done. Therefore, I do feel this procedure is being done then there should be no problem for him to understand that anything legislation will have no effect.

Mr. President, again I wish to commend the mover of this motion and I thank you, Sir.

MR. SPEAKER: Does any other Member wish to speak, the honourable First Elected Member of Executive Council.

HON. CAPT. CHARLES L. KIRKCONNELL: Mr. President, I would like to give support to the Member who introduced this motion for a considerably increase pension and I thank his motives for the people. However, Mr. President, there is a right and wrong way to do anything, and I do not agree with the move that we can establish a considerably pension scheme in this motion.

One cannot even simply a number whereby we take action which can be established here. Anyone a proper feasibility study has been made by experts in this field. The honourable First Elected Member of Executive Council said that we cannot put the cart before the horse. One does not commence to build a house by starting with the roof because first a sound foundation and build from the ground up.

Nevertheless, Mr. President, there is no such thing as feasible investment. We all here think the welfare of Government then also that must. We must have a feasibility study made and build from that where possible. We will have to determine first and foremost how we are to fund such a scheme bearing in mind the views of our people, otherwise anything in this Legislature honestly will be viewed of unfeasibility the public. The Second Elected Member for Bodden Town addressed this point very well that the Government likely in this matter is wrong. Where is the money coming from?

MR. SMITH, Chairman of Appropriations Committee: We must not delay our decisions and all Members of this House assume certain full responsibility and vote [illegible] for the good of our people.

The need for civil aid appropriations is very evident and is increasingly costly, and it is more urgent than ever before. It was pointed out by the ranking Member that in former days Government had checks [illegible] which they could fall back on. However, today most of those have been cut off, have tied and they have no fall back position.

It was pointed out, Mr. President, that any actions must be reviewed every two years, however within two years that will be outdated. Today we recognize, every [illegible] is in compliance by law to maintain those [illegible] and update it. So, whatever Government may have said, still before making any very large to be studied and updated, and this is the nature of the [illegible].

Mr. President, it is the concept of Government to have a [illegible] for our people that is now [illegible] to take [illegible] and money to [illegible] position to a reality. Just as we [illegible] values of this [illegible] and vote for here and try to make [illegible]. This is how [illegible] we will have to [illegible]. But we have [illegible] and if we have [illegible] to see [illegible] for our people.

I thank you, Mr. President.

MR. PRESIDENT: [illegible] any other Member wish to speak?

MR. JESSE D. [illegible]: Mr. President, I would like to speak but [illegible] and will be [illegible] for the [illegible].

MR. PRESIDENT: I am in the hands of the House. It is quite true that there are only seven [illegible] before the [illegible] and if you can [illegible] to [illegible] I am sure that it would be [illegible] for you to...

MR. JOHN E. [illegible]: Mr. President, I am [illegible] that I will not be as long winded as previous speakers and I am glad of what I have to say in the time allotted.

Mr. President, I have sat here and listened to previous speakers and although on their [illegible] they have taken time to present their [illegible], the truth of the matter is that we are all saying the same thing. We support a [illegible] program. However, Mr. President, I feel must state that the [illegible] before us is very good. It is a very excellent idea and I [illegible] [illegible] in supporting the Member who presented this [illegible]. However, Mr. President, what I cannot agree with is the fact that we have in this section [illegible] which to me is very [illegible]. This is a very serious error, Mr. President, and I would like to see, first of all, so that back mentioned here, a person possibility already [illegible]. I would like to see the [illegible] of our people and at that time I can find myself in a position where I can fully support the [illegible].

Mr. President, quite recently through [illegible] through this House, and I refer to the matter with [illegible], actions and rates, we personally [illegible] people were and it should have never happened. I agree that this [illegible] should have investigated before but if [illegible] we have [illegible], why cannot we wait at least another year and be sure the right way?

MR. JOHN B. ANDERSON (CONTINUING): Now I said, Mr. President, the outcome of this motion is very good. As the Second Ranking Member for George Town sometimes I should hope that the Honorable Five Floated Member of Washington Circuit will not make this motion lightly, but will endeavor to work towards having a possibility study like we have this time.

Again, like I said, I am not superstar, I'd like more months but I do hope that he will try to get his photo Monday. It is unfortunate, Mr. President, that so much time had to be spent in this House today, or I should say wasted on a frivolous stunt as this one, because the trouble and the fact each Member knew I have listened to his mind like some sitting.

I thank you, Mr. President.

ADJOURNMENT

MR. DENNIS D. DOYLE: Mr. President, I move the adjournment of this House until tomorrow morning at 10:00, A.M.

MR. SPEAKER: The motion is that this House do now adjourn until 10:00 tomorrow morning.

QUESTION PUT; AGREED. AT 4:30 P.M. THE HOUSE ADJOURNED UNTIL 10:00 A.M., FRIDAY 6TH SEPTEMBER, 1968.

FRIDAY

6TH SEPTEMBER, 1996

10.00 A.M.

MR. PRESIDENT: I invite the Second Division Member for George Town to say prayers.

MR. LENFORD A. STANLEY: Let us pray.

Almighty God, from whom all wisdom and power are derived: We beseech Thee so to direct and prosper the deliberations of this Legislative Assembly now assembled, that all things may be ordered upon the best and surest foundations for the glory of Thy Name and for the safety, honour and welfare of the people of these Islands.

Bless our Sovereign Lady Queen Elizabeth, the Queen Mother, Prince Philip, Duke of Edinburgh, Charles Prince of Wales, Prince of Wales and all the Royal Family. Give grace to all who exercise authority in this Commonwealth that truth and righteous, mercy and justice, religion and piety may be established among us, especially we pray for the Governor of this Islands, the Members of the Executive Council and Members of the Legislative Assembly that they may be enabled faithfully to perform the responsible duties of their high office.

All this we ask for Thy great Name's sake, Amen.

Our Father, which art in heaven, Hallowed be Thy Name, Thy Kingdom come, Thy will be done in earth as it is in heaven. Give us this day our daily bread: and forgive us our trespasses, as we forgive those that trespass against us: And lead us not into temptation; but deliver us from evil: For Thine is the Kingdom, the power and the glory, for ever and ever. Amen.

The Lord bless us and keep us. The Lord make His face shine upon us and be gracious unto us. The Lord lift up His countenance upon us and give us peace now and always. Amen.

MR. PRESIDENT: Please be seated.

Questions. The Second Elected Member for George Town.

QUESTIONS

THE SECOND ELECTED MEMBER FOR GEORGE TOWN TO ASK THE HONOURABLE SENIOR ELECTED MEMBER OF EXECUTIVE COUNCIL RESPONSIBLE FOR ENVIRONMENT AND NATURAL RESOURCES

NO. 111: Would the Member state whether the proposed exploration plan put in the Cayman Islands has received final approval by Government and if so, what guidelines have been set to protect the environment from possible pollution?

ANSWER: Sure. An agreement which gives the exploration plans certain rights over Crown Ogrem has had the final approval of this Government. Regarding the second part of the question, both, the petroleum agreement and the petroleum regulations provide many possible procedures against pollution.

SPEAKER: YUKON: Yes, of the four remaining outstanding matters to be resolved, one principal one is by a joint management initiative and the development plan finally approved by the Government of Canada. The joint management committee made up of three persons appointed by the applicants plus one has been established and the necessary appointments by Ottawa have been made. Consultation with the Yukon Government will be given for nothing within the three mile limit, right?

HON. ROBERT G. MCKINNON: In addition to this answer, Mr. Speaker, I should say that Bonanza Limited filed an application in 1979 for the agreement and the licence which is now in force. The application was rejected only by the Yukon Government.

APPLAUSE.

MR. PROCUNIER: The Prime Minister moves for the Orders of the Day.

SPEAKER: Mr. Speaker, a point of order. Would the Member please withdraw what he has said? Would the Minister please withdraw what he has said?

HON. ROBERT G. MCKINNON: Mr. Speaker, I do not believe that the Member is correct and I will be prepared to withdraw it if he can satisfactorily show that the words of the Deputy Prime Minister are not quite parliamentary.

MR. SPEAKER: The Prime Minister moves for Orders of the Day.

MR. LAURENT A. PICARD: A supplementary, Mr. Speaker. In the answer to the question regarding the second part of the question, the Minister said that both the exploration agreement and the exploration regulations provide for every possible protection against pollution. In reviewing the petroleum regulations, I found a mention of possible pollution within one three mile limit. I wonder if the Minister could state whether any permission will be given for drilling within the three mile limit, please?

HON. ROBERT G. MCKINNON: Mr. Speaker, the Hon. Member has expressed views that I certainly appreciate. They are only considered in drilling matters.

MR. SPEAKER: If there is no further supplementary... The Hon. Minister Member for Beddis Bay.

MR. C. BARRY KENNEDY: Mr. Speaker, I have a supplementary but I did not seem to find where the Member stood on the end of the season. I was just trying to see if he was there. My supplementary question is dealing with the agreement being signed back in 1978 and the licence not been given now, I am wondering if I can now hold the Minister responsible for the licence given prior to 1978 until now?

HON. ROBERT G. MCKINNON: What I said was that Canadian Superior was entrusted to take exploration back in 1978. The reason why the agreement and the licences were not finalized until now is because neither the Member himself nor anyone else brought the environmental concerns to us.

MR. G. BARRY GOLDWATER: May I ask the Senator if it is his opinion that this Agreement is, at this time or at some future time, going to require a Treaty to be ratified by the Senate?

SEN. FRANK J. CHURCH: Mr. President, it seems this would be a proper subject for discussion and eventually incorporated in an agreement which would be signed and submitted to the U.S. The contents of that agreement and the Senate would then be able to have any comments.

MR. G. BARRY GOLDWATER: In other words in the Soviet system, Mr. President, and I am asking the question, that what he has just said is the case because he said what he could when he knew the answer. So in fact, what they seek is agreement and from a process that may not be put into force for some considerable period of time?

SEN. FRANK J. CHURCH: That seems to be correct, Mr. President. It is contemplated that the agreement which is signed will be submitted to the Senate for its consideration and ratification by the United States and put on the list here many long ago. I would point out that during the period in which this agreement was being negotiated that there were several instances where the Soviet Union violated its provisions or took actions which were inconsistent with the spirit of the agreement. I am not sure what the Soviet Union has done in the future. We have announced that there will be a full reinstatement of what was being negotiated, and is essentially contained in the agreement which we signed there today. It is left, I think that is one of the reasons why the negotiations concerning this subject were prolonged and approved by the Government of the U.S. and essentially Soviet Union's good faith in the application which we are watching there today. It is, there are the expected and practical problems in the first approval of this application.

MR. G. BARRY GOLDWATER: Mr. President, in this world, by the uncertainties that lie in our future the reason why the agreement was not signed, certainly we agree that the reason why we believe was given was because the former Government failed to change the Soviet's ways, not in the Soviet, but in the Soviet's and to make provision for negotiation to be held so the Government could be in the Soviet's hands. While we admit that that is the reason why we signed the agreement?

SEN. FRANK J. CHURCH: Mr. President, whatever the motivation of the former Government might have been, the fact was unquestioned, yes, and that negotiations opened, however, the Government was certain was which had no provisions in it to implement the provisions which were understood to all from negotiations might. It was not until the [illegible] Administration that the negotiations were made. So, Mr. President, why the wise [illegible] that I can only the negotiations be pursued. It was the most important which was the use and the negotiations.

MR. G. BARRY GOLDWATER: Mr. President, may I ask if the Senator is not prepared to, what is going that the former Government would have, which is being an agreement to the Soviet to change the ways of rights so that negotiations may go on the Soviet's Nuclear Weapon Treatment, which if nuclear negotiations proceed a nuclear. It is the purpose of the Senate the nuclear nuclear rights in the Government as it was set in the original form

MR. JAMES O. EASTLAND: ... Mr. President, does anyone know if we can get something like that in the Constitution? Suppose that a member called the Government might want to have an opportunity to object which might develop from this provision, possibly not be known.

MR. [illegible]: Mr. President, will the Senator admit that under the Constitution the Congress can by majority vote do away with the Supreme Court of the United States, if it wants to?

MR. MICHAEL J. MANSFIELD: Mr. President, did you get unanimous consent to have printed in the Record the Constitution of the United States?

MR. [illegible]: Mr. President, they were not part of the Union. They are not members of the Union. They do not [illegible]...

MR. PRESIDENT: With respect to the treaty as to the Union. It is beginning to be the nature of the Union. In the event Puerto Rico should become a State, the Senate would have to ratify the treaty.

MR. [illegible]: No, I think that the Government of Puerto Rico practice will be observed.

MR. [illegible]: It seems to me that part of the question might have been solved by Standing Order 22(2)(g). The question does go a long time. The first part of it seemed to be criticizing the action of the Supreme Court in that case. The second part of it, I thought, could be cured. That was the part about whether the Senate could give an assurance that the Treaty would be amended. I am afraid that I have forgotten the precise wording of the amendment, but I think that the end of it is acceptable to the effect that would not affect the assurance that the Senate would be asked to give the Territory certain rights. As I understand it, it is not think that that really is taken care by Standing Order 22(2)(g)(xiv). However, I do think that the first part which I have forgotten, was ruled out of order by Standing Order 22(2)(g).

MR. [illegible]: Mr. President, since reality commences in the real office the last week on the Senate floor from 1879 and the Senate Government has not given back to office, since they did not use it to amend or replace or modify the committee reports and votes.

MR. [illegible]: Mr. President, will the Senator yield? Does the resolution [illegible] Treaty, although as the Senate, has no rights? It will involve a decision to amended under the [illegible] and would be admit that was that they are prepared to permit a decision that he will accept his [illegible] to be ratified?

MR. ANDERSON: I think really that we have already the right kind of plan for the proposed operation, and we are making progress and fine. I think that I must put a stop to the speculation which go on far from the original question. If it is a supplementary which goes back to the original answer then I will object I therefore rule.

I pass the Leader Opposition Member for Cape Ray got up... If your supplementary is to an which has nothing to do with original question then it is principle. If it is principle the line along which we are going, I think that we must put a stop to that.

MR. W. ROWE: Mr. Speaker, I have a supplementary. Only that it was said in the House you are sympathetic whether it is the policy or not. Could the Premier say whether the Speech of the Opposition has been pre-determined?

MR. ANDERSON: That is absurd.

MR. ROBERT G. BOWNESS: Mr. President, the answer is no. The information which is to be determined should be placed before the joint management committee and if the joint management committee agrees with the programme, then steps are to be taken to proceed for final approval.

MR. SPEAKER: The Honourable Member for Baddeck.

MR. C. WM. CARTER: Mr. President, may I ask the Member what is the policy of Government regarding the municipal strike? That is if the strike does terminate in the next few days before the opening of Orange Lodge, would Government still be prepared to go ahead with the expenditure?

MR. ROBERT G. BOWNESS: Mr. President. I assume the right any municipal Executive Council might take on this matter.

MR. SPEAKER: I think that that question in any case was probably out of order by Standing Order 23(7)(j). I think that we have got on to the next question. The Honourable Member for Orange Lodge.

MR. SCOTT: Would the Member state the number of Provincial Civil Servants appointed since the coming into effect of the recommendations included in the work of reclassification under the Merit Commission Amendment Act, 1968?

MR. SPEAKER: Yes.

QUESTIONS:

MR. W. MACNEIL: Mr. President, may I ask to what does the Premier have reference?

MRS. PAIGE G. DUNCAN: Yes, Mr. President. These Members have spoken to your four local associations.

MR. C. ALLEN HARRIS: Mr. President, a supplementary. Will the Member who sponsored these seven additional amendments for Licenses Inactive please explain?

MRS. PAIGE G. DUNCAN: Yes, Mr. President, there are many misconceptions before the board now which have not been dealt with.

MR. C. ALLEN HARRIS: Mr. President, may I ask if any of these Members were present to testify on Senate Bill 24?

MRS. PAIGE G. DUNCAN: Mr. President, the Senate Committee heard their additional amendments as they were requested. I am not sure whether Senator Rose or Dick Bell have made explanation to the Board or not.

MR. C. ALLEN HARRIS: Mr. President, will the Member yield? I misunderstood the question made by the young lady a moment ago to the effect that Licenses would only be granted to four bona fide operators?

MRS. PAIGE G. DUNCAN: Yes, Mr. President, that may be brought about by the appointment of the Legislative Assembly regarding the amendment of the Marine Conservation Law, which recommended in the first instance a ban on gillnets. However, the Legislative Assembly decided that the ban should be replaced by restrictions in order that people like the four bona fide operators would continue in the business.

MR. C. ALLEN HARRIS: Mr. President, may I ask the Member if it be correct that neither the law nor the Regulations state only four bona fide operators would get a license, or if this was something of a policy matter by Executive Council? Could back to the Marine Conservation Board?

MRS. PAIGE G. DUNCAN: Mr. President, the Marine Conservation Board acted as a guideline the views expressed here in the Legislative Assembly in passing the amendment law prohibiting for nonresidents to operate.

MR. C. ALLEN HARRIS: Is the Member saying that the members of the Marine Conservation Board were given views like how was the Regulations, and did not adhere to the letter the Regulations as passed by Executive Council and the law as passed by the Legislative Assembly?

MR. SPEAKER: I do not really think that that is an order under Standing Order 41(1)(g).

Let us pass on to the next question which has no doubt been answered adequately. However, for the Member sake let it be written.

THE HONOURABLE MINISTER OF HEALTH AND SOCIAL DEVELOPMENT: Mr. Speaker, may I have the question repeated?

MR. C. ALLEN HARRIS: Would the Member please read my question to Senator Carnell?

MR. SPEAKER: Would the Member please repeat his question?

MR. C. ALLEN HARRIS: Mr. Speaker, would the Senator please explain whether or not there will be any quota restrictions on the number of licenses issued?

MOVED: Deferrals for the Processing of applications have not yet been finalized. Determination on the effective date of deferralships should be the entire Conservation Commission has been unable to do so prior to the end of December, 1973, to adopt the entire Conservation Commission should be better appropriately.

SECONDED:

MR. C. [illegible] ROGERS: Mr. President, may I ask if the corporation counsel has any of the questions that these Commissioners may see that for a couple of months now?

MR. HARRY G. JOHNSON: Mr. President, I think that the Mayor read especially the first page of the issue of the Democrat Corporation newspaper because the issue of Thursday, 25th August, 1973, had a press release entitled "Democrat Municipal Services", and in that article we dealt with the subject of the supplementary services which the Mayor's office does. Now, all members of my corporation counsel have available to them that the restrictions and powers of the municipalities are vested.

MR. C. [illegible] ROGERS: Mr. President, since the question is not available to me I wonder if the Mayor would rise at this time and have it be [illegible]

MR. HARRY G. JOHNSON: With pleasure, Mr. President.

"SUPPLEMENTARY SERVICES

The supervision of sewage facilities which are to have existed on August 1973 has been assumed for these reasons until the end of December. Acting City Commissioner, the Honourable Ricard Johnson, City Health for Environment and Natural Resources said the inspection had been taken as a result of complaints on the proposed assignment for the Municipality of Mississauga. During the recorded period Mr. Johnson said although would be right to the Municipality of adopting slightly more lab-test services for the operation of Mississauga. In considering the new growing the Mayor said construction on the expenditure of approximately would be one of the problems to be considered. Discussions would be held with the Ontario Conservation Authorities the Executive Committee were asked to approve the guidelines be drawn as a result of the resolution of the new proposed for the powers and use of sewerage plant be discussed during the period. Areas can have accepted in the supplementary agreements and powers to these approvals in the policy requirements that not supplies be the Municipality are delegated [illegible]

MR. SPEAKER: The third Provincial member for West Bay!

MR. JOSEPH T. PEARCE: Thank you, Mr. President. Would the Minister kindly indicate if any one should be used for investigation these same operations who are Lawson Electron, Chairman-Chief of Public Services of [illegible] in the West Bay, Joint Sub, Ontario [illegible]

MR. HARRY G. JOHNSON: Mr. President, as I said before, the [illegible] for inspection of operations are still being discussed by the Ontario Conservation Board. At this particular time I cannot provide what the [illegible] will be. So it is difficult for me to give a direct answer to the supplementary posed by the Third Member from West Bay.

MR. [illegible]: I think that the Chief Elected Member may have my hon a further question.

HON. EDWARD T. BENNETT: Sen, Mr. President. What I am seeking from the Member is an assurance that no political statement is going to come forward in the decision of next day. So, I would have that the Member can assure me that everyone will be treated equally as far as [illegible] concerned.

HON. MAGGIE C. JOHNSON: Mr. President, I ask assure the Member seeing that appropriately that there was the very reason why there was an extension of the nominations, because it was stated to Government that this was one which the public questioned, why Members were only given so few days nominations.

MR. PRESIDENT: There are two or three of you standing. The Elected Member for East End.

HON. JOHN D. WATLER: Mr. President, a supplementary. I wonder if the Member would say whether the extended nomination is as a result of demands received from the public?

HON. MAGGIE C. JOHNSON: Mr. President, the public did make our direct representation to Government, except on one occasion the Chamber of Commerce spoke to Government about this. However, what really prompted Government to extend the nominations were discussions which were held with Members of this Legislative Assembly.

MR. PRESIDENT: The Second Elected Member for Bodden Town.

H. G. PAIS BODDEN: Mr. President, may I ask which discussions with the Legislative Assembly are to now referring to?

HON. ALDEN C. McLAUGH: Mr. President, the Elected Member for North Side and the Second Elected Member for West Bay.

H. G. PAIS BODDEN: Mr. President, may I ask why all other Members were excluded from this expensive discussion since the matter was for the Planning seems to have been placed on the Government? Why were not all the Members privy to this matter?

HON. MARCH C. JOHNSON: Mr. President, my office is open to any Member of this Legislative Assembly. I have this above any misapprehension on the public, largely because it appears to them that it was discrimination to have Members only by very few representatives. It was in this hope that the Members whom I informed of appointment me was taken me to come here on to the Marine Conservation Board. The action which was taken was not action which I took. It was the action of the Marine Conservation Board.

MR. G. HUGH BODDEN: Mr. President, may I ask what is Government's policy with regard to making this announcement this year that will indicate here when the South Sound is no more shore fish lynch and the use of the Law is to prosecute fish traps? Why is it that they are prevalent because the expenditure is to be used to the South Sound and no other areas? Are they trying to destroy the breeding grounds of our fish there?

MR. PRESIDENT: I think that we are quite ready either for from the original sponsors have also had a lot of representations on this participation question. I think that we should vote on to change. There are several more questions on the order paper but we have already taken nearly forty minutes on the first three. I think it unfair to other members who have put questions that they should be given their chance.

The Second Reading Member for Moose Jaw.

HON. W. WESTON HUGH: Mr. President, I believe that those two questions were answered yesterday in the course of question time.

HON. PRESIDENT: I think that is correct.

HON. W. WESTON HUGH: However, for the record, Mr. President I would like them answered. If possible. They are still my questions now ask.

MR. DICKINSON: Well....

THE ORIGINAL QUESTION WHICH WAS PUT BY HON. THE MINISTER WITHOUT PORTFOLIO RESPONSIBLE FOR CORRECTIVE LABOUR AND PROVINCIAL PARKS AND RECREATION ADMINISTRATION

Q. 11: Would the Minister please how many school children were employed by the Park Authority in the Moose Jaw Wildlife Foundation was discontinued, giving the number of children from each District?

ANSWER: There were seven (7) school children employed by the Park Authority in Moose Jaw, 1984, when the Wildlife Foundation was discontinued, giving the following breakdown by Districts:

Moose Jaw	10
Swift Current	2
North Battleford	2
Yorkton Area	Nil
Weyburn Area	Nil

QUESTIONS:

HON. W. WESTON HUGH: Will Moose Jaw not get more employment this time, Mr. President?

HON. PRESIDENT: Order, Order. Would you like to ask your next question?

HON. D. LEWIS MILLER: Supplementary, Mr. President. I see that the figures given are totally unusual to previous Districts although North Side got the Middle Lake Mr. Minister, I wonder if there was any advertisement placed for those vacancies which might have given children from the Districts opportunities to apply?

HON. GOVT. CHARLES LUTTERMOSER: Mr. President, Regarding to advertisement placed for scholarships to be employed on the Park. As I stated in one of the previous answers, the Park Superintendent, Mr. Pierson had the employment to promote these scholarships.

MR. GILBERT A. ROBINSON: Mr. President, it is the normal duty of the Secretary of State to negotiate treaties and agreements. Should the Secretary of State be given the responsibility which he does not have, would the Senate place upon this body the responsibility of the Secretary of State, or whether the Secretary of State is to be the one to do the job?

MR. THURMOND: I think that question was answered this [illegible] day or two?

MR. GILBERT A. ROBINSON: This same question could be now being asked, Mr. President, was answered yesterday, was given several times.

MR. THURMOND: I do not think that the matter of [illegible] was asked before was it, with a knowledge to Secretary of State, Mr. President.

MR. ROBINSON: I do not recall [illegible] back a [illegible] which actually would [illegible] legislation by Executive. However, I am unable, I think, to supplement my [illegible]. So, if you have had the answer you said it to be, as stated.

MR. H. MONROE BUSH: Mr. President, on a point of explanation, Mr. [illegible] my question. I am not trying to [illegible] anybody. I was just doing my duty as people asked me to do.

THE SECOND ARTICLE WOULD NOT SEEM TO ALTER THE RESPONSIBILITY UNDER EXISTING TREATIES OR EXECUTIVE AGREEMENTS NOR COMMUNICATIONS WITH THE UNITED NATIONS.

MR. LEE: Would the honorable member state whether the Bricker Amendment intends to reiterate the foreign policy at a later date?

MR. H. MONROE BUSH: Again this was again discussed on the Senate floor.

MR. ROBINSON: I do not think that was been asked [illegible] as I think [illegible] to be an error.

ANSWER: The answer is no. The Board of Directors of the Farm Bureau have decided that it is not in the best interest of action the part on the Senate floor to employ them. The Bricker case is established [illegible] and Americans for nuclear [illegible]. Furthermore, we have had counsel opinions on the Bricker Amendment [illegible] have the difficult to control cases on the premises.

It is also [illegible] whether or not the Farm Authority would be [illegible] by discussions on the merits of a treaties executed in part of these type.

QUESTION:

MR. D. MONROE BUSH: Unfortunately, Mr. President, could the member give the impression that any hearings or any [illegible] which could at one point in the future will be discontinued?

MR. GILBERT A. ROBINSON: Yes, Mr. President.

MR. FORD OF KANSAS: Mr. President, will the Senator say whether the $12,500 or whatever the figure may be which was included in a ruling by the Joint Committee will be used to exempt wives who have practically no income? I should like to have an answer.

MR. SMATHERS addressed the Chair. The PRESIDING OFFICER. The Senator from Florida is entitled to speak, and he will be recognized.

MR. FONG: The Senator from Hawaii [Mr. FONG] has been trying to get the floor.

THE PRESIDING OFFICER: The Senator from Florida has the floor.

MR. FONG: Mr. President, will the Senator yield?

MR. SMATHERS: I yield.

MR. FONG: Under the committee bill, the number of dependents would be increased from six to eight. Would the Senator from Florida explain how many persons would be exempted?

MR. SMATHERS: I am not prepared to answer that question at this time.

MR. FONG: Mr. President, I ask unanimous consent that I may have printed in the RECORD at this point in my remarks a table showing the number of persons in various income brackets who would be affected by the committee amendment.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

(a)	Domestic workers	(h)	Physicians
(b)	Agricultural workers	(i)	Engineers
(c)	Seamen	(j)	Musicians
(d)	Nurses	(k)	Entertainers
(e)	Members of religious orders	(l)	Students
(f)	Authors	(m)	Employees under certain
(g)	Teachers	(n)	Employees

NOTE: The number of such persons in each income bracket who would be affected by the amendment is as follows:

	INCOME	1970	ESTIMATE
(a)	Domestic workers	4,000	4,000
(b)	Agricultural workers	50	50
(c)	Seamen	57	57
(d)	Nurses	34	34
(e)	Members of religious	3	3
(f)	Authors	14	7
(g)	Teachers	39	47
(h)	Physicians	50	60
(i)	Engineers	85	115
(j)	Musicians	4	10
(k)	Entertainers	2	1
(l)	Students	16	4
(m)	Employees	27	9
(n)	Employees	9	5

Totaling a grand total of 961,000 persons and 375 millions.

ADJOURNMENT

MR. M. MANSFIELD: Mr. President, could the Senator from Hawaii say whether the managers of Senate bills would be willing to have a unanimous consent request?

MR. SMATHERS: Yes, Mr. President.

MR. M. MANSFIELD: If not, Mr. President, I do not understand that answer.

MR. [illegible]: [illegible] Chief Whip as to precisely [illegible] the answer was no. It was quite clear. You asked a quite straightforward question.

MR. A. HAROLD WILSON: Does the Leader now think that in addition to these [illegible] of 400 and over and 250 members, there is room for a Government Department of Economic Affairs?

MR. DENNIS F. HEALEY: Yes, Mr. President.

MR. E. RONALD BUTLER: Supplementary, Mr. President. Does the Leader think it would shed another 50, that many members have been given more powers in the same category of "Ayes" and "Noes"?

MR. EDWARD R. BOSTOCK: No, Mr. President.

MR. P. DONALD KITSON: Could he emphasize to people in the Midlands we do not, also?

MR. DENNIS F. HEALEY: Mr. President, I have always emphasized that everybody outside the South-East should be very glad that they have voted. If they were anywhere else, they would have voted Tory. [illegible] Labour Government.

MR. W. WOODROW COMBS: Mr. President, on the dealing question of this issue [illegible]. Under the Standing Orders of this House, is it obliged to answer us. I agree, Mr. President, if you should decide, that this question time is over. However, as we can see from below, a lot of problems in this country. The Leader is obliged to answer us or put us in the picture.

MR. EDWARD R. BOSTOCK: Definitely so, Sir, and I have to admit I was [illegible].

MR. SPEAKER: If you put to the Leader [illegible] later on you might. If you had wanted [illegible] you should have asked a different question.

MR. A. HAROLD WILSON: Sir, Mr. ...

MR. [illegible]: I think they [illegible] the Leader might [illegible] to add to the total number of [illegible] the total number of [illegible] [illegible] to do that

MR. W. WOODROW COMBS: [illegible] Leader [illegible] [illegible]

MR. [illegible]: [illegible] I am saying.

MR. P. DONALD KITSON: Mr. Speaker, Sir, I am [illegible] Does he have [illegible] under all the [illegible] which were [illegible], or if you have not, [illegible] I would like to table such a question [illegible] Mr. S.

MR. [illegible]: If he is to put to Public [illegible] [illegible] [illegible] I mean, I am [illegible] Obviously, you [illegible] to [illegible] [illegible] [illegible]

MR. D. MORRISSEY BIGGS: Mr. President, could the Member for Treasury Bench please inform the Government Backbenchers as to what the Government intends to do by the twelfth instant?

HON. DENNIS D. DOUGLAS: Mr. President, would I not be in order to enquire the question, Sir? Does the report go on to inform what a Government intends to do?

MR. PRESIDENT: It could not affect you.... I think I am correct in saying that. Nevertheless certain that the Government will have an announcement to make. I would have thought the answer was self-explanatory. However, in so far as I am able and you may answer it. I think that it was stated in the Budget Speech by the Minister of Finance.

MR. D. MORRISSEY BIGGS: Mr. President, with respect, Sir, I have another supplementary.

MR. PRESIDENT: Well, one more. Sorry, if you....

MR. D. MORRISSEY BIGGS: Yes, Mr. President, could the Member say what period shall we expect?

HON. DENNIS D. DOUGLAS: First week, that is next week. Tuesday, Sir.

MR. PRESIDENT: The elected Member for East End.

THE FINANCIAL SECRETARY (HON. M. LEE): Mr. President, in the Estimates of Expenditure for Government Offices and Other Administration:

Sub-head 2(2): Would the honourable Member state the estimated completion date of the renovation of the old post office to transform it into Crown Law and Audit's Office?

Answer: The said work should be completed in April of 1982, pending allocation of the required funds in the 1982 capital budget.

Sub-head 2(3):

MR. D. WILD ROBERTS: Mr. President, may I ask the Hon. Member if in the proposal that the funds which have been allocated in the Budget Session for 1982 will be sufficient to complete what need, and that is the reason why it will not be completed in March 1982?

HON. FINANCIAL & ECONOMIC SECRETARY: President, I should be absolutely correct. In the 1982 budget the Capital Expenditure, a sum of $175,000 was voted for new accommodation. This sufficient estimate for the entire project at that time was allocated. However, they found that the actual planned specifications of the work were inadequate for this office to accommodate the employees. They now have, amongst an office as might and make room. It was merely a precautionary. We found engineering work was done to accommodate the Common Office that had to be moved. Then in the process all the work began was insufficient. The actual employee area for the Crown Law and the Solicitor General was now known to be $300,000. We have voted $175,000 for the next year which should be fairly adequate and we will need about $80,000 more to complete the rest of the work.

MR. WILLIAM S. MURPHY: Mr. President, a point of inquiry. Is it correct that at least a majority of the votes is anticipated to this bond being held this afternoon?

PRESIDENT CHESTER F. ALEXANDER: President. I was informed that the members of the Road Improvement Bond Committee indicated that was what I was informed by the Chief Engineer that this would be.

MR. ALFRED A. PIERCE: Mr. President, in view of the answer given by the Engineer, do we anticipate subsequent responsibility for any construction, the proper maintenance being paid to keep the normal work on that road?

PRESIDENT CHESTER F. ALEXANDER: Mr. President, the Road Engineer in public Roads Department and the Chief Engineer of Public Works Department are agreed that they put forward a sum of money to do a road, and I as the Member Without Portfolio responsible for Roads, I will make sure the money is spent properly and roads maintained by their expertise and their knowledge.

MR. PRESIDENT: I think that is fair enough. Does anybody not understand the nature of the application. The question we are to decide with it because it is now just 12 o'clock.

That ends Question Time. Item 5. Government Business. Motion.

MOTION

THAT THE POST AUTHORITY (AMENDMENT) BILL, 1982

FIRST READING

CLERK: THE POST AUTHORITY (AMENDMENT) BILL, 1982.

MR. SPEAKER: This Bill entitled a Bill for a law to amend the Post Authority Act to be deemed to have been read a first time and be set down for second reading.

SECOND READING

CLERK: THE POST AUTHORITY (AMENDMENT) BILL, 1982.

THE CHIEF SECRETARY & ATTORNEY-GENERAL: President, I move the following amendment to a Bill entitled a Bill for a law to amend the Post Authority Act Cap 16 of 1979). This short Bill is to enable the Authority to borrow money by overdraft from the Bank of the Cayman Islands for the purpose of the Authority of the Cayman Islands from time to time of any financial year for the following year. This is a totally formulated Bill and special notice is unnecessary.

The main purpose of the amendment is to enable the Authority to borrow money by overdraft from the Bank of the Cayman Islands for the purpose of the Authority

[illegible] Caribbean Development Bank. The total annual [illegible] expenses of the Bank in 1969 were approximately $1,340,000 which included the annual expenses of the Special Caribbean Development Bank and Commonwealth.

The recently negotiated [illegible] to be approximately $215,000. It is therefore [illegible] that a sum [illegible] be the normally recurrent expenditure [illegible] Income for the next financial year.

I am also aware [illegible] Auditor-General which points out the difficulties [illegible] by this amendment [illegible] and efficient.

I ask [illegible] the House [illegible] Bill.

Mr. Speaker: The question is that a Bill for a law to amend the Port Authority Law be read a second time.

The motion is open for debate. If no Member wishes to speak I shall put the question.

Question put: Agreed. The Port Authority (Amendment) Bill, 1969 was read a second time.

THE PARLIAMENTARY PENSIONS (AMENDMENT) BILL, 1969

FIRST READING

THE PARLIAMENTARY PENSIONS (AMENDMENT) BILL, 1969

Mr. Speaker: The Bill entitled a Bill for a law to amend the Parliamentary Pensions Act, 1964 be [illegible] and a Date then will be set down for [illegible].

SECOND READING

THE PARLIAMENTARY PENSIONS (AMENDMENT) BILL, 1969

Mr. Hamid M. Karim: Mr. Speaker, I move the Second Reading of a Bill for [illegible] the Parliamentary Pensions Act, 1964.

Mr. Speaker, when the Pensions Act was passed in the Parliamentary Session for a Private Member of this House, I pointed out during the debate that it was [illegible] Government will [illegible] to examine the Act and make any amendments which it thought necessary.

Mr. Speaker, I now come to two [illegible] which the Hon. the Minister of Finance [illegible] the House as Members of the Select Committee [illegible] Mr. Speaker. It was thought, Mr. Speaker, that those [illegible] should know of the [illegible]. The second point was that [illegible] some very genuine people [illegible] should receive an [illegible]. Finally, there was no provision for [illegible] Members contributed between nine and ten months before [illegible] one year.

Mr. Speaker, the Government has seen fit to [illegible] an opportunity of going through the [illegible] of the Act in a [illegible] Select Committee [illegible] which [illegible].

Mr. Speaker, I propose also to support the amendment to the Address which will now be moved to provide a committee to look into the length of sittings of this House. I feel that this House could, by having a shorter day, get more done in a shorter time. Mr. Speaker, I am sure that we think that the House is taken up with a lot of unnecessary talk which is not relevant to the issues before the country. It is only that we have provided the House with a lot of information that is available by radio.

Mr. Speaker, under Mr. Lee as it stands the requirement for unanimous consent for debate normally allows, which is usually done on the day of sitting members to the chief Secretary, which is then sufficient qualification. However, it is considered that provision should be increased as to seven days by the Secretary instead of the senior officer of the Minister Committee of this House.

Mr. Speaker, I mentioned in my opening remarks, that in the preparation for the budget there are some matters which I do not agree with. This is a continuation of a contribution, I feel we must consider some of the recommendations. Executive Council members will be aware of the same fact as Parliamentary members.

Mr. Speaker, this was formed to a portion of the petition. The petitioners from one section of a constituency to be accepted for a penalty have also been made by this House unless the Government would give it consent that the same penalty only appear of the last century, that did I think, Mr. Speaker, the cost of this to consider, which the Government could also with.

I think, Mr. Speaker, that Members will agree that this is very equitable and if I remember that they also will make additional comment.

Thank you, Mr. Speaker.

MR. PRESIDENT: The question is upon a bill entitled "A bill [illegible] to amend the Parliamentary Procedure Act, 1984 to [illegible] Standing Orders." The motion is, as per Notice Paper 2, page 4, that before we begin the debate on this bill [illegible] for seven fifteen minutes, and I will [illegible] accordingly.

AT 12.32 A.M. THE HOUSE ADJOURNED

[illegible]

MR. SPEAKER: Please be seated.
Proceedings are resumed.
The Deputy Speaker [illegible] on a Point of Order to amend the Parliamentary Procedure Act, 1984. Does the Member wish to speak? The Elected Member for North Nyk.

POINT OF ORDER REGARDING

MR. [illegible]: Mr. Speaker, Sir, I appreciate the [illegible] as I believe my remarks [illegible] Order No. [illegible] Mr. Speaker, Sir, I [illegible] Sir, I will [illegible] Mr. Speaker, Sir, I [illegible] Sir, I [illegible] Mr. Speaker, Sir, I [illegible] Sir, I [illegible] Mr. Speaker, Sir, I [illegible] Sir, I

MR. G. PARRY (Aberdare): I do not think, Sir, that this Bill can be described primarily, or even at all, as a Bill to consolidate the law relating to the Crown Estate. It is a Bill which many people will say, and I believe that they are entirely right, is a provision of machinery to enable the Government to carry out their policy in relation to the Crown Estate. I am not going to argue whether that policy is right or wrong, but I am very glad that the Government have at last come forward with a definite policy in this matter. I will not repeat the arguments in favour of nationalising the Crown Estate, but I will merely say that I am very glad that the Government have at last come forward with a definite policy in this matter. Moreover, there are certain aspects in which the Crown Estate, particularly in connection with mineral rights, may be useful to the Government in the future. There is no reason for nationalising mineral rights in the Crown Estate which do not apply to the nationalisation of mineral rights in the rest of this country and to the whole of this country before nationalisation was introduced.

Mr. Speaker, if no-one else wishes to speak, I will call upon the Financial Secretary to the Treasury to reply.

I moved the second reading of this Bill on the ground that it is merely a machinery Bill and merely provides the machinery for a certain policy which has been declared by the Government, but which we did not know. We would like very much to know what is the policy of this Government. There are many people in this country, Mr. President, who are very much concerned about the future of this country and to whom the Crown Estate is a very important matter. Moreover, we should like to know whether it is the intention of the Government to sell any of the Crown Estate because all of the Crown Estate is valuable.

Now, Mr. President, if the Government intend selling any of the Crown Estate, they have very great responsibilities and duties to the tenants, but the tenants also have responsibilities and duties to the Crown Estate because all of the Crown Estate is valuable. We should have a considerable number of questions to ask on the Committee stage of the Bill, Mr. President, which we shall not be able to ask now, but I will ask the Financial Secretary to the Treasury to reply to one of his questions. Clause 2 of the Bill, Sir, provides that the Commissioners shall have the power which they need to exercise -

> "Commissioners [shall] not dispose of any land or any interest in land belonging to the Crown, except in pursuance of a contract entered into before the passing of this Act."

It goes on to say -

> "No such contract shall be made by the Commissioners except in the discharge of a duty imposed upon them by this Act or any other Act passed before the passing of this Act."

That is the only restriction on the Commissioners selling any land belonging to the Crown, particularly during the time that this Bill is in operation.

So, Sir, I would suggest that this Bill is a very important one and that it deserves a very careful consideration. However, I do not intend to take up the time of the House, Mr. President, any more than I have done already, but I will ask the Financial Secretary to the Treasury to reply to my questions.

Mr. L. Dixon Heller (continued):

"There -

(a) the salary payable to a woman exceeds eleven thousand, two hundred and sixty dollars; or

(b) the salary payable to an adjacent member of the Executive Council exceeds twenty thousand, six hundred and ninety-six dollars,

a member of the Executive Council present for the vote may be required either by any citizen present by any member of the Executive Council which the senior magistrate of the Supreme Court thinks is necessary."

Mr. Mr. President, I know that we have a conservative Government now ... is going to say that they would only [illegible] ... for one year because in [illegible] ... of their present [illegible] ... By the end of that four years, Sir, they will ... paying [illegible]. I'm sorry Members that myself [illegible] ... course, by the time we get to [illegible] ... Executive Council salary, remembering ... increase which will have occurred over the four [illegible] ... years, will probably be in the region of [illegible] ... dollars.

As we are not [illegible], Sir. ... can [illegible] ... Mr. President, section 5 of the Bill which seeks to ... back to the 1st October, 1966. Mr. [illegible], there may be ... for this [illegible], that is people who earned [illegible] ... who would have financial help. I do not know if any [illegible] ... Treasury, if they can, there is a misconception ... Supplementary Estimates we [illegible] ... situation regarding a supplementary provision which is going to [illegible] ... an [illegible] ... to the [illegible] ... salary.

Section 5 of the Bill, Sir, is the ... section of it. They are talking [illegible] ... one hundred and [illegible] ... salary for each member -

"Subject to section 6A, the [illegible] ... subsection (2), of section 3 shall be at the annual rate of one thousand and [illegible] ... salary for each [illegible] ... that has been elected as a member."

Now, two thousand and [illegible] ... eighteen years. All of us [illegible] ... years. Nobody [illegible] ... Bill will [illegible] ... four years. So in the first part of [illegible] ... salary is to be [illegible] ... This is in each case [illegible] ... one-tenth [illegible] ...

"(1A) Subject to section 6A the [illegible] ... subsection (2), of section 3 shall ... at an annual rate of four thousand, four hundred and [illegible] ... dollars.

(2A) In the case where a person is [illegible] ... who member is elected to the [illegible] ... parliamentary salary."

[illegible] ... Sir. [illegible] ... one hundred and [illegible] ... four-eighths of [illegible] ...

Mr. E. Cecil Wilson (Middlesbrough): Many Labour people in this country do not draw maximum benefits without under the old Poor Law. Others. However, they do not pay tax-rebate. They pay zero tax and forty-four-and-sixpence-a-week.

They have received notice of the new rates which I mentioned yesterday. With the rest I received one of the many letters which they have been sent in reply that I was prepared because the small fine in question would not be paid. In these circumstances to bring back into existence the old Poor Law would be a retrograde step. I hope that the Government will not do it.

Now, Mr. President, I cannot continue for an indefinite time. I fully realise that I must bring my speech to a close but I cannot do so without saying a few words about the Scottish Home Rule Bill. When I left the early debate there was not a Minister on the Treasury Bench. Now, which says much for the interest of the Bill amongst its declared and responsible Members in this House, I am glad to see that there are many on the public who will read the same impression.

Now, Mr. President, I cannot continue for an indefinite time. I fully realise that I must bring my speech to a close but I cannot do so without saying a few words about the Scottish Home Rule Bill. When I left the early debate there was not a Minister on the Treasury Bench. Now, which says much for the interest of the Bill amongst its declared and responsible Members in this House, I am glad to see that there are many on the public who will read the same impression.

"Question of the principal can be separated."

Because, Mr. President, in all sincerity it is one thing to question a particular portion of a Bridge of the Legislature. However, when we are faced in this Honourable House with the question from one side, I think in accepting a principle a divide was just. Now, I know that many people in this, Parliament, but also in the country, will be glad to see that the Bill should be debated and considered thereon by the Parliament.

Although, Mr. President, I believe that question of the principal law, that is, that the Parliament cannot have full power of legislation, but there is only one in their jurisdiction to deny the Parliament's power that they had since they opposed the Bill. However, this Government has proposed it, I am prepared to go through, Sir, and I would be pleased to give a further which reads:-

> "I, Douglas Ewart Wilson, Baron of Dover and Lord by this Commonwealth do irrevocably renounce and waive any rights, entitlement or any benefits to me or my successors of my family who will have any vacancy under the Succession Act, 1963 Law 2 of 1994 or any amendments thereto or any law replacing or substituting the same."

So, I am pleased my money where my mouth is, Sir, and I would like to remind the present, Sir, to make clear that I renounce any of my family members' any benefits under this Law.

Mr. President, I may have overlooked and I drawn up a list of requests. I am very disappointed to learn from me to remain in my seat will not get up and I should enjoy, however, I for disappointed that the answer was the Bill should not proceed. I still have my say on the constitutional matter,

Mr. D. Isaacs [illegible] Speaker, I find it difficult, [illegible] to understand why some of these studies which have [illegible] have not been released [illegible] Government Administration, [illegible] Some of these cases [illegible] Inter-Governmental Tensions [illegible] I would like [illegible] I asked him [illegible] Mr. [illegible] I asked him [illegible] Mr. [illegible] I would like to see the [illegible] I would like to see this [illegible] I would like to see this [illegible] I would like to see this

Mr. F. Hussain Ali (continued): Mr. President, I have just been informed that Mr. Ali is not in the House. I have nothing, Mr. President, but since that is the case, maybe we should have the debate another day. I am quite willing to do that. I am quite willing to move the adjournment of the debate.

However, I must say, Mr. President, that I am going to be very disappointed if this debate is not concluded, Mr. President, I repeat that. However, I have no objection to the debate being adjourned to the next sitting day. I am quite willing to move the adjournment of the debate.

The Bill seeks to do all that, in order to help the Bill make. Mr. President, the Government should have given priority to this Bill. They should have given priority to this Bill. I am quite willing to move the adjournment of the debate.

Mr. President, if this Bill could have been considered, and I am grateful for the opportunity given to me by the Government to move the adjournment of the debate. Mr. President, I repeat that. However, I have no objection to the debate being adjourned to the next sitting day. I am quite willing to move the adjournment of the debate.

Mr. President, we have had previous Governments who for the old people, the first Monday of the Parliament being held on the First December, 1981. I am sure, Mr. President, as the old Parliament we have to think of the people in their own minds, maybe some of them have been dissatisfied, but if it could have been resolved that way I would have voted that position but I am a responsible Member of this House and I will be steady. I will have that opportunity to what I have.

Mr. Speaker, Mr. Deputy Speaker, Sir, I am very much glad to have the opportunity to speak on this Budget Statement for [illegible] and I would like to begin by saying that I am very happy to be here this morning to speak to this Honourable House to present my views on this Budget for these Virgin Islands, and especially [illegible] Sir, I would like to begin by congratulating the Hon. Minister for Finance, the Financial Secretary, and his staff for the excellent job they have done in bringing this Budget to this House. I am sure that it was a very difficult task for them to put this Budget together, but I am very happy to see that they have done a very good job. I would also like to congratulate the Hon. Minister for Communications and Works for the excellent job he has done in the area of roads and bridges. I am very happy to see that we are finally getting some of the roads in the Virgin Islands paved. I am also very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town.

Mr. Speaker, Sir, I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town.

Mr. Speaker, Sir, I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town.

Mr. Speaker, Sir, I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town.

Mr. Speaker, Sir, I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town. I am very happy to see that the Government is finally getting around to building a new bridge in Spanish Town.

MR. PRESIDENT: I would remind the Member that he is entering upon the consideration of the Defense Act, not about his own matters. We shall have to fix our salaries when we get home to talk about that later.

MR. R. MACNEIL WOOD: Yes, Sir, I will bow to your ruling. It was just a small personal matter.

MR. PRESIDENT: Order, please. Those interruptions are very annoying. We cannot proceed with the business of the House if we are going to have social conversations while one person is speaking and the rest of us are trying to listen.

MR. DONOVAN: Sir, I am not sure whether I should be standing or sitting. I am not sure whether I am addressing you or the Chair. I am not sure what I can put across to you. That is my predicament, Mr. President, knowing full well the position of my friend.

But my sympathy is entirely with the Government. I feel very sorry for them. I feel, Sir, that I would give the Government their money, any Government and stand by the Government whatever it may be dictated to the people. My point here, I feel, is to see that what I consider is legislation passed by this House is not a waste until there is no possibility of anybody or the most fertile mind finding a loophole to escape or to get free from it. What is my point entirely, Sir, is that before we do that we should be very careful in the wording of the Bill. I am not saying that the Government is not right in the principle they are trying to put across to the people, but I am saying that we should be very careful in the wording of the Bill. I am not saying that the Government is not right in the principle they are trying to put across to the people, but I am saying that we should be very careful in the wording of the Bill.

MR. PRESIDENT: Order, please. Those interruptions are very annoying. Will the Member please address the Chair and not the Government?

MR. DONOVAN: Sir, I am not addressing the Government. I am addressing you, Sir, and the Chair. I am not addressing the Government. I am addressing you, Sir, and the Chair. I am not addressing the Government. I am addressing you, Sir, and the Chair.

Now, Sir, I feel that I would like to see that the Government is not right in the principle they are trying to put across to the people, but I am saying that we should be very careful in the wording of the Bill. I am not saying that the Government is not right in the principle they are trying to put across to the people, but I am saying that we should be very careful in the wording of the Bill.

Sir, I am not saying that the Government is not right in the principle they are trying to put across to the people, but I am saying that we should be very careful in the wording of the Bill. I am not saying that the Government is not right in the principle they are trying to put across to the people, but I am saying that we should be very careful in the wording of the Bill.

Sir, I am not saying that the Government is not right in the principle they are trying to put across to the people, but I am saying that we should be very careful in the wording of the Bill. I am not saying that the Government is not right in the principle they are trying to put across to the people, but I am saying that we should be very careful in the wording of the Bill.

MR. A. GONZALEZ-QUIJANO (CONTINUED): Mr. President, whatever plans Grenada has for creating a climate which Secretariat General [illegible] the multiplier period to prove to Government that one year is short [illegible] Mr. President, what is this? To put the politics, Mr. Prime Minister, this is responsible for Democratic Congress [illegible] the name of the Assembly, [illegible] constitutions for, at least, Mr. President, [illegible] Mr. Speaker, I do not want to belabour this intervention I made on the public platform and in both [illegible] of December of last year because I know [illegible] this will be a powerful enemy. Believe, this will [illegible] [illegible] Government [illegible] Mr. Speaker, I do not want to belabour this intervention I made on the public platform and in both [illegible] of December of last year because I know [illegible] this will be a powerful enemy. Believe, this will [illegible] [illegible] Government [illegible] I would be remiss [illegible] Member [illegible] case of the people [illegible] this country [illegible] what [illegible] and that the money [illegible] will be paid out to Members would be very [illegible]

Mr. Speaker, I am going to be very frank. They can say that I am [illegible] Prime Minister [illegible] Government, I am going to be very blunt today. There is still a [illegible] people who have no decent place to sleep. Some of [illegible] [illegible] on them and some of them still [illegible] [illegible] [illegible]

MR. M. MAKGOBA (Vice-Chairman): Mr. President, the Government cannot do everything. We know that. However, there are the areas which must have priority. There is no doubt a thing as priority but if people come to these premises in the early hours, even while it is dark, they do not do so because they have made up their minds to be first and, Mr. President, some of them are in a considerable hurry and in other circumstances certainly they have other things to do. But that I can understand. I am merely satisfied when it comes to doing what is needed. I could only have found that out

What happened, Mr. President? Where is our principle of democracy? Yes, they give themselves a day because that is the date for some people, but they are going to give problems to people who have the right to work. Some of them are only there to drink or to look for work, to their homes, in fact unemployment and alcoholism. Or, for people to do some work, Mr. President. That is why you have to do things.

Mr. President, the executive Council has changed most of the laws. It seems that they have misspent their minds entirely on the question of abortion establishments rather than a problem before they give them to the people.

I want to thank those hon. members of Executive Council who have taken leaders of the House and to one of the visits in May, that was in December 1994.

MR. SPEAKER: I think that perhaps before the Member stands up it seems as if he will be a very considerable time, this may be a convenient point to interrupt and to proceed for lunch. In that case I suppose that we suspend proceedings until approximately 2.15 p.m.

AT 12.45 P.M. THE HOUSE SUSPENDED

UPON RESUMING AT 2.15 P.M.

MR. PRESIDENT: Minister of Health.

Second Reading Debate on the Establishment of Tshwane University of Technology Bill, 2004. The Second Alternate Member has now to say something.

MR. M. JOSEPH LUCAS: Mr. President, when we broke the House I was going to read from some Hansards of the Assembly even of the remarks made by some members of the House. Before I get into that Mr. President, I do have an apology to make to you. I happen from my research sometime to release some members or a member's name because I felt that we could defend ourselves. I mentioned that the hon. MEC is not in Gauteng - I think I mentioned that I spoke to him on a Monday a few weeks ago, the reason of the MEC when I talked him about happening, anyway to get a MEC's representation, I was told that they were going to Durban Lucas Tshwane Bill. We were not a enough time sending to get the statistics still brought back to the honourable House because some Members did not have it. However we had promised to do this research so because that year and he was going to Durban the MEC Lucas.

Mr. A. Kerevan said (continuing): Sir, I guess that there is no way in which we can persuade you to let this vote be postponed. There have been two very knowledgeable speeches this evening and I would like to hear Mr. Speaker, Sir, only right, Mr. President, the Bill before the House to amend the Constitution. Perhaps I can move from a point which was brought here that I am by-the previous administration's incapable [illegible] to it. The point which I would like to [illegible], Mr. [illegible], some people might be here on Thursday next. I have also apprehension on that. Anyway, Mr. Speaker, I am here to tell my hon. and the people [illegible] that some people from the Bill, I am [illegible] Mr. Speaker, Sir, I am very glad that.

I will [illegible] which my colleague, [illegible], my hon. [illegible] I would like to [illegible] the debate of the Responsible Press Bill. Number of [illegible] Thursday the 4th, 1984, at 2.30.

"Mr. Speaker, Sir, please note that Members accept their responsibility [illegible] in this matter [illegible] I would like to [illegible] and that [illegible] the [illegible] of [illegible] hon. [illegible] on I would [illegible] have [illegible] people [illegible] [illegible] the country. This is something that I [illegible] that the [illegible] be [illegible] published on [illegible] 1st, 1984, Mr. Speaker, and I [illegible] of this people would look on [illegible] by [illegible] [illegible] [illegible]

Mr. M. MASSEY (Lyttelton): This is very interesting, maybe not for this debate but for something further on down. He indicated—

> "I should hope, Mr. President, that we can find a united solution to the decline and decay of Lyttelton and find a way to rejuvenate some form of employment for the people. I am reminded that there might be some objection to the Government establishing facilities on this, but I understand from the Member who moved this that it is a reasonable task to implement it."

I will repeat that—

> "I understand from the Member who moved this that it is a reasonable task to implement it. At first I was given the impression that it was quite impossible. I do not blame that mind that I am left to wonder, Mr. President, if that is the case why the great storm over Government finance Speech since 1975, which I believe was mentioned as being planned [illegible] to implement it, that gave."

Mr. President, we look back that has been brought by the previous administration and it has been [illegible] and pernicious. They were full of promises you know. It had been promised and promised and promised and promised, however, the Member always ignored to the [illegible] I feel we should pay some tribute to what he said and say he said it.

Mr. President, this is not anything [illegible] anything which they brought into being. It was brought into being by the previous administration. My concern with the Government today is that they should not bring it back now. There is nothing to say that it had to be brought back now. If we had a sound Chairman on this monday then could improve it but the present Chairman and Member can't be blamed. However, I am asking the Executive Council to let that member Minister. Until such time that something is put, using the words of my colleague the Hon. Elected Member of Executive Council, something could be done simultaneously for the people of this country.

I trust though that they will remember that is being on the motion. Motion Number [illegible] No. 12/81.

Mr. President, there were other Members who spoke on [illegible] matters, the [illegible] thought that this is not their Bill, it is their Bill. I do not blame them for the [illegible]. My colleague Peters [illegible] in 1982 said, Mr. President, quoting from the Hansard—

> "I cannot support this Bill as it is presented to us here today."

It made that very clear. What was in May, 1981—

> "I stand here representing the Duke Electoral District which comprises of Cashmere and Little Clayton and I was elected by telling the people that I would never block proposals on the basis of my ability and I do not, for a moment, for myself or this amount of money, if and when I do [illegible] I should add, would not be doing what I undertook to do when I stood for election."

Mr. K. MARTIN (Rev. Commissioner):

"Thank you, Mr. President."

He then continued:

"I cannot support it as it is presented. I would have liked to have had more time. After considering it,"

This is the crucial part of his address. He is pointing out, that he did not expect it when it was presented, and he knew what a Bad, Honourable Bill it was. However, this is the crucial part of what he said. He said:-

"I did take it to the different districts in my constituency and I would not find the number of the Leader Friends who are in agreement with it. Therefore, assuming my responsibility as a representative, Mr. President, I cannot support this Bill as presented."

That was in May, 1962. In December, less than six months after he had put a Question on the previous Government, the same Member, the Hon. Elected Member for the Leeward Islands and Virgin Islands, Mr. President, says, among other things:-

"I feel it is our responsibility as Legislatures to provide for the people of our community first, and everything else."

I trust that he remembers this also. I will give him the benefit. Mr. President, the Honourable Second Elected Member of Executive Council said:-

"This Bill certainly conveys a different impression that I truly find unacceptable at this time and I do not intend to give the Electoral Commission, that Legislature, the first reading this day for a carefully considered Government plan for Universal and Equal Adult Suffrage providing safeguards, that I have my own personal security provisions for particularly the elderly people of the country, people who have served us well. This Honourable House or Legislature should have the opportunity to look into the problems their interests. And I cannot really say that I believe that is being carried fully in this Bill."

I suppose that that was the right which I intended to read, five days ago. Anyway, again I am begging the Members to remember those words when he comes to vote on this Bill, and on a specific Article this morning it will have to stand in his heart.

In December of last year, the Honourable Member said:-

"Mr. President, when the Bill for this Law was being debated in the House the day of this year I opposed it at that time, and notably that Legislature where I came to change my views, but this Bill that I was re-elected on this principle. I opposed it because it removed the Electoral Commission that legislature

Mr. M. Makepeace Stone (continuing):

> ... know the final purpose the way that's Shakespeare's writing and because parliament gives [illegible] Shakespeare and their importance before anybody seems fixed at central authority view for the public who pressed him to accept and protect their interests before our own. I believe that as a man, that while we are here it is a duty to create a religious service, we must first of all to carefully examine the nature of our religious. If our predecessors are to be placed in order, privileges must be placed fairly on backing in an effective manner and rapidly provide social needs and problems to this country."

Mr. President, I wish and think that the honourable Member would also remember this when he comes to make his speech as a specific number that this time he may have some reason to change his mind.

Mr. Speaker, on May 2nd last year the honourable Third Elected Member of Executive Council said:-

> "I know there are many problems needing to be solved that ought to be dealt with before any Referendum here can be [illegible] for this or anything."

> We have got, by the grace of Providence, been enabled to attend to the needs of our country. We have not yet [illegible] our responsibilities and can [illegible]."

Mr. President, I am thankful that the Member will also remember this.

Mr. Speaker, on 21st December, 1954 the same Member, the honourable Third Elected Member of Executive Council said:-

> "I should before we close this House this year, and to which many hours yesterday needs to our Estimate which should have dealt with before Legislature considered a Program will for Departments."

Mr. President, all I am asking the Members today is to take into consideration what they have said. I have just asked to take into consideration the things which I have said and I might even [illegible] on a lot of things which have been for a long time. However, the first promise that they will have made. I am asking them not to withdraw this Bill and bring us alternatively with a Bill for a motion to question the people in this country. The people will accept this. They had no obligation or duty of loss, there is nothing to lose but to say that they have voted to back. The only thing which holds them on the matter of the Bill. We said that we were prepared this to study it back.

Mr. President, I believe that my whole case has passed its purpose. If there again that I am against this Bill; that I am taking no account, Mr. President, apprehensive of what they might say about me, that they had to study it back. They can withdraw the Bill. I am taking no account. If they want to say that I am unfair, I am them or whatever they can.

Mr. President, the honourable First Official Member in his opening remarks said, "Let bygones be gone then", meaning a parallel I will use, be in the use only to [illegible] for this thing.

Mr. K. Waqainabete Ride (Continued): Mr. President, I rise to support what Ratu Mara spoke of the old national Civil Servants. The old names of even the widows of the old Civil Servants who were valued as giving people who did much work for this country. Lesser were I would say. They did not know fabulous offices to work in. They did not get any big amount of salary. What I think, Mr. President, of some of the old names and the work which they have accomplished. They accomplished Fijians. They sent free Fijians to literate in the assembly and the pride and control and their work. I believe that the minister responsible that any one of that be carefully taken to somewhere in the region of pay under $600. I do not believe that can be value reasonable a problem.

All I am asking is for us to look at consolidation. When I am talking about a consolidation bill to look economic of our country. There are the things which we must take into consideration.

The other point I would make is that I have not yet been told how many people would be used. I do not believe that any study was undertaken and I put it to you Sir, Mr. President, that not even the Honourable Financial Secretary, the figure was in this country. Never that the amount will be.

Mr. President, where we going to do an amendment when your Excel, which was not yet in here. I will have to better information so the Government can not be able to do to you. It is the exact story which the Alkatiri Member for North Nine had said I am going to see that the amendment is put in the Bill. This is no way of saying that I am against the amendment which have been said nothing and take away the fact that we are doing something for ourselves and our people and nothing.

Mr. President, the Fijian Islands has 18,500 people, not a few people in this House, but a few must begin before and, Mr. President, many of these just legislations as I say are valid bill. There is no doubt about it. What I mean to say is a big business and a bank and a trade I mean some of our local legislatures that are in the last elections. They are valid bill. There are only two when I speak say, are in need. It will be a fact. Nobody can take that away. They can call me an Fijian. They can call me what they like but it is a fact. The Fijian Islands have 18,500 people and not just a few good legislatures. Until we do responsibilities go where our people are and our Fijian can open their eyes but to life as well as, never neglected the Fijian Islands.

Sir, it is an honour to be elected to any public office, however, to accept this honour is an honour given to us here ourself and how further can we have any good. Mr. President, I will close my debate by saying that this Bill should be withdrawn. Government should withdraw it, just to do a good survey; only the three figure can what it is going to cost. I guess that they might have done this by now however a few days ago. We stopped their saying. They did not know. We asked them and they did not know. I do not know what the figure are still valid as now, but I know that a few days ago they did not know. All I am asking is that they withdraw, this Bill until such time that consolidation for this country. This is what we are here for. We are here for them. They are not here for us.

Mr. President, the Bill before us. Does not mean to be here all. It came because the previous administration brought a Bill last year and the Government to do so. Well, I think differently from them. I would, I would like to for in one of the choices of it, the Government Administration Building that we would have here a long time before it came back here.

MR. A. MAYERA RICE (CONTINUING): I thank you very much, Mr. President, and I trust that the Members will give serious thought to the things I have pointed out, because they feel that I have been wrong or mistaken.

I thank you, Sir.

THE PRESIDENT: The Honourable Member for West End.

MR. JOHN E. MARTIN: Mr. President, first of all let me commend the Honourable First Opposition Member on his presentation of what I consider a fairly good Bill.

Mr. President, I have no problem with the amendments passed here, with the exception of one with the Bill. First of all I would like to put the records straight. The previous speaker on the occasions referred to the Honourable and knew it as coming from the Honourable First Elected Member of Executive Council on May, 1969. Of course, I know that he was referring to the Honourable First Official Member, but I just thought that I would put it on record as a correction.

Secondly, Mr. President, when I first introduced this Bill on May 1969, only in mind, I suggested it because I felt that there were Bahamians who had worked hard to buy the property for this country, and I feel today as I felt then, that this is only a small part of what we owe to them.

Mr. President, some of us have taken this time with certain political parties who are still alive and one just about, I would say, only three to four Bahamians. Those in mourning, Mr. President, with an unlikely awakening be considered for the hard work that have done for their country.

I have heard much here today and I appeal that I will have more to say when this Bill should again be returned to this House. However, Mr. President, I believe that if the present Government has any conscience they have now elected, take on one of the things.

Mr. President, like I started to say, there are two sections which I am not satisfied with. In clause 4, Mr. President, I felt that workmen should have also been included here because it is my understanding that prior to Uniform Act, unionized workers did the same work as Pensionable Members. I hope, Mr. President, that when this Bill goes into Committee stage the Government will see fit to bring an amendment to include those who are still alive as well because I would still have those figures.

The other section which I am not satisfied with, Mr. President, is clause 5. I feel that this clause should have been deleted. It should have read just as here. Now if an amendment had to be added to it, nevertheless to say perhaps that the Governor in his discretion could vary where he would be satisfied that it was a genuine employment. However, let us have it, I do not believe, Mr. President, that every person who is able to, financially or not, find themselves within the next few months planning to retire to this island financially paid. I honestly do not think that would be right. Even if it happened that way and we had an amending clause here, I am convinced that this could be overcome. It should be properly if it be needed and I am sure anybody going politically who is really here to those in the hour of death, may need to decide their priority.

MR. JOHN E. MOSS (CONTINUING): I should like only to say in my view of supporting the Clayton Act. Perhaps I have misunderstood that section incorrectly most of the time, I would appreciate of the administrative nature of this bill would put me right on it.

However, Mr. Chairman, as I make my statement, I am opposed this measure; but I think that when we go to Committee amendments will be offered to the amendments which will put this bill fully in order.

I thank you, Mr. President.

MR. CELLER: The Chair thanked Member for his time.

MRS. EDITH S. GREEN: Thank you, Mr. President. The first reference to administrative is more recently an amendment of the original law which we dealt with the Lever Act given. However, I should like to say here that for the record I oppose this bill as originally drafted and passed. During the last executive session I mentioned my reasons of our meetings that I was not happy with it.

There are a few that perhaps I should not have but I promised you I will not be long. Reference to testimony on Thursday I commissioner's counsel, Herman Phillips to which stated--

"I would question on this section, how would it do?"

I am hoping that perhaps that when I have to ask some more questions would be just then.

At that time I did not support the bill for many reasons, primarily because I thought that to new many more persons in many industries, and especially because I thought that there were many people who should have been taken into consideration, as practitioners there who normal point to this who should also have been included.

Now, it is my opinion said that only a few changes his mind. Not because I disagree with the distinguished and very long time we have in the House, but since the amendments have been made and which to have been enacted in 1914 as we go back. And I would come back here to the same frame of mind with the most thoughts in mind. It is basic that in the treatment of many commodities that is where problem is found. But, one might say to me, "How is it you come for you to propose your amendment you stated against this long ago?" Why is this an exception, sometimes? As to that note. I quite frankly admit a doubt that is what else. In fact I think that a solid vote in one of my meetings, I question for legislation and this same forward when a national commodity commission whereby problems brought forward for the needs of these industries.

At this time, Mr. Commissioner, I have to make a confession, I have more than questions of this would be subjected to put together a national commodity commission whereby I do not object to these recommendations but reservations that we should be afraid that we must assist you how did to have the values of commodities known. In studying and by the way, through the commodity commission matters for the Clayton Reference I can have to provides that it was not be fixed to easy to put this together as I was originally thought. I would hope to have this investigation please I do not know whether it will be within a year, or two or three years. Hopefully it will be very soon. However, I would like to say here the bill which is before us today I endorse except for one particular point which I propose that you and I will do.

MRS. SULLIVAN (to COUNCIL MEMBER CONNELLY): I do not find that the clause I would suggest--

> "Notwithstanding subsection (1) a female child who receives child's pension may, if circumstances permit, be required to be entitled to a child's pension."

is right. Under age that might arise practically. Because in today's day and age in the Supreme Tribunal there are two areas in which female people should obtain without the help which is received from the female members in that household, the wife. In many cases she contributes more and I feel that this ought to be taken into consideration. If it is guilty in the misconduct when the girl reaches that age would not be for the same. If only that could applied in the female right to the widow.

Apart from that I feel that the Act has been quite to date and what is proposed here is a good thing. In going over this with a number of people I realized that it might have answered that many problems within this Act could benefit just the members, and because of that this might have been the reason why we have experience in. Mr. President, that is all the moment. I would like to state here that right that I may not kill like a little while before I should to call on Mr. Fay, I essentially would not be voting for it for many practical benefit for myself, however, there are those who if this particular bill can continue and put on the land Bureau of Education, these people should certainly be in my mind. There are many more who may have certain views about who is morally -- I mean could be not, but that is not the way in which it should be considered.

I feel that there have implications with these jobs. Most of those who would come on the payroll they would be in my age bracket where they are not able to look after themselves at this time, many others, of course, I think are still working. However, in this as I may I think that it is unfair to those in this House and may have in legislation on behalf of the poor who must forward to many other country and possibly they may were going to get a problem. This is sufficient enough reason to oppose this as far as the Bill is. In fact, if one could look at it in a different light, because they were not looking that they were going to get in relatively big, should be rewarded very well at this time.

I can think right now, that I have that the Honourable Prime Minister in the Public Treasury, Mr. Opposition Leader [illegible] this would point on this issue. I opened at this point to view and where I am at the age about the Government of Tonga. I was there of Prime Ministers in the Public Service Act who seemed prior to that. If we are not going to this discussion, when we do intend to help them, Mr. President, I would like to be very thankful to my colleagues here. Thank you indeed. I hoped the Government would have this meeting about which one I like to hear. The Government Secretary was there as I think it was. And then to the Attorney General Chambers. I am sure it will within the [illegible] Chambers here at this present time. This will be [illegible] a very big hope. Mind you, I understand their circumstances. However, Mr. President, this Bill, has the same, the problem and the solution to the whole and it does the Land Bureau of Education which hopefully will put back in a position of taking this. To put the Land which the Head of Finance have here, now who to speak to put it. I am grateful that I was able to contribute here in Parliament a second reading this Bill might be with them.

MRS. DARLENE L. GRUBBY (CONTINUING): A decent space was just finished, of people who were living in subhuman conditions existing in. That is real, Mr. President. However, I would like to remind those honorable women that some people want to pay whatever it is they might make rent for. There are others who do not care to make it. This particular legislation that I believe you have before you, I would...

MR. R. MORRIS HESS: On a point of order, Mr. President.

MR. PRESIDENT: What is the point of order?

MR. R. MORRIS HESS: I think that the Minority Leader should be allowed...

MR. PRESIDENT: ...Minority Leader may go on. If you do not know what you want to say until you find out.

MR. R. MORRIS HESS: Mr. President, would you give me a moment to find it though?

MR. PRESIDENT: Yes, sir. The Member may continue until you find a point of order you can point to.

MRS. DARLENE L. GRUBBY: Mr. President, since yesterday late, I went and checked out a few, because I had to in the Capitol kitchen and they were waiting for this lady to report to work. When I was called and asked, "Where is Miss so and so. You could she would appear at such and such a time?"...

MR. R. MORRIS HESS: Mr. President, I do really [illegible] point of order now, Sir.

MR. PRESIDENT: Yes.

MR. R. MORRIS HESS: Standing Order 3:(2)(b).

MR. PRESIDENT: That is not a point of order. That is clarifying a motion. So...

MR. R. MORRIS HESS: Well, are you going to give me the chance, Sir?

MR. PRESIDENT: That is up to the Member who was speaking. It is not up to me. Read Standing Order 24(2)(b). If the Member speaking is willing to give way and receive his or her mail, then you may continue. It is up to the Member.

MRS. DARLENE L. GRUBBY: Mr. President, I would like to continue with my speech.

MR. R. MORRIS HESS: Mr. President, I want to proceed to explain then under Standing Order 24(2).

MR. PRESIDENT: Yes, that is alright.

MRS. DARLENE L. GRUBBY: This lady did not appear at the Capitol and then I asked her she gave me a flimsy version of not being able to get transportation from Fairfax Town. Mr. President, if she comes to leave Wed. May and just to Georgetown at 5 o'clock in the morning that would not have a problem. There are ways of transportation.

MRS. DENNIS J. GALLAGHER: Because, if we were known that some people are not too interested in running about

Mr. President, we have serious rights in our Charter of Human Rights. I mention that. What I am saying is this. We are endeavouring to try to get these amendments [illegible] in as best a manner and on as early as we can. I would like to stand here to say, Mr. President, that since your first term of office many, many changes have taken place. I was able to witness a scene and I am thankful for that. I am not here, Mr. President, with my eyes on 1984 and successorship when has to be done today. This is a matter which needs to be done today. I am glad that there are certain people in the public who do not approve of this Provisions Bill. They did not approve of it in the original form, but as it is now here today, Mr. President, I know one many obstacles in it. In fact, I wonder if the Government would [illegible] a million dollars a year might be less than $500,000. I am sure some of the figure has [illegible], just going through the amount which have been made it would not take too much of a contribution to understand that there has to be a substantial training.

Mr. President, I intend remarks only here on this Resolution. Hence today about Government not having a consultation. They were made here and again. I [illegible] of the 37 members paid at the Elected Members and the Official Members of Executive Council and, Mr. President, I have no hesitation in saying that I put complete confidence in the Members opposite as the other side of this House. I have no reason to doubt their sincerity, their wisdom or their deep concern for the people of these Islands. In thanking everyone for their kindness there have been those who may wish [illegible] for the Chief Secretary [illegible] Executive Council to answer by the previous about by Question [illegible]. I do not think that the Honourable Chief Secretary/Member of Executive Council is getting more understanding when the first person chosen to [illegible] to come in. Nevertheless I understand his page will be [illegible]. I do not think that the Honourable Second Elected Member of Executive Council is waiting for that previously now to the Honourable First Elected Member of Executive Council. I am not [illegible] that these matters are [illegible] the second one phase. I wish to keep that feeling like that throughout. The thanks I have, have in this issue also a debate which is going over the air to many [illegible] people something [illegible] we overnight [illegible].

Mr. President, we can [illegible] anything. It is not acceptable that we might agree with. However, [illegible] the majority rules. This will come to pass, I think that it [illegible] how many [illegible] we have [illegible] to vote our [illegible] and [illegible] any what we want I like [illegible].

Mr. President, I would like to say. However, I would like to add that within this Resolution I have given the public the [illegible] that the only thing we are here for is to make them. Nobody knows what [illegible] be divided [illegible] in time. I am no [illegible]. When I was in Executive [illegible] I may [illegible]. If [illegible], because [illegible] I would [illegible] of the [illegible] Executive Council, that is [illegible] Executive Council. However, on this particular matter today I am not going to [illegible] by [illegible] to the [illegible] but I would like I [illegible] the Members [illegible] to [illegible] that. The Members [illegible] have [illegible] [illegible] [illegible] for the [illegible] reason that I am looking at it [illegible] right [illegible] [illegible].

MRS. DARLENE T. ORTEGA (CONTINUED): ...however, for me to say that I couldn't look over there and agree with anyone. But, there were times when the Speaker and I took note that the members were saying that they could not agree with it in the present form. So, they make a lot of differences. What we are dealing with here today is a bill which has changed a lot since we originally saw it.

MR. CHAIRMAN: I am going to call them, very soon. However, I would like to say this. I do not believe that any Member of Government, Executive Council, who would come to Rota that they were assume such a position and the people out there had nothing. Believe me, I know [illegible] this particular role [illegible], but it also has its disadvantages. To run first in a Chamorro position. Some Members who have served in this House done so for a long period of time and if John Bowie mentioned to him today that they should receive a pension I have probably opposed it. I hope that I have [illegible] to withdraw since. I am not going to reconsider anything, but it will be today or the next day that I will be in that position. However, I would like to see it not acted upon. I say to you with a little sense and purpose for the future again. I do not think that there is any Member here who is willing [illegible] for this bill who is under [illegible]. However, I would like to say this. It takes more than talking for a pension or you like Government might. Once I stood back a group of lawyers, when I felt bad that it died, and today I stand here and give them my wholehearted support, because the people in the Statutes of West Virginia are the people who are working there. They know me. They know many one of my law suits are expecting that we are going to come back and work [illegible] to see this Government go in the right direction. It cannot be done when we are turning our backs on it.

Mr. Chairman, I give the bill my support and what Members of my community choose to speak to me on it I shall look them in their face and tell them exactly my reasons for doing so.

Thank you, Mr. Chairman, and I recommend the Bill.

MR. CHAIRMAN: Before I call on the Second Chamorro Member that may be wish to offer the next motion, which is in addition to any pending do now, may I direct your attention to the records at the end of September [illegible], however I do not want to have to stop him in the middle of his presentation. We must find out exactly what he is without to say and what we do not without to say. Very well, the Second Elected Member for next may.

MR. F. Manglona Muña: Mr. Chairman, the only Member who just was referred to a couple of things to my district, and I was misquoted. I would only ask of I would ever be - if I would be accept the whole thing, Mr. Chairman?

MR. CHAIRMAN: Hopefully not. Hopefully not.

MR. F. MANGLONA MUÑA: I would like to get a sense reading to me. I said the House Investigation, and I would like to get a sense reading to me. I still have to see, you see. I would like to see the Hawaiian Government might. Last week I stood back a group of lawyers, when I felt bad that it died, and today I stand here and give them my wholehearted support, because the people in the Statutes of West Virginia are the people who are working there. They know me. They know many one of my law suits are expecting that we are going to come back and work [illegible] to see this Government go in the right direction. It cannot be done when we are turning our backs on it.

MR. H. [illegible] (CONTINUED): I told the House that she had two children and her whole attention, if to it the present and the House knew she would still have it. I reiterate to my learned friend, Mr. President. The Tafawa Balewa Square for more than one person to be registered in a married person. I participated in the whole thing. What I said was that there were still people in the country who are disappointed the whole hope with the whole government in order to start afresh, and there were still people who had to vote the Action because they had no other political choice.

I implored to the learned member who spoke earlier that he should give a fair hearing, I believe that was the request but I just want to make my position clear. I implored to the learned member.

The Member misquoted me, Sir, that the person who was to participate in the AIT Race is a retired army. It is a good thing she can rest up at the hospital. We have enough there already.

However, I still have to my disposal, Mr. President, and that is why I know the position.

MR. PRESIDENT: I think that will be a convenient moment to take our afternoon break and I will suspend proceedings for approximately ten minutes.

AT 3.33 P.M. THE HOUSE SUSPENDED

HOUSE RESUMED AT 3.52 P.M.

MR. PRESIDENT: Please be seated.

Honourable Members.

The Second Reading Debate on the Supplementary Pensions (Amendment) Bill, 1984. The Second Speaker, the Deputy Leader.

MR. EDWARD A. OKEREKE: Mr. President, I rise to support the Bill for a Law to amend the Supplementary Pensions Law, 1964. However, Mr. President, before dealing with the contents of the Bill I would like to make it abundantly clear early as I did in my Statement made to this House in December, 1983, that I will support the Government stand on matters which I feel are relevant and in matters which I can fully with.

However I rise to take issue on the statement which was made before the House by the hon. Minister responsible, especially, of this morning. I do not believe, Mr. President, in confusing for opportunistic sake. Sir, Mr. President, is a very important matter.

Mr. President, I have been too much considerable discipline on those Chairmen for the sake of the policy and I feel that Members should be mind that whatever is said in this Honourable House is heard outside on the radio.

MR. CARLTON J. KELLAM (Virginia): I would like the opportunity to commend the Honorable Fiscal Officials of Accomack County for the courage in bringing this bill back to the House. I would say, Mr. Speaker, I like eight of the first ones the architects of this bill were the Representatives and they should have received some credit and commendation.

Mr. Speaker, just after the 1964 Presidency we have voted to sell the Governor's Mansion. The reason why, Mr. Speaker, as I understand was that it was felt that the Governor was the wife more than of a Governor. I wonder, Mr. Speaker, whether we will do this now in order again to keep our Governor there. I heard recently of a bird of change. Where evident seems to be a bird of change blowing in this House. It appears, Mr. Speaker, that one of the first resolves in this call of the house would have to give the Governor that $50 before the House is the worst thing that could happen in this country.

Mr. Speaker, the remarks we for on this House will show that I am one who stands here and speaks my conscience. If I felt that this Legislature Resolution Bill was discriminate for this county and the people of this county, my vote would be no. I could not support this bill, Mr. Speaker. However, I am not going to join the discussion -- I'm not the leader that they are not going to support the bill because of some political pressure they may have been subject to. We are not, Mr. Speaker, going through a political campaign at this stage the discussions were finished back in the late November, 1968. While I not sure that there was those of us who may have run again in 1969, I believe that it would be most unfortunate if our only thought was on getting back for the House in 1969. We are not in 1969, Mr. Speaker, and we have other more pressing matters to go. I believe that these bills should be approved by unanimously to provide us the best interests of our people.

Mr. Speaker, I have heard Members today stand in this House and recommend their vote on a political economy position. My only thought at the time was not important, Mr. Speaker, when this arose from a recommendation was not even not the privilege to see his fourteenth birthday. We have a long time to go and life must be very valuable indeed.

If there are those of us who feel it simply about economics that might be their concern I will ask, Mr. Speaker, and give way for them to participate their rights in their salary, their participating salary. But we are not that way are interested in the people, not as your salary or the salary,Mr. Speaker, and making political speeches in this House. What I have to say Mr. Speaker, is spoken from the heart. I am not just saying what I said during the political campaign even though I tried to be as sincere as possible.

Mr. Speaker, that I stand here personally and before the responsibility because which we are that a political speech. I did it because I feel responsible in this matter. Mr. Speaker, I am satisfied with the statement which I have received from the Governor Comer that they will look into this matter and that a favorable study will be given. I feel, Mr. Speaker, that if the results of that feasibility study show that it is possible and that it can be done in this session, then it ought to be done. Mr. Speaker, I will continue to fight for the interests of my people.

MR. STRAUB: [illegible] The question, Mr. President, of a question whether to put a case opposite to us. My colleague, Mr. Woodhead, will shortly take this case out of this matter I wish to speak on my political platform. I said to this committee that I will endeavor to establish or disestablish any [illegible] which will provide adequate for all classes of workers and to encourage [illegible] to be orderly which is the present system. It is not a new issue for me, Mr. President. In the meeting which I sincerely and gratefully I have it. Mr. President, that if I remember [illegible] of the members, that I will direct my eyes to all other things.

I withdraw the amendment which I just then made as I did yesterday, Mr. President, because I felt that there would have been ways to [illegible] this to the [illegible] issues.

Mr. President, as must also have [illegible] heard. I have heard a lot here about having a special committee to [illegible] to our amendments. We have intelligent persons of this house, Mr. President, who we would be interested to tell us how to vote; [illegible] a bit of information. However, Mr. Speaker, with the assurance which I have received from the honorable Minister of Education Council, I rise to add some encouragement which [illegible] of [illegible] had not, Mr. President, been for the good work of our legislature and our Premier to [illegible], we would not have what we have here today.

Mr. President, when I think of these [illegible] I think of them with a lot of reason. Many of our [illegible] Mr. President who failed [illegible] for their ideology without representation. However, Mr. President, these things of this kind can only [illegible] to an extent on an [illegible] particular for [illegible] why do not the Members of this House [illegible] the particular [illegible] which they represent which?

Mr. Speaker, those declarations or [illegible] which I have heard in this House are just political [illegible]. It is easy to say that one will [illegible] when we [illegible] in his discussion and one has [illegible] not known to us.

Mr. President, regardless of how we [illegible] possibility or whether to get our election fulfilled in this [illegible], we must [illegible] that we have a [illegible] to war. Mr. President, I have heard reasons for [illegible] in this House. However, we [illegible] the stage of our [illegible] where there is no room for some of the [illegible] which I can consider [illegible] in this House. [illegible] for the sake of the [illegible] which I see in this House. Nobody can [illegible] importance of the [illegible] in this House. We have our standing [illegible]. We have our [illegible] and of many other Governments [illegible] to be [illegible], Mr. President, I have also heard of [illegible] being [illegible] to oppose the [illegible] of the [illegible] to [illegible] look to [illegible]. I [illegible] of [illegible] of this House would [illegible] to [illegible] the need of these [illegible].

Mr. President, it is not enough to [illegible] this House and say that the only reason [illegible] to this [illegible] is because we objected to be on one's political platform [illegible] ago. It is only a [illegible] who cannot change his mind. I agree, Mr. President, with the [illegible] Member [illegible] and say that [illegible] the reason why we have not given our full [illegible].

Mr. LINCOLN A. MICHAEL (MAINTENANCE): Mr. President, while the [illegible] of the [illegible] I also think [illegible] Mr. President, I feel that [illegible] should be given to [illegible] I will seek to [illegible] as possible.

[illegible] Mr. President, [illegible] legislature [illegible] 1st October, 1969 [illegible] from that date. This is very good [illegible] would like to [illegible] Standing Order, Mr. President, the [illegible] Members also [illegible] I would like to [illegible] Members [illegible] Mr. President, I would also [illegible] the Government [illegible] Bill [illegible] Members who have served since the 1st October, 1969. I am happy to see that the old Minor [illegible] Mr. Michael and I would [illegible] Mr. President, [illegible] Members from [illegible] Mr. President, we [illegible] Bill. Some of the [illegible] Mr. President, to [illegible] Bill [illegible] through. They are the people who [illegible] for the [illegible] of this country. They are the people who [illegible] for which we [illegible].

Also, Mr. President, I wish to [illegible] Section 8 of the Bill. I do not [illegible] Mr. President, that it is in the best interest of this country or the people of this country that Section 8 of the principal Law should be [illegible]. Section 8 of the principal Law reads, Mr. President:-

> "Any person who is elected as a member under this Law may at his option surrender his membership of a parliament of the area provided for in section 3, a parliament of the body of those persons of such area, together with a penalty."

Mr. President, I realise that there have been changes in the membership of [illegible] parties. My main point, Mr. President, has to do with the penalty. There are many, many of our past Legislators who are very, very old, Mr. President. It would be an injustice to them to be made to [illegible] penalty. Many of them are on their death bed and they need their little penalty.

Mr. President, I envisage that this Government and this country would be doing a service if we consider this section.

Mr. President, I also feel that the Executive Council of this country should be given a number more Parliamentary Secretaries than the ordinary Members of the House, because their responsibilities are greater. I feel that they should be remunerated accordingly, even though I feel, the Hon. Minister, the Chief Minister for Work may be [illegible] saying that she does not believe that any Member of the Executive Council is [illegible] for this position. At this rate, Mr. President, as I said earlier, nobody can predict what the future will be, we can be up today. We will be down tomorrow.

MR. LLOYD A. FERRAZ (CONSTITUENCY): Mr. President, section 3 of the Bill deals with the exemption of the Governor-General, and so on. However, my mind has been cast to look at the wording of this section. This is to do with the words:-

"to cause the execution of imprisonment".

In this connection, Mr. President, how do we deal with the circumstance of a person who is convicted and who receives a long sentence. However, the provision, Mr. President, reads:-

"PROVIDED that where a person whose sentence has been commuted or who has, on appeal, had his sentence of imprisonment or detention for life or for any term exceeding ten years reduced by the Court, he shall be liable for the remainder of the sentence to be executed."

Mr. President, I think that this is very clear.

Mr. President, since I wish to give full opportunity to congratulate the mover of the Bill and the Parliamentary Counsel for the hard work they have made into the Bill, Mr. President, I have this Bill to support.

Thank you, Sir.

MR. SPEAKER: The Honourable Third Elected Member for Savusavu Council.

MR. SAID MUBIN (SAVUSAVU): Mr. President, the Parliamentary Secretary (Immigration) will, then before this Honourable House has to support what I consider to be a good Bill.

Last year when the Parliamentary Session ended, I was brought in this honourable House I spoke, but I did not succeed it. I felt that a person for Legislative Assembly because our practical Savusavu, there were certain matters which I found unsatisfactory and could not support them.

Before I go into the meat of this Bill in my debate, Mr. President, I would like to comment on a few of the things said in this House. I would like to say publicly here, that it has been unfortunate to hear the hon. some members who have spoken on this Bill. Members knowing the earlier debate this morning, unfortunately would have the impression that Members of the Executive Council are here only for one purpose, and that is to pass their own proposals.

We were accused by the Second Member for North Nadi. We said that he did not utilize days he had attended on Bill. Mr. President, I think this is true about himself because we have not in every Session of the Legislative Assembly a lecture and the Bill, especially that I have ever had to hear his comments on the Bill and whatever amendments they had, to amend them. Every Member was given this chance; however, due to the reasons that nobody who walked in this House, said that they have no point to look at it and they were not going to support it, a regrettable attitude, Mr. President, and it was displayed in this House this morning in a disappointed manner.

MAJORITY LEADER J. RUSSO: (CONTINUED) Thank you, Mr. President. I'll be still here during little time.

SEN. D. RICHARD HOFFMAN: On a point of order, Mr. President, would Senator Lasher yield, I think that I am a little out of order but I would like to ask a question.

SEN. RUSSO: I'm not sure that he was leaving, are you?

SEN. D. RICHARD HOFFMAN: Senator Lasher, I'm sorry, I didn't mean to...

SEN. J. RUSSO MINORITY: Senator Lasher, I'm not sure that he was leaving.

SEN. HOFFMAN: I did not understand him to be leaving. I was simply curious. We have heard that some of the members said some things.

MAJORITY LEADER J. RUSSO: Thank you, Mr. President, then I'll yield to the Senior Member for North New York and then we will change to the original Bill. This Bill would bring no changes to the original Act. Therefore, I am positive that he did not know what we were to look at the new Bill was anywhere with the former version Act.

It was in my step that he did not agree that Members of Recognized Colored should receive a second pension, a member of a Member of the Legislature, and a pension as a Member of Recognized Council, Mr. President, this was brought before us because the Liberal Government of this country is broke, by gosh. This will now proceed to Ways, Jobs. So, we are now looking to alter some of those objectionable phrases which we have in the former bill that.

One more time, Mr. President, this does not Recognized Legislature. A Member of the Legislature presently serves on this Chamber just under a year, or excuse I would say of about a week and the Report was Sept, one thing of the Liberal Council position which takes the Member under age of the year. That Legislator Service I suppose they do not for his next term or Session in his house. So, there is no reason why Recognized Council Members should not be given same consideration.

I hope the next Liberal Member for North Side, Mr. Treadwell, put up last week, I believe previously his right to say here. He was selected out by the Liberal Council Member for Orange Town this is a growth. This is his first vote in this Legislative Assembly, the first time he has been elected here. He is not even sworn yet.

Mr. President, I urge that the same Godfather as the Liberal Member for Orange Town that is this. If he is so interested for the people, let him reconsider his Legislative Assembly salary now. We have not had to wait for twenty five years. We can do it now.

SEN. D. RICHARD HOFFMAN: If the Senator will the way I will vote.

MAJORITY LEADER J. RUSSO: (CONTINUED) I would like to say further, Mr. President that I will encourage any Member in this Legislative Assembly to do what I have done since 1970. This is my twelfth salary that I am this year percentage of the Legislative and some of them, this point, Sir. If I like to think my money from this Legislative pension, fine to which my money would go, to the Town Treasurer in our community.

MR. SPEAKER-ELECT & MEMBERSHIP: I have heard a lot about the poor in our community, Mr. President. I have heard organizations claim income having two and a half businesses by their income tax return. That is wrong with that? I think that we should say thank God we have people who have retired themselves up to this standard. They should not try to decry or debase those people and bring them to the level of the very poor. The Bible tells us that we have the poor with us always. Let us just thank God we have them, not take those who have worked hard and call them down.

Mr. President, as frankly as that I guess Iceland has never exercised the privilege of exploring any more than the Nineteenth Parliament. You did so once for whom do only one years, Mr. Prime Minister, have used. I am disappointed today that instead of trying to be a Robin Hood for this community, that we should use to rob from ourselves.

Mr. President, I was shocked on my return to Belize during January. I did say then but this time there is of substance. When I said here in December, the position was going to be other countries which indicated that I interested or would not go to a Session but if the proper amendments were made. I said in December when we introduced the Bill to delay the coming into operation of that Act:

> "The Bill seeks to delay the coming into operation on 1st January, 1985, of a law which was recently introduced and passed in this Legislature without much fuss."

I went on to say:

> "I feel that the delay of the coming into effect of this Act will give the Legislature the opportunity to study it, consult their constituents and make whatever amendments are necessary to make it fair and acceptable to the people who have put us here to represent and serve them."

I said to the President, and added:

> "I appreciate the Parliamentary Secretary [illegible] explained it when it was introduced. I did not hesitate to them include in the amendments we are today."

Mick Fonseca said:

> "It is not the intention of the present administration to deny anyone what they are justly entitled."

Mr. Speaker, the impression was given that Members opposite today in Parliament [illegible] are now satisfied, if this Bill were to be, to have a pleasant [illegible] discussion. The people may qualify[illegible] Sec. 21 for it says that a Member has to attend six out of the seven meetings without the age of the years six consecutive [illegible] absence by the authorities of the Financial Secretary that he is incapable by reason of illness or [illegible] accompanying the [illegible] of a Member, and that must be[illegible] to be permanent. Mr. Speaker, we are meeting here. There is no way that we can [illegible] unless this Bill passes. There is no way on the world

[illegible] Parliamentary Commissioner for Administration, Members seeking their help please address their letters to the Clerk who will refer them to the Commissioner. Every Member can be sure of a considerable time saving to enable the Commissioner to quickly investigate the matter to the client's satisfaction.

I am sure Members will be aware that a case cannot be considered by the Commissioner until it has been referred to him by either a Member of the House of Commons or a peer. The Commissioner will not investigate any matter which is or has been the subject of proceedings in any court of law or tribunal unless he is satisfied that in all the circumstances it is reasonable that he should do so. I am satisfied, Mr. President, that this Bill will provide a very valuable and long overdue safeguard.

Mr. President, clause 2 of this Bill seeks to declare that by January, 1969 all the Acts to which the provisions of the Bill are intended to have effect will be specified in Orders made by Statutory Instrument. All Statutory Instruments will require the approval of both Houses of Parliament before they become law.

Clause 3 of the Bill seeks to give Members who are named in the Legislative Assembly prior to the 1st October, 1968 the choice whether to remain Members of the Legislative Assembly or to become Members of the Parliament of Malawi. There is no provision in the Parliamentary Functions Act, 1964 which allows persons to be members of both Parliaments. Therefore, this Bill, when passed into law will prevent this possible situation. The new clause will provide a provision for the good Members who have served us. They are the people who are in the present Legislative Assembly. There are some Legislators who have served with my self since Federation without the means to qualify to take care of them. In their old age they unfortunately have fore and ancient over Malawi territory. They deserve to be treated better and given an opportunity.

Mr. President, Sir, Honourable Dr. Chirwa's motion states-

"That a Select Committee be appointed to consider the Bill and report thereon."

One of the Members who spoke against this Bill in which I am sure we know the kind of action he is, Honourable Dr. Chirwa, should have spoken why he thought the Bill was not necessary for this country instead of saying that nothing is wrong, Mr. President. That is a point, I am afraid to say, which is not correct.

My colleagues Opposition Members of the Parliamentary Functions Bill are the ones who can tell us what the court could do and whether it is necessary to amend it. The new clauses and some words in the Bill before this Honourable House, will substantially reduce the amount payable to Members. I appreciate very much, Mr. President, that it would cost Government for this necessity of about £600,000 per year. It was mentioned that we have not to spend this much money to pay £500,000. Still, this figure which has been of use to the taxpayers that the pensions which Members will get yearly will amount to about £227,000 per annum. Mr. President Sir, this is not necessarily to be taken seriously, and that is every one's opinion to.

Should I refer to Dr. Chirwa the matter of the Parliamentary pensions for Members who have served since 1st October, 1964, and in the case they passed a pension of £1,000 per annum for those Members who served more than five years unfortunately terminated.

[illegible] [illegible]: The next method of [illegible] [illegible] [illegible]

[illegible] I would like to say, Mr. Speaker, that I would like to be recognized to move to suspend the rules and pass the bill [illegible].

Thank you, Mr. Speaker.

MR. [illegible] point of information, Mr. Speaker, because other Members will not know. Normally under the rules, the effect [illegible] is to say, in effect, you cannot amend a bill unless by unanimous consent that is previously the case on motion, agreed to, and the motion to reconsider is necessary. So, although the committee did [illegible] I have already told the Members that....

MR. [illegible]: In addition, Mr. Speaker, they also might want to be ready to reconsider and [illegible] with their salary [illegible].

MR. [illegible]: I think that is a very important point that we should be aware of. Members might want to move to reconsider.

ADJOURNMENT

MRS. [illegible]: Mr. Speaker, I move the adjournment of this House until 10:00 on Monday morning.

THE SPEAKER: The question before the House is that this House do now adjourn until 10:00 on Monday morning, that is agreed, the adjournment. I will put the question.

ADJOURNMENT AGREED. AT 6:31 P.M., THE HOUSE ADJOURNED UNTIL 10:00 A.M., MONDAY, 25TH NOVEMBER, 1985.

JOINT MEETING OF THE 19TH SESSION OF THE LEGISLATIVE ASSEMBLY AND THE HOUSE, 8TH SEPTEMBER, 1986

PRESIDING:

THE PRESIDENT (THE GOVERNOR, SIR C PETER TOOTH, GBM, CVO) - PRESIDENT

[illegible]

[illegible] 10 A.M.

MR. PRESIDENT: I invite the First Elected Member for the Leeward Islands to say prayers for us.

CAPTAIN THE HONOURABLE K. KITCHENER: Let us pray.

Almighty God, from whom all wisdom and power are derived: We beseech Thee so to direct and prosper the deliberations of the Legislative Assembly now assembled, that all things may be ordered upon the best and surest foundations for the glory of Thy Name and for the safety, honour and welfare of the people of these Islands.

Bless our Sovereign Lady Queen Elizabeth, the Queen Mother, Philip Duke of Edinburgh, Charles Prince of Wales, Diana Princess of Wales and all the Royal Family. Give grace to all who exercise authority in our Commonwealth that wealth and happiness, truth and justice, religion and piety may be established among us. Especially we pray for the Governor of our Islands, the Members of the Executive Council and Members of the Legislative Assembly that they may be enabled faithfully to perform the responsible duties of their high offices.

All this we ask for Thy great Name's sake, Amen.

MR. PRESIDENT: Please be seated.

I have apologies to Members for delaying proceedings slightly. I got unexpectedly delayed and I am sorry that I should be late for assembly. [illegible] The Second Elected Member for West End.

QUESTIONS

THE SECOND ELECTED MEMBER FOR WEST END TO ASK THE HONOURABLE SECOND NOMINATED OR EXECUTIVE COUNCIL REPRESENTATIVE FOR FOREIGN AFFAIRS AND TRADE

MR. [illegible]: Would the Honourable Member kindly advise where have been problems with the fishermen on the new zone following Belgium and if we could [illegible] done to correct that?

ANSWER: Some-hands of furniture in the dormitory lounge have snapped. This defect has been brought to the attention of the supplier through the main contractor. The supplier has informed Government that the legs have been damaged by a manufacturer's defect and have undertaken to replace the same. One new unit has been installed as a trial basis, and if proven satisfactory all other units will be replaced by the new units at no cost to Government.

SQ. SUPPLEMENTARY: If there is no supplementary, perhaps the Member will ask the next question.

THE HONOURABLE MEMBER WANTED FOR HOW LONG TO ASK THE SUPPLEMENTARY QUESTIONS BECAUSE WHEN IT COMES TO QUESTIONS THEY ARE ENTITLED ONLY TO ONE.

NO. 120: Whilst the honourable Minister may what operational problems exist at the new airport terminal and what steps are being taken to overcome them?

ANSWER: Members have been experiencing with the electronic gates installed in the new airport as well as minor problems with air conditioning at the new airport terminal.

Ongoing investigations and repairs have been carried out by the supplier under the supervision of airport maintenance personnel and locally through the Public Works Department. The gates equipment is very sophisticated and spares are not readily available locally.

SQ. SUPPLEMENTARY: If there is no supplementary, perhaps the Member will ask the next question?

THE HONOURABLE MEMBER WANTED FOR HOW LONG TO ASK THE SUPPLEMENTARY QUESTIONS BECAUSE WHEN IT COMES TO QUESTIONS THEY ARE ENTITLED ONLY TO ONE.

NO. 121: Would the Member state whether there is a maintenance guarantee on the new Jean Airport Terminal and if so when does it expire?

ANSWER: In accordance with the terms of the contract, an amount equivalent to 2% of the contract sums has been withheld as a retention fee - $135,000.00.

This amount is released to cover any defects in the structure, equipment and fixtures on work carried out under the main contract.

The retention period will expire on the 15th December, 1985

SQ. SUPPLEMENTARY: The Nyeri Nominated Member for the Eastern Province.

THE NYERI PROVINCIAL MEMBER WAS NOT HERE TODAY SO ARE THE NOMINATED MEMBERS ENTITLED TO ASK QUESTIONS ON BEHALF OF THE ABSENT MEMBERS?

NO. 122: Would the Honourable Member undertake to arrange for greater publicity to be given to the various policies and guidelines relating to free medical aid?

ANSWER: Yes.

SPEAKER:

MR. D. DONALD MCLEAN: I supplementary, Mr. Speaker, will the Member undertake to publish the latest published accounts of the Corporation?

MR. SPEAKER: I think that is what the Member has just undertaken to do. I do not think that I can allow the supplementary unless you can explain to me how the supplementary relates to the original question?

MR. D. DONALD MCLEAN: We will let it pass, Sir. We will see what comes out in the press. There are other forums.

MR. SPEAKER: The next question. The Hon. Minister Member for the Lesser Islands group.

QUESTION NUMBER 808 FOR THE LESSER ISLANDS TO ASK THE HONOURABLE MINISTER RESPONSIBLE FOR AGRICULTURE CONSERVATION AND NATURAL RESOURCES

MR. LEE: Will the Honourable Minister state the intentions of plans for the development of the Water Authority projects in Cayman Brac and Little Cayman?

ANSWER: Since 1976, when Pinehaven was established as a residential ground water investigation in Cayman Brac, the Water Authority has carried out other studies to better determine the ground water resources on that Island.

The Authority foresees that towards the end of this year and early next year more comprehensive investigations will be carried out, incorporating a borehole programme, utilizing the new Diedy Rood.

It is then hoped that it will be possible to construct a well field development and treatment facility similar to that at Lower Valley and Bodden Town, thus providing Cayman Brac with a reliable source of water to be used in times of need.

It is hoped that funding for this development will be more available in 1981, at which time will the necessary investigation will be completed and designs finalized. Funding for this investigation is available this year and further funds are being requested for next year.

At this time, it is not anticipated on Little Cayman. Should the Island develop in any significant way to justify the installation of a public supply then the Water Authority will carry out investigation similar to that proposed for Cayman Brac.

MR. SPEAKER: If there is no supplementary will the Member take the next question?

THE FIRST ELECTED MEMBER FOR THE LESSER ISLANDS TO ASK THE HONOURABLE MINISTER RESPONSIBLE FOR AGRICULTURE CONSERVATION AND NATURAL RESOURCES

MR. LEE: Will the Honourable Member state whether Government has considered providing Cayman Airways with more stops or extension on the existing service between Grand Cayman/Cayman Brac/Little Cayman using the Britten-Norman

---

SPEAKER: The "fair shuttle" concept of air services is normally only applied on routes where there are high density services, with the volume of traffic on the inter-Island services the introduction of the air shuttle would have adverse economic effects, and result in numerous flight cancellations due to inadequate traffic, thereby creating considerable inconvenience to the travelling public.

For these reasons it is considered best not to open Cayman Airways to additional routes at this time.

SUPPLEMENTARY:

QUES. HARRY S. KIRKCONNELL: Mr. President, a supplementary. In view of objections being experienced by some residents and visitors to Cayman Airways obvious monopolistic operations on the local service, Grand Cayman/Cayman Brac/Little Cayman, would Government consider re-examining to Cayman Airways the need for monopolistic on the inter-service to be eliminated, passengers being accommodated on a first come first served basis, having into consideration passengers travelling with connecting and departing international flights? Also could additional flights be provided as required to meet the daily traffic?

REP. H. HOWARD EBANKS: Mr. President, Government would be prepared to discuss these possibilities with Cayman Airways with a view to establish the necessity of such an operation. I think that if there is a means of working an arrangement on the inter-Island service which would serve to improve the services which are presently operated, then I believe that the company would be receptive to this and Government would be prepared to look at it or discuss it with them as early as possible.

MR. SPEAKER: If there be no further supplementary we come to Item 5. Government Business. Bills. Consideration of the Second Reading Debate on the Parliamentary Pensions (Amendment) Bill, 1995. The Second Elected Member for Bodden Town.

GOVERNMENT BUSINESS

BILLS

THE PARLIAMENTARY PENSIONS (AMENDMENT) BILL, 1995

CONSIDERATION OF SECOND READING DEBATE

MR. G. HALL ROGERS: Mr. President, there is an old Caribbean proverb which says:-

"Confusion has no business on a peaceful night."

I do not know what I am doing in this fight between the Government Backbench and Elected Representatives on this side of the House. Nevertheless I must express principle to introduce the Bill. It is the principle of whether there should be parliamentary pensions or not.

The fact is that throughout the Commonwealth it has been established that a parliamentary pension is only necessary and desirable, but also it has been accepted.

I have here with me a copy of the Parliamentarian of April, 1991, which is the magazine of Commonwealth countries. It says in an editorial:-

Mr. A. Neil Macdonald (continued):

> "The need to provide some sort of maintenance benefits to Members of Parliament is one by and large recognized in Commonwealth countries, though the shape and amount of such benefits may not be the same everywhere."

It is an indisputable fact that a politician is simply a part of a long package and is merely a right which has been delegated.

The question is, is the job of a Parliamentarian worthy of a pension? When we consider that every newspaper boy in Government and every clerical officer is pensionable, why should it be thought a crime to provide a pension for the Members of Parliament because they have made, and are continuing, unique personal sacrifices, despite their different ideas about money depending on the amount of spendable they tend to be used to, it is better that we do about money, we will be understood. I would like to see a quotation on money by Mai Gibson and it says:-

> "If a man runs after money he is money mad. If he keeps it he is a capitalist. If he spends it he is a playboy. If he does not give it he is a scrooge-miser. If he does not try to get it he is a no-hoper-waster. If he goes to work for it he is a pawn-in, and if he accumulates it after a lifetime of hard work people call him a fool who never got anything out of life."

It, no matter what we do with this business will be with any money matter there is going to be a certain amount of criticism.

I was one of the architects behind the original Bill which was passed in 1968. That Bill was amended so that it did not go into operation on the 1st January, 1974. The new Government has brought the Bill back to Parliament by the most just providing minor financial benefits to the original Bill. I think that there are a few modifications that we can make the Bill to the good. As I supported the Bill in its original form I will have to continue to support it today in order to be consistent.

I support some of the changes made in the amendment Bill, but since the amendments will mean I do not appear 100 per cent I find to be acceptable. For example, I do not agree with the removal of the right to have a gratuity in terms of the Bill. However, I understand the Government's reasoning for it since there are many past Members who could well take advantage of this clause, and if this were done it would cause the Government to have to put out a substantial sum of money during the first year. It is a reasonable amendment. However, I feel that there should have been some provision left so that maybe in future years the pension would be terminated if the recipient decided to terminate the pension on grounds of disability or maybe financial hardship, or whatever the reason may be. Although I will not persevere on amendment, it is a thought which I think should be kept in mind.

An important provision of the Bill is that it takes care of the old Parliaments who served prior to 1968. This has to be laudable and worthy of commendation from this House. I think that the machinery behind the original Bill and perhaps the reasons which were arrived at the time of the new Government is that it is only fair to provide a pension for the old Members who helped to build this country. I am thinking of people like Miss Annie Mullan (spelling) who is now disabled and who has been in a most hard for many reasons which we discuss on this.

MR. G. MAC DONALD (CONTINUED): If time permitted I could cite a dozen more instances of people in their declining years who have been put out on the streets with no job, no pay and no place to eat. I think that it would be a native Australian humility to describe these people as lazy pensioners.

Some remark was made in opposition to this Bill that Members were wanting to give themselves a pension. I have always objected to this because although I do sometimes criticize the Elected Members of Executive Council, I must say that the four men there are very prosperous people, and amongst them we find one of the Territory's only millionaires. So, I do not think that those men are looking for a couple of hundred dollars a month when they reach retirement age. Besides, it is always good to have money. One speaker said that real men are only poor but with money, and it is better to have it now to get out and use than to have it. It is better to be hot and bothered than cold and miserable, so whether the Members stand for re-election I think that it is a right which they have given the Government Staff for many years but a certain permanence for the Government services. To my mind, the Elected Members of this House are important to the Government because they are the policy makers. They are the people who are blamed when anything goes wrong. They are sometimes even named by the press until,

While Mail Boroughs in the Cayman Islands once the wrongs have been substantial peoples they have been honest, hard working, carefully weighed statements, since 1972 we have had a new breed of people created by the 1972 Constitution which gave to the Elected Members of Executive Council responsibility for running the Government of these Islands. If we are to accept responsibility and if we are to accept all the wrongs which go with it, we must also accept the credit. We must accept the price which must be paid.

An attempt has been made to confuse this Bill with that of a social security system. However, I would like to say that this particular Bill will provide a pension for a handful of people who have worked for the Territory, whilst a social security scheme would be a scheme which would provide benefits on a contributory basis irrespective of the contributions made by the beneficiaries of the plan. Also, the cost of this plan is like a drop in the ocean when compared to a social security system.

I realise that the Minister even said that we do not know the premium rate. I do not think that that is relevant to current. The Actuarial Division have full data on the cost of providing this pension plan. We know full well what it will cost within a few dollars. In fact, since last year I can figures which have been prepared by the Government Actuary the estimated cost. In this Meeting I have heard that it would be in the vicinity of $100,000 per year. So, we know the cost.

It has been said that we do not have time to actually, for this session. Here again this is not correct. We have full data and we know what it is limited. We have the past Members know and we will find out pretty much how they, namely the Honourable Third Official Member has a view which is very comprehensive. So, we know the cost and we have the figures to back it up. We are looking at a 300 million Budget.

So, I cannot understand the objection of Members who are saying that we have opposed a whole scheme full of which we cannot afford the cost. I intend to support this Bill. I cannot be deceived by one of the Members which I will not support. I hope that I have the support from because I have made no many statements that I am not sure which is which any more.

MR. G. MIFSUD (OPPOSITION): However, the amendment which I proposed reads:-

> "Notwithstanding anything contained in the Act No. 1, 1959 providing a pension, shall commence 5 per cent of their monthly salary towards the scheme."

I wish to be clear that anyone who is the House receiving a parliamentary salary would contribute 5 per cent. I object to that on the grounds that the Government's scheme for MPs' pensions is not a contributory pension. However, as I mentioned at the start, certain minor points can be taken by Backbenchers. When I made that statement, then I made the broad statement that the amount and the amount mentioned as set out in the Establishment-ation, the fact that one gets a pension is accepted, but the principle was different from and different methods of funding and so on.

So, I object to it on the grounds that this does against the basis of pensions because this 5 per cent contribution is normally a punishment of the Members. If the 5 per cent was necessary for the funding of the pension I could understand it. Many private schemes are funded by a contribution from the employer, plus a contribution from the employee. If the Government had a method of funding whereby contributions were made to private pension plans and that was a part of that contribution method of funding, I would go along with it. However, we do not have such a funding and we are to be told this 5% would create, as the Honourable Prime Minister will tell us, hence with his Government because they would have to set up a whole new line of administration, financial reconciliation and so on and so forth. That's just nonsense. They could be set up in a simple manner, however, by accepting it as one Angley which we have it.

THE PRESIDENT: I have allowed the Member to make his points. I am not sure that it is necessary for anyone however to be in opposition to the Bill which has not been moved, nor the Bill itself.

MR. G. MIFSUD: Sir, Mr. President, I agree with...

THE PRESIDENT: Well, I think that I have let you have your point. I do not think that is absolutely necessary.

MR. G. MIFSUD: Sir, I agree with you, Sir. I think that I have made the point that this could be a contributory scheme, an integral part of the pension scheme, and it should not be a beautiful plan.

The Honourable, or anyone who has not previously a pension in the same establishment can choose to take up the same plan, because the further have we can look the Members should be still safe. There was a time when the Members of this House did not receive a salary. If Members feel that they should have no pension, why not give up their pensions voluntarily? If Members feel that the Government cannot afford to pay this pension, why not increase their salaries to 10 per cent of what it is so that the money can be available? Because I think any outlay that the Members of this House can imagine should be the money in their pockets but they need it today. So why are we asking that we would a outlay because we are asking that? We talk it every month. We spend it or like one Member says, he gives it away. However, by accepting it as one Angley which we have it.

MR. J. HARRY BODDEN (continuing): Why not do away with the salary which gives a greater burden on the Government than the pensions? Why not do away with the parliamentary salary? There was a time when the Members of this House did not have a decent building in which to meet. However, thanks to the efforts of parliamentarians in the past we have a fine Parliament building today. There was a time when we did not have staff large enough to cope with all the administrative matters, however, like the advertisements for Virginia Reels, you have come a long way, baby".

We could quite honestly say we did not have offices for the Members of the Legislative Assembly and now I understand that there is quite a temptation and in fact some Members have moved to the parliamentary premises. So, how can we really overview that and how are we going to view on the part of the people to be progressive?

Finally, Sir, there is anyone who on religious grounds believes that it is wrong to receive a pension, I would ask them to read a text chapter 5, verse 4, which says:-

> "If a man provideth not for his own especially those of his own house, he hath denied the faith and is worse than an infidel."

MR. SPEAKER: The Honourable Second Elected Member for George Town.

HON. W. MCKEEVA BUSH: Mr. Speaker, I rose to support this Bill, I also rise to commend the Parliamentary pensions Law, 1966.

I would like to thank the Second Elected Member for West Bay for her contribution to this debate last Friday. I was unfortunately away, Sir, but it was mentioned by Table to me, and especially to Hansard.

In speaking my thanks on the Parliamentary Pensions Law in May and December, 1966 as proposed by the Second Elected Member for West Bay, I am fully aware, Sir, and always keep in mind my constituents. This should also apply to myself, so I shall now come back to myself. I think, Sir, that it would be well for this House to remember that as well. I am not referring to criticism, or constructive criticism, but there is an old Indian proverb which says:-

> "Never criticize your neighbour until you have walked a mile in his moccasins."

In my two Second Elected Member for West Bay may have to place some of the things which he said and some of the promises which he has made, he might see why he is in this state and I hope that in his next three months of office he will be no more negligent to the needs and wishes and concerns of his people than this present Executive Council has tried to be.

I have noticed, Mr. Speaker, that he quoted the excerpts from my debate that I made some comments in this and likewise, Mr. Speaker, I will quote those which are comments on me and which were obviously omitted by him. In my debate last year, Mr. Speaker, my opening remarks were:-

> "I do not subscribe to principle in the notion that this Bill seeks to establish as I fully realize and appreciate the fact that there are several outstanding citizens who have served and are still serving this country, well with little or no compensation."

SEN. W. ALTON JONES (CONTINUING): I want to, Mr. President, and congratulate Senator Long for his statement that I thought that have preceded should have been done. I have on the agenda today a necessity program, with it social security or what have you for the elderly, and I placed my talents on the things, which I considered was off. I said:-

> "Finally, Mr. President, I share the view that a bill of this nature should have been introduced at a more opportune time. Like at the beginning of a new session when the results from amendments that have fully served and its effects fully studied is called.
>
> I therefore do not support this bill at this time."

I, on that understanding that there would come a time hopefully when I would be able to offer the bill my support.

I feel that that time has come, Mr. President. Regardless of what is said about this bill, the good has been done. The recommendations I made to my Administration and a necessity program for the elderly is being carried forward by the Honorable Senator. The hearing is scheduled, I feel that in the final years of the business of this term Senate we should consummate such a bill.

So, Mr. President, in the spirit I have no request for my friend at this time. Accordingly as the Secretary will proceed, the bill was passed and become law to my mind.

Let me say here, Mr. President, that I feel today that my reasons for supporting this bill now just as valid as my reasons were for not fully supporting it on May, 1964, as I today many of my good colleagues have seen fit to this bill, which when passed will give this country a better constitutional republic form.

Mr. President, just because this house has not yet considered the question of this law under a Republican administration does not mean that it should be considered. The consideration has been given to this law and we have today this bill before this Senate to be dealt with. Mr. President, it is my considered opinion that it would have been morally wrong for a new Congressman to propose or advise this law indefinitely out of political spite and vindictiveness, simply because it was not been introduced and passed by a Republican administration. It is true, also, that I am fully of some Congressmen which would have done that. However, this disagreement does not apply to this member and our Congressman should be praised in unity.

It is also true, Mr. President, that there are many persons who are not in this world who will benefit from this. However, those who are immediately in need should not be forced to suffer because of the good intentions of others.

Additionally, Mr. President, many of these like the Senior Citizens for Need Aid and the Pledged Women for Social Gain, many of those who are unwilling for disbursements monies, should support this bill as a step in the right direction, to the ever increasing helping hand of those who are in need.

It is also true, Mr. President, that many of those who are dependent upon this law, and I do not put myself in that category, but it is true that there persons when they should be Representatives of this Democratic House that they have not necessarily always be that more fundamental position, and I do not believe that it was should be permitted for being successful, unavoidably if their interest has been served through these ways.

MR. M. ABDUL AZIZ (CONTINUING): I know, Mr. President, that many irritable statements have been made against the present Government, not the least by some who have previously occupied honourable benches on this side. However, be that as it may, we cannot be a party to any political act for evil. Apart on the economic side which I have dealt with at the start, it is my view and I submit here that this Government has a responsibility and a commitment to have the parliamentary Question Time properly dealt with at this time. Mr. President, what I strongly object to is the intention that Executive Council has resorted to lately or seek to circumvent the spirit with discussion in private and therefore through the amendment to section 3, that is the first section 3 seeks to remove the Governor's power to interpose parliamentary and Executive Council matters.

It is quite true that salaries of Parliamentary Secretaries or Executive Council Members are determined since they become to positions that may be occupied by Private Members, so in order to comply with the spirit of the Section Elected Members, that is Executive Council and the Governor do their work and function.

The salary and pension figures which were moved by the Elected Member for North Side pre-suppose that there will always be an annual increase of 10 per cent. However, everybody does in practice, a Superintendent may not get a rise.

Mr. President, the present salaries being paid have not yet the present Executive Council and the policy of making some salary for ordinary Members of the Legislative Assembly and also for Members of Executive Council are not the same. This is one element in favour that your Government was found in place, and it remains the same until this day. I maintain in this regard, Sir, that whenever a person is paid it must be given an opportunity which salary is correct. This is the only method or practice of which I can salute which is the only method of the Government to calculate pensions. It is calculated on what a man has earned.

It must also be pointed out that the parliamentary secretaries are paid to present Members of Executive Council and I say this on a point of clarification, because on Friday, or during the debate last week, any person listening to this debate would very well get the impression that Executive Council Members are being paid a fix pension at the present time, and that they are paying themselves whatever salaries they deem fit. The pension, Mr. President, which will be paid to any Member of Executive Council, past, pensions or future will only be paid if and when they qualify, and this is strictly set out in subsection (2) of section 3.

Mr. President, it is the right of any Member to exercise his or her privilege in this honourable House. However, I cannot accept the position which has been granted by Executive Council as Members paying themselves this amount without a revision from the last parliament as regards a pensionable pension scheme. Nothing must be forgotten from the fourth and the point which was made on Thursday must be remarked here again. That is that Government is actually pursuing the services of such a scheme. However, the responsibility must be established before the legislation is enacted. This is logical and reasonable, and can only be commended.

Mr. President, I do not feel that anyone is more knowledgeable of a problem than those who have worked long and hard hours experimenting this country under many adverse conditions. As far as I am concerned, there are no more discussions to be had with

MR. M. MORGAN DAVIES (Commissioner): We both share the essence of this Bill and the weight of the case made. How do we ensure that a newly nominated Member can demonstrate knowledge of certain areas, but no-one knows them all. I have to say I am saying that outweighs taken that one shall read, So, Tal we must keep to amendments and pre-judge every case. I am sorry I cannot be more off than on this Bill.

Sir, Mr. President, this is truly a momentous and exciting time in the Assembly. I trust that this will always be the case. I do not desire for one minute the adversity of any Members of this House, but I do not intend to sit by and have Members hold the Government which we do elaborate in such a disparaging and unnecessary manner. This is unjustified for, in my view, and it distracts from considering the business of this House in the dignified manner in which it should be conducted.

As the most Elected Member the Honourable Second Elected Member of Executive Council. It is my intention to speak the contrary my Ministerial Members inside or outside this House; whether in Executive Council or the big room. Mr. President, I cannot help but believe that the adverse objections to this Bill and the adverse criticisms which have been levied at Executive Council are being used as a means of settling some old political bad feelings, some old political grudges I should have said.

Nevertheless, Mr. President, in this Honourable House the fate of the little man is used on a weekly basis as well as by the media and an age to the cause of less. Many times the little man is only used as an excuse.

Mr. President, provision of the Bill into law a fixed pension of $4,000 to be paid annually for Members who served prior to October, 1969. It is the third time a Bill of this nature has passed this Honourable House, but nevertheless of the Bill which was passed into law last year, some of the good things which the Government had put forward, because ostensibly there are the people who worked for nothing. There are the persons who worked under extraordinary circumstances and of these who are still alive should be considered as the last group of persons who served prior to 1969. It is significant to note that no form of pension has been established for these persons justifying which this Bill is, and this was clearly explained by the mover.

A real formula for calculating the pensions which in my mind is most equitable is to work on the salaries to which established rank of service,has provided for the part year of service was once again explained by the mover, whereas the other calculation deals with full years of service. Nevertheless, it still limits the maximum payable to five thirds.

The generous provisions which are long overdue for Executive Council Members have been announced. If this Honourable Council was looking to our service to the Civil Service,they would have left that they could have been eligible after one year of service in that section. However, this has been changed to three years instead of twelve months and it also came August, 1979 as the date for calculation purposes. So, I feel that this was correct in every form and make this as it should be.

The payment of gratuity has been discussed... Many times this would have meant Government having to put out a large amount of money. However there is no doubt that the majority of persons would have eligible a gratuity. However, I think as mover was pointed out by the mover, if this is agreed there a requirement to amend of term, the persons or individual have a fixed amount every month to look forward to and will not find it all at one time.

MR. H. KENNEDY JONES (CONTINUING): There is also provision for the pension payment to cease if a pensioner has been sentenced to twelve months or more imprisonment. This is fair. This is the same as for Civil Servants and I do not feel that parliamentarians should be treated any more favourably than Civil Servants. However, provision has also been made for this to be reviewed under certain conditions.

The question dealing with remuneration has been repealed and rightly so, Mr. President, because in the original Bill this was actually only taking away, because what they would receive could be a pension equivalent of less remuneration they are receiving. I think that they should pay higher salary for the implementation of what is made.

In response wrote, Mr. President, it is my understanding that this will cost Government approximately $185,000 per annum, and this remains as previous. I must say this is a large amount, Mr. President, and the point has been made about the economy being in bad shape. It is true that this would add approximately 1 $0 million deficit as compared to previous and expenditure for the year 2002. Nevertheless, I feel that merely looking at things just economically, that this is not a prohibitive amount and I feel that Government can oppose this more or less on any view.

Mr. President, this Bill might not be perfect. I know that although some members of Committee stage are having proposals. I support the one which makes provision for a viable pension and I believe that in changing out the details at Committee stage we can come up with a Bill which will make a significantly favourable but acceptable to all sectors of our community.

I support the Bill, Mr. President, and I thank you for your attention.

MR. PRESIDENT: I think that it may be convenient to allow any further Members wishing to take our reluctantly remaining half-proceedings for approximately fifteen minutes.

AT 11.00 A.M. MID-MORNING REFRESHMENT

MORNING RESUMED AT 11.40 A.M.

MR. PRESIDENT: Please be seated.

Proceedings are resumed. The Second Reading Debate on a Bill for a Law to amend the Parliamentary Pensions Law, 1965. Does any other Member wish to speak? The Honourable Minister of Economic Development,

HON. MICHAEL G. GOUGH: Mr. President, I feel you that I am in somewhat of a difficult position here as the Second Elected Member for Pavilion but because basically what I am looking at is a procedure which has to be done in a reasonable right. If, Mr. President, although as Elected Member of the Legislature I possibly will not be eligible to any benefits under the Parliamentary Pensions Law because I am not a pensioner under the Civil Service Pensions Act.

MR. KEEGSTRA: (CONTINUED) I should say, Mr. President, that it was quite extraordinary being in the Opposition here to the budget of this year, and one need not go any further to see the reason why.

Mr. President, during 1983 when the Constitutional Package was about ready by this Legislature, certainly there was quite a lot of opposition to it in the public. Being a member of the public at that time, I see made by comments. The comments appeared in a letter to the editor of the Edmonton Journal newspaper which appeared on May 23rd, 1984. Mr. President, in this letter I mentioned the fact that I was not sympathetic to the proposals. The principle of a multiculturalism package I was in a reasonable policy because I realized that the demand on them was very high in the province that they were going into, for years ago or more, and that personally while many Albertans are financially well off and able to give some voluntary service without remuneration, there are others who are not in a similar fortunate position, and therefore it would expect that a certain amount would be quite a good thing to make. Those were the questions I had, Mr. President.

However, in the letter I also spoke on the Alberta Economic Development Authority, benefits under the Act dating back to 1965, because I was aware, Mr. President, that Portfolio responsibility came into the duties of Government with the new Constitution in 1972. Therefore, it would be fair to say that Executive Council considered on just that date. What happened before, Mr. President, is that Executive Councillors attended a weekly meeting, or any special meeting for which they were notified beforehand and knowledge. Later on around the end of the decade Executive Council Members were given an office in the Government Office building. They were given desks and their files were put there where they could look at various cabinets. They could prepare their agenda and whatever else in preparation for the duties of Executive Council. However, mainly in an office and having responsibility for portfolio matters only came into effect at the end of 1979.

Mr. President, the letter which the Premier also said that Legislative Assembly and Executive Council Members maintain the right to be principally involved in matters of Government, and that sometimes this came in conflict of their attendance at meetings. So, it was thought that a Minister doing this is unlike to the circumstances was quite pertinent.

Mr. President, what perhaps prompted to me write that letter was the matter was being debated in the Legislature Assembly in May, 1984, which indicated that providing Ministers with a generous pension, they indicated to the penalty and remedial which I drew to reimbursement. They did not refer to salaries also and I suppose that is one item that I was not happy. Mr. President, the pension to which I refer to retirement was the same policy as the same policy which all civil servants received. They spoke as though I was given generous treatment. This did not refer to the fact that I had served thirty-seven and a half years in the Civil Service before I decided to take my pension. Thirty-seven and a half years, Mr. President, is the one year which they were planning for themselves when they would become eligible for a pension.

Mr. President, they did not mention that my rights to that pension was the same rights applied with other civil servants. They even mentioned, Mr. President, my age at pre-retirement leave. They did not say that this was a compensation for the many hours of overtime which I contributed to Government in order to balance budgets and subsidize the efficiency of my office.

MR. ABDUL K. SOMANJE (INTERPRETER): They did not envisage right from the one year pre-retirement leave documentation was also extended to four or five other officers of the Senate.

Well, a lot of things are said in this House, Mr. President, and they have to get used with it, Mr. President. The amendment FOUR which is before the House and which we were having debated, a Bill for a Law to amend the Parliamentary Pensions Law, 1992, appears to have removed some of the anomalies which were experienced when the Parliamentary Pensions Law, 1992 came into effect.

Mr. President, there are quite a number of amendments to the Law and these have been divided by Members who have spoken already. One of the areas which I would like to mention, Mr. President, are probably that section 4 of the Bill which amends Section 10 of the Parliament of Sierra Leone Law prior to 1991. The Law itself had limited qualifications of service beginning from 1992. This, Mr. President, is something which the present Government regrets very much, for we have people who were eligible for the salaries who would be very grateful for any benefit which would be enjoyed by them under this Law. I have one personality very well, for he was my class mate secondary for a long time until I moved away from that area, he is now Vice-President. Therefore when I made amendments that he would not continue like a pensioner because his qualifications were more or less like mine. However, Mr. President, I just assure you that that is not the reason why I am referring to Mr. Claude Hill. As I said, I mentioned his name because I know his personal circumstances and I would hope that the benefit would enjoyed to him.

Mr. President, as far as the responsibility of service is concerned so that the people in retirement will receive their pension gradually, that is a matter of depending the problem of responsibility I have ever greatly that pension is received. That provides an opportunity who I have of the Government not for the reasons because it gives them a long list of money under. They are not to have benefit. At the same time, it reduces the amount of pension which they receive monthly. Mostly by reducing this particular section in Section the Members of the Judiciary expect of the payment, is not mostly experiment them of any benefit under the Law. They will still draw their full pension.

Mr. President, section 7 of the Bill also sets the qualifying period for Executive Council's pension. The calculation would begin from August, 1977 and not from 1979 as had originally been proposed in the Law. I think, Mr. President, this time is quite right from what I have said already, which is that responsibility started really at the end of 1977, and that Members of Executive Council should therefore properly be eligible for pension as from that date.

Mr. President, another amendment which was done in section 8 of the Bill is to increase the Executive Council Members' eligibility to qualify for a pension from the one which is in the original Act to three years as proposed in the present amendment. This being, Mr. President, that a Member could only be Executive Council for one year, retire after one year became eligible for a pension under the original Parliamentary Pensions Law. However, with this amendment, it would require them to serve at least three years before they would be eligible for that benefit. So, there has been this improvement in the Law.

HON. JAMES G. JOHNSON (CONTINUED): Mr. President, in the case of Civil Servants, they have to serve ten years in the Service before they are qualified to draw a pension, although the pension is only paid at age 55 to 60. That means, Mr. President, that if you joined the Civil Service at age 45, at 60 when he could retire then he would be paid a pension. Similarly with the Executive Council Member, he would have to serve three years and then at age 55 he would be eligible for a pension now.

Mr. President, as I see it there was really no need for the extent to which Members opposed this Bill, whether they like it or not, this Government has taken a responsibility to do one thing or the other with this Bill, the Parliamentary Secretaries Bill, 1984. Either we reject the Bill or we accept it to reasonably do that if would certainly those who would benefit therefrom. I think, Mr. President, that if we are going to remove the services of a reliable Government, and I am glad that the Opposition stated that today, they spoke about the terrible people over here [illegible]. I do not know where this information came from, but I think that there is one in this case who would very well be.... (LAUGHTER). I did not call any names, but the fact of it, Mr. President, is not terribly possible. However, regardless, Mr. President, as a reliable Government we have the responsibility and the need of some of the people who have served this country over the years, people who have given valuable time to the administration of this country for whatever their contract, their service and their support to this Legislature Assembly and their work for a number which would be beneficial to the country, these Islands certainly would not have developed and grown to where we see them today.

The Cayman Islands are looked upon, especially on account taken, on the map of the Caribbean. We have much to be proud of here. I am sure that many of the other smaller countries of the Caribbean would like to follow our footsteps. We just have independence like, many of them would have to study our way of life and what we do have to be successful in the country, and I am sure that if they had the ability and the capacity to follow we that they could. We are still moving on. Everything should be done to the best of our ability. We have recently completed a hurricane [illegible] which again is an area to be proud of and will find the way of the Caribbean Islands. This is how the Islands are moving. We go from strength to strength and we just wish to see the best interests of the people and the country itself. All this credit, Mr. President, must go to the Members of this Legislative Assembly, past and present. The good job of pension which we are considering here is really a small token, a small reward for their service which they have rendered to this country.

Because of that, Mr. President, I have no hesitation at all in supporting the Bill before us.

Thank you, Sir.

MR. SPEAKER: Does any other honourable Member wish to speak? The Honourable Elected Member for Bodden Town.

HON. BENSON O. EBANKS: Mr. President, I support the Bill before us, Sir, a Bill for a Law to amend the Parliamentary Pensions Law, 1984. I do not think that I need to be reminded, as these anyone else need to be reminded that on May, 1984 when the Parliamentary Pensions Bill was brought before this Honourable House, that I opposed the Bill and that I said that I thought that the Bill should have not been considered accordingly which some Members for the benefit of the people, our terms of independence as to whether that was possible.

HON. RONALD O. EDWARDS (CONTINUING): Mr. President, having opposed the Bill in May, 1978, it was planned that it be a Government one has to accept the majority decision. The Government when the Bill was brought back for postponement of the effective date of the Law, it was made clear that it was the intention of the Government to study the Law back after studying it. We now say that there was no need to postpone it. Today the Law Lords would be up to say that one is not a person at law. The Government should have been happy (or embarrassed if it had not brought this Bill back to the Council from once it had studied it.

Mr. President, this Bill, I am sure is still unsatisfactory to the public. For that reason there is no time at which this Bill could have been brought which would make it less contentious. There is no ideal time for bringing unpopular legislation, but today is this Government was committed to do. I believe, Mr. President, that the Bill before us today has succeeded in removing many of the areas of dissatisfaction which were experienced with the Bill when it was brought in May, 1984.

For example, Mr. President, the same persons provisions which exists in the Law at the moment a Member of Executive Council qualifies for an Executive Council post, after one year has been removed. What do the three years. Secondly, where the Executive Council Member needs some qualification for a Full Executive Council position he only has one of four years, it has now been extended over the same period as the Assembly Member. In other words, an Executive Council Member who has only spent the equivalent of two years in Executive Council office for twelve months. That is significant change, Mr. President. Also, as Members have said, the time for existing the qualifying period has been reduced from four to five years, the difference being that from 1969 to 1974 the Executive Council was basically in an advisory capacity with not too much responsibility although, Mr. President, I can personally say that from 1969 Executive Council Members took quite a bit of attack.

Mr. President, since the change has been made that Executive Council Members are, shall I say, feathering their own nests, I think that it would be right if Members took note of the points which I have just raised. That is where the amendment before us puts the qualifying period from one to three years, and it has taken a minimum of eight years to continue the present system, whereas it could have been achieved in four years. There is also the fact that the qualifying period was begun from August, 1974 to expand to October, 1981. Mr. President, personally to my own mind, that helps lopping off those years of Executive Council service. So, if I was feathering my own nest maybe those three years would not have been lopped off at least.

Mr. President, in fact I also mentioned the fact that I thought that some provisions recently been laid aside to those people who may have been in mind but did not meet the minimum qualifications for a pensions. Mr. President, this has been inevitably met by the amendment which is laid before Members ? of the principal Law which provides for a fixed pension to be paid to those persons who served before 1974. The amendment which is before us will complete what was already the intention that widows of those persons, whether the persons who served have died before this time or the subsequently, will receive the widow's pension as the Law stands as well.

SEN. TOWSON OF KENTWOOD (CONTINUED): Mr. President, another significant change in this bill is that as has been mentioned, both Legislative Council Members and Legislative Assembly Members will be paid in part, in support of the time actually spent in the House. The bill has been amended twice more as of session of 4 years, 6 years and 12 years. A person who served 8 years originally got no more than the person who served 6 years. With this formula which has been retained into the bill now, then a person qualified for their service allowance based on the amount time of each completed month that he has served in the Assembly or Executive Council, except if service that is neither used or has been used for eligibility as a pension.

It is significant also, Mr. President, that the members of the Montana Legislature will be given the opportunity of the Finance Committee of the Legislative Assembly, and it is then after the salary has been increased or retiring Members. That mightmean the last and I think that is a desirable one to remove any possible doubt which could have been attributed to that section.

The last clause of the bill which calls for the new title also is necessary that people would have to maintain their pension if they were employed after the have been elected to Legislature. However, then it is possible that once they have served their terms or have been defeated or a Member, then their pension is terminated. Mr. President, in I understand it is the Members who the Civil Service pension and I know that it is in the Retirement Legislature for Montana retired in the House. So, that I think that the two ought to continue and there is nothing required in there with it which, Mr. President, the section which deals with the retirement legislature for Montana which the Legislature Assembly before they can benefit under this bill. I think that it is important that the public understands this, and also that one does not benefit by being on that retirement in the House. There was some of us I understand, who intend to go on each beyond this so the people might decide or elect to their Members.

HON. GEORGE O. NATTY (Queensborough): Mr. President, several Members have touched on section 8 of the Bill, that is where the ability of qualified persons to nominate certain persons to a Judgeship can be given. While I was the opponent of some Members who have said that this should be exactly where people were in the Bailiwick, I believe that having taken this out, Mr. President, has restricted much of the discretion which this Bill would have placed in Government all or one side. It certainly would have answered to a lot more clear what the total people will be going to be under the various schemes.

I should point out, Mr. President, that the Bill does provide for the Law to become effective on the 1st January, 1968, so it would have been the present Government who brought the matter in December to stay the coming into offices so that it could study the Bill more closely and make the recommendations which are before the House now. The benefits of from the 1st January, 1968 in the present Bill do just as much to those persons who qualify. In fact in the present Bill do just as much to those persons who qualify. In fact in the present Bill there seems to be a bit of a long run against me that they are getting it.

Mr. President, I envisage that I will with the assistance to please I do be pressed at the Committee stage. Thank you.

MR. PRESIDENT: Does any other Member wish to speak? The Hon. Elected Member for the Lower Islands.

CAPT. JOSEPH S. KIRKCONNELL: Mr. President, I wish to support this Bill, a Bill for it has to amend the Constitutional Law, 1962. As has been said on this score, I was a Member from 1962 to 1967 and had the privilege of studying the Parliamentary Sessions Bill as it was presented to us in May, 1962. At that time I said that I would not support it in the present form.

I am happy that this has improved and for to suggest the coming into operation date of this Law to give an additional time to study it. Also two of the things which I mentioned at that time. I felt that we should provide for those who absolutely wanted maintenance party back to the Legislature that have been taken away.

I was started yesterday on a question of my speeches. I am proud of what I said then and I am proud of the stand which I take today. I come here to represent my people and their views. When it was presented to 1964 at each short meeting, we were not able to look at to our constituents and get their approval. We must all realize that people when not properly informed, often cannot make an intelligent decision. So some of our constituents, unless we are able to explain fully to them, do not understand exactly what we are trying to do.

I feel as I stand at this time that it is our duty from on to pass judgement that people who have reached retirement age are not entitled to compensation for services rendered, which enabled us to have it said in a free democratic house today. Therefore, I am very grateful to the Government that they have seen fit to put the date back to, also that they have changed the time of qualification for the Executive Council election. I would like at this time, Mr. President, to state publicly that I deeply appreciate the consideration the Elected Members of Executive Council gave me on this Bill. They presented a typewritten copy for my scheme of my coming to this House and asked that I make suggestions on any amendment which I felt was necessary. This I deeply appreciate for I feel that discussion on this on the opposite side of the House on important like mine to them, and we should have an opportunity to have our input.

Chief Market Development Programme: This I asked for four years in the previous Budget and received very little of it. I am grateful that finally I was able to have an input into this Parliamentary schedule 2011.

I note in the estimates vote for Defence exactly twice as much is allocated for Defence Services. I am aware, Mr. President, that during this period there were a few maintenance workers and workmates in the house at that time serving in the same capacity as Clerical Workers either than they were nominated and not elected by the people. I would feel that it should be only just that those Members be included in this provision. If some amendment could be made that the nominated Members could also be I would feel more enthusiastic and that they were getting money owed for the valuable services they rendered.

Another thing comes to my mind, Mr. President, since we do have members in our community who have received Knighthoods and who served in this Legislature for only one term, a period of four years. This does not qualify them for any pension as yet. Many of these people annual facilities for four years and were not re-elected by the people, not necessarily for any reason of theirs. Often the new incoming candidates were more popular and therefore have more to their credit. I feel that it was highly correct that four years should have a proportionate weight to these who served six years. I do not know whether this can be done for any other way. However, I do feel it my duty to submit my views on how I feel towards the workers who were defeated at the polls and could only serve here four years.

Mr. President, I said in 1984 that I felt that we needed to provide for our people and I still have that same feeling. I fully realise that whatever we do must be done in a proper and orderly manner. The honourable Prime Minister/Member of Economic Council has given us an undertaking that he will have a review carried to now about a contributory pension scheme for all our people. I have had considerable acquaintance with the social security system in the United States and also with the pension scheme in Canada. I know that it is an extremely expensive operation and I readily wonder if it was not that question here, if with the amount of problems which would be necessary to sort it out, our elderly people could really benefit. We hope that there would have to be another review for a period of at least eight to ten years before the final would be implemented, unless it was established by Government. Only then honourable Chief Ministers/Members have of the Government to provide any pension.

I am not here to try to hang my hat higher than I can reach and I do not feel that my legislature we should attempt that either. Mr. President, I do not qualify for a pension, neither by age or by terms served in this house, and also I am still a sitting Member, so I am not here trying a pension for myself. However, I am here to vote my conscience that I should applaud and pay respects to those who so faithfully served in the years that things were really, really hard here in the Cayman Islands.

I say, Mr. President, that we must do for all our other elderly people and many which we have here while I know that we greatly meet of this problem still we will, I feel, be brought more of our aged people in later months. I hope that some kind neither disappointments here still are not created. Finally, I feel again our responsibility to do the best we can for all of our people however we can.

So with these few words, Mr. President,

I support the Bill.

MR. SPEAKER: Does any other Honourable Member wish to speak? The Honourable Minister of Highways.

HON. CHARLES H. SHERMAN: Thank you, Mr. Speaker, Sir, Mr. Speaker, in regard to clarification on this Bill before us, a Bill for a Law to amend the Municipal Pensions Law, 1956, I would agree with some previous speakers that the public hearing referred to the Select Committee may not have the necessary interpretation of the Bill.

Looking at the old Law, Mr. Speaker, it says that a Member means an Elected Member of the Legislative Assembly. Then Elected Member, Mr. Speaker, must mean a person of that kind, or at least six months before he qualifies.

It goes on further, Mr. Speaker, to say that he qualifies when he ceases to be a Member and attains the age of 55 years, or not having attained the age of 55, he produces medical evidence to the satisfaction of the Pensions Secretary that he is incapable by reason of infirmity of mind or body, of discharging the duties of a Member, and that such incapacity is likely to be permanent.

Now, Mr. Speaker, first he must be an Elected Member. Secondly, he must have a record of at least six years. He must have retired to be a Member of this House. He must have attained the age of 55, or he must actually be financially incapacitated with medical evidence that he is no longer able to carry out these duties.

That is one of the persons who qualifies, Mr. Speaker. The second person who qualifies, Mr. Speaker, is under that amendment that proposed to change a which appears section 2 and reads as follows:-

> "Section 2 of the principal Law is amended by inserting the following new subsection immediately after subsection (2) -
>
> "(2) Subject to the provisions of this Act, a pension shall be paid to any person -
> (a) who has ceased to be elected to the last day of October, 1958, having served as a Member;"

This is what we are talking about, Mr. Speaker, the amendment between which is the amendment used in those days. So, if the Government agreed one day for this coming session to the 1st October, 1958, he qualifies for the amount over of $1,200.

As the Bill, Mr. Speaker, there are persons which seek to amend the previous calculation of a pension. If we look at the last whole section 2, those persons who qualify and who have served a period of at least six years are entitled to one-third of $1,200. Those former Members of the House who qualify and have served more years would be entitled to half the $1,200. If your on, Mr. Speaker, to say that if a person Member has served twelve years or more, he is entitled to two-thirds of the $1,200. In that Bill, Mr. Speaker, under section 2, the gradually and reduced pension are covered. This section, as previously mentioned by other Members, has been corrected because we are not able at this time to support the granting of gratuities, it is not a small sum, Mr. Speaker, and it will not provide in a small way from the coffers of this country.

MR. THOMAS O. FARRINGTON (CONTINUED): If we were to consider those entitled to the pension, Mr. President, the gratuity amount, together with the retired pension would place a charge on the country's exchequer in 1953 of roughly £491,000.

However, Mr. President, if we now postpone that to the present Bill which authorises, we would be authorising payments to Parliament until those elected members who qualify, as I said about fourteen who served over many years, are dead as also all Members who served only a few years, for as long as 100 Members qualify and the total bill is roughly £80,000.

If we take both, Mr. President, at the level of Members who will qualify under the Bill, and we now put pensions, Mr. President, what the Bill is effectively carrying out is authorising which effects previous years, that is the Members, pensions and gratuities, I am personally not clear of - the Attorney-General before I rise again, Mr. President, we will need further investigations to be done that this Bill is completed. I am pointing, Mr. President, that the reason I have not moved the Motion to fix Postponed was precisely how often we put the amendments of these 28 persons together with those who have elected after 1959 and those elected Members, the question to be charged to the 1959 elections would be roughly £150,000.

Therefore, Mr. President, and that briefly was the difference financially between what we presently record and the amendment which we propose this House, in respect of 1959, the pension liability alone that £150,000. If we look at the two or three years hence, 1960 and 1961, we still find that pensions gratuity will have already granted, that is the £491,000, it would then mean to reduce the last figure at the moment. It would have amounted to a sum of roughly £191,000. In the following year, 1962, it would remain at a sum of roughly £150,000. The Attorney-General, Mr. President, recalls from persons who qualify but have not reached the age of 60 for 1965, that means the age of 50 in 1962.

When we look at this, Mr. President, and compare it to what will be the results as a part of the Bill before us, 1960 would be roughly £191,000 under the present Bill, assuming that the gratuities are already given for 1959. The sum under the new amended Bill would be £191,000 and in 1962 it would be £150,000.

So, Mr. President, the difference is mainly in the change of the 1965 pensions. There is a significant difference between £150,000 and £191,000.

Mr. President, I do therefore strongly the motion moved by a Member. We referred to a discrepancy of £1 million. That difference, Mr. President, arose from misconception of the Attorney-General's Report and the £1.2 million, mistakenly assuming, as observed because we are talking about pensions for the financial year of 1964. However, if it then necessitate, Mr. President, the increase of funds from the General Revenue of £1.2 million roughly, we then ask the question on the rest of that sum will a deficit of approximately £221,000.

Mr. President, we are based about the financial situation of this Government. We can go and about the many things which have been done in this country since the last election. We are employed this country to many commitments in the Commonwealth and further afield in many respects. A responsibility, Mr. President, is something which, as I think was said earlier by one of the Members of this House, is increasing annually in many countries.

MRS. TERESA C. ARTEMIO (CONTINUING): Is it a matter of decision, there is no legal or legislative problem we can do legislation for the entire country? The question, Mr. President, on the latter is quite complicated and complex and this Government needs clarification time to study it. I do not believe, Mr. President, that there is one Member in this honorable House who could say that he does not wish to provide for a peaceful future for everyone in this country. It is a matter of how we go about it, Mr. President.

Mr. President, the allocation in the appropriations for pensions to members of the Legislative Assembly after this amendment has been passed, and I assure that will happen, will require a supplementary appropriation.

Thank you, Mr. President.

HON. M. MANUEL ROXAS: Mr. President, maybe I should have spoken before, but I wonder if the Member on sponsorship speech could tell the House, when did Government service in the Philippines in fact come up?

HON. TERESA C. ARTEMIO: Mr. President, I have had figures since 1964. When we are dealing with Congressmen, Mr. President, I do not think that there is anyone in this House who can tell us exactly who they are, whether they are alive or what have you. That is the reason why we have been going around in the last couple of days trying to make sure that we have that.

MR. PRESIDENT: I think that it will probably be convenient if we now take our luncheon break. I will therefore suspend proceedings until, perhaps, around six or, at least, not later than 3:15 p.m.

AT 12.56 P.M. THE HOUSE SUSPENDED.

HOUSE RESUMED AT 3.46 P.M.

MR. PRESIDENT: Please be seated.

According to my tally there is one Member who has not spoken yet. Does he wish to speak? In that case, I think I am right that all the others have, I will ask the Member if he chooses to exercise his right of reply.

HON. SERGIO A. OSMEÑA: Mr. President, I would like to thank the Hon. Floirendo and the one Official Member for supporting this bill. So the two Elected Members, namely the Elected Member for North Cebu and the Second Elected Member for West Bay, I say to them, I feel sorry for them and I pity them because, Mr. President, they are only -- they are pawns, Mr. President.

Mr. President, one Member asked why the bill should come back right now. It was for two reasons, Mr. President, that when the bill was finally approved by Congress we wanted to make sure that we have it on the record so if necessary,

HON. DENNIS E. SMITH (Cosmopolitan): Mr. Speaker, Mr. President, as it stands this year a question was thrown at me by the Grand Standard Member for Bodina Town, and many supplementaries including one from the Second Standard Member for Jacaya Town. I am glad, Mr. President, to see the availability of these Members. At that stage, Mr. President, I gave them the assurance that Government proposed to have a close look at the Parliamentary Pensions Act, 1961 and bring an amendment Bill to this House in due course. I was questioned about what a "close look" and "in due course" meant. Nevertheless, Mr. President, I see a man who tried to live up to my word and that is one reason why the Bill is back here now. The second reason, Mr. President, is that it was a law on our Statute Books and it could not be left there in limbo, Sir. It had to either be repealed or brought back, and I see no problem coming to repeal it.

What this amending Bill does is to make the law more equitable and in the case most appealing to our ears. Mr. President, we were amazed at being asked by the Government for the purpose of passing out the pensions. It does not take much arithmetic, Mr. President, to calculate that if a Member is to earn a maximum pension, that is two-thirds of twelve years which the old Act stated, that he serves all of the rest of one-two hundred and eighteen from such a number of service. Twelve goes by twelve months again 144, two-eighteenths. Only by the use of the abacus, Mr. President, could please not be given into account. Taken all the less as it stands, a Member who has served nine years and eleven months gets the equivalent of a nine year service.

The amending Bill brought to the House in this Meeting is an excellent one, Mr. President.

Mr. President, I commend the Honourable Minister for Work Sick and the Second Standard Member for Work Sick and the Second Standard Member for Jacaya Town. Mr. President, but in the world one remember something which one has not got and which we might not get, Mr. President, because if these Members are not re-elected they would not be eligible.

Nevertheless, Mr. President, I am sure only they were well aware that that section in the Act was going to be repealed, the remuneration section. I doubt very much, Mr. President, if they could remember something for their late and successors, especially when this clause is out of the Act. So, Mr. President, there are considerations for us to amendment, the Act would the people that are really affected or.

MR. M. MORRIS rose:

HON. DENNIS E. SMITH: It shows the pain through.

Mr. President, the Second Standard Member for West Bay must know this Chamber now for prohibited and withdrawal. I agree, Mr. President, but it is a pity that some people abuse it, withdraw, Mr. President, have developed many problems and if we are not careful they can destroy us as well.

Mr. President, hence I am going for the suspension of standing Order 42(1) to bring it in consistent to the Act. It is felt that the wishes of some of these Members should be given a pension since the two years into a three. It is really to be difficult to understand all these words because we have a lot of records in the old Government Administration Building and we will possibly have to put out a notice in newspapers, and ask people to make a claim.

MRS. DEBBIE A. PORTER (CONSTITUENT): Mr. President, I am not going to oppose this, but because we have a lot of business to get through. However, aside I would like to thank Members for their support and I ask them for the same when we give the amendment in Committee stage. Thank you, Mr. President.

MR. PRESIDENT: The motion is that a Bill entitled a Bill for a law to amend the Parliamentary Elections Law, 2006, be given a Second reading.

QUESTION PUT: Ayes and Noes

MR. W. MORGAN SIGH: May we have a division, Mr. President?

MR. PRESIDENT: Certainly.

DIVISION
NO. 69

AYES	NOES
Hon. Dennis A. Fyntan	Mr. W. Morgan Sigh
Hon. Michael C. Barclay	Mr. D. Kaspar Walker
Hon. Dennis C. McClinton	
Hon. Lennox O. Shanks	
Hon. W. Morgan Sigh	
Hon. Capt. Christian A. Wickham	
Hon. Edward M. Holmes	
Hon. Sophia T. Burnett	
Mr. Winford J. Hinson	
Capt. Ruby S. Rawlinson	
Mr. D. Kasp Walker	
17	2

PASSED BY MAJORITY: BILL ENTITLED A SECOND READING.

MR. PRESIDENT: What concludes Morning Business. We will now go into Committee to study a Bill entitled the Consolidated Collection of Customs Duties Bill, 1998, and various other bills.

THE PROVISIONAL COLLECTION OF CUSTOMS DUTIES BILL, 1998

COMMITTEE STAGE

MR. CHAIRMAN: Perhaps before we embark on consideration of the clauses of any of the individual bills I would just ask the Committee whether they would accept that I am right in suggesting that the usual practice which we have adopted for a number of years, should be adopted on this occasion too, that is to say the practice of withholding the memorable Second Official Number in order to prevent any printing errors or typographical mistakes, things of that kind, so that we do not need to look to identify all of that as we go through the Bills, but can leave it to deal with them. Does any Member disagree with that? No, I think that we can assume that that is to be the procedure again. On that note, the Bills be read in Committee.

MR. CHAIRMAN (CONTINUING): The Amendment Proposed by Question Number Six, 1985." I think notice of the amendment which is in clause 2 from the Electoral Members from South Side.

CLERK: CLAUSE 2 - LOCAL BOARDS.

MR. CHAIRMAN: The question is that clause 2 stand part of the Bill.

CAPTAIN HON. JAMES: CLAUSE 2 IS VERY IMPORTANT.

HON. MINISTER OF HEALTH: Mr. Chairman, I do not appear to have in my possession a copy of the Committee stage amendment proposed for clause 2. Perhaps the Clerk could place on a copy? Thank you

CLERK: CLAUSE 2 - ESTABLISHMENT OF LOCAL BOARDS.

MR. CHAIRMAN: The question is that clause 2 stand part of the Bill. However, as I said, I have in my given notice of an amendment to that clause. Perhaps before we start debating with the clause itself, the Electoral Member for South Side would like to speak to his amendments

MR. D. EDWARD HICKEY: Yes, Sir. Mr. Speaker, as expressed in my debate on this Bill, Sir, I expressed concern about the time which period before the enactment, which would be the 31st of the resolution. I therefore filed the amendment and to have been circulated to Members, which has not appeared really. The new paragraph (e) would say that upon the resolution coming into force, the Bill in relation to the resolution would have to be brought before the Electoral Committee of the Assembly. Section (2)(b) of the new paragraph would state that the resolution would expire on the coming into effect of the Law of the relevant Bills - a fixed expiry of one month, whichever is the shorter.

It has the effect of possibly just over twelve to one month the life of the resolution, and stipulates that the Bills be brought before the Electoral Committee after the vote on the resolution.

MR. CHAIRMAN: Am I right in understanding that it is the intention of the amendment which talks about the deletion of the last paragraph of clause 2?

HON. D. MICHAEL HICKEY: Yes, Sir.

MR. CHAIRMAN: It is the last paragraph of clause 2(1) starting "The resolution shall" which is to be deleted?

HON. D. EDWARD HICKEY: Yes, Sir.

MR. CHAIRMAN: Will normally the last paragraph of clause 2, because there is a paragraph (a), (b) and (c).

HON. D. EDWARD HICKEY: It is the last part of clause 2(1)(b).

MR. CHAIRMAN: Yes. So the words to be deleted are:-

> "The resolution shall, for a period ending six (6) months after the date on which it is passed, have effect as if contained in a Law."

MR. M. EDWIN MICHAEL: Yes, Sir.

MAJ. MICHAEL J. WHALEN: Mr. Chairman, Sir, with respect I think that there will need to be some change in the wording of the words to be transposed, as proposed to be inserted paragraph (2)(c), because thereby under 2(b) says that an amendment must not render a clause unintelligible or ungrammatical. With the prospect, if the words are not so, would be of the same character, this amendment would read:-

"Where the Legislature decides, pursuant a resolution which -

(a) provides for something;

(b) provides something"

then:-

"(c) will be related."

I think that there is some significant difficulty.

MR. M. EDWIN MICHAEL: I am open to suggestions to correct it by the Honourable Second Objector, Sir, as long as the intent is maintained in that the words are brought within one page and that the rule of the resolution is thirty days.

MR. CHAIRMAN: I suppose that the way of doing it might be to say at the very beginning of section 2(2), "Where within"..... in a whole.

MAJ. MICHAEL J. WHALEN: Perhaps, Mr. Chairman, if I may make a suggestion that we could take the word "that" away as the first word of the proposed new paragraph (c) and put in the words "which Assembly Order 2010" and put at the end "which renders unintelligible or ungrammatical".

"Where the Legislative Assembly passes a resolution which requires action will thereby related to the measure have Sixty Clear Working".

MR. CHAIRMAN: Sorry, would you say that again?

MAJ. MICHAEL J. WHALEN: If in the words to be inserted paragraph (c) we delete the first word "that" and put in the words "which renders unintelligible".

"passes a resolution which which requires all words have Sixty Clear Working".

MR. CHAIRMAN: Would it not be better if paragraph (c), which really deals with a matter different word of thing to (a) and (b) was not (c) at all, but came at the very end of paragraph (1) of clause 2 after "in a Law"?

MAJ. MICHAEL J. WHALEN: I agree, Sir. I am merely trying to fit the minimum changes to the Honourable Member's new wording.

MR. CHAIRMAN: Well, I am not quite sure whether a change of this kind is an immaterial to the Government, I think that it is. Do I might about that?

SEN. THOMAS C. JEFFERSON. In principle, Sir, we agree with the amendment, "Subsection (a) is amended" and then the words "after the House bill".

MR. CHAIRMAN: If it is going to be amended, I think that it is more than we just the BCII version be the one which will be more satisfactory, rather than just the latter change....

MR. J. STANLEY MILLER: Do not worry about getting off my problem, Sir. There are two things which we have affected.

MR. CHAIRMAN: And I might that the result of the committee would be quite content to have the Honourable Second Official Member place the wording of (1) provided that the distinction was the distinction between the cases

MR. E. RICHARD MILLER: Certainly, Sir.

SEN. MICHAEL J. MCGRATH: The other way, Sir, we might at the end of sub-clause (1) to substitute or and put there the words:-

> "shall have statutory effect as if enacted in a law by this Bill passed by the Assembly have their first meeting."

In other words we do not have a succession subparagraph (a), but put the words of subparagraph (a) slightly changed, right at the end after the words "the Governor", so that it would read as, here:-

> "Where the Legislative Assembly passes a resolution which
>
> [a]" or by,
>
> "(b)" or to.
>
> "the resolution shall expire on the sooner date after of the Law of the Supreme Bills, or upon the expiry of one month, whichever is the shorter of this Bills resolved by the passage in the resolution have had their first meeting in the next ten days in which the House sits after the date on the resolution."

MR. CHAIRMAN: Could that not be misinterpreted as meaning that if the Bill had not had their first meeting within ten days then the resolution should not expire? Might it not be better to say "provided that" rather than "if"?

SEN. MICHAEL J. MCGRATH: Yes, might, I agree.

MR. CHAIRMAN: I think so. Is that it might read better which is why:-

> "; provided that the resolution shall expire unless...."

At the very end after "in a law", I think that you were going to say "of all Bills". I was going to say:-

> "provided that the resolution shall expire unless all Bills...."

MR. SWATMAN (CONTINUING): I think that would be unobjectionable. I think what would have to happen next is that the draftsman should be instructed and he, either we would be misunderstanding how it is an amendment which really only has one part. It has a (a) and (b) and a (i) and (ii). (b) disappears and (a) and (i) and (ii) now become (a), (b) and (c) in your amendment. Would you please-

> "Prepare a re-numbered (by the deletion of the last paragraph of clause 6 and the subdivision thereof as (a), (b) and (c)) version of the following paragraph:
>
> "The resolution shall expire on the coming into effect of the Peace Treaty, or upon the expiry of one month, whichever is the shorter provided that the resolution shall remain subject to Article 2 in the meantime in the resolution have their first meeting in which the views are after the vote on the resolution."

MR. S. PEACE MINISTER: Sir, I do move, Mr. Chairman.

MR. CHAIRMAN: Have I your first right?

MR. MINISTER S. ISSACS: Yes.

MR. MR SWAMY: You do not object I know?

MR. MINISTER S. ISSACS: No, Sir, with respect, I think that you have left out the section which gives absolutely effect to the resolution.

MR. CHAIRMAN: Well, I take I said that clause 6 should be amended as follows, by the deletion of the last paragraph of clause 6. To that right? the amendment would read as follows:

"Amendment to clause 6."

MR. MINISTER S. ISSACS: Is the last paragraph of clause 6, sir?

MR. S. PEACE MINISTER: It stands, this resolution stands.

MR. MINISTER S. ISSACS: Perhaps we should argue...

MR. CHAIRMAN: In the Peace Settlement, are you making of what I am referring to is the last paragraph in the Peace Bill?

MR. MINISTER S. ISSACS: Yes, Sir.

MR. CHAIRMAN: In fact, the only part of sub-clause 1 of clause 6 which states "the resolution shall for a period".

MR. MINISTER S. ISSACS: Perhaps, Mr. Chairman, since we are in agreement introducing a completely new Constitutional clause amendment, it might be advisable if we say that clause 6 is amended by the deletion of the last three lines of sub-clause 1.

MR. CHAIRMAN: Yes, I think that would be clearer.

REP. MICHAEL J. KENNEDY: So that clears it up considerably about paragraph....

MR. CHAIRMAN: We had earlier established that what was to be deleted was those three lines, but it is my guess that they could have been more clearly identified. Since we are re-thinking the amendment I'm not the draftsman expert. In which case, the amendment will now read as follows:-

"Amendment to clause 2.

That clause 2 be amended as follows: the deletion of the last three lines of sub-clause 1 of clause 2 and the re-substitution of the following:-

"The constitution shall expire at the coming into effect of the Law of the Supreme Entity, or upon the expiry of one month, whichever is the shorter provided that the constitution shall expire unless all Entity subjects to the provisions of the constitution have their Royal Highness whom the head has duly on whose fine after the 4 on the constitution."

REP. MICHAEL J. KENNEDY: We could keep expanding for ever, Mr. Chairman, since in the last sub-clause the words read "duly necessary effect", it might be better to say the words that the "constitution shall cease to have subsidiary effect" instead of "shall expire", do you think there are two different....

MR. CHAIRMAN: It says the courts think that they shouldn't be interpreted in two different ways because we have used two different....

REP. MICHAEL J. KENNEDY: Yes.

MR. DEPUTY: Is there any light also on my own mind here that we look at it more carefully and we know what you....

REP. PEGGY E. MIFSUD: Mr. Chairman, perhaps it might be wise to let the amendment which has been read a number of times before we finalize this matter.

MR. CHAIRMAN: Any other points. It might be better....

REP. MICHAEL J. KENNEDY: ...not to settle any amendment.

MR. CHAIRMAN: Yes. Well I rather think that. If the Committee would agree, it might be wiser to leave this clause still open and we have the honourable Second Official Member can satisfy himself that he has got a point which ought to be going in to subsidiary enlightenment and assistance; that that point can be circulated to Members and we can come back to it later on.

MR. E. PAULEY AZZOPARDI: That is alright with my line.

MR. CHAIRMAN: In that case....

REP. MICHAEL J. CRUCIATA: Well, there is not very much here, let us come back to it because we have so many questions on this Bill.

MR. CHAIRMAN: Well, I wondered would we not pass on previously to consider Bill? That is what I had in mind, that we could really leave considering with this Bill until when we are more ready to do it. I think that the Committee is probably entitled to do that if the Committee is so minded. Perhaps I can just put the question would the Committee like to defer further consideration of this Bill until we have a written amendment before us, now that seems to be?

HON. MICHAEL F. HEALEY: I should be very happy to, Mr. Chairman I think, wishing to consider it now, that really the place where this conversation should go is under sub-clause 2, because under sub-clause 2 it is open to hon. Members then to move amendments to that sub-clause as they see fit.

MR. CHAIRMAN: We have got to change that rear module.

HON. MICHAEL F. HEALEY: Yes. We might.....

MR. CHAIRMAN: Sub-clause now put to be amended as well. So.....

HON. D. DOUGLAS WILLIAMS: We can have our view, Sir, as long as we put them to the hon. Members before....

MR. CHAIRMAN: I have understood the sense of the Committee be happy with that. Is the whole Committee happy with that? As we will proceed with another Bill tonight and we will come back to this one.

HON. F. MACKENZIE BOYD: Are they sure that they know what they are doing this time?

HON. DENNIS F. FOSTER: They will probably show us with another appendix two.

MR. CHAIRMAN: On that note, a Bill for a Law to amend the Statute of Bridge Law (Continued).

THE STATUTE OF BRIDGE (AMENDMENT) (NO. 2) BILL, 1985

Committee resumed

CLERK: CLAUSE 1 - SHORT TITLE.

MR. CHAIRMAN: The question is that clause 1 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1 PASSED BY MAJORITY.

CLERK: CLAUSE 2 - APPLICATION OF STATUTE IN THE YEAR OF 1985.

MR. CHAIRMAN: The question is that clause 2 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 PASSED BY MAJORITY.

CLERK: A BILL FOR A LAW TO AMEND THE STATUTE OF BRIDGE LAW (CONTINUED).

MR. CHAIRMAN: The question is that the Title and Enacting Clause stand part of the Bill.

QUESTION PUT: AGREED. TITLE AND ENACTING CLAUSE AGREED TO BY MAJORITY.

MR. CRAITHIE: The Public Finance and Audit Bill, 1960. I think that I have only had notice of one amendment to be proposed by the Senior Elected Member for West Bay to clause 69. Am I right that there is no other amendment of which notice has been given? Well in that case I think that it may be convenient for the Committee, since this is a very long Bill, if we take advantage of the standing order which enables us to take several clauses at a time. I will check, the Clerk to read clauses between four and nine clauses at a time.

THE PUBLIC FINANCE AND AUDIT BILL, 1960

QUESTION PROPOSED

CLERK: CLAUSE 1 - SHORT TITLE AND COMMENCEMENT.
CLAUSE 2 - INTERPRETATION.
CLAUSE 3 - REVENUE.
CLAUSE 4 - CHARGES ON REVENUE.
CLAUSE 5 - ANNUAL ESTIMATES.

MR. CHAIRMAN: The question is that clauses 1 through 5 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSES 1 THROUGH 5 PASSED.

CLERK: CLAUSE 6 - PREPARATION OF ESTIMATES OF EXPENDITURE AND APPROPRIATION...
CLAUSE 7 - AUTHORIZATION OF EXPENDITURE IN ADVANCE OF APPROPRIATION,
CLAUSE 8 - CHARGES TO CONSOLIDATED FUND OR REVENUE,
CLAUSE 9 - SUPPLEMENTARY APPROPRIATION,
CLAUSE 10 - POWERS AND DUTIES OF FINANCIAL SECRETARY.
CLAUSE 11 - POWERS TO MAKE REGULATIONS AND GIVE DIRECTIONS, ETC.

MR. CRAITHIE: The question is that clauses 6 through 11 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSES 6 THROUGH 11 AGREED.

CLERK: CLAUSE 12 - CONSOLIDATED CONTROL,
CLAUSE 13 - CONSOLIDATED OFFICERS TO GIVE DIRECTIONS, AND QUESTIONS, ETC.
CLAUSE 14 - AUTHORITY OF CONSOLIDATED OFFICERS TO ISSUE WARRANTS OF
CLAUSE 15 - FURTHER AUTHORITY OF CONSOLIDATED OFFICERS IN RESPECT OF UNCLAIM EXPENDITURE.
CLAUSE 16 - DUTIES OF ACCOUNTANT GENERAL.

MR. CRAITHIE: The question is that clauses 12 through 16 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSES 12 THROUGH 16 PASSED.

CLERK: CLAUSE 17 - PUBLIC COLLECTION OF REVENUE.
CLAUSE 18 - PAYMENT OF PUBLIC MONEYS,
CLAUSE 19 - PAYMENT OF CERTAIN MONIES TO BE ACCOUNTED FOR AS...
CLAUSE 20 - RECOVERABLE ADVANCES.
CLAUSE 21 - ADVANCES TO MEET UNFORESEEN EXPENDITURE.

MR. CHAIRMAN: The question is that clauses 17 through 21 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSES 17 THROUGH 21 AGREED.

CLERK: CLAUSES 32 - PAYMENT,
CLAUSES 33 - DEPOSITS,
CLAUSES 34 - BORROWING AND GUARANTEE,
CLAUSES 35 - LENDING,
CLAUSES 36 - INVESTMENT OF MONEYS.

MR. CHAIRMAN: The question is that clauses 32 through 36 stand part of the Bill.

QUESTION PUT: AGREED. CLAUSES 32 THROUGH 36 PASSED.

CLERK: CLAUSE 37 - BORROWING POWERS AND LIMITS.
CLAUSE 38 - GUARANTEES.
CLAUSES 39 - RECONCILIATION OF ITEMS,
CLAUSE 39 - SPECIAL HOUSING ACCOUNT.
CLAUSE 41 - APPROPRIATIONS AND WARRANTS TO LAPSE AT CLOSE OF FINANCIAL YEAR.

MR. CHAIRMAN: The question is that clauses 37 through 41 be stand part of the Bill. Does any Member wish to speak?

QUESTION PUT: AGREED. CLAUSES 37 THROUGH 41 PASSED.

CLERK: CLAUSE 42 - APPOINTMENT OF AUDITOR GENERAL.
CLAUSE 43 - TERMS OF OFFICE OF AUDITOR GENERAL.
CLAUSE 44 - SALARY OF AUDITOR GENERAL.
CLAUSE 45 - AUDITOR GENERAL'S EMPLOYMENT AS PUBLIC OFFICER.
CLAUSE 46 - DUTIES OF BRANCH IN OFFICE OF AUDITOR GENERAL.

MR. CHAIRMAN: The question is that clauses 42 through 46 be stand part of the Bill.

QUESTION PUT: AGREED. CLAUSES 42 THROUGH 46 PASSED.

CLERK: CLAUSE 47 - LIMITS ASSIGNABLE TO OFFICE OF AUDITOR GENERAL,
CLAUSE 48 - DUTIES OF AUDITOR GENERAL.

MR. CHAIRMAN: The question is that clauses 47 and 48 stand part of the Bill

QUESTION PUT: AGREED. CLAUSES 47 AND 48 PASSED.

MR. C. MAYO POWELL: Mr. Chairman, may I ask that you put clause 49 as I already am I intend to propose my hon. friend.

MR. CHAIRMAN: I was intending to. Clause 49 has got an amendment I had objected at clause 20 so we can put it on the sec.

CLERK: CLAUSE 49 - POWERS OF AUDITOR GENERAL,

MR. CHAIRMAN: The question is that clause 49 stand part of the Bill. However, as I note Member I have had notice of an amendment proposed to clause 49 and I will invite the Mover/Seconder for that to speak to his amendment.

MR. M. KWALEPA BUSU: In the meeting of, I believe, the Hon. Minister....

MR. CHAIRMAN: I think that your microphone may be switched off.

MR. F. ROSSITER YOUNG: ...Honourable Third Opposition Member pointed out to me that possibly this would be opposed for the Constitution and I believe in the Royal Instructions, I think he said. However, I feel, Sir, that we have had our Constitution since 1952 and we have had our Royal Instructions for I do not know how long. The things which I mean which were worrying me, was specifically the area of Crown property. In the absence of the Crown property was sold without any comment of the house and also to what this provides to mortgage. I will say no more except that I still intend to support the amendment.

HON. MAURICE F. DOWDING: Mr. Chairman, with respect to the proposed amendment, I feel that under Section 63(2) of the Constitution, it is out of order as it proposes. Now in that it does not comply with Standing Order 43(2), in that an amendment must not relate to matters additional or supplementary, and secondly that it does not comply with the provisions of Royal Instructions, paragraph 7, sub-paragraph (2) which states:-

> "Provided nothing in proposed resolution or said other shall not be proceeded upon by the said Law; or for which shall contain anything foreign to which the title of the Law contains."

This seems to me to be a procedural point pursuant to section 63, the power of Government to the exception of land, whereas the Bill which we are substantively discussing is, conditions connected with this right page to it, Mines, minerals, management and audit of the public finances".

MR. CHAIRMAN: I think that is a proper point. In other words I think if the Second Elected Member for West Bay feels it might that an Government Department Member or official should be entitled to tell Government owned real estate without the Legislative Assembly's prior consent, then it would be better for him to move a motion asking the Government to draft legislation to that effect, rather than to attach it into a Bill which it really does not properly belong.

HON. R. ROSSITER YOUNG: Well, that is his opinion. It might be good too but I still feel that we can go on here, then. Anyway that my motions do not seem anything wrong here for it might be just wasting time. I will stand by the amendment, Mr. Chairman. The House can vote against it if they want.

MR. CHAIRMAN: I think that the point being made is that the amendment is out of order, as it is being suggested to us as the reasons which have explained. I am bound to say that I agree with the explanation and I therefore think that the amendment is out of order, for which case I cannot consider it and it cannot be moved so.

HON. R. ROSSITER YOUNG: Mr. Chairman, that is fair enough to me. You are the Chair, Sir. I still have my opinion. I will have to leave nothing.

MR. CHAIRMAN: Well, I am afraid that that will have to be so. If you would like to make a motion, or at least to put certain words on the things you have proposed, I think that you should have to do it separately.

MR. CHAIRMAN (CONTINUING): ... in that case there is not any amendment after 111 to clause 25. However, does any Member wish to speak to clause 25 or to stand in the Bill? If not, then I will put the question that clause 25 do stand part of the Bill.

QUESTION PUT: AYES AND NOES.

MR. G. RAY BODEN: Mr. Chairman, may I have a division on this?

MR. CHAIRMAN: Certainly.

DIVISION NO. 69

AYES	NOES
Hon. Dennis M. Mahon	Mr. G. Ray Boden
Hon. Michael F. Healey	
Hon. Thomas C. Jeffcomen	
Hon. Lorraine D. Monks	
Hon. M. Norman Endicott	
Hon. Capt. Charles L. McDermaid	
Hon. Percy G. Johnson	
Hon. Stephen T. Grossi	
Mr. Winfield A. Skinner

Mr. J. Renaud Millar	
11	1

PASSED BY MAJORITY: CLAUSE 25 PASSED.

ON CLAUSE 26 - ESTABLISHMENT OF STAFF OF AUDITOR GENERAL.
CLAUSE 27 - SUBMISSION OF ANNUAL ACCOUNTS BY ACCOUNTANT GENERAL TO AUDITOR GENERAL.
CLAUSE 28 - EXAMINATION AND AUDIT OF ANNUAL STATEMENTS BY AUDITOR GENERAL AND SUBMISSION OF REPORT.
CLAUSE 29 - ANNUAL GENERAL REPORT OF AUDITOR GENERAL.
CLAUSE 30 - AUDIT EXAMINATION OF ACCOUNT INTO ACCOUNTS OF BOARDS, CORPORATE, ETC., ADMINISTERED BY CROWN.

MR. CHAIRMAN: The question is that clauses 26 through 30 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSES 26 THROUGH 30 PASSED.

MR. J. RENAUD MILLAR: Mr. Chairman, could I ask that you take clause 26 separately because I would like to move an amendment to that please?

MR. CHAIRMAN: Right, we will take up to clause 27.

ON CLAUSE 27 - AUDIT EXAMINATION OF ACCOUNT INTO ACCOUNTS OF PERSONS, BODIES CORPORATE, ETC., UNDER GOVERNOR'S APPOINTMENT.
CLAUSE 28 - AUDITOR GENERAL'S CERTIFICATE OF ACCOUNTS AND REPORT OF ACCOUNTS OF BODIES CORPORATE, ETC.
CLAUSE 29 - FEES TO BE DETERMINED BY TREASURY BOARD.

MR. CHAIRMAN: The question is that clauses 42, 43 and 44 stand part of the Bill.

QUESTION PUT: AGREED, CLAUSES 42, 43 AND 44 STOOD PART OF THE BILL.

CLAUSE 45 - POWER TO AUTHORIZE.

MR. CHAIRMAN: The question is that clause 45 do stand part of the Bill.

MR. D. ANDREW WILSON: As mentioned in my remarks, Mr. Chairman, I feel that the power to exchange should be with the public service corporation which I think is the correct description for the purpose of clarification legislation. It is correct to say that I have to vote against the clause.

MR. C. BRUCE BEER: I was going to say that in my debate I also think there are some of the reasons to amendments and I will certainly vote against the clause when the time comes.

MR. CHAIRMAN: So, I will put the question on clause 45 as stood.

DIVISION NO: AYES AND NOES.

MR. D. ANDREW WILSON: May we have a division, Sir.

MR. CHAIRMAN: Yes.

DIVISION NO. 28

AYES	NOES
Hon. Donald M. Foster	Mr. C. Bruce Beer

CLAUSE BY CLAUSE: CLAUSES 46 TO 54 STOOD.

INDEX: CLAUSE 46 - NOTIFICATION OF EXPROPRIATION AND RIGHT OF APPEAL.
CLAUSE 50 - APPEAL AGAINST EXPROPRIATION.
CLAUSE 51 - WITHDRAWAL OF EXPROPRIATION.
CLAUSE 52 - COMPENSATION OF EXPROPRIATION.
CLAUSE 53 - EXPROPRIATION IN RESPECT OF MUNICIPAL PROPERTY.

MR. CHAIRMAN: The question is that clause 46 stand part of the Bill.

MR. D. JOHN HORNER: Mr. Chairman, I intend to vote against clause 46, but I wonder if you can arrange for time to be put aside

MR. CHAIRMAN: I will put the question on Amendment #2 although I'm not certain of what will exist.

MRS. LOUISE O. SHAPIRO: Mr. Chairman, I do not want to put words in the Governor's mouth but I think there is the question in Article Eighteen and Nine Hundred (18-900).

DR. C. REID EDWARDS: Yes, but I intended to vote against Amendment #2. I misunderstood in my darkness, Mr. Chairman, that I was only taking the exception which I disagreed with on the bill, but there were other sections which I did not like.

MR. CHAIRMAN: Does it suit everybody if we take Amendment #2 and then go on to Amendment #3? So, I will put the question then that Amendment #2, as set at the urged part of the bill.

QUESTION FOR VOTE: ADOPTED. Amendment #2 prevailed by parol.

MR. CHAIRMAN: Since it has been read already so we don't have need to do it. Unless any Member wishes to speak on it I will put the question this Amendment....

DR. C. REID EDWARDS: I was going to say that sections 20 is related to section #3 which I voted against earlier. There is a direct contradiction between them as stated in Section #3.

MR. CHAIRMAN: I think that section Amendment #3 through #5, if you look at the beginning, all the Amendments are a direct part of the Bill and are all related to one another. If I may put the question on Amendment #3.

QUESTION #03: ATTY. GEN. INDEX.

MR. CHAIRMAN: Do you have a discussion?

DR. C. REID EDWARDS: Please, Mr. Chairman.

CLERK: A BILL FOR A LAW TO AMEND THE PORT AUTHORITY LAW (CAP 15 OF 1978).

MR. CHAIRMAN: The question is that the Title and Enacting clause do stand part of the Bill.

QUESTION PUT: AGREED. TITLE AND ENACTING CLAUSE AGREED.

MR. CHAIRMAN: As I think that we are still waiting for the amendment on the order of the Presidential Dilegation of Duties Bill, 1982?

HON. MICHAEL A. BRADLEY: Yes, that is being done.

MR. CHAIRMAN: Well, then in that case let us turn to the Parliamentary Pensions (Amendment) Bill, 1982.

THE PARLIAMENTARY PENSIONS (AMENDMENT) BILL, 1982

COMMITTEE STAGE

CLERK: CLAUSE 1 - SHORT TITLE.

MR. CHAIRMAN: Perhaps before I put the question I can just check that I have the amendments. There is a proposed amendment to clause 4 by the Second Elected Member for West Bay. There is notice of a proposed amendment to clause 7 in the name that clause 7 as it now stands is negatived, from the Elected Member for North Side. There is also a proposed new clause 7 which in accordance with the procedure accepted in Standing Orders we take at the end after we have dealt with all the other clauses, I think. Yes, Standing Order 57, paragraph (8). Mr. Clerk are the only three Committee stage amendments of which I seem to have notice. That is to say clause 7 is it not? I will read that one out.

MR. CHAIRMAN (CONTINUING): Clause 4 and notice of a proposed amendment to clause 7 under certain circumstances and the Honourable Chief Official Member's. Because the notice of the and after we have dealt with all the other clauses.

CLERK: You said three?

MR. CHAIRMAN: Clause 4 and clause 7. That one will not arise actually. Now, clause 1 has been read so the question is that clause 1 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 1 AGREED BY MAJORITY.

CLERK: CLAUSE 2 - AMENDMENT OF SECTION 1 OF CAP 2 OF 1984.

MR. CHAIRMAN: The question is that clause 2 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 2 AGREED BY MAJORITY.

MR. D. GERARD MILLER: I suspected that, Sir. We suspected the urge to raise it.

CLERK: CLAUSE 3 - AMENDMENT OF SECTION 2.

MR. CHAIRMAN: The question is that clause 3 do stand part of the Bill.

MR. D. GERARD MILLER: Before the vote is taken, Sir, since though I intend to vote against it. Can my own thought would the Honourable Chief Official Member read the full context of clause 3 as it would appear with the amendments in the Bill?

MR. CHAIRMAN: Do you really mean insofar by read section 2 of the principal Law as it would read....

MR. D. GERARD MILLER: No, section 2 of the principal Law as it would read with the amendments under....

MR. CHAIRMAN: But we are on, as usual I think I am on clause 3 of the Bill which amends section 2 of the Law.

MR. D. GERARD MILLER: Sorry, Sir, I am pressing the point. My question, Sir, is the new section which I would like him to do that to.

MR. CHAIRMAN: So, the question is that clause 3 should stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 3 AGREED BY MAJORITY.

MR. CHAIRMAN: Now, we move to clause 4 and an amendment has been proposed by clause 4. I think perhaps we should start by.... Oh, you have not called.

CLERK: CLAUSE 4 - AMENDMENT OF SECTION 3.

MR. CHAIRMAN: I am so sorry, I jumped the gun. I started talking about it before it had been read. There is, as I mentioned, an amendment of which I have been given notice by the Second Elected Member for West Bay proposed to clause 4. Would he like to speak to it?

MR. W. MCKEEVA BUSH: Yes, Mr. Chairman, although I do not know how much more I can say. I just feel that if we are going to remember a pension I think they should at least contribute a few cents of our monthly salaries. This is evident in other territories and as Government pays us they can subtract a few cents. I am not going to belabour this, Sir. I put the amendment and I am going to stand by it.

MR. CHAIRMAN: Would you like copy to read the amendments out because some Members may not have it before them?

MR. W. MCKEEVA BUSH: Yes, Sir. Is you mean all of it or just....

MR. CHAIRMAN: I think so, just to make any Member who not have it.

MR. W. MCKEEVA BUSH:

"Amendment to clause 4 of the Bill.

That Clause 4 of the Bill be amended by deleting the full-stop, quotation marks and full-stop at the end of paragraph (b) and substituting therefor a semi-colon, and by adding the following new paragraph (c) -

"(c) who, excluding those Members serving prior to 1st October, 1959, exercising a pension shall contribute 5% of their monthly salary towards the scheme, and 5% shall be deducted from the total pension payable not to exceed 10% from 1st October, 1969."."

I would like to point out, Mr. Chairman, that what I am asking is that all those Members after 1960, including those who will get a lump sum payment because of the Bill lately introduced to the 1st January this year will pay 5%. I want to point out that I am excluding the Westerman in this paragraph.

MR. CHAIRMAN: Thank you. I am glad that you did read it out because the version which I have got is obviously an earlier version and it is slightly different to what you read out.

MR. W. MCKEEVA BUSH: Alright.

HON. MICHAEL J. DOBLEY: The one before me, Sir, is headed "Amended Committee stage amendment".

MR. CHAIRMAN: Well, either I have not had it or I have mislaid it. It is very possible that I have mislaid it.

HON. MICHAEL J. DOBLEY: I was going to say, Sir, that the language of this is not absolutely explicit clear to me, and I was going to suggest certain amendments or suggestions. However, I think that perhaps it would be premature to do that until we have voted on the Committee stage amendment. Then if it is passed it does not preclude me from making other further amendments.

MR. CRAIGHILL: I think that that may be wise, because I suspect that unless the amendment to the Provisional Collection of Customs Duties bill, 1864, pass now may not be.... In that event, does any Member wish to speak to the amendment which the Second Elected Member for Port Mary has read out and proposed? Very well then, I will put the question that clause 4 be amended as proposed.

QUESTION PUT: AYES AND NOES.

MR. D. SEARD MILLER: May we have a division, Sir?

MR. K. MCINTYRE ROSE: May we have that division, Mr. Chairman?

MR. CRAIGHILL: Yes.

MR. K. MCINTYRE ROSE: What a bunch, they still not bog a bubble but from what they are getting.

AMENDMENT TO CLAUSE 4 DEFEATED BY MAJORITY

MR. CRAIGHILL: We are now back to clause 4 and I think that the Elected Member for North Side seeks to amend paragraph 2 of the principal law which clause 4 seeks to amend, as it will read if amended in the manner proposed by clause 4, could be pointed out.

MR. D. SEAFORD MILLER: Yes.

MR. CRAIGHILL: I confess that I have not myself got a copy of the principal law in front of me, so it would be helpful.

HON. DENNIS M. FOSTER: It is really clause 4 he wants me to read out, Sir?

MR. CRAIGHILL: No, it is section 2 of the principal law.....

SEN. DENNIS D. MOSIER: Alright, Sir.

MR. D. EDGAR HILLEY: With the amendments.

MR. CHAIRMAN: As it will read if it is amended in the way that clause 6 of the Bill seeks to amend it.

SEN. DENNIS D. MOSIER: Alright, Sir:

"6.(1) Subject to the provisions of this Act, a pension shall be paid to any person who -

(a) has since the 1st day of October, 1956 served as a member for the full parliamentary terms or for periods equal in the aggregate to not less than six years;

(b) has ceased to be such a member; and

(c) either -

(i) has attained the age of fifty-five years; or

(ii) not having attained the age of fifty-five years, has produced medical evidence to the satisfaction of the Financial Secretary that he is incapable, by reason of infirmity of mind or body of discharging the duties of a member and that such infirmity is likely to be permanent.

(1A). Subject to the provisions of this Act, a pension shall be paid to any person -

(a) who has ceased prior to the 1st day of October, 1959 serving as a member; and

(b) who has ceased to be such a member, and

(c) whose name appears in the Schedule."

MR. D. EDGAR HILLEY: So in inserting out the amendment, Sir, I think that it should read, "prior on or before".

MR. CHAIRMAN: No, I think that you have misread the amendment.

MR. D. EDGAR HILLEY: Oh, alright.

MR. CHAIRMAN: My understanding is that clause 6 changes it now altogether. It does not delete subsection (1). Perhaps you have misunderstood it.

MR. D. EDGAR HILLEY: Alright,read the white thing.

SEN. DENNIS D. MOSIER:

(a) has since the 1st day of October, 1956 served as a member for the full parliamentary terms or for periods equal in the aggregate to not less than six years;

(b) has ceased to be such a member; and

(c) either -

(i) has attained the age of fifty-five years; or

(ii) not having attained the age of fifty-five years, has produced medical evidence to the satisfaction of the Financial Secretary that he is incapable, by reason of infirmity of mind or body of discharging the duties of a member and that such infirmity is likely to be permanent.

(1A). Subject to the provisions of this Act, a pension shall be paid to any person -

(a) who has ceased prior to the 1st day of October, 1959 serving as a member; and

(b) who has ceased to be such a member, and

(c) whose name appears in the Schedule."

MR. CHAIRMAN: I think that's where your amendment is supposed to go in the bill. I think that you have got an excellent question.

MR. J. EDGAR MURRAY: Thank you, sir, that is fine enough.

MR. CHAIRMAN: That is fine enough?

MR. J. EDGAR MURRAY: Yes, sir. I have made mistakes on this point and I will make more mistakes, but I am always willing to admit them.

MR. CHAIRMAN: That is alright.
I think that you were probably thinking by a call thinking that it explained it, but it is added.

MR. D. EDGAR MURRAY: Part of those places [illegible], sir.

MR. CHAIRMAN: So, I now just put in clause 4 and the discussion to be put in that clause 4 should attend part of the bill. I will put that.

QUESTION PUT: AGREED. CLAUSE 4 PASSED BY MAJORITY.

CLERK: CLAUSE 5 - AMENDMENT OF SECTION 6.

MR. CHAIRMAN: The question is that clause 5 do stand part of the bill. I will put the question.

QUESTION PUT: CARRIED. CLAUSE 5 PASSED BY MAJORITY.

MR. EDWARD A. [illegible]: I would like a division on that, Mr. Chairman.

DIVISION

PASSED BY MAJORITY. CLAUSE 5 PASSED.

SPEAKER: CLAUSE 7 - AMENDMENT OF SECTION 8.

HON. CHAIRMAN: I was unsure whether there I had been given notice by the Elected Member for North Side. It was on upfront conditional notice that he would like to move an amendment to the Bill on the night that Clause 7 was negotiated. The reason for that, if I may explain it on his behalf, is that inasmuch as he had originally sought to move an amendment to Clause 7, I had to tell him that the amendment which he wanted to move was out of order in terms of Standing Order 22, paragraph 7(a), and that the only way in which he could give notice of what he wanted was the way which he has now adopted. So, he may want to speak on Clause 7 to persuade you to negative it. I am not sure.

MR. D. BRIAN WILSON: Yes, Sir. As amendment to my Motion, Sir, I do not think that Members of Executive Council should get a second pension for the same job, even though they may then they have now work. They get more pay while they are in the post, and if Members would favour to vote against the Clause I would then withdraw the option to move an amendment to that Clause in the principal Law.

MR. K. MCKEEVA EGAN: Mr. Speaker, I also feel that in Monday's Hansard pertaining to the Superannuation and Gratuity information, I see that with most of them the Ministers got a Ministerial pension but they do not qualify for a gratuity as an ordinary Member does. There is a complete distinction and I explain this position on those grounds. If they are going to contest as a Member of Executive Council, which I agree, they should collect for a Member of Executive Council. I unfailingly feel that they should not collect as being an ordinary Member of the House also.

I also object on this Motion that there should be three years. I just cannot figure out why three years and I know that no Member in the course of his duties could give a reason why it was three years. I feel that if they are going to put in that section it should be a four year period as our Constitution calls for four years. I just cannot see why it should be three. Maybe somebody can shed some light on it though.

HON. TRUMAN O. BODDEN: Mr. Chairman, on the question of what does Members seek to see as a double pension. I think that I can clear that up by saying that in other jurisdictions like the Members might be saying that the person who has served as a Minister receives pension on the salary which he received as a Minister. However, that is the highest salary at which he was paid during the course of his terms in the Legislative Assembly, and which would be equal to what an Executive Councillor would receive in this Cayman Islands. That is, it is not split in two in other countries, but our salary happens to be split in two. Similar, it is the same principle. They get a pension at the highest salary which they received and the Executive Councillor have to qualify, in fact, only as per with what exists in other countries. Once the qualifying period has been established, that is one course a Minister carried on a Minister to qualify for a Ministerial pension, the same is one more course does qualify to qualify for an Executive Councillor's pension.

It could be put in another way but again that was the way the old Bill was written, it was meaning to leave it as one, as how two different salaries since this is the way it is done.

MR. D. RAY ROBERTS: Mr. Chairman, on the matter of the time, the qualifying period being three years, and the length of the Government being four years, I think that there are many reasons why we should have a three year period. For example, a Member may decide to run for Governor. There could be a by-election. There could be instances where a Member resigned and there would also be an instance where a Member was removed from Executive Council by a vote of no confidence. There are other instances in the Constitution where the Premier could lose his seat and the place would be filled by another Member. However, we have to remember that the Executive Council Member would get a pension simply by serving three years on Executive Council. We must remember the five years as a Member of the House. Is that correct?

MR. CROSBIE: Yes.

HON. EDWARD D. ROBERTS: That is correct.

MR. CHAIRMAN: So you only get an Executive Council pension if he is already qualified for a legislative assembly pension.

MR. W. MARSHALL ROSE: But it is still only three years. I know that for...

MR. CHAIRMAN: You have got to have served in the House for five years.

MR. W. MARSHALL ROSE: I understand that, Mr. Chairman. My point is and I think that the Member for North Side's point is that it is these years we are talking about. All these things could come into play as we could happen after the first day.

MR. JAMES C. MORGAN: Mr. Chairman, I think why it is in there is because while the Electoral Boundaries, one of them, are required to sit in election not longer than four years after the sovereign of the House under the last election. It was considered that if one put four years, one could ensure by ensured that the elections were going to be four years to the day apart. This could be shown by one day, and the Member would have served a full term and still not have got qualified for the pension. I think that this was why those years were used. It means that with the separate of the election process, we have suffered any ill effects on that account.

MRS. DOROTHY E. WALSH: Mr. Chairman, this particular clause which the Honourable First Elected Member of Executive Council just talked to us about, in my opinion surely amendment could be done whereby four years could be changed in that particular clause. Even if it is short by a few days would this clause not be abrogated by such a way that it includes the four years that is normally served?

MR. W. MARSHALL ROSE: Leave the discretion to ask now.

MR. RUSSELL J. QUINN: In addition to that, Mr. Chairman, I think that I would like to explained to me a little more fully whether or not an Executive Council Member outlasting any two different ones for a pension would get more money than if, say, he was just getting a pension based on the number of years he served. Surely the Executive Council salary only does affect. What I am trying to say here is that it was explained that a Ministerial pension is based on a Ministerial salary. I am wondering whether or not an Executive Council pension ought not be based solely on the Executive Council salary, taking into consideration the number of years he has served, whether it was as a Legislative Assembly Member only or not?

HON. RICHARD A. PROFILI: I think, Mr. Chairman, what the Honorable First Elected Member of Executive Council was saying is I understand it now that in other jurisdictions a Ministerial salary is a figure which includes a component as a Member of the Assembly, whereas in our Assembly here it is quite up front and personal figures. So, in fact a Ministerial salary on which a pension is based in other jurisdictions is a figure inclusive of both the parts which we have got in here.

HON. MICHAEL ADAMS: I still feel, Sir, that the Executive Council should be the highest salary which they earn, and most people compare pay people basing the pension on their highest earned salary, I still find the selection of the two regulations odd I would like to see it based on their highest salary, one or the other, Sir, not a combination of both.

HON. W. MARVIN DUNN: This is what we have, a combination of the two situation.

HON. JAMES A. PATTERSON: Mr. Chairman, I have listened to the explanation given by the Honorable First Elected Member of Executive Council. There is still some doubt in my mind as to whether the Executive Council pension will be based on the highest salary being paid to the Executive Council Member, or on a combination of both. I believe that my understanding of the Honorable First Elected Member of Executive Council's explanation was that it would be on the salary paid to the Executive Council Member and not on both, and I believe that also is where the confusion is coming from and I would like to get this properly clarified.

HON. EDWARD C. ROBERTS: I think that the Honorable Second Elected Member just what I was saying a few minutes ago is that a Member is paid a salary as a Member of the Assembly and then one as a Minister. So he gets a salary as a Minister, a component of which he says he would normally have had as a Member of the Assembly. So, that his total salary in another Administration would be equal to what the Members' and Executive Council Members' salary would accumulate to the figure indicated. Am I making it clear?

HON. EDWARD A. ROBERTS: Yes, it is true that the point which I am making is that the pension should be based on both the parliamentary salary and the Executive Council salary, which would have given a total of both together. It would be on the higher amount of the Executive Council salary. The pension should be based on that, and not on both.

HON. J. DAVID WILLIAMS: Under this Bill it is cumulative.

HON. DENNIS C. ADAMS: You mean in another jurisdiction? I would think in another jurisdiction it would merely say that the Member would receive a pension at the highest salary which he was paid during his time as a Member of the House, which I would normally be the salary which he was paid as a Minister, which includes the components of the basic House salary, as I might say.

HON. EDWARD A. ROBERTS: Yes, the explanation which I required of the clarification which I require is whether the Executive Council Member is going to be paid a pension on the $30,000 per annum which is the parliamentary salary in addition to the $21,000 which is the Executive Council salary, and is he going to get both pensions paid to him?

HON. HERMAN C. FRANKS: As I understand it, that is what is on the bill.

MR. D. CRAIG MILLER: As the bill reads that is what is going to happen. Mr. Chairman, we suspect we are not the only ones with questions, and we have two separate witnesses here. A gentleman remains on monthly based on his highest salary when leaving office. I would be much happier although I am pretty sure that is what is meant if it was only the Executive Council pension that was based only on the Executive Council salary and not the bill, and that's not the provision for the same job.

HON. DENNIS M. FOSTER: Mr. Chairman, suppose the Member served say ten years on ordinary Member before he became an Executive Councillor, what would happen then?

MR. D. CRAIG MILLER: His pension would be based on the highest salary which he got, that is who the honourable Chief Official Member thinks the Member, as he is going to be paid a pension on what he received etc. It will be what he leaves it at, the amount of the highest salary which he obtained throughout the service.

HON. MICHAEL J. SHARPE: I think since the Parliamentary Member is trying to say would include the Ministerial appointment. If I have an ordinary Member serving in this House, not on an Executive Council, I would receive a full pay-phase of my salary. If however, I become an Executive Councillor and become just the minimum time, then all the service of eight years would be disregarded for the purposes of calculating my pension rights, which would be calculated only on the short period whether it be a year or three years that I had served on the Executive Council Member.

MR. D. CRAIG MILLER: In most cases, Mr. Chairman, the Executive Council Member is going to be better off anyway, because the salaries which have been quoted here all look quite as for instance one of those people is not going to get any pension at all under this Bill and the others are around thirty years and his pension is going to be $700. However, if we attracted the Executive Council Members a comparable pension based on both salaries, certain Members when they qualified by age at the end of their term would be getting $1,400 a month.

HON. MICHAEL A. SHARPE: Mr. Chairman, my query also is, Sir, if an Executive Council Member has been served three days or four days, but then later he served on the other side of the House, would he be in effect a combination of both since although he had served four years on Executive Council?

MR. CHAIRMAN: Under the present law.

HON. LEONARD J. FRANKS: Mr. Chairman, I would like to make it clear that I did not discriminate other Ministries. That was the statement from the other side and I tried to clear it up as best I could.

MR. D. CRAIG MILLER: We are not concerned about that part of it, Mr. Chairman. However, just one, the explanation there is, Sir, that the Member who served twenty odd years is being, that any year which he served after twenty was wasted. He is getting no remuneration whatsoever for that because at twenty years he has received his maximum

MR. P. JOSEPH MICHAEL (CONTINUING): ... to tell the people to who they have been speaking here all week that they know doing this for, and they were happy to get as much for, mostly them it never might have to become tasks, are not going to get as much as they took them before. They were going to get. As Justice Brown they put up their version.

MS. CYNTHIA A. FLEMING: Mr. Chairman, also it would be my opinion that somewhere somewhere within the future that this system of penalties would be paid. I am totally in favour of the Alternative Dispute Resolution and the administrative penalties. However, I am somewhat unhappy with both sets of penalties being paid to the Chairman. I feel that the penalties should be based on a substantive policy of the Legislature as a consideration point in time, and not in part.

MRS. MARGARET J. ZWARICH: Mr. Chairman, if I could just look to my original example, I have back laying to an Employee which the Non-Union Trades Officials Network would like most of us adopt at. If I had earned five eight years as an ordinary Worker and never back I returned to Canadian Cement, but switched or moved to be a Member, I would get $2,942 per month. If I, having earned that eight years plus that entitled as a Member of Legislative Assembly to the minimum possible pension under that, merely serving four years, I would be getting that a total of $2,500 per annum. So I'm told here.

MR. K. MARSHALL STORY: The Member would have?

MS. CHAIRMAN: Well, it would depend how one wants to put it.... I think that there is a good deal of confusion in...

MR. K. MARSHALL STORY: Yes, for I was just....

MS. CHAIRMAN: ...as to what some people have in mind that things should be amended. We have not got a specific resolution in front of us and it is very difficult to proceed.

MR. K. MARSHALL STORY: I would agree with you Ma'am, Mr. Chairman. There is plenty of confusion and I think that the Government should be well to take the advice of the Hon. Member and withdraw the Bill.

MS. CHAIRMAN: I was not attempting the confusion to the Government's mark up as....

MR. K. MARSHALL STORY: I thought that it was helpful we put it, but anyway I might add that the Bill about to withdrawn because I would now that even though some Members misperceive the Bill they are beginning to have other thoughts as well.

MS. CHAIRMAN: I think what I had wanted to happen is get this amendment to go into the regulations on pension ?.

MRS. CHERYL L. GOSLING: Mr. Chairman, I do not have any further thoughts. I wanted something clarified. It has just clarified one that is it.

MR. K. MARSHALL STORY: The Member still did not know what it is some confusion about when they were debating it though.

MR. CRITTENDEN: The question then is that clause 7 as presently drafted should part of the bill.

DIVISION VOTE: AYES AND NOES.

MR. W. ROBERTS PUGH: May we have a division, Sir?

DIVISION NO. 93

AYES	NOES
Hon. Dennis M. Deacon	Mr. W. Roberts Pugh
Hon. Richard M. Brooking	Mr. Clifford A. Thomas
Hon. Sharon C. Jeffcock	Mr. S. Leonard Miller
Hon. Ransom O. Rhodes	
Hon. W. Norman Stables	
Hon. Capt. Sheridan G. McDonnell	
Hon. Ronald T. Robinson	
Hon. Pauline L. Jarrett	
Capt. Bobby G. McDonnell	
Mr. W. Haig Geddes	
10	3

RESULT OF DIVISION: CLAUSE 7 PASSED.

NEW: CLAUSE 8 - INSERTION OF NEW SECTION 80.

MR. CRITTENDEN: The question is that clause 8 do stand part of the Bill.

QUESTION PUT: AYES AND NOES.

MR. W. ROBERTS PUGH: May we have a division, Sir. It would be helpful if we knew what it is we are

MR. CRITTENDEN: I think, They were handed round microphones.

DIVISION NO. 94

AYES	NOES
Hon. Dennis M. Deacon	Mr. W. Roberts Pugh
Hon. Richard M. Brooking	Mr. S. Leonard Miller
Hon. Sharon C. Jeffcock	
Hon. Ransom O. Rhodes	
Hon. W. Norman Stables	
Hon. Capt. Sheridan G. McDonnell	
Hon. Ronald T. Robinson	
Hon. Pauline L. Jarrett	
Capt. Bobby G. McDonnell	
Mr. W. Haig Geddes	
11	2

RESULT OF DIVISION: CLAUSE 8 PASSED.

MR. CHAIRMAN: I had heard myself. The clerk will have it.

CLERK: CHANGE 8 - INSERTION OF NEW SECTION 105.

MR. CHAIRMAN: The question is that clause 8 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 8 ORDERED TO STAND PART.

CLERK: CLAUSE 73 - REPEAL OF SECTION 18.

MR. CHAIRMAN: The question is that clause 73 do stand part of the Bill.

QUESTION PUT: AGREED. CLAUSE 73 ORDERED TO STAND PART.

MRS. DOROTHY E. EATON: I think that we have to take the remainder now, Mr. Chairman.

MR. CHAIRMAN: I think that is probably better to have the new clauses before us to do the remaining clauses.

MRS. JEANNE H. SAUNDERS: Yes.

MR. D. DOUGLAS WILSON: They would have stood unnecessarily, then.

MRS. DOROTHY E. EATON: Oh, no.

MR. D. DOUGLAS WILSON: All they stand to be....

MR. CHAIRMAN: Did we not already pass clause 7, Mr. Chairman?

MR. CHAIRMAN: We have passed clause 7, yes. I did not think that at the beginning of the Assembly we were particularly fast, and in accordance with the provisions of Standing Order 52(2), the proposal to insert a new clause part would arise after all the other clauses have been disposed. That is what Standing Order 52(2) says, and I did explain that, which is why we now have the proposal to insert a new clause 7. I will invite the Honourable Minister of Labour to move the amendment standing in his name to that effect.

MR. D. MACKAY ELSTON: I do not have any, Mr.

MRS. DOROTHY E. EATON: Mr. Chairman, Sir, at that point in time I did not give the hon. Member notice, so I would like to use for the suspension of Standing Order 52(2) please. When under Standing Order 52(2) I ask that this may be dispensed, Sir.

MR. CHAIRMAN: I do not think that I have to suspend anything. I have to give you leave in accordance with Standing Order 52(2) and that I do grant you. I am not sure whether all Members have got a copy of the proposed amendment. How many Members will get a copy of the proposed amendment?

MRS. DOROTHY E. EATON: Everybody should have them, Sir.

MR. CHAIRMAN: I think everybody has them.

MR. D. GERALD MCSWEEN: Is the Government aware of public anxiety that they are considering their new responsibilities before, in fact, all the details of the Watergate bills get a decision, Sir?

RT. HON. ROBERT F. STANFIELD: Quite aware, Sir.

MR. D. GERALD MCSWEEN: Might it be brought to the House attention.

HON. DONALD C. MACDONALD: We looked at this, Sir, carefully.

MR. R. KNOWLES: Are we debating it now, Sir?

MR. CHAIRMAN: We are discussing the amendment which stands in the name, that a new clause 7 be inserted into the Bill after clause 6, and that subsequent clauses be renumbered. I was given to understand that all members do have a copy of the motions which is proposed, the effect of which is to provide for widows' pensions.

MR. V. SOBURN JONES: Yes, Mr. Chairman.

HON. ROBERT F. STANFIELD: Mr. Chairman, I think on this point we have not followed absolutely the procedure under Standing Order 971(1). If we are following it certainly now and in the future, I think that technically we have to read it a third time and then it comes up.

MR. CHAIRMAN: I see, the Clerk has to read the amendment in lieu of the clause. The new clause might.

AMENDMENT MOVED TO BILL C-218

NEW CLAUSE 7
(THE PARLIAMENTARY RETIRING ALLOWANCES ACT, 1970)

MOVED BY MR. KNOWLES

CLERK: AMENDMENT TO SECTION 7.

MR. CHAIRMAN: The clause is not taken as read. Does anyone want the question put on that clause as read a second time. If not the clause is open for debate.

DEBATE ON AMENDMENT TO CLAUSE 7

MR. R. KNOWLES moved:

Yes, Mr. Chairman.

Mr. Chairman, when the Bill was brought forward two days ago, I said that although I had to oppose the Bill, I supported the motion there to make it possible for the old Parliament to get something. This motion ought to be brought forward by the widows of Members to get a pension of at least half of what the Members would have received. I support it, even although I do not support the Bill. However, my point which I want to make is this. In speaking the Bill I said that Government can bring in a Bill which they did not have very much information on. They did not have time enough to get the pensions in the way they were going to work, and Government has known that, Sir. It is a fact now after enough that they have done.

MR. M. MASSEYA REDD: All the challenge which I made just some Members of executive Council reminds of the things which I said, they did not really know what they were doing.

MR. CHAIRMAN: Does any other member wish to speak?

MR. M. MASSEYA REDD: However, I wish that they could have accepted it.

HON. CHIEF CHARLES T. KINNOCKWELL: Mr. Chairman, if he has not understood what has been debated and said in this House, it would be useless for me or anyone else on these Benches to clarify or let him understand it at this stage, because every Member except these two have gone through this exercise with... If he has not understood it, there is no amount of him understanding it at this stage.

MR. M. MASSEYA REDD: Mr. Chairman, I quite understand what was happening. I am saying that I understood. I was all along that Government did not know what they were doing. They did not know how much it was going to cost and they did not know how going to get it. People who they thought would pay it are still not going to pay it. There is a fault. I know all along what was happening but they could not explain it. They did not know. That was my point, Mr. Chairman.

HON. CHIEF CHARLES T. KINNOCKWELL: Mr. Chairman, I think that this has been made clear, Sir. I think that the Honourable Chief Minister and the Honourable Minst Official Member, particularly the Honourable Chief Official Member have explained it clear that it was impossible to pay it by one month, but it was within a few months. So I do not want to hear the Member again. It is time we unanimously as it can be done and we are not talking about any large sum of money.

HON. S. REGIS WILLIAMS: With respect, Mr. Chairman, I think that this is adding another dimension of people to those who the Honourable Chief Official Member figures on. We could not have included in the figures he gave those people until he knew whether this amendment passed or not.

HON. MICHAEL J. BARRETT: Mr. Chairman, one gets really of the impression that the proceedings in which we are engaged can be considered by a short statement of the moment of information. I feel this way go....

HON. SPEAKER: I thought we were making progress, because we knew only got this one and I hope to put the question on this and then on the remaining clause in a moment.

HON. EDWARD O. LUMUMBA: Mr. Chairman, I would just like to make a comment, Sir, and to say that what is being witnessed by this Committee was always the intention of Government, and it is that I hope that the Honourable Chief Official Member continued these visits to the constituencies. I think that this is very important at the right... at least when the....

MR. D. SEZARIO MITCHELL: That is not what the Honourable Chief Official Member said us, Sir.

MR. M. MASSEYA REDD: No, that brought it to light, Mr. Chairman now....

MR. GEORGE D. AIKEN: Well I certainly was talking but all those people. Have people, Mr. Chairman. I do not know what happened to use my intention.

MR. H. MINETA TSUK: Well, we spoke to the honorable Parliamentary Secretary.

MR. CHAIRMAN: Order, order. We cannot have all of you speaking at once....

MR. M. MINETA TSUK: That is right, Sir.

MR. CHAIRMAN: ...and I am not really certain that we are following the rules of the road as closely as I have attempted now to lead us closely astray.

MR. M. MINETA TSUK: Yes, Sir, I just wanted to make clear position, Sir.

MR. CHAIRMAN: Yes, well I think that everybody has had a chance to make his point. I will now put the question that the amendments proposed by the Honorable Prime Minister be inserted . . . new clause 7 and be renumber clauses 7 to 10, as necessary . . . the Bill.

QUESTION PUT: AGREED TO BY MAJORITY. NEW CLAUSE 7 ADDED.

Clerk: A BILL TO AMEND THE LEGISLATIVE PROCESS ACT, 1969.

MR. CHAIRMAN: The question is that the title as Honorable Member be stand part of the Bill.

QUESTION PUT: AGREED TO BY MAJORITY. TITLE AND PREAMBLE STAND ADDED.

MR. CHAIRMAN: That does not actually conclude proceedings in Committee because we do have one new Bill to deal with. However, I think that unless some Honorable Members are prepared to assist us to deal with that one other matter, which may only take a couple of minutes, I really ought to return to the Chair and move the adjournment myself. The only thing we still have left in connection to the amendments to clause 2 of the Provisional Collection of Customs Duties Bill and the insertion of clause 8 and the amending clause.

Do Members want to take that now?

MR. FRANK C. JORDEN: I move for the adjournment, Mr. Chairman.

MR. CHAIRMAN: I think that ....

ADJOURNMENT OF STANDING ORDER 1970.

MR. D. BRAND MILLAR: I move that we resume Standing Orders and finish the Committee stages of the Bill, Sir.

MR. CHAIRMAN: I am sorry?

MR. D. BRAND MILLAR: I think that we should stay and finish the Committee stages of the Bill.

MR. CHAIRMAN: Well, if you would like to move....

MR. D. EDWARD HIGGS: I have moved the suspension....

MR. CHAIRMAN: ....and motion is what effect we are now on it.

MR. D. EDWARD HIGGS: That is what I am doing, Mr.

MR. CHAIRMAN: Well, then the motion is that Standing Orders be suspended to enable me to complete the Committee review before adjournment tonight.

QUESTION PUT: AYES AND NOES.

MRS. MURPHY: May we have a Division, Sir?

[illegible]

[illegible] SEPTEMBER, 1986

10:00 A.M.

MR. PRESIDENT: May I invite the Honourable Prime Minister of Dominica Member of Executive Council to say prayers.

THE HON. CHARLES D. LIVERPOOL: Let us pray.

Almighty God, from whom all wisdom and power and authority do proceed and without Whom no counsel can prosper and nothing is strong, we humbly beseech Thee so to direct and prosper the deliberations of the Legislative Assembly now assembled, that all things may be ordered upon the best and surest foundations for the glory of Thy Name and for the safety, honour and welfare of the people of Grenada and Carriacou.

Bless Her Sovereign Lady Queen Elizabeth, His Royal Highness Philip Duke of Edinburgh, Charles Prince of Wales, Diana Princess of Wales and all the Royal Family. Give grace to all who possess authority in our Commonwealth that they may be enabled faithfully to perform their responsible duties of their high office.

All this we ask for Thy great Name's sake, Amen. And now let us say the family prayer which Christ Himself has taught us.

Our Father, which art in heaven, hallowed be Thy Name, Thy Kingdom come, Thy will be done in earth as it is in heaven. Give us this day our daily bread and forgive us our trespasses, as we forgive those that trespass against us; and lead us not into temptation but deliver us from evil. For Thine is the Kingdom, the power and the glory, for ever and ever. Amen.

The Lord bless us and keep us. The Lord make His face shine upon us and be gracious unto us. The Lord lift up His countenance upon us and give us peace now and always. Amen.

MR. PRESIDENT: Please be seated. Good morning. The Honourable Minister for West Cam.

Questions

THE HONOURABLE MINISTER FOR WHAT CAN BE DONE TO ACHIEVE SUSTAINABLE AGRICULTURAL GROWTH CONSISTENT WITH ENVIRONMENTAL AND ECOLOGICAL CONCERNS

MR. SPEAKER: Would the Honourable Member make a statement on the programme of the present Tuition Subsidy programme which is supported by U.K. Tuition Officers?

ANSWER: Following approval last year by this Assembly, recruiting took place only 3 Chief Inspectors, 7 Chief Inspectors and 8 Police Sergeants have been promoted and all have taken up assignments between August of last year and July of this year. The Sergeants who are on 2 year contracts and the Inspectors and Chief Inspectors who are on 2 (two) year contracts are engaged in their normal operational fields.

All these officers are providing on-the-job training for lower officers. Some progress has already been made in improving professional standards at lower officers and training is continuing with a view to strengthening the Police Force as far as possible.

MR. SPEAKER: Would the Member like to ask the next question

THE SECOND PERSON ASKING FOR WHOM MAY BE HAD THE ASSURANCE FROM CAPTAIN MACKAY REGARDING THE INCREASE AND EXPENSE ACCOUNT

MR. IBE: Would the honourable Member state the number of work permits issued by the Commission Secretariat for the period five days, 1968 to 31st July, 1969?

ANSWER: Three Thousand, Five Hundred and Seventy-two (3,572).

SUPPLEMENTARIES:

MR. JAMES L. CALVERT: Mr. Speaker, might the Member please state how many persons have been issued since January of this year i.e. since January 1969?

MR. SPEAKER: I will allow the Member if you feel you will be able if you need information about this number of persons I think you may have to put down specific questions because it is not reasonable to expect the Member to be able to provide factual information on every point. It may be that he is prepared to put those questions for you and let you have an answer.

MR. CLARKE F. CARTER: Mr. President, I should be grateful to get this information as soon as it is possible for the Member to do so. If possible within this meeting if he can. Thank you.

MR. S. ERSKINE MILLER: Mr. President, I think the Member agreed earlier to allow a supplementary on how many of these work permits were for person borrowers in the construction industry.

MR. SPEAKER: Yes, I think that is so.

MR. DENNIS A. LOUPER: Yes sir, I have that information from this daily sheet that daily 1968 there were seventy-six work permits and two hundred and eighteen (218) renewals and this is common labourers.

MR. SPEAKER: Would the Member like to ask the supplementary?

QUESTION NUMBER FOR WHICH DAY TO ASK THE HONOURABLE MINISTER RESPONSIBLE FOR TOURISM AND RECREATION

MR. ---: Would the Honourable Member state how many of these pamphlets were sent and how many were requested?

MR. SPEAKER: One thousand, one hundred and twenty-three (1,123) were sent and one thousand, nine hundred & ninety-nine (1,999) were requested.

MR. SPEAKER: If there are no other supplementaries the First Elected Member for the Eastern Division may ask the next question.

QUESTION NUMBER FOR THE HONOURABLE MEMBER FOR PUBLIC WORKS TO ASK THE HONOURABLE MEMBER REPRESENTING THE CAYMAN BRAC

MR. ---: Will the Honourable Member state the economic plans for drilling wells in Cayman Brac for use by the Fire Department?

MR. SPEAKER: Current plans for the installation of a Domestic Fire Service in Cayman Brac are projected for 1982. The introduction of such a service would include the provision of an adequate water supply such as fire wells.

SUPPLEMENTARY:

MR. ROBERT M. MCCOSKERY: Mr. President, a supplementary. Could the Honourable Member state also if it is not until 1982 we are talking about a Domestic Fire Service, by when the Water Authority has employed on the final consideration would be given to drilling wells which would supply the demands because we are having problems with fire?

MR. M. MICHAEL EBANKS: Yes, Mr. President. We would give consideration at that time providing the equipment presented by the Water Authority to implement expansion of drilling fire wells. We will consider it at that time as this would be similar to what we have in Grand Cayman.

MR. SPEAKER: If there are no further supplementaries that concludes question time.

Then I do believe that the continuation

THE CONSTITUTIONAL DISCUSSIONS OF OCTOBER-NOVEMBER, 1981

CONSIDERATION OF CONSTITUTIONAL PROPOSALS

MR. ---: Please be seated.

The House is now in Committee and the Chair informs the Committee is a bill for a law to make provision for the Constitutional Discussions of October-November 1981 which. We had already dealt with clause 1 and had agreed on that point because on amendment to clause 2 was proposed and then was stood down at which stage which provides wording of this amendment.

MR. DAVIDSON (CONTINUED): The amendment seems to me, I think, attractive. The Electoral Boundaries for North Side may confuse them.

MR. D. BRAHAM HUTCHINS: Yes, Sir.

MR. CHAIRMAN: I have amendments still to be moved by him, that have circulated so I will invite the Electoral Boundaries for North Side to move each of the clauses dealing to the new constituency.

MR. D. BRAHAM HUTCHINS: I think I discussed it enough yesterday, Sir, so I will just move the amendment. I am satisfied with the new boundary. It comprises what I can call an overview of the thirty days or....

MR. CHAIRMAN: I think that all Members of the Committee, as you rightly say, spoke their mind enough about it and are interested to withdraw.

MR. D. BRAHAM HUTCHINS: I think others that will have a copy - I do not think we should be, I'm sorry colleagues from Eastern Town does not have a copy, Sir, so I will wait Sir. Amendment to clause 8....

HON. MINISTER OF LABOUR: Mr. Chairman, I am sorry to interrupt. I think just for the record perhaps from the Clerk's information because two days' notice.

MR. CHAIRMAN: It is quite true. We ought to record on the proceedings that I have granted you leave in accordance with the provisions of standing order 8(2), I think it is, by virtue of which less than two days notice has been given so as not that date the Minutes. But you may proceed.

MR. D. BRAHAM HUTCHINS: Yes, Sir, the Member for Eastern Town has been given a copy and I do not think that it is necessary to read it. I think that it speaks for itself and I have not that hesitate except the amendment.

MR. CHAIRMAN: The question then is that clause 2 of the Bill be amended. Perhaps I had better read it because there have been so many bits of paper floating around that....

MR. D. BRAHAM HUTCHINS: Alright, Sir.

MR. CHAIRMAN:

> "(a) by substituting the following for the proposed new clause of sub-clause (1) -
>
> "the constituency, subject to subsection (2) shall for a period ending six (6) months";
>
> (b) by adding the following at the end of sub-clause (2) -
>
> "or if all bills subject to the provisions of the Resolution have not had their third reading within the said two days on which the Legislative Assembly rises shall be the date of the resolution";
>
> and
>
> (c) by substituting "one month" for "five months" in the proposed (3) of sub-clause (3)."

MR. CHAIRMAN (Congressman): Is there an objection to closing the hearing? Does any member wish to speak to it?

MR. [illegible]: Yes, Mr. Chairman, I would like to say that the amendment does improve the bill but my amendment to this will even make the bill palatable to me and I am afraid I cannot support it.

MR. CHAIRMAN: Does any other member wish to speak to the motion? If not, I will put the question.

QUESTION PUT: AYES AND NOES

MR. D. [illegible]: May I have a division, Mr. Chairman?

MR. CHAIRMAN: Very well.

CLAUSE 3 AS AMENDED PASSED BY VOICE VOTE.

TITLE: A BILL FOR A BILL TO MAKE PROVISIONS FOR THE PROVISIONAL ADJUDICATION OF CERTAIN RIGHTS, AND RELATING THEREUNTO.

Mr. CHAIRMAN: The question is that the title stand as Chairman Clause as stood part of the Bill.

Sen. [illegible]: [illegible] TITLE AS AMENDED CARRIED PUTSU.

Mr. SECRETARY: That immediate proceedings in connection with a Bill entitled a Bill for a Act to make provision for the provisional adjudication of Certain Rights, and matters connected therewith. The House will now resume.

Mr. C. Ray Barker: Mr. Chairman, I rise on a point of order. I was not going to deal with this matter by another bill. Are we going to deal with this?

Mr. Chairman: It has to come in Report Stage.

Mr. C. Ray Barker: Oh, alright.

Mr. D. Reuel Miller: We got a promise to debate this.

Mr. Secretary: Yes, we... well, wait and you will see.

HOUSE RESUMED

Mr. Secretary: Please be seated.

Report. The Provisional Adjudication of Certain Rights Bill, 1965.

THE PROVISIONAL ADJUDICATION OF CERTAIN RIGHTS BILL, 1965

SECOND READING

Hon. Thomas O. Rhodes: Mr. President, I beg to move that a Bill shortly entitled "The Provisional Adjudication of Certain Rights Act, 1965" was considered by a Committee of the whole House and passed without amendment.

Mr. Secretary: The Bill is accordingly set down for Third Reading. The Statute of Frauds (Amendment) Act, 3/ 1911, 1948.

THE MINING OF SEAMS (AMENDMENT) BILL, 1965

MOTION TO CIRCULATE

MR. SPEAKER: Sir. Speaker, I move to postpone this Bill to 3rd August, 1965.

MR. SPEAKER: The Bill is accordingly put down for 3rd August, 1965.

THE PUBLIC FINANCE AND AUDIT BILL, 1965

MOTION TO CIRCULATE

MR. THOMAS C. LOPEZ: Mr. Speaker, I have to report that a Bill entitled "The Public Finance and Audit Law, 1965" was considered by a Committee of the whole House and passed without amendments.

MR. SPEAKER: The Bill is accordingly put down for 3rd August, 1965.

THE PUBLIC SEALS (AMENDMENT) BILL, 1965

MOTION TO CIRCULATE

MR. THOMAS C. LOPEZ: Mr. Speaker, I have to report that a Bill entitled "The Public Seals (Amendment) Law, 1965" was considered by a Committee of the whole House and passed without amendments.

MR. SPEAKER: The Bill is accordingly put down for 3rd August, 1965.

THE COURT OF APPEAL (AMENDMENT) BILL, 1965

MOTION TO CIRCULATE

MR. THOMAS C. LOPEZ: Mr. Speaker, I have to report that a Bill entitled "The Court of Appeal (Amendment) Law, 1965" was considered by a Committee of the whole House and passed without amendments.

MR. SPEAKER: The Bill is accordingly put down for 3rd August, 1965.

THE TURKS ISLANDS WATERWORKS (AMENDMENT) BILL, 1965

MOTION TO CIRCULATE

MR. THOMAS C. LOPEZ: Mr. Speaker, I have to report that a Bill entitled "The Turks Islands Waterworks (Amendment) Law, 1965" was considered by a Committee of the whole House and passed without amendments.

MR. SPEAKER: The Bill is accordingly put down for 3rd August, 1965.

THE SUPPLEMENTAL PENSION (AMENDMENT) BILL, 1972

REPORT THEREOF

MR. DENNIS F. PAYNE: Mr. President, I beg to report that I have duly entitled "The Supplementary Pensions (Amendment) Bill, 1972" has been considered by a Committee of the whole Senate and agreed with the addition of a new clause.

MR. PRESIDENT: The Honourable Senior Minister and Minister of Finance Economic Affairs has given an undertaking and perhaps he would like to explain.

MR. ERNEST O. MARKS: Mr. President, in accordance with Standing Order 50(1), no notice being necessary under Standing Order 74(1), I beg to move that clause 4 of the Supplementary Pensions (Amendment) Bill, 1972 be recommitted to a Committee of the whole House for the purpose of proposing an amendment to the said Supplementary Pensions (Amendment) Bill, 1972 of the principal Act.

MR. PRESIDENT: The motion is that in accordance with the provisions of Standing Order 50(1) the Bill be recommitted from the Committee of the whole House be recommitted for the purpose of moving an amendment to clause 4. Does any Member wish to speak?

The Honourable Minister for Home Affairs.

HON. E. MORTIMO BRUTUS: Mr. President, I wish to object to this recommittal and also at the manner which has been proposed by the Government. I object on at least two grounds, Sir,

Mr. President, I have made no notes as I will be very brief. We have stood in this House for a week now debating the Appropriation, the Budget, what should be done and what should not be done. We were told that we were cruel. We were told that we were behind the time. We were told all sorts of things, Mr. President. We were even told that one day you or may need this ; motion.

Mr. President, I oppose this Bill on the grounds that the Government had no reason to bring it back now. They had no amendment to Bill; it is fine now. The other thing we oppose is that Government....

MR. PRESIDENT: The Member must not talk to the Bill. What he is speaking to is a motion that a clause of it be reconsidered....

HON. E. MORTIMO BRUTUS: Yes, Mr. President, but you must admit that.... We must be able to say something about the Bill even if it is an amendment to the Bill.

MR. PRESIDENT: No, you are not dealing with an amendment to the Bill. You are dealing with the proposed amendment. The points you made earlier were all perfectly proper matter but now we are dealing only on the different proposal.

HON. E. MORTIMO BRUTUS: I understand that and I will be guided by your decision, Sir. As you rule, I will bear by your decision. However, I want to say with what has been brought, I oppose it strenuously because they told us that they know what they were doing. It now seems that they do not know what they are doing or what they have been doing.

I beg to be it.

MR. PRESIDENT: The Second Assistant Member from Rainbow State speaks.

MR. D. WADE BROOKS: Mr. President, if we are going to follow the Standing Order 80(2) and the House will be resolved into a Committee to consider it, then to consider the amendment, I think that it is only fair to the Members to know what they are going to consider. You want to consider it as the Standing Order says, if so, we must first vote that the "Aye" be, I think that the Member has an obligation to explain to the House the reason why he now seeks that Committee. I do think....

HON. EDWARD O. DENNIS: Mr. President,....

MR. D. WADE BROOKS: I am not speaking now, Sir. It is clear that the reason for reconsidering any bill is to take action different on it. So, a Member on the floor should be permitted to speak with the reconsideration of his former vote to be done in a committee stage. On the other hand, if he does not know what to vote to be done he may not agree and advise....

MR. PRESIDENT: Could I intervene? I am just a Member. My understanding was that a copy of the proposed amendment will back circulated and I distinctly remember that all Members had had an opportunity to read it.

MR. D. WADE BROOKS: That is true, Mr. President, but unrelated at what stage? After this gentle's Attorney stated I found this as my view here and I do not have the original Act. I might not even be able to find the amendment bill. Certainly, we cannot be expected to go on to take all the problem of the amendment I could therefore just have my just vacated. This is making too much, to use another word politely it is "too much pure for discussion". I think that the Members of this House have a right to know this amendment evidenced on that we may know whether we will agree to the motion for reconsideration or not.

MR. SPEAKER: Does any other Member wish to speak?

MR. D. EDWARD WILLIAMS: Mr. President, I too would like to oppose the reconsideration of this bill. Yesterday in Committee stage, Sir, I happened the owner of the bill to read into which section we amended, hoping that then and then they would have seen the necessity for this amendment. However, they missed it, and I do not see why they should have a second chance at it. I think this Act has been tested and now this bill has to stand as it is, Sir. So, I oppose the reconsideration of the bill.

MR. SPEAKER: Unless any other Member wishes to speak, the Second Elected Member for Kanepa Town.

MR. LAWRENCE A. KAMARA: Mr. President, my comments will be very brief. I have noted from the Committee stage amendment as recommended by the Honourable Minor Minister of Internal Affairs and Local Government that we are in fact moved to reconsider this Standing Order 80(2) which I think most of this House Members have Standing. Also, Mr. President, in reading the new section which is proposed -

"(2) who has attained the age of fifty-five years,"

I would not seem to be a major addition to the new section as was stated.

MR. EDWARD J. DERWINSKI (REPUBLICAN): Mr. President, it would seem to me that we have made, considering what was involved. So, I would request in all fairness how why there be any major objection to having this amendment ready at this stage.

Mr. President, I would support this procedure.

MR. PRESIDENT: If no objection the amendment will be ready to support at this moment. I am glad that's what you are doing.

MR. EDWARD A. GARMATZ: Thank you, yes it is the amendment.

MR. PRESIDENT: Unless any other Member objects to what I will put the question. Clerk to report because, the question now is that in accordance with the provisions of Standing Order 80(1) the Parliamentary Reporting (Amendment) Bill, 1983 be recommitted for the purposes of enabling an amendment to clause 4 of that Bill to be proposed.

QUESTION PUT: (SEE THE VOTE)

MR. SPEAKER PRO TEM: May we have a division, Mr. President.

MR. PRESIDENT: Yes, you may have a division.

CARRIED BY MAJORITY THAT THE BILL BE RECOMMITTED.

MR. PRESIDENT: In accordance, the House will now go to Order Paragraph.

RECOMMITTAL OF CLAUSE 4 OF THE
PARLIAMENTARY REPORTING (AMENDMENT) BILL, 1983

COMMITTEE STAGE

MR. PRESIDENT: The House is now in Committee. I will put a Bill to amend the Parliamentary Reporting Act, having been recommitted in accordance with the provisions of Standing Order 80(1) for the purpose of enabling an amendment to be moved to clause 4 of that Bill.

MR. CHAIRMAN (CONTINUING): For the record I confirm that I have given leave to the amendment with the provisions of standing Order 62(2) for the Honourable Miss Elsie Number of Kamaraible Council to move the amendment to clause 2, copies of which have been circulated to Members this morning, and I will not ask her formally to move it.

REV. ORMOND O. EDWARDS: Mr. Chairman, the amendment proposed has been circulated, but for the record in case some members do not know it, I will read it:-

> "That Clause 2 be amended, in the proposed new subsection (1A) of section 3, by the deletion of the full stop at the end thereof immediately preceding the quotation marks and the subsection thereafter of "; and", and the addition immediately thereafter of the following new paragraph -
>
> "(c) has not attained the age of fifty-five years."

Mr. President, the effect of this is that either through the work of the parliamentary council or by some other, the payment granting the pension had arrived prior to the 1st October, 1969 but had not been considered by the Minister that they first had to attain the age of fifty-five years before the pension could be paid, or in the case with other pensions payable under the Act. It was always the intention that this be the case.

This amendment seeks to give effect to that desire. For how many people will be affected by the amendment, but I can think of a few who will be. It is clear that the whole Bill is in consonance to be misunderstood that this amendment is supported by the Crown. I do not think that Members would like the Bill to go through with this loophole, whether it was known or not when Parliament yesterday evening.

I thank you.

MR. G. MAC BRIDE: Mr. Chairman, since the Minister have moved it explain this morning, I have not had the time to examine this amendment, and I wonder if the Member would tell me if this applies to children now employed or only to schools? I have not had time to put the Bill and the amendment together to see.

REV. ORMOND O. EDWARDS: It applies, Mr. President, to the person who has arrived prior to the 1st October, 1969. As do all other provisions...the widow's pension is covered under subsection (1)(c) of section 2, so this would not affect the widow's pension as I see it, Mr. Chairman.

REV. RICHARD J. CRAWLEY: Mr. Chairman, if I may? I think in fairness to the Government position I must say on this amendment that it does not appear to have been a particularly happy way of bringing responsibility to this matter. I think that is quite in my understanding how matters do stand, that we have considerably simplified of the Bill as formerly presented from Committee room to us. Although in its present state, is there an objection to parliamentarians who had served since 1967, there was a prohibition on the responsibility and receipt of a pension before each person had reached the age of fifty-five.

However, in relation to Chairman's own recollection how originally back placed in the Bill which was before the House on Committee stage, as it was thought then in the years of the since 1967, that there would not be any Parliament who had served at that time who were under the age of fifty-five years.

HON. MICHAEL J. COSTELLO: Further debate is necessary, and the Honourable Chief Electoral Officer has already pointed out the difficulties there are likely to arise in the old Government Administration Building and other difficulties in accommodating the full details of Montgomery. Now he says that we do not only in the present Act but also in the past that the Legislature formerly has been pressed with power flows to the people. It is my understanding that there are several Members who would qualify for this particular consideration who are under fifty-five, if their nominations were not to be received.

The amendment was the direct to the previous motion.

MR. [illegible]: I think we just had a question asked the Second Election Member for whom they are acting, if I have got it right, and would it not have been pre-1949 Members or an appeal [illegible] to all responses to the memo about [illegible] in respect of [illegible] of under fifty-five year old pre-1949 Members, have the same sort of entitlement as Members of pre-1949 under fifty-five year old Members. I suppose that then is also the question of a pre-1949 under fifty-five year old Member duly entitled to a pension if accidentally [illegible] like others. Are they, in other words, in all respects on all fours? I think that is what the Second Elected Member for [illegible] wanted to know.

HON. MICHAEL J. [illegible]: Yes, Mr. Chairman, with the previous that the employees [illegible] in the pre-1949 Members, because they have already [illegible] Members and the question does not arise in respect of them.

MR. D. [illegible] KILLICK: Mr. Chairman, I wonder if we need to play a little longer, why, because someone else might find somebody else who they want to amend the minute to [illegible]. We have already been mentioned, the Second Elected Member for West Bay and I think we have more sort of capacity [illegible] to [illegible], and capacity has many people are included. With [illegible] have they joined recently, a person who can claim to [illegible] whose claims is not [illegible]. Are we likely to have this [illegible] of an [illegible] [illegible] in November, or a few more amendments? Is the Member saying that even though the Member himself who had served under [illegible] entitled to a pension, but we do [illegible] [illegible] has not received [illegible] to under fifty-five, is she willing to [illegible], or does she have to have [illegible] one member fifty-five or not?

HON. MICHAEL J. [illegible]: She is entitled to it.

MR. D. [illegible] KILLICK: She is entitled to it before the age of fifty-five or is she [illegible] on the base on which [illegible] pension is paid.

HON. MICHAEL J. [illegible]: No, we have another [illegible] to have many [illegible] of this amendment were not put through, then there would be several former Members [illegible] under fifty-five who would be entitled to receive a pension immediately this Law comes into [illegible]. The effect of this amendment is to delay their entitlement until they reach fifty-five.

MR. E. ERNEST HOLLINGS: I understand that. What I'm only trying to find out is why the Honourable Prime Minister would take that action yesterday, because, as I know was known out there was now under fifty-five, and he just would decide to establish by a promise of the Government that we would -- fifty-five and be used without having recourse to, to the Members saying that they are going to vote to be fifty-five?

HON. LESTER B. PEARSON: Mr. President, my understanding of the bill and my calculations which were given, I would not place in the least emphasis any importance on the age of the widow. There is no contribution on the age of the widow. The figures which I gave yesterday included Newfoundland entitlement who are not fifty-five. So the figures which I gave the Members yesterday really do not present any problem which would arise, it would seem that the figure would have to be lowered.

MR. E. ERNEST HOLLINGS: I want Members to still consider withdrawing the bill and bringing it back in January.

MR. E. KENNETH RIGHT: Hear, Mr. President. I wonder if the Government would not take a vote on this thing. Why do they withdraw it? Why do they keep doing what they are doing here? They do not know what they are doing. It is ridiculous.

MR. CHARLES S. CROSBY: Mr. Chairman....

MR. E. KENNETH RIGHT: They should withdraw the bill and bring it back another time so they can find out what they are doing.

MR. ROBERT G. PERRY: Mr. Chairman, I would just like to make observation to the last Member when it was in Committee we carefully the clause before we and had the benefit of evidence of the bill. That has been discussed in the Senate Committee. This is a very simple amendment which seeks to delay the operation of anyone who received before 1960 until they reach the age of fifty-five, which is consistent with the other provisions of the bill.

It was an amendment which caused and it seems to me to be a very simple amendment, and one which is desirable to be incorporated. Whether it has only been sighted or not, it is better to accept something which has been in than to allow it to go on.

MR. E. KENNETH RIGHT: Mr. President, Mr. Chairman.....

MR. CHAIRMAN: I believe the Third Member Member for Kent May wants to speak. She caught my eye. I may have....

MRS. DORIS G. CRAFT: Thank you, Mr. Chairman. In looking at this amendment, that, the thing we have to remember of, nobody is turning pensioner, anybody that came down who is not going to pick pay their age. However, I can see that their benefit would still continue exactly how old they are. However, as in the case mentioned previously, when a woman is a widow she is fifty-five or sixty-five. It would also not have lost her husband through the death of her husband, as I suppose in the case of people in the United States, if a man dies and leaves a woman who is twenty-five she is entitled to get that immediately. They do not have until she is fifty-five or sixty, so I imagine that is what this is meant to do.

MR. CHAIRMAN: I should like to say briefly on a point of personal privilege. I do not think that the amendment was proposed in order to facilitate the establishment of a diplomatic corps in any country.

MR. [illegible]: Mr. Chairman, if the Honorable First Assistant Minister of Communications signed his name to somebody's social statement, they would pay him. They do not know what they are saying, in my opinion.

MR. [illegible]: The members are interesting.

MR. [illegible]: I think that ...

MRS. [illegible]: Mr. Chairman, I was just pointing the Second Elected Member for West Bay would fill the role of the Legal Draftsman.

MR. [illegible]: I would withdraw the bill.

MR. CHAIRMAN: Order, order. I think that the time now exists to put the question because we are getting very far from the amendment which has been proposed. The question then is that clause 4 of the Bill be amended in the manner proposed by the Honorable First Elected Member for Communications.

AMENDMENT TO CLAUSE 4 PASSED AT MORNING

MR. CHAIRMAN: I should be grateful now for advice from the Honorable Second Official Member. My understanding was that we should have to consider the clauses as amended again - we still have to explain it to the House.

MR. MICHAEL J. KNIGHT: My understanding, Mr. Chairman is that, after the Committee originally finished their deliberations and reported to the House, that right to the bill in the present subsection form, while it is a simple amendment to that bill as reported and that it is not necessary to have the whole clause.

MR. CHAIRMAN: Very well, in that case if no amendments will the provisions of Standing Order 55, paragraph (1)...

MR. DENIS H. SMITH: Mr. Chairman, sir.

MR. CHAIRMAN: Mr. Minister.

MR. DENIS H. SMITH: I move the report stage be put now.

MR. CHAIRMAN: Well, ordinarily traditionally you should move that the bill as amended in Committee be reported to the House, you have to move that we move it.

MR. DENIS H. SMITH: That be effected as put out of Committee.

MR. CHAIRMAN: Yes.

Standing Order 56(1)

MR. DENIS H. SMITH: Mr. Chairman, in connection with Standing Order 56(1) it is moved that the bill as amended be reported to the House.

MR. CHAIRMAN: The question is that in connection with Standing Order 56(1) it is moved that the bill as amended in Committee be reported to the House. I will put that question.

QUESTION PUT: AGREED TO UNANIMOUSLY. That the bill as amended in Committee be reported to the House.

MR. CHAIRMAN: The proceedings in Committee are closed. The House will resume.

House Resumed

QUIZ GIVEN A TESTED READING AND PASSED BY MAJORITY.

Mr. PRESIDING. It may be recollected by the House generally, as was also true by which of you will remember and to be different, that be characterized by Members of the Government. The Honourable Third Official Member.

ADJOURNMENT OF THE HONOURABLE LEGISLATIVE COUNCIL

Hon. THIRD O. OFFICIAL: Thank you, Mr. President, and I am privileged for my remarks this morning. I put considered which some legal matters.

In the revision which appeared in the Legislative Council on Friday, 30th August, 1963, it was agreed that the allocation to overseas fees should not under circumstances increase from $60,000. I am grateful to the Chairman for the comments which appeared in yesterday's issue, and it appeared that the allocation to the Library from Funds and other sources was $64,800. This shortfall occurred because many issues in the United Kingdom were overlooked. As a result high bonds prices in the London were underestimated here. There being no other business the House stood adjourned.

The total number of licences outstanding was 81, with the number of new licences at 25, giving a net increase for the year of seven and a total number of licences at 31st December, 1963 of 100.

To update the information for 1964, that is for January to 30th September, 1965, the original budget estimate of $1,050,000 has been revised in the second revision to that date to $4,450,000, a shortfall of $2,600, the number of new licences drawn at 30 and the number of licences cancelled this year to 15, a net addition increasing to 25, with the total number of licences at 30th September, 1965 of 130.

There are 15 prohibitions outlook, this consideration, which about seven days to the Civil Service.

This statement, Mr. President, is here to inform Honourable Members and the public of the particular circumstances in the different financial years. The information that appears in this statement demonstrates the problems which the International Financial Crisis has in the community of this Territory and the people.

MR. SPEAKER: It is slightly unclear from my reading what was moved, was only 3 for amendments purposes. I think perhaps what others then called on certainly, it will be considered to break for about fifteen minutes now. I will suspend proceedings accordingly.

At 12.15 a.m. the House adjourned

HOUSE RESUMED AT 12.45 A.M.

MR. SPEAKER: Please be seated.
Item 8(viii), Motions. Government
Motion No. 6/85. The Honourable First Official Member.

MOTION
GOVERNMENT MOTION NO. 6/85

THE HONOURABLE M. SOARES: Mr. Speaker, I beg to move Government Motion No. 6/85 standing in my name, which reads as follows:-

"AND IT RESOLVED that the Legislative Assembly Standing Orders, 1978 be amended in exercise of the powers conferred by subsection (1) of Section 33 of the Constitution, and pursuant to Standing Order 88, by inserting a new Standing Order 88, immediately after Standing Order 87, a copy of which proposed new Standing Order is attached hereto."

Mr. Speaker, the attached draft Standing Order reads as follows:

"Any Member of the Government may withdraw or vote against a motion for giving consideration thereto after it is moved in pursuance of subsection (1) of section 3 of the Provisional Collection of Customs Duties Law, 1985; and the question on such a motion shall be put forthwith."

MR. SPEAKER: The question before the House is Government Motion No. 6/85, the text of which has just been read out by the Honourable First Official Member, as I understand it. Consequential on the publication of Standing Order 88, paragraph (a) this question has to be put forthwith. I am not sure, the question has to be put forthwith that this be referred to a committee as Standing Order. There is, we have not got a Standing Committee on Standing Orders.

In accordance, therefore, with the provisions of Standing Order 88, paragraph (a), I will put the question that this motion be referred to that Standing Committee.

QUESTION PUT: AYES AND NOES

MR. G. HALL QUINN: Mr. Speaker, may I have a division, please?

MR. SPEAKER: Yes.

MR. PARKER D. ATHERTON (CONSERVATIVE): Mr. President, I applaud the estimates and wish to congratulate my colleague from the Opposition for the responsible manner in which he has presented his budget address. So when we are looking at the estimates, what the Government has really done is to look at the revenue, what the Government can really get to be able to, in the early looking at approximately $20.7 million.

I remember when Premier Earl Rayside was Premier of this province. The expectation was to create for this province there was a capacity of jobs. I should not doubt, Mr. President, when there was a capacity of jobs at the beginning of this year, but all of a sudden we realized that this was a scary case from 1984. It was not the creation of this new Government.

I am glad also to see the new Honourable Minister of Economic Development and Tourism is here. I am not saying that we have created a full employment situation but at least people are find jobs around. I was a statement released by the Leader of the Opposition where they said that they did a consultation process on holding four jobs, where there are four jobs in this province that could be applied.

MR. President, the economy of this province is essentially working. The ship needs to keep at the course that which was given recently by the honourable Premier Hatfield regarding growth in the Economic Council. Already this year there are a number of business [illegible] facts. There are a number of bank financing applications pending.

Mr. President, this improved confidence in the private sector is due to the new measures by the International Development Agency. I have my visit this position with confidence, Mr. President. As were told by the Opposition Leader that our Lieutenant-Governor opened this session of [illegible] on the 20th of May. Will Members be aware of the Government's intentions, Mr. President, that is the aspects of taking care of it is the very key that we have of all those problems which we pointed out of the water and out of the economy which we have seen the Government in November, 1982.

Mr. President, it is good knowing the things that the Opposition Leader is pointing out. We have heard on many occasions people that enjoy fishing and hunting of I was find any of this, because this is the Opposition or another speaker showed not so long ago, in Legislature which came up during the election campaign last year and in the Legislature recently this year. We are presently looking at our fishing and hunting problems. I wonder if before this session took place we could do those jobs [illegible]. I am sure I may, Mr. President. This goes on the days when I was an officials of this Government. I have a lot of thought in [illegible] people who were living influenced by, because in all the economy. So all the members where will under the responsibility the fishing of the rod on the shore and how to avoid pollution and use [illegible].

MR. President, we are dealing with a Private Members motion which is pleading with Government to consider a moratorium for the people of [illegible]. People who live there they come to the economy of their province that can be assured that there would be some form of pension which are more than we think and are.

Mr. President, the President's previous speaker which is being now moved here may or may not be the Opposition, but one point of it is well known to the Central Provinces and that is the social security fund of all the country called by the United Province Government and which really [illegible] that was present here [illegible] and I am sure will continue to enjoy

MR. KOSSET G. ANDREAS (Ukrainian SSR) (spoke in Ukrainian): The Ukrainian delegation has carefully studied the report of the United States Government on measures undertaken in accordance with article VI of the Treaty on the Non-Proliferation of Nuclear Weapons.

Mr. President, as time goes on, people's perceptions of those problems are also changing that may not yesterday be considered from this point of view. It is not just that nations have been personally responsible for maintaining the faith they have undertaken. Days in those periods.

Mr. President, one thing which we must be pleased of is that there is serious interest in practical [illegible] the Soviet Union and the United States [illegible] in the process of the general [illegible] which we can only welcome. This is our point of view, Mr. President, that we have been attempted and resolute that in connection with these [illegible] and problems [illegible] [illegible], Mr. Secretaries and persons who work in the [illegible] Secretariat, [illegible] and other organs. What we [illegible] in this region [illegible] which we must [illegible] any form of [illegible] [illegible] and [illegible] [illegible] [illegible].

Mr. President, I [illegible] back to [illegible] which I made my first statement [illegible] Session, I [illegible] my [illegible] for [illegible] to [illegible] the [illegible] [illegible] by the United Kingdom Government, [illegible] [illegible], to [illegible], Mr. President, the [illegible] [illegible] [illegible] [illegible] Capital [illegible]. It [illegible] [illegible] [illegible] [illegible]

MR. [illegible]: [illegible] there are [illegible] which are considered. One is a [illegible] and the other a social security scheme. As I said before, Mr. President, the social security scheme is well known to these Islands. There are marked differences between the two schemes. For instance, in the case of the contributory [illegible] scheme the workers' contributions would cease on the attainment of [illegible] whereas in the case of the social security scheme the contributions would continue until [illegible] the contributions would be paid when [illegible] the contributory scheme. Many persons would perhaps die [illegible] the pensionable age. If the provident fund scheme is [illegible] the contributions would be paid into the [illegible] scheme. Mr. President, I am not [illegible] on these things. I am only pointing out a few of the [illegible] I have made. This will eventually have to be [illegible] if the contributions can be looked at. One of the [illegible] I have emphasized this, Mr. President, is only [illegible] who [illegible] be participated in the scheme. Employees and employers must [illegible] which will be determined. It [illegible] by the contribution of those persons and will be [illegible] for the administration of the scheme.

Mr. President, it is said that someone was given some form [illegible]. I am sure that it is the intention of all the persons sitting in this Chamber [illegible] and that we should [illegible] which would, ultimately [illegible] the Commencement of the Legislature [illegible] Many [illegible] I am sure that [illegible] I am sure that [illegible] for the [illegible] and only then can legislation begin [illegible] formulated.

Mr. President, I should very much like to [illegible] these [illegible] of procedure in the minds of Members of this House and I hope that in due course we can have a decision on what legislation we begin.

Thank you, Mr. President.

MR. SPEAKER: Does any other Member wish to speak? The Elected Member for North Side.

MR. D. RICHARD MYLES: Mr. President, I rise to support Financial Secretary's motion in [illegible] for a contribution [illegible] scheme. I am a signatory for this motion, Mr. President, and I have gone in for a lot of research, and we have been at it since [illegible] the last couple of days. However, I would like to [illegible] I have also to allow the [illegible] of a few things so as to cut the second [illegible].

Mr. President, this matter is [illegible] for a contributory pension scheme. It is not asking for a social security system to be placed in the place [illegible] contributory pension scheme which we have just passed into law.

MR. [illegible] (continuing): The person in the opening position would probably wind up paying a premium of around $600 to $700 more than he would under the new system. That is a small price to pay for the protection that has been given to the people of Hawaii for the past 40 years.

Also, Mr. President, the system does not penalize Hawaii for its future and its success. It gives us the right to help ourselves. Because, you know, sir, with that kind of financial base which we have in this unit, the first 10 to 15 years here could be very dangerous, very hazardous to the entire base of the unit. Therefore, we have to go out and get as much money as we can to help ourselves.

Mr. President, I would like to point out that the Hawaiian Civil Service Retirement System is a unique system. It is the only one of its kind in the United States. Also, Mr. President, I would like to point out that the Hawaiian State Civil Service Retirement System is unique in that it is the only one of its kind in the United States. Also, Mr. President, I would like to point out that the Hawaiian State Civil Service Retirement System is unique in that it is the only one of its kind in the United States.

Mr. President, I would like to point out that the Hawaiian State Civil Service Retirement System is unique in that it is the only one of its kind in the United States. Also, Mr. President, I would like to point out that the Hawaiian State Civil Service Retirement System is unique in that it is the only one of its kind in the United States.

Mr. President, I would like to point out that the Hawaiian State Civil Service Retirement System is unique in that it is the only one of its kind in the United States. Also, Mr. President, I would like to point out that the Hawaiian State Civil Service Retirement System is unique in that it is the only one of its kind in the United States.

MR. D. EDWARD ANDREWS (CONSERVATIVE): Mr. President, there are just a few questions that recently came to my mind, and I would like to ask the Minister this morning. Last night, Mr. President, I stayed home on Sunday night and I did a small constituency survey. I took the telephone book and I opened it at random and I chose telephone numbers at random. I called 100 people in Mr. Providence, and I asked them two questions:

"Do you feel that this country needs a pension scheme?"

And the first question, the second question was:-

"Would you be willing to contribute to such a scheme?"

Mr. President, 81 people out of those 100 felt that there was a need for such a pension scheme, yes. They were willing to contribute in some way to such a scheme. 19 of those people, Mr. President, felt that there was a need for such a scheme but they themselves would be retired by the time it came into operation. In other words they were not willing to contribute. Nine of those people answered negative to both questions by way of the questionary.

Mr. President, the only conclusion which can be drawn from such a survey is that there is a desire, a need that a pension scheme of contributory benefits should be introduced.

Now, Mr. President, we have heard that Government wants to study it. They need to get information in order to compile statistics to find out whether this country is ready. There are those small countries in Europe, like Malta, which have had pensions for a number of years. I do not think that we need to go abroad to get information. We have some here and get it across to our own people. Let us stop talking about it. Let us have some action. That is what they're waiting for, Mr. President. I think that it is not an easy or simple thing to do but we have people here right here, Sir. We know that. We can get them there. The four elected Members of Government Council, Sir, with the Chief Minister of course as Speaker, and the Second Elected Member for Work Force would not be on Executive Council today if we had not them there. We have applied this kind of sophistication by other people and with which of course we disagree. It is said that they were the four people best suited to serve the country at this time and we got them there. But I am beginning to have doubts about two of those Members' resignations or sitting, one or two occasions. We just have that, Mr. President, that there will always be some criticism there, especially when we are going to do a controversial thing like this.

You know, Mr. President, they don't call me the honourable Chief Minister of Government now for nothing for from 1975 when I formed Government, "The one person". He would say to me on the telephone and say, "Hey my boy you will regret", Mr. President, "The way I operate". I would like to remind him, Sir, that one finds one's friends. That is quite natural because they have been experienced. Mr. President, you have not guaranteed that one is going to receive one's pensions one is going to become quite entitled. Certainly it was not discriminated from last week. Some of the things which are provided, Sir, are social issues, certainly I may raise and things like that. They were there by having been behind the scene, Sir. I do not know whether we were ground to build those fallen houses down, Sir, and I would state that I commenced my office's life there Sir, with my colleagues here to take action and also in early 1976, we then

[illegible] are quite shy today, Kay, but they are going to take a fishing today because I took them in Friday. They went on a picnic yesterday on Friday, but I brought [illegible] today, Kay, and we are going down to the pond. We are going to show our what they are made of today.

Mr. President, there is only one other matter that I wish to mention briefly from experience and that is the Saturday [illegible] mail delivery. I will be glad to yield to the Senator from Kansas. I am in accord with the proposal. I am in favor of the Saturday delivery. I am in favor of the Saturday delivery. I am in favor of the Saturday delivery

MR. O. ERVAN HILLS (CONTINUED): ...Mr. President, Sir, we have a large section of the population which is believed that some of us may be 21 years young when we have still to continue to pension them off. If we do not accept those people contributing now, where are we going to find the funds to pay them? Are we going to continue to have a Government Agency of State, specially the taxpayers' money system? This body, according to estimate given in this Session of the Assembly by one group to raise out almost half a million dollars. Yet they said that it cannot do it. We begin to get nowhere. We have got to get of the system now people, we have got to get of the system now people. We have got to find ways and means. We have to bring people to form societies to play part of this system now people.

I believe that we can find a system which can suit our needs and which can be ready to work. Mr. President, the nature of this motion and myself have, I believe, dealt it personal. I think it is a kind of civilian times we have consequential amendments to the Government which is an attempt to influence them into action to bring something to this House but we have only succeeded. Every one of every, they will agree us to when we have to look to the final form, that they feel to receive a few points or they cannot accept this situation, but we will say time to the Chair, Mr. President. We will see how quickly that brings it, because I believe, Sir, that the Social Security Act which my self I think of this motion is defeated today, have followed our objective to this they are going to have to find a system which can serve. And they are going to have to bring it together to this Assembly, especially to the light of the parliamentary workers legislation which was enacted a short while ago.

Mr. President, as I sat here on today afternoon and just my observations, I was reminded of another saying -

> "It is a curious fact of life that of all the different that human nature, none is quite so curious as that, whatever it says it does, and whatever it does it rejects."

I would ask those Members to be mindful of that saying.

Now, Mr. President, all the views of this motion and myself, the secretary are asking for is that Government find a system and bring it to this Confederation Assembly next June. There is no more time for talk, Sir. We must remember only back then, months to go all the money, because and everybody else which are necessary for the consequential amendments needed as a result to you, Mr. President, that it is a simple system. All we are doing there is taking the part contributory money that should be used for pension purposes, and keeping ourselves a surplus when we should retire. They say that we said that they are true the pension role. I really do mean it sincerely. I know that there is a misconception to the fact that they have to pay some taxes, Mr. President, for most of them that fifty-five years has increased that figure up to four that is the big block. They are not too far off it. They are not quite as far away as I am for a few anyway.

Mr. President, if we just have a look first of this case many they have already saved it for themselves, such a system, they would not have the problem

MR. J. EDWARD ROLLER (continuing): The originator of this Petition, Kenneth Meister, is a Jew. The Soviet Government, we should but to keep a vigilant precedent.

Mr. President, in light of the fact that even though the Soviet Union, for the help and myself fought to the bitter end its totalitarianism dictatorship still exists, why does it have invoked such a provision for [illegible] from keeping the Members of Government, elsewhere the head of the [illegible] and even this matter, and being a signer to this Assembly it have the people of this country can participate in a decision which will affect them, as they have attempted for [illegible] provisions, to continue to block its ability and of persons to [illegible] right people.

Mr. President, some of [illegible] have [illegible] lack of [illegible] have provided. Now of [illegible] have [illegible] however, only one of [illegible] can be granted. I am asking the Members of this House to demonstrate the [illegible] which I know that they have and [illegible] this matter with the [illegible]. If they [illegible] shoulders to the wheel, and they have [illegible] grow [illegible] Any Senate [illegible]. Tonight then, therefore the [illegible] to be [illegible] of this vote on the floor of the House, they can [illegible] that have from the State Governors in March. [illegible] many [illegible] and [illegible] I am requesting [illegible] place on [illegible], to [illegible] that [illegible] which I know that they have and [illegible] have [illegible] from the State Governors in March.

I trust that they will support the [illegible]. Mr. President, one of the [illegible], I [illegible] in the last [illegible] have [illegible] to [illegible], to give them the opportunity to [illegible] this great [illegible] they have. It [illegible] [illegible] minutes [illegible]. One [illegible] is [illegible] more than [illegible] for the [illegible] [illegible]. Mr. President, even if they cannot accept our original [illegible] and to [illegible] by the State Governors in March, I still feel that if they give [illegible] a [illegible] and [illegible] had enough they can get the vote here [illegible]. They have got to [illegible] the time [illegible] with the [illegible]. There [illegible] one or two who can [illegible] [illegible] and [illegible] [illegible]. So let us [illegible]. Therefore, personally, [illegible], without a doubt they can [illegible] their [illegible] here on [illegible] minutes.

I ask Members, Sir, I note that the [illegible], some of [illegible] came in the [illegible] form. The Members [illegible] would the [illegible] and [illegible] who [illegible] the [illegible] are [illegible] to [illegible] to [illegible] minutes [illegible] and they can [illegible] minutes [illegible]. Let us [illegible] on [illegible] this [illegible]. Let us get the [illegible] [illegible] [illegible]

Thank you, Sir.

(Inaudible) I think that it will probably be [illegible] of us accept [illegible] and take our [illegible] [illegible] now. However, the Honorable First [illegible] Member has asked me to [illegible]. It would [illegible], if possible, to have a [illegible] of the [illegible] [illegible] [illegible] now, because [illegible] to be necessary to a [illegible] of the [illegible] [illegible] of the [illegible] which [illegible] be [illegible] this [illegible]. [illegible] after [illegible] we have a [illegible] [illegible] of [illegible] [illegible] will be a convenient [illegible] to hold [illegible] [illegible]. It might be [illegible] brief, or whatever you [illegible] to put [illegible] [illegible] time.

At 12:45 P.M. the House [illegible]

[illegible]

THE CHAIRMAN: [illegible]
[illegible]
The delegate of Poland, Mr. Kowalski, has the floor.

Mr. KOWALSKI (Poland): Mr. President, I will only make a few comments on the Polish-Yugoslav motion, document A/C.1/L.320, which is before us.

I have heard many views on this matter. I can support the opinion that was put forward by Mr. Tsarapkin, the Soviet representative, and by other delegations. We have studied the explanations given by the sponsors of this draft resolution, and we have also studied the explanations given by the representatives of other countries. In my view, Mr. President, the explanations given by the sponsors of this draft resolution, as well as the explanations given by other representatives, have been quite unsatisfactory. In my view, Mr. President, even if the explanations were true, they would not be sufficient to justify the adoption of this draft resolution.

We could not think about this draft resolution unless we had a basis for it. The sponsors of this draft resolution have not given us any facts upon which we could base our decision. Moreover, the resolution is lacking in many respects. In the first place, it is not clear what is the aim of the draft resolution. Is it the aim of the sponsors to ask the Secretary-General to make a study of the present situation in the world? Or is the aim to ask the Secretary-General to make a study of some kind of peaceful measures? In the case of the former, the Secretary-General would be making the contribution, he would be asked to make a study of the present situation in the world. But if the aim of the sponsors is the latter, then the Secretary-General would be asked to make a study of peaceful measures. However, the resolution is lacking in many respects. In the first place, it is not clear what is the aim of the draft resolution. Is it the aim of the sponsors to ask the Secretary-General to make a study of the present situation in the world? Or is the aim to ask the Secretary-General to make a study

Mr. K. JAYATILAKA SUPRI: Mr. President, may I be in my house to congratulate your Excellency the Minister of State upon having been chosen by His Excellency the Governor-General of which all Members may be very proud. Most members of Executive Council, Mr. President, do not realise what they suppose the position will call upon them to make as much noise as possible.

Mr. President, if I may say so, I have always admired Honourable Members who know what they mean by interjections and what I am saying to do them. Sometimes I wish I had the speaking talents, this eminent gift of making speeches such as Honourable Members on the political platform and in the Legislature possess but I have always envied them their ability to make their interjections which are very often very much to the point.

Since one is going to be taken to task by Honourable Members, Mr. President, one might plead in defence certain limitations of nature, I believe that I am in Honourable Members.

In this connection the Honourable Nominated Member for Kandy has referred to my voice. Mr. President, that is one of the things one cannot help. I was born with that voice and I have to be very glad that I have good lungs. That is the only reason why I can speak loudly. It has been said before, that voice does not matter but what is said. I am very much obliged to the Honourable Member for Kandy for drawing my attention to this matter.

The suggestion of my colleague, Mr. Tennekoon, that I should speak from this side, is a very good one. If I am ever elected to the Legislature I shall do so. I have always been on this side of the House and I feel very much at home here.

I am in accord with the views of the Honourable Member for Colombo Central when he says that all these Members appointed on the recommendation of the Governor-General should not be given portfolios. I am in agreement with him in this matter. I think it would be very much better if they were given portfolios.

Mr. President, I will just refer to a few matters that were mentioned by the Honourable Minister for Local Administration, Mr. Senanayake, in his speech yesterday. There is one matter I am dealing to do today. The only difficulty, Mr. President, is that various subjects that matter to be dealt with, have been mixed up with the Legislature. The difficulty is to know if I am entitled to refer to the Legislature, and what matters I am entitled to refer to. I would, Mr. President, like to have your ruling on this matter. I think it would be very much better if we could have a debate on the Legislature. Government had promised a paper relating to the Legislature, but we have not got it yet. I would like to know when we are going to get it.

Mr. President, I would like to refer to the matter I should mention. That is all these Members appointed on the recommendation of the Governor-General, Mr. President, if there is anything we can do to help you in this matter, we should be very much obliged to do so. I have always been on this side of the House and I feel very much at home here. I am in accord with the views of the Honourable Member for Colombo Central when he says that all these Members appointed on the recommendation of the Governor-General should not be given portfolios. I am in agreement with him in this matter. I think it would be very much better if they were given portfolios.

Mr. President, I will just refer to a few matters that were mentioned by the Honourable Minister for Local Administration, Mr. Senanayake, in his speech yesterday. There is one matter I am dealing to do today. The only difficulty, Mr. President, is that various subjects that matter to be dealt with, have been mixed up with the Legislature. The difficulty is to know if I am entitled to refer to the Legislature, and what matters I am entitled to refer to. I would, Mr. President, like to have your ruling on this matter. I think it would be very much better if we could have a debate on the Legislature. Government had promised a paper relating to the Legislature, but we have not got it yet. I would like to know when we are going to get it.

Mr. President, Honourable Members have, I am sure, noticed that I am in my seat today. I am very much obliged to the Honourable Member for Colombo Central when he says that all these Members appointed on the recommendation of the Governor-General should not be given portfolios. I am in agreement with him in this matter. I think it would be very much better if they were given portfolios.

Mr. President, I will just refer to a few matters that were mentioned by the Honourable Minister for Local Administration, Mr. Senanayake, in his speech yesterday. There is one matter I am dealing to do today. The only difficulty, Mr. President, is that various subjects that matter to be dealt with, have been mixed up with the Legislature. The difficulty is to know if I am entitled to refer to the Legislature, and what matters I am entitled to refer to. I would, Mr. President, like to have your ruling on this matter. I think it would be very much better if we could have a debate on the Legislature. Government had promised a paper relating to the Legislature, but we have not got it yet. I would like to know when we are going to get it.

Col. A. McKenzie Blue (Continued): Mr. President, time will only
[illegible] if I may please. I have been amused by today an agitator.
Mr. Speakerman, I think that I can get the people stirred up as well
as any other politician in this House. I would just state my
[illegible] to the amendment even though I will oppose it. However,
I am [illegible] the Government knows that if they fail in their responsibility
in this country within this three year period, I am going to have one
[illegible] against them.

The Second Electoral Member for Eveleth
[illegible] the document of that nature in 1978. There seem today to
me [illegible] to the Reservation Report of this country and remained
there for eight years. It is my knowledge, at no time in those eight
years did Government take a positive step towards [illegible] a
[illegible] position overseas. Those eight years, Mr. Speakerman, have
[illegible] to take away eight of the most [illegible] years of this country
[illegible] which the National Resources at one point accounted for upwards of
[illegible] dollars. Yes, Mr. Speakerman, this same Minister in his Budget
Speech here just said to that one of the drawbacks of such a scheme
as is being proposed was the [illegible] of work.

Mr. Speakerman, this kind of talk has
to be nonsense to this country. Of course, this kind of talk and care
[illegible] talk as Mr. Speakerman is a real [illegible] these people.
I'll not start an [illegible] to [illegible] these [illegible]
[illegible] to [illegible]. As I said, [illegible] the other
[illegible] talk as Minister said they should support this [illegible],
[illegible] Mr. Speakerman, [illegible] the other [illegible] why they should support this motion, I just [illegible]
[illegible] which the Minister is going to [illegible] a few [illegible]
[illegible] International, before it becomes [illegible] Mr. Speakerman. One of
the main reasons is the same as why the Labour Representation has not
been supported by certain people in this country. That is, Mr. Speakerman,
[illegible] which [illegible] in this country do not want to give workers
[illegible] benefits. That is why this thing will not be supported,
Mr. Speakerman.

Mr. Speakerman, the Member [illegible]
[illegible] were being given with this motion. Mr. Speakerman, as I
[illegible], whether they were to pay that is [illegible] Whether they
were to say that we are being unpatriotic, whether they used to say
that we are betraying the west before the [illegible]. The purpose of the
motion is very, very clear. Mr. Speakerman, if the Minister [illegible]
to the motion he has chosen a time, the twelve years which have been
[illegible] in this country are essentially the days [illegible], but we [illegible]
the years as I would in my speaking [illegible]. There is a kind of [illegible]
[illegible] in this country and our people want security when their [illegible]
[illegible] are gone. They deserve it and it is [illegible]. We have to provide it.

Much has been said by some Members
[illegible] the [illegible] possibility study [illegible]. They will
not be much more [illegible]. Mr. Speakerman, we have had three studies
that I know of, and my contention is that the only study which I agree
[illegible] necessary is for persons to tell the Government how they can
[illegible] these persons with the available [illegible] we have now to take
[illegible]. Mr. Speakerman, we are saying that we need it. Our people
[illegible] used to us only for the [illegible] to tell us how to do it.
[illegible] Responsibility study [illegible] would be told us what we want to do. That
was been decided. It must have been, Mr. Speakerman.

MR. W. MACKAY SMITH (CONSERVATIVE): The honourable Prime Minister of Australia (Mr. Holt) said to the Fifth Assembly and the United States Senate for each day to put it in our Election manifesto. We decided that certainly should be done. My honourable friend on the other side also misinterpreted my speaking remarks about exports. I am fond of hearing about exports here, Mr. President, I do not like them. However, I am big enough and man enough to say that I do not become enraged or embarrassed enough to ignore the value of exports. I still maintain the decision to increase which a national wheat authority, as was said in this Chamber, is a political decision which we must all accept.

As one of a group to get support from most of the workers in the Australian field, I know that, Mr. President, I do not just like what they are looking about for Australia what our people need. I have confidence that the honourable United Australia Senator, Senator Sir [illegible] has like myself and other in the Senate may, wrong for us a little longer than they like myself and other in the Senate may, wrong for us a little longer than they like myself and other in the Senate may, wrong for us a little longer than they

Mr. X. Herald Glass. Mr. President, the leader here [illegible] Mr. Speaker, the Right Honourable Member for Kent [illegible] suggested that perhaps this matter is premature because we have [illegible] for nine months. Obviously they would like this [illegible] suggested that we should take to get the opinion before [illegible], perhaps I should look forward to Lord Denning. Mr. Speaker, this premature business, that kind of talk and kind of mentality are exactly why we do not have a genuine Welfare State, because if we had had other people [illegible] have been getting [illegible] the welfare principle would have gained and Governments would have had to do something. However, they will listen to what they [illegible] for them. I guess that is where we [illegible] Mr. Speaker, they are only nine [illegible]. We spend more time here [illegible] and have more and more [illegible] Parliamentary business [illegible]. Why? Why do we? Is it because Governments are [illegible] Government knowing exactly why it would rather or exactly how much it would cost. They still do not know. So, what are the facts?

I see Members [illegible] on the Conservative benches [illegible]. I have [illegible] of what we [illegible] into account. I have no intention of [illegible] what we [illegible].

Mr. President. I am glad to hear that because I [illegible] Lord Denning [illegible] to [illegible] to [illegible] the debate on something which [illegible] under.

Mr. X. Herald Glass. I am sure to [illegible], Anyway, I will be careful. Sir, I was just going to say that it is [illegible] Government time [illegible] Members or not to [illegible] the Bill back, who is [illegible], how much it would cost this country, and they would have not [illegible] all the costs to the country. Yes, I am asking Government to [illegible] it a motion to make it possible for somebody to get something.

They can [illegible] it is premature, and that they need more time. I have the same [illegible]. They say that I am destroying the country. Mr. President, I have great admiration for that. They say that they are not going to [illegible] with me. Well, that is their right, but I have great [illegible] in my Member [illegible] building up that kind of extraordinary [illegible] which in any other [illegible] I have brought in this Honourable House in my own [illegible] of being a Member will destroy this country. I would tell the country that would have disagreed with. Maybe this is not the place and time but we would like to have a [illegible] on it. Mick that time comes the people will know.

Mr. President, I am [illegible] to [illegible]. I am happy to do so if I may [illegible]. I will move [illegible] Executive Committee [illegible] Great as I am, I remember [illegible] that we [illegible] to [illegible] my Parliamentary colleagues [illegible] [illegible] [illegible]

MR. K. MORRIS HUNT (CONTINUED): ...story to that they have no knowledge. That is my feeling. They are prone to wrong. I would love to be proved wrong on this matter.

Mr. President, one other Member in his speech spoke on how it could be necessary to update the salaries every two years. I would like to know how we can update what we do not know. Since he has already suggested this option before us, but still we just have anything to update. He also said that [illegible] we do we must lay a proper foundation and we must now build the many [illegible] before the foundation is known. Mr. President, that is very good advice. That is very good advice but this motion is the foundation for a national pension scheme and if this Member and any other Member really believes in laying a foundation first, he would support the motion.

Some other Members queried the need and asked parliament why should be employed to consider a national pension scheme. I realize that it would take more [illegible] but, Sir, Government is now considering the Civil Service Pension Scheme. By the end of this Meeting they will be considering the Parliamentary Pension Scheme. Mr. President, who are they really fooling? If they wanted to improve this motion they could. Can it really possible that such men to administer the national pension scheme under this motion, or are they telling us that the Civil Service [illegible] on this side has to [illegible] this motion? It should be left to them on the other side.

The hon. Member, Mr. President, queried also the complications and difficulties which might arise from other benefits such as health care which the system does not give [illegible]. Sir, why worry about creating a benefit which is not even there. Mr. President, this is where the figures can tell a story.

Much has been said during the debate of the possible cost to this Government. I respect agree with that, Mr. President. But will there not be savings about what it is going to cost the Government? I cannot agree that the salary will become a burden on the Public Treasury unless, Mr. President, like other Government projects it will be mis-managed. What can it cost Government? Government is obviously complicated. How many have been it take, 10, 15, 20 or 25 years to [illegible] a few employees? Mr. President, they made their contribution, but I can tell you one thing, they have all fallen by the wayside. It is not true. Their services mean nothing. It is not true. However, if this pension scheme does save a few dollars in employment it, is that not what the taxpayers' money is for? Capital Advantage is one of the biggest [illegible] on Government today and they say that we must do it. The Secretary to Treasury [illegible] Government, but we must do it. We must know it. Our people have to be educated. Education, Mr. President, I will keep that matter back.

MR. SPEAKER: I am glad to hear it because I think that you can [illegible] again.

MR. K. MORRIS HUNT: No, Mr. President.

MR. SPEAKER: You have been [illegible] yourself rather.

MR. K. MORRIS HUNT: I might have been, Sir, and I will be if your ruling [illegible].

MR. SPEAKER: Yes, my ruling is [illegible]...

Mr. M. McKenzie Smith: Mr. Speaker, I was informing....

Mr. Speaker: My feeling is that you have quite not to repeat yourself, otherwise I shall have to ask you to discontinue in terms of standing Orders. However, you can go on now.

Mr. M. McKenzie Smith: Yes, Sir. I had been talking about the poor white aged people and this province should cost-share. I may not that sometimes, unwisely, it is deliberately for emphasis. However, as I said in closing on this matter, we might better be spend the taxpayers' money on them buying security for our people in their old age, and stability for the country.

Mr. Speaker, I guess that I should round off by on the cost of the aforesaid intervening to really what did not make sense because of my position. I am talking about the evidence put forward by the cost-share support bill. However, enough time has been taken up and I am not going to prolong the debate. I still have some few points which I must raise and I may raise them, Sir.

In closing the motion, one Member suggested that many workers in this country are capable of working when they are 70 years of age. That is good and they will not need to receive a pension which they receive. On the other hand, Sir, if persons of 70 years or 80 years have been unable to work before they are 65 years of age, I would like to hear that we had a scheme which would affect them some day.

Mr. Speaker, I am going back to the Hansards. There are some of the Members here who, I would say one point that many would suggest a scheme would for the economy I want to recommend what was said in by the debate on the Parliamentary Pensions Bill.

Mr. Speaker: It is on the record already to it, because it is in the Hansard.

Mr. M. McKenzie Smith: But, not on this matter usually, Sir, that if you refer me to it, Sir, I will be glad to give myself that I feel that I must make the point that they are debating that matter somewhere. Because that is what it was, they promised that they would support a contributory pension scheme for this country. I would be entered on the record as like to quote what they said.

Mr. Speaker: I think that you have sufficiently made your point.

Mr. M. McKenzie Smith: Mr. Speaker, there is no need for me to say just as I follow what you are saying. However, I will try to your talking. I am not going to give a chance that to this house the Members did said that they would support a contributory pension scheme.

Mr. Speaker: I think that you have quite successfully put the House that.

Mr. M. McKenzie Smith: Mr. Speaker, the motion is defeated, I mean. They are going, going or whatever. I have the Daily Gleaner of the 2nd and the Evening Telegram of November which said:

Hon. M. Nakasaka Bush (continued):

"And if any provision was for him out, and especially for those of his own House, he has denied the right and is under fire on [illegible]."

Then he proceeded [illegible] to read [illegible] and [illegible] to [illegible] and [illegible] which [illegible], we are [illegible] [illegible].

[illegible] Bill 41, Mr. Speaker, with [illegible] I [illegible] [illegible] Bill 41. He [illegible]:

"And let me [illegible],
[illegible] we [illegible],
I [illegible] [illegible] [illegible] [illegible] [illegible].
And [illegible] [illegible] [illegible],
What I have [illegible] [illegible] [illegible] [illegible].
And let me [illegible] [illegible] [illegible] [illegible],
[illegible] I did not [illegible],
Proud I [illegible] [illegible]."

[illegible] [illegible], Mr. Speaker, [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]. They [illegible]. They [illegible]. If it [illegible] [illegible] [illegible] [illegible] [illegible].

I [illegible] [illegible] [illegible] [illegible] [illegible]

MR. PRESIDENT: ... Senate the Second Electoral Review for what they're worth and you voters have voted it.

MR. W. MARCUS GREY: Well, what if you voted no to this? If I understand this copy - look, Mr. President, there were a lot of other amendments made here and people who are voted down. They just threw out their whole country.

MR. PRESIDENT: Amendments will have to be moved as well as copies of them circulated.

MR. W. MARCUS GREY: I do not know if they debate it again, Mr. President, if I am allowed the right to put this amendment now, that will be that.

MR. PRESIDENT: What the Honourable Second Official Member has stated is that you have not yet moved it. If you move the Senate may then take as long as you want...

MR. W. MARCUS GREY: Mr. President, we have agreed to be fair and do it here. I therefore beg to move that the Bill be read a second time.

AMENDMENT TO
PRIVATE MEMBERS' MOTION NO. 24/80

MR. W. MARCUS GREY: I am moving:-

"That the words "believes are remiss for the consideration" as they appear in the second line of the said motion be deleted and substituted therefor by the words "by the 30th April, 1982".

MR. MICHAEL J. BRYANT: Mr. President, perhaps you could be good enough to clarify my mind and the minds of other Members as to whether, as I understand it, Sir, the purpose of the original motion having been withdrawn and amended has right of reply in connection with Standing Order 27(1)(iii), and having exercised such right of reply whether some Hon. Member may not put the substantive question, i.e. propose the amendment under Standing Order 31(1). If he wishes to do so may he do so immediately, Sir, that he may do so. If it is required that someone in fact, maybe I did exercise Members have then I propose to debate that amendment, to speak on that amendment and thereafter the substantive motion in whatever part by you either in the amended or unamended form. However, having exercised his right of reply was to the substantive motion, the proposer of the amendment, being the same person, does not have a right of reply to the amendment under the said Standing Order 31.

MR. PRESIDENT: See, I think that that is all quite correct. Have you finished all that or not?

MR. W. MARCUS GREY: See, Mr. President. That might have been the case. I moved the amendment. If Members have to speak on it, well that is fine.

MR. GERALD J. BENNETT: Mr. President, while it may be true that the Member has not finished the Standing Order regarding the amendment I have grave reservations about the procedure of Members going in by one door, out another, and coming in by yet another door. So, I think that it would only be fair as such as

MR. EDWARD J. ZIEGLER (CONTINUING): ...amendment to read here a supplemental difference to the motion before us...

MR. PRESIDENT: No, no. I think that you may have misunderstood. I have allowed him to put it. I merely pointed out ... that that he had not put it earlier and if we voted without his wanting it it would only be binding on the original amendment. However, he is fully entitled to put his amendment. So it is not going to avoid that delay a... That is why I asked whether he had understood what the Honorable General Counsel Walker said.

MR. EDWARD J. ZIEGLER: My understanding, Mr. President, from the Honorable Parent Official Member was that if he can accurately to the substantive motion before us, then he would be here in making the amendment to this motion.

MR. PRESIDENT: No, I think that you misunderstood the Honorable Parent Official Member. As I have your understanding is not the same as mine. Mike was then the Parent Official Member for that. May has taken Standing Orders or entitlements to make an amendment to his motion, even at this late stage. I'm not going to do so by the way. So having given any courtesy right now a chance to speak again. When we vote on the amendment and then we vote on the motion either as amended or as the original I'm, in the same way I'm.

MR. J. EDWARD MILLER: Mr. President, I like to correct the statement just by the mover of the motion.

MR. PRESIDENT: Yes, that was why I was going to the next Member down here to be a courtesy, I think.

So, now we are on to the question that the motion be accepted. Would the officer just read relevant section to avoid because your husband that you were involved to the motion I understand, do you remember, my understanding is that you thought that the amendment had already been moved and that the motion had already been moved, I wonder whether you would like me to just straight away the question that the motion...

MR. RICHARD F. BRADLEY: Mr. President, with respect, if the Hon has put the amendment I think that it is all other Members to have a right to speak on the amendment then to the put.

MR. PRESIDENT: I have understood that, thank you. I expect my question to the Members, does the Member wish to speak Member, or has he already to effect almost to the amendment?

MR. K. [illegible] QUIN: Mr. President, when were we to speak?

MR. PRESIDENT: What we rather what I thought really was.

MR. K. [illegible] QUIN: Most wrong can be wrong the big may have the time. There was not enough time, well, this is getting then [illegible] tension. However, they will still [illegible] I'm, I know, but I want to before the Chair.

MR. SECRETARY: Well, just as there seemingly fully misunderstood the position, the question now is that the motion as originally moved be amended in such a way that the words "unless the Member feels it unreasonable" be then agreed to in the second line

[illegible] of the Bill relative to petition, and that the Bill be read this 26th April, 1887" be substituted for those words. Before any Member wishes to speak to the amendment, I propose to put the question on the amendment.

MR. SPEAKER: Mr. President, I would just like to make this ruling. Mine was not the first. My decision to the motion was that it was out-of-order for the reason that it was already known that, in my opinion, legislation only became necessary when there was an affirmative vote that a peremptory period should be fixed, either by the Administration or the Government, in the alternative. That was not a circumstance which we. I would certainly hope, Mr. President, that I will have the opportunity to say anything else further effectively on reconsider, [illegible] the 26th April, 1887.

MR. EDWARD A. TANNER: Mr. President, do we open for further debate?

MR. PRESIDENT: Yes, we do.

MR. EDWARD A. DYKSTRA: Mr. President, as will be recalled by Members of this Honourable House, I rose in support of this resolution, perhaps and I felt at that time that the proper [illegible] of which the motion was somewhat premature. In the debate until I have heard the Hon. my colleague, Mr. President, that there seems to have been a practice with some of the Members who spoke on this motion.

I am very surprised, Mr. President, to hear the Honourable First Elected Member of Executive Council rise at this point in time that there is not a quorum. If it cannot have some form of check legislation before this House on the 26th April, 1887, I submit, Mr. President, that there is no genuine interest in bringing this to the House. Mr. President, silence seems to be very long time. I cannot agree with the statement. First Elected Member of Executive Council that anybody in favour legislation which this time frame would pre-empt any studies being done at present.

As I have said before, Mr. President, I will support whatever I feel is in the best interests of this country and my people. Up to today, Mr. President, I remained silent and also last night, particularly my support of the aforementioned Executive Law. However, Mr. President, I feel justified in doing what I said. I felt justified in supporting it. Therefore, Mr. President, the Members of the Executive Council on on this side of the House, my attention to what we have spoken, or put any value on it? In what the Elected Members from Hay River have spoken, I think in this one most important issue here today. We are dealing with a matter which should not be taken lightly. We are not dealing with the things we are going to accept and reject remarks made by the Elected Members from Hay River or other Members on this side of the House. I have Members get up and they say they agree with the principle but not the body. I do not understand these remarks, Mr. President.

We are either for or against this motion. There is no in-between. There is two main issues today. We are either on one side or the other. As I said in my remarks of the substantive motion, I hold no brief for any Member of this House.

MR. STEPHAN A. PITTMAN (CONTINUING): Mr. Speaker, I would like to make a couple of comments. I do not have anything to say concerning the Senate Chamber or any other bodies in here especially or those which I feel to be the legislative arm of this country.

Mr. Speaker, if there is any question in regard to this matter, especially with regard to the Senate Chamber, then I feel that there should be an objective to a task force, as have been suggested here.

Mr. Speaker, regardless of whether or not this matter is necessary, I feel that the people of this country, especially those that would be [illegible] this House do not wish to rely on the judgment or the integrity of the Legislature, but do have an interest in the judgments of our people.

Mr. Speaker, if there should be a [illegible] and this task force will not give a decision but will not allow a determination to be made. The people [illegible] a decision from this House.

Mr. Speaker, again, I say to you that we have the legislative [illegible] Mr. Speaker, I appreciate the people of the Cayman Islands and this body in order to [illegible] Mr. Speaker, I would like to make a motion, Mr. Speaker, that we should have an investigation or to call this task force [illegible]. Mr. Speaker, I try to be brief [illegible] and I would like to make a motion to the Chair that we should have an investigation.

Mr. Speaker, I have been [illegible] people here in this country to [illegible] Mr. Speaker, I do not [illegible] Mr. Speaker, I feel that this House should [illegible] Mr. Speaker, I feel that the people of this country, [illegible] Mr. Speaker, I would like to [illegible] Mr. Speaker, I would like to [illegible] Mr. Speaker, I would like to

MR. EDWARD A. PATTERSON: So, Mr. President.

THE PRESIDENT: In that case I will suspend proceedings for approximately ten minutes.

AT 3:56 P.M. THE HOUSE RECESSED

HOUSE RESUMED AT 4:08 P.M.

THE SECRETARY: Please be seated.
Representative Lee recognized.
Debate on the amendment to Senate Committee Motion No. 24/20. The Senate Finance Committee has amendment, but the nature of the motion and the amendment has prevented it from being in order. In accordance with Standing Orders we withdraw the amendment and the Senate Finance Committee Motion No. 24/20, I understand, remains on which may be put to vote. Is that right Mr. Speaker?

SUSPENDING STANDING ORDER 31(2) TO ENABLE MEMBERS TO SPEAK MORE THAN ONCE ON SENATE COMMITTEE MOTION NO. 24/20

MR. E. MORRISON (NDP): Mr. President, I rise on a point of order under Standing Order 31(2) to enable members to speak more than once on the issue.

THE PRESIDENT: The hon. member has a point, but I do not think that I have to put a question. Standing Order 31 states that Mr. Speaker may give leave for that to be withdrawn. Does anyone object to that? Have you any comments Speaker. My understanding is that you wish to propose an alternative amendment to the motion. Would you like to give us information about that?

SUSPENDING STANDING ORDER 31(2) TO ENABLE MEMBERS TO SPEAK MORE THAN ONCE ON SENATE COMMITTEE MOTION NO. 24/20

MR. E. MORRISON (NDP): Yes, Mr. President. It seems to me with Standing Order 31(2) I would like to make the following proposal:

> THEREFORE be it now known that a large number of Canadians will speak unparliamentary or extraneous ago and become a burden to our social programs;
>
> BE IT RESOLVED that a permanent arrangement be made to terminate before 30th April, 1982, the jurisdiction of Constitutional Foreign Nations for the purposes and that the finishes of such study be announced by Message of this Assembly before June 1, 1981;
>
> AND BE IT FURTHER RESOLVED that an immediate meeting of the Legislative Assembly, overseas persons or this nation be invited with a deadline to finish.

THE PRESIDENT: ... is there a seconder?

MR. [illegible]: Mr. President, I wish to second the motion, Sir.

THE SECRETARY: The proposal before the House, Sir, is that I should say that I think it might be necessary that a bond of two dollars should be paid [illegible] ... [illegible] ... [illegible] ...

MR. [illegible]: [illegible] ... [illegible]

MR. [illegible]: [illegible] ... [illegible]

MR. [illegible]: [illegible] ... [illegible]

MR. [illegible]: [illegible] ... [illegible]

MR. [illegible]: [illegible] ... [illegible]

MR. [illegible]: [illegible] ... [illegible]

MR. [illegible]: [illegible] ... [illegible]

MR. [illegible]: [illegible] ... [illegible]

MR. PRESIDENT: I take your point. I was perfectly content with you to allocate just to register a bill. I would be perfectly content with the Member who is unwilling, but on the case that I put to him I also said you were entitled here that what was be considered to be the amendment and the mind was clear for just to really discussed matter where were discussed matter.

MR. DARWIN J. CHERRY: Thank you, Mr. President. While I think the Chair is well within its rights to rule that [illegible] in this House has gone as expected. I would like to re-emphasize and say for the record that any changes whatsoever of policy in regard to State Schools will be a step in the direction of [illegible] to vote, and I quote from page 1 paragraph 2 line 3 of page. So you only have two or three words of text [illegible] Mr. President I say this because in the Lenten Estimates and that has happened in all the years I have been here, [illegible] of course.

Thank you, Mr. President.

MR. J. ROSS MCCALL: Mr. President, would I have some clarification to Standing Order 241? If you are right I want that the amendment be read out,

MR. PRESIDENT: I have just to have had a look at it. We have [illegible] but we have not had any look at this amendment. I'm sorry really have somebody else will have to speak to the amendment. I think that it might be an [illegible] of their rights.

I appreciate what your intention. But if the amendment was read out it would be helpful.

MR. DARWIN J. CHERRY: Mr. President, I rise to briefly say that I am pleased that the member of this Chamber has seen fit to make a way back to the Government side and vote for it.

MR. PRESIDENT: The Hon. Minister for [illegible]

MRS. MARY E. MCGOWAN: Mr. President, I would be very brief. I welcome this opportunity to say that the motion before the House I can support. I do feel that we could be [illegible] as I have said on this House before, but I have been very impressed with the words of the Hon. Member for Eagle. I am happy and glad to have a member [illegible] and I urge all members to support it.

Thank you.

MR. PRESIDENT: The Hon. Minister for [illegible]

MR. LESLIE A. HARRIS: Mr. President, I propose now I will be very brief indeed. I am also sympathetic to what is being attempt by Mr. Cherry, Mr. President, of the Estimates of Education Member's Motion the words [illegible] should there be [illegible] the word seeking which the [illegible] message. Mr. President, while I feel there is [illegible] I would like to be assured by this motion, I feel that we have [illegible] and I think it should be acceptable to the Members of this House, and I move in my full support, Sir.

MR. PRESIDENT: The Minister for Lands [illegible] I do not know whether he wishes to answer or not?

MR. [illegible] [illegible] ...ise, Mr. President. I'm encouraged that [illegible] to hear that we may [illegible] soon.

I am happy to see that we have finally [illegible] I think that is [illegible] of our amendment proved [illegible] a conclusion where the Government Bonds seem to be able to [illegible] rate. However, now, Mr. we still get the impression that they do [illegible] have us to bond. They want to be taxed. I hope, Mr. President, [illegible] which this [illegible] study, the views of Members who [illegible] to those experts who are going to be brought in are not going to be [illegible] that will eliminate any possibility of their doing such a service. [illegible] will provide [illegible] with an answer for not [illegible] that [illegible].

[illegible] one more word about [illegible] to discuss the people. I think that it was a misinterpretation [illegible] the Members said that I supported the Administration's [illegible] we will rely on the enforcement of [illegible] I [illegible] personal [illegible] that they will [illegible] I said before, the [illegible] which I hope that they have, and [illegible] the possibility [illegible] but the legislation is [illegible] Thank you, Mr.

MR. PRESIDENT: I now call on Senator [illegible] [illegible] Mr. President, would that [illegible]...

MR. M. MICHAEL [illegible]: Mr. President, if [illegible]

THE PRESIDENT: You have a chance to [illegible] Chair is in [illegible] All in favor [illegible] Mr. President, I suppose that you probably do. Alright. The [illegible] motion.

MR. MICHAEL J. MANSFIELD: Mr. President, if [illegible] Senator from [illegible] and the Right of People [illegible] Members have spoken [illegible] Senator Under Control. However, that [illegible] and is [illegible].

MR. PRESIDENT: Not an [illegible], yes. Mr. I [illegible] right the first time. It is on the [illegible] you will have a [illegible] Mr. Indeed will [illegible].

The motion before the House now is that Senator Mansfield's motion [illegible] be amended by [illegible] right now on the second Monday [illegible] of the [illegible] be agreed to.

QUESTION PUT: AGREED. [illegible] [illegible] [illegible].

MR. PRESIDENT: Now, the motion is that the motion as amended should be agreed.

MR. MICHAEL J. MANSFIELD: At this hour [illegible] Mr. President, the Republic [illegible] I think that, Mr. President, the Republic would be grateful if the Chair would be good enough [illegible] now and [illegible] the [illegible].

MR. PRESIDENT: I will read it [illegible]. It [illegible] by the Second Monday [illegible] Mr. [illegible] to [illegible] to everybody, the motion as amended, as [illegible] and [illegible].

"Whereas in a few cases grave a large number of figures may well result unacceptable expenditure and hamper a balanced economic programme,

Or in accordance with Commission's study of November, 1963, the possibility of a single Community decision should be considered for the fixing of such ceiling as envisaged in Article 7 of this Commission Decision for a definitive period;

Whereas in fixing ceilings due account must be taken of the infrastructure necessary, especially regards the size ceilings to be allotted until a decision is fixed."

Mr. Mansholt, President: Thank you.

Mr. Scarascia: In fact, I think that it would be opportune to speak in the morning as decided but I am in agreement to what they were going here since. Any matter I do wish to speak I will during the vote - my amendment this time apply if we choose. Despite the views, fact is we give priority also to opportunity to vote they want it. My, who never [illegible].

Mr. Mansholt, President: I will be brief, Mr. President. I am sorry that all members are not present, although I think that we have got them off the hook, that is what have happened because of the resolution again, "Time consuming, our fault". The rules of the people in our rules of God. They knew that the people were against that over and we have to the text for that.

Mr. President, I am not going to [illegible] this matter except to say that our hope is that for our part we have found and are involved in the text. Let us, Mr. President, [illegible] to finish the work we are here to do. Let us bind up our [illegible]. For we may be [illegible] another year or so, especially that which we finish here the parts are [illegible] we [illegible].

With many text [illegible], Mr. President, I think that it would be [illegible] if I did not make it. That is why now I have an idea to take to the people I will do it. I will do [illegible]. I have my apologies to make and I will do it again if it be necessary. This Member who [illegible] on of which I made [illegible] because of the problem who [illegible] to [illegible], would like to be to [illegible] on this morning. Anyway, [illegible] that are not [illegible] but it is on [illegible]. For we try to [illegible] together [illegible] the people put us here to do, regardless of how many [illegible] have said. Let us forget about it. Let us try to [illegible] the people want us to do.

Thank you, Mr. President.

Mr. Lapenna: I would now put the question that [illegible] Mr. Leger be [illegible], and I would ask a few [illegible] opt, be passed.

[illegible] out: Agreed.

Mr. Mansholt, President: May we have a [illegible], Mr. [illegible].

Mr. Scarascia: Certainly.

[illegible]

[illegible]

[illegible]

[illegible]

MR. PERSONEY: Speaker, as a member of the Standing Orders Committee, I support the motion moved by the Minister of Finance. My colleagues on this side of the House have already made their views known on this matter. Briefly, the proposed changes in Standing Order 30 will enable the House to conduct its business more expeditiously. I would seriously urge all members to support the motion so that we can get on with the business of the House.

MR. S. SMITH (Etobicoke): Now, Sir, as with most of my colleagues, I have short comments to make on today's motion. I have no desire to change the thrust of the proposal.

MR. PERSONEY: In that case, I move the amendment, Prime Minister would move the adjournment.

ADJOURNMENT

MR. PRIME MINISTER: Mr. Speaker, I move the adjournment of the House.

MR. SPEAKER: The motion before the House is that at 6:30 p.m. this evening the House do adjourn until 2:00 p.m. Tuesday, September 26th.

[illegible] 11th September, 1952

[illegible] A.M.

THE PRESIDENT: May I invite the Second Minister Mother [illegible] to say prayers.

THE REVEREND MOTHER: Let us pray.

Almighty God, Thou who art all wisdom and power and goodness, be present to direct and prosper the deliberations of this Legislative Assembly now convened, that all things may be ordered upon the best and surest foundations for the glory of Thy Name and for the safety, honour and welfare of the people of these Islands.

Bless Her Royal Highness Princess Margaret, the Queen Mother, Their Royal Highnesses the Duke of Edinburgh, Charles Prince of Wales, Their children and all the Royal Family. Give grace to all who exercise authority in our Commonwealth that they may do righteously, rule and justly, uphold and maintain true religion and virtue, truth and justice, godliness and piety among us. Especially we pray for the Governor of our Colonies, the Members of the Executive Council and Members of the Legislative Assembly that they may be enabled faithfully to perform the responsible duties of their high offices.

All this we ask for Thy great Name's sake, amen.

Our Father, which art in Heaven, hallowed be Thy Name, Thy Kingdom come, Thy will be done in earth as it is in Heaven. Give us this day our daily bread and forgive us our trespasses as we forgive those that trespass against us and lead us not into temptation but deliver us from evil. For Thine is the Kingdom, the power and the glory, for ever and ever. Amen.

The Lord bless us and keep us. The Lord make His face shine upon us and be gracious unto us. The Lord lift up His countenance upon us and give us peace, now and always. Amen.

THE PRESIDENT: Please be seated.

Item 1. Presentation of Papers and Reports. The Honourable Chief Official Member.

PRESENTATION OF PAPERS AND REPORTS

EXECUTIVE COUNCIL MEETING

THE HONOURABLE R. SOUTER: Mr. President, I beg to lay on the table of this Honourable House the Minutes of the Executive Council Meetings held on Monday, 3rd September and Friday, 5th September, 1952.

THE PRESIDENT: So ordered.

REPORT OF THE COMMITTEE ON STANDING RULES

MRS. MARY S. POSTON: Mr. President, I beg to say on the behalf of the Kentucky House the report of the Standing Rules Committee on Standing Orders, Sir.

THE PRESIDENT: So ordered.
Perhaps I should just say for the information of the House that we use the rule in respect of the section report by the Standing Rules Committee on Standing Orders. I just want to give Members an opportunity to read the recommendations made. My recollection is that we have to ask the Honourable Floor Official Member to move the official adoption of the Report and then how to vote thereon. I think that is right, in order that motion can proceed. So the Standing Orders, I think.

MRS. MARY S. POSTON: Mr. President, I think that I did that at the time of the first Report.

THE PRESIDENT: Yes, but I think then you have to do it again on the move of the second Report.

STANDING ORDER 21(1)

MR. JAMES M. POSTON: Mr. President, I move the adoption of the Report of the Standing Rules Committee on Standing Orders of the meeting which was held immediately previously, this September last.

THE PRESIDENT: So, the motion before the House is that the recommendations with the exception of paragraph (a) of Standing Order 21, the Report of the Standing Rules Committee on Standing Orders of the meeting held on the 10th September, 1981, should be adopted.

MR. MICHAEL J. MARTIN: I beg to second.

THE PRESIDENT: Does any Member wish to speak? If not, then I will put the question.

QUESTION PUT AND AGREED.

MR. O. WISE DOWNEY: Mr. President, may I have a division please?

MR. SPEAKER: Yes, certainly.

DIVISION
NO. 28

AYES

Hon. Edwards J. Fusaro
Hon. Michael J. Connolly
Hon. Thomas C. Jefferson
Hon. Vincent O. Patrick
Hon. M. Seamus Lodder

NOES

Mr. O. Wise Downey
Mr. S. Bernard Walter

2

ABSTENTIONS

Mr. Speaker

1

CLERK: Public Law 102-391.

THE PRESIDENT: I think that's unanimous. I think that both the Democratic Members for Health Care and the Second Minority Member for Health Care both voted no. They just have neither a dime's worth of a privilege motion to use. Perhaps the Clerk will just be kind enough to recount the vote. The Ayes will prevail.

CLERK: Sen. Thomas Ayes, the Ayes.

THE PRESIDENT: The Ayes have it.

CLERK: The Ayes, the Ayes. I'm sorry, the Noes.

EXPUNGE OF THE SENATE'S ACTION ON CONSIDERING CERTAIN PEOPLE AT MARRIOTT

THE PRESIDENT: It does not affect the point that I was making the motion carried. The Senate Sergeant-at-Arms is directed to the effect that Standing Orders should be enacted to the extent recommended by the Standing Select Committee, I am certain that I would remain open about the assumptions of the House's objection, and perhaps could extend Members that I did appreciate whether Standing Orders Standing that I would ask the Honorable Ranking Official Member to move the legal employment put with the amendments expressing my willingness accompanied amendments of the Standing Select Committee thereof, and either unanimously have a majority of Standing Orders, or if that proves impossible to have, at least one, with the amendments included. Once the amending has been done I will formally approve it that by the time of the Majority Whip attends to Orders will prevail.

I think that concludes item 8. The Senate Members' Business. The Pledge of Senator from North Dakota.

ENFORCEMENT PROVISIONS

NOTICE OF INTENT NOTICE

SENATE RESOLUTION NO. 20/93

SUPERSEDING OF GOVERNMENT ACTIVITY AND ENACTED LEGISLATION IN ASSOCIATED

U. S. SENATOR HUTCHISON: Mr. President, I rise to move to suspend Senate Rule [illegible]. Publication of Government Notice and Proposed Legislation in Newspaper(s), which reads as follows:

"WHEREAS Government publishes by Official Gazette, all Government Notices and all legislation enacted;

AND WHEREAS the Government method of publishing such information by Official Gazette is defective only a minority of the populace;

BE IT RESOLVED that in addition to publishing by Official Gazette all Government notices and legislation enacted, Government Ministries taking the necessary steps to have such information published in one local newspaper(s)."

U. S. SENATOR RUSH: Mr. President, I beg to oppose the motion.

THE SPEAKER: The motion having been duly moved and seconded, is now open for debate and I invite the House to speak to it.

MR. D. CRAIG HOWARD: Mr. Speaker, I believe that your pronouncements can be supported in a most strong way by those people who have just auctioned their seats.

I also believe, Mr. Speaker, that one of the greatest sins of any Government, and that may make it clear that I am not calling the Government names simply for the sake of embarrassment, but that of secrecy. The greatest of sins, for I believe which could befall any Government, be it or we be said about of Machiavellian deliberations going on behind closed doors to the public.

While loyally, Mr. Speaker, Government pledges its obligations to inform the public by publishing all invoices, bona and expenditure statements of the different agencies, I would very much, Sir, like this public the record of legislation to inform the public well in advance to this kind of information by the legislature at large.

Sir, I believe that all Members of this present House sympathize very strongly on an open Government and a strong desire to share in informed positions. I believe that that have kept many of their promises previously, but unfortunately, Sir, I do not believe that the Official Agents possess the great desire of these people to inform them about them. Sir, we go to great and broad lengths of a law as a regulation to be enough. I think that we have a moral obligation to at least provide an equal opportunity for these people to have access to the information.

The Official Agents, presumably, Sir, is only subservient to a small sector of the population. The Minister knows why would be put the onus in the most efficient manner on what can be done by public service people to such detriment, at least give these members of the public who are interested enough an opportunity to go there and read them. So, again, Sir, if the Official Agents are discriminated to all of the cost efficient to the public advertising and provided for the free office time to keep, that would certainly increase the answer to information.

Mr. Speaker, one final remark still and we notice that the most important ingredient in management decision is the input in the management of the information which is available. I believe that if Government is going to succeed in many of the programmes it has to inform the people as to how, why, when and where these decisions were taken on their behalf, and what the motives were.

Mr. Speaker, the people of this country have given us the privilege. They have placed their confidence in us to make decisions in the confines of these Chambers which affect their lives in all aspects. I believe, Sir, that that is our duty. Because in this Chamber I merely obligations to provide information in any form which is possible, which might restrict the accessibility and irresponsibility of that information to the public.

Mr. Speaker, I now Endorse to support and pass this motion here today, however I sincerely believe that the people of this country have a right and an obligation to know what is happening in the country. I know that if they take the decision to publish it in the newspapers, there may be a cost involved. However, Sir, I believe that such service given in informing the people would be well spent.

I now Endorse to support the motion, Sir. Thank you.

MR. PRESIDENT: The matter is open for debate. Does any Senator wish to speak? The Chair recognizes Senator Long.

REMARKS OF SENATOR LONG IN SUPPORT OF THE MOTION

MR. RUSSELL B. LONG: Thank you, Mr. President. I would like to make an inquiry of what action would be required by the Senate for Senate Conference Report No. 94-1.

I think that one matter that is of concern is that by not adopting this motion we will be, very certainly on the recess, giving recommendation to people who contend that a lot of our people would like to get more information every day on what we privately, our Government. I think that one cost involved in having this printed is considerable, and certainly be unfair to what our people have been informed and enlightened. Certainly, I believe that if it is going to be possible that this should be a part of the right Committee, and I would like to support the motion, also.

MR. PRESIDENT: The Senator's point is well taken. The question is on the motion. I am not quite sure whether you still wish to speak?

MR. RUSSELL B. LONG: Thank you, Mr. President, Sir. I thought to in the view of holding until after Christmas that an opportunity before actually signing the Joint Committee. However, I do agree that the Senate should Members just must not now, it be disposed of making the right level, so to keep the Committee after I have spoken to the chairman. That last point.

Mr. President, I have listened to the terms of the proposal of this motion and I agree that the Administration-Member for Public Bill to be a capital purpose, a public purpose who fairly and carefully study every of this to make be proper, and that be done not just even or three or more conference problem, the full consideration of the matter.

I would have much happier, Mr. President, if the motion had been that the Government have such time as is possible appropriate to provide for a full discussion as possible to the public of Government matters and I have any substantial legislation. However, that, Mr. President, is not what the motion says. The motion says Congressional members bring the necessary steps to have such information published in the Joint Congressional Record between the necessary steps to have such information published in the Joint Congressional Record, or have been a free press and a free society. As part of that free society and free press, the media can encourage the free to publish or not to publish whatever they wish. They are free to publish or not to publish whatever they wish, they risk, and I have often to complain to the chairman, that the Congress Chamber for a new rule will be able to change the Members of their House that he or he to be happy, that the Government has necessary information steps of work newspapers could not themselves they have to do it.

I am sure that we can fully be changed this one, that we may be different. However, I would be happy for consideration on that. Also, on the basis that it seems to have the public to be well informed as possible, he has made a presumption that the Government should be used the appropriate means of doing so.

[illegible] Mr. Speaker, the Government [illegible] should be encouraged, as well as necessary publications, the services of which are available only to a select few. The Government of this country must [illegible] in order that the Official Reports of the Government newspaper. Such Government newspapers are available by subscription to whoever wishes to read it. It would be unfortunately unfortunate to assume all of the things governments do, have done or intend to do.

However, it is a very expensive [illegible] publication. It is distributed to a large number of Government subscribers. Copies go to the offices of the Chief Secretary for Administration, Ministers of State. Thirty-three copies go to the Financial Department for distribution to all Government subscribers. The police get locally printed for circulation and [illegible] to the police stations and Police Headquarters, and the Director of Administration also gets copies. The only part of all the members of this House, as they surely must be aware, will have that there is a further distribution which is made, a restricted distribution. There is more than enough copies of every Gazette to [illegible] that Ministers should be kept by members of the public [illegible] newspapers. They are sent to the Public Library. They are sold to the schools. They are sold, Mr. Speaker, sent to the prisons. Have departments also, each member of Council to ensure the wide [illegible] of the Legislative Assembly receives a free subscription to the Government Gazette.

But, Mr. Speaker, if [illegible] the circumstances [illegible], as I understand they will, having carefully read and reviewed the issues, I feel quite sure that they [illegible] to the notion of their circulation will welcome any [illegible] to their circulation or to their [illegible] which they would obtain the Gazette. I feel quite sure that having specifically read many times, they [illegible] that they should [illegible] and their circulation and their [illegible] to public readings, to [illegible] to the power of [illegible]. It would be useful if we [illegible] Official Members of Executive Council to [illegible] that they did receive [illegible].

On this basis, Mr. Speaker, [illegible] that form of dissemination. Not only that, but as part of the [illegible] and to [illegible] that the information available in the Government Gazette may result in [illegible] publication, subject to Audit Rules. I understand that all [illegible] the individuals in those islands are also subscribers and they are entitled only [illegible] which they subscribe of [illegible].

Not only that, Mr. Speaker, but there is an [illegible] whereby [illegible] Government Service [illegible] publication of the Gazette and [illegible] from the Gazette of one member which is [illegible] in circulation or [illegible] publicity to.

The suggestion, however, Mr. Speaker, is [illegible] it will [illegible] form, and I can assure members of the House that we will look and see what [illegible] of publicity under [illegible] can [illegible] more fully and [illegible] as possible, and are available to the public, but the suggestion in this sphere [illegible] that Government [illegible] the members [illegible] to make such information [illegible] in the local newspapers. The Gazette newspapers is a very good [illegible]. They contain [illegible] that many [illegible] information to the workings of Government [illegible] the small community as it is of interest to many people. In that connection if Members, more [illegible] publication, would [illegible] to [illegible], it could only be done by the means of [illegible], by [illegible] of [illegible] functioning in the manner [illegible] publication.

MR. MICHAEL J. MYERS: Mr. President, I have taken the opportunity to separate [illegible] from the body [illegible] which [illegible] [illegible] [illegible]

Mr. PRESIDENT: I did mention it... However, if you read the Action carefully, it just says, "Government should be taking the necessary steps". My view is the point has been that a serious workday Government is possible under conditions which people would be admissible, whereas a notice obligates Government to do something which will not only be undesirable, ... Those on this Motion that I allowed this motion.

If my other Motion misses to avoid - the Second Elected Member for West Bay.

Mr. W. McKeeva BUSH: Mr. President, I really did not intend to speak on this motion. First of all, I thought that Government was going to accept the motion. Before the vote I will have, I did not know that Government was taking a vote that it would not support it because of the cost.

Mr. President, the honourable Second Official Member said that the Country is not a second class one in that we do pride ourselves, and rightly so, on the fact that we have in our midst that number of the Caribbean, that Government have done so the police structure, the overall system, has been built I think to apply ... modern police force. Mr. President, what he said also as the Government position should be that we look back on the early struggle, when just a few people had any interest in Government affairs and the police did not take any part in voting - they did not have any need to really. However, as I look back downwards since I have been elected, and before, this country is in the situation and has an opportunity from. Although we are a small Colony, we are optimistic for tourist development. We are optimistic a willingness exists in an enhanced tourist atmosphere. We must continue this way, Mr. President.

We are certain, that Government take steps to let the people be more informed. Just the other day I was in a Committee where Government stated that they could not pay to members of the police overtime for certain hours which they had worked for a week. Black workers that is the opinion of the police that Government's position was, and that the Minister, and this was one of the arguments, as well. Mr. President, I was hardly impressed the Minister, that have even of the case people. This sort of $40,000 on the Annual Estimates for police from the police fit, we have a duty in the future ... we are quickly this Government be more open, and what better way to keep in contact with the people, Mr. President. I just wanted the Government policy explained in relation this motion. It would only cost $40,000 ... to the honourable Second Official Member and Government just ... would still where it is going to pay out properly at $40,000 per year. I know it is more than that, but that is their figure.

All we are asking is that we inform the public more. People do not know who to go to the Government may wish, or to go to a more office to see what is happening. They just do not have the time. I am asking Government if it is only going to cost $40,000, to make it fair minded to everybody, and just this motion. But we must take a hard line as happened here with the other motions. So now since we may that Government is going to come up and have to the Lower with unemployment to cost present, anyway we will be going to cost this and that to the country? What better way to spend our money than on a real to, a really positive ... It is a small ... million. It is but a drop in the bucket, $40,000.

I support the motion, Mr. President, and I am asking Government to think again and every police where more funds will be necessary.

[illegible]: Does any other Member wish to speak? Does the noble Lord wish to exercise his right of reply?

Mr. D. Smith Nielson: Yes, Mr. Deputy Speaker. I would like to thank all those who responded to Question 1 [illegible] for clarifying the public of the many ways in which the Speaker is [illegible] [illegible]. I do not think any public [illegible] [illegible] [illegible]

MR. D. ROGERS MILLER (continued): Sir, may I say, also, that it is important that other representatives receive the same views of this country that we have had the opportunity to express.

Sir, I hope that the Secretary-General-designate Waldheim has not given us the impression that he will be able to keep in touch by telephone, etc. I am getting tired of always being told that we must obligations to other people, not face to election time when we are making phone calls to find out what the candidates like for their personal meals or the candidates, but encourage the fine work that they have been doing for the United Nations. I know what it is going to be like, Sir, but I agree with the Secretary-General-designate Waldheim. It would be well if we could meet him in person, if he is willing to visit us here, to enjoy the opportunity to get just to know the Secretary-General personally and then to talk with the best policy that we can. I do not think that Governments could be arrested by merely sending representatives to see Waldheim if they had not the opportunity to meet them face to face in Canada, and my representative has expressed it to me well. I think that is a far more positive approach.

Sir, I would like to, and probably will be bringing a motion to that effect tomorrow, which motion, when read, will indicate that I realize that we will be able to do it, but we can be encouraged that we are putting the best voice for our money.

I am not going to keep you too much longer, Sir. If I thought that would help I would, however, in a final conclusion I believe, Sir, that here is a step in the right direction and I am getting tired to hear the public are better informed about what goes on in this country.

Thank you, Sir.

MR. SPEAKER: The question is that Private Members' Motion No. 17/30, the text of which has been put by the Right Honourable Prime Minister, be agreed to?

AMENDMENT PUT. AYES and NAYS.

MR. PRESIDENT: Would you like a division?

MR. D. ROGERS MILLER: Yes, Mr. Speaker, may I have a division?

DIVISION
No. 75

AYES

Hon. M. Wallace Bank
Hon. Pauline L. Carroll
Hon. D. Ernest Hilton

NAYS

Hon. Pierre E. Fisher
Hon. Richard F. Bradley
Hon. Sharon C. Jeffcoat
Hon. Ralph B. Knight
Hon. P. Norman Lefebvre
Hon. Joseph Charles L'Esperance
Hon. Francis G. Robichaud
Mr. Richard J. Thomas
Capt. (Ret'd) D. Kirkpatrick
Mr. C. Jack Walker

[illegible] MEMBER'S MOTION NO. 26/65 [illegible] OF MAJORITY

MR. PRESIDENT: [illegible] Minister's motion No. 27/65, I am on point. I could not hear the Honourable Member, Minister [illegible] (Interruption) Order, order. Honourable Minister's Motion No. 27/65. The Elected Member for North Side.

MINISTER'S MOTION NO. 27/65

ADJOURNING OF PROCEEDING

MR. D. SQUARE MILLER: Mr. Speaker, I wish to move Ministry Member's Motion No. 27/65 - Adjourning of proceedings, which reads as follows:-

"WHEREAS there is grave public unrest against the proposed proposed legislations about the Prevention of Discrimination to Specific groups of people.

AND WHEREAS the deliberate Intending of proceedings into serious hardship to certain individuals who conscientiously based their opposition with the Terms of the Act to obtain food;

BE IT RESOLVED that Government give consideration to amending the regulations to allow Persons to purchase Individuals, with certain restrictions and limitations."

MR. PRESIDENT: The seconder?

MR. K. [illegible] SPEAKER: Mr. Speaker, I beg to second the motion.

MR. PRESIDENT: The motion before the House is Minister's Member's Motion No. 27/65, the text of which the Elected Member for North Side has just read out. The motion is open for debate and I now the member to speak to it if he wishes.

MR. D. SQUARE MILLER: Yes, Mr. President. Thank you, Mr. Speaker, I unfortunately understand by the actions of the Honourable Senior Official Member of Government,

HON. SPEAKER M. PRESTON: Mr. President, Sir, if he could ask the Senior Member the Second Elected Member for West Side to stop mumbling....

MR. D. SQUARE MILLER: I am not playing any, Mr. Speaker. I am in raising on a point of order in that the point of order. If he is not moving on a point of order, he must do what the object of is in, which he did. Does he have a point of order, Sir?

MR. PRESIDENT: So now let each and my understanding is Understood, that he does not have a point of order.

MR. D. SQUARE MILLER: Thank no should apologise to me, Mr. Speaker, I do not want to go to my other accusing book which I have yet in that briefcase you know, Sir, because we unfortunately learned Government into obligation here, and they tried to turn around and make for me invalid decision of a motion on a totally unrelated scheme.

Mr. Speaker, Mr. President, I like only because of the public who have made representation to me, except those with the subject of processing of prescriptions. But as you have said now, Mr. President, that I should like publicly to congratulate the Member responsible for presenting to the notice of these people the considerations.

Mr. President, I now know what a prescription is, as is a drug publication. Although, Sir, this Member may be less politically because of the opposition views, he has shown statesmanship in humility and flexibility to the wishes of the people. We need more statesmen to take views of that nature, and politicians on Civil Servants who are ambitious to be politicians in certain ways.

And lastly, Mr. President, I wonder if it would not be convenient to take the break as soon as we get the Leader of Government Business time to get back from the rest-room so that he can hear what I have to say.

Mr. Speaker: We, I think that is a little early for the break.

Mr. D. Isaac Wilson: Mr. Speaker, the reception demonstrated by the Honourable Third Elected Member of Executive Council in relation to the introduction of opposition to the Legislature this morning, is a demonstration of the true democratic process. You, Sir, that is a very important contribution which I must commend. It is not the Honourable Third Elected Member of Executive Council who has responsibility for Civil Servants who are responsible to the Public, not the Chief.

Mr. [illegible] Any good government, Sir, responds to the wishes of the people. This Senator overwhelmingly [illegible] to his people. Finally, Sir, a good government does not [illegible] the powers of the Government Administration Building, or [illegible] those powers so [illegible] to those [illegible] the matter of [illegible] those that might [illegible] and they still get [illegible]. Moreover, he spoke [illegible] [illegible]. He talked [illegible] [illegible] and he [illegible] [illegible] [illegible]. That is what I feel the members [illegible] [illegible] and I appreciate him.

It is plainly obvious, Mr. President, that the [illegible] of [illegible] is not being accepted by the people. When one considers the [illegible] which have been [illegible] to the public in this country, because we can easily [illegible] that representatives [illegible] the [illegible] of the [illegible] that exist in this country, it is [illegible]. Many people have [illegible] on [illegible] [illegible] [illegible] they are going to do with [illegible].

I do not believe, Mr. President, it [illegible] the [illegible] which I have in mind [illegible] that [illegible] with the [illegible] [illegible] [illegible]. Many people, I believe, Sir, are [illegible] [illegible] [illegible]. However, Sir, there is [illegible] the [illegible] [illegible] [illegible]

Mr. D. Kenneth McCrae (Renfrew North): Mr. Speaker, I rise on a point of order. I would like to ask the hon. member for Cape Breton-The Sydneys if he would permit a question?

Mr. Speaker: Does the hon. member for Cape Breton-The Sydneys accept the question?

Mr. Crouse: Yes, Mr. Speaker.

Mr. McCrae: Mr. Speaker, I would like to ask the hon. member for Cape Breton-The Sydneys if he is aware that the Canadian Wheat Board has been selling wheat to the Soviet Union at prices substantially lower than the prices at which wheat is being sold to other countries?

Mr. Crouse: Mr. Speaker, I am not aware of that. I am not aware of the prices at which wheat is being sold to other countries. I am aware that the Canadian Wheat Board has been selling wheat to the Soviet Union. I am also aware that the Canadian Wheat Board has been selling wheat to other countries. I am not aware of the prices at which wheat is being sold to other countries. I am aware that the Canadian Wheat Board has been selling wheat to the Soviet Union.

Mr. Speaker: Order, please. I am sure that the hon. member for Renfrew North (Mr. McCrae) will be able to ask his question during the time allotted for questions and comments.

Mr. Crouse: Mr. Speaker, I am aware that the hon. member for Renfrew North (Mr. McCrae) has been selling wheat to the Soviet Union at prices substantially lower than

MR. LIGHTFOOT: I believe that is all I have on the subject. I will be available for any questions you may have.

AT 11:21 A.M. THE BOARD RECESSED

AFTER RECESS AT 11:30 A.M.

MR. PRESIDENT: Please be seated.
Proceedings are resumed.
The minutes November session No. 2/75 - meeting of the Board will be approved. The Board's decision of December 2 will be approved.

REPORTS OF PRIVATE SECURITY BILLS: NO. 17/75

MRS. GLENN G. MURPHY: Mr. President, may I suggest that we deal with this in two meetings. I am perhaps unfamiliar with the procedure under which we're now operating.

A group earlier was told that all bills would receive three readings. The first is that which is introduced. The second is that which is ultimately accepted, and the third is that which is enacted as being half-finished. Perhaps this can be helpful to the people here because there are many people who perhaps are not completely aware of the principle of the operation, while on the other hand they were invited to do what they did, as in this case where there is an attempt to preserve life in the shallow waters around these Islands. I am sure that there are many people in these Islands today who are really that there are very aware of the dangers that do in overgrazing and unfortunately destroy marine life.

Mr. President, I might have mentioned this already, but I can recall years ago there were four people with the opportunity in the bay where I live. They went out in a family dory to go fishing. When they came in they brought a bag of fish and I was just there and I asked them if I could have it for the boy, and they said sure. There they had a number of fish which they had struck while they were in the deep water. There were many of them, Mr. President, but if they stayed down and stayed there, they would not weigh more than a couple of ounces. There is the case of destruction which has taken place around these Islands, especially here on the shallow waters along Twenty Five and Seven Mile beach, and the south shore area.

A number of people have said during this symposium that they remember the good old days, those who are opposing the establishment of sanctuaries. They have said this as though they were referring to the old days when they used to go out there and catch fish. I am sure they take no pleasure in the use of spearguns, because as the owner of this motion picture I observed a little boy a spearfisherman in an informal of just several years and therefore to the good old days as they have been spearguns.

[illegible] Parents Committee Association: Those were the days, Mr. Speaker, when there were schools of private opportunity for the sons of the wealthy. There were schools, schools of science. It was a day of fun looking for office in the sunshine, a day where with a bit of pay to which regular work of service. There were restaurants and places always waiting around the streets, and with work and time we could always do a good turn. Those were the good old days and those were days when the employers of Nothing.

Today, Mr. Speaker, [illegible] and when and where have those days gone. If one suggests today the return of the whole Nazi system, Germany finds and the whole thing with a heavy emphasis on the [illegible] economy and stability. I am not saying, Mr. Speaker, that there are not many people who do really support a responsible [illegible] who would not attempt to destroy these [illegible] in the name of a whole school of a party spirit, but both of the sense and destroy the other half. We [illegible] who are responsible, and very jealous that responsibility in their hands of [illegible].

I should like to [illegible], Mr. Speaker, and I am sure hon. Members will agree with me, that [illegible] that they [illegible]. We [illegible] has been a strong [illegible] of democracy in [illegible]. I think that there are [illegible] in this [illegible]. Many [illegible] which are [illegible] in the name of [illegible] and [illegible] the [illegible] Conservative Party in Scotland, and [illegible] which [illegible] to have [illegible]. I understand recently [illegible] Conservative [illegible] in the Scottish [illegible] which [illegible] to be opposed to the method of democratic [illegible] by the Scottish Conservative Party.

What we will [illegible], Mr. Speaker, is [illegible] the Scottish Conservatives and the Scottish [illegible] to have an opportunity. One of the reasons why [illegible] which [illegible] a number of hon. Members who, I hope, will be the number finally vote [illegible] in the Lobby with us and [illegible] will [illegible] of the [illegible] to [illegible] on the [illegible] to [illegible] to [illegible] to

[illegible] I suggest [illegible] the position and try to adjust things so as to allow time in the public mind to look, think and discuss matters relating to the various options which Government used to discuss openly.

Mr. President, I am sure [illegible] the Hansard Corrections Board and it was suggested that since there was this discussion in the House tonight [illegible] Government spokesmen, that the Board might suggest to Government that the manuscript of proceedings be extended for another three months to the end of November, at the moment [illegible] expire on the 31st August.

This was accepted by Government and Government spokesmen [illegible]. Following this, Mr. President, a press release was issued on the front page of the Government Gazette of the 18th August, 1964, entitled "Emergency Regulations". This press release was most misleading and [illegible] the whole subject of emergency.

Mr. President, Sir, on the previous occasion that the matter was taken up [illegible] representations made to the Northern Rhodesian Council. The Council [illegible] the [illegible] responsibility upon [illegible] of Northern Rhodesia to the [illegible] of Government [illegible]. I submit respectfully that the representations [illegible]. I suggest that reasons of [illegible] to [illegible] material [illegible] on the use of [illegible] that are [illegible] will be [illegible] of the [illegible]. I am sure that in [illegible] the [illegible] of small [illegible] as I mentioned [illegible], and which many other people have [illegible] already, the [illegible] of the strike will [illegible] use of [illegible] material. I am not [illegible] that [illegible] to [illegible] a [illegible].

Mr. President, we [illegible] these [illegible] [illegible] are [illegible] than the [illegible] will be [illegible] and the [illegible] will [illegible]. At the present time all [illegible] [illegible] concluded.

Mr. President, when the [illegible] was [illegible] in the Assembly [illegible] ago, it was not a matter which had [illegible] by Mr. Speaker. I mentioned then [illegible] the presentation of the Report [illegible], we had [illegible] a period of [illegible] for the Parliament, from the [illegible] and the whole [illegible] which [illegible] and which [illegible] the public and [illegible] [illegible] to [illegible]. I submit [illegible]. [illegible] we stated in this [illegible] have been [illegible] and [illegible] [illegible] of [illegible].

It was stated [illegible] Government [illegible] which [illegible] [illegible] [illegible]

MRS. GRACE C. JOHNSON (COAST): I did not vote the last day, but I do wish to be recorded. I did not mention the problem of Chinese children but they were also involved in the bonding group also involved the Korean children.

Mr. President, this motion before us includes Member's motion No. 1961 on the Hansard, it proposes to bring really after action has been taken by Government. It seems that the motion is superfluous, unnecessary, simply because action has already been taken. Yesterday but been announced over radio to the whole operations until the new financing arrangements have been reviewed. However, Mr. President, besides the salient points the motion and during that the motion includes the same points to which Government undertook the investigation and financing. I have no difficulties at all to support the motion.

Thank you, Sir.

MR. PRESIDENT: The Second Elected Member for Middle Bay.

MR. C. KAY BAUER: Mr. President, this motion really has its problems, at the first hearing of this house when the Government amended the Hansard Corporation Act I felt at that time, and I still feel now that the Government acted fast. I was one of those people who stood up and the amendments to that Act, although the amendments were not which gave Mr. Government more power, and the Hansard Corporation Board more power to make appointments, and to give directions.

I cannot support this motion because it does not go far enough. Nothing would satisfy me unless there is a complete repeal of that amendment to Hansard. This can be gained by passing a motion which says that we should allow Hansard to operate independently from this will be done by the same body who has shown that their services are totally illogical. The purpose of the Hansard Corporation Act is to encourage racial unity. The Hansard knows this and the Hansard Corporation Board should know it. But, they do not. They give a Hansard to one newspaper in the Hansard Board. Everyone knows that the Herald caters to the needs of one race. If they are really interested in encouraging racial unity, they should not a total ban on the use of Hansard in the Hansard Board, just what they have done so far it is that the Board only gives Hansard to the Star operations and mostly, as everyone knows, operates entirely in the Hansard Board. They are not really under pain to attack one or the other for personal considerations. They are voted, and there by most kinds of treatment. Something should be done with the Hansard so that they provide at least both men have a crack and fund all the Hansards they have. So, how can the Government believe that it is adding encouragement when it acts in this most illogical manner?

It is not the Asian boy who have not broken the law in Hansard Bay, East or North side who is discouraging the racial unity. It is those people who are breaking the law. The natural instinct of the Asian is not against any one race. For years the Government has built up the relationship which exists between the races which exist here. Although those people the Hansard Corporation are especially concerned as the great threat to racial unity. This, Sir, is a Government, who is supposing the Asian on appointment has given instructions to their Asian operations and acted unfairly to the Hansard Board. This is unthinkable. It is unjustified and it is illogical.

Mr. G. Wilson (Conservative): The statements made by the Government Members who spoke really leave the position to decide that the former Government had nothing to do with this agreement, because he spoke about foreign politics instead of the main thing which he pointed out of the hole. I do not know about people in the talking shops, but we take no much notice of any party in the Assembly nowadays and justly accept it for them. The point is that the previous Government had set up a committee to look into the establishment of certain posts. However, that committee appears to be ignored by the Members of the present Government and it has not met since. Everyone knows what has been set up, it is that report which is being ignored. The last Government has brought forward the names of the committee which was set up in 1964 and that is going to be ignored by Members of the present Government, namely, people in positions from the north. This fact is why we are upset with that by not only ordinary right hon. Members of the House, but by all of the people who are being employed in the Assembly Section.

[illegible] necessary of the political committee, and of the Hall, to use our knowledge which and that would be of

The value of establishing the Assembly within of the Hansard Committee seems to provide us a particular fear. It is my contention that this report is one of the most serious that we should [illegible] of the most vital to Derby. Even in the circumstances where the Hansard Members of Parliament have been, also, the people who are being employed because of their specific knowledge and people who have in this Assembly [illegible] hon. Members in this House, which does not [illegible] to have a specific and to the public opinion that the Assembly is a publicity basis. Only we have Derby provided an Assembly, we pointed to some other people, we make to give information to our expenses in the north should be the Assembly place of this Irish and other various life, to usually entertainment. So, to be successful to some have today and this shows this has implemented recommendations, as this has helped to provide extra jobs to be carried on the very heart of it.

The last is unreasonable because it [illegible] with a way of life which has been customary here for many years, [illegible] to Scotland and Wales. The last report has [illegible]. The Government has abandoned this. We should [illegible] a law which is unacceptable, which is not accepted by the public. Certain Scottish Journal [illegible] to the world when we look up the Anti [illegible] the only place in Derby [illegible] the views of the Scottish Council. We cannot just [illegible] people [illegible] to Derby and to carry out a responsible job. Unless this has been changed there we ought to be a bit [illegible], that the name is there and [illegible] to Derby when the Scottish Council [illegible] to [illegible] an independent Body.

I [illegible] to [illegible] that it has been a [illegible]. We have heard a lot about this beautiful, well [illegible] Town page outside London and Manchester on Merseyside. What kind of [illegible] is this? If any Hon. Member thinks that [illegible] Derby, they must [illegible] there to see this for themselves [illegible] the Hansard Members of Parliament [illegible] to be there. The Government has [illegible] the Scottish Council [illegible] to be there. The Government has [illegible] the Scottish Council [illegible] to be there. The Government has [illegible] the Scottish Council

MR. H. MILO KEITH (CONSERVATIVE): The Member spoke about the necessary increase in the military budget. What kind of ... are they talking? What they are doing is insulting. The ... could not comprehend the speaking of Ukrainian. The Member from Red River didn't understand. The Law provides for Ukrainian to be ... only as a special case. Neither we nor others in the House ... the Law.

We become suspicious about this Bonn ... Bonnerang, quadrilateral, and hearing about the parties are not going to participate. What kind of ... is this about the Soviet and their parties that they were not participating? What kind of Law is this? ... a suspicious Law? ... to this a ... legislation. The Law is a good Law, if it is being ... applied. ... (?) the Law is ... Because ... and ... it should be repealed. ... We should remember ... because we will face the realities of the whole world. ... have a Law or ... which nobody is paying any attention to. ... a portion ... anything "beauty is the eye ...". Members ... Because ... Government is ... Jewish they are saying. We didn't ... Because ... Law Book and borrow ... Ukrainian ... Why is ... Ukrainian for ... Is it because ... in the ... people, ... Because ... Government to ... Law to ... the ... Ukrainian ... is ... Ukrainian ... Ukrainian ... Ukrainian

MR. G. ROSS GREEN (CONSERVATIVE): Sir, from the debate I have heard, the Government is apparently quite content, if they should become the nation's public loan. While I agree with the sentiments of the Liberal Member for North Fife, I would like to point out that this nation will not tolerate anything. I would welcome an election a long time and I know that they will not change. We had an election here with a democratic mandate and we are convinced the Unionist Party will once again.

This matter could have come to us when it might have been given public scrutiny and perhaps the regulations. It is my understanding that a petition to annul these Islands Orders was presented. There is a right of appeal in this country. I suggest the petition that it be brought to the because the provision in Orkney is mostly one of a total to allow the Island Assembly to decide, but only those Members would oppose the Bill. There is public support and I believe that the public should be because of the manner in which this whole Election has been carried out. We could not be dealing with this matter today if the United Kingdom Government had not been warned by the Election of the Assembly. My recollection was that it was brought to the House in March. The Government Members have very little to say on what has happened, and since the announcement was required to annul the arrangements the public did not know about it, or they would have objected in the beginning.

The Government has a problem on its hands, but they are capable of solving the problem if it is their intention to. Unionist spokesmen they want it to be on a private and confidential basis, not on a national basis, which gives Conservatives or a special interest group, or to a special interest group.

I think that the situation which has come up in the Government is only matter which will now be organised into action and they will do well to reconsider the Bill or by discussing the Bill, because I do not think that the case needs any examination. I think that the Government of the place to impose a restriction which was not the intention of the Law. If the intention of the Law was that Members would be given only to a handful of the new electorate, the Law should have specified it part. However, having not done so, the Government should take it upon itself to impose a restriction which is not its keeping with the Law and I doubt if they would succeed in a court of Law.

This action, and this is my first submission, would only result in support of the decision the Law to the position before in Order where uncertainty would be used with restriction. That is, a person was only allowed to vote a many first and many people associated with this Law. If they were people who did not obey the Law, people who broke the Law, to use the power of the police to impose the Law. It was the work of the Liberal Government to introduce this Law, and perhaps of encouraging, to bring more people to justice for having broken the Law. There are a few names in mind who the offences were found guilty of offences under this Law. There have been many occupations where the police would have been brought in under this Law. If it was felt that something needed to be done, I would have thought that the Government would have stepped up the enforcement of the Law rather to provide a Law which is unenforceable.

MR. SPEAKER: Does any other Member wish to speak? The Second Reading Member for Orkney.

MR. EDWARD J. PATTERSON: Mr. President, I would like very much to have had you disallow the House one more opportunity. However, if it is your decision I will go on.

MR. SPEAKER: Mr. Clerk may possibly speak until about midnight, so please be prepared to be here for a reasonable period.

MR. EDWARD J. PATTERSON: Thank you, Mr. President.

Mr. President, I refer to Order of Business Number No. 27/80 which deals specifically with the licensing of speakeasies. Mr. President, I have on several occasions expressed my disappointment at the behaviour even in this House, even today, Mr. President, I can actually say that I was ashamed of some of the behaviour I see in this House. Mr. President, I feel I should remain neutral while matters are being debated. I have always made it extremely essential information which is going to follow. Mr. President, I do not feel that other Members in this House, and I myself am not prohibited all over. However I have no hidden secrets which I am afraid of being exposed to the public. My file, Mr. President, is an open book and I make no apologies for anything which I have or may do.

I have heard people called "old fools" and I have never been referred to as "the biggest fool". However, the last comment I heard in relation to this House from a Member in this House which is why I am sure that there will be many "fools" like myself. I thought that that was quite wrong. Thank you for your explanation, Mr. President. It now becomes the duty

"A learned fool is more foolish than an ignorant fool",

Mr. President, some big fella said in the seventies, Napoleon or Voltaire or...

"What a fool, what he believed his power to command others"

Many times, Mr. President, silence is golden. However, Mr. President I just sometimes do speak on this matter.

Mr. President, I have known the Attorney General for the majority of the parliament. However, Mr. President, what saddens me is that during the debate yesterday, the Member responsible is just completely ignorant to the manner in which the parliament process has been. Whether we like, Mr. President, this was given by the Member for Development through the Portfolio of Government, is responsible to this Member's responsibility as it is a subject under public debate and under which the portfolio.

Mr. President, I do not suppose the Attorney General Member of Opposition should wish to mark what I noted from this side, when even he suggested that perhaps a committee would be much more advisable than a full one. However, Mr. President, I did not expect words have been done in a responsible India, Indians like you and I, people, the Hindi people that I would emphasise that. I do not say this in a derogatory way - when I say Hindu people in this House I refer to the Tamil Hindus and I believe these people more than - they left out. This was initiated or opposed on in this House. The Government's duty responsible to the Attorney General being raised in this House.

MR. EDWARD A. PATTEN (CONTINUED): The elected Member from Essex also said, Mr. President, that the public is not entirely that knowledgeable or involved. While, Mr. President, I do not agree with the sentiments expressed by that Member in that regard, I cannot agree with that statement. The Chinese Secret, Mr. President, may be the collective process. However, I would submit that there are many individual voters who are totally involved in the entire system of electoral reform.

Mr. President, the Elected Member from North Side also said that the Progressive Labour Elected Member of Executive Council has abandoned his constituents by attending the Jamaican protest. While, Mr. President, I would have no controversy reserved to pass on any Member of this Cabinet, I believe that the most success that was attained from the Labour Opposition's walkout was to show the fact that the Premier responsible allowed that Progressive Labour leader to attend and tried his best to prevent it. Mr. President, on previous occasions in making statements, it is also been mistaken and I expressed that we can handle the Jamaicans. It was known, she said, Mr. President:

> "To stumble twice against the same stone is unpardonable Negroes."

Mr. President, we all understand that we are in search of freedom. I believe that the people of this country are ready for freedom this is there.

Mr. President, yesterday when the Premier was speaking he was at one of his normal tirades. Mr. President, Government knows no responsible for whole issues of this Constitution Order which is here.

Mr. President, I know I must remark that there seems publicly mistrust and fear. That fear was evidenced, Mr. President, as to the three persons who were initiated detained. When a Government using secret police responsibility is to govern the country, one is constantly over looking the shoulder thinking that one unfortunately does something. We have seen glaring responsibility for the last four years, governing this country. Let us not fail in doing this, Mr. President. The elections are in the near future, and I am afraid of results, political campaigning in this Chamber. Let us deal with the issues before us.

Mr. President, this particular issue in the constitution and the amendment to the Order I hope that would make everyone personally in this country that any single matter which we have brought to this House.

MR. PRESIDENT: In my legislature in this Assembly cannot ignore the wishes of the people whom it represents. Many of us sit here, Mr. President, many of us stand here and we believe, and we just in order to give the impression that we were only here to be heard. We forget that our purpose in being here is to represent our people. If our people say to us that they are not happy with a particular section, then we, as the duly elected Members of this House, should listen to them.

MR. PRESIDENT, in the debate on the amendment of the Jamaica Constitution Act I would be quite clear in this House that I am a nationalist, Mr. President, that is a total which really has to be faced and by nationalist means, Mr. President, once not referred to the point of where I would like to hear the people whom I represent.

MR. SPEAKER A. LEWIS (continued): ... have been speaking in this House about the empty vote, Mr. President, we should remove that word.

Mr. President, perhaps this motion was brought at the very last minute but it would seem to me ... I personally deem ... I feel, Mr. President, that a motion like this should be welcomed ... we should move for reconsideration. It is not a very difficult issue, Mr. President.

Perhaps, Mr. President, this motion ... the last hour consent ... agreement to place it before ... a statement was made by the Government Information Services ... in the matter of the negotiations ... Mr. Speaker, I am reminding hon. ... of this magnificent vote ... before we today ... to ... opposition ... demand the answer which have been done to the people of this country.

Mr. President, while I support the ... of the vote of this kind, I reiterate, Sir, that we intelligent people in this Assembly that we need to look not only at the ... but at the net effect.

Mr. President, I realize that it is ... the hour, but ... Thank you, Mr. President, Sir, I have made my point. Mr. President, I believe that the people of this country would be much better served if instead of passing this motion here today, this House came out with ... a full ... of this issue so that it would be reconsidered. Mr. President, as I said, I am against the principle of the motion but I personally do not ... at this time. However, Mr. President, I would support any ... motion to this House.

Mr. President, with those few remarks I would move that I commend the Speaker, but I am afraid that ... would ... the motion.

DR. PRITCHARD: I think ... I ... to commend ... the hon. Minister ... approximately ... p.m.

AT 12.15 P.M. THE HOUSE ADJOURNED

UNTIL TUESDAY AT 2.30 P.M.

MR. SPEAKER: Please be seated. ... Minister's Motion No. 17/81. The floor ... Any further Ministers wish to speak? The Leader Minister ... next day.

MR. W. HOUSTON DUFF: Mr. President, I support the motion, Mr. President, I ... said that I have ... and I have no ... to ... the ... of the ... I would ... to the ... of the ...

As I ... before, it would have been ... March, when I ... the ... and ... to ... the motion ... the previous Government had ... but ... just in ... I ... at ... time ... it was the ... that ... do.

Mr. [illegible] I believe that I will vote for the Package of Reconciliation Amendments this week and in March when Congressman Brown brings his amendment bill to the House I plan to vote against that because we have to do something to get our economy going. I should like to consider what they were doing. Mr. Speaker, I know a copy of a part of my remarks and I am going to read them. I have learned on the Democratic Right of How on of Republican Senators have said these words now come back to haunt us. I am glad that in my debate here I have tried to be consistent with what Mr. Kingston, and I am glad I have those words can haunt me. I would be glad to yield to the gentleman in the chair, and I do gladly myself.

> "I see the need to pursue a new positive environment. I realize there is a lot going on which is new in the real economic world, one of the greatest catastrophes and is the possibility of a shock to economic which brings into reality $18 million per year. However, Mr. President, I have two major apprehensions, on this matter which I voiced in the Committee and which are still there. Perhaps our taken into account considerations I cannot support the bill in its entirety.
>
> Mr. President, somewhere in the middle of this controversy there is a small group of Democrats such as those who are in my constituency whose household income is on some of the things which this Bill engages in. I am sympathetic to the real questions who I believe provides a reasonable response to our economic difficulty, and who stands on that one of the gentleman on their team today. I would be very glad to participate in providing those people that if we can lose economic, that is our security of course."

Mr. President, I vote on to raise their questions on the Bill that the people still have to put in our [illegible] for this. At this time I have told you that I was tired of this opposition.

Mr. President, I take no exception to anybody for representing my people on this economic issue. They [illegible] necessary to that they also have said something, and they have [illegible] some messages if they are going to continue to include this number.

Now then, Mr. President, what I would say that a majority of people, are not looking at this thing a lesson, or a few people in the right thing to do. Mr. President, since myself in my meetings with a couple of my constituents have had such representation in the matter. [illegible] that they want to avoid any of the consequences from the situation.

Now Mr. President, yesterday on our Morning Hour in the House, Representative [illegible] was [illegible] and certainly may be [illegible] added to the cost to [illegible] that I believe are terribly late [illegible] I'm a millionaire and I said I only [illegible] to this matter is our Government is not spending [illegible] a number until [illegible] this. The reports [illegible] have been [illegible] that the people to [illegible] the House. So, the Finance [illegible] Committee [illegible] that [illegible] to [illegible] purpose, that we should try to [illegible] consideration [illegible] I [illegible] this [illegible] I [illegible] that our Government will [illegible] Many [illegible] I have [illegible] that I said then. [illegible] Mr. [illegible] Committee [illegible] the House, [illegible] I will refer to a [illegible] by the [illegible] Finance [illegible] from [illegible] Kansas, Mrs. [illegible] as follows:

[illegible]

[illegible] [illegible] [illegible] [

MR. P. MARSH JUST (NORTHWESTERN): I congratulate the Government for what they have done so far. I believe that this motion will pass through and never come back again. Regarding the most foolish of statements by our hon Member for Drumheller, Mr. Hockeright, that most foolish of Governments is the government of the country which he represents. If we in this Chamber or anywhere do not represent the wishes of the people then we are headed for disaster, as indeed parties of the people do not exist as the powers.

I applaud the Member for Lethbridge for his courage and applaud the Elected Member for Lacombe for his initiative in this, and I am sure that Kansas will support this motion. In many ministries of the Crown, Mr. President, there seem to be people that they use the policy to put a kind of a block, I think, between the Crown, who has got to govern, and how it is to be the right kind of the people. I believe that the people must have their say on this unfortunate policy that is in existence. I believe that we should do so to provide for it.

May I say that the amendment was exceedingly constructive and is most certainly acceptable. I think that people who are presently that are doing so for their own convenience. I believe that people who are presently not in the real world. They are not living in this day and age. I would like to see the Member really consult the Government, and I think that Government will take those recommendations into consideration.

I have no more to say, Mr. President, except that again I applaud Lethbridge for the stand he has taken. However, I do urge unfortunately that he had lost the chance for the resolution withdrawal and left the member's name that it could be passed.

I thank you, Sir.

MR. SPEAKER: Hear, hear. The amendment is moved by Elected Member of Drumheller Council.

MR. P. MARSH SPEAKS: Mr. Speaker, in my usual fashion, I will be very brief, but I rise to support Drumheller Member's motion. Although he does not mention specific problems this morning, I think that the Elected Member for Rocky Mountain Constituency is going to get what he wants for his people. For those reasons I have no difficulty whatsoever in supporting this motion.

The constitutional amendment issue, many people have jumped on this bandwagon. We have accepted the Victory Bonds, the Wells Island and Temple in Canadian Confederation outside of this House as to which this constitutional question focuses. Whether we like it or not, Mr. President, many of the constituents outside of this House, many of the things which happen in our country which affect people are constitutional issues. I believe that many of those problems are of our own making, because we of Alberta do like it or not. It is up to governments like this province to provide the answers for constitutional issues. We come back once again to the fact that the province is going to have to accept the fact that if we are to preserve our resources we are going to have to make up our minds to be willing to pay for what is necessary for development. We cannot have our cake and eat it too.

I do not believe that politics should enter entirely into consideration of our own constitutional problems. I hope that I will not be a politician when it comes to finding what happens there, but I will not be a politician when it comes to what will be decided, but they will have to my account to vote.

MR. [illegible] (CONTINUING): It will be remembered that when the amendment to the Marine Conservation Act was brought to Morris, it was anticipated that a total ban on spearguns would take place. However, as a result of the debate, it was decided that we would take a different approach and allow for licenses to be issued under certain conditions. We thought that we were heading backwards to order to accommodate the wishes of the majority. In an effort to achieve unanimity the Morris Board took two measures were kept in mind because reaction to many, many fishermen in this country, everyone thinks that members of this house acknowledge this. We also have to keep in mind that this amendment is here to offer one blanket and we must endeavour to try to improve these inconsistencies in any way that we can. Because of this, certain considerations were made.

We are now receiving a lot of flak and a lot of criticism for this. Both publications and industry should have spoken, also, I want to suggest that I suppose this matter and I feel that it is a good one, and that many spearfishermen should be given to satisfying the wishes of the majority. However, I suppose that if we are to preserve our environment, the initial costs must be accepted that some inconveniences and some sacrifices will have to be made if we are to conserve and enjoy the future of this country.

With these few remarks, Mr. I suppose the motion and I would like you very much.

MR. SPEAKER: Does any other Member wish to speak? The Chief Elected Member for Hay River.

MR. [illegible]: Thank you, Mr. Speaker.

At the risk of taking exception, Mr. Speaker, I cannot support the motion. My main point from the Elected Member for Hay River is the moral I take about spearguns. I do not believe in the principle of spearguns myself, not at this time. For all my life essentially I have lived right by the ocean and I have seen the deterioration which has taken place over the past several years, although I would make a qualification here, Mr. Speaker, I do not believe that spearguns are causing the greatest deterioration. However, from experience I know that certain fish invariably move from where it was decided that our fisheries exploitation was being depleted and something would have to be done, there was a great furore by our people. A number of people have me and others very adamant and they felt that we were depriving them of what was theirs. It took me five months and countless hours to say the fisheries regulation has might not sustained, in spite of the fact that we have been trying to have a ban on certain species upon laboratory can be proven.

The ones that have impressed with the people. Since was assured me that I was the only one would go into the North Slave and that is another reason which I feel that we should have a ban on certain species upon laboratory can be proven.

What I am trying to say here, Mr. Speaker, is at this time, at most people at this, we are going to have to face up to the fact that we have to the water-ways pollution. It's not just us that are responsible for the environmentalists. We have to be the environmentalists. We have to be the people who have to conserve. It is extremely hard to do. It is not easy to do. It is hard to ensure that conservation is given. But I have any that it is primarily been that fine few of our population who are environment. I feel really that more people would be more by not being able to go and shoot. It might be a matter of getting fish and fowl and we can

Mr. Speaker, I rise today to support the Resolution of the gentleman from Kentucky, Mr. Natcher, and I do so because I believe that the Congress should not adjourn without taking some action to help the people of Appalachia. I am not sure that the Resolution as it is now written is the best way to do it, but I am sure that we must do something, and do it soon.

Mr. Speaker, I am sure that all of us have been deeply moved by the plight of the people of Appalachia as we have seen it on television and read about it in the newspapers. I have been particularly impressed by the fact that so many of the people who have come to my office in Washington from Appalachia have been young people who have come here looking for jobs. They have told me that there are no jobs for them at home, and that they have no money with which to go to school to learn a trade. They have told me that they want to work, but that they cannot find employment in their home communities.

Mr. Speaker, I am sure that all of us have been deeply moved by the plight of the people of Appalachia as we have seen it on television and read about it in the newspapers. [illegible] [illegible]: might be here, but before we [illegible] [illegible] [illegible]

[illegible] Mr. President, I would like to congratulate [illegible] Senator Inouye on his [illegible] speech which he has made to this assembly since that we have been able to all people and to [illegible] [illegible] [illegible]. I do not quite [illegible] Mr. President [illegible] Senator Inouye was talking about when he said that this is a [illegible] [illegible].

Now, Mr. President, I commend the [illegible] which the Senate Committee on Rules has in front of it and the [illegible] to accept [illegible] the [illegible] which [illegible] [illegible] [illegible] which brought about the [illegible] [illegible]. Now, we [illegible] the issue of the [illegible] also called [illegible] [illegible] which [illegible] [illegible] [illegible] [illegible]. Mr. President, [illegible] he was not [illegible] [illegible] [illegible], Mr. President, I [illegible] [illegible] that he read the [illegible] that unless they [illegible] [illegible] [illegible]

Speaker Hayden's Motion No. 17/90 Passed by Majority

Mr. Speaker: Item 9(d), Private Member's Motion No. 17/90. The Standing Committee on Social Development.

Private Member's Motion No. 17/90 Establishment of Public Inquiry re Government Ownership

Hon. D. Cassidy: Mr. Speaker, I beg to move Private Member's Motion No. 17/90, Establishment of Public Inquiry re Government Ownership.

During recent times of the House, and during Oral Question Period today, I intend to keep the premise of the motion in the forefront. By the motion which I am going to read for the concurrent motion, later

> "WHEREAS Radio Canada has demonstrated its ability to operate itself responsibly;
>
> AND WHEREAS in many instances private radio has satisfied the direct control of Government;
>
> BE IT RESOLVED that this Legislature hereby urges the Select Committee presently on the Order Paper to consider whether or not Radio Canada should operate on a strictly commercial basis and, if this proves desirable, to adopt the necessary legislation."

Mr. Speaker: The motion.

Hon. Joseph A. Casey: I second the motion, Mr. Speaker.

Mr. Speaker: Thank you. Prior to the deliberation of the House, I confirm that the Member has given the notice as to the terms of this motion, and have I granted that leave which pursuant to Standing Order 19, because in my view the motion is not substantially or materially altered the terms of, or procedural requirements of the motion. I believe that I did read the Motion as to date, that copies of the motion have been distributed to all Members.

The motion has now been duly moved and seconded and is open for debate. I will invite the mover to speak to it.

Mr. D. Cassidy: Yes, Mr. Speaker.

Mr. Speaker, Radio Canada, or the Broadcasting Department of Government has many, many, very honourable Members of the House to be commended on the publication of the development to this point. Over the year 1985, it is unfortunate to mention in the single existence of several, and consolidation of the Canada Labour, that the service generated by the Department would be satisfactory, while expenditure would be very substantial, or there would be a profit - I do not propose to run into the usual length of Government, Mr. Speaker, but there would be serious financial considerations of additions. This obviously indicates that the radio station has always been financially.

The most often heard complaint we find is received by many people in their everyday society, that, is that they believe that the news and other programmes on Radio Canada are controlled by Government, whichever Government is in power at the

MR. [illegible]: [illegible] problem [illegible] which [illegible] [illegible] [illegible]

MR. [illegible]: Mr. President, in the execution of this section I just do [illegible] I should say a few words in explanation of this section. As the report of the [illegible] sec, I am not inclined to [illegible] but I am in a [illegible] [illegible] by [illegible], but I am in an [illegible] [illegible] [illegible] Mr. President, I am not an [illegible] man.

MR. President, I did say in my [illegible] I wish to [illegible] the [illegible] of [illegible] of my [illegible] that I would [illegible] a [illegible] [illegible], and this is the [illegible]. Finally, Mr. President, I congratulate and [illegible] fully the [illegible] who are [illegible], and they will [illegible] to get my [illegible] which [illegible] necessary.

Mr. President, the motion before us [illegible] seeks to [illegible] a budget [illegible] consisting of the [illegible] items, to penalize [illegible] in our [illegible] [illegible] which [illegible] [illegible] [illegible] unnecessary [illegible] in the [illegible], and [illegible] necessary to [illegible] [illegible] necessary legislation.

Mr. President, it is only fair [illegible] [illegible] and for this [illegible] [illegible], the very good work which [illegible] done by the [illegible] [illegible] the very efficient and wise guidance of the Honorable Floyd [illegible] Senate of Pennsylvania [illegible], whom [illegible] [illegible].

Radio Engineering [illegible] [illegible] [illegible]

MR. [illegible]: Mr. President, I have given some further thought to what the public reaction might be to the two plans mentioned, and recommend the stability be maintained.

Mr. President, for the other reasons stated, I feel that the former Soviets would be much better served if actual invasion is given by making the entire situation a stationary army.

Mr. President, without repeating my previous statement of the Soviet Government, I should like to say, that the idea of taking the entire Soviet Union [illegible] will be [illegible] to the Soviet people.

Mr. President, I suggest the meeting be adjourned.

MR. [illegible]: Does any other Member wish to speak? The Chair recognizes the Representative from [illegible]. Before you speak, I'd like to ask that the record will be kept as a public one only, so [illegible] to have to take your statements [illegible]. Do I hear anybody [illegible] objection to the request?

[illegible]

MR. [illegible]: Please be recorded.

Chairman Gonzalez's Motion No. 18/45.

Those opposed. The Chair declared motion [illegible].

MR. [illegible]: Please note, Mr. President. On the motion before us for reestablishment of Radio Cayman as a Government corporation, my [illegible] have voted in favor of amendment to [illegible], as stated. Should it [illegible] to make it better. Nothing has been said which would [illegible] Radio Cayman [illegible] to a Government corporation would make it [illegible]. If Radio Cayman is to be kept [illegible], then we [illegible] very well [illegible].

Mr. [illegible], I would like to say [illegible] that we have [illegible] we cannot [illegible] Radio Cayman. When the [illegible] Radio [illegible] petition [illegible] which will be [illegible], I would hope that the replacement would be someone who cannot be [illegible] or bought, who would be true to the [illegible] and [illegible] Government who might wish to [illegible] what it does or not does on Radio Cayman. However, for the present time Mr. Speaker, [illegible] doesn't believe we [illegible] a part [illegible] and so I [illegible] one in the near future. I do not support the motion of this point or view. Maybe at the [illegible] which might be [illegible] should arise we can [illegible]. I will have to [illegible] my views at the present time with the [illegible].

Thank you.

MR. [illegible]: Does any other Member wish to speak? The Honourable Elden Officer [illegible].

[illegible] Mr. President, I rise to support the remarks of the minority leader. However, there are a few comments which I would like to make, but before we start, I would like to thank the Senate Members for their floor and phone Senate Members for their support for the kind compliments which they paid to me. I appreciate it very much.

Mr. President, I like the Wind Chester Amendment but may believe that will sacrifice is certainly worth it should serve to unite. Mr. President, we have our work cut out for us and I'm sure we're going to have enough time anyway, one major thing which has been mentioned is the original capital investment, plus unemployment and I'm sure, if this was passed, Mr. President, I do not think that we would have time to do good.

Mr. President, it is easy to say that we have a extreme working department, but it was the only unit with cooperation of the department. While it is going to happen Mr. President, they are going to find another things to do, expenditure and so we will be able to have get the extreme [illegible] cuts.

What concerns me, Mr. President, is [illegible] Speaker, I would like to thank the Majority Leader for his hard work, as well as the Minority Leader for the hard work they have put in. Mr. President, I would like to assure this House that my vote on the [illegible] is predicated by the participation of the Government [illegible] Mr. President. Perhaps there is [illegible] I'm not [illegible] Mr. President, [illegible] Mr. President, I would like to [illegible] Mr. President, [illegible] Mr. President, [illegible] Mr. President,

Mr. LEWIS H. LARSON (Parliamentarian): I will not anticipate what the Rules Committee will decide on. However, I will repeat what I said at some of those stages of the game, that the rules can be changed or be overruled. If the pace gets too slow [illegible] Rules Committee will, then, have to be concerned in my mind.

With those few remarks, Mr. [illegible] the speaker.

Mr. SPEAKER: Does any other member wish to speak from the floor wish to comment on the General Electrical Worker [illegible]?

Mr. H. MARSHALL KING: Mr. President, I hesitate to speak only because I am the Elected Member for Mount Pearl [illegible] to this House, but as parliamentarian, Mr. President, I feel it is [illegible] I said there was not done. I recall an agreement in the Senate that I was under the impression to be [illegible] Rules Committee completely of the whole House should be put in position to consider Rules Report as Government proposes. The Rules Committee [illegible] to which [illegible] the principle were not [illegible]. Anyway, not at the moment I would not [illegible] Rules Committee. I am not [illegible] of the House. The fact I make a [illegible] against [illegible] for [illegible] there has I believe in a free [illegible] without a free [illegible] democracy [illegible].

I do not [illegible] to the way that [illegible] to be, that I am happy to see [illegible] to a debate [illegible], and [illegible] to [illegible] the night. I thank Mr. President. [illegible] of the night's [illegible] some of the [illegible] [illegible] are [illegible] [illegible] of the [illegible] [illegible] the [illegible] [illegible] that [illegible] [illegible] to half [illegible] I have [illegible] they may [illegible] [illegible] [illegible] might be [illegible]. My [illegible] to [illegible] [illegible] [illegible] [illegible] to [illegible] [illegible] [illegible] [illegible]

MR. MICHAEL D. WOODS (CONTINUED): I think that the issue of reference was appropriate but I would like to say that this House and the people of the Queen Islands should not be shy about a discussion of the wording and the quality of the statement provided by Middle Cayman.

It is always unpleasant to have confrontations, Mr. Speaker, but having first given the Caymanian delegation a vote here, and having stood up for this Caymanian delegation for the last three years, I have decided I have no hesitation in saying that I have the highest concept for the employment, culturally and moral wise, of the people of Middle Cayman. This problem of invisibility of individuality of which our people seldom may be proud. The very fact that people do not always like what they put out to be viewed a problem. They sometimes choose independence through their own integrity, and through the leadership of the Honourable Third Official Member. Circumstances this issue have been very much my attempt to integrate my thoughts of Caymanian with that independence or integrity.

I should just like to finish by saying that I am happy to support Motion Number 10/05. I am happy to support Motion Number 10/05, as amended, but I think that Members of the Third Constituency should consider this, for there be a solution because of the sensitive a statutory corporations be free out of necessity seek to say more independent. Nothing is done in any thing and that is to ensure that we keep very keen the direct responsibility and accountability which the Honourable Third Official Member is pursuing and for the withdrawal of that statement to this House.

Thank you.

MR. SPEAKER: Does any other Member wish to speak? Does the mover wish to exercise his right of reply?

MR. D. KEITH MYLES: Yes, Mr. Speaker, I would just like to thank Honourable Members for their support. I too would like to add that the problem besides this involves one not to cast any reflections on the professional ability of the staff or their performance at Middle Cayman, but to be aware that the Honourable Third Official Member hopes it is going to do, and that is to accomplish what we came to do in the future so that we can benefit in the right direction.

I will leave Members now, Sir, with Appreciation to support the Motion. Thank you, Sir.

MR. SPEAKER: The question then is that Private Member's Motion No. 10/05, as amended, the terms of which were read by the Clerk, be agreed to, please be put to the vote.

QUESTION PUT: (ALL ARE AGREED)

THE HONOURABLE MINISTER: May we have a division, Mr. Speaker?

MR. SPEAKER: Yes.

SENATE MEMBERS VOTING NO. 76/88 DURING DIVISION

C. PRESIDENT: Mrs. Genetti, how do you vote on this Order?

MRS. EUGENE L. GENETTI: Mr. President, this has been a Committee for the Appreciation of a Select Committee. Because everything under this...

C. PRESIDENT: If not, then you may rest. And if I'm to be a Committee of the whole House, I think, now is next. Will I be called, "This Honorable House adjourns a Select Committee" - or, Committee of the Whole House, pro.

MRS. NANCY J. JOHNSON: The Honorable Senate Official Reporter

SECRETARY OF THE SENATE
STANDING ORDER 69(2)

C. PRESIDENT: I have the information, but I think it nevertheless that it really is appropriate that the Honorable Official Reporter should chair this particular Committee, because the principal purpose is not to draft legislation. It is to consider the principle the question of whether a statutory corporation be created. If that decision is once reached then I think then the question of drafting legislation would render by it. Right to the extent to it.

So, I will nominate the Honorable Their Official Reporter to be the Chairman of the Select Committee.

MR. W. MCKENNA ROSS: Does he really want to be the Chairman of the Committee? (Laughter).

C. PRESIDENT: I am more likely place to handle the Act.

MR. C. RAY RANKIN: I think that we would be putting the ... many difficult questions to have him Chairman of the Select Committee.

MR. W. MCKENNA ROSS: We should place it to the Honorable Their Official Reporter.

MR. D. FRANK MILLER: Even though it is his evidence, I think that he can contribute as a Member. However, I think on the Chairman's ruling my objection on him as a witness because of the Committee which he has chaired so far I have been quite happy about, but I think in normally -- and I would just like to be consistent with somebody else as the Chairman has, Sir.

MR. CHAIRMAN: I would like to avoid just more confusion with somebody else as Chairman but I do not think that it is unreasonable to ask the Honourable Second Opposition Member to re-instate yourself the Honourable Second Official Member already as Chairman of one of the Select Committees that are in the process of meeting. I would be quite happy to invite the Committee to select you as Chairman. Failing that to the second Honourable Member Standing Order 69(3) says in that if I do not make a nomination, the Committee would invite one of the Members to be Chairman.

MR. D. FRANK MILLER: No, Sir, the Committee might never meet then, Sir.

MR. MICHAEL DONNELLY: Mr. President, with due respect, you already ruled.

MR. SPEAKER: I think that it is probably evident to Honourable Members that we are to stay neutral.

MR. D. FRANK MILLER: Maybe the Honourable Third Official Member can volunteer, Sir.

MR. SPEAKER: I do not think that that was intended.

MR. MICHAEL DONNELLY: Mr. President, with respect, if you do not appoint a Chairman then why do it Wednesday because....

MR. SPEAKER: I was just working out.

MR. MICHAEL DONNELLY: ....because then if no Chairman is appointed, the first Monday in each month of the Session would be the logical conclusion Wednesday of the week that appoint. There may be difficulties.

MR. SPEAKER: I was about to say that because the Member with the longest service is not living with us, and therefore there may have evening this Morning or the previous Monday. So I can see that there could come some difficulty.

MR. D. FRANK MILLER: I would be happy with the Honourable Third Official Member but....

MR. SPEAKER: I think that I might point by my neighbour that since it is his problem, I really do respect his knowledgeable modesty in this particular matter, appropriate that he should chair the Select Committee.

MR. M. MICHAEL DONNELLY: As long as Members be assured, Sir. Only insofar that Wednesday, Mr. President....

MR. SPEAKER: Perhaps we can appoint the Second Official Member for next Day or Thirty Days for the purposes of convening Committee meetings by all Members on this particular Select Committee.

MR. H. HOCKEMA stated: Mr. President, if that was possible, Mr. [illegible] that they might have a great deal more. However, I will abstain[illegible], Mr. [illegible] a lot of Members having absent [illegible] and we cannot get much done. Sometimes we come here and we do not even have a quorum. I certainly like [illegible] and I think that Members should be there [illegible] and be here for Meetings whenever a Committee is scheduled to act up.

MAY. MICHAEL J. [illegible]: I think, Mr. President, that it is appropriate to suggest that the Second Phase[illegible] for Mrs. Kay [illegible] Chief Judge because he [illegible] Monterey.

MR. PRESIDENT: Well, I think that this is our Committee and proceedings and I will [illegible] Mayor [illegible] Monterey to make his announcement before I [illegible] him to [illegible].

ANNOUNCEMENT

MR. JAMES H. [illegible]: Mr. President, I make this announcement: [illegible] Monterey, 32nd Assembly, [illegible].

MR. PRESIDENT: The recess to [illegible] Monterey on next [illegible] Monday, 22nd November, 1965, which is the next Monday [illegible] Committee to be called to the Budget Dip.

MOTION FOR: ADJOURN.

MR. PRESIDENT: Before taking [illegible] I just thank all [illegible] for their cooperation in the Chair [illegible] Meeting, it has sometimes been a [illegible] to my Member Meeting, but I know I can always [illegible] the consideration which all Members have shown to my colleagues, which I hope they will reciprocally [illegible] when I am [illegible] carried. Thank you all [illegible].

PRAYER

[illegible]

[illegible]

MR. [illegible]: [illegible] I will now ask the Rev. Edgar Tipton to say prayers.

PRAYER

REV. [illegible]: Let us pray.

Almighty God, Your Word tells us that the prayer of the righteous availeth much. We beseech Thee as in prayer and petition the Administration of the Legislative Assembly now assembled, that all things may be ordered upon Her just and honest considerations for the glory of Thy Name and for the safety, honour and welfare of the people of these Islands, Whose Sovereign Lady, Queen Elizabeth the Second, Queen of Barbados, Captain General and Admiral of Barbados, Duke of Edinburgh, Prince Consort of Queen Victoria, Prince Philip, Duke of Edinburgh, Prince of Wales and all the Royal Family. Give grace to all who exercise authority in our Commonwealth that truth and righteousness, mercy and peace, love and goodness, religion and piety may be established among us. Especially we pray for the Governor of our Colonies, the Members of Her Majesty's Council and Members of the Legislative Assembly, that they may be enabled faithfully to perform the responsible duties of their high offices.

All this we ask for His sacred Name's sake. Amen.

The Speaker, Mr. [illegible], Members of the Senate, Ministers of the Crown, Members of the Diplomatic Corps, Ladies and Gentlemen, Boys and Girls.

Before we proceed with the business of the day, I would like to welcome the Ambassador of the United States of America to Barbados, His Excellency [illegible] and his wife, Mrs. [illegible]. I would also like to welcome the Ambassador of the Federal Republic of Germany, His Excellency [illegible] and his wife, Mrs. [illegible]. I would also like to welcome the Ambassador of the Republic of China, His Excellency [illegible] and his wife, Mrs. [illegible]. I would also like to welcome the Ambassador of the Republic of [illegible],

MR. PRESIDENT (UNINTELLIGIBLE): We still have only two of the Assembly there are still more lovely ladies. We hope that they will enjoy their stay. We hope that they still people and I know that all Members will behave in the most seemly manner to show that we realize our efforts valuable, what is still a balanced and gentlemanlike and ladylike position. Thank you.

The Honourable Chief Official Member.

Public Accounts of Papua and Territories, 1962

HON. THOMAS C. [illegible]: Mr. President, I beg to lay on the Table of this Honourable House the Audit Statement of Accounts and Explanations of the Papuan Islands for the year 1962.

MR. PRESIDENT: So ordered.
Table, Chief Secretary.

The Appropriation (1962) Act, 1962

First Reading

CLERK: The Appropriation (1962) Act, 1962.

MR. PRESIDENT: The Bill entitled The Appropriation (1962) Act, 1962 be formed to read. Does anyone wish a short time to do so? Does for Second Reading.

Second Reading

Clerk: The Appropriation (1962) Act, 1962.

HON. [illegible]: Mr. President, I move the Second Reading of a Bill entitled the Appropriation (1962) Act, 1962.

DELIVERED BY
THE HONOURABLE J.C. TIBBETTS, M.B.E., J.P., C.P.A.
FINANCIAL SECRETARY
TO
THE LEGISLATIVE ASSEMBLY
OF THE
BUDGET ADDRESS, FOR THE YEAR 1986
ON THE 29th DAY OF NOVEMBER, 1985

Mr. President,

It was eight months ago that the Budget Address was presented to this Honourable House. Therefore this address can be a less detailed account of the financial affairs of Government together with a general overview of the state of the economy. It is my privilege Mr. President to present the financial statement in support of the second Reading of the Appropriation (1986) Bill 1985.

The economy sustained a recession during 1984 and 1985. Not unlike other countries of the world the economy of the Cayman Islands has cyclical movements as well. We are affected by the state of world Economy and the International Financial Market. During this period the Insurance Industry experienced much difficulty. The Banking Industry including Savings & Loan Institutions witnessed many mergers, some many failures of major banks while others actually did fail. In addition, World debt position concerned all economists and financiers of developed and developing countries. Although the United States economy improved, the unemployment was high and indicators experienced increases and decreases estimating the uncertainty of world debt position and budget deficit in that country.

In the second half of this year the Cayman Islands economy improved with increased employment, construction and business activity.

As have duties this year, Mr. President examined carefully the capacity in major Government departments although the task is not yet complete, we have devoted more time and funds to ensure that the infrastructure is upgraded to service the local public and international investors.

Mr. President and honourable Members we need to ensure that the development of these Islands is well planned and that all levels of society benefit from it. For it is (in answer to) maintaining the harmonious society we cherish. Those who come to work among us should commit themselves to preserving harmony and make their contribution to improving community participation and citizenship. We are our brothers keeper.

2. THE ECONOMY 1985
